

MGE 781

Chapter 781 – Dulan City

Yang Feng smiled coldly, killing intent surged in his eyes, and he said frigidly: “Then let’s fight once more! If you lose, let Her Highness the first princess take out more treasures to redeem your life!”

To Yang Feng, the identity of Jing Bahai doesn’t mean much. With the Phantom Ruler, he can easily change into another merfolk powerhouse.

“What a reckless thing! Although I don’t know what out-dated secret treasures you got from the relic site! However, for a mere green whale race powerhouse to dare humiliate a noble sea dragon race powerhouse, you’re dead!”

The sea dragon royal prince laughed back angrily, then violent life force welled up inside him, and a copious amount of sea water condensed behind him to form a primordial sea dragon projection.

Strange blue runes suddenly appeared, formed an Ice God Shell in front of the sea dragon royal prince.

Ice God Shell is a powerful spell developed by the sea dragon race specifically to counter secret treasures, like the Dragon Slaying Crossbow, that are customized to deal with dragons.

The Dragon Slaying Crossbow can make the dragon scales of dragons, who are proud of their astonishing defenses, lose their extraordinary power, and then easily run through them. However, that’s where Ice God Shell comes into play.

Due to carelessness, the sea dragon royal prince was restrained by Yang Feng, who used the secret treasure Dragon Slaying Crossbow to seal his power. In terms of true strength, the sea dragon crown prince is far superior to the Jing Bahai Yang Feng has transformed into.

Yang Feng uttered with a cold smile, confident: “Your Highness first princess, if you don’t stop this fool, then don’t blame me for being merciless. In the human Warlock relic site, I got more than the Dragon Slaying Crossbow! It’s more than enough to kill this fool, who has no secret treasures on him at the moment!”

The sea dragon crown prince’s eyes narrowed and revealed a dignified look. Although Yang Feng’s avatar Jing Bahai is far inferior to the sea dragon crown prince. But secret treasures developed by human Warlocks are mysterious and miraculous. Some single-use secret treasures are so powerful that they can even instakill Infinity Warlocks.

All the secret treasures the sea dragon crown prince had on him have fallen into Yang Feng’s hands. If he is hit by one such strange secret treasure, even though he is a Bright World Warlock rank powerhouse, he will be in danger of dying.

Spirit Turtle Admiral frowned, took a deep look at Yang Feng, and kept quiet. He doesn’t want to suffer an attack from a secret treasure that can instakill a Bright World Warlock.

Dulan Imperial Court’s first princess said lightly: “Stop it, both of you!”

A cold light flashed in the eyes of the sea dragon crown prince, and he endured the anger and said coldly: “Since it is you, Your Highness, I will give you a face. Jing Bahai, you got lucky!”

With all his secret treasure seized by Yang Feng, the sea dragon crown prince's battle prowess dropped by more than 50%. Under such circumstances, he chose to endure it.

There are countless sea dragon princes and sea dragon princesses in Sea Dragon Imperial Court, and they are all merfolk geniuses who competed over the position of the sea dragon crown prince. To overpower the competition and take the position of crown prince, apart from being a peerless genius, patience is also of essence. A genius who doesn't know how to be patient, would have become a corpse a long time ago.

The first princess took out an invitation card with a seven color narcissus design and handed it to Yang Feng: "This is an invitation for the Dulan Narcissus Banquet. Jing Bahai, if you have time, please do me the honor and participate."

Yang Feng looked deeply at the first princess and smiled, saying: "I'll definitely go!"

"Damn it, that country bumpkin from the sticks is really lucky, he's even able to participate in the Dulan Narcissus Banquet, which is a gathering place for the most outstanding geniuses in Dulan Imperial Court. What ability does that country bumpkin have to be able to attend the Dulan Narcissus Banquet?"

"That country bumpkin has threatened Her Highness before. But now Her Highness invites him to participate in the Dulan Narcissus Banquet, curses."

"..."

Gazes of envy focused on Yang Feng. The Dulan Narcissus Banquet is a banquet held by the first princess. Every year, only the best talents of Dulan Imperial Court can attend it. It is a stepping stone to the high-class society of Dulan Imperial Court.

In the eyes of Dulan Imperial Court merfolk powerhouses, a green whale race powerhouse like Jing Bahai is only a hillbilly from remote waters. Even though he's a Glorious Sun Warlock rank powerhouse, he's still rejected and looked down on by Dulan Imperial Court's powerhouses.

But now that Jing Bahai is able to participate in Dulan Narcissus Banquet, his social status has changed. In one fell swoop, he became one of the nobles in Dulan Imperial Court that are reverence of countless people.

Dulan Narcissus Banquet, which gathers the most outstanding geniuses of Dulan Imperial Court, is a top place to socialize. If you aren't stupid, you will exploit the Dulan Narcissus Banquet to make friends. By then, you will get a few Transcendent rank friends and gain powerful connections.

A blue ray of light extended from Dulan City, passed through the whirlpools surrounding the city, appeared at the feet of the first princess, and formed blue steps.

The first princess, like an immortal, trod on the blue stairs towards Dulan City.

The sea dragon crown prince and Spirit Turtle Admiral trod on the blue stairs as well.

With a smile, the shameless Yang Feng led the tribute team up the blue stairs.

With a flash of blue light, the blue stairs turned into a blue ray, contracted, and returned to Dulan City.

“What a beautiful city, worthy of being the residence of the former East Sea Kings!”

As soon as he entered Dulan City, Yang Feng saw beautiful, 1,000-meter-tall buildings full of merfolk style appear before his eyes.

One of the tall buildings is made from countless red coral reefs using spells. The entire building is 1,000 meters tall and is surrounded by countless beautiful fish. The fish surrounding the tall coral building are a kind of extraordinary life form — red pearl fish. Eating a red pearl fish can promote the soul aptitude of an ordinary person with inferior level-1 soul aptitude to inferior level-3 soul aptitude.

There is also a 1,000-meter-tall building carved out of a giant Dragon Clam Pearl. Inside this building, there is a huge amount of life magic energy, which is of great benefit even to Glorious Sun Warlocks.

Countless deep-sea treasures were used to construct the tall buildings in Dulan City, combining beauty and practicality and filling it with the Warlock style.

The green whale race has also rented a manor on the edge of Dulan City.

After Yang Feng handed the tribute procedures over to his subordinates, he went directly into a room in the manor, opened a boundary, and began to inspect his harvest.

“Phantom Ruler!”

Yang Feng’s voice has just sounded, when transparent and distorted fluctuations rose from behind him.

Yang Feng spread the fingers of a hand, and the monarch grade soul stone disappeared at once. It was consumed by the Phantom Ruler.

Yang Feng extended a hand and took out the 10,000 Years Sea Heart Five Color Narcissus, and then flicked a finger, and the 10,000 Years Sea Heart Five Color Narcissus entered his mouth and turned into a five color stream that nourished his body and soul rapidly.

Five color light traveled back and forth through Yang Feng’s body. Each time it made a round trip, a large amount of black matter seeped out of him, and then was burned and purified by a flame.

In the world of Warlocks, there are all kinds of incredible spells and phenomena. Like ice cubes that can freeze flames as well as flames that can burn in water.

An hour later, advanced Bright World Warlock rank fluctuations of power filled the secret room, as if an ancient beast was slowly waking up.

Marina, with the Sea Angel Sword in hand, formed a powerful water boundary that shielded Yang Feng.

Yang Feng opened his eyes, raised the corners of his mouth, and revealed a look of joy: “I unexpectedly broke through! The effect of the 10,000 Years Sea Heart Five Color Narcissus is really amazing!

Originally, according to my calculations, it would take me another three years to make a breakthrough. No wonder the 10,000 Years Sea Heart Five Color Narcissus is so precious and so hard to come by. Even when I offered treasures that can be of use to Infinity Warlocks, I couldn’t get it.”

“Let’s take a look, what sort of treasures does this sea dragon crown prince have?”

Yang Feng took out an ancient spatial conch that the sea dragon crown prince had on him and swept it with his soul force. His face flickered suddenly, and the careless expression on his face disappeared and gave way to a dignified expression. "It seems that I have made the right choice by acting decisively. Otherwise, it he would very likely have forced out my true body.

In the ancient spatial conch, there are various treasures piled up into mountains. There are 30 level-8 secret treasures used by Bright World Warlocks and more than 100 level-7 secret treasures used by Glorious Sun Warlocks.

In addition, there is also an azure spear secret treasure, which exudes the fluctuations of power of a level-9 secret treasure.

Only Infinity Warlocks can fully operate level-9 secret treasures. Yang Feng conquered so many forces, yet he has obtained no more than 11 level-9 secret treasures. This shows how rare level-9 secret treasures are.

Not to mention the level-9 secret treasure, each one of the 30 level-8 secret treasures is a valuable product with different extraordinary abilities. Any level-8 secret treasure placed in the outside world will cause the Bright World Warlock rank powerhouses compete over it.

Even as rich as he is, Yang Feng is drawn to the 30 level-8 secret treasures, of which more than a dozen could greatly enhance his current strength.

As for the level-9 secret treasure, it needs to consume too much power. it can only be used as a trump card. Even though Yang Feng has the power of the nine small worlds, it is still difficult for him to control a mighty level-9 secret treasure for a long period of time.

"Here are some secret treasures for you!"

With a flick of Yang Feng's finger, a bracelet, a hairpin, and a set of battle armor thin as a cicada's wings flew into Marina's hands.

Chapter 782 – Dulan Narcissus Banque

t

When Marina received the three level-8 secret treasures, her beautiful eyes sparkled with joy, and she carefully fiddled with them. "Thank you for granting me these treasures, my Lord!"

Each of the three level-8 secret treasures has different extraordinary powers. When Marina equips them, her combat power will increase by more than 30%.

After she fiddled with the three secret treasures for a while, Marina suddenly hesitated, saying: "My Lord, can I give these secret treasures to my Lady?"

Feisuo Plane's alchemy is far inferior to Cangzhi Plane's. In general, each god only has one or two god armaments that fit their authority.

Those three level-8 secret treasures have each their own characteristics. If Bosana uses them, her combat power will increase by about 15%.

The stronger the person, the less effect secret treasures have on their combat power. Since Bosana is very strong, the three level-8 secret treasures will naturally have far less effect on her strength than Marina's.

Yang Feng smiled and said: "I have already prepared a gift for her. You do not need to worry."

"Then I'll thank you first on behalf of my Lady, my Lord!"

Marina, with a happy expression on her face, bowed to Yang Feng, and then began to play with the three level-8 secret treasures anew.

The sea dragon crown prince has obviously selected the three level-8 secret treasures from a treasury. They are suitable for women to equip. Not only are they beautiful, but they can also increase the wearer's strength. They are hard to come by products even in Great Cloud Dynasty.

Since Yang Feng's avatar Zhao Fan has gotten the position of bureau chief in Great Cloud Dynasty's Secret Treasure Division, he knows that such exquisite level-8 secret treasures, unless they are made by a deputy division chief alchemy grandmaster, take Secret Treasure Division an average of 10 years to refine.

