

MGE 571

Chapter 571 – Invasion

Due to the Treaty of the Gods the gods in the Feisuo Plane have signed, they cannot walk the Feisuo Plane with their true body lightly. This stipulation was placed in the Treaty of the Gods because a war between two strong divine force rank gods can easily lead to drastic topographic changes, environmental pollution, and the destruction of life. The foundation of the gods is the faith of ordinary people. If the ordinary people die, the gods will slowly weaken and eventually fall.

There are only seven gods in the Andrak Plane, and they haven't signed a treaty. As such, they can naturally walk in the plane with their true body. But for the sake of safety, they hide their true body in their divine country, and only use avatars to walk the secular world.

The church is the tool by which gods control the faith of ordinary people. Many gods in the Feisuo Plane own one or more low grade planes as their source of faith. In contrast, the gods in the Andrak Plane have a single plane with intelligent life forms as their source of faith. As such, unlike the gods of the Feisuo Plane, they naturally attach more importance to their plane.

Yang Feng asked: "What is the situation of the Great Cloud Dynasty?"

Katrina raised her fine eyebrows and looked at Kafina, saying: "You can directly connect to a god by thinking of their name, this is a rule of gods."

Startled, Kafina lowered her head. Since she was captured, she has been thinking of the name of the Goddess of Ice, but to no avail.

Yang Feng said indifferently: "I cut off her connection with the Goddess of Ice."

Kafina's pretty face turned pale and her lovely body shook slightly.

Katrina spoke: "The Great Cloud Dynasty took action against the Battle Demon Sect. As far as I know, the Battle Demon Sect disciples within the Great Cloud Dynasty have been purged. Everyone was arrested and jailed. The Battle Demon Sect has begun to recoil its power, calling back all disciples."

Yang Feng's face fell: "Why would they do that?"

Katrina chuckled: "If I didn't guess wrong, the Great Cloud Dynasty wants to abolish the Ten Great Sects and the Eight Great Families so that it can monopolize all the power and resources, and truly become the overlord of the Eastern World!"

Yang Feng suddenly had a realization: "So that's what it is!"

The Ten Great Sects and the Eight Great Families are very powerful, and their disciples have infiltrated every nook and cranny of the Imperial Court.

In fact, the Great Cloud Dynasty is jointly ruled by the royal family and the Ten Great Sects and the Eight Great Families. But after tens of thousands of years, the royal family is now much stronger than during

the establishment of the Great Cloud Dynasty. It has fostered great ambitions, and wants to truly take control of the Great Cloud Dynasty.

Yang Feng thought further. After the royal family integrates the resources of the entire Great Cloud Dynasty, they will attack the other three dynasties in the Western World and unify the entire Cangzhi Plane, and then use the resources of the entire Cangzhi Plane to birth a Warlock Emperor.

If Yang Feng was as ambitious as the Emperor of the Great Cloud Dynasty, then he would find ways to flatten the Ten Great Sects and the Eight Great Families and take the resources of the Great Cloud Dynasty for his own, and then look for ways to promote to a Warlock Emperor.

Yang Feng said: "What about the remaining nine great sects and the Eight Great Families?"

Katrina replied: "The Tai Yi Sect has sided with the Bai family, and has taken the initiative to help the Bai family suppress the Battle Demon Sect. The Saint Lotus Sect is restraining the Bright Moon School. The other six great sects and the Eight Great Families have no movements at present."

The Bai family is the royal family of the Great Cloud Dynasty. After tens of thousands of years of development, they obtained countless resources through the Great Cloud Dynasty and nurtured countless experts loyal to them.

In the Great Cloud Dynasty, in addition to the Ten Great Sects and the Eight Great Families, there are many powerful Warlock groups with legacies from the Warlock Dynasties hidden in the dark. Those powerful Warlock groups have their own planes as their foundation. Hidden in other planes, they observe the developments in the Cangzhi Plane

The 36 primary material planes have all given birth to Warlock Emperor rank powerhouses. But according to legend, during the archgod era, the Cangzhi Plane has given birth to experts that surpassed the Warlock Emperor rank – Eternals.

Each Eternal is said to be an immortal being with endless might. Reportedly, because their power has exceeded the limit of the universe, they were rejected by the universe will, and had to leave the universe.

The Time Lord has obtained part of an Eternal's legacy. He changed his constitution to one with an affinity with the law of time and created the Time Text, and then defeated one powerful archgod after another.

Except for the Cangzhi Plane, the other planes have never given birth to an Eternal. It is because of this that countless powerful beings covet this plane so much.

Among the numerous forces observing the Cangzhi Plane, the Bai family who has been at the helm of the Great Cloud Dynasty for tens of thousands of years is definitely the top one.

Some ancient Warlock groups have existed since the 1st Warlock Dynasty, but they are still not the Bai family's opponent. This is the advantage of running a dynasty.

Yang Feng sighed slightly: "Short-sighted, this is just human nature."

If the Ten Great Sects and the Eight Great Families joined forces to deal with the Bai family, then even the Bai family would have to fall back, not daring to compete. But with the Tai Yi Sect and the Saint

Lotus Sect siding with the Bai family and the other great sects and the Eight Great Families keeping silent, the Bai family is left unchecked. It is only a matter of time before the Battle Demon Sect is destroyed.

After the Battle Demon Sect is destroyed, the Bai family can destroy the other great sects and families one by one, and then truly grasp control of the Great Cloud Dynasty.

Outside the Andrak Plane, the space rippled abruptly, and giant battleships 3,000 meters in length slowly flew out of the space.

“Foreigners, here is the Andrak Plane! Get out!” Just as 30 giant battleships have flown out, an angry roar echoed in the area.

Aboard a battleship enveloped by numerous barriers and engraved with countless runes stood a handsome boy with fair skin and an arrogant expression.

Standing respectfully behind the handsome boy is Dong Rui and two middle-aged men.

The handsome boy spoke with an arrogant expression: “A trifling indigenous feeble divine force rank god dares to threaten us, how reckless. Submit to me, Bai Tianxing, or die.”

A huge amount of fire elemental particles formed a giant hand of fire 1,000 meters in length that swatted at the handsome boy.

Bai Tianxing flipped his hand, and a mirror suddenly appeared in his hand. A white ray hit the hand of fire and extinguished it directly.

Bai Tianxing snorted: “To attack me, what a brazen indigenous god. I’ll slaughter your believers first, and then go to your divine country to claim you lowly life!”

10 warships flew towards the surface world of the Andrak Plane.

The space behind Bai Tianxing rippled, and one giant battle ship after another slowly emerged.

These warships that flew through astral passageways, crossed an astounding distance, and reached the Andrak Plane are the quintessence of the Great Cloud Dynasty.

The gods of a plane have a grasp on the laws of said plane as well as a mysterious connection with the plane. When the 30 warships appeared, the gods felt that the other party was not to be underestimated.

Bright rays shone and a 1,000-meter-tall Magma Giant covered in flames, a Moyindu Wolf with a wolf head and a human body, a mesmerizing Ice Fairy with fair, translucent skin, a freak wrapped in black bandages whose features cannot be clearly made out, a tall, blond man with a dignified bearing, a glamorous blond woman in a purple dress, and a person with a golden mask appeared in the space.

The seven gods of the Andrak Plane have sent an avatar each.

The Magma Giant roared, “Fuck off! Otherwise, there will be an irreconcilable enmity between us!”

Bai Tianxing glance at the seven, sneered, and uttered arrogantly: “Just a bunch of smelly aborigines, but the two goddesses don’t look half bad. I am Bai Tianxing from Cangzhi Plane’s Great Cloud Dynasty’s

royal Bai family. I give you a choice – submit to me and serve me, and you may live. Otherwise, you will die.”

Dong Rui frowned slightly, feeling that Bai Tianxing is too arrogant and overbearing. Originally, their mission was to ferret out Yang Feng who has fled here and kill him. But the arrogant and despotic Bai Tianxing offended the seven gods from the get go.

Watching the huge battleships appear one after another, Dong Rui quickly understood Bai Tianxing’s plan. Bai Tianxing wants to conquer this plane and turn it into his own territory. With the support of this grade 6 plane, he may even break through to the Bright World Warlock rank.

The eyes of the God of Justice shimmered coldly, and he barked: “Since this is the case, then we will fight you till the end!”

Seven stars on the outer layer of the Andrak Plane shone brightly, and then divine legions quickly assembled inside the seven divine countries and flew this way aboard battleships.

The seven god avatars suddenly retreated briskly and flew towards the divine legions.

Each of the seven gods has lived for more than 10,000 years, and their divine legions number in the millions.

After the 100th huge warships flew out, Bai Tianxing and company quietly waited outside the Andrak Plane. They analyzed the mysteries of the plane and created secret treasures that can block the suppression of the plane origin will.

Chapter 572 – Crushing Defeat of the Seven States

In the Scarlet Flame State, in a large shrine covered by countless lava, an idol shone brightly.

“Our Lord has given a command. The war of gods has begun!”

The divine decree immediately spread throughout the Scarlet Flame State. The state was immediately mobilized, and countless experts quickly assembled into one army after another.

The same thing happened in the other six states. Numerous armies assembled, ready to welcome the war of gods.

The Narcissus Federation assembled 200,000 troops, which quickly swarmed towards a huge battleships that landed within the Narcissus Federation.

On a main street, 200,000 troops from the Narcissus Federation formed a queue stretching for dozens of kilometers, looking spectacular.

Hundreds of Great Cloud Dynasty’s Warlocks dressed in black gowns are suspended in midair.

The leading Starry Sky Warlock sneered and ordered: “A swarm of ants! Begin!”

The hundreds of Warlocks silently recited incantations and pointed towards the sky with the staff in their hand.

In the sky, flame elemental particles condensed into numerous churning fire clouds, which in turn formed fireballs that barreled towards the Narcissus Federation forces on the ground.

Bombarded by the fireballs, the troops on the ground burst into screams, and then were swallowed by flames.

After 10 plus breaths of time, the 200,000 troops were devoured by the rain of fire. Only several hundred of experts with level-2 Warlock cultivation base or higher remained.

The hundreds of experts have just escaped from the rain of fire, when they saw thousands of human Warlocks dressed in black gowns standing in front of them. Each Warlock in black exuded Legend rank aura.

“Legend! How can this be? How can there be so many Legend rank powerhouses?”

“Legend, why are there so many Legend rank powerhouses?”

“...”

