

MGE 541

Chapter 541 – Key of Time

Two days later, in the central square of the Secret Dragon Temple that can accommodate more than 100,000 people gathered the Warlocks from the Eastern World and the Western World.

On a dais in the square, there are twelve chairs, and on each chair sits a Bright World Warlock rank expert.

The Great Cloud Dynasty, the Bajur Dynasty, the Brest Dynasty, and the Kadred Dynasty are all powerful dynasties of the same level. Even though the Great Cloud Dynasty is much stronger than any one of the other three dynasties, but it still only has three chairs.

Above the dais, there is a palace suspended in the air that cannot be seen with the naked eye. It is the Floating Palace of the City of Time. The Floating Palace is where the Infinity Warlock rank powerhouses gather.

The Warlock geniuses of numerous forces of the Western World and the Eastern World gather in the City of Time. If all the Warlock geniuses died, it won't be a small blow to the Warlock groups. It is for this reason that both the Western World and the Eastern World have sent Infinity Warlocks to guard them.

No matter how many ordinary Warlock talents die, the Infinity Warlocks won't bat an eye, but if Cresno, Angélico, and other outrageous geniuses died, it will be a huge loss to their respective forces. As long as these outrageous geniuses don't die, they will grow into Glorious Sun Warlocks at the very least.

Every Glorious Sun Warlock expert is a very important and powerful combat force of any given force. In many places, there needs to be enough people standing guard to fully occupy them, and obtain a steady stream of resources. Although Infinity Warlocks and Bright World Warlocks are extremely powerful, but they also have their own things to do. And this is where Glorious Sun Warlocks come into play.

When noon arrived, a Bright World Warlock wearing a green Warlock robe and holding a huge mirror-like secret treasures silently recited an incantation and pointed the secret treasure into the sky, and a black beam of brilliant light shot into the sky from the magic mirror.

When the black beam of light entered the sky, it set off weird ripples in midair.

A huge star suddenly emerged from the void and covered the sun completely.

Yang Feng looked at star in the sky with shock in his heart: "To refine a star into a site where people fight over the keys of time, how extravagant. Those most powerful Warlocks really can pick stars and moons and refine planes!"

The Bright World Warlock wearing a green Warlock robe silently chanted an incantation, and the magic mirror in his hands suddenly radiated a dazzling light that enveloped Yang Feng and them.

Next, Yang Feng and them blurred and disappeared.

Yang Feng's vision swam, and then he found himself in a beautiful landscape that extended without end. There are all kinds of precious extraordinary plants growing everywhere, and the air is rich with life magic energy.

Yang Feng stepped on the ground and exerted a bit of force, leaving a footprint on the ground: "The density of this world is the same as that of the Cangzhi Plane's continent."

Worlds with different densities can bear the power of different experts. The density of a subcontinent like the Turandot Subcontinent is much lower than that of the continent. A fight between Infinity Warlocks is enough to break and sink the Turandot Subcontinent.

In low grade plane such as grade 9 plane, a fight between Glorious Sun Warlocks is enough to smash and sink the mainland.

Because of this, the plane source of low grade planes will restrict the strength of life forms it bears to a certain limit. That's the self-preservation mechanism of the plane origin.

As for the Cangzhi Plane's continent, it can bear Warlock Emperor rank combat.

There was a flesh of regret in Yang Feng's eyes: "Unfortunately, assemble type secret treasures cannot be used. Otherwise, everyone could gather now."

Assemble type secret treasures are secret treasures that can gather people who are randomly teleported when exploring some secret realm. But this kind of secret treasure cannot be used in this secret realm.

If this kind of secret treasure could be used, then the rogue Warlocks would stand no chance. The Warlock geniuses backed by large forces are much stronger to begin with, and if they could gather together and form a force, the rogue Warlocks would have no opportunities.

The Time Lord wanted to cultivate Warlock geniuses of the younger generation and not to train the Warlock geniuses from the big Warlock groups. As such, he set up this restriction.

"Yang Feng, that's Yang Feng!"

"Run!"

"..."

When the Warlocks who were randomly teleported not far away from Yang Feng saw him, their faces fell, and they each operated a secret method and fled in different directions.

Inside this secret realm, everyone is enemy. Everyone is shrouded in a magic barrier. Once the magic barrier is broken, they will be teleported out of this secret realm immediately.

The Warlocks who thirst to get a key to time were naturally unwilling to be teleported away right at the star because of Yang Feng.

Yang Feng smiled, looked up, and, while stepping on air, walked towards the sky.

"So this is the limit. After all, this isn't the real world." When Yang Feng reached a height of 3,000 meters, he felt a powerful magic barrier prevent him from continuing upwards.

Although this world looks no different from an ordinary world, but it's a star that has been refined after all. In here, many phenomena are different to some extent.

Yang Feng operated Transcendent Pupils, and countless seals appeared in his eyes and formed a pair of golden pupils.

Thanks to Transcendent Pupils, all the scenes within a scope of 1,000 kilometres entered Yang Feng's eyes.

Before long, a pillar of light rose into the sky. Within the pillar of light, there is a dazzling brilliance suspended, inside which floats a key secret treasure inscribed with seals containing the mysteries of time.

"A Key of Time!" Yang Feng's eyes brightened, and he took a step forward and stepped into the void. By crossing one spatial gate after the other, he walked towards the Key of Time.

Every time Yang Feng passed through a spatial gate, he crossed a distance of 10 kilometers. As if a god walking through space, he headed towards the Key of Time.

Based on Yang Feng's current comprehension of the law of space, the distance of 10 kilometers using a spatial gate is already his limit. After he advances to an Infinity Warlock, he will be able to use the law of space to cross more than 10,000 kilometers with a spatial gate.

"Yang Feng! It's him!"

"It's Yang Feng!"

"..."

As soon as the Warlocks around the Key of Time saw Yang Feng, their faces changed dramatically, and many of them clenched their teeth and fled directly. But some were unwilling to give up, and they continued to fly towards the Key of Time.

"Chaotic Space!" Suddenly, spatial disruption fluctuations rose into the sky from a forest.

With the spatial disruption, the surrounding space became chaotic. The space distorted, and Yang Feng was forced out into the open. He scanned the forest down below with his gaze, and a cold light streaked past his eyes. He spread the fingers of his hand, and wind blades formed from Nine Revolutions Divine Wind suddenly erupted and slashed into the forest down below.

"Stop! Yang Feng, I am the Chen Family's Chen Yu. We are both Warlocks of the Great Cloud Dynasty! You can't do this to me!" A shocked and angry roar came from the forest. A quasi-Moonlight Warlock rank expert shot out from the forest, and a level-5 secret treasure golden shield suspended above him and resisted the violent wind blades.

There was a flash of indifference in Yang Feng's eyes, and he pointed with his finger. The wind blades formed from Nine Revolutions Divine Wind instantly formed a large wind blade containing the law of wind that sliced the golden shield into two.

Chen Yu issued a heartbreaking scream: "No, my Gold Brilliant Shield!"

A level-5 secret treasure shield is extremely important to Starry Sky Warlocks. For Chen Yu, Yang Feng destroying his Gold Brilliant Shield is equivalent to cutting off one of his arms.

After the Nine Revolutions Divine Wind sliced through the Gold Brilliant Shield, it chopped at Chen Yu. A transparent membrane suddenly appeared, swept Chen Yu, and teleported him out of the secret realm.

Yang Feng beckoned with his hand, and the remains of the Gold Brilliant Shield entered his hand, which he put into a storage ring. He continued to fly towards the Key of Time.

When the rest of the Warlocks saw Yang Feng's callous action, their faces fell, and they scattered in different directions. not daring to cast spells to obstruct Yang Feng.

Yang Feng silently recited an incantation, and Nine Revolutions Divine Wind formed a pair of wings of wind behind him. The wings of wind flapped, and a violent hurricane enveloped him and propelled him towards the Key of Time.

At that time, a dozen Warlocks have already reached the surroundings of the Key of Time. By casting elemental spells, performing bloodline transformation, unleashing extraordinary plants and extraordinary life forms, and conjuring other spells, the dozen Warlocks fought over the Key of Time.

"Yang Feng is here!" A voice suddenly sounded around the Key of Time. The faces of the Warlocks locked in combat suddenly changed, and they looked into the distance and saw Yang Feng rushing towards them.

Chapter 542 – Assemble

"Fuck, it's him!"

"It's Yang Feng!"

"..."

The faces of the dozen Warlocks locked in combat changed greatly, and they looked at Yang Feng flying from afar with apprehension in their eyes.

Without hesitation, three Warlocks disengaged the battle and fled towards the distance.

A Warlock proposed: "Let's join forces to break the barrier around the Key of Time first, and then compete for the Key of Time. Otherwise, with Yang Feng here, we won't stand a chance."

The Key of Light is enveloped by a barrier, which is comparable to a level-6 defensive spell. However, without a Moonlight Warlock rank continuously supplying life force to support it, even Starry Sky Warlocks can wear down the barrier and eventually break it.

"Fine!"

"Let's run with it!"

"..."

The other Warlocks nodded in agreement. They are all very bright people. After a brief moment of thought, they realized that they could not compete with Yang Feng by themselves. Only when they join hands will there be a chance of success.

“The plan is good. Unfortunately, you’re too weak!” Spatial ripples surged next to the Warlocks, and Spatial Mirrors suddenly appeared and easily pulled the Warlocks inside.

Ripples rose in the space beside Yang Feng, and the Warlocks flew out of the Spatial Mirrors that emerged beside him.

Violent wind blades formed from Nine Revolutions Divine Wind slashed towards the Warlocks. After the wind blades shredded their life force field, the Warlocks were teleported out of the secret realm.

“What a terrifying guy!”

“Only by meeting him in person, will you be able to understand his terror!”

“He’s a monster!”

“...”

Feeling a chill in their heart, the Warlocks hiding in the surroundings inhaled a mouthful of cold air and fled in different directions. There are 108 Keys of Time, so they didn’t want to be kicked out of the secret realm just now.

“It feels great to be powerful!” The corners of Yang Feng’s mouth lifted slightly. If it weren’t for his tyrannical strength, he’d have to cope with numerous sneak attacks. Now, as long as he shows up, those Warlocks will retreat posthaste, not daring to fight him.

Yang Feng looked up at the Key of Time that was shrouded in a barrier of light, and then slammed a fist into the barrier.

The barrier was torn apart at once, and Yang Feng extended his hand and grabbed the Key of Time.

“This is a Key of Time? It contains the mysteries of the law of time!” As soon as Yang Feng seized the Key of Time, he felt a trace of the law of time flowing inside. If he hadn’t studied the Time Text for a period of time, he fundamentally wouldn’t have detected that the Key of Time contains the mysteries of the law of time.

