

MGE 461

Chapter 461 – Coercion

With an expressionless expression, the Second Elder raised his hand: “Since we can’t come to a consensus, then let’s vote.”

The Third Elder smiled lightly and also raised his hand: “Yes, since we can’t come to a consensus, then let’s vote according to the convention!”

The Fourth Elder was silent for a while before speaking indifferently: “I abstain!”

The Second Elder showed a smile of ridicule and said: “Old Four abstained! It’s two to one! Then it’s decided. Big Brother, even if you oppose, it’s no use. This is the collective decision of the council.”

The First Elder smiled frigidly and directly turned hostile, saying: “He-he, council my ass! Old Two, Old Three, if you want to lick the ass of the Cangyue Sea Pavilion’s young master, then do it yourselves. As long as I’m here, I will never let you arbitrarily manipulate the Young Lord. If worse comes to worst, then the Sky Blue Sea Pavilion might as well dissolve.”

The Second Elder spoke with a light smile: “With your temper, I knew that you wouldn’t relent that easily, Old One. However, today you can’t be presumptuous!”

In the room, a drawing distorted, and a handsome man dressed in an embroidered robe, with an arrogant expression on his face and a folding fan in hand slowly came out.

Beside the young man followed two men with ordinary appearances yet gave off a dangerous aura.

When the First Elder saw the young man’s eyes, he exclaimed: “Cangyue Xuanyi!!”

Cangyue Xuanyi was the son of the Cangyue Sea Pavilion’s Pavilion Master Cangyue Xiongtian as well as the Cangyue Sea Pavilion’s Young Master.”

Cangyue Xuanyi revealed a sinister smile and uttered full of malice: “Yes, it is I! Old man, in the Wei Sea City, the women I fancy can’t escape my clutches. When I took a fancy to that slut Shi Yuebing, she actually dared to refuse me. What nerve! After I have some fun with her, I’ll sell her to the Amorous Fragrance Pavilion as the cheep whore that she is! That’ll certainly be fun!”

When the Second and Fourth Elders heard this, their expressions turned unnatural, yet they kept silent.

Smiling, the Third Elder praised: “You’re wise, Young Master. That whore Shi Yuebing has always been very proud! It would be indeed very fun to see her be reduced to a whore.”

When the First Elder heard this, his eyes shot with blood, and advanced Starry Sky Warlock rank life force slowly seeped out of him. Throwing an apprehensive glance at the two men beside Cangyue Xuanyi, he asked: “Are you Liu San and Li Si?”

Liu San and Li Si were guards that the Cangyue Sea Pavilion’s Pavilion Master Cangyue Xiongtian dispatched to protect Cangyue Xuanyi. They both possessed advanced Starry Sky Warlock rank

cultivation bases. More than 10 Starry Sky Warlocks have died in their hands. Under their protection, Cangyue Xuanyi could run amuck in the Wei Sea City.

Smiling gloomily, Liu San replied: "Old man, if you know our names, then you should also know that if you don't agree to the Young Master's request, this day next year will be the anniversary of your death."

Li Si revealed a sinister smile. Exuding advanced Starry Sky Warlock rank aura, he locked on the First Elder.

There was a look of impatience in Cangyue Xuanyi's eyes, and he spoke coldly: "Why are you talking so much nonsense with this old dog? Just go ahead and kill him!!"

"Wait a minute!" A crisp voice sounded, and Shi Yuebing with a fragrance wafting from her walked in. Following her were three people, namely Yang Feng, Lila, and Eunice.

When he saw Lila and Eunice, Cangyue Xuanyi's eyes suddenly lit up, and he revealed a lascivious smile.

Lila was a pureblooded high elf from the Sandra Plane. In the Cangzhi Plane's continent, the number of pureblood elves like her was very small. Pureblood elven slave girls were a symbol of status, a luxury good among luxury goods. Eunice was also a stunning Caucasian beauty with a fiery figure. When these two beautiful women appeared, they nearly stole the soul of the lustful Cangyue Xuanyi.

Looking straight at Cangyue Xuanyi, Shi Yuebing spoke coldly: "Cangyue Xuanyi, I can give you the Sky Blue Sea Pavilion. However, please give me and Uncle Lei a way out. If you agree, we can go through the handover procedure immediately. Within 10 days, Uncle Lei and I will leave the Wei Sea City with our people."

The First Elder wanted to say something, yet in the end, he looked deeply at Shi Yuebing and sighed, saying nothing. He also understood that even if the Sky Blue Sea Pavilion was abandoned, but as long as Shi Yuebing and her party could leave the Wei Sea City, it would already be very fortunate.

When Shi Lie was still alive, the Sky Blue Sea Pavilion was united and could barely contend against the Cangyue Sea Pavilion. But after he died, the unity of the Sky Blue Sea Pavilion was no more. Faced with a bigwig such as the Cangyue Sea Pavilion's Young Master, if they could retreat unscathed, then it would already be amazing.

Cangyue Xuanyi showed a smile of contempt and tossed a low grade magic stone to in front of Shi Yuebing: "You want to leave just like that? The council of the Sky Blue Sea Pavilion has already agreed to marry you off as my 109th concubine. While your dowry is the Sky Blue Sea Pavilion, this is my betrothal gift. Now behave and be my 109th concubine!"

Cangyue Xuanyi swept Yang Feng with a vicious glance, and he spoke with a cold smile: "As for the man who came with you, I'll castrate him! The two women can become my 110th and 111th concubines."

Although Cangyue Xuanyi was only a level-1 Warlock himself, but he didn't care about the Great Warlock Yang Feng.

The frowning Shi Yuebing suddenly broke into a smile, took a step back, and stood next to Yang Feng like a pure flower.

Yang Feng scanned Cangyue Xuanyi with his gaze, revealed a look of amusement, and uttered indifferently: "You waste want to dispose of me, what a joke!"

When Cangyue Xuanyi saw this scene, he couldn't help but have an ominous premonition.

"Do it!!" Yang Feng shouted. A shadow suddenly popped out from Liu San's back, and a dagger fused with the shadow sliced at Liu San's neck like a meteor.

Liu San's body shone brightly, and six or seven magic shields suddenly appeared and enveloped him.

The dagger fused with the shadow was the god armament Shadow Dagger that the Shadow Prince Mecca has spent a lot of time and divine force to forge. When it was unleashed, it could freeze the space within an area of 10 meters in diameter and dispel spatial spells. In addition to spatial spells, defensive spells were as useful as paper in front of the Shadow Dagger.

The god armament Shadow Dagger, the god armament Assassin Dagger, and the god armament Slaying Dagger were known as the Three God Assassination Daggers in the Feisuo Plane, and they were in the hands of three gods proficient in assassinations. These three god armaments were mid grade god armaments, and were comparable to human Warlock's level-7 secret treasures in power.

They could only see a shadow sweep past, and then Liu San's head fell to the ground. There was a look of astonishment on the severed head.

After the shadow easily beheaded Liu San, it rushed towards Li Si.

Li Si's body lit up with numerous radiances, and then his head turned in the air and fell to the ground. A large amount of blood sprayed out from the neck of the headless corpse.

After the shadow succeeded in its assassination, it merged back into the shadows and disappeared.

A scent of blood pervaded the room.

When he saw this, Cangyue Xuanyi's face changed dramatically, and he flew into a rage and barked: "Liu San, Li Si, you dare to kill my men! You bastard, are you sick of living?"

The face of the Third Elder fell, and he silently recited an incantation, and a pair of thunder eagle wings grew on his back. With a flap of the wings, a booming sound echoed, and , with lightning twining around him, he flew towards the outside.

Following a disagreement, Yang Feng had the two Starry Sky Warlocks Liu San and Li Si killed. His methods were extremely ruthless. When the willy old fox Third Elder felt that things were anything but reassuring, he chose to escape.

A spatial gate strangely appeared before the Third Elder. Unable to stop his momentum in time, he rushed into the spatial gate, and then weirdly appeared next to Yang Feng.

A shadow swept at the Third Elder from Yang Fen's shadow, and the Third Elder's head fell on the ground.

Face deathly pale, teeth clattering, the Second Elder knelt in front of Yang Feng and implored: "Sir, spare me!! Spare my pathetic life! I didn't meant to, they forced me."

The Third Elder possessed advanced Starry Sky Warlock rank strength. Compared with the Second Elder, the former was only slightly inferior. When he saw Yang Feng easily dispose of such an expert, the Second Elder felt like he was submerged in a mire, and immediately knelt on the ground and pleaded for mercy.

Yang Feng glanced at the Second Elder kneeling on the ground, and Lila immediately fished out a vial of Liquid Metal Nano Robot Elixir, stabbed the vial into the Second Elder's neck, and injected the elixir into his body.

As if a god gazing at something mundane, Yang Feng scanned the Fourth Elder with a glance and spoke flatly: "Do you want to live or die?"

The Fourth Elder sighed: "I want to live! Sir, I have never coerced the Young Lord. I am willing to surrender all my rights and leave the Sky Blue Sea Pavilion. Please give me a way out!!"

Yang Feng's eyes surged with killing intent and he said coldly: "In other words, you want to die?"

"I want to live!" Feeling the biting killing intent coming from Yang Feng, the face of the Fourth Elder changed several times, and then he knelt of the ground and spoke respectfully."

Lila stepped forward and injected the Liquid Metal Nano Robot Elixir into the Fourth Elder's neck.

Chapter 462 – Suppressing Cangyue Xuanyi

Cangyue Xuanyi smiled coldly and said: "Scoundrel, you dare to oppose me in the Wei Sea City?! Do you know who I am? I am the Young Master of one of the ten top sea merchant groups the Cangyue Sea Pavilion. In the Cangyue Sea Pavilion, experts are as common as clouds, and there are even two Moonlight Warlocks. My father Cangyue Xiongtian is more so a peerless intermediate Moonlight Warlock rank expert! You killed my guards and ruined my plans, you're dead! I will wipe you and your entire line out, I will enslave and torment your friends and family!!"

Yang Feng glanced coldly at the Third Elder and ordered frigidly: "I'm curious, what makes you so confident in front of me? Catch him!"

"Yes! Master!" The Third Elder suddenly extended his hand towards Cangyue Xuanyi. Effusing the aura of a flood dragon from all over, a tremendous devouring force broke out from his right hand and swept towards Cangyue Xuan alike a flood dragon swallowing the sea.

A red bead on Cangyue Xuanyi's waist crumbled and turned into specks of light that enveloped him and turned into a red streak of light shooting into the sky.

The devouring force released by the Third Elders' right hand could not stop the red streak of light that was Cangyue Xuanyi.

Yang Feng smiled coldly and pointed with his finger, and a spatial mirror suddenly appeared before the red streak of light.

The red streak of light that was Cangyue Xuanyi entered the spatial mirror. After crossing layers upon layers of space, the streak crumbled little by little, and finally twisted and strangely appeared in front of Yang Feng.

When Cangyue Xuanyi landed on the floor, an expression of fear welled up on his handsome face, and he cried out: "What have you done to me?"

The red bead was called Red Light Escape Bead, and it had the level-6 spell Red Light Escape sealed inside. When the Red Light Escape was unleashed, the caster will be teleported to a designated location, and even Moonlight Warlocks will be unable to stop it if caught off guard. Cangyue Xiongtian has spent 10 million magic crystals to purchase this treasure. This trump card was the source of Cangyue Xuanyi's arrogant and unscrupulous behavior.