Great Cloud Dynasty's Secret Treasure Division is large in scale and has gathered countless alchemy geniuses of Great Cloud Dynasty. But the alchemy geniuses are basically busy refining large-scale war secret treasures. Unless someone issues a mission, such level-8 secret treasures exclusively for women won't be refined.

Dulan Imperial Court is located on an extraordinary plant Nine Leaf Sea Dragon Sacred Heart Lotus in the center of Dulan City.

The Nine Leaf Sea Dragon Sacred Heart Lotus is 9,000 meters tall, is blooming with a lotus flower, and bears Dulan Imperial Court. On the nine lotus leaves, which have a length of several hundred kilometers, there are beautiful and luxurious palaces.

The Nine Leaf Sea Dragon Sacred Heart Lotus was refined by the 5th Warlock Dynasty's Death Lord. After he slayed a Holy Spirit Warlock rank primordial sea dragon and scooped out their heart, he implanted a lotus seed into the heart, used countless resources to water it, and cultivated it for 1,000 years before it took shape.

Although the Death Lord has taken away the Nine Leaf Sea Dragon Sacred Heart Lotus seeds, but human Warlocks, using incredible alchemy, refined the Nine Leaf Sea Dragon Sacred Heart Lotus itself into a huge and exquisite palace.

The Nine Leaf Sea Dragon Sacred Heart Lotus, which is an extraordinary plant that absorbed the heart and blood of a Holy Spirit Warlock rank primordial sea dragon and was nurtured by the Death Lord for 1,000 years, is naturally able to absorb life magic energy from the surroundings.

The place where the Nine Leaf Sea Dragon Sacred Heart Lotus is located has the strongest concentration of live magic energy in Dulan City.

"So this is Dulan Imperial Court. No wonder it's a place that gave birth to a Warlock Monarch."

When Yang Feng arrived in front of a Nine Leaf Sea Dragon Sacred Heart Lotus leaf, he looked towards the center of the lotus flower and saw a tremendous amount of life magic energy attracted by the lotus flower turn into a sea dragon and enter Dulan Imperial Court in the center of the lotus flower.

That Nine Leaf Sea Dragon Sacred Heart Lotus is extracting the surrounding life magic energy at all times and pouring it into the center of the lotus flower, which is where Dulan Imperial Court is located. It is by exploiting this property that Dulan Imperial Court has cultivated many treasures, including 10,000 Years Sea Heart Five Color Narcissuses, that are rare in the outside world.

“This is the residence of Her Highness the first princess. The Dulan Narcissus Banquet is currently being held inside. If you don’t have an invitation, please leave.”

Two crab race powerhouses, wearing armor similar to crab carapace, whose bodies have mostly changed into human form, with six legs sprouting from the lower body, exuding Starry Sky Warlock rank fluctuations of power, swam over from above and blocked in front of Yang Feng and Marina.

With a flick of Yang Feng’s wrist, the invitation card with the seven color narcissus design appeared in his hand.

The invitation card burst out with green light, and the lotus leaf reacted to it. Green stairs extended from the lotus leaf and landed in front of Yang Feng.

The complexion of the two crab race powerhouses changed slightly, and they uttered respectfully: “It turns out you are distinguished guests! If we offended you just now, please forgive us.”

As soon as Yang Feng and Marina stepped onto the green stairs, they flashed, swept the two, and flew towards the green lotus leaf.

When they were about to hit the green lotus leaf, Yang Feng’s eyes suddenly blurred. In the next moment, he and Marina appeared in a sky.

There are white clouds floating in the sky. But the ground, which looks like a floating continent, extends without end in sight.

On the continent, luxurious buildings are built everywhere. Everywhere the eye can see, there are precious extraordinary plant courtyards and extraordinary sea monster pastures.

The merfolk have been ruled many times by human Warlocks. As their shepherd dogs and sea farmers, merfolk have naturally learned how to plant extraordinary plants, herd extraordinary sea monsters, and obtain various extraordinary powers.

In the center of the continent, there is a group of exquisite, luxurious and picturesque palaces.

The green light that swept Yang Feng and Marina landed in a rear garden of the palace in the center of the group of palaces in just 10 breaths of time.

As soon as Yang Feng appeared in the rear garden filled with countless extraordinary plants, everyone’s eyes focused on him at once.

Yang Feng looked around carefully, and saw dozens of young merfolk geniuses standing in the middle of the rear garden. Every one of them is full of confidence and emits fearsome aura, as if mythical beasts treading in the secular world.

These merfolk geniuses are the strongest geniuses of Dulan Imperial Court's younger generation. They each either come from a strong family, have a terrifying background, or have a heaven-defying talent for cultivation. They all had numerous fortuitous encounters and possess superior strength.

The merfolk geniuses have two or more followers each standing beside them, each of which exudes Moonlight Warlock rank fluctuations of power.

Once you enter the Moonlight Warlock rank, you are considered a Transcendent powerhouse. In most planes, Moonlight Warlocks are lofty beings. Even in Great Cloud Dynasty, there are many Moonlight Warlock rank rogue cultivators who are unwilling to serve others and choose to establish their own force.

For the merfolk geniuses to be able to recruit Moonlight Warlock rank followers to serve them, it shows how terrifying their strength or background is.

When the merfolk geniuses saw that Marina is standing alone beside Yang Feng, their eyes revealed contempt.

Marina is indeed very beautiful and possesses extraordinary temperament. But these merfolk geniuses are all bigwigs who dominate a corner of the sea. Apart from those who practice asceticism, there are droves of beautiful girls around them. For them, the value of Transcendent rank follower far exceeds that of merfolk beauties.

The merfolk geniuses formed small circles chatting and laughing together. But at the same time, they exude a faint repulsive force field, refusing Yang Feng to join them.

Unconcerned, Yang Feng walked directly to the dining table, which is filled with rare and exotic fruits, picked up a few fruits, and stuffed them into his mouth crudely.

Jing Bahai was extremely powerful and arrogant, but he never learned etiquette. Yang Feng plays vividly the role of the unbridled and self-centered Jing Bahai.

"Delicious, these merfolk extraordinary fruits are really delicious. These are the tribute of Dulan Imperial Court, it is very difficult to get them in the outside world."

The extraordinary fruits disintegrated in Yang Feng's mouth, and mysterious and wonderful tastes permeated his mouth. At the same time, wisps of strange force nourished his body and soul.

"What a country bumpkin."

"Dulan Imperial Court's high-class ladies are watching. This bumpkin, I'm afraid he won't find a single dancing partner later."

"An uneducated hick."

"..."

The merfolk geniuses watched Yang Feng coldly, and their eyes flashed with scorn and contempt.

On the other side of the courtyard, in a verdant courtyard that seems to be in a different dimension, more than 100 beautiful and enchanting Dulan Imperial Court's high-class ladies, with extraordinary temperaments, cast spells and watched the scenes outside curiously.

Among the more than 100 beautiful and enchanting high-class ladies, six stand out from the rest and exuded powerful auras. The one heading the six beautiful ladies is none other than the first princess. The other five are well-known figures among Dulan Imperial Court's high-class ladies. They are extremely powerful.

"The sea dragon crown prince is really extraordinary. There are more than a dozen followers around him, and each of them is a Moonlight Warlocks."

"That's only natural. After all the sea dragon crown prince is not only a Bright World Warlock, but also the crown prince and future successor of Sea Dragon Imperial Court. There are naturally many followers around him."

"However, although the sea dragon crown prince is good, but his thoughts are focused on big sister first princess and the other five big sisters. He doesn't have eyes for us."

"That's right. I think the heir of the Thunder Giant Eel family is more handsome. Reportedly, he has a plane covered in sea in Astral Boundary!"

"Really? Whoever marries him can take a vacation on that plane covered in sea."

"..."

The high-class ladies watched the Dulan Imperial Court's geniuses through magic screens and laughed and commented spiritedly.

Chapter 783 – Vanquishing the King Whale Third Prince

The Dulan Narcissus Banquet is a place where Dulan Imperial Court's high-class ladies socialize with male merfolk geniuses, and even unite through marriage.

A mermaid with blond hair cried out in alarm, and contempt flashed in her beautiful eyes: "Look at that Jing Bahai, how boorish! He looks like he hasn't eaten anything for days!"

A clam race beautiful girl creased her slim eyebrows: "That's right, he's really boorish. Hicks are just uneducated."

"I heard that he defeated the sea dragon crown prince, so I had some expectations! It seems that it was just a fluke."

"He sneak-attacked the sea dragon crown prince with the secret treasure Dragon Slaying Crossbow and luckily obtained victory."

"So he used the Dragon Slaying Crossbow. I knew he has no skill."

"..."

The high-class ladies stared at Yang Feng with disgust in their beautiful eyes.

Of the six top beauties, a girl with blond hair, a smoking figure, and a horn on the head, smiled and said: "Big Sister Manhan, we're quite dissatisfied with the person you chose! I wonder, why did you choose him? No matter how strong he is, if he does not understand etiquette, he cannot be part of our circle."

The name of the first princess, who is recognized as the No. 1 pearl in Dulan Imperial Court, is Ao Manhan. The other five pearls eye her like a tiger watching its prey and fight her on all fronts.

The beautiful girl with blond hair, a smoking figure, and a horn on the head is Anastasia. She is a peerless genius of the boleman sea ogre snake race.

Boleman sea ogre snakes are a kind of merfolk that live in different planes. They attain Moonlight Warlock rank power upon turning adult. The ultimate form individuals are extraordinary life forms that can evolve into Infinity Warlock rank powerhouses.

The boleman sea ogre snakes have less than 3,000 individuals in the sea dominated by Dulan Imperial Court. But they have eight Infinity Warlock rank ultimate form individuals. They are one of the strongest races in Dulan Imperial Court.

Ao Manhan, looking like an ice queen, said coldly: "Anastasia, since I choose him, I naturally had my reasons."

Anastasia's heart stirred, and her gaze fell on Yang Feng: "Ao Manhan, you have a good eye for people. That boorish guy must have something special about him."

The gazes of the remaining four pearls also fell on Yang Feng, curious.

In the rear garden, the sea dragon crown prince is surrounded by a dozen plus Dulan Imperial Court's merfolk geniuses.

If there are no accidents, the sea dragon crown prince will inherit Sea Dragon Imperial Court. Naturally, there are a lot of geniuses gathered around him.

From time to time, the sea dragon crown prince glanced at Yang Feng, unable to conceal his crazy killing intent. The crushing defeat he suffered at Yang Feng's hands at the entrance of Dulan City is the disgrace of his life.

A handsome and burly man, with a king [1] character rune on the forehead and a glass of Bihai Wine in his hand, said with a smile to the sea dragon crown prince. "Sea dragon crown prince, I'll take revenge for you and give that bumpkin a good lesson."

Enigmatic light shimmered in the eyes of the sea dragon crown prince, and he uttered with a smile: "King whale third prince, be my guest! As long as you help me teach him a lesson, I will consider cooperating with you in the businesses of Black Sheep Sea and Stormrage Sea."