Yang Feng’s eyes radiated scorching light: “If I get some more Keys of Time, it’ll be beneficial towards my comprehension of the Time Text.”

The law of time is the most profound and difficult to understand law in the world, even far above the law of space. In the Cangzhi Plane, human Warlocks have researched the Time Secret Method for countless years, but only the Time Lord has mastered this strongest secret method.

In the 1st Warlock Dynasty, there were countless Warlock supreme geniuses, and the 12 Holy step Holly Spirit Warlocks were extremely powerful. Even the 8th Warlock Dynasty’s Dawn Lord may not be a match for the 12 Holy step Holy Spirit Warlocks.

Before the Time Lord became a Warlock Emperor, he had no advantages over the 12 Holy step Holy Spirit Warlocks in terms of physique, attainment in alchemy, spirit force, and life force, and he was even at a disadvantage in some cases. But the law of light is very mysterious and extraordinary. By virtue of the Time Text, the Time Lord overwhelmed everyone else and became the first human Warlock Emperor in the Cangzhi Plane.

After the fall of the Time Lord, there were several human supreme geniuses in the Cangzhi Plane who came to understand the Time Text and comprehend the law of time. They became powerful existences almost invincible in the same rank.

With his enlightenment of the Time Text, Yang Feng hasn't grasped this secret method fully. But he hopes to master a way to counter this secret method by studying it. If he is ignorant of the Time Secret Method, then Yang Feng will be in a great disadvantage if ever meets a user of this secret method in the future.

Despite being much weaker than him, Katrina still nearly defeated Yang Feng because of the power and strangeness of her secret method.

With the Key of Time in his grasp, Yang Feng flew high into the sky, conjured the Transcendent Pupils, and started looking for signs of Keys of Time again.

High in the sky, Cornell surrounded by a Star World formed from shining stars exuded Moonlight Warlock rank might.

Countless abstruse runes flashed in Cornell's eyes, and traces of wisdom radiated from his eyes, making him look like an omnipotent Transcendent full of wisdom. He pointed with a finger, and starlight spread in all directions.

With a flash of light, Angélico flying from the distance followed the starlight to Cornell's side. Gazing at the Star World, he praised: "To be of use in such a secret realm, Bajur Astrology is indeed one of the most wonderful and mystical secret methods."

Before long, the Bajur Dynasty Warlock with a bare upper body, and covered in runes flew over from afar and stopped at Cornell's side.

After another period of time, Cresno and the other three Warlock supreme geniuses from the Brest Dynasty as well as Ole and the other three supreme geniuses from the Kadred Dynasty following the starlight appeared.

Almas, Ole, Angélico, and Katrina were seriously injured by Yang Feng at that time. But within two days, they have already recovered to about 80% of their strength. After all, the matches in the arena weren't battles to the death. Or else, even if the four of them escaped by chance, their soul source would have been damaged, and they wouldn't be able to recover within two days.

Brea, an expert from the Kadred Dynasty's Hall of Immortality with long silver hair and the temperament of a ruler took a deep look at Cornell and said unhurriedly: "Bajur Astrology is truly extraordinary!"

There was a flash of enigmatic light in the eyes of the other supreme genius, and they took a deep look at Cornell.

In fact, astrology is a branch of divination. Warlocks following this path possess powerful fighting prowess. But the most terrifying thing about them is that they can peek into the past and use countless information to predict the future. The past has been determined and cannot be changed. The future, on the other hand, has countless branches, and some future branches can be changed. However, the main stream of the future is hard to shake. Divination Warlocks like Astrologers can peek into the future changes. Based on the future development, they can avoid calamities. They are extremely difficult to kill. At the same time, they can gain huge benefits.

Warlocks who practice astrology have two weaknesses. The first is that they're a bit weaker than other peerless geniuses of the same rank. The second weakness is that whether you look into the past or the future, you need to consume huge amounts of materials as well as the caster's life span. Therefore, the Warlocks who practice astrology basically all die prematurely.

The 4th Warlock Dynasty's Star Lord also didn't break through the fate of Divination Warlocks, and his reign only lasted for several thousands of years before he died. Among human Warlock Emperors, he had the shortest lifespan.

Even so, having a Divination Warlock as an enemy is a headache. Because they will sense danger prematurely, it's very difficult to force them into a certain death situation.

Cresno spoke solemnly: "Did you find traces of Yang Feng?"

Proud and arrogant as they are, these supreme geniuses of the Western World wouldn't have acted together originally. But in order to defeat Yang Feng, they finally put their pride aside and banded up.

Runes formed from starlight flickered in Cornell's eyes, and his indifferent voice sounded: "I already found Yang Feng. He's 9,000 kilometers away in that direction. I will stay here and guide you with starlight.

Brea's eyes shimmered gloomily, and he uttered slowly: "With the 10 of us besieging Yang Feng, even if we win, it will be a disgrace!"

These 11 experts are peerless geniuses of the Western World who have formed a virtual world in the Starry Sky realm. With their pride, each of them disdains to besiege other people.

However, Yang Feng is simply too strong. Brea and the others have no choice but give up their pride and gather together to besiege Yang Feng.

The Time Sky City is a place that the Time Lord built to cultivate talents of the young generation. Every Warlock who enters the Time Sky City will gain tremendous benefits. Yang Feng is already so strong that he's almost invincible in the same rank. Brea and them can't allow him to continue to grow. Otherwise, the gap will only widen.

Cresno's eyes flashed with unswerving determination: "There is a saying in the Eastern World – the winner is king, the loser is bandit. As long as we win and enter Time Sky City, then the gap between us and him will only narrow. Besides, we're doing it for the entire Western World! A monster like Yang Feng cannot be left unchecked. Otherwise, the Western World will once again be shrouded in the shadow of the Eastern World. Under the leadership of the Dawn Lord, the Western World finally

managed to escape from the shadow of the Eastern World. We absolutely cannot return to the age where the Eastern World controls everything.”

Chapter 543 – Siege

Prior to the rise of the Dawn Lord, the Warlocks from the Eastern World were the masters of the Cangzhi Plane. If the Western World hadn’t produced several Holy Spirit Warlock rank experts, and if they hadn’t followed the seven Warlock Emperors and contributed greatly to their cause, then the Western World would have been annexed a long time ago.

Even so, in the seven Warlock Dynasties era, the Warlocks from the Eastern World were very proud and arrogant, and many of them called the Warlocks from the Western World barbarians. This contempt made the Warlocks from the Western World quite resentful.

However, in the seven Warlock Dynasties era, the Warlocks from the Eastern World were extremely brilliant, occupying countless planes, mastering countless secret methods, and plundering endless resources. Warlocks from the Western World could only endure.

But when the Dawn Lord came into being, it brought rapid development to the Western World, who then suppressed the Eastern World.

After the collapse of the Dawn Dynasty, the three dynasties that divided the Western World into three parts added together are still far stronger than the Great Cloud Dynasty, which is all thanks to the contributions of the Dawn Lord.

Although the Warlocks of the Western World and the Warlocks of the Eastern World will work together to resist the offensive of experts from other planes, but they don’t wish to see the Eastern World give birth to a Warlock Emperor rank powerhouse.

After listening to Cresno’s words, the Warlocks from the Western World nodded their heads after a moment of silence. If Yang Feng were only a little stronger than any of them, they wouldn’t make such a decision. They would rely on their own strength and efforts to find ways to surpass him.

However, because Yang Feng’s display has surpassed them by far, they made the decision to contain Yang Feng.

“He’s in this direction!” Starlight turned into an arrow that flew in Yang Feng’s direction.

The 10 Warlocks flickered into motion and turned into streams of light flying into the distance.

“Good luck to you!” Cornell looked into the distance, and seals formed from starlight flickered in his eyes. He frowned, a look of anxiety flashed on his face, and he sighed slowly: “I hope you can defeat that monster who is beyond imagination!”

Yang Feng who has easily captured the fifth Key of Time suddenly turned his head and looked into the distance with excitement in his eyes: “Oh, they’re coming? 10 supreme geniuses from the Western Worlds are coming! Interesting, truly interesting!”

In the Time Sky City Competition Assembly, only geniuses like Yi Yuanyang, Cresno, and others who have formed a virtual world have the qualifications to fight Yang Feng. The rest of the Warlocks are just small fries, and can be beaten easily.

In the Floating Palace, there are several seats, which are occupied by Infinity Warlocks, each of which can easily control a plane and compete with strong divine force rank gods.

In the Floating Palace, there sit a total of 10 Infinity Warlocks, four of which come from the Great Cloud Dynasty, and the other six come from the Western World.

Although the 10 Infinity Warlocks didn't fought directly, but their life force fields constantly interwove and clashed, forming various weird phenomena. Were it not for the powerful purification force field opened in the Floating Palace, then once the life force spilled to the outside world, it could kill all life forms below the level-1 Warlock rank within a radius of 1,000 kilometers.

If they wanted, the infinity Warlocks could easily blast apart a grade 9 plane and kill countless life forms that inhabit the plane. They are such terrifying existences.

By releasing their life force field, Infinity Warlocks can probe the other Infinity Warlocks. Some newly promoted Infinity Warlocks cannot accurately control their life force field, and their life force field will be suppressed by that of other Infinity Warlocks. Suppressed Infinity Warlocks are pushovers who will be taken advantage of.

The life force fields of the 10 Infinity Warlocks engaged in battles unthinkable for ordinary people, but the outcome is a tie. Clearly, the 10 Infinity Warlocks aren't pushovers. Without coming to blows for real, they cannot decide the winner and the loser.

A man in a scarlet robe looked at a huge crystal ball and snorted coldly: "Humph, 10 people went to besiege one person. Is this how the Brest Dynasty, the Bajur Dynasty, and the Kadred Dynasty do things? How disgraceful."

Via the huge crystal ball, the Infinity Warlocks can clearly see what's going on in the assembly.

The scene of 10 supreme geniuses from the Western World going to besiege Yang Feng naturally entered their eyes.

Although the Infinity Warlocks weren't present in the lobby of the Secret Dragon Inn, but the fights between Yang Feng and Angélico and them didn't escape them.

Seeing the 10 Warlocks join forces to besiege Yang Feng, a flash of embarrassment streaked past the eyes of the Infinity Warlocks from the Western World.

A white-haired and white-bearded Infinity Warlock from the Brest Dynasty responded flatly: "Zhang Yuelei, this is just a competition between young people. Fighting people with numbers is a war tactic. They know how to gather their own strength and join forces against the enemy. I can only praise them for being smart. When we human Warlocks fight against powerful enemies from other planes, don't we often join forces to defeat them?"

The Cangzhi Plane's Warlocks are most expert at fighting together. Several first-rate pinnacle Bright World Warlocks using secret treasures can even contend against a weak junior Infinity Warlock rank freak.

In the history of the Cangzhi Plane, human Warlocks have often united and used secret treasures to defeat and seal many powerful beings.