"You seem to have a lot of treasures on you, you good for nothing. Unfortunately, you're too weak! Let me take them off your hands!" Yang Feng smiled coldly and pointed with his a finger, and the level-4 spell Legend Dominate Person hit Cangyue Xuanyi.

The jade pendant hanging from Cangyue Xuanyi's neck suddenly flew out, radiated a faint blue light, and easily offset Legend Dominate Person.

Cangyue Xuanyi only possessed a level-1 Warlock cultivation base. Within the Great Cloud Dynasty, he was very weak, and could only bully some ordinary people who couldn't step on the Warlock path. In order to protect his only child, Cangyue Xiongtian didn't spare any cost to collect numerous precious defensive secret treasures.

The Third Elders face turned fierce, and scales covered his body. His figure blurred. In a flash, he reached Cangyue Xuanyi and grabbed at him.

Cangyue Xuanyi clenched his teeth, and was just about to unleash some secret treasure, but then he saw the Fourth Elder's pupils suddenly change and turn into triangles that locked on the former's eyes.

When Cangyue Xuanyi saw the Fourth Elder's triangular pupils, his consciousness suddenly became a blur, and he sank into a strange state, unable to budge.

When the Third Elder was about to grab Cangyue Xuanyi, magic shields suddenly burst out and covered the latter. The Third Elder broke the shields one after another.

After eight shields were broken, a powerful spatial force enveloped Cangyue Xuanyi who was in a strange state.

Yang Feng pointed with his finger, then the law of space surged, and spatial ripples reverberated in the area.

The spatial fluctuation that enveloped Cangyue Xuanyi crumbled.

The Third Elder slapped at Cangyue Xuanyi head, and the other party passed out.

Yang Feng beckoned with his hand, and the various treasures on Cangyue Xuanyi flew out and fell into his hand.

He swept the various treasures with his gaze and revealed a look of delight: "How rich! Sea trade is indeed the best way to make money. The amount of magic crystals that Cangyue Xiongtian has spent on this waste should exceed 100 million.

Cangyue Xuanyi had 13 level-5 and one level-6 secret treasures on him. The secret treasure that has resisted Yang Feng's Legend Dominate Person was the level-6 secret treasure Focus Sea Moon Pendant. This level-6 secret treasure could withstand illusion and control spells. At the same time it possessed the effect to calm the mind and resist the invasion of external evil forces.

Inside Cangyue Xuanyi's storage ring, there was a large pile of more than 30 million low grade magic crystals.

The Wei Sea City was a sea trade city, and magic crystals were the hard currency in this city. As long as you had enough magic crystals, you could even hire Moonlight Warlocks.

Not long after, Cangyue Xuanyi who has been stripped bare like a pig was doused in a basin of cold water, and woke up.

Sitting on a sofa, embracing Eunice and Shayenna, Yang Fen looked at Cangyue Xuanyi from above and said coldly: "Cangyue Xuanyi, do you want to live or die?"

Cangyue Xuanyi looked up and smiled haughtily, saying: "You don't dare to kill me! My father is Cangyue Xiongtian, an intermediate Moonlight Warlock. He can squash you like a bug. Release me and give me the women around you to play with, and maybe I'll spare you if I'm in a good mood. Otherwise, when my father comes, it'll be it for you."

Yang Feng frowned and waved his hand.

Smiling malevolently, the Third Elder stepped forward, grabbed Cangyue Xuanyi's pinkie, pulled hard, and tore the pinkie off, and blood splattered.

Cangyue Xuanyi's face distorted, and he issued heart-wrenching screams: "It hurts! It hurts! How dare you harm me, my father will never let you off! He'll never let you off!"

Yang Feng looked at Cangyue Xuanyi with frigid killing intent in his eyes and smiled icily, saying: "You just said that you wanted to castrate me! I have always been a fair person, and I live by the motto an eye for an eye and a tooth for a tooth. Go ahead, give the Young Master Cangyue the taste of being an eunuch."

The Third Elder trembled slightly, then grinned malevolently, and strode towards Cangyue Xuanyi.

Cangyue Xuanyi's face turned pale-white, all his haughtiness disappeared, and he screamed miserably: "No! No! Stop! Stop! No! I was in the wrong! Please, please spare me! It was all my fault! I know I was in the wrong! Spare me! I'm sorry! I was in the wrong! I don't want to become an eunuch!"

Shi Yuebing came to Yang Feng's side and uttered in a low voice: "Sir, Cangyue Sea Pavilion is one of the top 10 sea merchant groups in the Wei Sea City! With three Moonlight Warlocks standing guard, the Sky Blue Sea Pavilion is powerless to fight against it!"

In the Sky Blue Sea Pavilion, there was a total of only 10 Starry Sky Warlocks. Apart from the four elders, the other six Starry Sky Warlocks were at the junior Starry Sky Warlock rank.

Compared to the Sky Blue Sea Pavilion, where the First Elder was the strongest expert, the Cangyue Sea Pavilion had more than 20 people stronger than him. The strength of the two sides was as different as night and day. This was the source of Cangyue Xuanyi's unrestrained behavior.

Shayenna interjected with a smile: "Miss Shi, my Master has his reasons for what he does. Although Cangyue Sea Pavilion is strong, but it is nothing in front of my Master."

Shi Yuebing took a deep look at Shayenna, her beautiful eyes shimmered with fear, and she went silent. She saw with her own eyes Shayenna kill the two advanced Starry Sky Warlock rank experts Liu San and Li Si as if they were chickens. Such a terrifying expert was only a female slave of Yang Feng's, making her feel that Yang Feng was unfathomable.

There was a heart-wrenching scream, and then Cangyue Xuanyi was dragged over like a dead dog, his ashen face contorted into an expression of despair.

Shi Yuebing looked at Cangyue Xuanyi who looked like a dead dog, and conflicting emotions welled up in her heart.

As if a god in control of an ordinary person's life and death, Yang Feng looked at Cangyue Xuanyi from above with derision in his eyes and said indifferently: "Cangyue Xuanyi, do you want to live or to die!"

Resentment flickered in Cangyue Xuanyi's, and he implored in a crumbled voice: "I want to live! Please let me go! I'll promise you anything you want!"

After some torture, Cangyue Xuanyi already understood that Yang Feng was different from anyone he has ever met. He was a lawless and merciless fellow. After being tortured, Cangyue Xuanyi's arrogance was no more.

Yang Feng continued with a light smile: "Alright, then let's play a game and have a wager. If you win, I'll let you leave her, but if you lose, the Cangyue Sea Pavilion has to give me five gale-class merchant ships."

As if he has fallen into an ice cave, Cangyue Xuanyi shivered and uttered loudly: "Impossible! The Cangyue Sea Pavilion only has 20 gale-class merchant ships. The cost of each ship is at 1 billion magic crystals. Even me, I'm not qualified to bet five gale-class merchant ships!"

Compared to the Sky Blue Sea Pavilion's taishan-class merchant ships, gale-class merchant ships were a class above. A taishan-class merchant ship only cost about 50 million magic crystals, while a gale-class merchant ship cost more than 1 billion magic crystals. Only sea merchant groups at the level of the Wei Sea City's top 10 sea merchant groups could obtain approval from the Great Cloud Dynasty to buy gale-class merchant ships.

Looking at Cangyue Xuanyi with a smile on his face, Yang Feng spoke flatly: "Do you want to die here?"

Chapter 463 – Cangyue Xiongtian

Cangyue Xuanyi's countenance changed several times, and he finally responded loudly: "I'll do the wager!"

Compared to the five gale-class merchant ships, Cangyue Xuanyi cared more about his life.

“Big or small!” Yang Feng grabbed a dice, threw it into a dice cup, shook the cup, and placed it on the table, and then said indifferently.

Looking at the dice cup with rapt attention, Cangyue Xuanyi’s brows relaxed slightly: “Small!!”

Lila stepped forward, lifted the dice cup, and revealed the dice inside with the result two.

Shi Yuebing’s pretty eyes shimmered with a bleak gleam. The First Elder shook his head and sighed.

Cangyue Xuanyi showed a pleased smile, and some color returned to his pale face.

Yang Feng glanced at the dice and said indifferently: “You lost!”

Cangyue Xuanyi’s smile stiffened and his eyes nearly spat out fire, and he uttered: “The result is two. It’s obviously small, so why did I lose?”

Reclining on the sofa, enjoying the fragrance wafting from Eunice, Yang Feng showed a smile of ridicule and responded indifferently: “It’s simple. I make the rules for this bet. And according to my rules, one, two, and three are big, while four, five, and six are small. Understood, you good for nothing?”

Lila stepped forward and handed a certificate of indebtedness to Cangyue Xuanyi.

Enraged and furious, Cangyue Xuanyi’s eyes flickered with resentment, but he still gritted his teeth and signed his name of the certificate of indebtedness.

Yang Feng said lightly: “Pray that your old man values you enough to ransom you for five gale-class merchant ships! Otherwise, you’ll die three days later.”

Cangyue Xuanyi shivered at once. He looked at Yang Feng as if the other was a demon lord, then grabbed the certificate of indebtedness and quickly wrote a lot more words on it. At the same time, he bit his finger and let his blood drop on the certificate, and then handed the certificate to Yang Feng.

.....

Within the Cangyue Sea Pavilion, a tall middle-aged man in a white robe with his hair combed into a bun exuding a rugged temperament was sitting in a white jade chair and holding the certificate of indebtedness in his hand. His eyes were almost spurting fire.

This middle-aged man was the Cangyue Sea Pavilion’s current Palace Master Cangyue Xiongtian. It was under his lead that the Cangyue Sea Pavilion gradually developed into one of the top 10 sea merchant groups with three Moonlight Warlocks from a first-rate sea merchant group with one Moonlight Warlock.

Cangyue Xiongtian’s eyes shimmered with a frosty light, and he disintegrated the certificate of indebtedness in his hand: “A bunch of wretches, they dare to capture my son?! The Sky Blue Sea Pavilion doesn’t want to live anymore!”

Cangyue Xiongtian was a fierce and ambitious character who has experienced countless storms. Feeling that something smelt fishy, he sank into his thoughts: “No, there’s something odd about this incident. The Sky Blue Sea Pavilion’s Shi Yuebing doesn’t have the courage to attack my son. Besides, the Sky Blue

Sea Pavilion's four Elders are a bunch of rubbish. They don't have the guts to provoke me. There must be someone behind them! And their strength isn't weak. Could those guys have united to deal with me? Dammit, that little bastard will anger me to death one day!"

Cangyue Xiongtian spoke frigidly, a gloomy expression on his face: "Five gale-class merchant ships? What a great appetite! They want to break the Cangyue Sea Pavilion's foundation!"

The gale-class merchant ships were the best ships of the Cangyue Sea Pavilion. With enough magic crystals to power it, a gale-class merchant ship with five Starry Sky Warlocks and 100 Great Warlocks could contend against a Moonlight Warlock in the sea.

The reason why the top 10 merchant forces could surpass other merchant forces by a large margin, was because they possessed gale-class merchant ships. In the Wei Sea, the many pirate groups didn't dare to provoke them.

Although the five gale-class merchant ships were worth around 5 billion magic crystals, but they were treasures with demand but no market. There were people willing to buy them for 10 billion magic crystals. After all, the best ships of the Fuso Subcontinent, the Krog Subcontinent, the Indov Subcontinent, and the Fewter Subcontinent were slightly inferior to taishan-class merchant ships.

However, gale-class merchant ships were subject to strict restrictions. They were one of the top secrets of the Great Cloud Dynasty's shipbuilding industry. Once someone was found selling a gale-class merchant ship to people from the subcontinents, the seller's family would get implicated, and everyone would meet tragic ends.