Despair welled up inside the eyes of the hundreds of experts with level-2 Warlock rank cultivation base or higher, and they screamed.

In the Narcissus Federation, there are less than 20 Legend rank experts. Yet now close to 10,000 Legend rank powerhouses appeared before them.

“Kill them all!” A cold order sounded, and countless rays shot out and killed the remaining hundreds of experts of the Narcissus Federation in a flash.

The same scene occurred in other places of the Andrak Plane.

The 10 huge warships each carried 10,000 seasoned Great Warlock rank powerhouses.

Apart from the divine legions, the ordinary armies are no match for the 10,000-strong Warlock armies.

As for the divine legions of the seven gods, they engaged the Great Cloud Dynasty’s experts brought by Bai Tianxing in the Andrak Plane’s outer space. The two sides fought fiercely.

The Great Cloud Dynasty has a lot of experience in conquering planes with gods.

The suppression of the human Warlocks in a plane’s outer space is fairly limited, making it suitable for human Warlocks to fight. Therefore, they attack divine legions in the outer space. At the same, they send elite armies to conquer the surface world. By slaughtering the believers in the secular world, you can weaken the foundation of the gods.

For gods, faith of ordinary people is the foundation of their existence. If the secular world has no ordinary people to believe in them, then they will weaken continuously and eventually die.

Even if they have divine force crystals, but gods without the faith of ordinary people cannot sustain their existence with divine force crystals alone.

The Holy Fairy City, in the presidential palace’s assembly hall. Sitting in front of a long table is a blond, tall, sexy, and mesmerizingly beautiful girl who looks similar to the Goddess of Love, a vigorous old man

with white hair, Pope Katrina, Yang Feng, the Apologetics Commander Gray, and ministers of the Narcissus Federation.

The mesmerizingly beautiful girl is Blanche, the current Matriarch of the Narcissus royal family as well as the President of the Narcissus Federation. The vigorous old man is Secretary of Defense Bauman.

Bauman said with a serious expression: "The day before, the first to fourth armies were wiped out to a man by those Cangzhi Plane's monsters.

"How can this be?"

"That's 200,000 troops! Even if they were 200,000 pigs, it would be impossible to kill them all in a day. What the hell happened?"

"..."

In the hall, the faces of the ministers of the Narcissus Federation changed dramatically, and they rained down questions.

With an unsightly expression on his face, Bauman spoke slowly: "Each of those monsters from the Cangzhi Plane has Legend rank strength, and they number close to 10,000!"

"10,000 Legend rank powerhouses!"

The ministers inhaled a breath of cold air.

An the Andrak Plane, Legend rank experts already possess astonishing battle prowess. Now that 10,000 Legend rank powerhouses appeared, the secular world fundamentally has not power to resist.

A strange atmosphere permeated the assembly hall.

Many of the ministers have thoughts of surrender. From time to time, they look in Yang Feng's direction. The Inquisition Judge Yang Feng is here as a reminder that betrayal will have terrible consequences.

Blanche frowned slightly and said: "The Narcissus Federation is faced with the most dangerous situation in a millennium. In order to weaken our Lord, those freaks from another plane will slaughter all ordinary people. We have no other choice but to fight them to the death. If you have any suggestions, now would be the time to voice them. As long as their effective, our Lord will reward you handsomely."

Silence permeated the hall.

The 10,000 Legend rank powerhouses can crush the Andrak Plane's secular world. Besieged by 10,000 Legend rank powerhouses, even demigod rank powerhouses will die. No one can think of a way to counter this absolute power.

"I have a way!" A voice sounded in the hall, and all the eyes focused on Yang Feng.

"Not long ago, an evil god from another plane found me. He is the enemy of those monsters from the Cangzhi Plane. He can support us with this." Yang Feng snapped his fingers, and a crimson magic cube flew out and rotated above the table in front of him.

Yang Feng said: "This is a treasure that the evil god forged using alchemy. Young and beautiful virgins can use the power of this magic cube to become experts with Legend rank strength. However, in exchange, the soul and body of the user will belong to the evil god."

Many of the ministers suddenly had palpitations, and they focused eyes filled with a fervent expression on the magic cube.

To be able to turn an ordinary girl into a powerhouse with Legend rank power, this magic cube is simply heaven-defying.

With their power, each of the ministers can get dozens of qualified users without extra trouble. In that case, as long as they get dozens of magic cubes, they'll have dozens of Legend rank powerhouses.

Gray's face fell immediately, and he barked: "Souls is a taboo of the gods. Ole, you got some nerve to collude with an evil gods and covet the souls of our Lord's believers!"

Yang Feng responded flatly: "I'm serving our Lord. Whether or not we use this secret treasure can be decided by our Lord. If our Lord isn't willing to use this secret treasure, then I'll just reject the evil god."

With this, the hall went silent.

Blanche looked at Katrina and saw that the latter has a somber expression, and frowned immediately.

Blanche uttered with decisiveness that could slice nails and cut iron: "Gray, with the threat they pose to our Lord, it is imperative that we eliminate those freaks from the Cangzhi Plane. For our Lord, for the Narcissus Federation, if this secret treasure is indeed effective, then we must use it."

A maid with several freckles on her face and a fiery figure walked into the hall.

Yang Feng flicked his finger, and the magic cube immediately fell into the hand of the maid: "Have a drop of blood fall on it. As for everything that follows, it will automatically guide you."

The maid looked at Blanche.

Blanche uttered: "Gina, do it!"

The maid took out a small knife and made a cut on his finger, and blood dropped on the magic cube.

When the magic cube absorbed the blood, it lit up with runes and formed a set of crimson armor that covered Gina completely.

"I am willing to offer my soul and body to the mighty god in exchange for power. The contract is concluded!" Gina's words have just fallen, when countless runes lit up on the crimson armor, and Legend rank might suddenly spread from her and swept in all directions.

"Legend! This is Legend rank power!"

"Legend! True Legend rank power! "

"..."

The ministers suddenly showed looks of excitement.

Blanche's eyes brightened, and she asked hurriedly: "How many more of these treasures do you have?"

Yang Feng answered with a smile: "At present, the evil god has given me 10,000 such treasures."

"10,000!"

Everyone in the room suddenly inhaled a breath of cold air, and looked at Yang Feng with scorching fire in their eyes.

Yang Feng changed the subject: "I have always adored you, President. I would like to propose to you. Please agree."

Marriage with the President is the best way to peacefully seize the power of the Narcissus Federation. Once the Narcissus Federation falls into Yang Feng's hands, he'll have a greater liberty of action.

Chapter 573 – Wiping out Shadow Fang Elites

Following Yang Feng's sudden marriage proposal, silence filled the hall, and strange gazes fell on Yang Feng and Blanche.

Blanche is the President of the Narcissus Federation. Whoever marries her will effectively gain control the Narcissus Federation.

Over the years, god knows how many people have pursued the stunningly beautiful Blanche, but no one has ever succeeded.

Blanche's face suddenly fell, and she said coldly: "Ole, are you threatening me?"

Yang Feng smiled, and Gina's armor suddenly peeled off, turned into a magic cube, and returned to his hand.

Now is a most dangerous time for the Narcissus Federation, and it is also Yang Feng's best opportunity to seize the power of the federation.

Yang Feng currently needs the seven gods to serve as his barrier to resist the expeditionary army of the Great Cloud Dynasty, and cannot use force to seize the Narcissus Federation. As such, marriage is the best and easiest way.

Blanche looked at the ministers. In their view, if Blanche can be sacrificed for peace in the Narcissus Federation, that would be for the best.

Feeling like she has fallen into an ice cave, Blanche stared at Yang Feng with gritted teeth and trembled, but she still maintained self-control. After all, she is not a little girl, but the President of the Narcissus Federation. She knows that making a scene is useless.

Suddenly, a communications officer charged into the hall and shouted: "It's bad, the warships of the freaks are already less than 30 kilometers away from the Holy Fairy City!"

"How is that possible?"

"How can they be this fast?"

“What about the sixth army? What the fuck are they doing?”

“...”

The ministers panicked, and their eyes shimmered with despair. Many of them are thinking about taking their leave, and then escape immediately.

The soldiers from the Cangzhi Plane came here to kill the believers of the gods, so it is impossible for the ministers to surrender.

The magic cube spun in Yang Feng’s hand, and he spoke with a forthright smile: “In my hands, I have an army armed with the evil god’s magic cube.”

Blanche is the Narcissus Federation’s President, after all. She spoke decisively: “Ole, if you lead your magic cube army to wipe out those invaders, then I’ll marry you!”

Yang Feng spoke with a straightforward smile: “Ha-ha. Okay, I’ll go and annihilate those monsters from the Cangzhi Plane!”

“You herd of aboriginals, you want to wipe us out, how arrogant. A bunch of reckless fools”

Suddenly, a poisonous snake flew out of the communications officer’s mouth and sprayed poisonous mist shooting towards everyone present.

Yang Feng spread the fingers of his hand, and green light swept the poisonous mist and sealed it into a green sphere.

With a flicker of green light, the poisonous snake was cut into two pieces.

“A demigod powerhouse? I didn’t expect for such a bigwig to be here. If I kill you and sell your godhead, it’ll bring me in a pretty penny.”

A tall and sturdy, handsome young Warlock wearing a black cloak stepped into the room. Behind him followed 12 Warlocks also wearing black cloaks.

“I am Xia Ming, captain of the Other Plane Development Division’s Shadow Fang of the Cangzhi Plane. You lowly aboriginals, except for the couple of beautiful girls, the rest commit suicide. Otherwise, if I have to take action, you will wish you were dead.”

Xia Ming looked at everyone in the hall with a playful look, and pinnacle Starry Sky Warlock rank aura spread from him.

The 12 Warlocks behind him also looked at the many Narcissus Federation minister with playful looks, and junior Starry Sky Warlock rank fluctuations of power spread from them.

“Demigods!”

“13 demigods!”

“How could there be so many demigods?”

“...”

There was a flash of despair in the eyes of the ministers, and they shouted in horror.

In the Narcissus Federation, there is only one demigod rank powerhouse. The 13 demigod rank powerhouses can completely flatten the Holy Fairy City.

It was because he controlled such a powerful force that Bai Tianxing had no intention of negotiating with the seven gods, and directly used force to suppress them.

Blanche's beautiful eyes flashed with horror and despair, and she exclaimed: "Demigods! 13 demigods!"

If there were three or four demigods, then the Holy Fairy City could still fight them. But against 13 demigods, even if the Holy Fairy City uses its legacy, it will be to no avail.