Zhang Yuelei's eyes shimmered angrily, and he uttered coldly: "Barbosa, you're spouting sophistry. This competition is a test the Time Lord created to select young geniuses, not a war with other race experts. In a war, any method can be used, but in a trial, using numbers is despicable!"

Among the four Infinity Warlocks from the Great Cloud Dynasty, a handsome man dressed in a green Warlock robe, with two strokes of mustache on his face said indifferently: "Zhang Yuelei, Barbosa is right. There is nothing preventing them from working together in this competition. Working together is the basis for us human Warlocks to defeat the powerful existences of other planes."

Zhang Yuelei's face fell, and he spoke frigidly: "Ye Xunlong, why are you speaking up for them?"

Ye Xunlong glanced at the crystal ball, a cold ray streaked past his eyes, and he said flatly: "I'm just telling it as it is."

Within the secret realm, Yang Feng operated the Battle Demon Secret Method, and a set of white Battle Demon Armor quickly covered his whole body. Next, he pressed the Ruler Magic Cube, and the Ruler armor enveloped him as well.

As quasi-Moonlight Warlocks with a virtual world, the combat power of the 10 Warlocks is amazing. Without drawing support from secret treasures, Yang Feng may be defeated in a moment of carelessness.

After equipping Ruler armor, Yang Feng operated the law of space, and stepped into a Spatial Gate.

A spatial ripple surged beside Ole, and Yang Feng flew out of a Spatial Gate and punched Ole.

The strange membrane enveloping Ole teleported him out of the secret realm in an instant.

"Primal Chaos Finger!" Yang Feng pointed with a finger at Almas, and a beam containing the aura of primal chaos and annihilation burst out of the finger and stabbed into Almas's head in a flash.

A weird membrane instantly swallowed Almas and teleported him out of the secret realm.

The two experts Ole and Almas were heavily wounded by Yang Feng not long ago, and they haven't recovered to their full strength yet, so Yang Feng took care of them first.

"Nine Revolutions Divine Wind!" Yang Feng spread the fingers of his hand, and violent wind blades containing the law of wind formed from Nine Revolutions Divine Wind and slashed towards the remaining eight Warlocks.

"Eternal Holy Shield!" Cresno silently recited an incantation and pointed with a finger, and a dazzling light shrouded his body and formed the Eternal Holy Armor!

Eternal Sacred Armor is one of the strongest defensive secret methods of the Hall of Eternity. In terms of defensive power alone, it is above the Battle Demon Secret Method. Additionally, the Eternal Holy Armor can protect the soul of the caster and resist various illusions and attacks on the soul. In this respect, it exceeds the Battle Demon Secret Method by far. However, the Eternal Holy Armor does not have the heaven defying effect of progressing along with the caster.

Nine Revolutions Divine Wind slashed onto Cresno's Eternal Holy Armor and collapsed, unable to hurt him.

There was a flicker of strange light in Katrina's beautiful eyes, and her body fluttered, and then directly collapsed and disappeared, as if she disappeared from this space.

"Extraordinary Courtyard!" The eyes of Bruzzone, a Warlock from the Brest Dynasty's Green Sea Forest, flashed coldly, and he silently recited an incantation and fished out a wood carving secret treasure inscribed with numerous mysterious seals and pressed it against his chest.

Bright green lights suddenly shone and formed a courtyard filled with countless strange extraordinary plants in the void.

An extraordinary plant Wind Order Chrysanthemum opened, and its petals fluttered and swept the Nine Revolutions Divine Wind. The Nine Revolutions Divine Wind collapsed strangely, and the wind elemental particles inside it were absorbed by the Wind Order Chrysanthemum.

Chapter 544 – Fierce Battle

Covered in strange seals, upper body bare, Chippeco from the Bajur Dynasty's Warlock group Dark Demon Mountain silently recited an incantation and swallowed a secret treasure Evil Ogre Monarch Bead. Along with flashes of light, he transformed into a 500-meter-tall Evil Ogre Monarch covered in strange seals exuding an ancient and ferocious aura and advanced Moonlight Warlock rank fluctuations of power.

Windblades formed from Nine Revolutions Divine Wind cut open the skin of the Evil Ogre Monarch, and blood flowed out from the cuts.

Black gas rolled out, and the injuries on the body of the Evil Ogre Monarch healed instantly, leaving no traces of injury behind.

Angélico unleashed the Truth Empyrean Imprint at once. The surrounding space distorted, and the wind blades went directly into the distorted space and disappeared.

With long scarlet hair and an unruly and untamed expression, Correia from the Kadred Dynasty's Hand of Elements pointed with a level-6 secret treasure Blazing Scepter. Containing the law of fire, Elemental Flames incinerated and purified the Nine Revolutions Divine Wind, and then turned into a flame dragon shooting towards Yang Feng.

Elemental Warlocks specialize in elemental spells, which can mobilize the power of various elements in heaven and earth. The power of elemental spells is a dozen or even dozens of times greater than that of

the caster. Elemental Warlocks are among the most powerful Warlocks. Solely in terms of destructive power, they even surpass Bloodline Warlocks by far.

A black-haired and blue eyed, mixed blood beautiful girl from the Kadred Dynasty's Six Star Circle named Enlin took out a secret treasure Sea God Trident. The law of water surged, and boundless seawater suddenly surrounded her and formed a Sea World. The dense wind blades slashed into the Sea World and cut a large area of seawater, and then collapsed and dissipated.

Holding a level-6 secret treasure Dawn Scepter, Brea from the Hall of Immortality exuded a sacred, powerful aura.

As if they could purify all the filth and evil in the world, rays of dawn shot out from the Dawn Scepter and shone on the wind blades.

Illuminated by rays of dawn, wind blades formed from Nine Revolutions Divine Wind collapsed suddenly.

In an instant, the eight Warlock geniuses easily smashed the wind spell cast by Yang Feng. At the same time, Elemental Flames blasted into Yang Feng.

Black whirlpools appeared in front of Yang Feng and conveyed the Elemental Flames that could even burn Moonlight Warlocks into ashes into the small world inside him.

Numerous Devourers formed a black mechanical insect swarm and pounced on the Elemental Flames. Shortly after, the Elemental Flames were turned into high energy crystals.

Yang Feng's figure flickered, and he appeared in front of Angélico in a flash and punched him in the face with the speed of a clap of thunder.

Angélico didn't expect that Yang Feng who was subjected to the Elemental Flames that could incinerate Moonlight Warlocks would appear in front of him. Coupled with his injuries, his reaction was a beat too slow, and he was blasted in the face by Yang Feng.

A transparent membrane suddenly emerged and engulfed Angélico and teleported him out of the secret realm.

When he dealt with Angélico, Yang Feng showed a smile: "Took care of a troublesome guy!"

With the Truth Empyrean Imprint, Angélico can freely manipulate the power and innate abilities of nine Transcendents. One-on-one, Yang Feng has nothing to fear, but in group battle, even though he was injured, his threat to Yang Feng was second only to Cresno and Brea.

"Die!" Chippeco transformed into the Evil Ogre Monarch shot a black beam of light containing the law of evil ogre barreling towards Yang Feng from his maw.

"Void Ancient Vine!" A cold, indifferent look in his eyes, Bruzzone silently recited an incantation, and an extraordinary plant Void Ancient Vine suddenly flew out, pierced into the void, and sealed the space.

Void chains invisible to the naked eye suddenly appeared around Yang Feng. Pitted against the void chains, it would take even Moonlight Warlocks a moment to break them.

That moment is enough time for the Evil Ogre Monarch to hit the target.

Yang Feng extended his right hand, and a huge black vortex suddenly appeared, swallowed the black beam of light shot by the Evil Ogre Monarch, and conveyed it into his small world.

The Evil Ogre Monarch is an advanced Moonlight Warlock rank extraordinary life form after all. Even though the Ruler armor and the Battle Demon Armor weakened its full force strike greatly, but the strike still wounded him a little. His body ached all over.

When the black beam of light shot by the Evil Ogre Monarch entered the small world, it sent one Devourer after another tumbling and finally blasted into the World Ring and collapsed. The World Ring shook a little. The remaining power of the black beam of light was swallowed up by the Devourers.

Yang Feng blurred into motion and knocked into numerous void chains. Sharp spikes ejected from the Ruler Series and cut the void chains apart, and Yang Feng flew towards the Evil Ogre Monarch like a meteor.

“Absolute Frost!” There was a flash of coldness in Enlin’s beautiful eyes, and she pointed at Yang Feng with the Sea God Trident in her hand.

A blue aura containing the law of ice gushed out from the Sea God Trident. Containing a faint aura of an archgod from ancient times, wherever the blue aura passed, everything froze. It looks like a path of ice is extending towards Yang Feng.

Yang Feng paid the blue aura no mind. When the blue aura approached him, huge vortexes suddenly appeared and attempted to swallow it.

When the blue aura slammed into the huge vortexes, the huge vortexes froze together with Yang Feng.

“Fuck, I messed up! Absolute Freeze cast by Enlin is too powerful! It exceeds the limit of my conveying ability!” A horrible ice aura extended as if to freeze his soul, making him alarmed.

Yang Feng originally planned to devour the blue aura, but the blue aura turned out to be far beyond his expectation. He messed up, and was frozen.

“Eternal Holy Lance spell!” Cresno threw a level-6 secret treasure Eternal Holy Lance engraved with numerous seals at Yang Feng with all his might, and the lance turned into a stream of light stabbing towards Yang Feng.

Eternal Holy Lance spell is a weird spell containing the law of karma. This spell is extremely demanding and difficult to practice. But once unleashed, the Eternal Holy Lance will surely hit the enemy.

No matter what spells are cast, the Eternal Holy Lance can’t be evaded. After the spell is unleashed, it is already foreordained that it will hit the enemy. Faced with karma spells, even Warlock Emperor rank experts who aren’t proficient in the law of karma won’t be able to break away from them.

“Seven Color Skyfire!” Violent Seven Color Skyfire burst out suddenly. The four types of elemental particles quickly transformed into berserk fire elemental particles that fused with Seven Color Skyfire, which burned a large hole in the ice sealing Yang Feng.

Taken aback, Enlin's eyes flickered with a dignified gleam: "What a scary guy! His virtual world is so powerful! I'm afraid that it's more than twice as powerful as my virtual world!"

Absolute Freeze is an extremely powerful freezing spell Enlin released with the help of the secret treasure Sea God Trident. She is very confident that even an advanced Moonlight Warlock would be powerless to escape once frozen by it. Now that Yang Feng has broken free of this spell, his power once again filled her heart with shock.

"Primal Chaos Annihilation Fist!" As soon as he shattered the weird ice force, Yang Feng was forced to face the Eternal Holy Lance. There was a peculiar glint in his eyes, and he frantically extracted world force via the World Ring, and then crushed a fist containing the power of primal chaos and annihilation into the Eternal Holy Spear.