After Cangyue Xiongtian's fury passed, he recovered his calm, his eyes flickered with a dreadful light, and, after muttering under his breath for a long time, he finally got up and walked outside.

The Sky Blue Sea Pavilion, in a manor's rear garden.

Holding an invitation from the Wei Sea City's city master's mansion, Yang Feng frowned and mused: "This Cangyue Xiongtian doesn't seem to be a simple character! Able to take setbacks, he's a tricky character."

Yang Feng has treated Cangyue Xuanyi this badly because he wanted to rile Cangyue Xiongtian up.

If Cangyue Xiongtian sent Moonlight Warlocks to suppress the Sky Blue Sea Pavilion, then Yang Feng could dispose of the dispatched Moonlight Warlocks one by one.

In the Wei Sea City where experts were as common as clouds, the Wei Sea City's City Master Mo Lanshan representing the power of the Great Cloud Dynasty held the greatest power. In times of emergency, he could mobilize the power of the Wei Sea City's Warlock towers, plus a Glorious Dawn Warlock, 10 Moonlight Warlocks, and hundreds of Starry Sky Warlocks. Even if a Bright World Warlock came to make trouble, they would be directly suppressed. With the support of the Warlock Towers, he could even contend against an infinity Warlock for a period of time.

Of course, the Glorious Dawn Warlock and Moonlight Warlocks in the Wei Sea City wouldn't act easily. The Glorious Dawn Warlock, in particular, possessed a status higher than that of the Wei Sea City's City Master Mo Lanshan. If the Wei Sea City wasn't thriving, then it wouldn't have been able to invite a Glorious Dawn Warlock to keep watch.

Cangyue Xiongtian didn't dare to act recklessly in the Wei Sea City. Due to this, Yang Feng had the opportunity to nibble away at his power step by step.

However, Cangyue Xiongtian went directly to the official channels and invited Yang Feng through the Wei Sea City's City Master Mo Lanshan instead, ruining Yang Feng's plans.

Using his privilege as the personal disciple of a Great Elder, Yang Feng collected information about the various sea merchant groups in the Wei Sea City. He picked the Sky Blue Sea Pavilion because he could deal with the Cangyue Sea Pavilion through it. The Cangyue Sea Pavilion committed all sorts of wicked deeds, and it was one of the top 10 sea merchant groups. As such, it was extremely wealthy. If he swallows it, he'll not only enforce justice on behalf of the heavens, but will also obtain tremendous wealth, killing two birds with one stone.

Yang Feng's thoughts revolved, and he decided to accept the invitation. If he wants to lay a foundation in the Wei Sea City, then he cannot do without the support of the Wei Sea City's City Master.

The city master's mansion was located in the center of the Wei Sea City. With its area of hundreds of hectares, the six nine-story-tall Warlock towers, and imposing style, it didn't lose out to mansions left behind by the ancient Warlocks in the Turandot Subcontinent.

In a room of the city master's mansion, there were two people seated, one of which was Cangyue Xiongtian, and the other was the City Master Mo Lanshan.

As soon as Yang Feng entered the room, the gazes of the two ambitious and ruthless characters focused on him.

When the somewhat plump City Master Mo Lanshan in an embroidered robe saw Yang Feng, his eyes brightened, and he stood up and greeted him with enthusiasm: "I am the Wei Sea City's City Master Mo Lanshan. Brother, you should be the number one genius of the Battle Demon Sect Yang Feng who defeated of Tai Yi Sect's holy son Yi Yuanyang, right? Sure enough, you're a dragon among men."

When Cangyue Xiongtian heard this, his eyes narrowed and shimmered with alarm: "He defeated the Tai Yi Sect's holy son Yi Yuanyang!"

Yi Yuanyang was a world-renowned genius. In the younger generation, less than 10 people could compete with him. Yang Feng was able to defeat such a peerless genius, which was simply heaven-defying. Cangyue Xiongtian couldn't help but develop a bit of fear towards the other party.

Yang Feng smiled lightly and greeted back: "I am indeed Yang Feng! Well met, Sir City Master!"

Mo Lanshan was a Moonlight Warlock rank powerhouse. As the Wei Sea City's City Master, god knows how much wealth he has accumulated over the years. No one dared to look down on him, because those who did, were already dead.

Mo Lanshan gave a beaming smile, saying: "Come, let me introduce you. This is the Cangyue Sea Pavilion's Pavilion Master Cangyue Xiongtian. There seems to be some misunderstanding between you, let's talk about it!"

With that, Mo Lanshan sat back in his seat. Narrowing his eyes, he quietly savored the tea in his hand as if it was the best-tasting tea in the world.

Cangyue Xiongtian spoke in a deep voice: “Yang Feng, if my son has offended you, then please let me apologize to you on his behalf. Please return him to me. In exchange, you’ll get the Cangyue Sea Pavilion’s friendship.

Smiling coldly, Yang Feng leaned against a sofa, threw Cangyue Xiongtian a scornful glance, and uttered coldly: “Your son not only wanted to make a move on my woman, but also wanted to ruin her and throw her into a brothel. With just some words, you want me to return him to you. Is there some problem with your head?”

Mo Lanshan’s plump hands trembled minutely. He threw Cangyue Xiongtian a startled glance, shook his head, and quietly tasted his tea.

Cangyue Xiongtian was in the wrong here. As such, Mo Lanshan had even less desire get involved.

The Battle Demon Sect was one of the Great Cloud Dynasty’s Ten Great Sects. The sect was not only filled with experts, but also had ties to the Great Cloud Dynasty’s court. Suffice to say, it was very powerful.

Although Mo Lanshan had a strong backing, but he wasn’t unwilling to offend a true disciple of the Battle Demon Sect like Yang Feng.

Well acquainted with the nature of his good-for-nothing son, Cangyue Xiongtian’s heart sank and his eyes flashed with a downcast glint.

Chapter 464 – Xiling Sea Wolf King

Cangyue Xiongtian asked with a gloomy expression on his face: “What do you want in exchange for my son’s release?”

Yang Feng responded flatly: “Your son lost five gale-class merchant ships in a bet with me. Give me five gale-class merchant ships, and I’ll return you your son!”

Cangyue Xiongtian shook his head: “Impossible! The gale-class merchant ships are the Cangyue Sea Pavilion’s foundation. Not even one ship can be given to others. How about this, I’ll offer you one billion magic crystals on behalf of my stupid son.”

Yang Feng gave Cangyue Xiongtian a meaningful look and said dully: “Pavilion Master Cangyue, you only have one child. In your younger days, you were afflicted with a curse of a powerful evil god, and can no longer have children. The only male of the Cangyue Family’s lineage is your son Cangyue Xuanyi. If he died, won’t the Cangyue Family have its roots severed hundreds of years from now? By then, no matter how many magic crystal you have amassed, you’ll have prepared a hope chest for others.

When Cangyue Xiongtian heard this, his face suddenly fell, and his eyes flickered with dignity as he stared at Yang Feng, aware that his lifeline has been seized by Yang Feng.

Cangyue Xiongtian’s complexion changed several times before he clenched his teeth and said: “One ship, I can give you one gale-class merchant ship. This is my bottom line!”

“You’ll soon see Cangyue Xuanyi’s dead body!”

“One ship, plus 1 billion magic crystals! I’m already being very sincere!”

“You’ll soon see Cangyue Xuanyi’s dead body!”

“...”

No matter how Cangyue Xiongtian increased the price, Yang Feng only looked coldly and responded with one sentence, forcing Cangyue Xiongtian to increase the price again.

As if a puppet, Mo Lanshan just drank his tea with a smile on his face, looking like the tea was delectable.

“Okay, five gale-class merchant ships!” In the end, unwilling to let the Cangyue Family’s bloodline be severed, Cangyue Xiongtian gritted his teeth and agreed to Yang Feng’s condition.

With Mo Lanshan as the witness, Yang Feng and Cangyue Xiongtian signed an agreement, and then left.

When Cangyue Xiongtian returned to the Cangyue Sea Pavilion, he went directly into a secret room, then silently recited an incantation and pointed to a mirror.

A blue ripple rose on the surface of the mirror, and a voice came from the mirror: “What’s the matter?”

Cangyue Xiongtian responded respectfully: “My Lord, the Battle Demon Sect’s Yang Feng came to the Wei Sea City and captured my son. He coerced me to give him five gale-class merchant ships!”

A surprised voice came from the mirror: “Yang Feng? It’s the Yang Feng who defeated Yi Yuanyang!”

The name Yang Feng was common. Within the Great Cloud Dynasty, there were more than 100,000 people named Yang Feng. But there was only one person who defeated the Tai Yi Sect’s holy son Yi Yuanyang.

Cangyue Xiongtian said: “Yes! My Lord!”

The voice from the mirror suddenly was laced with killing intent and turned biting cold: “Kill him! Use all the resources at your disposal to kill him!”

Cangyue Xiongtian’s heart shook, and he uttered deferentially: “As you command!”

A few days later, the five gale-class merchant ships were delivered to the Sky Blue Sea Pavilion, and Yang Feng returned the waste Cangyue Xuanyi to Cangyue Xiongtian.

After Cangyue Xiongtian saw that Cangyue Xuanyi was castrated, he immediately flew into a rage. However, Warlock means were strange and mysterious. Cangyue Xiongtian took out some rare materials from his storage and used them on Cangyue Xuanyi, reverting him from an eunuch to a normal person.

If Cangyue Xiongtian hasn’t been afflicted by a weird curse of an evil god, then he would be able to sire a huge family by himself.

The merchant groups in the Wei Sea City were gobsmacked when they saw Cangyue Xiongtian give five gale-class merchant ships to the Sky Blue Sea Pavilion. Surveying and vigilant gazes fell on the Sky Blue Sea Pavilion.

Additionally, greedy and cold gazes hidden in the shadows also focused at every move of the Sky Blue Sea Pavilion.

When the five gale-class merchant ships entered his hands, Yang Feng sent people to buy a variety of goods that were scarce in the Fuso Subcontinent, which he had loaded on the five gale-class merchant ships.

Shortly after the purchase, the five gale-class merchant ships set into motion and sailed towards the deep sea.

The gale-class merchant ships were more than 3,000 meters long, possessed five six-story-tall Warlock towers arranged into a pentagram, and were engraved with profound and mysterious runes, looking like mobile islands floating in the sea.

Although the gale-class merchant ships were called merchant ships, but in fact, they were very powerful warships. As long as five Starry Sky Warlocks plus 100 Great Warlocks were aboard, then a gale-class merchant ship could display Moonlight Warlock rank battle prowess.

The routes leading to the four subcontinents were replete with pirates and countless sea monsters. In order to successfully reach the four subcontinents, you had to go through numerous battles. There were even many Moonlight Warlocks who died enroute to the four subcontinents.

Several gale-class merchant ships that were like mobile fortresses in the sea coupled with a Moonlight Warlock keeping watch could ensure the safe passage of a fleet.

Although the gale-class merchant ships could exert Moonlight Warlock rank fighting strength, yet their movement speed was a far cry from true Moonlight Warlocks. Therefore, a Moonlight Warlock was a must to guarantee complete safety.

Compared with gale-class merchant ships, the Feisuo Plane's legendary warships were like a bunch of tattered ships not-worth-mentioning. If the gods didn't take action, then a gale-class merchant ship could destroy all the legendary warships of the Feisuo Plane.