"Go!" Yang Feng swept Xia Ming and the other 12 Shadow Fang elites with his gaze and ordered with a cold smile.

Bright rays shot in through the walls and blasted into the 13 Shadow Fang elites.

With the flickers of light, spatial ripples shrouded the Shadow Fang elites. They operated teleportation secret treasures.

In the Great Cloud Dynasty, there is the Secret Treasure Division which specializes in the development of secret treasures. The Secret Treasure Division has developed many standardized secret treasures. They have developed a trigger life-saving spatial secret treasure, with which the Great Cloud Dynasty equipped its most elite troops.

At that moment, there was a turbulence in space, and the spatial fluctuations that have shrouded the Shadow Fang elites disappeared.

Electromagnetic beams instantly punched the 13 Shadow Fang elites full of bloody holes.

From the direction the electromagnetic beams were shot, more than 30 magic cube mecha soldiers covered in crimson mechas with wings emerged.

"Yang Feng, you scoundrel, you shall die a violent death!" Xia Ming is a quasi-Glorious Sun Warlock rank expert. But due to the plane origin will suppression, he can only employ a pinnacle Starry Sky Warlock cultivation base. Although his chest was pierced by electromagnetic beams, but he didn't die on the spot. Instead, he roared loudly, blurred into motion, blasted a huge hole in a wall, and escaped into the distance.

The other purpose of Xia Ming and them in coming to the Andrak Plane is to hunt down Yang Feng. Only powerhouses who come from the Great Cloud Dynasty like Yang Feng know of the means of the Great Cloud Dynasty Warlocks, and can make a targeted response.

If it wasn't for the spatial disruption, then the 13 Shadow Fang elites would not have died.

"You won't escape!" Killing intent flickered in Yang Feng's eyes, and he waved his hand and ordered coldly.

30 magic cube mecha soldiers covered in a crimson armor suddenly appeared, and fired their railgun at Xia Ming.

A magic cube mecha soldier is releasing spatial disruption fluctuations continuously to disturb the space, making it so Xia Ming cannot use spatial spells to escape.

Severely injured, Xia Ming is much slower now, and coupled with the origin will suppression, he can display less than 10% of his ability. More than a dozen electromagnetic beams hit him, and he dropped to the ground like a tattered rag doll.

Yang Feng blurred into motion and appeared directly in front of Xia Ming. Radiating green light, he pointed at Xia Ming's forehead, and a strange rune suddenly appeared and sealed Xia Ming's power completely.

"13 demigods, and they were all defeated?"

"Is this the power of the evil god's magic cubes?"

"So strong! The power of the evil god's magic cubes is really fearsome!"

"..."

The ministers were struck dumb when they saw Yang Feng's magic cube mecha soldiers wipe out the 13 demigod rank powerhouses, unable to believe their eyes.

There was a complicated look in Blanche's beautiful eyes: "So strong! So this is the power of the evil god's magic cubes! No wonder he has such confidence!"

"The enemy is almost here. I will go give them a pleasant surprise, let them know that the Narcissus Federation isn't a state they can humiliate. Blanche, prepare yourself to marry me! Ha-ha-ha!" Yang Feng laughed wildly. Treading on air, Yang Feng walked towards the distance.

Blanche looked at Yang Feng's heroic back, moved a little: "Maybe marrying him won't be bad!"

Compared with Yang Feng who is a little crude yet heroic, the ministers in the hall seem unbearable. Blanche has seen many handsome men who can't bear responsibility. Seeing Yang Feng take the initiative to fight the invaders from the Cangzhi Plane, it naturally moved her a little.

Crimson magic cube mecha soldiers suddenly flew out and gathered around Yang Feng.

Before long, 1,000 magic cube mecha soldiers gathered around him.

As the Pope of the Church of Love, Katrina can easily select 1,000 plus beautiful virgins from the church.

As for the combat experience of those beautiful soldiers, they can rely on the optical computer equipped with the magic cube mecha to control them. At the current stage, they are 100 times stronger when the optical computer is controlling them.

Yang Feng and his party reached a hill not far from the Holy Fairy City.

Chapter 574 – Annihilation of 10,000 Expeditionary Troops

When Yang Feng arrived, the top of the small hill parted, and a battlestar artillery more than 50 meters long rooted inside the hill extended and adjusted its aim.

Far away, a huge warship is flying towards the Holy Fairy City. Aboard the huge warship, there are 10,000 elite soldiers from the Other Plane Development Division who have participated in the suppression of many planes, and each one of them is an advanced Great Warlock rank expert.

Legend rank experts are at a boundary. Because they are powerless to destroy the plane origin will, no plane will resist the entry of Legend rank powerhouses, nor suppress them.

All soldiers of the Other Plane Development Division's elite forces are Great Warlock rank experts. Only units that cultivate new recruits will have level-1 to level-3 Warlocks.

There was a flash of cold light in Yang Feng's eyes: "What a pity. 10,000 elites, let me bury you all here."

The battlestar artillery glittered, and in the next moment, a dazzling beam of light shot out of the artillery, and then blasted into the huge warship in an instant.

Ka-boom! Before the huge warship could activate its magic shields, the dazzling beam of light blasted open a huge hole, and then hit the energy core, which resulted in terrifying explosion.

The extremely violent explosion swallowed the 10,000 Great Warlocks in an instant.

Luckily, more than a dozen Starry Sky Warlock rank experts escaped from the huge explosion.

With tearful eyes, a wounded pinnacle Starry Sky Warlock rank expert gave a heartbreaking roar: "Damn you, Yang Feng, you wretch, I, Wang Lei and you are now sworn enemies! If I don't kill you, I'm not human!"

Wang Lei is the captain of this 10,000-strong elite army, and has a Moonlight Warlock rank cultivation base. The elite army has followed Wang Lei on many expeditions and made countless achievements. The 10,000 troops were his friends and subordinates.

Now that the 10,000 friends and subordinates were all killed by Yang Feng, Wang Lei almost went mad.

Wang Lei and them have learned this world's general knowledge from captives. In this world, there is no such weapon of extinction like the battlestar artillery.

Yang Feng spoke righteously: "You monsters from the Cangzhi Plane have invaded our Andrak Plane to commit all kinds of unspeakable crimes. You are no different from beasts. I didn't expect that the likes of you would know about camaraderie. I am Ole, the Judge of the Inquisition. I will reunite you with your subordinates!"

"You humble aboriginal, to use secret treasures made by that traitor Yang Feng to attack us is a great offense! Go to hell!" Wang Lei's eyes flickered fiercely. He looked scornfully at Yang Feng, and then silently recited an incantation and pointed at him.

Following dazzling light, a 100-meters-tall Fire Elemental Fairy summoned from the Elemental Plane appeared suddenly, and a fire storm formed from elemental fire that can easily burn demigod rank experts swept towards Yang Feng.

Yang Feng smiled and flipped his hand, and the demigod armament Disk of Fire suddenly appeared and devoured the fierce elemental fire.

The 1,000 magic cube mecha soldiers fired the railgun in their hand at the more than a dozen Starry Sky Warlock rank experts.

The surviving Warlocks cast spells and engaged in combat with the 1,000 magic cube mecha soldiers.

Each of the Starry Sky Warlocks is a seasoned veteran who originally possessed a quasi-Moonlight Warlock rank cultivation base. With their domineering power, they destroyed the mechas of more than a dozen magic cube mecha soldiers.

Yang Feng frowned slightly, then fished out the demigod armament Crown of Evil Spirits, silently recited an incantation, and flicked his finger.

The demigod armament Crown of Evil Spirits suddenly shot towards Wang Lei, emitting an almost endless evil aura.

Wang Lei's face fell, and he silently recited an incantation, and a pair of flame wings appeared behind him. The flame wings flapped, and a pillar of fire shot towards the Crown of Evil Spirits.

A soul form skull emerged from the Crown of Evil Spirits, and the surrounding temperature dropped by more than a dozen degrees.

The spirit form skull crashed into the pillar of fire, and the pillar of fire suddenly went out.

The Crown of Evil Spirits very strangely appeared on Wang Lei's head, and thorns pierced into Wang Lei's head and frantically extracted his flesh and soul.

Yang Feng looked at the Crown of Evil Spirits and smiles: "This is not the Crown of Evil Spirits, but the legendary secret treasure Evil Holy Crown."

The Evil Holy Crown is a secret treasure the Warlock Monarch the Evil Monarch forged. Using the skull of a Holy Spirit Warlock as the core and coupled with countless rare materials, and using wicked alchemy recorded in the Way of Evil to turn the Holy Spirit Warlock power into demonic power, he refined this Monarch grade secret treasure.

This Evil Holy Crown can greatly enhance the strength of the wearer. With it, a quasi-Holy Spirit Warlock rank powerhouse can even contend against a Holy Spirit Warlock for a short period of time.

However, those who wear the Evil Holy Crown will be dominated by it, and their soul and flesh will be absorbed. Using the Evil Holy Crown, the Evil Monarch once controlled a quasi-Holy Spirit Warlock, making him almost invincible for an era.

The Evil Monarch died during a unique calamity in the Cangzhi Plane, and the Evil Holy Crown was severely damaged, and disappeared to who knows where.

Yang Feng didn't expect to get such an evil Monarch grade secret treasure. Although the Evil Holy Crown is severely damaged, but as long as it continues to devour the flesh and soul of experts, it will repair itself and eventually become a Monarch grade secret treasure again.

Wang Lei struggled for a while, but then his eyes turned white. Next, his eyes gradually filled with wisps of blood, and eventually turned scarlet, and quasi-Glorious Sun Warlock rank aura spread from him.

Wang Lei pointed with a finger, and summoned a Fire Python King from the Elemental Plane, which swept the dozen plus Starry Sky Warlock rank experts.

“Captain!”

“No!”

“...”

Amid screams, the Fire Python King burned to ashes one Starry Sky Warlock rank expert after another.

Yang Feng pointed with a finger, and a green rune appeared on Wang Lei’s forehead and sealed him together with the Evil Holy Crown.

Under the stimulation from the Evil Holy Crown, Wang Lei is able to exert quasi-Glorious Sun Warlock rank power as many as five times. He can be used as a trump card.

In the Andrak Plane, a quasi-Glorious Sun Warlock rank expert is enough to sway the war of gods.

Narcissus Federation, the presidential palace.