Primal chaos force erupted instantly, and the Eternal Holy Lance was sent tumbling back. The Eternal Holy Lance stabbed open a large bloody hole on Yang Feng's right hand.

Were it not for the protection of the Ruler armor and the Battle Demon Armor, that blow would have ran through Yang Feng's right hand and crippled it.

To break free from a karma spell like the Eternal Holy Lance spell, you can only meet force with force and destroy or blast away the Eternal Holy Lance with absolute power.

Cresno was startled in his heart: "How fearsome! He can even knock away my Eternal Holy Lance!"

Ever since Cresno cultivated the Eternal Holy Lance spell, he has never failed to inflict serious injuries once he cast it. This is the first time that he failed.

After he knocked away Cresno's Eternal Holy Spear with one blow, Yang Feng pressed the Dimensional Badge on his chest, and bright light shone, and thousands of Starry Sky Rippers emerged suddenly and flew towards the remaining seven Warlocks along with the rumbles of engines.

Without resorting to external forces, Yang Feng is a boat that could be capsized by the seven Warlocks in a moment of carelessness.

"A bunch of tin cans! Elemental Flames!" Correia pointed at the Starry Sky Rippers with the Flame Scepter in his hand, and Elemental Flames instantly split into numerous fireballs barreling towards the Starry Sky Rippers.

Starry Sky Rippers hit by the fireballs ignited and exploded in midair.

Chapter 545 – Lightning Awl

Yang Feng's figure flickered, and he appeared in front of Correia who has just cast a spell and punched out with the speed of a bolt of lightning.

"I've been waiting for you! Elemental Fire Storm!" Smiling coldly, Correia silently recited an incantation, and a storm of fire capable of easily burning Moonlight Warlocks to cinders appeared around Yang Feng and engulfed him in an instant.

Another scene that Correia could not believe took place. The storm of fire that could easily burn Moonlight Warlocks to ashes was devoured by whirlpools shortly after it engaged Yang Feng.

“Elemental Warlocks are indeed very strong, but unfortunately for you, I can restrain your power completely!” His gaze cold as ice, Yang Feng mused secretly and punched Correia in the head.

A membrane suddenly appeared and enveloped Correia and conveyed him out.

Yang Feng pressed the Dimensional Badge on his chest once more, and thousands of Starry Sky Rippers flew out and shot towards the remaining six supreme geniuses like meteors.

Unless they number millions of units, Starry Sky Rippers won’t be able to kill such geniuses. However, the thousands of Starry Sky Rippers have enough destructive power to destroy their life force field, forcing the supreme geniuses to destroy the Starry Sky Rippers in turn.

“Blazing Flower!” Bruzzone silently recited an incantation, and a 100-meter tall extraordinary plant Blazing Flower engraved with numerous seals, burning with white flames extended from the Extraordinary Courtyard.

The Blazing Flower shot a beam of fire that blasted a large tract of Starry Sky Rippers apart.

Taking advantage of the Warlocks engaging the Starry Sky Rippers, Yang Feng’s body blurred, and he appeared before Enlin.

“Sea Guard!” Pale from fright, Enlin pointed the Sea God Trident at Yang Feng, and sea water poured out and formed a huge sea barrier with her as the center.

“Primal Chaos Finger!” Yang Feng pointed with a finger, and a beam containing the aura of primal chaos and annihilation suddenly shot towards Chippeco who has transformed into the Evil Ogre Monarch.

Distracted by the Starry Sky Rippers, Chippeco who has transformed into the Evil Ogre Monarch was hit by the Primal Chaos Finger, and a membrane enveloped him and teleported him out of the secret realm.

“What a terrifying fellow! His combat strength is heaven-defying! It seems I can only use that move!” When Brea saw this scene, his heart shook, and he silently recited an incantation and spread the fingers of a hand. A golden coin engraved with numerous mysterious seals suddenly flew out and shot out chains formed from seals.

When he saw this, Yang Feng’s face changed dramatically, and his eyes shimmered with graveness: “Immortal Seals, the Hall of Immortality’s most powerful sealing spell!”

Sealing spells are queer. Once certain conditions are met, the caster may be able to defeat a stronger opponent.

Human Warlocks have used sealing spells to overcome many powerful existence more powerful than them. Using sealing spells, a dozen Glorious Sun Warlocks can even seal a Bright World rank freak.

Although sealing spells are extremely powerful, but they’re also subjected to severe restrictions. First, there aren’t too many human Warlocks who can master sealing spells. Second, to cast a sealing spell, the caster has to consume their soul origin force. Some first-rate sealing spells even require the caster to burn their own soul source to conjure them.

If Brea burned his soul source to cast a sealing spell, then despite how strong Yang Feng is, it would be very difficult for him to resist it.

Yang Feng flicked his wrist, and the level-7 secret treasure Lightning Awl appeared in his hand. A tremendous attractive force erupted from the Lightning Awl and extracted life force from his body.

In less than a breath of time, the life force inside Yang Feng was nearly drained by the level-7 secret treasure Lightning Awl.

“Sure enough, a level-7 secret treasure is not something I can use freely at present.” Clenching his teeth, Yang Feng frantically extracted world force from the small world and poured it into the level-7 secret treasure Lightning Awl.

The Lightning Awl suddenly radiated silver lightning that emitted crackling sounds, and then blurred and shot towards Brea.

“Wishful thinking! Magic Steel Thorns!” Bruzzzone screamed, and numerous Magic Steel Thorns a dozen times harder than diamonds extended from the Extraordinary Courtyard and formed a wall of thorns blocking in front of Brea.

“Shield of Ice!” Enlin pointed with the Sea God Trident in her hand, and a huge ice shield suddenly appeared blocking in front of Brea.

“Holy Shield!” Cresno chanted an incantation and pointed with a finger, and a shield formed from light blocked before Brea.

“Elemental Shield!” Katrina cast a magic shield to block in front of Brea.

With lightning coiling around it, the Lightning Awl crushed into the Magic Steel Thorn wall and shattered it. Following the Magic Steel Thorns, lightning force entered Bruzzzone’s Extraordinary Courtyard, and the Extraordinary Courtyard fragmented, and countless extraordinary plants collapsed.

After the Lightning Awl broke through the Magic Steel Thorn wall, silver lightning smashed the three defensive spells Shield of Ice, Divine Shield, and Elemental Shield and swallowed Brea instantly.

A membrane suddenly appeared and teleported Brea out of the secret realm.

“What a dreadful fellow!”

“Is this his trump card? A level-7 secret treasure!”

“To be able to use the power of level-7 secret treasures, this guy is terrifying!”

“...”

Seeing Brea being swallowed by the silver lightning of the Lightning Awl, Cresno and the other three supreme geniuses felt palpitations. The power required to operate level-7 secret treasures is extremely frightening. As supreme geniuses of their respective major forces, Cresno and them have one or two level-7 secret treasures on them. But with their cultivation base, if they want to use a level-7 secret treasure, they’ll have to drain their life force nearly dry and burn their soul origin.

But now they saw Yang Feng use the level-7 secret treasure Lightning Awl, which intimidated the four supreme geniuses. If Yang Feng can freely control the level-7 secret treasure Lightning Awl, then even though the four of them joined forces, they will be hunted down one by one.

Yang Feng pressed the Dimensional Badge on his chest, and thousands of Starry Sky Rippers were released again.

A Starry Sky Ripper grabbed Yang Feng, stimulated its engine to the limit, and flew away. The Lightning Awl drained the life force inside his body nearly dry. In a short period of time, his combat power fell drastically. It was even difficult to conjure a level-5 spell.

Cresno immediately caught the truth of the matter and shouted: "He exhausted his power. This is our only chance. We don't have much time. We must take care of him before he fully recovers."

Although Yang Feng has consumed his life force almost entirely, but he can still draw on the world force to nourish his body and recover his power. After a while, he will be able to recover 70 to 80% of his combat power.

This is the strength of a powerhouse who formed a world. Usually, world force can be stored by cultivating the world. Once in battle, world force can be extracted to fight. Such experts can compete with gods who burn divine force crystals to maintain their peak state at nearly all times.

"You think that level-7 secret treasures can be operated so easily? Void Ancient Vines!" His gaze cold as ice, Bruzzone pointed at Yang Feng, and Void Ancient Vines pierced into the void and stabbed towards Yang Feng along the void.

Yang Feng pressed the Dimensional Badge on his chest, and Space Disruptors suddenly flew out and released space disruption fluctuations that turned the surrounding space chaotic.

Lost in the chaotic space, the Void Ancient Vines could not lock on Yang Feng.

"Absolute Freeze!" Enlin pointed at Yang Feng with the Sea God Trident, and a blue breath freezing everything in its surroundings extended towards Yang Feng..

"The same spell will have no effect on me twice!" Yang Feng sneered. A black mist blocking all probings emerged in his surroundings, and numerous Devourers flew out of the World Ring and covered his body.

The blue breath froze Yang Feng together with the Devourers. After just one breath of time, the blue breath was devoured by the Devourers.

"Eternal Holy Lance!" Cresno threw the Eternal Holy Lance with all his strength, and the lance turned into a beam that stabbed towards Yang Feng.

"You're indeed a most formidable supreme genius from the Western World! There is no way to escape this Eternal Holy Lance." Yang Feng glanced at the Eternal Holy Lance and frowned. With his left hand, he suddenly released a Primal Chaos Finger barreling towards the Eternal Holy Lance.

The Eternal Holy Spear ran through the beam of light formed from Primal Chaos Finger and landed on the fingers of Yang Feng's left hand. It pierced through the Ruler armor and the Battle Demon Armor, blasted apart two fingers, and sent Yang Feng tumbling away.

Pierced by the Eternal Holy Spear, Yang Feng's right fist and left hand fingers kept dripping blood. The wounds showed no trace of healing. Never Heal is a frightening spell attached to the Eternal Holy Lance.

Chapter 546 – Complete Suppression

Enchanted with Never Heal, experts stabbed by the Eternal Holy Lance in battle will bleed continuously and eventually die due to blood loss.

Never Heal is a frightening spell. Even if it's someone as strong as Yang Feng, he'll have to prepare a special elixir. After taking the elixir, and coupled with his powerful life force, he'll be able to dispel Never Heal. But in a fight, the enemy won't give Yang Feng time to make his preparations.

Yang Feng scanned his injured hands and mused: "It seems that the Ruler Armor alone isn't enough. I must get a weapon secret treasure. Fighting others who wield weapon secret treasures bare handed is really vexing."

Prior to this, Yang Feng has concentrated on creating the Ruler Armor and enhancing his own strength, and hasn't refined a weapon secret treasure exclusive to him.