When the king whale third prince heard this, his eyes lit up, and a satisfied smile appeared on his face.

Black Sheep Sea and Stormrage Sea are two seas rich in resources Sea Dragon Imperial Court is occupying. If he could have access to the merfolk markets of the two seas, it would bring the king whale race huge benefits

“You are green whale’s Jing Bahai? To dare attack the sea dragon crown prince, you’re guilty of committing an offense against a superior. Immediately go to the sea dragon crown prince, kneel down, and apologize!”

The king whale third prince strode to Yang Feng, looked at him condescendingly, and uttered frigidly. The king character rune on his forehead flashed, and a terrifying pressure crushed towards Yang.

The king whale race is the king of many other whale races. In the First Warlock Dynasty era, countless whale races were under the rule of the king whale race, and the king whale race was regarded as the royal race. Even in modern days, the bloodline of the countless whale races is still restrained by the bloodline of the king whale race.

Yang Feng is imitating Jing Bahai’s bloodline. When the frightening king whale pressure enveloped him, he trembled and staggered, as if about to kneel on the ground and worship the king whale third prince.

“Who do you think you are? To come annoy me, you must be sick of living!”

A fierce light flashed in Yang Feng’s eyes, and he suddenly erupted with quasi-Bright World Warlock rank power, operated Whale Devour Secret Method, transformed into an archaic dragon whale, and shot towards the king whale third prince without demur.

The king whale third prince barked, both shocked and angry. At the same time, magic shields suddenly appeared and covered him: “Dammit, you dare commit an offense against a superior!”

“Die!”

The archaic dragon whale Yang Feng has transformed into slammed into the king whale third prince with a terrifying force and smashed dozens of his bones. The king whale third prince spewed a large mouthful of blood and hit a wall, his fate unknown.

“His Highness!”

“To dare attack His Highness, what gall!”

“Go to hell!”

“...”

The three guards of the king whale third prince, both shocked and angry, suddenly burst out with Moonlight Warlock rank power, cast secret methods, and attacked Yang Feng from different directions.

“The three of you dare commit an offense against a superior, that’s unforgivable. You shall become part of my collection!”

Yang Feng smiled coldly and flipped his hand, and a level-8 secret treasure Seal Sea Flag suddenly appeared. Three blue seal runes suddenly shot out and hit the three guards of the king whale third prince lightning fast.

The three guards trembled and shrank, and then were forcibly pulled into the Seal Sea Flag.

The sea dragon crown prince frowned, gritted his teeth, and said: “Damn it, that’s my Sea Seal Flag!”

Yang Feng extended his hand, and a whirlpool suddenly surged and sucked in the king whale third prince. He grabbed the king whale third prince, stripped him of all treasures, and then tossed him away like a rugged doll and said with an unruly smile: "Trash, to dare provoke me, you're really overestimating yourself."

Hearing this, the king whale third prince became furious, spewed out a large mouthful of blood, and fainted.

"The king whale third prince is done for!"

"If the king whale third prince can't redeem his dignity, he won't be able to lift his head for the rest of his life."

"What an overbearing guy!"

"..."

The merfolk geniuses looked at Yang Feng with great interest. At the same time, they raised Yang Feng's danger level in their hearts. They aren't willing to provoke such a fierce character lightly.

Yang Feng glanced in the direction of the sea dragon crown prince and his party, and then spoke with a rowdy smile: "You guys, since you're staying next to that waste sea dragon crown prince, then you should be his minions and lackeys! If you have the guts, come and fight me! Of course, if you want to hide your head in the sand like an ostrich, it's up to you. After all, in order to give the first princess some face, I will not take the initiative to beat you up!"

The dozen plus Dulan Imperial Court's merfolk geniuses next to the sea dragon crown prince frowned and looked at the Sea Seal Flag in Yang Feng's hand with apprehension in their eyes.

These merfolk geniuses all have Glorious Sun Warlock rank cultivation bases. Yet none of them has a level-8 secret treasure. Moreover, the cultivation base of most of them is at the junior Glorious Sun Warlock rank. The king whale third prince, who possesses the ability to restrain Yang Feng's bloodline, was defeated by Yang Feng in one exchange. They are naturally apprehensive of him.

"What a let down! To be afraid to fight, are they even men?"

"The king whale third prince was surprisingly one-shotted by Jing Bahai! So much for his reputation!"

"Although this Jing Bahai is a bit rough around the edges, but he is really domineering. I like him!"

"..."

The law of the jungle prevails among the merfolk. Only the strong are respected. Originally, the high-class ladies looked down on Yang Feng's avatar Jing Bahai. However, seeing Yang Feng defeat the king whale third prince and overwhelm the dozen plus Dulan Imperial Court's merfolk geniuses around the sea dragon crown prince, to the point that they don't dare to speak, the general trend changed suddenly. A small number of the high-class ladies became interested in Yang Feng.

"Let's go out!"

Ao Manhan frowned, then silently recited an incantation and pointed with a finger, and ripples enveloped the green courtyard.

In an instant, the green courtyard emerged from the other dimension and appeared in front of the many merfolk geniuses.

Graceful and beautiful high-class ladies appeared in front of the merfolk genius, making their eyes lit up.

The high-class ladies are not only noble in bloodline, but are also very strong. The weakest are Starry Sky Warlock rank powerhouses, and there is no lack of Moonlight Warlock rank existences. Each of the six jewels, even more so, is a Glorious Sun Warlock rank existence, not losing to the men.

Most of the merfolk geniuses have many women, but the only ones who can really become their main wives are those strong high-class ladies with noble bloodline and amazing background.

Ao Manhan, looking like a noble and arrogant goddess, said frigidly: "Jing Bahai, for my sake, stop!"

Yang Feng responded with a smile: "Your Highness, since you have spoken, then I'll let it be."

Chapter 784 – Battle of Followers

Ao Manhan clapped her hands, and the flowers of extraordinary plant Lain Morning Glory in the surroundings suddenly opened. Inside the flowers, there sit thumbs-sized, beautiful flower sprites, holding various musical instruments.

The flower sprites plucked the strings of their instruments, and melodious and beautiful music encircled the area. At the same time, exquisite floral fragrance spread. All this makes this place seem like a fairyland.

Along with the music, the ground in the garden trembled slightly, and plants grew from the ground and transformed into tables. Each one of those tables has white flowers growing from it, which exude beautiful floral fragrance.

When Yang Feng saw this scene, he smiled: "Interesting, the first princess really knows how to enjoy life."

The extraordinary plants were obviously carefully selected and specially cultivated and refined. Only Warlock groups proficient in extraordinary botany and huge power can research those interesting extraordinary plants with ease.

This scene is more fantastic and magical than the scenes in fairy tales. This is the world of Warlocks, a place full of countless extraordinary powers and miracles.

The merfolk geniuses took their seats. Beautiful and cute sea sprites, the size of a palm, with pointy ears, swam over from different direction and brought fine liquor, spirit fruits, cooking of top chefs, and other delicacies, and placed them on the tables.

A handsome and burly young man, with a gold tortoise shield inlaid on his right hand, exuding a confident and domineering aura, smiled coldly and provoked Yang Feng: "Jing Bahai, this is Man Liejiang, an expert from Gold Turtle Sea. He once annihilated a human ship with 1 Glorious Sun Warlock and 13

Moonlight Warlocks in one fell swoop. I recruited him 3 years ago to be my follower! Do you have followers who'd dare to fight him?"

This young man is the gold dragon turtle prince from the gold dragon turtle race, which dominates Gold Turtle Sea. He is one of the merfolk geniuses who are beside the sea dragon crown prince. Apprehensive of the level-8 secret treasure Seal Sea Flag in Yang Feng's hand, he didn't dare to speak out a moment ago. Now that the first princes, Ao Manhan, is present, he wants to strike at Yang Feng by other means.

The gold dragon turtle prince's voice has just fallen, when a burly fellow, as tall as two people stacked one on top of the other, with no hair on his face and body, yet engraved with natural lightning runes, exuding a violent aura, with a fierce face and ominous glints in his eyes, walked out from behind him, stared at Yang Feng, and sneered.

"Followers? How can this bumpkin have any followers!"

"Green Luo Sea the green whale race controls is remote and desolate, do they have anything to attract followers?"

"That barbarian might end up fighting Man Liejiang himself."

"It's possible! But then, even if he wins, he will have lost face. We are Dulan Imperial Court's nobility. If we humble ourselves and fight another's follower, even if we win, we'll still lose face."

"In this world, influence is also part of your strength. Blame the fact that you were born in the wrong place."

"..."

The merfolk geniuses looked at Yang Feng scornfully and revealed curious and pitying expressions.

The battle between followers is a way for Dulan Imperial Court's nobility to show off their influence. People above the Starry Sky Warlock rank are Transcendent rank powerhouses, each of which is a proud individual. Only the top Dulan Imperial Court's merfolk geniuses, with immense resources, can attract followers above Starry Sky Warlock rank.

Yang Feng bit a fruit and replied with a cold smile: "A battle of followers? My follower is very strong! Gold dragon turtle prince, your follower is too weak. He will be killed by my follower in an instant! Are you sure you want your follower fight my follower?"

The gold dragon turtle prince's eyes flashed with freezing light, and he ordered coldly: "What great confidence! Man Liejiang, go kill Jing Bahai's follower. Kill him, and I will give you a Thunder Origin Stone Flower that you always wanted."

"Yes! Your Highness!"

Man Liejiang's eyes brightened, and he smiled grimly and walked to the center of the rear garden.

Ao Manhan pointed with her fair hand, dark green light shone, and a small arena appeared in the center of the rear garden. Man Liejiang stepped into the small arena, stared at Yang Feng with an unruly expression, beckoned with a finger, and spoke coldly: "Jing Bahai, come! Let me have a taste of your green whale race's secret method!"

In the fight at the gate, Yang Feng's avatar Jing Bahai was clearly weaker than the sea dragon crown prince. It's just that Yang Feng successfully used the secret treasure Dragon Slaying Crossbow to seal the sea dragon crown prince's power. The merfolk geniuses don't have any fear of Yang Feng, but they aren't willing to fight Yang Feng and risk defeat.

Yang Feng drank a glass of fine liquor and said indifferently to Marina, who is kneel sitting beside him and serving him like a maid: "Mary, kill him!"

"Yes, my Lord!"

With that, Marina stood up and flipping her hand, and a level-8 secret treasure blue halberd, Ice Blue Sea Halberd, appeared in her hand.

With the halberd in her hand, Marina's temperament suddenly changed, from sensual to warlike.

"The maid, he actually let the maid fight. Does he want her to die?"

"Regrettably, such an excellent maid is about to die!"

"If it's to circumvent the stigma of avoiding a fight, then the life of a maid is more than worth it. But that's really cruel. To have such a girl throw away her life, what an awful guy."

"..."