Blanche and the ministers quietly waited for the outcome of the battle. Ever since they saw the Cangzhi Plane’s Shadow Fang’s 13 demigod rank experts, they realized that ordinary people had no hand in this war.

If Yang Feng who is being aided by an evil god was defeated by the experts from the Cangzhi Plane, then Blanche and them would consider escaping.

A communications officer rushed into the hall and screamed excitedly: “It’s a miracle! Sir Ole, Sir Ole leading 1,000 guards wiped out 10,000 Legends from the Cangzhi Plane!”

“Victory!”

“Great! We won!”

“Awesome!”

“Ole, you did a good job!”

“...”

Exited cheers erupted in the hall. Many of the ministers didn’t have a good opinion of Yang Feng, a man who killed the former Judge, and not a few of them harbored hostility towards him. But now that Yang Feng has wiped out 10,000 expeditionary troops from the Cangzhi Plane, the ministers are filled with gratitude towards Yang Feng, at least for the moment.

Blanche trembled, and her bloodshot eyes burst out with tears of joy. She thought that the Narcissus Federation was over. But Yang Feng rescued the federation.

Yang Feng strode into the hall, and all eyes focused on him. He smiled, embraced Blanche, and strode out.

Blanche’s face flushed bright red, and she struggled weakly and implored: “Let go of me!”

Yang Feng looked at the bashful and beautiful Blanche, revealed a smile, and spoke next to her ear: "President, according to our agreement, you are my woman from now on."

The guards around the hall can only watch Yang Feng disappear with the beautiful president.

Soon after, the Narcissus Federation got information about the remaining six states. All the seven states were attacked by the Cangzhi Plane's expeditionary forces.

Before the enemy stormed their capital, the four other race states – the Ice Blue State, Guttamar Kingdom, the Scarlet Flame State, and the Norton State – disbanded their forces and fled in all directions.

The Ice Blue State is located in the Ice Blue Domain covered by ice and snow and the Scarlet Flame State is located in the Lava Mountains. The forces of both states blended into the environment, making it difficult for human Warlocks to find them.

Chapter 575 – Quelling a Glorious Sun Warlock

The Guttamar Kingdom and the Norton State also used the environment to hide many experts.

The two human states the Bramble Sparrow Kingdom and the Glun State were defeated by the Cangzhi Plane's expeditionary troops, and the people in their capital were slaughtered to a man. The experts of the Church of the God of Justice and the Church of the God of Murder suffered heavy casualties, with only a portion escaping.

A large number of refugees headed towards the Narcissus Federation from the Bramble Sparrow Kingdom and the Glun State.

Hearing the tragic state of the Bramble Sparrow Kingdom and the Glun State, the Narcissus Federation ministers were filled with fear. They accepted Yang Feng's aid fully. Various weapons were quickly deployed within the Narcissus Federation, and many interests were ceded to Yang Feng.

In the Bramble Sparrow Kingdom's royal palace, Commander General Chen of the expeditionary army is sitting on the throne and embracing two beautiful women dressed in green gauze.

A dozen beautiful girls knelt in front of Chen Sheng and served him earnestly.

In the hall, more than a dozen lieutenants played with beautiful girls while drinking fine liquor. Wild laughter and the moaning and groaning of women filled the hall.

Watching this scene from the throne, Chen Sheng felt an indescribable pleasure. Every time he conquered a plane, he would indulge his men.

Suddenly, a guard stepped into the palace with a look of anxiety: "Commander General, General Wang Lei's 10,000 elites were wiped out in the Narcissus Federation!"

Chen Sheng's countenance changed drastically, his hand trembled slightly, and the cup in his hand fell to the ground and made a crisp sound. His eyes shimmered with shock and anger, and he yelled: "Did you verify this?"

Brimming with experts, the Great Cloud Dynasty's standing troops number more than 3 billion individuals spread across countless planes. But among the 3 billion standing troops, only 30 million elite troops are composed of Great Warlocks.

The Other Plane Development Division only has 5 million Great Warlock rank elite troops. To attack the Andrak Plane, Bai Tianxing brought 1 million elites of the Other Plane Development Division. But now that 10,000 elites were annihilated, Commander General Chen Sheng who is in charge of these expeditionary troops has to take the blame.

When Commander General Chen Shen's army captured the Bramble Sparrow Kingdom, the army didn't suffer any casualties. From this point, he knew how weak the resistance in the Andrak Plane's surface world was. By the same token, he could not believe that 10,000 expeditionary troops were annihilated.

The guard answered: "I already confirmed that it's true. The fugitive Yang Feng handed secret treasures he developed to those indigenous people. Using Yang Feng's secret treasures, the Judge of the Church of the Goddess of Love named Ole destroyed General Wang Lei's battleship, and then killed General Wang Lei."

Chen Sheng's expression turned sinister, and he snarled: "That bastard Yang Feng! How dare he kill our division's men! That traitor!"

The lieutenants in the hall revealed strange expressions.

The lieutenants have heard that Yang Feng was framed. Most of them were cultivated by either the Bai family or the Great Cloud Dynasty. Although they sympathized with Yang Feng, but they still carried out the orders of the Great Cloud Dynasty resolutely.

No one expected that Yang Feng who was chased to the Andrak Plane to wipe out 10,000 elites.

"Shit!" A premonition of deathly danger surged inside him. Chen Sheng's countenance changed dramatically, and he suddenly turned into a stream of light and shot away. Six diamond-shaped crystal secret treasures surrounded him and formed a diamond-shaped barrier.

A pillar of dazzling light descended from the sky and blasted into the palace. The more than a dozen lieutenants with Moonlight Warlock rank cultivation base were directly vaporized.

Worthy of being one of the general commanders of the expedition force, Chen Sheng flew out of the palace by a hair's breadth, and saw a rain of light shooting towards the expedition troops.

Caught off guard, the Warlocks who are enjoying themselves were easily killed like ants.

Numerous runes emerged inside Chen Sheng's eyes and formed an inverted triangle, and he saw a battlestar 500 kilometers away.

Firing an endless barrage of light, the arc battlestar cruelly harvested the Warlocks' lives.

Chen Sheng roared madly: "Yang Feng, you beast, you are also from the Cangzhi Plane! How dare you help those aborigines kill the Cangzhi Plane's elites! You are the lowest kind of traitor!"

Sitting on the battlestar's bridge, Yang Feng sneered: "You want me to sit idly by and wait for you to catch and kill me? Are you retarded?"

Katrina smiled sweetly, saying: "He's not retarded, but rather so furious that he cannot think straight. If he catches you, Dear, I'm afraid that he will adopt another expression."

Yang Feng uttered: "Say, will he rush here to throw his life away?"

Chen Sheng is a Glorious Sun Warlock. Even though he is suppressed by the plane origin will, but he still has a junior Moonlight Warlock rank cultivation base. In the surface world without gods, he is an almost invincible existence.

Katrina chuckled: "If he isn't stupid, he will choose to retreat. Dear, you have formed a virtual world, and within a certain period of time, you can exert your full power. But he is suppressed by the plane original will, and can only exert junior Moonlight Warlock rank power. If he comes here, he's toast."

Yang Feng has become famous after the Time Sky City incident, and now everyone knows that he has formed a virtual world.

Before the Other Plane Development Division experts entered the Andrak Plane, they must have studied Yang Feng's information thoroughly.

Chen Sheng who was suppressed to the junior Moonlight Warlock rank from the intermediate Glorious Sun Warlock rank, if he dares to fight Yang Feng, he is sure to die.

"Disperse!" Chen Sheng took a deep look at the battlestar and yelled.

The Great Warlocks conjured various spells and escaped.

Chen Sheng took out a secret treasure and pressed it on his body, and a pair of dragon wings suddenly appeared on his back. The wings flapped, a strong wind erupted, and he appeared several kilometers away.

A spatial fluctuation flickered, the space in front of Chen Sheng twisted, and Yang Feng stepped out and smiled coldly, saying: "Submit, or die!"

Chen Sheng's face fell, and he retreated briskly. He yelled sternly: "Yang Feng, to kill our compatriots here, that's lower than low. Aren't you afraid that all people related to you will be executed?"

Yang Feng sneered and uttered coldly: "Surely you jest. Since the Bai family has already made their move against the Battle Demon Sect, then we are mortal enemies! Chen Sheng, I'll give you a second to consider, submit, or die!"

Winner takes all. Since the Great Cloud Dynasty's royal family has already launched an attack against the Battle Demon Sect, Yang Feng has no scruples anymore. He will use all his power to destroy the forces of the Great Cloud Dynasty.

If he can wipe out the main force of the Other Plane Development Division here, that would be equivalent to cutting off an arm of the Great Cloud Dynasty.

Chen Sheng barked: "What gall! When the emperor orders his subjects to die, they die! Since His Majesty decided to eradicate the Battle Demon Sect, then the Battle Demon Sect should extend its neck in preparation of execution. You not only didn't comply with your duties as a subject, but also

slaughtered the Great Cloud Dynasty's elites, you're simply a traitor! But it's not too late for you to surrender. I can plead with His Majesty, and spare your life!"

"Are you a brainwashed moron? Since this is the case, then go ahead and die!" Killing intent streaked past Yang Feng's eyes. He extracted world force from the small world in his body, and intermediate Moonlight Warlock rank fluctuations of power spread from him. The True God Empyrean Imprint suddenly flew out, surged with dense Transcendent aura, and shot numerous black chains barreling towards Chen Sheng.

Chen Sheng gritted his teeth and silently recited an incantation. His body suddenly expanded, and he turned into a Gold Giant King 1,000 meters tall.

Transformed into a Gold Giant King, Chen Sheng slammed the giant bone club containing the law of power in his hand towards the True God Empyrean Imprint. The bone club went through the True God Empyrean Imprint as if it was a mirage.

The True God Empyrean Imprint strangely appeared on the forehead of Chen Sheng who has transformed into a Gold Giant King, and then numerous black rune chains stabbed into Chen Sheng, and sealed his power.

"No! How can this be! No! I'm a Glorious Sun Warlock! I won't submit!" Chen Sheng issued a heartbreaking roar, reverted into his human form, and eventually turned into a rune and merged into the True God Empyrean Imprint.

Yang Feng beckoned with his hand, and the True God Empyrean Imprint entered his hand. He looked at the new rune on the imprint, and revealed a smile: "Glorious Sun Warlock! I really have to thank the Andrak Plane's plane origin will. If not for it, it would be much more troublesome to defeat a Glorious Sun Warlock rank expert."