Now that he is fighting with supreme geniuses like Cresno, Yang Feng has discovered the shortcomings of not wielding a weapon secret treasure.

Never Heal isn't even the most formidable spell that can be attached to a weapon secret treasure. There are weapon secret treasures like the god armament Shadow Dagger enchanted with various curses and sealing spells. Once scratched by such a weapon secret treasure, it will inflict serious harm. Of course, the number of weapon secret treasures that are enchanted with such spells is very small. But they still exist.

"In the world of Warlocks, if you want to be invincible, you must have no shortcomings. Otherwise, if you aren't careful, a weaker opponent may defeat or even kill you. It is no wonder that despite how strong the eight Warlock Emperors were, they have been defeated by others."

Each of the eight Warlock Emperors was extremely powerful, and has overwhelmed and suppressed countless peerless geniuses of the same era. But before they have reached the peak, each of them had suffered defeats. Every time they lost, they would become stronger, more perfect, and ultimately invincible.

Yang Feng took a step forward, his body blurred, and he appeared in front of Cresno. Crushing the space in its wake, a Primal Chaos Annihilation Fist shrouded in primal chaos force blasted towards Cresno.

"He's recovering so fast!" Cresno's face suddenly fell. He crossed his hands and blocked in front of him. At the same time, magic shields appeared and enveloped him.

The Primal Chaos Annihilation Fist penetrated one magic shield after another and eventually slammed into Cresno's arms, and a violent force broke out in an instant. Cresno slammed into the ground and blasted open a huge hole.

There was a flash of dignity in Yang Feng's eyes: "It wasn't enough to deal with him! The Eternal Holy Armor spell is really something!"

Without taking the level-7 secret treasure into account, Primal Chaos Annihilation Fist is Yang Feng's strongest killing move. When he stimulates the world force inside him, almost no one in the same rank can resist his full strength strike.

At his peak form, Yang Feng can perform this killing move only 20 times per day. More than that and it will be a huge burden on his body and cause him harm.

Despite being hit by Yang Feng's fist, Cresno hasn't been teleported out, which greatly exceeded Yang Feng's expectations.

"Fantasy Magic Flowers!" Bruzzone chanted an incantation silently, and Fantasy Magic Flowers with the faces of beautiful women growing on them released bewitching light from the Extraordinary Courtyard.

Bewitching women oozing temptation flew out of the Fantasy Magic Flowers.

The bewitching women danced on top of the Fantasy Magic Flowers. The beautiful dance seemed to be capable of sucking people's minds in.

"Fantasy Magic Flowers, this kind of extraordinary plant dance can confuse Moonlight Warlocks. Even some Glorious Sun Warlock rank freaks may be fully absorbed in the dance and eventually devoured by the flowers. The Extraordinary Courtyard is truly extraordinary!"

"Transcendent Pupils!" Yang Feng glanced at the Fantasy Magic Flowers, and the confusion in his eyes faded in an instant. Countless seals appeared in his eyes, and he "looked" at the Fantasy Magic Flowers.

The enticing women dancing on the Fantasy Magic Flowers emitted miserable screams, wilted and withered, and turned into dust and disappeared from the world.

"Rage of the Sea!" Enlin pointed at Yang Feng with the Sea God Trident, and violent seawater suddenly condensed into a terrifying sea sweeping towards Yang Feng.

Ignoring the sea, Yang Feng took a step forward and stepped into Bruzzone's Extraordinary Courtyard and slammed a Primal Chaos Annihilation Fist towards Bruzzone.

"Magic Steel Thorns! Gold Ancient Vines! Dragon Teeth Ancient Trees! Man-eating Ghost Vines!" In the Extraordinary Courtyard, numerous powerful extraordinary plants capable of devouring Moonlight Warlock rank powerhouses suddenly emerged and lunged at Yang Feng.

The Primal Chaos Annihilation Fist shook slightly, and the extraordinary plants collapsed instantly, and then the fist containing the power of primal chaos and annihilation blasted Bruzzone in the abdomen.

A membrane suddenly appeared and teleported Bruzzone to the outside world.

The sea containing the law of water swallowed Yang Feng and pressed down on him like a mountain.

Inside this sea, even a Moonlight Warlock would have to expend a tremendous amount of power to display a fraction of their strength.

"This is indeed a powerful spell! But unfortunately, it has no effect on me!" Yang Feng smiled coldly. Huge whirlpools suddenly appeared, devoured sea water, and conveyed the water into his small world.

Yang Feng's figure blurred, and the sea that enveloped him was divided into two, opening a huge passage for him. He crossed the huge passage with a step, appeared in front of Enlin, and touched her in the forehead with a finger, and rays of light shone and formed a rune that sealed Enlin's power.

Enlin's pretty face turned ashen, and her beautiful eyes filled with shock. She knew very well that she was far from being Yang Feng's opponent, but she never expected that the difference in combat power between her and Yang Feng was this great.

In fact, among the 11 supreme geniuses from the Western World, Enlin isn't weak. However, the Rage of the Sea was restrained by Yang Feng's spell.

If it was another Warlock, or even a Moonlight Warlock, they would have to expend a lot of power to get out from the sea.

"How foolish!" Suddenly, Yang Feng sneered, extended his hand towards the void, grabbed Katrina by the porcelain neck with his left hand with two fingers missing, and pulled her out into the open.

Black seal chains shot out from Yang Feng's left hand and bound Katrina firmly.

Yang Feng tossed the two girls Katrina and Enlin aside, and his gaze locked on Cresno.

Without giving Cresno any chance to speak, Yang Feng's figure fluttered, and he came directly in front of the former and smashed a Primal Chaos Annihilation Fist into him.

Cresno crossed his hands and blocked Yang Feng's second punch by relying on the Eternal Holy Armor spell.

Containing the power of primal chaos and annihilation, one punch after another slammed into Cresno. On the sixth punch, Cresno's Eternal Holy Armor finally collapsed, and then a membrane covered him, and he disappeared from the secret realm.

After taking care of Cresno, Yang Feng turned around, and his eyes fell on the two beautiful girls Katrina and Enlin.

Katrina's beautiful eyes flickered with an enigmatic gleam, and she barked: "Yang Feng, what do you want to do? This secret realm is monitored by Infinity Warlocks. If you dare to do anything unsavory to me, they won't let you off!"

Before Enlin could react, Katrina uttered what she was going to say, making her feel somewhat uncomfortable.

"I just want a kiss from you two beautiful girls! I won't do anything else to you!" Yang Feng showed a wicked smile and beckoned with his hands, and Enlin and Katrina entered his arms. He lowered his head, and forced a kiss of their cherry lips.

After Enlin was kissed by Yang Feng, her eyes flickered with anger, and she roared in rage: "You bastard! I won't forgive you!"

Katrina's eyes flashed with joy, yet her face showed anger: "You asshole! You'll pay for this!"

Yang Feng smiled wildly and pointed with his finger. Magic light shone, and the spell that bound Enlin and Katrina was dispelled: “Ha-ha, you’re welcome to come at me to get revenge! However, in response, I will make you leave the secret realm.”

The two girls glared hatefully at Yang Feng, then blurred into motion and flew into the distance like shooting stars.

The opportunity to enter the Time Sky City and achieve enlightenment under the Time Sky Pillar is extremely rare, and is very important to the two girls. They had no choice but to endure the humiliation and leave.

Chapter 547 – Promotion to a Moonlight Warlock

In the Floating Palace, life force fields churned and vibrated violently. If a Great Warlock rank expert was here, they would be seriously injured or even killed.

Barbosa smiled coldly: “One against ten, and he still won! He-he, the Battle Demon Sect has such a brilliant genius! Amazing!”

The auras of the other five Infinity Warlocks from the Western World churned and roiled. Obviously, they are rather unsettled.

Every Warlock who formed a virtual world is a supreme genius in the world of Warlocks who can challenge existences higher by a rank than them.

Warlocks who didn’t form a virtual world will be left in the dust by gods, evil gods, dragons and other extraordinary life forms from other planes.

Warlocks who formed a virtual world can not only contend against gods and challenge beings higher by a rank than them, but they can also operate secret treasures far beyond their current realm and display fearsome power.

The 10 Warlocks from the Western World were defeated by Yang Feng, which shocked even the Infinity Warlocks.

The life force fields of the four Infinity Warlocks from the Great Cloud Dynasty vibrated violently, their minds clearly unsettled.

Zhang Yuelei sighed secretly, and then looked at Ye Xunlong with worry in his eyes: “Remarkable! This Yang Feng is really remarkable. Unfortunately, he’s from the Battle Demon Sect.”

Ye Xunlong is an Infinity Warlock from the Tai Yi Sect. Although the relationship between the Tai Yi Sect and the Battle Demon Sect isn’t as incompatible as fire and water, but it is very bad.

Several Battle Demon Sect’s Infinity Warlocks died mysteriously shortly after their advancement. Reportedly, the Tai Yi Sect has something to do with it.

If the Battle Demon Sect hasn’t produced the two quasi-Infinity Warlock experts Huang Yihe and Yue Wuxian who formed a virtual world, then it might have already been annexed by the Tai Yi Sect.

Even so, Huang Yihe and Yue Wuxian are forced to be confined to the Battle Demon Sect, and cannot go out lightly.

Zhang Yuelei glanced at the other two Infinity Warlocks from the Great Cloud Dynasty and frowned: "In addition to Ye Xunlong, these two may also harbor malicious intentions towards Yang Feng."

Yang Feng is too powerful. Even the Western World's 10 strongest geniuses are not his opponents. For the other Infinity Warlocks of the Great Cloud Dynasty, such a genius is a thorn in their side.

If Yang Feng can mature smoothly, then the future era will be his. His prestige will overshadow all the forces of the Great Cloud Dynasty. The Battle Demon Sect will naturally do its utmost to cultivate and protect such a peerless genius, while all other forces will harbor evil designs towards him.

In the secret realm.

"He really defeated them! The miracle that had 21.3% chance to take place didn't occur." Cornell dispelled the Star World, and sighed lightly. There was a flash of wisdom in his eyes: "It seems that I have to change the way I get along with him and make the necessary investments."

To have cultivated the Bajur Astrology to this degree, Cornell is absolutely amazing. He foresaw that the probability of failure was too great, so he didn't participate in the siege of Yang Feng.

Following flashes of starlight, weird seals appeared on Cornell's body, and his aura vanished, looking like he has become an ordinary person. He landed on the ground.

The Time Sky City Competition Assembly is held for 15 days.

Withing this period of time, Yang Feng operated the Transcendent Pupils to unscrupulously seized Keys of Time in the Time Sky City.

Reckless Warlocks who fought with him for the Keys of Time were defeated and teleported out of the secret realm one after another.

Just like Cornell, many Warlocks cast spells and secret methods to conceal their aura after they got hold of a Key of Time and hid.