Sitting on a dais of a gale-class merchant ship, Yang Feng with Eunice in his embrace drank fine liquor and watched Lila's elven dancing.

Sitting next to Yang Feng, Shi Yuebing's eyebrows were wrinkled, and her beautiful eyes flashed with worry.

After entering the sea, Yang Feng delegated everything to his subordinates, yet he himself indulged in merry-making everyday, looking like he lacked any sense of crisis. The lack of preparation left Shi Yuebing rather worried.

Enroute to the four subcontinents, even Moonlight Warlocks may die. As such, it was normal for Yang Feng's behavior to worry Shi Yuebing.

With her eyebrows wrinkled, Shi Yuebing forced a smile and persuaded: "Sir, in the Wei Sea, there are countless pirates, powerful sea monsters, and fierce merfolk! On the sea, even the Wei Sea City's top 10 merchant groups may turn into pirates! We can't be careless!"

Yang Feng smiled slightly and said: "You have a point!"

Shi Yuebing heaved a slight sigh, and her pretty eyes flickered with relief. She was most worried that Yang Feng was an expert with just a powerful cultivation base yet no sense of the world who never listened to the advice of others.

Yang Feng looked into the distance and showed a smile: "Here they are! They should be pirates!"

Shi Yuebing suddenly took a cold breath, then silently recited an incantation and pointed into the sky, and black light flickered and formed a huge Magic Eye.

The huge Magic Eye has just taken shape, when it suddenly distorted, crumbled, and disappeared.

Shi Yuebing's heart shook at once, aware that their situation wasn't too encouraging. For the Magic Eye to collapse, it meant that there should be a spell disruption in the area and that low-level detection spells couldn't be used. Only level-4 detection spells and above will be effective.

Countless human Warlocks have gone to other planes and have gained numerous bodies of knowledge and developed various battle spells. At the same time, spell disruption and counterspells have matured in the Cangzhi Plane.

After he saw the Magic Eye collapse, Yang Feng smiled and pressed a button.

Lights shot out and formed a holographic projection in front of Yang Feng.

On the holographic projection, Shi Yuebing could see 10 black warships surround their five gale-class merchant ships like a pack of wolves.

When she saw the holographic projection, her eyes lit up, and she praised: "What an amazing spell!"

In a war, such a holographic projection is a cheat-like device that could clear the fog of war and provide a huge advantage.

"These are sea-wolf-class pirate ships! Xiling Sea Wolf King, that's the fleet of the Xiling Sea Wolf King! Sir, let's run! Xiling Sea Wolf King has the strongest pirate group in the Wei Sea. The Xiling Sea Wolf King is a Moonlight Warlock and the Xiling Eight Dogs under his command are all quasi-Moonlight Warlocks. Additionally, he still has 40 Starry Sky Warlocks and countless Great Warlocks."

"Although we have obtained five gale-class merchant ships, but it'll take at least half a year to fully grasp them. With our current fighting power, we are no match for the Xiling Sea Wolf King! Lets withdraw, Sir!"

After carefully looking at the holographic projection, Shi Yuebing's face turned ashen, and she persuaded at once.

If the five gale-class merchant ships had adequate manpower, the each ship could contend against a Moonlight Warlock. However, the Starry Sky Warlocks had to get familiar with and study the five Warlock towers to fully display the power of the gale-class merchant ships.

As soon as he got the five gale-class merchant ships, Yang Feng immediately bought some goods and entered the Wei Sea. Although Shi Yuebing didn't say anything, but in fact, she felt rather puzzled, and secretly complained.

There was a flash of excitement in Yang Feng's eyes, and he revealed a smile: "Xiling Sea Wolf King, it just so happens that I lack a hunting dog. I hope he won't let me down."

Chapter 465 – Ghost Mirage Demon Pupils

Shi Yuebing looked at Yang Feng with an expression of shock on her face and promptly advised: "Sir, I know that you're as strong as a Moonlight Warlock, but two fists can't match four hands. The Xiling Sea Wolf King and the Xiling Eight Dogs under his command are extremely tyrannical. Unlike the matches in a sect, they will try to win by hook or by crook! They will besiege you! No matter how strong you are, you won't be able to resist their siege."

There was an odd look on Yang Feng's face, and he smiled faintly: "Siege! The last thing I fear is a siege!"

Ignoring Shi Yuebing's words of advice, the five gale-class merchant ships calmly sailed in the direction of the Xiling Sea Wolf Pirates.

Not long after, the 10 sea-wolf-class pirate ships of the Xiling Sea Wolf Pirates approached from different directions.

Sea wolf-class pirate ships were warships of the same class as taishan-class merchant ships. They were more than 500 meters long, and were entirely built from extraordinary plant black iron drift wood, whose defensive strength was far beyond steel even without any runes engraved.

On each sea wolf-class pirate ship, there stood a single five-story-tall Warlock tower. The Warlock towers were the backbone of each ship, enchanting them with various movement and defensive spells.

The sea-wolf-class pirate ships were inferior to taishan-class merchant ships in all aspects except for movement speed, in which they surpassed the latter by far. Compared with gale-class merchant ships, sea-wolf-class pirate ships were only slightly inferior in terms of movement speed. Additionally, the manpower required to operate sea-wolf-class pirate ships was by far lower than that to operate gale-class merchant ships.

Among the 10 sea-wolf-class pirate ships, there was a unique sea-wolf-class pirate ship. It was 1,000 meters long with nine five-story-tall Warlock towers and one six-story-tall Warlock tower constructed on the hull. This modified sea-wolf-class pirate ship was the flagship of the Xiling Sea Wolf Pirates.

Although this flagship was still inferior to a gale-class merchant ship, but it could already contend against a gale-class merchant ships in some aspects.

When the Sky Blue Sea Pavilion's sailors aboard the five gale-class merchant ships saw the the Xiling Sea Wolf Pirates' fleet from afar, their faces showed looks of fear.

Although the combat power of the gale-class merchant ships was formidable, but the Sky Blue Sea Pavilion's Warlocks could not give full play to it. If the Xiling Sea Wolf Pirates' flagship displayed its fighting strength to the fullest, then even the five gale-class merchant ships together may not be its opponent. In the center of the flagship, a burly, bald man with a black eye-patch covering an eye boldly sat on a litter made of numerous skulls radiating a gloomy aura. His gaze was as sharp as a blade as it crossed the void and locked on Yang Feng.

Behind the man wearing a black eye-patch stood eight Warlocks of different appearances exuding terrific auras. The strength of any one of them was far above that of the First Elder of the Sky Blue Sea Pavilion.

The man wearing a black eye-patch was the Xiling Sea Wolf King with a fierce reputation in the Wei Sea, and the eight Warlock behind him were the Xiling Eight Dogs under his command.

“Great Warlock! A puny Great Warlock dares to come and provoke me, what a reckless thing!” The Xiling Sea Wolf King took a deep look at Yang Feng, then his pupil suddenly twisted, and a strange hexagram with numerous mystic runes engraved on it appeared, and an evil, strange force gushed out from his pupil.

When Yang Feng looked at the Xiling Sea Wolf King’s pupil, his vision blurred, and countless dark chains appeared on his body. He couldn’t see nor budge, and his tremendous life force seemed to be stripped from him.

A huge demonic hand extended from the Netherworld, ripped open the void, grabbed Yang Feng, and pulled him into the Netherworld

“Go for a swim inside Styx!” A cold voice came from the demonic hand, and it threw Yang Feng towards Styx.

Running through the countless planes, Styx was a river of death that guided the souls of the deceased from the countless planes to the Netherworld. Even mighty Infinity Warlock rank experts, when splashed by the water of Styx, will have all their memories washed away, and turn into pure and transparent souls without an ego, which was no different from death.

“What an astounding eye ability!!” Just when Yang Feng was about to enter Styx and become a pure soul that lost all its memories, he uttered five words with difficulty.

The Netherworld’s space collapsed, and Styx twisted and disappeared.

Yang Feng’s eyes regained their luster as if he had returned to the real world from the Netherworld, and the nether chains binding him disappeared. A soothing feeling came from the level-6 secret treasure Focus Sea Moon Pendant around his neck.

In the vast universe, there were countless evil and powerful beings, some of which could wipe out a Bloodline Warlock family with a gaze or a sound.

The eye ability performed by the Xiling Sea Wolf King was called Ghost Mirage Demon Pupils, it was a secret method created in the era of the Magic Note Dynasty by imitating the innate eye ability of the extraordinary life form ghost mirage demon found in the Astral Boundary.

There was once a Glorious Dawn Warlock who encountered a ghost mirage demon in the Astral Boundary, and was targeted by the its eye ability. In the aftermath, not only did the Glorious Dawn Warlock die, but all his descendants died as well.

The Magic Note Dynasty has sent seven Infinity Warlocks and one Warlock Monarch to capture the ghost mirage demon. After extensive research on the ghostly magic ghost, the Ghost Mirage Demon Pupils was developed.

Just now, if Yang Feng hadn't awoken in time, he would have been cleansed by the illusory Styx, his soul would have shattered, and he would have died directly. If it wasn't for the protection provided by the level-6 secret method Focus Sea Moon Pendant, he might have come a cropper.

Regarding Yang Feng whose battle prowess were formidable yet the strength of the soul and cultivation base were far behind, such a direct attack to the soul was a great threat.

After his soul seed integrated with the semi-plane, the strength of his soul was at the Starry Sky Warlock rank, yet it was still a long way off from the Moonlight Warlock rank. After all, the evolution from a Great Warlock to a Starry Sky Warlock and then to a Moonlight Warlock involved two great transformations. With each transformation, the strength of a Warlock's soul increased exponentially.

If it wasn't for the protection of the level-6 secret treasure Focus Sea Moon Pendant, then the Great Warlock Yang Feng whose soul was his weakness might have suffered a big loss this time. After all, without an appropriate spell to resist Ghost Mirage Demon Pupils, even a true Moonlight Warlock might suffer a great injury, or even die.

After the eye ability was broken, the abnormality in Xiling Sea Wolf King's pupil suddenly disappeared, and blood slowly oozed out from his eye.

The evil eye ability Ghost Mirage Demon Pupils was very powerful, but at the same time, it was a double-edged sword. If the eye ability was broken, then a backless would hit and injure its host.

One of the Xiling Eight Dogs the Black Dog stepped forward and said with a malevolent smile: "The Xiling Sea Wolf King is here. Give up resistance and offer your ships, and we'll spare your lives. Or else, after we capture you, we'll make you into Human Candles and offer you as a sacrifice to the evil gods."

When they heard the Black Dog's words, the faces of the Sky Blue Sea Pavilion's Warlocks turned pale, and fear overtook their eyes.

The cultivation of the Warlocks in the four subcontinents tended to the worship of evil gods. Via blood sacrifice and other vicious methods, they tried to please the evil gods, and then were granted various evil powers by the evil gods. Such Warlocks were called Evil God Warlocks.

During the era of the Eight Warlock Dynasties, the four subcontinents were the territory of the Warlock Dynasties, and the Evil God Warlocks could only hide in the darkness, not daring to appear in the open.

After the collapse of the 8th Warlock Dynasty, the continent's human Warlocks fought one another and split into four dynasties, and the numerous forces of the four dynasties struggle among themselves. Taking advantage of the turmoil in the continent, the Evil God Warlocks occupied the subcontinents and turned them into the land of Evil God Warlocks.