Chapter 576 – Dilemma

In the Andrak Plane's outer space, 90 huge warships formed a battle formation. Linked by the Warlock towers aboard them, the huge warships formed a powerful barrier that resisted the divine legions commanded by the seven gods.

Ice Fairies, lava giant beasts, Moyindu Wolfmen, human braves, and other Legend rank divine soldiers poured out from the seven divine countries and attacked the defensive perimeter of the human Warlocks.

Countless human Warlocks engaged with experts from the divine legions. From time to time, several human Warlocks died. At the same time, even more divine soldiers are captured, sealed, and thrown into Warlock towers.

When the Andrak Plane's divine soldiers are killed, their soul will return to the respective divine country. Once inside the divine country, the god will infuse their soul into a vessel, and form a new divine soldier.

Each time the divine soldiers dies, their soul is weakened by a portion. After a number of deaths, the soul will finally extinguish. However, if soul stones are used to replenish the souls of divine soldiers, or

the souls of other believers are used as nutrients, you can nourish divine soldiers, and make them more powerful.

Because of this and other reasons, soul stones are used as hard currency by gods, fiends, devils, and other formidable beings.

If anyone else faced the virtually immortal divine soldiers, they would have a headache. But the Cangzhi Plane's Other Plane Development Division specializes in warfare with other planes, and has a lot of experience with gods.

By sealing the divine soldiers, their soul can no longer return to the respective divine country via the fundamental plane principle. Each time a divine soldier is sealed, the respective divine legion is weakened by a fraction.

Under such circumstances, the divine legions will eventually be consumed, and that will be the best time to deal with the true bodies of the gods.

With the help of Dong Rui and two other Glorious Sun Warlocks as well as more than 40 Moonlight Warlocks, and the assistance from the Warlock towers, a powerful barrier was activated, resisting the siege of the seven gods.

Going all out, each of the seven gods dispatched a clone with more than 90% of their power. If these clones die, the true bodies inside the divine countries will incur serious damage.

Frantically combusting divine force crystals, each strike of the seven god clones contained terrific law force.

Under the siege of the seven god clones, the nearly 50 Moonlight Warlocks and Dong Rui and the other two Glorious Sun Warlocks could only barely resist with the help from the Warlock towers.

Standing loftily on a huge warship, Bai Tianxing watched Dong Rui and them fight the seven gods.

Although Dong Rui and company are at a disadvantage, but as long as the believers of the seven gods in the surface world are slaughtered, the seven gods will slowly weaken, and will be eventually subdued by the human Warlocks.

Even in this stalemate, the number of divine soldiers is steadily decreasing. In a two more years, the divine legions will be quelled by the human Warlocks. By then, with the collective power of all human Warlocks, the seven gods can be defeated.

At this moment, a guard came forward and said: "Great Commander, there is a report from below."

Bai Tianxing uttered indifferently: "Read it!"

The guard complied: "Commander General Chen Sheng's expeditionary force has defeated the resistance forces of the Ice Blue State, the Scarlet Flame State, the Norton State, and the Guttamar Kingdom. Additionally, the capital of the Bramble Sparrow Kingdom and the Glun State were destroyed. More than 4 million enemies were killed, and 72 temples were destroyed."

Bai Tianxing showed a smile: "Good job. If things go on like this, then in less than a year, the seven gods will be weakened to the limit, and this plane will enter my pocket."

At this moment, another guard walked out from inside the warship with an anxious look on his face and said: "Great Commander, there is urgent information from below."

Bai Tianxing frowned slightly, and an unclear premonition surged in his heart: "Read it!"

The guard's voice trembled: "General Wang Lei and 10,000 elite soldiers were completely wiped out by the aboriginal Ole using the secret treasures provided by the traitor Yang Feng. Commander General Chen Sheng and his 40,000 elite troops were also attacked by Yang Feng, and more than 90% of the troops were annihilated. Generals Zhou Ming, Wang Lei, Wang Feng, Zhao Ming, Liu Hai, and Shangguan Nan were all killed by the aboriginal Ole, and most of their elite troops were wiped out. We have less than 10,000 elite soldiers in the surface world."

When they heard this, the countenance of numerous lieutenants present suddenly changed dramatically. They are both shocked and angry.

Bai Tianxing's expression changed greatly, and he roared, furious: "Yang Feng! Ole! You damn wretches! I, I will tear you into countless pieces!"

The Cangzhi Plane's expeditionary force has gained dominance both in the surface world as well as the outer space of the Andrak Plane. In the surface world, even more so, they have achieved absolute superiority. But now 90,000 elite soldiers died in the surface world. At the same time, more than 50 Moonlight Warlocks and one Glorious Sun Warlock died. This is a huge blow to the expeditionary force.

One-tenth of the expeditionary force was wiped out, and now the expeditionary force is facing the risk of a pincer attack by the reinforcements from the surface world and the divine legions.

After Bai Tianxing calmed a little, a lieutenant proposed, "Great Commander, the situation is very bad. Now that the ground forces have been nearly wiped out, we alone are not enough to compete with the seven gods. Let's withdraw for now. After the people below have fully analyzed the plane origin will, we will come again and wipe out those indigenous gods. "

The number of true powerhouses dispatched by the Other Plane Development Division to attack the Andrak Plane exceeds that of the indigenous gods. Within this expeditionary force, Moonlight Warlocks number more than 200.

But due to the suppression from the plane origin will, the strength of Glorious Sun Warlocks, Moonlight Warlocks, and Starry Sky Warlocks is restricted. This is why they are being suppressed by the seven gods.

Once the human Warlocks have analyzed the plane origin will of the Andrak Plane, they can develop corresponding secret treasures.

By then, the Glorious Sun Warlocks, Moonlight Warlocks, and Starry Sky Warlocks will be able to display their full power thanks to the secret treasures.

At that time, the 200 Moonlight Warlock rank experts can even break into the divine country of a weak divine force rank god and kill the weak divine force rank god and after paying a certain price.

Bai Tianxing bellowed: "Shut up! I cannot fail here! I cannot be defeated by a bunch of aboriginals!"

The lieutenant's expression flickered, and he went silent.

Bai Tianxing has brought 1 million elite soldiers to attack the Andrak Plane. If he wins, he will naturally be glorified, and gain great benefits. The entire Andrak Plane will become his back garden.

But if he retreats in defeat now, then even though he is one of the most powerful Princes in the Great Cloud Dynasty, he won't be able to shoulder the loss of 90,000 elite troops. He will be subjected to countless attacks. His siblings might impeach him and strip him of his right to command troops.

Bai Tianxing was silent for a while, and then a ferocious light shimmered in his eyes, and he spoke coldly: "Go to the division chief for help. Tell him that I need 2 million troops to assist me. As long as he sends the troops to help me, I will give him 70% of the Andrak Plane and a grade 9 plane."

"Yes! Your Highness!" A Moonlight Warlock responded respectfully, and then flew a warship into the void, raised ripples in the void, and disappeared.

Bai Tianxing spoke flatly: "How long will it take to analyze the plane origin will?"

A Warlock reported: "At the current pace, it will take the research team 10 years to fully analyze the plane origin will. If you rely solely on the survivors below, it will take 30 to 300 years."

Specialized in analyzing the plane origin will of other planes, the research Warlock quickly reported accurate figures. 10, 30, or even 300 years, that's not a long period of time for Warlocks.

Bai Tianxing creased his eyebrows slightly and sighed slowly: "10 years, that's too long!"

The Bai family has launched a full-scale attack on the Battle Demon Sect. At this time, Bai Tianxing's royal siblings are on the front line fighting the Battle Demon Sect's forces.

Bai Tianxing assembled 1 million troops from the Other Plane Development Division to storm the Andrak Plane, hoping to settle the war as soon as possible. After taking control the Andrak Plane, he wants to go to the front line to battle the Battle Demon Sect. He wants to render great contributions, and then ascend to the position of Crown Prince.

Bai Tianxing can't wait that long. If he misses this chance, he will be left behind in the dust by his siblings.

Bai Tianxing clenched his fists, and his handsome face distorted from anger: "Damn you, Yang Feng! Why don't you just die! Why do you have to ruin my plans! Fucking bastard!"

If it wasn't for Yang Feng, Bai Tianxing is confident that he can quell the seven gods within two years. Even if he cannot kill them, but he can severely wound and seal them, and have them serve as top alchemy materials.

However, now that more than 90,000 of the 100,000 elites in the surface world were wiped out by Yang Feng, Bai Tianxing can only switch to defense and wait for reinforcements.

Chapter 577 – Amol

“He hasn’t left yet? What’s going on? Does he still have some trump card?” Yang Feng is sitting aboard an arc battleship. With the cloaking mode activated, he observed the fierce battle between the Cangzhi Plane’s expeditionary force and the seven gods of the Andrak Plane from afar.

Under the siege of the seven gods, although the expeditionary force resisted, but the seven gods killed Warlocks at all time.

Frantically combusting divine force crystals, the seven gods bombarded the Cangzhi Plane’s army with spells containing law force.

The seemingly endless divine legions madly attacked the human Warlocks, and killed some from time to time.

Under the tremendous pressure, the human Warlocks didn’t have the leisure to seal the divine soldiers. Instead, they used powerful spells to bombard the divine legions.

Even though the human Warlocks knew that the divine soldiers they killed will soon be reborn, but they had no choice but to cast formidable spells to obliterate the enemy. Otherwise, a moment of carelessness could spell their doom.

Mechanical tentacles pierced into the heads of generals from the Cangzhi Plane’s expeditionary force and read the information hidden in their brains.

“So this is the case. The one who came to hunt me down is the 73rd Prince Bai Tianxing. His mother’s family is the Jiang family of the Eight Great Families! He is one of the top contenders for the position of Crown Prince. He cannot retreat. If he takes a step back, he’ll fall into a figurative precipice.”

After he read the information he was looking from the heads of the generals, Yang Feng understood the situation Bai Tianxing was in.

If you want to conquer the Andrak Plane, the best course of action is to have Great Warlock rank elites sneak into the Andrak Plane, infiltrate the human world and analyze the plane origin will. When the plane origin will is fully analyzed, the Cangzhi Plane’s Warlocks can manufacture corresponding secret treasures. By then, the Other Plane Development Division can invade the Andrak Plane with overwhelming strength and speed and destroy the resistance from the seven gods in one fell swoop.

After all, the Andrak Plane is only a grade 6 plane, and can only birth 9 gods. Besides, the highest level the gods here can reach is the weak divine force rank.