The merfolk geniuses looked at Marina, and their eyes shimmered with regret. Man Liejiang is a ferocious character who has even killed a Glorious Sun Warlock. Even if Marina is a Moonlight Warlock rank powerhouse, there's no way she'll survive the fight with Man Liejiang.

As for whether she's a Glorious Sun Warlock rank, no one believes that the green whale race, whose rulers, the Green Whale Monarch couple, are just Glorious Sun Warlocks, can recruit a beautiful and powerful female follower of the Glorious Sun Warlock rank.

Glorious Sun Warlock rank powerhouses are rare. The number of merfolk in Dulan Imperial Court doesn't exceed 10,000 trillion individuals. Yet, among the countless merfolk, there are less than 15 Glorious Sun Warlock rank high-class ladies of the younger generation.

"To have a maid who takes care of you throw her life away, what a cruel guy! How vicious!"

"In order to make progress, he can abandon anything! This guy is really cruel!"

"..."

Seeing this scene, the high-class ladies immediately had a bad impression of Yang Feng.

Only the expressions of the six pearls remained unchanged. But there is a solemn shade in each of their beautiful eyes.

Seeing Marina walk into the arena, Man Liejiang became furious at once, and his eyes flashed wildly. He smiled frigidly and said ferociously: "A woman! To let you, a woman, fight me, that damn Jing Bahai is insulting me! Have it your way! When I tear you to pieces and throw you to his feet, his expression will definitely be amusing to watch!"

Marina pointed with the level-8 secret treasure Ice Blue Sea Halberd at Man Liejiang and said coldly: "You talk too much!"

"I'll turn you into charcoal! If you have to blame someone, blame your master for abandoning you!"

There was a flash killing intent in his eyes. Lightning runes shone on Man Liejiang, silver lightning snakes danced, and lightning, that seems to be able to destroy everything, with the law of lightning as the center, formed a huge lightning spear.

Boom!

As if 10,000 claps of thunder erupted in the surrounding sea, bright white lightning, which appears to have filled the space, blasted towards Marina in an instant.

The endless lightning shone and swallowed Marina completely.

"Awesome, this Man Liejiang is really an expert!"

"The law of lightning is indeed one of the most powerful offensive laws. This Man Liejiang, even among us, is a top expert. To be able to recruit such an expert, the gold dragon turtle prince is really capable."

"To be able to recruit a powerhouses of Man Liejiang's caliber, the gold dragon turtle race has deep roots. It is indeed an ancient force that has existed for more than 1 million years."

"..."

The merfolk geniuses gazed at the terrifying lightning, and their hearts shook. Only a few of them would be able to withstand that terrifying blow without relying on secret treasures.

"Trash! Go to hell!"

A dark blue halberd ray shot out from the endless lightning.

Marina, dressed in blue armor that is as thin as a cicada's wings, with a hairpin on the head that is enchanted by various healing spells and a bracelet on her right hand linked to the Ice Blue Sea Halberd, exuding pinnacle Glorious Sun Warlock fluctuations of power, shot out of the endless lightning and flew towards Man Liejiang.

The law of water surged, Marina's figure blurred, and she appeared in front of Man Liejiang, and the Ice Blue Sea Halberd turned into a blue ray that slashed towards Man Liejiang.

"How is this possible!"

Man Liejiang's complexion changed drastically. He didn't expect that someone could be able to escape from his attack. He crossed his arms to block above him, and countless lightning rays intertwined and formed a simple and crude lightning shield.

The Ice Blue Sea Halberd turned into a blue lightning ray, slashed the lightning shield to pieces in an instant, and, without losing momentum, sliced down.

A blue ray of light gleamed, and Man Liejiang was divided into two. His soul attached to the demonic eel core contained in his body was also extinguished by Ice Blue Sea Halberd.

Chapter 785 – Shock

“He was actually slayed!”

“Man Liejiang was actually killed!”

“So strong! That woman is surprisingly a follower of Jing Bahai! What a strong follower!”

“...”

The merfolk powerhouses looked at Marina inside the arena with shock in their eyes.

Man Liejiang was a top figure among Glorious Sun Warlocks. He had mastered the law of lightning. Even among the merfolk younger generation, no more than 20 people could defeat him easily.

The sexy and enchanting Marina has played the role of a well-behaved maid when she was next to Yang Feng, lacking the temperament of a powerhouse. Yet when she entered the arena, her temperament changed, and she easily slayed Man Liejiang. The combat power she displayed is simply heaven-defying.

“Damn it! Those are my level-8 secret treasures!”

The sea dragon crown prince stared at the three secret treasures on Marina, his eyes nearly spewed fire, and he crushed the glass in his hand.

“Level-8 secret treasures!”

“Three level-8 secret treasures, how can a hillbilly like Jing Bahai have so many exquisite secret treasures specially made for women? These must be his spoils after defeating the sea dragon crown prince.”

“Interesting, the sea dragon crown prince shot himself in the foot.”

“...”

When the merfolk geniuses saw the three secret treasures shining brightly on Marina, they suddenly showed knowing smiles and looked at the sea dragon crown prince with pity. They guessed the origin of the three level-8 secret treasures from the sea dragon crown prince’s ashen face.

Yang Feng smiled and uttered overbearingly: “Gold dragon turtle prince, don’t you still have three followers? If you have the guts, have another one of your followers fight my Mary! How about this, I’ll be magnanimous and let your three followers fight her together. What do you think?”

The complexions of the three followers next to the gold dragon turtle prince turned pale.

Man Liejiang was the strongest expert subordinated to the gold dragon turtle prince. He was the only Glorious Sun Warlock the gold dragon turtle prince managed to recruit. The other three are only Moonlight Warlock rank powerhouses.

If the three followers go into the arena, they’ll be instakilled by Marina.

The gold dragon turtle prince stared at Yang Feng with a resentful expression, gritted his teeth, and endured the shame: “I admit defeat!”

A Glorious Sun Warlock rank powerhouse like Man Liejiang is not that easy to recruit. The golden dragon turtle prince paid a great price at the time. Besides, it was only by chance that he managed to recruit Man Liejiang as his follower. Many merfolk geniuses, whose background is not much different from that of the gold dragon turtle prince, only have Moonlight Warlock rank followers.

By killing Man Liejiang, it was equivalent to severing an arm of the gold dragon turtle prince.

Yang Feng smiled coldly, pointed at the merfolk geniuses beside the sea dragon crown prince and uttered words of provocation: "Do you dare send your followers to fight my Mary?"

"I concede!"

"I yield!"

"..."

The merfolk geniuses gathered around the sea dragon crown prince uttered coldly one after another, their complexions ashen.

After all the merfolk geniuses around the sea dragon crown prince conceded, the eyes of the high-class ladies watching from the side lit up, and they became interested in Yang Feng.

Yang Feng's avatar Jing Bahai is a quasi-Bright World Warlock rank powerhouse, only a step away from advancing to the Bright World Warlock realm. And now Marina, who is Glorious Sun Warlock rank expert, has emerged. Yang Feng and Marina together are enough to dominate a sea and suppress a plane.

This is why the merfolk high-class ladies become interested in him.

After he saw the merfolk geniuses beside the sea dragon crown prince concede, Yang Feng sneered: "Mary, come back!"

"Wait a minute!"

A voice sounded. Yang Feng followed that voice, and saw a lanky, handsome young man, with an extraordinary temperament, a dragon horn engraved with lightning runes on the forehead, sitting in a seat.

The handsome young man with a dragon horn is the heir of the one-horned sea thunder dragon family, one of the most powerful merfolk races. Pure-blood one-horned sea thunder dragons possess Glorious sun Warlock rank strength upon reaching adulthood, while ultimate form individuals are Infinity Warlock rank existences.

The entire one-horned sea thunder dragon family has a total of 10 Infinity Warlock rank ultimate form individuals. The family is an influential player in Dulan Imperial Court.

The one-horned sea thunder dragon prince is one of the 10 most influential merfolk of Dulan Imperial Court's younger generation. As soon as he spoke, many eyes focused on him, as if he is the center of the world.

Marina, however, didn't pay the one-horned sea thunder dragon prince's words any heed. Her figure fluttered, and then she appeared next to Yang Feng. Then, the secret treasures on her disappeared, her temperament changed, and she knelt down beside Yang Feng like a charming and gentle maid.

Anger flashed in the eyes of the one-horned sea thunder dragon prince, and he said coldly: "Sha Man!"

A burly man, with shark traces on his face, exuding a frightening aura, stepped forward and replied in a deep voice: "You Highness!"

The one-horned sea thunder dragon prince glanced at Yang Feng and said coldly: "Sha Man is an expert I recruited in Black Forest Sea. He once fought three human Glorious Sun Warlock rank experts for three days before he killed them one by one. Jing Bahai, does your Mary dare come fight my Sha Man?"

"Why is this guy so hostile? I don't remember provoking him!"

Yang Feng frowned, and then aimed his gaze in the direction of the high-class ladies, only to see that their gazes are focused on him and the one-horned sea thunder dragon prince.

Yang Feng quickly guessed what the one-horned sea thunder dragon prince is thinking. "This guy wants to use me as a stepping stone to attract the attention of the high-class ladies. Moreover, my avatar Jing Bahai is so arrogant that it has offended many merfolk geniuses. Suppressing me can gain him the favor of the other merfolk geniuses."

Compared to the vast Dulan Imperial Court, Jing Bahai's place of origin, Green Whale Sea, is equivalent to the sticks.

For a country bumpkin with no background to come to the royal capital, a place of crouching tigers and hidden dragons, and act presumptuously, this naturally rubbed these merfolk geniuses the wrong way.

Yang Feng replied with a cold smile: "Interesting, Mary, go and kill him!"

"Yes! My Lord!"

Marina stood up. Along with flashes of light, the three level-8 secret treasures, exuding formidable fluctuations of power, appeared again.

With every step Marina takes, her aura rises by a large margin. When she entered the arena, her aura rose to the pinnacle Glorious Sun Warlock rank, and wisps of the law of water revolved around her and formed a flood dragon of water. She looks like a goddess of war wielding the authority of the sea.

Angels are divine weapons that receive the influence of the god they serve and hold part of their authority. Marina, as the blazing angel serving the Sea Goddess of War and Martial Goddess Bosana, also wields part of the authorities of the sea and martial.

"So strong! This is the follower of Jing Bahai!"

"She's really strong! This bumpkin Jing Bahai lucked out!"

"If Jing Bahai or his follower can break through and advance to the Bright World Warlock rank, then Dulan Imperial Court will have another noble family."

"..."

The merfolk geniuses looked at Marina with scorching light in their eyes. They would love to snatch her away. Beautiful and strong girls are rare in Dulan Imperial Court. Only the six jewels can match her.

Although Moonlight Warlock rank merfolk powerhouses can receive a title of nobility in the three merfolk imperial courts. However, only Bright World Warlock rank merfolk powerhouses will be sealed as marquis-level nobles. Compared to ordinary merfolk nobles, their influence is on another level.