Despite how strong as Yang Feng is, he couldn't find the Warlocks who used various secret methods to hide.

Within these 15 days, Yang Feng gathered a total of 63 Keys of Time. Additionally, he found friends such as Zhuo Yifan, Zhou Feng, Kong Fangao, Wang Shulan, Zhang Zhiqiao, Zhang Tiantian, and gave them a few Keys of Time.

On the 15th day, the sky in the secret realm suddenly burst open, and white beams of light descended from the sky and shot towards the Warlocks with Keys of Time.

Yang Feng was enveloped by 58 white beams of light, and tremendous life magic energy poured into his body and frantically promoted his cultivation base.

If it was an ordinary quasi-Moonlight Warlock, they fundamentally wouldn't be able to bear life magic energy from 58 beams of light. But Yang Feng is a powerhouse who established a small world inside him. The portion of life magic energy that he couldn't absorb was sent into his small world.

The world origin of the small world eagerly absorbed huge amounts of life magic energy, and the small world expanded rapidly.

Each complete plane has a plane origin, which is also called a world will. The stronger the plane origin is, the stronger the world will be, and the more powerful experts it will accommodate and the more formidable treasures it will give birth to.

For world origins, life magic energy is equivalent to food. A complete plane will automatically absorb various types of energy drifting in the universe and transform them into life magic energy to sustain itself. Plain origins that cannot absorb life magic energy will slowly wither and die.

The same is true for the Cangzhi Plane. Via the power of queer laws, the Cangzhi Plane's plane origin extracts various types of force from the vast universe and transforms them into life magic energy, which in turn gives birth to precious treasures as well as magic stones and magic crystals.

The world origin of Yang Feng's small world has not yet fully matured, and cannot absorb the various types of force from the universe. He can only "feed" the world origin by using a huge amount of magic crystals.

Once the small world has transformed into a complete true world, it will devour various types of energy in the universe at all times, transform them into life magic energy, and nourish his body and soul. It will no longer need Yang Feng to "feed" it.

Enveloped by the 58 beams of white light, Yang Feng's cultivation base quickly advanced to the great circle Starry Sky Warlock rank, and then the quasi-Moonlight Warlock rank from pinnacle Starry Sky Warlock rank.

After he reached the quasi-Moonlight Warlock rank, Yang Feng no longer absorbed the life magic energy, and instead transmitted the tremendous amount of life magic energy into the small world.

Just like the evolution of a demigod into a true god in the Feisuo Plane, the evolution of a Starry Sky Warlock into a Moonlight Warlock in the Cangzhi Planes is also the most important link.

Based on Yang Feng's current cultivation base, he can already transform his starry sky core into a moonlight core. However, in order to achieve the perfect transformation and lay the most powerful foundation, he still needs to make some preparations.

Bathed in the light of the 58 white beams, Yang Feng disappeared.

There was a flash of light, and Yang Feng opened his eyes and found himself in a vast space. A quasi-Moonlight Warlock rank Rock Wolf appeared in front of him.

"Do I have to get rid of it?" A thought echoed in Yang Feng's sea of knowledge. He smiled and flicked his hand casually, and wind blades formed from Nine Revolutions Divine Wind suddenly slashed the Rock Wolf into pieces.

As soon as the Rock Wolf was chopped into pieces, white light flew out of the Rock Wolf's body and entered Yang Feng.

After a moment, Yang Feng's eyes showed a touch of joy: "My soul force has improved a little bit. Sure enough, the Time Sky City is a great opportunity not to be missed!

Compared to the body, it's much more difficult to strengthen the soul. To improve their soul force, Warlocks can only upgrade their cultivation base. Each time they advance by a realm, the soul of Warlocks will be strengthened by a fraction.

Except for Soul Warlocks who exist as soul forms, the rest of the Warlocks can hardly find secret methods to cultivate the soul. Although Soul Warlocks who have abandoned their flesh have grasped various soul secret methods, but none has ever reached the Warlock Monarch rank. In the end, the soul of Soul Warlocks will decay, and they will eventually die. Thus, not many people follow this path.

To get a trace of soul force by disposing of the Rock Wolf, Yang Feng was naturally ecstatic.

Before long, six quasi-Moonlight Warlock rank Rock Wolves appeared in the vast space.

The corners of Yang Feng's mouth rose.

In this space, you killed monsters, and then other monsters appeared. Rinse and repeat. After killing 36 Rock Wolves, junior Moonlight Warlock rank Rock Wolves emerged.

When six junior Moonlight Warlock rank Rock Wolves died, an intermediate Moonlight Warlock rank Rock Wolf appeared. After the first quasi-Glorious Sun Warlock rank Rock Wolf was killed by Yang Feng, the soul force he absorbed made his starry sky core finally reach full circle, and it started to transformation into a moonlight core unwittingly.

After an unknown amount of time, Yang Feng slowly opened his eyes, and tremendous intermediate Moonlight Warlock rank aura slowly spread from him. The remains of countless high grade magic crystals littered his small world.

Yang Feng's accumulation was very robust. Taking advantage of his soul reaching full circle, he broke through the bottleneck and advanced to the intermediate Moonlight Warlock rank in one fell swoop.

Chapter 548 – Time Sky Pillar

"So this is Moonlight Warlock rank power!" Yang Feng opened his eyes, and his eyes sparkled, looking like his gaze could distort space and destroy souls. With a thought, he saw that one half of his soul core has fully fused with the world origin of the small world, and the other half is suspended in the small world and exudes moonlight like rays that nourish the small world.

Moonlight Warlock is a name that the Time Lord gave the realm. In the 1st Warlock Dynasty era, human Warlocks with a small world were pinnacle experts. The soul core of such experts is divided in two. One half is integrated with the world origin, while the other half is turned into a star that unleashes moonlight.

Once Warlocks with a small world are promoted to Glorious Sun Warlocks, the soul core suspended in the small world will turn into a sun, release dazzling sunlight, and nurture life in the small world.

Yang Feng opened his eyes and looked around, and saw that the monsters that could offer soul force have disappeared.

There was a bright light, and he disappeared from his original position, and then appeared in a small world that extended without end with 108 towers.

In front of Yang Feng, there is a giant pillar of light shining with countless runes rising into the sky. The pillar is changing all the time, as if it exists in the past, the present, and the future.

Yang Feng just “looked” at the huge pillar of light, and boundless knowledge along with the original Time Text entered his head.

The optical computer in Yang Feng’s head rapidly recorded all those mysteries into the database.

Light continued to flicker in the square, and one Warlock after another was teleported into the square.

“That’s Yang Feng, he’s achieving enlightenment on secret methods recorded in the Time Sky Pillar!” As soon as Yi Yuanyang appeared in the square, his gaze fell on Yang Feng, and his eyes flashed with killing intent. He took a few steps forward and wanted to cast a spell to interfere with Yang Feng’s enlightenment.

Just then, a queer fluctuation surged, and Yi Yuanyang returned to his position of a few seconds ago.

“This is a restriction set up by the Time Lord. You can’t attack other people here.” Understanding welled up in Yi Yuanyang’s mind, and he sighed. He “looked” towards the Time Sky Pillar and began to comprehend the mysteries contained therein.

Legend has it that the Time Lord cut off a section of the River of Time and refined it into a treasure, which is the Time Sky Pillar that contains countless secret methods and infinite mysteries.

“The law of time is really mysterious. Unfortunately, unlike the Time Lord, my constitution isn’t compatible with the law of time. To gain comprehension in the law of time, it would take me double the effort for half the result. This mysterious Time Sky Pillar is of great benefit for me to form my own path, to gain enlightenment on my law, the law of “devouring”.

Yang Feng’s eyes flashed with the light of wisdom, and he no longer focused his energy on the mysterious and profound Time Text, and instead began to comprehend the path he chose, the path of “devouring”.

Xizu was a mechanical civilization, and energetics is one of its core subjects. Xizu undertook profound research on the subject.

The culmination of xizu technology, the Eternal Power Furnace, is a device that can extract and convert various types of energy in the universe.

Thanks to the Apple of Wisdom, Yang Feng’s wisdom has been promoted to an incredible level. Coupled with hard work, he has fully grasped the principles of xizu energetics, and has begun to merge them with the Cangzhi Plane’s Warlock knowledge.

Once the two are fully fused together, Yang Feng's strength will rise to an incredible level, and he will create his own secret method and embark on the path of a Warlock Emperor.

The Time Sky Pillar is a pinnacle secret treasure which contains countless mysteries, and has the extraordinary power to help others understand various secret methods.

As an Empyrean grade secret method that the Time Lord left behind, the Time Text is profound beyond compare. Even Yang Feng who has eaten an Apple of Wisdom is still unable to comprehend the original Time Text. But with the help of the Time Sky Pillar, this is no longer the case. This is what makes the Time Sky Pillar truly special.

Yang Feng stared at the Time Sky Pillar with countless marvels flickering in his eyes, and a strange and profound rune containing the power to devour every force slowly condensed in each of his eyes.

After an unknown amount of time, in the center of the Secret Dragon Temple, in a huge square, lights shone, and the Warlocks who have obtained a Key of Time suddenly appeared.

"Moonlight Warlocks, they have all promoted to Moonlight Warlocks. The Time Sky City is indeed a great opportunity. No wonder it will attract countless people to compete over it." Yang Feng glanced at the surrounding Warlocks and found that Zhang Hanshan, Zhou Feng, Zhuo Yifan, Kong Fangao, and others who entered the Time Sky City have all advanced to the junior Moonlight Warlock rank, and their faces revealed traces of joy.

There is a great hurdle between the Starry Sky Warlock rank and the Moonlight Warlock rank. The deeper and wider the foundation laid in the Starry Sky Warlock realm, the more difficult it is to break through the bottleneck and advance to the Moonlight Warlock realm.

In the prosperous and flourishing Cangzhi Plane's continent, Great Warlocks are only ordinary soldier, Starry Sky Warlocks are regarded as experts, and Moonlight Warlock have entered the ranks of the strong.

There are many Starry Sky Warlock geniuses who were stuck in this bottleneck throughout their life, unable to break through, and eventually died. The Time Sky City contains endless mysteries. Once you enter, it will allow you to smoothly break through the bottleneck and become a Moonlight Warlock. This is a great opportunity for any Starry Sky Warlock.

Kong Fangao came from a mid grade family in the Great Cloud Dynasty, and Starry Sky Warlock rank was originally his limit. However, after entering the Time Sky City, not only was he promoted to the Moonlight Warlock rank, but his evolutionary potential has now surpassed that of ordinary Moonlight Warlocks.

Gazes filled with anger focused on Yang Feng.

Looking in the direction of the angry gazes, Feng Yang saw Cresno and several other supreme geniuses from the Western World.

Since Cresno and them were kicked out of the secret realm by Yang Feng, they didn't get the opportunity to enter the Time Sky City, and thus are naturally filled with anger and even killing intent towards Yang Feng.