Using secret treasures developed to resist the plane origin will, the Other Plane Development Division’s Moonlight Warlocks and Glorious Sun Warlocks will be able to exert their full strength. By then, even if the Andrak Plane’s gods join forces, they are no match for them.

However, as Bai Tianxing is anxious to establish accomplishments, he led 1 million elite troops to attack the Andrak Plane head on. But then Yang Feng eliminated 90,000 elite troops. If Bai Tianxing returned to the Great Cloud Dynasty now, he will receive countless accusations, and may even be deprived of the right to lead soldiers, unable to make any more contributions.

Now Bai Tianxing can only go all in and ask for reinforcements, and then subdue the Andrak Plane in one fell swoop. This is not the best option for the Other Plane Development Division. But for Bai Tianxing, it is the only viable choice he has.

After Yang Feng determined the situation, he didn't immediately attack the Cangzhi Plane's army. Instead, he focused his attention on the Andrak Plane's surface world. He opened a magic cube mecha academy to cultivate magic cube mecha pilots. At the same time, he deployed a variety of weapons and communication networks in the surface world.

Yang Feng's magic cube mecha soldiers who have already experienced real combat are hunting the remaining human Warlocks in the surface world.

The magic cube mechas are equipped with human Warlock detectors. Although human Warlocks can conjure spells to conceal themselves from most people in the Andrak Plane, but they cannot hide from the magic cube mecha soldiers.

One after another, the Cangzhi Plane's elites hiding in the human world were ferreted out, and then killed.

The Great Cloud Dynasty, the Other Plane Development Division's headquarters, in a hall, a black cat is lying on the throne. This black cat with a rune inscribed on its forehead is an avatar of the Division Chief Amol.

Amol is an Infinity Warlock, an Infinity Warlock who has formed a virtual world too boot. Upon hearing his name, many experts from other planes shudder from fear.

A Glorious Sun Warlock rank expert said respectfully to the black cat: "Lord Bureau Chief, His Highness Bai Tianxing requests 2 million reinforcements to support him and help him capture the Andrak Plane."

The black cat replied indifferently: "2 million reinforcements! How shameless! Since he lost, have him return. Now that we know the coordinates of the Andrak Plane, the plane will be in our pocket sooner or later."

The Glorious Sun Warlock handed a note to the black cat and uttered respectfully: "Bai Tianxing promised to give you 70% of the Andrak Plane, Lord Division Chief. The Jiang family also hopes that you can agree to his request. This is a gift from the Jiang family."

The black cat opened its eyes lazily and looked at the slip of paper, and then revealed an anthropomorphic smile of derision. After a moment of silence, it said: "I leave this matter in Deputy Division Chief Jiang Ziming's hands. I'm going into seclusion to do an experiment. You can take your leave now!"

The Glorious Sun Warlock bowed respectfully and took his leave: "Yes, Lord Division Chief!"

There is only the black cat left in the hall.

"Decline follows the zenith – the Great Cloud Dynasty seems to be unable to escape this rule. The Jiang family, to even use the Jiang family to pressure me. Heh, the Great Cloud Dynasty isn't my home anyway. It's none of my business." There was a flash of cold light in the eyes of the black cat, and then it closed its eyes.

The Andrak Plane, the surface world, in the Inquisition's headquarters, Kafina dressed in a maid outfit kneel sitting on the ground is served Yang Feng, a respectful expression on her face.

Yang Feng is watching a video on a holographic projector. In the video, beautiful girls full of vitality are piloting magic cube mechas for training.

Watching the beautiful girls, Yang Feng thought of an anime he once saw on Earth and smiled: "If I joined the academy, I would be the only male who can use magic cube mechas. That would be fun!"

Suddenly, bright light shone, and Katrina's holographic projection appeared in midair. Dressed in splendid clothing, she looks majestic.

Katrina said with dignity: "Judge, our Lord has sent an avatar. Please come to the temple!"

"I will be there as soon as possible!" Yang Feng stood up and walked towards the temple.

In the temple of the Goddess of Love, there is a Divine Hall that is sealed all year round, and even the Pope cannot enter. Only when the goddess comes in with her true body or an avatar will it open. In theory, orders issued in the Divine Hall are far more effective than orders issued by the Pope.

As soon as Yang Feng stepped into the Divine Hall, he saw a mesmerizing woman with fair skin sitting on the throne. With just a glance, this woman can fascinate countless people.

Katrina stood next to the mesmerizing woman with a respectful look on her face. From this, Yang Feng understood that this bewitching woman is the feeble divine force rank god the Goddess of Love.

Feeble divine force rank gods are equivalent to Moonlight Warlocks. In fact, if a feeble divine force rank god combusted divine force and used a divine armament containing law force, they can even defeat some weak Glorious Sun Warlocks.

In the Andrak Plane, before solving the plane origin will suppression, even a Bright World Warlock may not be an opponent of a feeble divine force rank god.

Yang Feng bowed and saluted the Goddess of Love: "Greetings, my Lord!"

Releasing faint divine might, the Goddess of Love spoke solemnly: "Ole, I order you to immediately take your magic cube legion to the plane's outer space and attack those monsters from the Cangzhi Plane."

Yang Feng sighed slightly and touched his forehead, and a queer soul seal appeared on his forehead.

Feigning the helplessness, misery, and desolation of a martyr, Yang Feng spoke with a bitter smile: "My Lord, in order to wipe out those monsters from the Cangzhi Plane, I made a deal with an evil god that involves my soul. Now my soul, much like the souls of the magic cube mecha soldiers, belongs to the evil god."

The Goddess of Love looked at the seal on Yang Feng's forehead and said lightly, "Connect me to that evil god, I want to meet him!"

"Yes, my Lord!" Yang Feng took out a holographic projector and pressed it, and the holographic projector radiated light.

The Goddess of Love couldn't help but cast a look of curiosity at the holographic projector, but she kept silent, maintaining the dignity of a god.

A dozen seconds later, light shot out from the holographic projector and formed a lifelike image of Yang Feng's true body in the void.

Yang Feng smiled slightly: "Well met, Goddess of Love!"

When the goddess saw Yang Feng, her face flickered, and she gritted her teeth and said, "You are the human Warlock Yang Feng wanted by the Cangzhi Plane's Great Cloud Dynasty? You have some guts to use us to deal with the people from the Other Plane Development Division."

Of the seven gods, the Goddess of Love and the God of Murder have the highest intellect. After she captured several human Warlocks, Goddess of Love used various incredible techniques to easily pry all information out of the captives.

Chapter 578 – Negotiations

Yang Feng smiled slightly, saying: "That's all in the past. We should look forward. Besides, mighty goddess, if it wasn't for me, the surface world would have already fallen into enemy hands. By then, you all would have incurred serious damage. Speaking of which, you should thank me for saving you!"

The Goddess of Love swept Yang Feng's true body disguised as Ole and Katrina with a glance and spoke majestically: "You two, leave us alone!"

"Yes, my Lord!" Yang Feng's true body disguised as Ole and Katrina exited the hall, leaving only the Goddess of Love and the Yang Feng's holographic projection inside.

The Goddess of Love adjust her sitting position, and an astonishing charm immediately emanated from her.

Solely in terms of appearance, the Goddess of Love and Katrina's embodiment of the Pope are about at the same level. But with the charm she is releasing at the moment, any man who sees the Goddess of Love will be deeply fascinated by her. Even Starry Sky Warlocks will be engrossed by her charm, unable to extricate themselves.

Yang Feng's eyes flashed with surprise: "Amazing. Is this the power of the law of love? Even through a screen, you can still feel the astounding charm. Experts at the Starry Sky Warlock rank and below cannot resist your charm at all. You must have many moles planted in the Other Plane Development Division."

The Goddess of Love is the weakest of the seven gods in terms of personal battle prowess. However, her divine legion is the most powerful one. In her divine legion, there are even two Moonlight Warlock rank braves. Falling victim to the charm of the goddess, they willingly became part of her divine legion.

The bright and beautiful eyes of the goddess turning slightly and misted. Staring with those pitiable eyes at Yang Feng, she pleaded softly: "No matter how you slice it, this disaster was caused by you. I know that as long as you are willing to attack them together with us, we will be able to defeat the human Warlocks from the Cangzhi Plane. Will you help me?"

Yang Feng smiled slightly: "There are still many remnant troops of the Cangzhi Plane in the surface world. I want to destroy them one by one, lest they reappear and threaten the safety of the human world. Besides, while fighting against those human Warlocks, I sustained substantial damage. I need to take it easy for a while. When the time comes, I will join you and wipe out those human Warlocks in one fell swoop."

The Goddess of Love narrowed her eyes, and her voice turned frigid: "You want to wait until both sides suffer, and then profit?"

Yang Feng responded with a smile: "How could I? I'm not powerful enough."

The Goddess of Love threatened coldly: "Yang Feng, in addition to fighting with the Cangzhi Plane's human Warlocks, we still have another option, which is to hand you over. As long as we do that, they'll definitely retreat and leave here."

Yang Feng spoke flatly: "Goddess, why do you deceive yourself? The commander of this expedition is the Great Cloud Dynasty's Prince Bai Tianxing. This war is related to his and his family's life. No matter what, he has to take down the Andrak Plane. If he doesn't get rid of you, he won't be able to conquer the Andrak Plane. Even if you hand me over, it won't do you any good. If it wasn't for me, you wouldn't stand a chance. We are both in the same boat!"

There was a flash of wisdom in the beautiful eyes of the Goddess of Love, and she said with a gentle smile: "Besides being killed by him, we have another option, that is to seek refuge with him! He wants to gain merit. If we offer him the Andrak Plane, he won't refuse us. We need faith force, while human Warlocks need cultivation resources. Both sides need completely different things. If we seek refuge with him, we'll just be placed under him."

Once gods established a divine country, if they don't want to progress and become stronger, then so long as they have a steady flow of faith force, it's enough to sustain them.

Human Warlocks need a plane's resources to practice cultivation. Theoretically, there is no conflict of between the needs of human Warlocks and gods.

When he heard that, Yang Feng's eyes congealed slightly, and then he smiled and said: "Unfortunately, you can't do that. After all, gods are the best ingredients for making all kinds of secret treasures. Besides, compared to you yourself, the god slots you possess are far more valuable. If you seek refuge with him, you'll only be throwing your lives away. It's just a question of when you will die!"