“Mary, you are my type! Regrettably, your master has offended my prince. So you have to die! What a pity!”

Sha Man stared at Marina with regret in his eyes, then the shark traces on his body shone, twisted, and turned into tens of thousands of runes.

The tens of thousands of runes flashed and changed into gold scale dragon fang sharks the size of three fingers.

The tens of thousands of gold scale dragon fang sharks, which can rip open an Infinity Warlock rank life force shield, formed a gold shark school and swept towards Marina along with a terrifying aura.

In the deep sea, gold scale dragon fang sharks extract the surrounding life magic energy and form a transparent magic membrane. Enveloped by the transparent magic membrane, even a Bright World Warlock’s large area of effect meteorological spell can hardly harm them.

Under the siege of tens of thousands of gold scale dragon fang sharks, even if a few Glorious Sun Warlocks join forces, they will be devoured by the large number of gold scale dragon fang sharks, who have amazing defenses.

“Tornado!”

Marina operated the authority of the sea and waved the Ice Blue Sea Halberd, and a series of tornado-like whirlpools suddenly appeared, swept towards the gold scale dragon fang sharks, and forcibly cleared a path.

A ripple of water flashed, and Marina appeared in front of Sha Man and slashed at the other party with her halberd.

Chapter 786 – Slaying Sha Man

Sha Man roared, and an archaic whale shark projection rose behind him. With the ferocity of a top predator of the seas, disregarding its own defense, the archaic whale shark projection shot towards Marina.

The Ice Blue Sea Halberd turned into a brilliant blue ray, slashed the archaic whale shark and, as if cutting a piece of rag, split the archaic whale shark in two.

The blue ray, its power unabated, slashed Sha Man, and a thin red blood line appeared on Sha Man.

A terrifying force burst out and disintegrated Shaman.

The one-horned sea thunder dragon prince’s countenance changed drastically, and he shouted: “Stop!”

Marina, with a cold look in her eyes, thrust the Ice Blue Sea Halberd into the pool of blood and stabbed Sha Man's magic core with unparalleled precision, and a blue halberd ray formed from the law of water pierced through Sha Man's soul and snuffed it out.

"So powerful! This follower of Jing Bahai is really too powerful!"

"With such fearsome combat prowess, I'm afraid only a Bright World Warlock rank powerhouse can vanquish her!"

"To recruit such a follower, Jing Bahai is really lucky!"

"..."

Seeing Marina slay Sha Man, the eyes of the merfolk geniuses flashed with envy.

The eyes of the one-horned sea thunder dragon prince flickered with rage, and he barked: "Jing Bahai, you dare kill my follower, you've got some balls!"

A shimmer of coldness in his eyes, Yang Feng sneered: "What of it? One-horned sea thunder dragon prince, do you want the both of us to enter the arena and have a fight to the death! I promise I'll send you on a trip to the Netherworld as well!"

With his eyes nearly spouting flames, quasi-Bright World Warlock rank fluctuations of power spread from the one-horned sea thunder dragon prince, and he stood up and said: "Very well! Jing Bahai, you successfully angered me! You shall die here today."

Ao Manhan wrinkled her eyebrows and said coldly: "The Dulan Narcissus Banquet I'm holding is not a place meant for life-and-death duels. If the two of you are going to have a life-and-death duel, please go somewhere else."

In a battle between followers, death is nothing much. But most of the merfolk geniuses here have powerful families backing them. If one of them dies here, it will bring not a small amount of trouble to Ao Manhan.

The one-horned sea thunder dragon prince looked deeply at Yang Feng and said coldly: "You're lucky you get to live a few more days."

Yang Feng smiled coldly and no longer paid the other party attention.

Marina successively slayed two Glorious Sun Warlock rank powerhouses. Although the merfolk geniuses are still dissatisfied with Yang Feng, but no one dares to provoke him. Glorious Sun Warlock rank followers are extremely important combat power for the merfolk geniuses, not cannon fodder that can be squandered at will.

Ao Manhan's cold face surged with dignity, and she uttered in a somber voice: "Heaven and Earth Spirit Root has appeared just like the Time Lord prophesied. And according to another prophecy of the Time Lord, a great tribulation is about to befall Cangzhi Plane. The human Seven Warlock Dynasties have already entered the stage, occupying seven floating continents of the Heaven and Earth Spirit Root. What course should we merfolk take? Please speak your minds."

Yang Feng's heart stirred: "Heaven and Earth Spirit Root? Is that the mystical extraordinary plant that appeared at Time Sky City? They even know of such secret information, the roots of the merfolk are indeed deep."

Battle Demon Sect, which rose together with the other Ten Great Sects in Great Cloud Dynasty, only knows some commonly historical events regarding the Eight Warlock Dynasty eras. This is the disadvantage of new forces.

A tall merfolk powerhouse with eight tentacles said solemnly: "Your Highness, why haven't we heard of the Heaven and Earth Spirit Root and Cangzhi Plane's great tribulation? Can you elaborate on it?"

Most merfolk geniuses also showed looks of curiosity. Only a few people, such as the sea dragon crown prince and the one-horned sea thunder dragon prince, have no change in expression. Clearly, they already know of this.

"According to legend, in his later years, the Time Lord used a unique secret treasure to peep into the sea of time, and then peer into the future from it. He left several predictions. Among them, there is the appearance of the Heaven and Earth Spirit Root and Cangzhi Plane's great tribulation."

"The Heaven and Earth Spirit Root is a treasure that has been in the core world since the time of the Eternal, absorbing the plane's power to grow. Once it is born, it will possess all kinds of magical powers. It is our only hope to weather the great tribulation."

"As for the great tribulation, the Time Lord's words were too vague. But we know that it is a disaster that can even claim the lives of Warlock Emperor rank beings."

"The Time Lord's prediction was too shocking. After countless years, everyone thought that the Time Lord has just made a joke. Unexpectedly, the Heaven and Earth Spirit Root has actually appeared."

Ao Manhan spoke unhurriedly with a solemn expression.

Yang Feng frowned and said silently in his heart: "Can even claim the lives of Warlock Emperor rank powerhouses? This is really a terrifying disaster. If the peerless wonder that is the Heaven and Earth Spirit Root hadn't emerged, I wouldn't believe this prophecy."

Each Warlock Emperor rank powerhouse possesses incredible power. They have mastered an essence to the great circle, and then elevated it to a flawless grade essence. Eternals have grasped a perfect grade essence.

No Warlock Emperor has mastered the same essence. After continuous research, human Warlocks finally made an inference. Before the former Warlock Emperors have died, the essences they mastered have become a part of the laws of the universe. The other beings in the universe can master the same essence to the great circle at most, but they cannot evolve to the Warlock Emperor rank using the same essence.

It is extremely difficult to slay Warlock Emperors. The Seven Warlock Emperors, known as invincible powerhouses, each have killed one or two Warlock Emperor rank powerhouses.

A disaster that can claim the lives of Warlock Emperor rank powerhouses is simply unimaginable. Only the Eternal of legend, which has long since disappeared from the stage of history, can annihilate the Warlock Emperor rank powerhouses.

A merfolk genius sighed with regret: "It would be great if the Heaven and Earth Spirit Root had appeared in the sea!"

Since most merfolk are proficient in the law of water, their combat power exceeds that of human Warlocks of the same rank in the sea. But once they go on land, except for the exceptionally talented powerhouses like the sea dragon crown prince, other merfolk are no match for human Warlocks of the same rank.

Although there are Warlock Monarch rank merfolk powerhouses guarding the three merfolk imperial courts. But they don't dare go to the Heaven and Earth Spirit Root to fight for the control of the branch floating continents. There are two reasons behind this decision. One is that they are worried about the experts of the Seven Warlock Dynasties, the other is that once they come on land, their strength will decrease too much, and they won't be a match for human Warlocks.

The one-horned sea thunder dragon prince uttered solemnly: "I think we should join the First Warlock Dynasty, Time Dynasty! After all, the Time Lord is the first human Warlock Emperor. He grasps flawless grade essence of time, can peer into the sea of time, and foresee the future. By relying on the First Warlock Dynasty, we will be able to seek fortune and survive the great tribulation in the future."

The sea dragon crown prince said slowly: "No! I think we should join Magic Note Dynasty! Magic Note Dynasty is recognized as the dynasty where human Warlocks' secret treasures have reached the pinnacle. Magic Note Dynasty has countless treasures that can enhance our strength. By joining Magic Note Dynasty, we'll be able to quickly increase our strength and improve our survivability during the great tribulation."

Yang Feng responded: "I think no matter which dynasty we join, it should not be Golem Dynasty. Golem Dynasty's foundation is unstable, since only a few Warlock groups have attached to it in the past. It cannot compare to the other Six Warlock Dynasties in terms of strength. I don't think it will survive the future great tribulation."

The one-horned sea thunder dragon prince raised his brows and looked to the side.

A red sea dragon prince, with a crimson dragon scale on the head, got the hint and said with a smile: "Golem Dynasty is one of the Seven Warlock Dynasties. It doesn't lose out to the other Six Warlock Dynasties in terms of depth. Although its foundation is unstable, but if we side with it, we'll definitely get better treatment. Moreover, although the other Six Warlock Dynasties are powerful. But they already have enough human Warlock groups assisting them. Even if we go to them, we won't be able to enter the core of the camp. We'll be easily used as cannon fodder."

When the red sea dragon prince said this, many merfolk geniuses showed thoughtful expressions.

An enigmatic ray streaked across Yang Feng's eyes, and he said: "I still insist on my opinion. It is not a good idea to side with Golem Dynasty. I don't like Time Dynasty and Magic Note Dynasty either. Right, we should join Star Dynasty. The Star Lord is proficient in divination and can see the future. If we join his camp, I can accept it."

The sea dragon crown prince glanced at Yang Feng and sneered: "As sea red dragon prince said, I think Golem Dynasty is a good choice. After all, the Golem Lord is also recognized as one of the seven most powerful Warlock Emperors. If he is still alive, that will be enough to lead us to glory. As for the Star Lord, his strength is only a cut above of the Dawn Lord's. Star Dynasty is really not the best choice."

"Yes, I also think Golem Dynasty is more suitable for us. After all, it is one of the strongest Warlock Dynasties!"

"Golem Dynasty is full of experts. Besides, it has countless golems to act as cannon fodder. We won't need to be cannon fodder. I also think it is more appropriate to join Golem Dynasty!"

"..."

The merfolk geniuses, who have been humiliated by Yang Feng a moment ago, expressed their support for the sea dragon crown prince one by one. No one supported Yang Feng.

Chapter 787 – Empyrean Might, Sea God Royal Court

Yang Feng snickered in his heart, yet his face is gloomy, and he threatened coldly: "Sea dragon crown prince, do you have to oppose me?"

The sea dragon crown prince glanced at Yang Feng contemptuously and sneered: "I just gave my opinion. Besides, there are more people who support my opinion than those who support yours! This shows that your opinion is terrible and foolish."