Human Candle was an evil spell that Evil God Warlocks used to offer sacrifice to the evil gods. Once Warlocks were transformed into Human Candle by the evil secret method, their soul will be ignited. After suffering a horrible torment for seven days and seven nights, they will die in despair and suffering. The pain, resentment, despair, and other twisted negative forces will be absorbed by the evil gods from the souls, and strengthened them.

Faith force of intelligent life forms was the source of power of the gods, while negative force of intelligent life form was the source of power of the evil gods.

With an indifferent expression on his face, the Xiling Sea Wolf King looked at the expressions of the people from the Sky Blue Sea Pavilion with derision in his eyes.

Moonlight Warlocks were inhuman existences comparable to gods in terms of strength. Many planes in the Astral Boundary were occupied by human Moonlight Warlocks who became those plane's divine guardians.

"Human Candles? What a bunch of fierce fellows. Sure enough, all pirates are scum." Yang Feng glanced at the Xiling Sea Wolf King and his men, sneered, and continued indifferently: "Xiling Sea Wolf King, who sent you scum here to die?"

Chapter 466 – Natural Disasters

Yang Feng's voice wasn't loud, but everyone present possessed Great Warlock rank physique. Even though they were separated by dozens of kilometers, they could still hear his words clearly.

"Are you looking to die?"

"You son of a bitch, you dare to scold the Xiling Sea Wolf Pirates? I'll extract your tendons and pull out your bones! You won't have an easy death, you son of a bitch!"

"..."

The eyes of the pirates congealed, and they hurled all kinds of abuses.

The eyes of the Xiling Sea Wolf King shimmered frigidly, and he waved his hand as if a callous god: "Kill everyone! Leave no one behind!"

Magic light flickered, and numerous Warlocks flew out from the sea-wolf-class pirate ships and shot towards the five gale-class merchant ships.

Most of the Cangzhi Plane's pirate battles in the seas were like this. The pirate ships served as air carriers, while the pirates they carried served as aircraft.

This configuration naturally couldn't withstand the most elite naval troops of the Great Cloud Dynasty. However, pirates only plundered merchant ships to begin with. Once they came across elite naval troops of the Great Cloud Dynasty, they would run away in disarray.!!! Yang Feng spoke flatly: "Get rid of them!!!"

Suddenly, the surface of the sea billowed, and huge battleships, cruisers, frigates, and other steel ships rose from the sea.

The huge fleet's countless muzzles quickly adjusted their aim, and the dense rain of light shot towards the pirates in the sky.

The pirates were fierce individuals with plenty of experience. In a flash, various defensive spells enveloped them.

A burly pirate has cast the level-4 defensive spell Sky Flower Water Curtain, and an azure shield enveloped him.

When a positron beam slammed into the Sky Flower Water Curtain, a dent appeared on the azure shield. Before the pirate could rejoice, six more positron beams crashed into the azure shield almost at the same time and instantly shattered the Sky Flower Water Curtain. In the next moment, a dozen railgun beams skewered the Great Warlock rank pirate, and he fell from the sky.

Amid the dazzling hail of light, one pirate after another was blasted full of holes, and fell into the sea. The pirates carrying out an exploratory offensive were suffering disastrous casualties.

“How astonishing!”

“That’s our Lord for you!”

“Long live the Lord!”

“...”

When the Sky Blue Sea Pavilion’s Warlocks saw this, excitement flashed in their eyes, and they cheering loudly.

Among the pirates in the air, there were also seven Starry Sky Warlocks. When they saw that thing’s were anything but encouraging, the seven Star Sky Warlocks frantically cast various spells and shot back towards the direction of the sea-wolf-class pirate ships.

“Since you have come, then stay behind!!” Smiling coldly, a spatial fluctuation pervaded Yang Feng, and he pointed at the seven Starry Sky Warlocks.

Spatial mirrors appeared before the seven Starry Sky Warlocks, and they plunged into the spatial mirrors.

The space twisted in front of Yang Feng, and a Starry Sky Warlock suddenly flew out.

The mechanical black dragon with the body of a human and the huge head of a black dragon bit down and crushed the head of the Starry Sky Warlock.

Starry Sky Warlocks flew out from the space one after another, and then were devoured by the huge black dragon head. It didn’t take long for the seven Starry Sky Warlocks to be eaten by the mechanical black dragon.

The complexions of the Xiling Sea Wolf King and his men changed dramatically when they saw the Warlocks that have flown out get annihilated, and their eyes flashed with graveness.

Great Warlock experts didn’t matter much, but Starry Sky Warlock weren’t as common as cabbages. Working laboriously for hundreds of years, the Xiling Sea Wolf King was only able to recruit more than 40 Starry Sky Warlocks. Now, however, seven of them were killed by Yang Feng. For the Xiling Sea Wolf King, this was definitely a large blow.

After annihilating all the pirates in the air, the muzzles of battleships, destroyers, cruisers, frigates, and other warships quickly adjusted and flickered with light, and positron beams, railgun beams, and other kinds of beams rained down on the 10 Xiling Sea Wolf Pirates’ warships.

The Warlock towers of the 10 sea-wolf-class warships shone brightly, and azure specks of light suddenly covered the warships. Waves surged, extended along the specks of light, and formed huge azure shields.

The sea-wolf-class warship's level-5 Warlock towers conjured up level-6 defensive spells Protection of the Sea. Once this spell was activated, it could use the spirit force of Warlocks as the core, absorb the power of the water element in the sea, and form an azure shield.

With the level-6 spell Protection of the Sea in place, even Moonlight Warlock rank powerhouses would have to conjure several powerful level-6 spells to destroy the azure shield.

Countless beams slammed into the azure shields and set off ripples.

Yang Feng frowned and ordered: "Concentrated fire!"

The muzzles of the hundreds of warships quickly adjusted, and a dense rain of light concentrated on a single sea-wolf-class warship.

The azure shield around the sea-wolf-class warship trembled and collapsed in an instant, and numerous light beams bombarded the warship.

Boom! Boom! Boom! Amid heaven-shaking blares, the sea-wolf-class warship was blasted apart along with the five-story-tall Warlock tower.

The Warlocks aboard the sea-wolf-class warship flew into the air, and then as if moths flying towards a net of fire, were blown into pieces. "Destroyed!"

"Impossible!!"

"How could this be! Even a Moonlight Warlock can't destroy our warships with a single hit. What's going on?"

"..."

The pirates aboard the remaining nine sea-wolf-class warships were stunned, and a chill shrouded their hearts. The sea-wolf-class warship that could even escape a Moonlight Warlock once the level-6 spell Protection of the Sea was unleashed was now easily destroyed by Yang Feng, making them feel uneasy for the first time!

"How Brazen! You bastard, you dare to destroy my warship?! You're dead!! I will catch you, make you into a Human Candle, and sacrifice you to the great evil god! Follow me! Kill them all!" With bloodshot eyes, the Xiling Sea Wolf King roared, flew into the air, radiated black light, and turned into a 100-meter-long sea extraordinary life form ichthyosaur wolf with fins, a wolf-like head and limbs, and a long fishtail exuding a frightening aura.

Ichthyosaur wolves were overlord-level life forms from a plane completely covered by sea water. Each adult ichthyosaur wolf possessed Moonlight Warlock rank fighting strength, was innately proficient in the law of water, and possessed the innate ability to manipulate the sea and storms to name a few. In short, they were very powerful in the sea.

The reason why the Xiling Sea Wolf King could run amuck in the Wei Sea was that he had the two secret methods Ghost Mirage Demon Pupils and Ichthyosaur Wolf Morph to rely on.

When the Xiling Sea Wolf King turned into an ichthyosaur wolf, he plunged into the sea.

Tremendous law of water surged, and pillars of water suddenly rose from the originally tranquil sea.

The pillars of water crashed into the steel warships and sent them flying like toys.

Billowing waves rolled out and slammed the steel warships into one another. Following rumbling sounds, the energy shields protecting the steel warships shattered like egg shells, and the warships collided together. Countless steel fragments sputtered, and then were swept away by the waves.

The area where Yang Feng and entourage were located was overcome with gales, torrential rain, giant waves, and other natural disasters that chipped away at the mighty steel fleet.

In a suitable environment, the power a Moonlight Warlock rank existence could unleash made them into mobile natural disasters.

In the sea, if a Glorious Dawn Warlock proficient in fire spells had no targeting secret treasures, they may not be the opponent of the Xiling Sea Wolf King.

The five gale-class warships activated azure shields. At the same time, a spell inscribed on the warships to pacify the wind and waves was activated. No matter how the violent waves swept towards the gale-class warships, they would collapse when they got near.

The gale-class warships engraved with various mysterious spells were sharp weapons. Even though the Xiling Sea Wolf King has transformed into an ichthyosaur wolf and operated its innate abilities, it was still difficult to destroy the gale-class warships. It was for this reason that the gale-class warships were so precious.

The eyes of the Mad Dog of the Xiling Eight Dogs shimmered coldly and he shouted: "Let's go together and kill them!"

Magic light shone, and four of the Xiling Eight Dogs cast flying spells and flew in the direction of the enemy, the other four people transformed into sea life forms and plunged into the water.

The pirates about the pirate ships conjured their own spells, either flew into the air or plunged into the sea, and shot towards Yang Feng and his party under the cover of the gales, torrential rain, and huge waves.

Chapter 467 – Killing Four Dogs

"Bring it on!" When he saw the dense numbers of pirates flying his way, Yang Feng's eyes flickered with a scorching light. With a thought, a Spatial Domain spread from him as the center and swept towards the pirates.

A steady stream of power gushed out from Yang Feng's semi-plane that had the support of the four elements. After going through the Primal Chaos Imperishable Body's transformation, the power turned into life energy that propped up the Spatial Domain.

When the vast Spatial Domain rolled out, pirates were immediately drawn inside.

Alarmed, the pirates silently chanted incantations and pointed at Yang Feng, and a rain of offensive spells blasted towards Yang Feng.

“A bunch of idiots digging a hole for themselves!” The corner’s of Yang Feng’s mouth curved into a smile of ridicule. Spatial mirrors suddenly appeared before the various offensive spells, and the spells plunged inside.

In the next moment, countless spatial mirrors appeared in front of the pirates, and the spells slammed into them. In a split second, dozens of Great Warlock rank pirates were killed.

The law of space which was only second to the law of time in the universe was exceedingly difficult to comprehend. But once you comprehended it, you would gain incredible means of offense, defense, movement, and others. If it wasn’t for Yang Feng’s lacking cultivation base, then after the pirates were enveloped by his Spatial Domain, he could cut them apart via different spaces and instakill them.

“Spatial Domain! Sure enough, you’re strong. As expected from a disciple of one of the Ten Great Sects. However, no matter how strong you are, you’re only a Great Warlock and only one person! Therefore, you’re going to die!” There was a flash of coldness in the Mad Dog’s eyes, and he transformed into a 20-meter-long extraordinary life form devil manatee with fish scales, fins, and a bull’s head and roared.

An azure Water Domain suddenly broke out and fiercely collided with Yang Feng’s Spatial Domain.

Although the power of the Mad Dog’s Water Domain was by far lower than that of Yang Feng’s Spatial Domain, but it could already offsets a greater half of the power of Yang Feng’s Spatial Domain. Like this, his Spatial Domain could no longer form spatial mirrors in an instant and reflect the various offensive spells.

With a faint smile, Yang Feng retracted the Spatial Domain and unleashed the Battle Demon Devour Whirlpool Secret Method, and a frightening whirlpool suddenly appeared and erupted with a violent devouring force that sweep towards the sky.