Gods are formidable existences who rule certain planes and wield certain laws, and they possess undying properties. They are the best alchemy materials. In the Cangzhi Plane, there are many powerful secret treasures made from gods.

Additionally, among the Cangzhi Plane's human Warlocks, many covet the long lifespan of gods. They voluntarily become gods, and defend a plane.

The Andrak Plane can support nine gods, that is, it has nine god slots. Even though these nine god slots can let you evolve into a weak divine force rank god at most, but that's already enough for countless human Warlocks to compete for them.

Once you have become a god, not only will you be far stronger than human Warlocks of the same rank, but you'll also have a lifespan of several million of years at the least. That's a lifespan longer than that of Warlock Emperors.

Although gods are restricted by their plane – they cannot leave the plane with their true body. But they can use avatars to travel to other planes. For human Warlocks whose lifespan isn't very long, it's a great temptation.

With nine weak divine force rank god slots, you can recruit nine Glorious Sun Warlocks to serve you, or even Bright World Warlocks.

God slots are an important bargaining chip that the great Cloud Dynasty uses to recruit experts. In the eyes of the Great Cloud Dynasty, the value of the Goddess of Love and the other gods is far lower than that of the god slots they occupy.

The Goddess of Love listened to Yang Feng's words without a change in expression, but in the abyss of her eyes, a chill streaked past. From the information she held, Yang Feng didn't lie.

Yang Feng carried on: "I also made some deployments in the surface world. If you collude with the Great Cloud Dynasty, then I'll kill your believers in the surface world. The seven of you will be weakened to the extreme. By then, the experts from the Great Cloud Dynasty won't mind killing seven weak gods. After all, the basis of negotiation is that both parties must have equal strength."

The Goddess of Love still had a sweet smile on her face, but in her heart, stormy waves were set off.

As Yang Feng said, the basis of negotiation is that both parties have equal strength. If the Goddess of Love and them lose their believers in the surface world, their true bodies will quickly weaken. At that time, Bai Tianxing won't let them off.

Yang Feng spoke with a smile: "So, considering the circumstance, you need me. But I don't need you!"

The Goddess of Love contemplated for a while, and then said: "Fine, it is us who need you! We need you to attack the invaders from the Cangzhi Plane at once. If you have any conditions, name them."

"First, I want the remaining two god slots."

"Second, I will launch an attack, but the timing of the attack is up to me."

"Third, I want to establish two states in the Andrak Plane. You guys must acknowledge the legitimacy of those two states." Yang Feng smiled slightly and enumerated his demands.

The Goddess of Love spoke: "The first and third conditions are fine, but the second condition needs to be changed. We need you to launch an attack immediately and wipe out the Cangzhi Plane's expeditionary force."

Yang Feng replied resolutely: "That I can't do! Unless I have enough strength, I won't attack the Cangzhi Plane's Warlocks."

There was a flash of anger in the eyes of the goddess: "According to the analysis of the information I have obtained, the Cangzhi Plane's expeditionary force has entered defense mode because they are waiting for reinforcements. When the reinforcements arrive, we'll all be in danger."

Yang Feng spoke flatly: "I got it. I will find an opportunity to take care of them before the reinforcements arrive. If there's nothing else, then don't bother me again."

With that, Yang Feng's image collapsed and disappeared.

Anger streaked past the goddess's beautiful eyes, and she scolded: "Asshole!"

Following a bright light, the body of the Goddess of Love turned into an idol, losing the luster and charm of a living person.

The Andrak Plane's outer space, in a secret space, with a flash of light, the Goddess of Love possessed an idol.

In the secret space, there sit the seven gods of the Andrak Plane.

The God of Murder asked: "How did it go?"

The Goddess of Love sighed: "I failed. He is very cunning, he didn't agree to my condition."

The eyes of the God of Death shimmered coldly: "He wants to watch from a safe distance while others fight. It won't be that easy. Since he didn't agree, then let's go talk to Bai Tianxing! As long as he takes his army out of our plane, we will capture Yang Feng and hand him over."

The other gods showed a thoughtful expression. If they could resolve this catastrophe by sacrificing Yang Feng, then they wouldn't mind getting rid of him.

The Goddess of Love said: "It's no use. Bai Tianxing and the Other Plane Development Division have already set their eyes on our Andrak Plane. No matter what we try, there's nothing we can do but fight and eliminate them or drive them out of our plane, and then send our divine legions to patrol the plane's outer space day and night. This is our only chance to prevent them from invading us again."

Chapter 579 – Tyrannical Gods

The other six gods fell silent. None of them are stupid. After receiving the information provided by the Goddess of Love, they understood the situation they are in.

As a sharp tool of the Great Cloud Dynasty, the Other Plane Development Division has captured many planes, and holds a lot of information.

The gods of captured planes are basically all refined into various secret treasures, and the god slots of the planes are assigned to experts of the Bai family or those who work for the Bai family and have made great contributions.

If the seven gods of this grade 6 plane join Bai Tianxing's side, except for the Goddess of Ice and the Goddess of Love, the other gods will definitely be killed and refined into secret treasures. As for the two goddesses, they will become playthings of Bai Tianxing, and even tools for him to recruit experts.

Compared to ordinary human Warlocks, goddesses from other planes are far more enjoyable. Some lecherous human Warlocks were recruited by the Bai family in this fashion, and became their hunting dogs.

The God of Justice said lightly: "Let's attack with true bodies!"

"Attack with true bodies!"

The hearts of the other six gods shook slightly, and they hesitated.

Currently, the seven gods are attacking with avatars that contain a portion of their soul, divinity, and power. The combat strength of the seven avatars by far exceeds that of ordinary Moonlight Warlocks and Glorious Sun Warlocks respectively. However, once the power of the true body is merged with that of the avatar, their combat power will erupt, and they will become twice as strong as their avatar.

Even if an avatar has 90% of a god's power, but it has no godhead. Without godhead, the power of divine force cannot be exerted to the limit.

The gap between the true body and the avatar lies in the godhead. God true bodies with godhead are the strongest and most terrifying existences.

However, when their true body leaves their divine country, that's the most dangerous time to a god. Within their divine country, some powerful feeble divine force rank gods can even contend against Bright World Warlock rank freaks.

However, once a feeble divine force rank god leaves their divine country, then even a Moonlight Warlock will have a chance to kill them. Due to this, gods like to hide in their divine country and use avatars to go outside. Even if the avatars are killed, they'll only sustain some injury, that's all.

A fierce light streaked past the eyes of the God of Murder, and he uttered: "That's right. If things go on like this, we will die for sure. Let's attack with true bodies, let's go all out and destroy the line of defense of those damn human Warlocks."

After repeated considerations, the rest of the gods finally made up their minds and decided to take the risk.

Yang Feng has made it clear that he intends to watch in safety while others fight. Even if the gods of the Andrak Plane want to surrender to Bai Tianxing, but once they think of the end result, they shudder. They can only go all out to break the defensive perimeter of Bai Tianxing and the other human Warlocks as soon as possible.

In the Andrak Plane's outer space, the countless divine soldiers retreated like a tide under the cover of the seven god avatars.

Watching the retreat of the divine soldiers, Dong Rui finally heaved a sigh of relief: "They finally retreated! Those crazed dogs are really troublesome!"

Virtually all human Warlocks present feel relieved. Under the leadership of the seven god avatars, the divine legions attacked wildly. Even though human Warlocks are powerful, but they still lost more than 10,000 elite Warlocks.

The cruel side of plane wars appeared in front of everyone. Every time they attack another plane guarded by gods, the human Warlocks will lose many soldiers. If they are careless, the war can be lost, and even the entire expeditionary force may be destroyed.

Every year, the Other Plane Development Division recruits at least 300,000 Warlocks from all parts of the Great Cloud Dynasty. But after tens of thousands of years, only 5 million elite Great Warlocks were cultivated. The rest are all buried in foreign lands.

Once the divine legions retreated, seven rays suddenly rose in the plane's outer space and entered the seven divine legions, and then seven boundless auras spread from the seven divine legions in all directions.

Bai Tianxing's face suddenly fell, and his eyes flashed with dignity: "The true bodies are here, damn it! These indigenous gods are desperate!"

Before long, the seven divine legions rushed back and frantically attacked the human Warlock.

Operating the law of love, combusting divine force crystals, the Goddess of Love became beautiful without compare and full of mesmerizing charm, and she winked at human Warlock on a warship.

"Goddess, my goddess!"

"Die! You fucking beasts, use your lives to please my beloved!"

"..."

Human Warlocks aboard the warship fell head over heels at once. Eyes filled with endless adoration, they cast a variety of powerful offensive spells and attacked their companions.

The Warlock tower aboard the warship emitted sounds of explosion, and then the barrier collapsed.

Shrouded in death aura, the God of Death smiled cruelly, and then his figure blurred, and he appeared above the huge warship and swung the god armament Sickle of the God of Death in his hand.

An invisible blade of death aura shout out and spread along the huge warship in an instant.

Slashed by the death aura, all the human Warlocks aboard the warship had their soul sliced into two pieces, which turned into twisted phantoms, and was sucked into the god armament Sickle of the God of Death.

More than 9,000 human Warlocks died tragically from the combined strike of the Goddess of Love and the God of Death.

Igniting divine force crystals nonstop, the Goddess of Love is conjuring the divine spell Smile of the Goddess of Love.

Once again, charmed by the Goddess of Love's divine spell, human Warlocks on a warship fought each other, and then the barrier activated by the Warlock tower collapsed.

"Die! Die!" The God of War roared, turned into a 1,000-meter-long wolf exuding a ruthless aura, bit the warship's Warlock tower that lost its barrier, and crushed it to pieces.

Countless divine soldiers with a wolf head and a human body rushed into the warship and started fighting the human Warlocks aboard.

Among the seven gods, the Goddess of Love isn't the strongest in terms of battle prowess. But the divine spell Smile of the Goddess of Love she developed is extremely effective. Specially after her true body arrived, every movement of hers contains captivating charm. Coupled with that divine spell, even Moonlight Warlock can hardly resist her charm.

The Goddess of Love's divine spell doesn't have much attacking power. Rather, it magnifies her beauty by a hundredfold, evoking the feeling of adoration in men and silently affecting their soul. With this divine spell, the goddess is more lethal than the three weak divine force rank gods.

Every time the Goddess of Love casts that divine spell, the defenses of a warship are broken, and then the warship is destroyed by the gods and divine legions.

Under the crazy assault of the seven gods, within a few hours, six warships were destroyed, and the human Warlocks inside were slaughtered by the divine legions.