Another merfolk genius smiled disdainfully, saying: "This is Dulan Imperial Court, not the sticks. Jing Bahai, do you think this is Green Luo Sea, where you can pull the wool over the eyes of people?"

"Jing Bahai..."

Boom!

Just as another merfolk genius wanted to mock Yang Feng, the Nine Leaf Sea Dragon Sacred Heart Lotus suddenly shook violently without warning.

The lotus leaf's floating continent, where Yang Feng and company are located, shook violently, the earth cracked, and countless cracks extended in all directions.

The countless magic barriers on the floating continent shattered amid the vibration, and a large number of extraordinary sea monsters panicked, jumped out from behind the barriers that shattered, and fled in different directions.

The entire floating continent is in chaos, as if the end of the world has arrived.

"What's going on?"

"What happened?"

"..."

In the Dulan Narcissus Banquet, the expressions of the merfolk powerhouses changed drastically. They cast secret methods, and magic shields enveloped them.

A huge shock wave set off by the vibration of the floating continent blasted into the merfolk powerhouses, but it was easily blocked by the magic shields.

“What’s going on?”

An unclear premonition surged in Yang Feng’s heart, and he took out a black mirror linked to countless reconnaissance robots and pressed it.

One after another, images, that ordinary people can’t understand, appeared in the black mirror, then entered Yang Feng’s eyes, and were analyzed and reconstructed by the smart chip into all kinds of images that only he could understand.

He saw that a huge rift, Leading to Abyss, strangely appeared near Dulan Imperial Court.

From the endless Abyss, a steady stream of abyssal fiends emerged and rushed towards Dulan Imperial Court.

Yang Feng watched the huge abyssal rift, stunned by the stupidity and confusion of the abyssal fiends: “Are they here to throw their lives away, or to offer materials?”

As one of the three merfolk imperial courts, Dulan Imperial Court has countless experts, and even has Warlock Monarch rank powerhouses standing guard. They control the Emptyrean grade secret treasure Sea God Royal Court. Even if a Warlock Monarch abyssal fiend comes to the sea, they’ll just be throwing their life away in vain.

Tyrannical auras rose from Dulan Imperial Court, and various strange and powerful sea monsters swam out and attacked the abyssal fiends.

Countless abyssal fiends have just rushed out of the huge rift, when Dulan Imperial Court’s sea monster killed them.

“The node appeared here? You ants, go to hell!”

All of a sudden, a dark nest, spanning tens of thousands of square kilometers, emerged from the deepest part of the abyssal rift.

A cold and cruel voice came from the dark nest, and countless wisps of abyssal force surged. A floor of the endless Abyss collapsed.

A black finger engraved with strange runes, that Yang Feng has never seen before, came out from the abyssal rift and pressed toward Dulan Imperial Court with Holy might.

“Holy Spirit Warlock! This is Holy Spirit Warlock rank power, so strong! It’s too powerful! Even if it is spread across a plane, an attack of this caliber has the power destroy the world, how terrifying!”

As soon as the terrifying black finger appeared, a shadow of death and destruction enveloped the Dulan Imperial Court. Despite how strong he is, even Yang Feng has a feeling of suffocation. He can only barely

ensure that he can escape from the attack of the black finger. But even if he chooses to escape, he'll still take a lot of damage.

Suddenly, Dulan Imperial Palace shone brightly, and a dark blue magic shield appeared in front of the black finger.

Boom!

The dark blue magic shield disintegrated, and Warlock towers withing Dulan Imperial Court issued earth-shattering explosions and collapsed.

The terrifying black finger was also consumed by the confrontation and collapsed directly, and then turned into a large cloud of abyssal aura that corroded an area 1,000 kilometers in diameter of Dulan Imperial Court and turned it into abyssal land.

When the dispirited abyssal fiends entered the abyssal land, they absorbed the abyssal aura and immediately became vigorous and fierce.

The moment that the black finger collapsed, all the creatures in Dulan Imperial Court breathed a sigh of relief. However, the next moment, the majestic voice sounded again and spoke despair-inducing words: "Your Majesty, this subordinate is incompetent and is unable to wipe out this lowly city! Please step in and kill those lowly ants, Your Majesty!"

"Okay!"

A dull voice came from the nest in Abyss and sounded beside the ears of Dulan Imperial Court's powerhouses.

When Dulan Imperial Court's powerhouses heard that voice, their hearts trembled and the heartbeat became disorderly.

Yang Feng's heartbeat suddenly became disorderly, followed by bursts of severe pain and a fishy taste in his throat, and he spurted a mouthful of blood, his eyes filled with shock: "Warlock Emperor! That's a Warlock Emperor rank existence!"

The complexions of the other merfolk geniuses in the Dulan Narcissus Banquet changed drastically, and despair flashed in their eyes.

In the huge abyssal rift, you can see abyssal force being extracted from one floor after another.

A total of ten floors of Abyss collapsed, and countless abyssal creatures, with their abyssal force extracted, screamed miserably and turned into ashes.

A fair palm slowly extended from Abyss. At first, it looked very small, but with every breath of time that passed, it increased geometrically in size.

After a few breaths of time, the fair palm seems to envelop the entire world. Along with a terrifying Emyrean might, which seems to be able to suppress eternity and destroy the world, the fair palm smashed towards Dulan Imperial Court.

"Can't resist it. No matter how I calculate, there is only a dead end!"

As he watched the fair palm in the sky, Yang Feng performed calculations frantically. But no matter how he calculated, the probability of him escaping from the fair palm is 0%. Cold sweat emerged from his back, and wisps of fear rose in his heart.

In the Dulan Narcissus Banquet, the complexions of the merfolk powerhouses changed dramatically, they broke out in cold sweat from their back, and fear filled their eyes. By relying on their Transcendent rank extraordinary senses, they can tell that no matter how hard they struggle, only death awaits them.

Countless Warlock towers inside Dulan Imperial Court shone brightly, and a huge blue shield suddenly appeared and covered the entire Dulan Imperial Court.

When the fair palm slapped the blue shield, the magic shield collapsed like a bubble.

Inside Dulan Imperial Court, hundreds of Warlock towers exploded, and the merfolk powerhouses inside them were blasted to pieces.

The powerful barrier that has guarded Dulan Imperial Court for hundreds of thousands of years collapsed and shattered without resistance.

After the white palm destroyed the powerful barrier, its power was weakened by a fraction. It still crushed towards Dulan Imperial Court with despairing power.

At this moment, from the deepest part of Dulan Imperial Court, 3 overbearing Warlock Monarch and 16 Infinity Warlock rank auras rose.

A crystal-like sphere suddenly flew out, filled with wisps of terrifying Empyrean might, and evolved into a huge world full of sea.

Inside the huge world full of sea, there is a sparkling huge skeleton with a height of 10,000 kilometers, a horn on the head, and four arms, exuding undying aura.

On the huge skeleton, there are a number of exquisite palaces built, each of which is inlaid with the power nodes of the huge skeleton. They are perfectly integrated with the huge skeleton.

This is the Empyrean grade secret treasure Sea God Royal Court!

The black eyes of the huge skeleton suddenly burst out with glimmers of brilliant light, then the right hand of the huge skeleton moved laboriously and struck the fair palm.

Boom!

The fair palm finally collapsed and shattered. The 3 Warlock Monarch and 16 Infinity Warlock rank powerhouses of Dulan Imperial Court spewed out a big mouthful of blood. They were seriously injured.

A huge vibration erupted in Dulan City, and violent shock waves spread in all directions.

Affected by the shock waves, hundreds of thousands of abyssal fiends and Dulan Imperial Court's merfolk soldiers were instantly turned into bloody mists.

More than half of the buildings in Dulan City collapsed, and millions of weak merfolk disintegrated.

After Sea God Royal Court's huge skeleton lost its supply of power, all its majesty disappeared, the world collapsed, and entered a bead that fell into Dulan Imperial Court.

"A pity!"

From the abyssal rift came a voice of regret, and the wisps of Empyrean might disappeared.

Chapter 788 – Five Fiend Grand Dukes

Watching the fair palm collapse and disappear, Yang Feng shuddered involuntarily: "So strong! So this is a Warlock Emperor rank powerhouse. How truly powerful!"

The Warlock Emperor rank powerhouse, who is located who knows where, by drawing the abyssal force of 10 floors of Abyss, nearly wiped out the entire Dulan Imperial Court with a strike. That kind of power is simply appalling.

If the Dulan Imperial Court hadn't stimulated the might of the Empyrean grade secret treasure Sea God Royal Court, then except for the three Warlock Monarch and some Infinity Warlock rank powerhouses, the imperial court would have been obliterated by that attack.

The rift linking the endless Abyss to Cangzhi Plane, is a huge hole that the Warlock Emperor rank entity blasted open.

The immense abyssal force gushing out of the rift eroded the merfolk around the Dulan Imperial Court like poison.

Countless great fiends and abyssal lords shot out from the huge rift and flew towards the Dulan Imperial Court.

Watching the dense crowd of abyssal fiends, Ao Manhan's eyes flickered coldly, and she shouted bravely: "Everyone, for our and our races' sake, please step in and wipe out those abyssal fiends!"

"But of course!"

"These abyssal fiends only know how to destroy and kill! They must not be allowed to enter the Dulan City!"

"..."

The merfolk aristocrats stood up one by one, released fearsome auras, and shouted sternly.

Transcendent rank fluctuation of power spread out, and the merfolk aristocrats turned into blue rays of light that shot to intercept the abyssal fiends.

Blue law of water surged, and Yang Feng turned into a blue ray of light and shot towards the abyssal fiends. At the same time, he swept the Dulan Imperial Court with a glance.

"Although the the Dulan Imperial Court's merfolk aristocrats are a bit arrogant, but they haven't been completely corrupted. They have strong combat power!"

One after another, savage sea extraordinary life forms suddenly appeared around the Dulan Imperial Court, displayed all kinds of powerful innate abilities, and devoured the abyssal fiends.

Attacked by the sea extraordinary life forms, the great fiends scattered like ants. Abyssal lords below the marquis rank, besieged by the merfolk aristocrats, were blown to piece.

From the continents supported by the Nine Leaf Sea Dragon Sacred Heart Lotus, one after another, merfolk armies flew out. These merfolk are riding all kinds of fierce sea monsters, each of which exudes Starry Sky Warlock rank fluctuations of power. There are even many sea monsters exuding Moonlight Warlock rank fluctuations of power.

As the dense swarm of abyssal fiends gushes out from the rift, it is being wiped out by the merfolk powerhouses.

Yang Feng operated a secret method and transformed into an archaic dragon whale. The archaic dragon whale opened its maw, and a crowd of abyssal fiends was sucked into the maw and crushed.

Marina, with the Ice Blue Sea Halberd in hand, guarding beside Yang Feng, released halberd rays that slashed the abyssal fiends that approached to pieces.

A jet black sword ray containing endless dark force shot out of the rift and slashed a 100-meter-long sea dragon snake beast, which has a dragon horn on the head and dragon teeth and exudes Glorious Sun Warlock rank fluctuations of power.

