

The Mightiest Little Peasant Chapter 2033

In the cave abode, Tang Hao looked at the divine medicine that had just been born. He was shocked.

His herb field had never produced a single godly herb.

Godly medicine was different from ordinary spiritual medicine. Not only did it require sufficient immortal Qi, but it also had a certain relationship with the environment. It was very difficult for it to be born in a Sealed Cave abode.

But now, right in front of his eyes, a godly medicine was born!

He looked at the girl, his eyes getting brighter and brighter.

This divine herb was indeed a rare divine item. It was simply too miraculous. The reason why so many divine herbs could be produced on this mountain peak outside was probably related to this divine herb.

“I’m rich! I’m rich!”

Tang Hao was extremely excited.

With this little girl around, the shortage of celestial water was perfectly resolved. The same amount of celestial water could be two or three times more effective in the hands of this little girl. Moreover, with her around, he could continuously produce divine medicine.

Tang Hao was excited just thinking about it.

Godly medicine was more effective than ordinary spiritual medicine. In the future, his cultivation speed would be even faster. Not only him, but the entire creation sect would benefit.

Also, the divine fruit of creation’s growth cycle would be greatly shortened. This way, he would be able to produce more divine pills of creation and create more divine bodies of creation.

“No matter what, we have to make this girl stay!”

Tang Hao was already thinking about how he could trick the girl into working for him willingly.

“Little girl, you ... What’s your name?”

Tang Hao smiled warmly.

The girl shook her head.

“No name?” Tang Hao was surprised.

However, after thinking about it carefully, it made sense. No one had lived on this heavenly Peng mountain for a long time. This immortal herb was probably born after the heavenly Peng mountain was abandoned. Naturally, it had no name.

“How about this, I’ll give you a name.” Tang Hao said.

The girl still shook her head. She looked at Tang Hao with a hint of disdain.

She walked up to Qin Xiangyi and called her “sister” sweetly. Qin Xiangyi’s heart almost melted when she saw her black, lively eyes blinking.

“Good! I’ll give you a name. In the future, you’ll be called Xian Yun! I’ll call you baby Yun!”

“Yun Baobao! Alright! Good!”

Tang Hao grinned when he saw that. The little girl had actually given him the cold shoulder earlier. However, that was good too. She would be closer to sis Xiangyi, so she would naturally stay.

He was not worried that the girl would pose any threat to sis Xiangyi. She was transformed from a divine herb, so she was completely different from ordinary plant demons.

He left all the celestial water on him and left the cave.

He looked outside and saw that the group of old monsters were still staring at him from a distance.

“Forget it, let’s not care about them!”

Tang Hao mumbled.

He had no way to deal with these seven tribulations.

“Continue collecting herbs! After we’re done, we’ll go to another mountain peak. There must be other treasures there.” Tang Hao said to Zao Huazi and the others.

In his heart, he remembered the few drops of blood that the mysterious old man had mentioned.

After waiting for so long and seeing that the group of 7th tribulation cultivators didn’t make a move, Yun qingzi and the others were relieved. They flew out of the ship and continued to collect the spirit herbs.

After another half an hour, the mountain peak was almost completely searched.

After all, they were not the only ones here. There were many other clans, sects, and even clans from the untainted land. Those who had been snatching the celestial medicine above had joined the team to collect the divine medicine after the celestial medicine was taken.

With so many people searching together, no matter how many treasures there were, they wouldn’t be enough to split.

Moreover, there were still many seventh tribulation cultivators who took action and collected a large amount of spiritual medicine. The divine medicine was gone.

“It’s almost time!”

The ship landed at the foot of the mountain. Tang Hao looked around. There were only a few spirit herbs left. The rest had been plundered.

Tang Hao used his divine will to summon his two clones and his souls.

“Fellow Daoist! What a great harvest!!”

The origin core avatar flew over and landed on the deck, laughing out loud.

He was wearing a green godly armor and holding a golden war spear. He was covered in blood, and it was obvious that he had been through many battles.

Soon, the second clone arrived with a smile on his face.

“Fellow Daoist! I’m rich!”

“So many godly medicines!”

When the group of souls returned, the ship became extremely lively and noisy, like a vegetable market.

“This kid, how did he get so many split souls!”

In the sky, the group of old monsters’ eyelids twitched as they watched. They were a little shocked.

With their cultivation levels, splitting their souls was not a difficult task. It was not a problem to split hundreds or thousands of them. However, this kid had split thousands of souls. They were so densely packed that they were simply uncountable.

They had also seen the performance of this group of split souls just now. They were even more terrifying than locusts.

“This kid ... He has so many treasures!”

Many old monsters stared at the two avatars with burning eyes.

These two avatars were top-notch in the world. This was especially so for the avatar that was formed from the heaven Earth Yuan embryo. It was something that even seven tribulations old monsters like them would drool over. The other avatar was not ordinary either. It was the Yao clan’s Lotus body. It was an avatar that the Yao clan had created by imitating the sacred lotus body.

“Hmph! These treasures will be mine sooner or later!”

Sir God Wu Ling’s eyes burned with desire as he snorted.

On the warship, Tang Hao received the loot from the two clones and the souls.

Tang Hao opened the Rings and scanned them with his divine will. He was overjoyed.

The Rings were filled with spirit herbs and divine herbs. The dazzling light from the treasures dazzled Tang Hao's eyes.

He couldn't even count how many divine herbs there were in the ring, and he couldn't be bothered to count them. With a thought, the divine herbs in the ring flew out one by one towards the origin core clone.

"Fellow Daoist! These are all for you!"

Tang Hao said.

"Thanks!"

The avatar was connected to him mentally, so he naturally knew what he meant. He immediately sat down cross-legged and opened his mouth. The divine herbs were sucked into his mouth one by one. As soon as they entered his stomach, they dissolved and turned into pure immortal Qi, which he absorbed.

As he sat there, his body glowed with a dazzling golden light, and his aura rose sharply.

Tang Hao opened One Ring after another and took out the divine herbs from the storage bags. He then gave them to the cultivators.

If it was in the past, he would definitely have refined these divine herbs into pills so that he would not waste them.

But now, he was so rich that he didn't care about wasting a little. He had collected two to three hundred divine herbs before. In addition to his two clones and many souls, he had at least seven to eight hundred divine herbs.

Moreover, he could now produce godly medicine by himself, so he didn't feel any heartache.

One, two ...

In just a short while, he had consumed 100 divine herbs. The aura of the origin core clone skyrocketed, and he successfully advanced from the early stage of the sixth tribulation to the middle stage.

After that, he moved on to the later stage.

"It's too fast!"

"So this is the origin core of heaven and earth! The first origin embryo in the world! There's no other body in the world that can compare to him in terms of the speed at which he can absorb spiritual essence. What's more terrifying is that this body has no cultivation threshold at all. As long as there are enough resources, it's possible to become an immortal in a single step."

The Group of Seven tribulations exclaimed one after another as they watched in horror.