As peerless geniuses who formed a virtual world, Cresno and them possesses battle prowess far beyond that of other Warlocks of the same rank. They can even kill Moonlight Warlocks. However, much like Yang Feng, they need to consume a tremendous amount of resources to advance in rank. Now that they lost the opportunity to enter the Time Sky City, they have fallen behind by a lot.

Cornell, Katrina, and Enlin were originally inferior to Cresno, Angélico, and Brea by several notches. But after gaining enlightenment in the Time Sky City, the three have surpassed Cresno and the other two by far.

Such a huge contrast naturally made Cresno and the others furious, and killing intent welled up inside them.

Yang Feng glanced at Cresno's party, and then ignored them. After being promoted to the Moonlight Warlock realm, Yang Feng's strength changed dramatically. Now he can easily kill Cresno and them without using any secret treasures.

The surrounding Warlocks who participated in the fight over the Keys of Time looked enviously at the dozens of geniuses who have advanced to the Moonlight Warlock rank.

Those who have promoted to Moonlight Warlocks looked at each other, and then formed circles of different sizes and went to the Secret Dragon Inn.

At night, in the luxurious chambers where Yang Feng stayed, a magic array flashed, and the sexy and beautiful Katrina flew out from the magic array.

"Dear, I really missed you!" As soon as she flew out of the magic array, Katrina's beautiful eyes sparkled with anticipation, and she threw herself into Yang Feng's arms, a fragrance wafting out from her. She stared at Yang Feng in bewilderment, love overflowing from her crystal-clear eyes.

As Yang Feng watched Katrina in his embrace, a chill erupted in his heart: "Goddess of Love Fantasy is a truly dreadful spell."

Since he transmigrated into the Cangzhi Plane, Yang Feng had a lot of women. But most of them were conquered by him with absolute strength and power. Even if some of them truly adore him, but they still maintain their ego. None of them love him as whole-heartedly as Katrina does.

As long as he said it, Katrina would not hesitate to commit suicide, nor betray her Warlock group. She will serve him wholeheartedly and view him as the heavens. If he dies, she will not hesitate to commit suicide after taking revenge.

Yang Feng knew that Katrina has suffered the backlash from the Goddess of Love Fantasy, so he had let her stay in the secret realm. For her, he even adopted a lascivious image and let Enlin stay. After all, a Moonlight Warlock rank holy daughter of the Hall of Eternity is much more valuable than Enlin.

Yang Feng planted a kiss on Katrina's luscious lips and showed a smile: "I need Bamhagra Stone. Do you have any information on this type of stone?"

After he became the ruler of one of the four major empires of the Fuso Subcontinent, Yang Feng obtained numerous precious ore and gathered most of the ore that is necessary to upgrade to a level-3 Stronghold. Now he only lacks a rare ore called Bamhagra Stone in the Cangzhi Plane.

Bamhagra Stone was originally very common in the Cangzhi Plane, but when the 3rd Warlock Emperor the Transcendent Lord found out that the ore can be used as the main material for secret treasures to control Transcendents, the ore started to be mined and manufactured into many secret treasures to control Transcendents.

Chapter 549 – Glorious Sun Warlock Monsters

Bamhagra Stone is simple to process. Just a Moonlight Warlock rank Alchemist is necessary to refine a secret treasure that can control Glorious Sun Warlock rank and Bright World Warlock rank Transcendents. As such, it was mined wildly in the 3rd Warlock Dynasty.

Starting with the 3rd Warlock Dynasty, Bamhagra Stone has become a wildly mined strategic resource. Now it's rare to see the ore in the Cangzhi Plane.

The Battle Demon Sect has obtained some Bamhagra Stone in the past, but it immediately used it to forge various powerful secret treasures.

Although Yang Feng has sent many of his men to gather traces of Bamhagra Stone, but there is very little information. The only place where Bamhagra Stone clearly exists is in the Great Cloud Dynasty's royal treasury.

However, the Great Cloud Dynasty's royal treasury has extremely strict defenses. Even Infinity Warlocks will be throwing their life away if they force their way in. Only if you render enough meritorious deeds to the royal family might you be able to get some Bamhagra Stone.

Yang Feng already has a plan. If there's really no other way, then he will join the Great Cloud Dynasty's court, and then find a way to get some Bamhagra Stone.

Katrina revealed a lovely thoughtful expression, and then clapped her lily-white hands and showed a smile: "Bamhagra Stone? Oh, that's right, among the planes I have traveled to, there is a grade 6 plane, the Andrak Plane, which produces Bamhagra Stone. In addition to this, the 36 primary material planes all produce Bamhagra Stone."

Yang Feng asked: "Grade 6 plane? What's the situation in this plane?"

"The upper limit of strength in the Andrak Plane is weak divine force rank, aka Glorious Sun Warlock rank. We Warlocks receive suppression of the plane when we enter the plane. The stronger you are, the greater the suppression. Moonlight Warlocks will be suppressed to the Starry Sky Warlock realm. But with a virtual world, you can have a burst of your true power for a short period of time."

"The Andrak Plane can accommodate nine gods. At present, the plane has seven gods in total. Four are feeble divine force rank gods and three are weak divine force rank gods. The seven gods control seven states."

"The seven states are the Bramble Sparrow Kingdom, the Ice Blue State, the Narcissus Federation, the Guttamar Kingdom, the Scarlet Flame State, the Glun State, and the Norton State."

"The seven gods are the Goddess of Ice, the God of Fire, the God of War, the God of Death, the Goddess of Love, the God of Justice, and the God of Murder. Among the seven gods, the God of War, the God of

Death, and the God of Justice are weak divine force gods, while the other four are feeble divine force rank gods.”

“The God of Fire, the Goddess of Ice, the God of Death, and the God of War aren’t gods of humans, but gods of other races. The seven gods are locked in endless struggle.” Katrina introduced.

A peculiar glint swept past Yang Feng’s eyes: “What are the coordinates of this grade 6 plane, and who else knows of it?”

Katrina revealed a sweet smile and replied: “I got the plane coordinates from an ancient relic site during my travels. Only I know of it.”

Every plane, even if it is only a grade 9 plane, is a huge asset. Although grade 9 planes cannot bear experts above the legend rank and lacks resources, but the souls of a grade 9 plane’s intelligent life forms are very precious.

Some a bit more conscientious Warlock groups generally use grade 9 planes as talent training bases.

Cruel Warlocks, on the other hand, will use wicked secret methods to refine the intelligent life forms of grade 9 planes into soul stones to trade with abyssal fiends and infernal devils for various treasures.

Every Warlock who knows the coordinates of a plane won’t share them with other people lightly.

Yang Feng also has a grade 9 plane he seized from the Shadow Prince Mecca, but he didn’t disclose the plane’s coordinates to anyone in the Battle Demon Sect.

A crafty rabbit has three burrows. Perhaps one day Yang Feng will have to fall back to the grade 9 plane and use it as a footing to rise again.

Once they reach feeble divine force rank or Moonlight Warlock rank, gods and Warlocks become difficult to kill. Even if they are killed on the spot, they may still be resurrected by various strange means.

Yang Feng knows that there are several methods for the resurrection of Moonlight Warlocks recorded in the Battle Demon Sect. As for gods, even if they die on the spot, but so long as there are believers constantly praying and calling their god name, then they may resurrect.

The reason why there are so many treasure-troves and relic sites in the various primary material planes is because they are fallback plans of gods, archgods, Warlocks, and other powerful existences. Only after the erosion of time will the spell restrictions collapse, and those treasure-troves and relic sites will appear in the world.

For her not to tell the Hall of Eternity the coordinates of the grade 6 plane, Katrina naturally had her own considerations. If he was in her shoes, Yang Feng also wouldn’t tell the Battle Demon Sect the coordinate of the grade 6 plane.

Katrina’s beautiful eyes sparkled with anticipation, and she smiled sweetly and uttered: “Dear, why don’t we conquer that grade 6 plane together?”

Yang Feng responded with a gentle smile: “Okay! After you return to the Hall of Eternity, let’s meet up in the Andrak Plane.”

Katrina stared at Yang Feng's face with eyes full of affection: "Okay!"

Yang Feng looked at the lovely and beautiful Katrina who is the number one beauty of the Western World's young generation in his arms with regret in his eyes: "Unfortunately, I can't eat this delicacy right now. What a pity."

Katrina is the holy daughter of the Hall of Eternity. Of course, Yang Feng cannot reveal his relationship with her, or he will put Katrina in grave danger. Once Katrina loses her virginity to him, Yang Feng must be ready to cast aside all consideration of face with the Hall of Eternity.

The Hall of Eternity is a powerful Warlock group comparable to the Tai Yi Sect. Before Yang Feng has fully matured, he doesn't want to offend this huge behemoth if not necessary.

The next day, the huge flying vessel of the Battle Demon Sect left the City of Time and flew towards the Battle Demon Sect.

In this trip to the Time Sky City, the Battle Demon Sect has obtained four Moonlight Warlock rank powerhouses. This is a great harvest. Now they must go back as soon as possible to hold a Moonlight Ceremony and raise peoples' spirits.

"Who's there? Come out!" On the huge flying vessel, one of the three Glorious Sun Warlock Elders Zhao Hong suddenly opened his eyes. His eyes flashed with dazzling light, and he barked.

The huge flying vessel flying at a fearsome speed stopped abruptly and shone with seals, and a level-7 barrier opened.

The other two Glorious Sun Warlocks Lin Yiquan and Mo Hengxing stared at empty space.

"Mwahaha, as expected of the Battle Demon Sect's Elders, you have keen senses!" A sickening stench was suddenly blown by the wind, and a disgusting person with a tall figure, a withered face, and tumors growing on his body flew out and revealed a sinister smile.

There are countless secret methods in the world of Warlocks. Some bloodline secret methods can make Warlocks good-looking and full of charm, while some weird secret methods can make Warlocks look disgusting and ugly.

For the sake of strength and longevity, many Warlocks don't mind their appearance, nor even their form nor race.

Zhao Hong spoke coldly: "Old Monster Corpse Poison, to dare to block our way, do you want to die?"

The Old Monster Corpse Poison is a Glorious Sun Warlock rank monster covered in corpse poison. 300 years ago, he massacred a city with a population of more than 10 million people to collect corpse poison. He is in the top 100 monsters on the Great Cloud Dynasty wanted list.

Although the Old Monster Corpse Poison is tyrannically strong, far stronger than ordinary Glorious Sun Warlocks, but he isn't the opponent of either of the three Glorious Sun Warlock Elders from the Battle Demon Sect.

The eyes of the Old Monster Corpse Poison flashed fiercely, and he uttered with a crazed smile: "Mwahaha, those who are going to die today are you, damn lackeys of the court!"