The black sword ray easily slashed through the sea dragon snake beast's scales, than ran through it and cut it into two.

The sea dragon snake beast possesses extraordinary regeneration ability. But due to the erosion of the dark force contained within the black sword ray, its flesh withered, and its vitality was wiped out. After a few twitches, it turned into a corpse.

The complexion of the merfolk powerhouses, who have engaged in the fierce fighting, changed drastically, and they cast defensive secret methods. At the same time, they slowly backed away.

The eyes of the Dulan Imperial Court's powerhouses focused on the rift.

An extremely beautiful woman, with long, wavy blond hair, spread out fallen angel wings on the back, a smocking hot body, snow-white skin, wearing an armor formed from dark force, exuding a coquettish temperament, flew out from the rift, and pinnacle Infinity Warlock rank fluctuations of power spread from her.

A stunning woman, with short purple hair, spread out fallen angel wings on the back, a sexy figure, a steadfast temperament, flew out of the rift, and pinnacle Infinity Warlock rank fluctuations of power spread from her.

A mesmerizing woman, with long black hair, spread out fallen angel wings on the back, a curvy figure, silk-like skin, exuding an elegant and noble temperament and a sparkling luster, flew out of the rift and exuded pinnacle Infinity Warlock rank fluctuations of power.

In addition to the three fallen angels exuding pinnacle Infinity Warlock rank fluctuations of power, six fallen angels exuding pinnacle Bright World Warlock rank fluctuations of power flew out and stood proudly in the void.

An abyssal castle, pulled by three Bright World Warlock rank abyssal dragons, exuding fearsome abyssal aura, flew out of the abyss.

Above the outwall of the abyssal castle, there are fallen angels exuding strong fluctuations of power flying everywhere.

At the top of the abyssal castle, on a huge throne made of countless treasures, there sits a person. This person is Grand Duke Poydul, the lord of the 666th floor of the endless Abyss.

The fallen angels are the invincible fallen angel legion subordinated to Poydul.

Yang Feng looked at Poydul with a dignified look in his eyes: "How terrible, I even met Poydul. It looks like the Dulan Imperial Court may fall! The Dulan Imperial Court's three Warlock Monarchs, who operated Sea God Royal Court, seem to have suffered a tremendous backlash. After all, their opponent was a Warlock Emperor rank entity."

Although Poydul is only a pinnacle Infinity Warlock rank existence, but he is very cunning. He won't fight a battle that he has no chance of winning. Even if he has to give up many opportunities, he won't take action lightly. But once he makes a move, he is sure to win. The fallen angel legion under his command has an impressive military record. It has killed two Warlock Monarch rank powerhouses.

For a guy as cunning as Poydul to appear on the battlefield, it means that the Dulan Imperial Court is in dire straits.

"That is Grand Duke Poydul, the lord of the 666th floor of the endless Abyss!"

"Why did he come out?"

"He brought the his fallen angel legion's three marshals as well!"

"He means business! He even brought his fallen angel legion's three marshals!"

"..."

When the merfolk powerhouses saw Poydul and the three pinnacle Infinity Warlock rank blazing angels around him, their complexion changed drastically.

After years of campaigning, Poydul's fallen angel legion has grown into ten legions. Among them, the commander of the 1st legion is Agnipe, the commander of the 2nd legion is Knarissa, and the commander of the 3rd legion is Besskya. They are known as the three marshals, each of which is an Infinity Warlock rank powerhouse and possesses combat power that surpasses that of Poydul by far.

In addition, the remaining six legion commanders are pinnacle Blazing angels. Among the ten legions, there is not a small number of Bright World Warlock rank angels.

The dense cluster of fallen angels suspended in the sea exudes terrifying dark energy.

Endless abyssal force, under an invisible rule, spewed out from the rift, eroded a track of the sea and turned it into an abyssal area. Polluted by the abyssal force, the area's seawater emitted a rancid smell.

"Even with Warlock Emperor rank power, opening up a channel between the endless Abyss and the Cangzhi Plane consumes a lot of resources and power. This channel can only exist for one day at most.

This is only enough for the abyssal fiends to destroy the Dulan Imperial Court. If they don't leave in time, they will be stranded here. To send the abyssal fiends here, that powerful being must be scheming something big!"

Yang Feng watched the huge fallen angel legion calmly. With his perspective as an outsider, he quietly analyzed the situation.

As one of the three merfolk imperial courts, the Dulan Imperial Court is very important to the merfolk. The three merfolk imperial courts even placed the Empyrean grade secret treasure Sea God Royal Court here to guard this place. But to Yang Feng, this is just a foreign place. Even if it is destroyed, it won't affect him. He can get away from here at any time. Even if he can't get the Brilliant Holy's head, it won't be much of a loss to Yang Feng.

As soon as the huge fallen angels legion flew out, it flew to guard the castle where Poydul is located in.

From the rift, a stream of abyssal fiends flew out and rushed towards the merfolk powerhouses like a tide.

The merfolk powerhouses can only fight the abyssal fiends while staying wary of Poydul's fallen angel legion.

Suddenly, a dense crowd of bakt fiend flew out of the rift. A bakt fiend grand duke, exuding pinnacle Infinity Warlock rank fluctuations of power, flew out of the rift as well. Standing aside, they coldly watched the abyssal fiends being slaughtered by the merfolk.

Chapter 789 – Bronze Gate

Countless horned crawled out of the rift and formed a uniform fiend legion. Exuding frightening auras, they guarded a three-meter tall, handsome grand duke rank gold horned exuding a domineering aura.

The rift trembled slightly, and one after another, abyssal dragons, who are beings at the top of the endless Abyss, flew out. They are guarding two grand duke rank abyssal dragons.

The bakt grand duke, the horned grand duke, and the two abyssal dragon grand dukes exchanged a look. Then, in a tacit understanding, stood aside, wary of Poydul.

Abyssal fiends, which are chaotic and brutal in nature, like to massacre each other. If these grand duke rank abyssal fiends show a flaw, Poydul won't mind stabbing them in the back and taking everything of theirs.

When the two abyssal forces appeared, they didn't take the initiative to attack the Dulan Imperial Court, but looked at each other full of suspicion.

Poydul took a deep look at the Dulan Imperial Court, apprehension shimmered in his eyes, and he said unhurriedly: "Dulan King, you guys have received a huge backlash! You can't keep the Dulan Imperial Court! If you leave immediately, I can let you leave here safely."

The hearts of the merfolk aristocrats stirred when they heard that.

The Dulan Imperial Court has taken great damage due to the attack of the Warlock Emperor rank entity. The countless magical buildings in the Dulan Imperial Court have collapsed, with only the continents the Nine Leaf Sea Dragon Sacred Heart Lotus sustains remaining

Even if they give up the Nine Leaf Sea Dragon Sacred Heart Lotus, then a few days later, after the three Warlock Monarchs recover, they will easily recapture the Nine Leaf Sea Dragon Sacred Heart Lotus.

A bold and vigorous voice came from within the Dulan Imperial Court: “No way! Poydul, if you take your fallen angel army to wipe out the abyssal fiends around here, I will give you a King Fiend Heart. You have been trapped in the grand duke realm for hundreds of thousands of years already. With the King Fiend Heart, you can break through your bloodline shackles and evolve into an abyssal king!”

“King Fiend Heart! They have such a treasure! It’s indeed one of the three merfolk imperial courts!”

“Fiend demon heart! If I can get it, I’ll have a chance to break through and become an abyssal king!”

“...”

When the abyssal grand dukes heard the name King Fiend Heart, their eyes lit up and flickered with greed.

King Fiend Heart is a kind of secret treasure that, by absorbing all the power of an abyssal king, human Warlocks have forged.

If a pinnacle abyssal grand duke fuses a King Fiend Heart with their own heart and slowly refines it, they’ll have a chance to break the bloodline shackles and become an abyssal king.

The endless Abyss is an existence formed from the negative force of the universe, it has given birth to many formidable beings, including Holy Spirit Warlock and Warlock Emperor rank beings.

However, the human Eight Warlock Dynasties have all quelled the beings of the endless Abyss at some point. Every time a human Warlock Emperor rises, the endless Abyss will be suppressed, and countless experts will die, including experts above the Infinity Warlock rank.

If an Infinity Warlock rank abyssal lord like Poydul goes into hiding, they’ll have a chance to survive. After all, the Eight Warlock Emperors won’t spend a lot of time searching the entire endless Abyss for a mere Infinity Warlock rank abyssal lord. As for Holy Spirit Warlock rank abyssal lords, even if they have to comb the entire Abyss, Warlock Emperors will take action and slay them.

After those eight catastrophes, most of the newly-born abyssal lords are at the Infinity Warlock realm at most.

The King Fiend Heart, which is the spoils the Eight Warlock Dynasties have obtained after quelling the endless Abyss, ultimately fell into the hands of the Dulan Imperial Court and became part of their collection. Although the King Fiend Heart possesses tremendous power, but only abyssal fiends can use it.

After Poydul heard the term King Fiend Heart, his heart was stirred and his eyes flashed with a scorching shade. He, who has been an abyssal grand duke for hundreds of thousands of years, has consumed countless treasures of heaven and earth, yet he was still unable to progress. If he gets the King Fiend Heart, he’ll have a 90% assurance of evolving into an abyssal king.

Poydul sighed with regret: "I really want the King Fiend Heart. If it was in the past, I might have taken your offer. However, you have seen the power of that great entity. I can't resist them!"

The four abyssal grand dukes, who are wary of Poydul, showed thoughtful expressions, and their hostility towards Poydul lessened.

Poydul suggested: "Everyone, let's join forces to extinguish their resistance and complete His Majesty's order. As for the King Fiend Heart, it will go to whomever snatches it. What do you think?"

"Fine!"

The four abyssal grand dukes exchanged a profound look, and then said.

Under the orders of the five abyssal grand dukes, the fallen angel legion, the bakt abyssal fiend legion, the horned legion, and the abyssal dragon legion attacked the Dulan Imperial Court like a tide.

The eight pinnacle Infinity Warlock rank abyssal beings, exuding fearsome auras, coldly watched the abyssal fiends fighting with the merfolk powerhouse.

Originally, since the sea is the domain of merfolk, abyssal fiends should be at a complete disadvantage. However, now that this track of sea has been polluted by abyssal force, the sea water has been transformed into a strange existence with the same nature as the abyssal river.

Although, unlike in the Abyss, the abyssal fiends cannot obtain a boost from abyssal force, but they are also not being weakened by the sea water's resistance. They engaged the merfolk powerhouses in a desperate fight.

A black ripple surged, and Agnipe, one of Poydul's three marshals, the commander of the first legion, strangely appeared behind the one-horned sea thunder dragon prince and slashed at him with her sword.

"Save me!"

The complexion of the one-horned sea thunder dragon prince changed drastically, he let out a roar, and the level-8 secret treasure Sea Blue Turtle Shield suddenly flew out.