The quasi-Moonlight Warlocks Golden Dog, White Dog, Black Dog, and Yellow Dog flew towards Yang Feng involuntarily like broken rag dolls.

The eyes of the Golden Dog transformed into a golden dragon flashed fiercely, and he belched a golden dragon breath beam blasting towards Yang Feng.

The White Dog’s incarnation of a 100-meter-long white dragon eagle spread its wings, and white feathers containing the law of light turned into a rain of light that shot towards Yang Feng.

The Black Dog’s incarnation of a black dragon belched a black dragon breath beam barreling towards Yang Feng.

A pair of yellow wings sprouted on the Yellow Dog’s back. Radiating yellow light, the Yellow Dog distorted and turned into a yellow beam of light shooting towards Yang Feng.

The cooperation between the four of the Xiling Eight Dogs was seamless. In this natural disaster environment, even a Moonlight Warlock rank powerhouse may be seriously injured by the four people if a little careless.

Yang Feng looked up and smiled loftily. Taking a step forward, he trod on air. Looking like he was moving slowly though in reality was advancing at great speed, Yang Feng rose into the sky.

The golden dragon breath, the white feathers, and the black dragon breath appeared in front of Yang Feng virtually at the same time.

Yang Feng extended his hand and unleashed the Battle Demon Devour Whirlpool Secret Method, and a frightening whirlpool suddenly appeared and swallowed the golden dragon breath, the white feathers, and the black dragon breath like a black hole. Using the law of space, he opened a passageway into his body, and sent the three powers into the semi-plane.

In the semi-plane, a wisp of primal chaos force brushed the golden dragon breath and black dragon breath, and they collapsed at once.

The rain of white feathers containing the law of light slammed into the semi-plane and blasted hundreds of large holes open, and the semi-plane trembled.

Furrowing his eyebrows, Yang Feng's thoughts revolved lightning fast, and he came to a conclusion: "It still won't do. The semi-plane's tolerance is still too weak, so it can't bear too much power! If I haven't cultivated the Primal Chaos Imperishable Body, then the semi-plane might have crumbled if I rashly introduced alien energy.

Using the Battle Demon Devour Whirlpool Secret Method, Yang Feng could easily move any attack into the semi-plane inside him. However, Moonlight Warlock rank powerhouses whose every movement carried tremendous might were mobile natural disasters, and some small semi-planes can't resist a strike from them.

If Yang Feng hadn't practiced the Primal Chaos Imperishable Body and used primal chaos force to shatter alien forces into the most basic elements, then in the battle with Yi Yuanyang, his semi-plane would have burned into ashes by the golden sun flames.

"If it's a single junior Moonlight Warlock, then their power can barely be absorbed. If it's a simultaneous attack of two Moonlight Warlocks, then their power cannot be moved. As for the power of a Glorious Dawn Warlock, it cannot be moved into the semi-plane, or else, the semi-plane will be in danger of being crushed. I want to create my own spells, but it seems that I'm still not there yet!" Yang Feng sighed slightly. Tremendous life force gushed out, and a Black Battle Demon suddenly emerged, attached itself to him, and turned into a black armor full of barbs that concealed mysterious runes.

When the black armor emerged, intense light flashed past Yang Feng's eyes, then black light condensed on his left fist, and he lightly punch out to the side.

As his fist whistled through the air, the space appeared to distort, and, with the power of a thunder clap, it blasted into the void.

A large amount of blood mixed with countless pieces of meat exploded from the void and sputtered away. The Yellow Dog of the Xiling Eight Dogs who was proficient in assassinations had died.

After killing the Yellow Dog as easily as squashing a bug, Yang Feng stepped forward, very strangely appeared on the head of the White Dog's incarnation of a giant white dragon eagle, and stomped down.

Under the tremendous force, the head of the huge white dragon eagle burst apart like a watermelon, and its corpse fell into the sea.

Countless sharp ice cones shot out from the sea and barreled towards Yang Feng.

Windblades, Fireballs, Disintegrate, and many other spells blasted towards Yang Feng from all directions.

Disregarding the various spells, Yang Feng took a step forward in midair, instantly appeared above the quasi-Moonlight Warlock rank black dragon, and stomped down on its head.

The head of the black dragon burst open, and then the headless corpse fell.

Flapping its wings, the mechanical black dragon shot out in a gust of black wind, then appeared before the headless black dragon, bit down at it, and flew away with the corpse in its maw.

The mechanical black dragon was a mechanical soul life form made using a top grade soul stone, an ancient black dragon core, and xizu technology, and it possessed great evolution potential. By devouring the black dragon corpse along with the blood essence, it could gain great benefits. It might even evolve to the Moonlight Warlock realm.

In a Moonlight Warlock rank battle, the mechanical black dragon with endless evolution potential could be smashed at any time, so Yang Feng had it take the black dragon corpse and leave.

When Yang Feng killed the quasi-Moonlight Warlock rank black dragon, countless spells immediately blasted into him.

Black gas appeared on Yang Feng's black armor, and all spells below the level-5 collapsed and disappeared, unable to harm him. The power of level-5 spells was weakened by more than 80%, and the remaining less than 20% of destructive power was endured by his true body.

When cultivated to the pinnacle, the Battle Demon Secret Method was indomitable, finally showing its terrifying might in group battles.

In the Battle Demon Sect, Yi Yuanyang could easily defeat Zhuo Yifan and Mo Wuheng because he had the virtual world, and the secret method he used was of the same level as the Battle Demon Secret Method, making the Battle Demon Secret Method appear weak.

Now that Yang Feng was fighting the pirates, the Battle Demon Secret Method's might was revealed. Except for the spells of the dozens of Starry Sky Warlocks, the spells of the Great Warlocks weren't able to penetrate the defenses of the black armor.

Amid the countless magic attacks, Yang Feng took a step in midair and appeared above the Golden Dog's incarnation of a golden dragon.

Having expected as much, the golden dragon's bulky tail swung towards Yang Feng.

The fleshly body of the Golden Dog's incarnation of a golden dragon possessed tremendous strength, and even surpassed that of many human Moonlight Warlocks. After all, the forte of human Warlocks didn't lie with the physical body.

With a slash of Yang Feng's hand, spatial fluctuations surged, and he entered another dimension.!!! When the bulky dragon tail hit Yang Feng, it passed directly through his body and hit empty air.

In the next moment, Yang Feng walked out of the other dimension and stomped on the head of the golden dragon, squashing it.

Chapter 468 – Suppressing the Xiling Sea Wolf King

Shi Yuebing watched Yang Feng shuttling amid the numerous spells, and her pretty eyes surged with astonishment: "So strong! So this is a peerless genius who is a personal disciple of a Great Elder of the Battle Demon Sect and who can contend against the Tai Yi Sect's holy son Yi Yuanyang! How powerful!"

"What guts, you dare to kill my men?!" A cruel and fierce voice rose from below the surface of the sea, and the Xiling Sea Wolf King's incarnation of an ichthyosaur wolf shot a water column from its maw barreling towards Yang Feng.

"Useless! Your spell can only destroy my warships, but it can't hurt me at all!" Yang Feng smiled coldly and reached out with his hand, and a huge whirlpool suddenly appeared and brushed towards the water column containing the law of water.

When the water column entered the huge whirlpool, it was moved into Yang Feng's semi-plane and formed a vast seawater lake.

Waves churned on the surface of the sea, and water beams containing the law of water shot towards Yang Feng.

Yang Feng's figure flickered, and whirlpools appeared around him and drew the water beams into his semi-plane, increasing the water element in his semi-plane.

Matched with the Primal Chaos Imperishable Body, his semi-plane could devour most of the forces of the Cangzhi Plane. He could devour the four basic elements almost without end. Besides, those forces were beneficial to the growth of the semi-plane. The only constraint was that he must ensure the balance of the four elements. Once the balance of the four basic elements could not be maintained, then the plane will be in danger of collapse.

Spatial mirrors strangely appeared beside Starry Sky Warlock rank pirates. The spatial mirrors drew the Starry Sky Warlocks into the void, and then transported them to in front of Yang Feng.

With a pat, Yang Feng squashed Starry Sky Warlocks like crickets, which made the Xiling Sea Wolf King even more furious.

The Xiling Sea Wolf King was able to dominate the Wei Sea by relying on the countless minions he gathered. If all his minions were to die, then even though he was a Moonlight Warlock, but he wouldn't be able to run amuck in the Wei Sea.

"You're courting death!" When he saw Yang Feng kill another Starry Sky Warlock rank pirate, the Xiling Sea Wolf King's eyes turned bloodshot, and his incarnation of a ichthyosaur soared into the air accompanied by billowing waves and sent a claw slamming at Yang Feng.

Ichthyosaur wolves were extraordinary life forms known for their tyrannical fleshy bodies, and even Moonlight Warlock rank experts could hardly resist their all-out blow.

The law of water surged, and the sea waves transformed into rune ropes that entangled in and sealed the space.

The Spatial Domain that Yang Feng was expert at was suppressed, and water elemental particles shrouded the area. No matter what secret methods Yang Feng used, he could not dodge that claw.

At a glance, the Xiling Sea Wolf King could tell that although Yang Feng's secret methods were powerful, but after all, he was only a Great Warlock. As long as he forced Yang Feng into a dogfight, then he was certain of his victory.

"Idiot! I'd have to spend a lot of effort to deal with you in the sea. However, you came out of your own volition, how stupid can you be?!" Yang Feng glanced at the Xiling Sea Wolf King, revealed a scornful smile, and pressed the dimensional badge on his chest.

A ferocious-looking, four-meter-tall ancient devil flew out of the dimension badge, and a vast advanced Moonlight Warlock rank aura spread from it.

This was a mechanical ancient devil forged from the ancient devil core Yang Feng got in the Feisuo Plane's Golden Strait coupled with xizu technology and numerous rare materials.

When he saw the ancient devil, there was a look of alarm in the Xiling Sea Wolf King's eyes. His true body was only a junior Moonlight Warlock, and after he transformed into an ichthyosaur wolf, he possessed intermediate Moonlight Warlock rank battle prowess. If it was in the sea, he could fight the ancient devil, but in the sky, he didn't have any assurance of victory.

The mechanical ancient devil showed a savage smile, then silently recited an incantation and pointed with its finger.

Immense demonic qi surged, and the projection of the sky devil Ge exuding a desolate and ancient aura appeared, slowly opened its only remaining eye, and indifferently looked at the Xiling Sea Wolf King's incarnation of an ichthyosaur wolf.

An intense demonic light shot out of Ge's eye and slammed into the Xiling Sea Wolf King.

The azure magic shield around the Xiling Sea Wolf King's incarnation of an ichthyosaur wolf broke as easily as an eggshell. Although he desperately twisted his body, but half of his body was still hit by the black demonic light and crumbled little by little.

"Sons of a whore, they even claimed that he didn't have any Moonlight Warlock rank guards! Then what is this ancient devil?! A bunch of bastards, they used me to test his strength! Damn it all!" When the Xiling Sea Wolf King was heavily injured by the mechanical ancient devil, he lost his fighting spirit, and fury rose inside him. Enduring the pain, he silently recited an incantation, and his body turned into 36 blue rays that frantically shot towards the sea from different directions.

36 Ichthyosaur Wolf Avatar Escape Secret Method was one of the innate abilities of ichthyosaur wolves. So long as one of the avatars escaped, then after a period of time, the ichthyosaur wolf could recover.

Once the Xiling Sea Wolf King entered the sea, he could unleash the ichthyosaur wolf's innate abilities. By them, even a Glorious Dawn Warlock would have a hard time killing him.