A black hurricane blew over, and a bald handsome young man wearing a secret treasure made from human skulls, enveloped by a wicked breath stepped out of the hurricane, a smile on his face.

Zhao Hong's eyes narrowed slightly: "Bones Demon Monk!"

Reportedly, Bones Demon Monk is a Monk from another plane who was captured by a human Warlock. After being transformed by several inhumane spells, he turned on his master. Following several fortuitous encounters, he eventually became a Glorious Sun Warlock rank monster. The number of humans from the Cangzhi Plane who died in his hands has exceeded 10 million.

A mirror suddenly flew out of the void, and a bewitching woman with a sexy figure enveloped by a transparent gauze flew out of the mirror. The women looked at Yang Feng in the crowd, an enigmatic smile on her face.

Zhao Hong's eyes constricted: "Mirror Witch!"

The Mirror Witch is of mysterious origin. When she debuted, she appeared as mirror incarnations in different places. She has incurred the hatred of many small sects in the Great Cloud Dynasty and slaughtered two small sects whose strongest experts were Moonlight Warlocks. She is a Glorious Sun Warlock with unfathomable strength, and is most difficult to kill. She has been defeated more than a dozen times, but every time she escaped easily. She is a most troublesome Glorious Sun Warlock.

Chapter 550 – Huang Yihe Steps In

Zhao Hong uttered frigidly: "Bones Demon Monk, Mirror Witch, do you want to become enemies with the Battle Demon Sect?"

Bones Demon Monk and Mirror Witch are both Glorious Sun Warlock rank powerhouses, but Zhao Hong and the other two Glorious Sun Warlocks from the Battle Demon Sect are confident that they can defeat them. Geniuses from the Ten Great Sects aren't existences that rogue practitioners like them can compare with.

"Who cares about the Battle Demon Sect? Today, all of you will die here!"

The sky suddenly became dark, and dark clouds extending without end flew over from the distance as if to envelope the whole world in darkness.

The darkness twisted, and a man exuding the aura of apocalypse emerged and looked at the Battle Demon Sect's experts with a look of ridicule.

On the large ship, the eyes of Warlock geniuses who only have a Starry Sky Warlock rank cultivation base seemed to have lost their usefulness, and they couldn't "see" the man exuding the aura of apocalypse.

One of the characteristics of Bright World Warlocks is the distortion of light. Even Bright World Warlocks who aren't proficient in the law of light are also shrouded in a strange life force field that distorts light. As long as they don't want to, no one below the Moonlight Warlock rank can "see" their true body. This is an innate ability of Bright World Warlocks which doesn't require the consumption of energy.

“Beishan Black Devil! It’s you!” Zhao Hong’s face hasn’t registered any changes until now. But when he saw the man shrouded in endless darkness, his countenance changed dramatically, and a look of fear flashed in his eyes.

The other two Glorious Sun Elders of the Battle Demon Sect also revealed looks of fear in their eyes.

The further you are on the Warlock path, the harder it becomes to advance. There are several major roadblocks on the Warlock path. Once you break through these roadblocks, your strength will undergo a tremendous evolution. The first roadblock is the promotion to an official Warlock from an Apprentice Warlock, the second is the promotion to a Starry Sky Warlock from a Great Warlock, the third one is the promotion to a Moonlight Warlock from a Starry Sky Warlock, the fourth is the promotion to a Bright World Warlock from a Glorious Sun Warlock, the fifth is the promotion to an Infinity Warlock from a Bright World Warlock, the sixth is the promotion to a Holy Spirit Warlock from a Warlock Monarch, and the seventh one is the promotion to a Warlock Emperor from a Holy Spirit Warlock.

Although Zhao Hong and them are geniuses of the Battle Demon Sect who possess Glorious Sun Warlock rank cultivation base and wield level-7 secret treasures, but compared with a Bright World Warlock, the power gap is still huge.

Although the Beishan Black Devil is someone who became a junior Bright World Warlock just by a fluke, but he’s still very powerful, and can crush everyone on the flying vessel.

Only when inside a powerful Warlock tower, may Zhao Hong and them be able to contend against the Beishan Black Devil. Otherwise, it’ll be very hard for them just to escape from the Beishan Black Devil.

Yang Feng watched the Beishan Black Devil with a dignified look in his eyes: “This is a Bright World Warlock. So strong. He’s just a junior Bright World Warlock, yet he’s so powerful! I’m still far too weak!”

After seeing the Beishan Black Devil, the pride that has swelled a little inside Yang Feng now that he has promoted to a Moonlight Warlock was shattered, and his thirst for greater power awoke.

Zhao Hong took a deep breath and said in a deep voice: “Beishan Black Devil, you dare to kill people from the Battle Demon Sect? Aren’t you afraid that you will be hunted down by the Great Elder of our sect?”

A look of derision in his eyes, Beishan Black Devil answered: “Yes, Old Man Huang of your Battle Demon Sect is indeed very strong. How about this – as long as you hand over Yang Feng, then today’s matter is over, and I’ll let you leave here alive.”

“Yang Feng?” On the huge flying boat, the gazes of several Starry Sky Warlock geniuses fell unconsciously on Yang Feng.

Zhao Hong’s eyes flickered, and he said: “Beishan Black Devil, who hired you? I’ll pay you twice as much for you to kill them!”

There was a ferocious gleam in the eyes of the Beishan Black Devil, and he said with a smile: “You should have some guesses about my employer. Besides, I need to maintain my credibility. How can I turn on my employer because of monetary rewards? Moreover, if I sell your Glorious Sun Cores, I’ll be able to get a hefty price for them.”

Glorious Sun Warlocks are extremely powerful, and are the foundation of every major sect. The Battle Demon Sect has no more than 20 Glorious Sun Warlocks. If the three Glorious Sun Warlocks died, it will be a huge blow to the Battle Demon Sect.

“Beishan Black Devil, you dare to attack the people of the Battle Demon Sect, you son of a bitch?!” A voice containing anger and killing intent sounded suddenly. Almost at the same time, a chain formed from countless seals emerged from behind the Beishan Black Devil and stabbed towards him.

The face of the Beishan Black Devil changed greatly, and black skulls containing resentment of hundreds of millions of souls appeared around him.

In the wake of the black chain, the black skulls emitting an evil breath were crushed. The black chain pierced into the Beishan Black Devil and sealed his power completely.

“Monarch Seal Chain! You are... Huang Yihe! Infinity Warlock, you have advanced to an Infinity Warlock!” When the Beishan Black Devil turned his head, he saw Huang Yihe sitting in the void holding a black chain, and despair welled up on his face in an instant.

Originally, Huang Yihe was a quasi-Infinity Warlock who could compete with Infinity Warlocks. Although the Beishan Black Devil wasn’t the opponent of Huang Yihe, but he has prepared several targeting secret treasures that could help him escape from the hands of Huang Yihe.

But Huang Yihe is not only an Infinity Warlock now, but he has still mounted a sneak attack, and is wielding the Monarch grade secret treasure Monarch Seal Chain. As such, the Beishan Black Devil has been suppressed in one strike, and all the secret treasures he has prepared have been rendered useless.

The countenance of the Old Monster Corpse Poison changed dramatically. His body swelled, and the tumors concealed on his body burst, and rancid black pus shot towards the flying vessel carrying the people from the Battle Demon Sect.

As long as Huang Yihe is forced to focus on the flying vessel, then the Old Monster Corpse Poison will have a glimmer of hope at survival.

The Bones Demon Monk gritted his teeth, tore off a skull necklace around his neck, and threw it towards the flying vessel.

With nine heads exuding Moonlight Warlock rank fluctuations of power, the skull necklace shot towards the flying boat.

The Mirror Witch drilled directly into her mirror in an attempt to escape through the space inside the mirror.

“Bunch of scum, you dare to attack my Battle Demon Sect? You’re seeking death!” With an indifferent look in his eyes, Huang Yihe operated the Monarch grade secret treasure Monarch Seal Chain in his hand, and tiny dark chains stabbed towards the three Glorious Sun Warlocks.

A tiny black chain pierced into the a black poisonous fog, and the fog contracted and formed the Old Monster Corpse Poison, whom the chain pulled towards Huang Yihe.

To her dismay, the Mirror Witch found out that she was unable to enter her magic mirror which has helped her escape even from Bright World Warlocks on several occasions, and then a black chain pierced her and pulled her towards Huang Yihe.

The Bones Demon Monk was also stabbed by a tiny chain, and then pulled towards Huang Yihe.

A frightened look on his face, the Old Monster Corpse Poison screamed: "Don't kill me! Please, spare my lowly life! I am willing to make a Styx Oath to serve the Battle Demon Sect forever. Please spare my poor little life!"

The lifespan of Glorious Sun Warlocks exceeds 3,000 years. The Old Monster Corpse Poison has lived for more than 2,300 years, and still has several hundreds of years to go. He doesn't want to die just yet.

Huang Yihe glanced coldly at the Old Monster Corpse Poison, and the latter's forehead burst open, and a Glorious Sun Core flew into his hand.

"If you want to kill me, be my guest. I have lived for so long and had enough fun. Even if I die, I have no regrets." The Bones Demon Monk has just spoken, when a Glorious Sun Core burst out of his forehead and entered Huang Yihe's hand.

Trembling, the Mirror Witch knelt on the ground and pleaded bitterly: "I was at the wrong. Great Elder Huang Yihe, I implore you, don't kill me. I am willing to be your slave. I'll let you inscribe runes on my soul core! Please spare my life! I am willing to do anything."

Huang Yihe swept the Mirror Witch with a glance, and his eyes flickered with regret, saying: "I was going to make you the slave of my disciple. But unfortunately, you cultivate a secret method that absorbs the yang qi of men, and are no longer pure. You don't even have the qualifications to be my disciple's slave."

With that, the Mirror Witch's forehead burst open, and a Glorious Sun Core flew into Huang Yihe's hand. At the same time, a magic mirror flew into his hand as well. Huang Yihe showed a look of satisfaction in his eyes.

Glorious Sun Warlocks are extremely formidable beings. Many Glorious Sun Warlocks belong to the Great Cloud Dynasty. Except for some wicked sects, virtually no one dares to take action against a Glorious Sun Warlock who has the status of an official in the Great Cloud Dynasty.

The Glorious Sun Cores are extremely rare and precious. The three Glorious Sun Cores Huang Yihe got are not a small fortune.

Seeing Huang Yihe easily kill three Glorious Sun Warlocks, Yang Feng felt how powerful his teacher is.

Huang Yihe glanced at the Beishan Black Devil and said coldly, an indifferent look in his eyes: "Beishan Black Devil, who sent you here?"

"What a pity!" In a secret chamber shrouded in darkness, a cold sigh sounded, and a dagger black as ink stabbed into a statue that was the spitting image of the Beishan Black Devil.