At the same time, the divine soldiers suppressed in the six warships were rescued, making the divine legions stronger!

Watching from afar, Yang Feng exclaimed in admiration: "Amazing! The seven god true bodies are really amazing!"

While burning divine force crystals, the fighting power a god can erupt with is comparable to that of a human Warlock of the same rank who formed a virtual world while extracting world force.

Dong Rui and the other two Glorious Sun Warlocks as well as more than 50 Moonlight Warlocks coupled with the power of Warlock towers are not the opponent of the seven god true bodies.

Yang Feng made a judgment: "If Bai Tianxing's skill is only this much, then this is his loss!"

"Fucking bastards! Nine God Sky Wheel!" Faced with the siege of the seven god true bodies, Bai Tianxing finally couldn't bear it. With a wave of his hand, a level-8 secret treasure Nine God Sky Wheel suddenly flew out and formed nine gods in the void.

A flux of power provided by 36 warships poured into the nine gods, and the nine gods exuded weak divine force rank fluctuations of power.

A one-eyed Unfeeling God inscribed with countless runes suddenly opened his eye, and numerous runes appeared in the eye.

A gray ray shot out from the god's eye, cut through the void, and blasted into the Goddess of love.

The Goddess of Love trembled slightly, gray power entangled her body, and the lethal charm disappeared immediately. She spat out a mouthful of black blood, and then retreated into her divine legion.

After the Goddess of Love was severely wounded by the Unfeeling God, the nine gods cooperated with each other to resist the siege of the remaining six gods as well as the divine legions.

When he saw that the both forces regained a balance of power, Yang Feng revealed a smile: "It seems that the strength of both sides isn't much different! This way, I can rest assured! What I lack now the most is time!"

If the Goddess of Love and the other six gods defeat Bai Tianxing, their next target will be Yang Feng. Only by driving Yang Feng away and killing all the Cangzhi Plane's Warlocks in the Andrak Plane can they gain a peace of mind. This is the biggest reason why Yang Feng didn't attack Bai Tianxing's forces.

Chapter 580 – Level-3 Stronghold

"It's finally done!" The Bramble Sparrow Kingdom, 1,000 meters underneath an earl's villa, inside a vast chamber engrave with countless seals, there is a 100-meter-tall machine with numerous mechanical pipes spread like blood vessels inside the chamber.

Standing in front of the machine, Yang Feng revealed a look of delight in his eyes.

The huge machine is a level-3 large matter and energy converter. With it, various weapons of the xizu can start mass production.

"Show me the strongest weapons that can be produced!" With a command from Yang Feng, the level-3 optical computer listed the strongest weapons that can be put into mass production.

<Undying: possesses super strong attack power and automatic healing power. As long as the core isn't broken, it can heal itself.>

<Void Assassin: assassin shuttling through the void.>

<Skynet: super intelligent system that can cover a celestial body.>

<Star Destroyer Battlestar: equipped with a primary artillery star destroyer artillery and 1,600 auxiliary artilleries.>

<Interstellar Carrier: equipped with a dimensional space that can hold 100,000 Swift Eagle Fighters. It possesses a cloaking system, making it undetectable to experts below the Infinity Warlock rank.>

<Specter Assassin: stealth assassin.>

<Clone Culture Cabin: can cultivate a large number of clones.>

<Lightning Manipulator: battle robot with the ability to manipulate lightning.>

<Sealer: battle robot with sealing power and restricting power.>

<...>

A list with a series of extremely powerful weapons appeared on the mass production list.

After the level-3 stronghold was produced, the iconic Undying battle robot appeared.

The speed of Undyings is greater than that of Starry Sky Rippers. At the same time, as long as the energy core isn't destroyed, they can attract the damaged parts to quickly reorganize and repair themselves.

Much like Void Evil Ogres, Void Assassins are robots that can freely shuttle in the void. Unless you are an expert proficient in the law of space, you can only destroy them the moment they emerge from the void.

Additionally, Starry Sky Rippers, Bladed Robots, Gunner Robots, and other basic robots have also been greatly upgraded. The speed of Starry Sky Rippers has increased to Mach 15, which is no worse than the top speed of some Glorious Sun Warlocks.

The Undying robots have undying characteristics, their top speed can reach Mach 20, and their defensive and offensive power is far above that of Starry Sky Rippers. Besides, when necessary, they can also be equipped long-range weapons.

The cost of each Undying is a thousandfold the cost of a Starry Sky Ripper, and that's because every Undying needs Bamhagra Stone to be manufactured. Bamhagra Stone is an indispensable material for the production of energy cores for Undyings.

"I'm short on time, I don't have enough time to manufacture Interstellar Carriers and Star Destroyer Battlestars. However, I can modify the plans. As long as the existing weapons are modified, then it should give me enough time." Yang Feng willed, and the level-3 optical computer carried out analyses. At the same time, he issued a series of orders.

Andrak Plane's outer space.

Bai Tianxing stood on a huge battleship and looked into the distance, eyes filled with anxiety. He gritted his teeth and said, "Dammit! How come the reinforcements aren't here yet!"

When the seven god true bodies came, they launched a frenzied offensive against Bai Tianxing and company. Even with the trump card Nine God Sky Wheel, Bai Tianxing and them still can't resist the assault.

The Nine God Sky Wheel is a level-8 secret treasure made by using nine weak divine force rank gods. It requires a Bright World Warlock or an intermediate divine force rank god to fully exert the unparalleled might of this secret treasure.

Even though Bai Tianxing and them used the power of Warlock towers to imitate divine force and operate the Nine God Sky Wheel, but they still can't exert the full power of the secret treasure. Even resisting the seven gods is already very taxing.

If not for the Nine Gods Sky Wheel, the Goddess of Love wouldn't have been severely wounded by the Unfeeling God, and the Cangzhi Plane's expeditionary army would have collapsed already.

Even so, under the siege of the seven gods, the expeditionary army's casualties have surpassed 200,000 Warlocks. Coupled with the 100,000 Warlocks who died in the surface world, the expeditionary army has lost more than 300,000 soldiers, and is on the verge of collapse.

The voice of the God of Murder echoed in the crowd: "Bai Tianxing, take your people and leave the Andrak Plane! As long as you leave here, we can sweep everything under the rug!"

The bewitching voice of the Goddess of Love sounded: "Bai Tianxing, for your own benefit, you have ordered 1 million elite Warlocks of the Other Plane Development Division to die here. For your own selfish desires, you let so many elites die. You're really vicious and cruel."

When the human Warlocks heard this, their morale plummeted at once. If they don't escape this plane, they are bound to die. At this moment, many people have decided to escape.

The elite soldiers of the Other Plane Development Division are all Great Warlock rank experts, and they possess amazing battle prowess, yet unlike golems, they have their own will. For Bai Tianxing to give the unreasonable order to stay here and fight to the death, virtually everyone knows what he is thinking.

Face gloomy, Bai Tianxing kept silent, yet his heart is full of anxiety. He can feel the dissatisfaction of the Warlocks, and the undercurrent hidden beneath. But for the sake of the Andrak Plane, for the sake of the position of Crown Prince, he can only go all in. Even though he's fully aware that this is wrong, but he's sticking to his ways.

In the god camp.

The God of War glanced at the battlefield with wisdom, and he quickly made an accurate prediction: "Seven days. With the morale and strength of those human Warlocks, seven days is their limit. If they don't run away within seven days, they won't be able to leave."

When they heard this, the other six gods were slightly relieved. As long as they persist for another seven days, they will defeat the Cangzhi Plane's expeditionary army.

Suddenly, spatial ripples rose, and a human Warlock warship flew out.

"Reinforcements!"

"Our reinforcements are here!"

"Ha-ha, you wretched gods, you're dead!"

"Reinforcement, our reinforcements are here!"

"..."

When the warship flew out, the human Warlocks erupted with shouts of excitement.

A tall, sturdy, handsome middle-aged man walking in the air came to before the Nine Gods Sky Wheel, pointed with his hand, and burst out with pinnacle Glorious Sun Warlock rank fluctuations of power, and a gold ray entered the Nine Gods Sky Wheel.

As if they began to awaken, weak divine force rank divine might spread from the Nine God Sky Wheel's nine gods.

"Deputy Division Chief Jiang Ziming!"

"Deputy Division Chief Jiang Ziming set out personally! The indigenous gods are screwed!"

"..."

Excited voices rang in the midst of the human Warlocks. Jiang Ziming is a Bright World Warlock, an expert comparable to an intermediate divine force rank god in terms of strength.

Even under the plane origin will suppression, Jiang Ziming still maintains pinnacle Glorious Sun Warlock rank strength, which is enough to operate the Nine Gods Sky Wheel.

There was a flash of despair in the eyes of the God of Murder, and he roared madly: "Damn it, how could this be! Only seven days are left! Only seven days are left!"

There was also a flash of despair if the eyes of the Goddess of Love: “Dammit! What do we do now? Do we hide in our divine countries? That’s just delaying death.”

The eyes of the other five gods also revealed despair.

Jiang Ziming alone controlling the Nine Gods Sky Wheel is able to contend against the seven gods. Once more reinforcements arrive, the divine legions that lost the support of the seven gods won’t be able to resist the expeditionary army.

Bai Tianxing’s handsome face distorted, and he laughed wildly: “Ha-ha, we’re saved! You fucking indigenous gods and that fucking traitor Yang Feng, I will cut you into 10,000 pieces and make you regret being born in this world!”

“Fire!” Yang Feng’s icy command sounded, and the already fully charged star destroyer artillery equipped on the hidden Arc Battlestar flickered and fired a bright pillar of light shooting towards the Nine Gods Sky Wheel.

In an instant, the dazzling pillar of light blasted into the Nine Gods Sky Wheel. The nine weak divine force rank gods that still haven’t fully awakened were vaporized by the pillar of light.

The terrifying star destroyer artillery ray capable of destroying celestial bodies also swallowed the Deputy Division Chief Jiang Ziming.

One after another, magic shields appeared around Jiang Ziming, but then were instantly smashed like tofu.

“No! Why is this happening! No, I don’t want to die! I’m not willing...” Amid heart-wrenching screams, the Bright World Warlock Jiang Ziming was directly vaporized.

When he saw this scene, Bai Tianxing was struck dumb, and his eyes filled with endless despair:

“Impossible! How can this be? How can this be? He is a Bright World Warlock, so how could, how could he...?”