"You want to run? Xiling Sea Wolf King, aren't you underestimating me too much? Now that you are here, don't go!" Yang Feng smiled, then flicked his fingers and launched the secret method Skyfire Seven Tones, and a streak of yellow skyfire suddenly emerged and turned into a net of fire covering the sky and completely sealing the Xiling Sea Wolf King's escape routes.

When the Xiling Sea Wolf King's 36 avatars knocked into the net of fire, they issued sizzling sounds, and then shot back and formed his true body. If he hadn't retreated, he would have been burned to ashes!

The Xiling Sea Wolf King has just formed, when the mechanical ancient devil revealed a sinister smile. Shrouded in dense demonic qi, it turned into black afterimages that smashed into the Xiling Sea Wolf King's incarnation of an ichthyosaur wolf.

Large swaths of flesh and blood splashed around, and the Xiling Sea Wolf King's incarnation of an ichthyosaur wolf released heaven-shaking sorrowful howls.

When the pirates hidden under the surface of the sea saw the mechanical ancient devil blast the Xiling Sea Wolf King's fleshly body apart, their minds reeled with shock.

This was the first time that the Xiling Sea Wolf King who has tyrannized the Wei Sea for hundreds of years has cut such a sorry figure. Even though there were many existences more powerful than the Xiling Sea Wolf King in the Wei Sea, but he could avoid them or escape them unscathed. Now, however, he was in a deadly danger, which left the pirates horrified.

While resisting the attacks of the mechanical ancient devil, the Xiling Sea Wolf King sent out a heart-wrenching roar: "Save me! Come and save me!"

Virtually without hesitation, the remaining four of the Xiling Eight Dogs in the water blurred into motion and escaped.

It was commonplace for pirates to betray each other.

The Xiling Eight Dogs submitted to the Xiling Sea Wolf King due to his strength. But now the Xiling Sea Wolf King was trapped by the mechanical ancient devil, and there was still Yang Feng standing motionless in the air. The remaining four dogs weren't willing to throw their lives away for the Xiling Sea Wolf King.

When the four dogs escaped, the rest of the pirates turned into streaks and fled.

The nine sea-wolf-class pirate ships shone brightly and turned into nine black arrows fleeing towards the depths of the sea.

Once the pirates fled, there were no more variables. The Xiling Sea Wolf King's dogged resistance persisted for an entire hour before only one third of his body including the head remained.

Yang Feng glanced at the Xiling Sea Wolf King on his last gasp and said frigidly: "Xiling Sea Wolf King, submit to me or die. When you're dead, I can use your corpse to forge a Moonlight Warlock rank golem. Although the golem won't be as strong as you are, but it still will be of use."

Face contorted in pain, eyes flickering coldly, the Xiling Sea Wolf King reluctantly squeezed out a smile, saying: "The winner is king. Since I have lost to you, then as long as you're willing to give me a way to live, I am willing to serve you, Sir!"

"Very good!" Yang Feng smiled and waved his hand, and a vials of Liquid Metal Nano Robot Elixir darted towards the Xiling Sea Wolf King like shooting stars.

Compared to the Xiling Sea Wolf King's vow of allegiance, Yang Feng believed more in the power of the Liquid Metal Nano Robot Elixir.

When the Xiling Sea Wolf King saw the vials of elixir, his face suddenly fell, and he was about to struggle. The mechanical ancient devil smiled malevolently and slapped the other party's head, and demonic qi inflicted great pain upon him and blocked his life force.

<The target's immune system is powerful. At present, 89% of the elixir has been eliminated. Please inject more vials of elixir!>

Hundreds of vials of elixir pierced into the Xiling Sea Wolf King, and most of the liquid metal nano robots were eliminated by the Xiling Sea Wolf King's powerful immune system.

Chapter 469 – Sea Dragon Immortal Pavilion

After the mobile fortified stronghold was upgraded to level-2, and the level-2 optical computer was manufactured, the computing power has increased exponentially. Coupled with the Moonlight Warlock rank ancient devil flesh he got, a Liquid Metal Nano Robot Elixir capable of controlling Moonlight Warlock rank powerhouses was finally developed.

After injecting more than 10,000 vials of elixir, the Xiling Sea Wolf King entered Yang Feng's control.

After subduing the Xiling Sea Wolf King, Yang Feng asked: "Mo Gu, who told you to attack us?"

There was a bitter expression on the Xiling Sea Wolf King's face, and his eyes shimmered with resentment: "It was the top 10 merchant group Sea Dragon Immortal Pavilion! The Sea Dragon Immortal Pavilion's Moonlight Warlock Lei Jiangjiao gave me the secret treasure Sea Search Compass to find you in the sea. He told me that you have five gale-class merchant ships and that you went out into the sea without breaking them in, my Lord. Blinded by greed, I impudently came to attack you, my Lord!"

Yang Feng's eyes flashed with surprise and his eyebrows wrinkled, and he uttered slowly: "The Sea Dragon Immortal Pavilion? I shouldn't have offend them, so why did they act against me?"

Surprised, Shi Yuebing looked at the Xiling Sea Wolf King standing respectfully next to Yang Feng, and then said: "The Sea Dragon Immortal Pavilion and the Cangyue Sea Pavilion have a good relationship. The third daughter Jiang Zilei of the Sea Dragon Immortal Pavilion's Pavilion Master Jiang Wanghai has been saved by Cangyue Xiongtian in her youth. If Cangyue Xiongtian didn't have a wife at the time, then Jiang Zilei might have become his wife. It was by relying on the Sea Dragon Immortal Pavilion that Cangyue Xiongtian finally led the Cangyue Sea Pavilion to become one of the top 10 merchant groups in the Wei Sea City.

As an overlord rank powerhouse of the Wei Sea, the Xiling Sea Wolf King was an unruly character who didn't even care about Glorious Dawn Warlocks. For such a hegemon to 'willingly' become Yang Feng's servant, Shi Yuebing felt even more reverence for Yang Feng.

Yang Feng frowned: "In other words, the Sea Dragon Immortal Pavilion is also an enemy, interesting! Six Moonlight Warlocks coupled with countless subsidiary forces, how troublesome."

There was a vicious gleam in the Xiling Sea Wolf King's eyes as he spoke gravely: "My Lord, I have a base in the Wei Sea! Please take over it quickly, lest something unexpected happens!"

When he thought of the four dogs who have abandoned him at the most critical time, resentment flashed past the Xiling Sea Wolf King's eyes.

The four dogs were quasi-Moonlight Warlock rank experts. With their trump cards and some secret treasures, they could even unleash Moonlight Warlock rank battle prowess. However, the four dogs had no intention to sacrifice themselves for the Xiling Sea Wolf King. After seeing that things were anything but encouraging, they abandoned the Xiling Sea Wolf King and let Yang Feng capture him.

"Alright! But before that, we have to take care of some damn bugs first!" Yang Feng flicked his fingers. The image on the holographic projection changed, and the scene of another part of the sea appeared in front of everyone's eyes.

In that part of the sea, there were 10 taishan-class merchant ships and one gale-class merchant ship, and every one of the ships was inscribed with a lifelike and magnificent sea dragon.

When the Xiling Sea Wolf King saw this fleet, his eyes shimmered with rancor, and he clenched his teeth and uttered while stressing each syllable: "Sea Dragon Immortal Pavilion!!!"

Were it not for the design of the Sea Dragon Immortal Pavilion, the Xiling Sea Wolf King wouldn't have made Yang Feng his enemy, nor would he have been enslaved by the latter, losing all freedom.

Dealing with a fearsome character like the Xiling Sea Wolf King, Yang Feng had no intention to give him any freedom. As soon as the liquid metal nano robots entered the Xiling Sea Wolf King's body, they merged with his soul and took a firm hold of him. If he had any strange thoughts, he would be suppressed and thrown into a world of pain.

Even though the Xiling Sea Wolf King deeply hated Yang Feng, but he couldn't do anything about it. He could only take his anger and hatred out on the Sea Dragon immortal Pavilion.

Yang Feng asked: "How much strength do you still have left?"

The Xiling Sea Wolf King smiled bitterly and answered: "30%. It'll take me at least a month to fully recover."

The mechanical ancient devil has unleashed the devil secret method Devil's Eye and summoned the sky devil Ge. The power of the sky devil Ge's eye was tremendous, and it could seriously injure even someone as strong as the Xiling Sea Wolf King. Otherwise, it wouldn't have been that easy to capture him.

The Xiling Sea Wolf King spoke gravely: "My Lord, let's let them be this time! The fleet sent by Sea Dragon Immortal Pavilion has a Moonlight Warlock keeping watch. The Moonlight Warlock coupled with

the gale-class merchant ship and 10 taishan-class merchant ships can form a Sea Dragon Swallow the Moon Array. Once the array is formed, then even Glorious Dawn Warlocks may not be their opponents.”

In the Cangzhi Plane, there were countless freak in the seas, and many of them were comparable to gods in strength, having reached the Moonlight Warlock or Glorious Dawn Warlock realm. There were also Bright World Warlock and Infinity Warlock rank freaks, but they were very few in numbers.

Compared with the rest of the seas of the Cangzhi Plane, the Wei Sea was just a small corner. It wasn't within the jurisdiction of the three merfolk imperial courts. In this sea, you could come across Bright World Warlock rank sea monsters at most, and they were very few to boot.

In the Wei Sea, human Warlocks would encounter Starry Sky Warlock and Moonlight Warlock rank sea monsters most of the time. Occasionally, they would come across a Glorious Dawn Warlock rank sea monster.

In this sea, the ten taishan-class merchant ships and one gale-class merchant ship that could form the Sea Dragon Swallow the Moon Array and contend against Glorious Dawn Warlock rank sea monsters could run rampant. There were very few things that could threaten them.

There was a flash of killing intent in Yang Feng's eyes, and he said coldly: “Sea Dragon Swallow the Moon Array? The thing I'm least afraid of is this kind of array! Watch me break their Sea Dragon Swallow the Moon Array!”

When Xiling Sea Wolf heard this, his eyes flickered, and he lowered his gaze.

Yang Feng pressed the dimensional badge, and a huge engineering air carrier suddenly flew out and landed on the sea, and a copious amount of water splashed.

A large number of marine engineering robots jumped out of the engineering air carrier, dived into the sea, and began searching for the wreckage of the warship destroyed by the Xiling Sea Wolf King.

Yang Feng pressed the dimensional badge again, and a level-2 mobile fortified stronghold with a diameter of 500 meters flew out and landed on the sea.

Under everyone's astonished gazes, the level-2 mobile fortified stronghold twisted and deformed like a Transformer and transformed into a naval warfare-type island stronghold ship with a diameter of 1,000 meters. The mechanical island was covered in a variety of turrets and equipped with countless defensive devices and looked very daunting.

Although the naval warfare-type island stronghold was only one-third as long as the gale-class warship, but it was much wider and taller.

Yang Feng took Eunice and the other women as well as a few important characters of the Sky Blue Sea Pavilion to the naval warfare-type island stronghold.

With enough Moonlight Warlocks and Starry Sky Warlocks taking charge, the defensive strength of the gale-class merchant ship was much greater than that of the naval warfare-type island stronghold. However, the Warlocks aboard the gale-class merchant ship weren't aware that the the Xiling Sea Wolf King was enslaved by Yang Feng. Caught off guard, they won't be able to maximize the gale-class merchant ship's performance.

