

The Mightiest Little Peasant Chapter 2200

In the vast outer space, a large ship was speeding.

On the ship, many figures stood still. Each of them had a deep aura and was shining with immortal radiance. All of them were at the seventh tribulation.

They looked into the distance, their expressions somewhat excited.

In front of them, in the depths of the void, was the ancient dragon clan's graveyard. Buried there were countless true dragon corpses!

"Hahaha! Brother ye was quick-witted and immediately stopped when he saw that the kid had succeeded. He turned to chase after the old monster and successfully obtained the secret. Otherwise, we would have returned empty-handed!"

"It's all thanks to brother ye that we were able to capture that old demon. This time, brother ye's contribution is the greatest!"

The medicine master and the rest retracted their gazes and looked at the night Lord, laughing out loud.

"I knew it. This old monster Fu long is extremely cunning and full of tricks. How could such an old monster be willing to hand over the treasure in his hand so easily? so, when I saw him hand over the treasure so easily, I knew something was wrong!"

"As expected, this old demon has already cracked the secret and memorized it. To him, that scroll is no longer useful. Throwing it out will attract the attention of the pursuers, allowing him to escape and come to the outer space to search for treasures."

"But he's too unlucky to have run into us ..."

The night patriarch laughed out loud and was quite pleased with himself.

"This old demon schemed, but he didn't expect us to benefit in the end!" The medicine master laughed. "Now, although that kid has obtained the scroll, it contains the ancient language of the dragon clan. I'm afraid it won't be easy for him to crack it."

"That's right. It will take them some time to crack the scroll, but we've obtained the secret information directly from the old monster and know the location of the Dragon burial Valley. I'm afraid they'll only be here when we've plundered all the treasures!"

"Hahaha! That kid probably didn't expect this! Why don't we wait there after we're done moving the treasures? I want to see the expression on that kid's face when he sees us after he rushes to the Dragon burial Valley in high spirits!"

All the cultivators on the ship laughed out loud, their faces carefree.

Especially the night patriarch, li Changhe, and the others, they all felt that it was especially satisfying.

They had suffered many losses in the hands of that kid. This time, they could finally set him up.

They couldn't wait to see that kid make a fool of himself!

"Hurry! We have to get there first and empty out all the treasures. Then, we'll set up some formations to welcome that kid!"

They continued to increase their speed as they headed deeper into the void.

The closer they got to their destination, the more excited they became.

With so many true dragon bones, they could be used to forge countless powerful tribulation weapons and even Emperor weapons, greatly increasing the strength of their forces.

In the whole of Pangu, Emperor weapons were extremely rare treasures. Each clan only had a few. Many of their Emperor weapons had been taken by that damn kid and had not been retrieved yet.

"It's right in front!"

"Look, there's a void Whirlpool over there. Could it be the entrance?"

They arrived at their destination and soon discovered the void vortex.

"It can't be wrong! This is the place!"

Li Changhe sent a clone into the whirlpool to take a look. Then, he came out and said excitedly, "I saw a piece of land with countless mountains on it. That must be the Dragon's corpse!"

"Hahaha! That's great!"

"Hurry up! Let's go in!"

The night patriarch and the others could not hold back any longer.

They all laughed, and their bodies turned into flowing lights, rushing into the vortex.

At this moment, they were all extremely excited. What awaited them inside were countless treasures!

"True dragon Bone, here I come!"

Old Daoist blood Yin and the other two were also among them.

At this moment, they were so excited that their faces were flushed red, and their eyes were shining.

After passing through the void ripples and entering the Dragon burial ground, they rushed down impatiently towards the Dragon corpses.

However, after rushing down for a while, their speed gradually slowed down, and then they stopped.

They stood there, their faces frozen.

Because on the ground below, there were clearly human figures moving.

Someone had arrived before them!

When they took a closer look, they were all stunned. The group of people below was none other than that kid surnamed Tang's group.

But how was that possible?

Not long after the kid had obtained the scroll, they had captured the old monster and obtained the location of the Dragon burial ground. The kid still had to crack the scroll, so how could he have found this place faster than them?

They were all in disbelief.

"It's the night patriarch and the others!"

At this moment, the people below also noticed them and looked up.

For a moment, the two sides stared at each other for a long time.

The night patriarch and the rest's faces darkened.

"Motherf * cker!"

They gritted their teeth and cursed.

They had thought that they could finally take the lead this time and ruthlessly trick this kid, but they didn't expect that they were still a step too slow. Looking at the situation, these people had clearly been here for a while and had collected a lot of Dragon corpses.

"Yo! Isn't that fellow Daoist ye and fellow Daoist Yao? Why are you guys here?"

Ling Zhanxu shouted, his tone full of ridicule.

The faces of the night patriarch and the others twitched, and their expressions became extremely ugly.

"How could you guys be so fast?"

The medicine master shouted.

“What’s so strange about that? after we took the secret and cracked it, we rushed here. How did fellow Daoist ye and the rest of you know about this place?” Jiang zhengdao said with a smile.

“We caught that old demon, that’s how we know about this place!” The medicine master said, “according to him, the scroll recorded the most ancient dragon language. How did you manage to decipher it so quickly?”

“Hahaha! It’s such a coincidence that Tang kid just happened to know him and solved it as soon as he got his hands on it. It’s really a close call. If he didn’t know you, you guys would’ve gotten it first. ”

Jiang zhengdao said teasingly.

“What? This kid knows her?”

The night patriarch and the rest were shocked.

Then, their faces turned ashen.

No matter how much they calculated, they never expected that this damn brat actually knew the ancient language of the Dragon race!