A 100-meter-long extraordinary life form sea blue turtle formed from runes suddenly appeared. The sea blue turtle is a sea extraordinary life form with the strongest defense. The shell of a Bright World Warlock rank sea blue turtle can withstand Infinity Warlock rank attacks.

The black Fallen Angel Sword twisted and, from an incredible angle, from a weak point of the Sea Blue Turtle Shield's barrier, cut open the barrier and slashed the one-horned sea thunder dragon prince.

A bloody line appeared on the one-horned sea thunder dragon prince. In the next moment, dark force erupted and corroded the one-horned sea thunder dragon prince's body and soul, and he died.

"The one-horned sea thunder dragon prince was killed!"

"Instakilled!"

"Who can block her!"

“...”

Seeing this scene, the blood of the Dulan Imperial Court’s merfolk powerhouses ran cold. The one-horned sea thunder dragon prince was a pinnacle Glorious Sun Warlock with many powerful secret treasures. Yet such a powerhouses was instakilled by Agni. The morale of the rest of the merfolk powerhouses took a nosedive.

“If the Dulan Imperial Court’s Infinity Warlocks don’t step in, then I’ll withdraw!”

The archaic dragon whale above Yang Feng disappeared, then a blue chain formed by the law of water swept an abyssal fiend and crushed him into pieces. His quasi-Bright World Warlock rank fluctuations of power were suppressed to the junior Moonlight Warlock rank.

From the Dulan Imperial Court came the Dulan King’s voice: “Since you want that thing, then I’ll give you what you want!”

The Nine Leaf Sea Dragon Sacred Heart Lotus burst out with countless rays of light, and a bronze gate with numerous mysterious runes and two ferocious evil ogres carved on it appeared above the Nine Leaf Sea Dragon Sacred Heart Lotus.

Wisps of ancient, tyrannical, and terrifying aura slowly diffused from the bronze gate.

“We withdraw!”

The voice of Dulan King suddenly sounded, and sea beasts exuding terrifying auras swam away from the Nine Leaf Sea Dragon Sacred Heart Lotus.

From atop of a 1,000-meter-long sea dragon, the three Warlock Monarchs and sixteen Infinity Warlock rank powerhouses of the Dulan Imperial Court watched Poydul and the other abyssal grand dukes coldly.

Beside the nineteen existences, there are also 160 plus Bright World Warlock rank merfolk powerhouses. The 160 plus Bright World Warlocks rank merfolk powerhouses have pale faces. Evidently, they have also received a backlash just now.

Poydul and the other four abyssal grand dukes narrowed their eyes, and apprehension shimmered in their eyes.

Agni’s figure fluttered, and she appeared beside Poydul, looking at the three Warlock Monarchs with a vigilant expression.

If it weren’t for the fact that the three Warlock Monarchs and 18 Infinity Warlocks are heavily injured, these abyssal grand dukes would not dare to covet the Dulan Imperial Court.

Chapter 790 – Tomb of the Death Lord

Strange light flashed in Yang Feng’s eyes: “The target of the abyssal fiends is the things behind that bronze gate!”

“Behind this bronze gate is the tomb of the 5th Warlock Dynasty’s Death Lord. If you want to have a taste of the Death Lord’s means, you might as well go in!”

Countless runes flickered in the eyes of the Dulan King and formed a strange rune double pupil. He pointed at several empty places and sneered: "We withdraw!"

Yang Feng glanced at those empty places, and an enigmatic ray flashed in his eyes.

Relying on the terrifying scanning ability of the Phantom Ruler, Yang Feng had long since noticed that there are powerful Infinity Warlocks hidden in the surroundings.

Blue rays gleamed, and the merfolk powerhouses slowly withdrew from here under the lead of the Dulan King.

The five grand dukes restrained their subordinates and let the merfolk powerhouses leave.

Although the Dulan King and the other two Warlock Monarchs were seriously injured, but the Dulan Imperial Court still possesses terrifying combat power. If the five grand dukes decided to make the Dulan Imperial Court's people stay here, both sides would suffer, with the victor being an uncertainty.

Since the Dulan King doesn't want the roots of the Dulan Imperial Court pulled out, he gave way. After all, although the three merfolk imperial courts are comrades, but they also secretly fight in private. Once the Dulan Imperial Court is weakened too much, the remaining two imperial courts won't mind annexing it.

When the Dulan Imperial Court's merfolk retreated, Poydul took a deep look at the ancient bronze gate with expectation, excitement, fear, and other complex emotions in his eyes.

As the tomb of the 5th Warlock Dynasty's Death Lord, there must be countless precious and mysterious treasures hidden inside. By the same token, there must be great dangers concealed inside. This is the reason behind Poydul's mixed feelings.

As the merfolk powerhouses evacuated, they looked towards the bronze gate with peculiar rays in their eyes.

That is the tomb of the Death Lord, a place filled with treasures. The human Eight Warlock Emperors quelled countless planes, plundered an astronomical amount of wealth, and used countless resources to achieve the reputation of strongest Warlock Emperors.

After the fall of the Eight Warlock Emperors, no one has ever discovered their tombs. Now that the tomb of the Death Lord appeared, greed welled up in everyone's hearts.

Following flashes of faint light, one after another, the Dulan Imperial Court's merfolk aristocrats disappeared from the large merfolk army.

The Dulan King, who saw all this, sneered in his heart. He didn't stop the merfolk aristocrats from leaving. Since the Dulan Imperial Court's three Warlock Monarch, sixteen Infinity Warlock, and 100 plus Bright World Warlock rank powerhouses are all severely injured and can no longer activate the Empyrean grade secret treasure Sea God Royal Court, the deterrence they have against the merfolk aristocrats has fallen to the lowest point. As such, the departure of these merfolk came as no surprise to him.

Yang Feng's heart stirred as well. He operated the Phantom Ruler, and wisps of strange fluctuations of power enveloped him and Marina, and their auras disappeared completely.

At the moment when Yang Feng and Marina's auras disappeared, Agnipe suddenly wrinkled her eyebrows and glanced in the direction where Yang Feng and Marina disappeared.

Poydul asked: "Agnipe, what's wrong?"

Agnipe responded coldly: "The auras of two merfolk aristocrats disappeared from my perception!"

Poydul uttered with a smile: "To be able to hide from your perception, it seems that the two merfolk aristocrats have some mysterious secret treasure. After all, merfolk have been in control of the Cangzhi Plane's seas for countless years. It's not unusual for them to have such secret treasures."

Agnipe, as the first marshal of Poydul's fallen angel legion, is far stronger than Poydul himself, and this is also true for her perception ability. Even if it is an Infinity Warlock, it is difficult for them to hide from her senses.

However, the Eight Warlock Dynasties have developed countless mysterious secret treasure. In the 7th Warlock Dynasty, the Magic Note Dynasty, they even had secret treasures that could enable an ordinary level-1 Warlock disguise themselves as an Infinity Warlock.

In this weird world of Warlocks, anything can happen. Poydul naturally couldn't be overly suspicious just because Yang Feng's group of two disappeared. That would only be detrimental.

Agnipe nodded.

Poydul said to a few empty places: "The ones hidden over there, please show yourselves. If you don't show yourselves, we won't be able to open the gate."

A series of sound waves swept towards those places.

Following ripples, a powerhouse covered in a black robe and enveloped by black aura, which distorted the space and made it impossible to see their appearance, suddenly appeared and pointed with a finger, and a sound wave collapsed.

Under the impact of the sound waves, one after another, powerhouses suddenly appeared. But thanks to secret treasures that masked their appearance and aura, it is impossible to see their true colors.

A total of ten Infinity Warlock rank powerhouses appeared.

"Ladies and Gentlemen, how did you learn that we will take action against the Dulan Imperial Court today? Right, you may have avatars in the endless Abyss, and their status should not be low. You may have been recruited by that great entity. Or, with your status in the world of Warlocks, coupled with all kinds of intel, you may have guessed the details of this operation. Regrettably, due to your selfish motives, you hid the information on the tomb of the Death Lord. Moreover, you may have also joined forces to seal the information channels of the merfolk, which allowed us to easily defeat the Dulan Imperial Court."

The cunning Poydul, in a few words, guessed the truth and exposed the dark secrets of these Infinity Warlocks.

An existence shrouded in black gas, which distorted their surroundings, said coldly: "Open the gate, let's go in together!"

“Before we go in, let’s first dispose of the little bugs around here!”

Poydul smiled, then took out a black mirror inlaid with nine eyes and pointed it at an empty place.

With a flash of black light, a merfolk aristocrat emerged, a painful expression on his face. Exposed to the black light, he issued miserable screams as he evaporated and turned into a magic core.

Smiling grimly, the figure of the bakt grand duke shook, and he suddenly appeared in an empty area, stabbed the chest of a Glorious Sun Warlock rank merfolk aristocrat with a hand, scooped out the heart, and devoured it in one bite.

The Infinity Warlocks, who are masked by secret treasures, also attacked. A series of weird and powerful spells blasted the hidden merfolk aristocrats to smithereens.

Along with flashes of light, the merfolk aristocrats, who were hidden in the area, fled in all directions.

The Infinity Warlocks, nevertheless, cast a variety of powerful spells, killed the merfolk aristocrats one after another, and plundered their remains.

Since each of the merfolk aristocrats is a Transcendent rank powerhouse, they can be regarded as small mobile treasuries. Originally, since they were under the protection of the Dulan Imperial Court, the Infinity Warlocks didn’t dare to kill them lightly. But now that they left the protection of the Dulan Imperial Court, the Infinity Warlocks naturally attacked them without restraint.

An Infinity Warlock concealed inside green light said coldly: “Okay, let’s begin!”

“Let’s!”

Poydul smiled and clapped his hands.

The fallen angel legion caught thousands and tens of thousands of abyssal fiends, placed them in front of the ancient bronze gate, and slashed with their swords.

With the abyssal fiends decapitated, a large amount of blood splattered on the ancient bronze gate.

The mouth of the two evil ogres, who have their eyes and mouth closed, carved on the ancient bronze gate, suddenly moved slightly and sucked the almost endless amount of blood.

The corpses of the abyssal fiends were quickly drained of blood and turned into withered sacks of bones.

The mouths of the two evil ogres look like boundless dark pits. The desiccated carcasses were piled up into a mountain in front of the bronze gate, and then removed, rinse and repeat.

After devouring the blood of 1 million abyssal fiends, the two evil ogres carved on the ancient bronze gate opened their eyes and inhaled.

The discarnate souls of the 1 million abyssal fiends poured into the mouths of the two evil ogres like tides and made a series of creepy screams.

After devouring the discarnate souls, the two evil ogres made noises and extricated themselves from the bronze gate.

An eye on the forehead of an evil ogre opened suddenly, and it emitted a strand of Empyrean might. At the same time, it made a world-shaking roar: "What guts!"

Amid that world-shaking roar, the 18 Infinity Warlock rank existences trembled, and all of their magic shields collapsed.

The Phantom Ruler behind Yang Feng trembled, and then collapsed and disappeared, making Yang Feng and Marina reveal themselves.