Shi Yuebing strolled about the naval warfare-type island stronghold and looked at the thick heavy artilleries with shock in her eyes: “These are mechanical constructs! Did Senior Disciple Brother Yang obtain an inheritance of the 6th Warlock Dynasty? But why haven’t I seen such a steel ship before?”

The First Elder who also walked around and looked at the various positron artilleries and railgun artilleries with shock in his eyes: “Amazing. Is this the alchemy of the 6th Warlock Dynasty? As expected of a true disciple of the Battle Demon Sect, he is really knowledgeable, and possessed a profound foundation.”

In fact, xizu technology was very different from the 6th Warlock Dynasty’s technology. Xizu technology was a purely mechanical technology, while the the Golem Dynasty’s technology encompassed many disciplines such as soul research, alchemy, golem research to name a few.

The Golem Dynasty’s golem legions were most famous. As such, a look at these mechanical constructs will make you think of the Golem Dynasty.

“Astounding, how can such a heavy steel warship float in the sea?”

“Why aren’t there any magic runes inscribe?”

“Where are the magic arrays?”

“...”

The Warlocks of the Sly Blue Sea Pavilion were like country bumpkins who entered a magnificent city for the first time as they excitedly explored the naval warfare-type island stronghold and sighed in admiration.

Under Yang Feng’s command, the huge naval warfare-type island trembled a little, and then swam in the direction of the Sea Dragon Immortal Pavilion’s fleet.

The Sea Dragon Immortal Pavilion’s fleet, the gale-class warship, in a six-story-tall Warlock tower, a burly man with short hair, thick eyebrows, and a small flood dragon tattooed on his forehead reclined on a soft bed, There were four gorgeous and sexy girls dressed in revealing clothing on the big bed wrapping around the man like beautiful snakes, having fun with him.

This man with a flood dragon on his forehead was the Sea Dragon Immortal Pavilion’s Moonlight Warlock Lei Jiangjiao.

There was a knock on the door.

Lei Jiangjiao frowned and waved his hand, and the door opened, and a beautiful maid was drawn into the room.

Chapter 470 – Assassination of Lei Jiangjiao

Lei Jiangjiao clasped the beautiful maid’s face, a brutal gleam in his eyes, and he revealed a cruel smile, saying: “I said that I don’t want to be disturbed if there’s nothing urgent! If it isn’t urgent, then when I’m done with you, you’ll be reduced to a plaything of this ship’s men!”

Just when Lei Jiangjiao was about to ravage the several gorgeous women, he was disturbed by this maid. Anger and killing intent surged in his heart.

The beautiful maid's face turned ashen and her eyes shimmered with dread, and she responded respectfully: "Master, the Xiling Sea Wolf King is here to see you!"

"The Xiling Sea Wolf King? Has this good-for-nothing been defeated by Yang Feng?" Lei Jiangjiao frowned, and then muttered: "Fine, let him come see me! After all, he is also a Moonlight Warlock."

The beautiful maid quickly uttered: "Master, the Xiling Sea Wolf King wants to see you on the deck. He said, he said that if it's not on the deck, then let it be. He's going to the Sky Blue Sea Pavilion to seek shelter and spill the beans about everything!"

Lei Jiangjiao's thoughts revolved, and he said with a cold smile: "The deck? He is really careful!"

On the gale-class merchant ship, there stood five six-story-tall Warlock towers. Once a hostile Moonlight Warlock entered a Warlock tower, they may get suppressed at a moment's notice. Only when they were close friends would a Warlock enter another Warlock's Warlock tower.

Although Lei Jiangjiao was only a junior Moonlight Warlock, but inside this six-story-tall Warlock tower, he was certain that he could suppress an advanced Moonlight Warlock.

"Fine! I'll go meet him!" Lei Jiangjiao smiled faintly, then magic light shrouded him, and he disappeared.

On the deck of the gale-class merchant ship, a cyan light emerged, and Lei Jiangjiao stepped out, looked at the Xiling Sea Wolf King leaning on the edge of the deck with a strange light in his eyes, and said with a light smile: "Xiling Sea Wolf King, it seems like you've been seriously injured."

The Xiling Sea Wolf King was seriously injured by the mechanical ancient devil's Devil's Eye, and had just under 30% of his strength left.

When Lei Jiangjiao saw how weak the Xiling Sea Wolf King was, killing intent welled up inside him.

Inside their sea of knowledge, Moonlight Warlock rank experts have condensed a moonlight core, which contained their soul force, various secret method and spell models, and a part of Moonlight Warlock rank power.

Unlike a godhead, although a moonlight core couldn't provide you with countless bodies of knowledge and enable you to become a god, but it also possessed great value. It could be used to forge a golem or a secret treasure. Some peerless experts who practiced special secret methods could even extract some secret methods from inside the moonlight cores.

The moonlight cores were also valued treasures in the various planes.

"Lei Jiangjiao, do you want to kill me? Although I currently have less than 30% of my strength left, but if I want to escape here, then even you can't stop me! Ptooeey!" The Xiling Sea Wolf King was very keen to catch the faint killing intent released by Lei Jiangjiao, and he spat out a fruit kernel shooting towards a dark corner of the gale-class merchant ship and smiled coldly.

Aboard the gale-class merchant ship, everyone's gazes were focused on the Moonlight Warlock the Xiling Sea Wolf King. After scanning the fruit kernel with a detection spells and finding nothing strange, no one paid it anymore attention.

The fruit kernel hit an iron wall of the gale-class merchant ship and ricocheted, then a wind swept it and tossed it into the sea.

Cleaning was one of the spell solidified on the gale-class merchant ship. With it, things that have been identified as trash were automatically cleaned.

No one noticed that a shadow entered the gale-class merchant ship without any sound or sign and without releasing any fluctuations, and then slowly moved along the shadows.

Lei Jiangjiao restrained the killing intent in his eyes, then gave a straightforward smile and said: "Xiling Sea Wolf King, there seems to be a misunderstanding. How could I do that kind of a thing? We have a common enemy, namely Yang Feng. Why don't you join the Sea Dragon Immortal Pavilion? With your strength, once you join the Sea Dragon Immortal Pavilion, you'll certainly be enshrined in the Sea Dragon Immortal Pavilion, and gain countless secret methods and resources! You might even promote to a Glorious Dawn Warlock in the future!"

The Xiling Sea Wolf King was a famous powerhouse in the Wei Sea. In the deep sea, even Glorious Dawn Warlocks can't deal with him. If such a powerhouse joined the Sea Dragon Immortal Pavilion, then the pavilion's strength could increase by a large margin.

The Xiling Sea Wolf King responded coldly: "I'm used to being free! I came here to claim the reward of 100 million magic crystals. Give me the magic crystal and I'll leave."

Lei Jiangjiao's eyebrows wrinkled and his eyes glittered, and he stared at the Xiling Sea Wolf King with an enigmatic look in his eyes.

The Xiling Sea Wolf King flicked his wrist, and a blue bead appeared in his hand: "Lei Jiangjiao, I am not your opponent right now, but I have three secret treasures that can help me escape from you. The first secret treasure is this Blue Light Sea Bead. With it, I can dive into the sea within one breath. Even you can't stop me."

Lei Jiangjiao took a closer look and saw a blue water thread extend from the Blue Light Sea Bead and enter the sea. With a thought, the Xiling Sea Wolf King could escape from the gale-class merchant ship with the help of the bead.

Lei Jiangjiao retracted his killing intent and smiled lightly, saying: "100 million magic crystals was the reward for after you destroyed the Sky Blue Sea Pavilion's fleet. To ask for the 100 million magic crystals without harming their fleet, isn't that inappropriate? How about this, I'll give you 10 million magic crystals and we'll be quits?"

The Xiling Sea Wolf King was a Moonlight Warlock rank expert, and he could transform into an ichthyosaur wolf after all. In the sea, his battle prowess was formidable. Without being sure that he could kill the other party, Lei Jiangjiao wouldn't easily offend such a Moonlight Warlock.

The Xiling Sea Wolf King frowned, his countenance changed several times, he muttered under his breath for a while, and then uttered with a fierce expression: "30 million magic crystals! Because of you, I lost

all my warships! God knows how long it'll take me to recover my losses! If you don't give me 30 million magic crystals, then I'm leaving!"

Lei Jiangjiao naturally understood what the Xiling Sea Wolf King was implying. If he left now, then a few years down the line, the Sea Dragon Immortal Pavilion would gain a deadly Moonlight Warlock rank enemy.

If the Sea Dragon Immortal Pavilion was stronger, it still wouldn't feel at ease with the Xiling Sea Wolf King as its enemy in the Wei Sea.

His thoughts revolved, and Lei Jiangjiao said promptly: "Okay! 30 million magic crystals it is!"

The Xiling Sea Wolf King revealed a smile and uttered: "Forthright. I like to cooperate with people like you."

Lei Jiangjiao secretly loosened a sigh, then took out a storage ring and tossed it towards the Xiling Sea Wolf King.

At that moment, a shadow suddenly emerged behind Lei Jiangjiao, and a dagger enveloped in shadows stabbed at his abdomen.

A premonition of death welled up in his mind. Without demure, Lei Jiangjiao willed, and a Teleportation Bead concealed on his person shattered, and a spatial fluctuation enveloped him in an instant.

The Teleportation Bead was a trigger defensive secret treasure that Lei Jiangjiao has commissioned an Alchemist to forge for 30 million magic crystals. With a thought, it could teleport him back to the six-story-tall Warlock tower. Even if a Moonlight Warlock rank expert hurriedly conjured a spatial interference spell, they still wouldn't be able to interrupt the Teleportation Bead's spatial force.

Even Yang Feng proficient in the law of space wouldn't be able to interrupt the Teleportation Bead's spatial force. The god armament Shadow Dagger, however, unleashed a strange fluctuation and dissipated the Teleportation Bead's spatial force.

Lei Jiangjiao felt a chill in his heart, and he lit up with one magic light after another.

The Shadow Dagger broke through various teleportation spells, pierced through magic shields, and stabbed Lei Jiangjiao in the abdomen, and twelve curses instantly erupted and covered his whole body.

At this time, the shadow revealed itself. It was Yang Feng.

After he killed the Shadow Prince Mecca, Yang Feng gained the shadow godhead. His clone was the Ruler of Shadows proficient in the law of shadows. Yang Feng's true body has also easily comprehended the law of shadows. As an assassin, he was second only to the the Shadow Prince Mecca, and so he was able to seriously injure Lei Jiangjiao with a single strike.

After he injured Lei Jiangjiao, Yang Feng pressed the dimensional badge on his chest, and the mechanical ancient devil flew out with a flash of light.

When the ancient mechanical devil appeared, it grinned fiercely and erupted with advanced Moonlight Warlock rank aura in a flash. It blurred into motion and flitted towards the dozen or so Starry Sky Warlocks brought by Lei Jiangjiao.

A streak of black light flickered, and six of the dozen or so Starry Sky Warlocks lost their heads and collapsed on the ground.

The mechanical ancient devil radiated demonic light, then surged with spatial force, instantly appeared in front of the six-story-tall Warlock tower in which Lei Jiangjiao lived, and smashed the barrier around it with a tyrannical punch, and then rushed inside.

If the Warlock tower was guarded by Lei Jiangjiao, then it would be nearly invulnerable. By then, if the advanced Moonlight Warlock rank mechanical ancient devil entered the Warlock tower, it would die without the shadow of a doubt. But without Lei Jiangjiao standing guard, the five Warlock towers were instead the weakest link of the gale-class merchant ship.
