

## The Mightiest Little Peasant Chapter 2397

Above the black water lake, divine light burst forth, and immortal radiance soared into the sky.

A man and a beast were engaged in an intense battle.

On the mountain beside them, the divine creation boat slowly rose up. The cannon at the bow of the boat had already gathered a bright light.

There were eight venerable sovereigns on the ship, along with Tang Hao's 10000-blood cultivation base and many fifth and sixth tribulation cultivators on the ship. The aura of this shot was so powerful that it shook the void in all directions.

The Blackwater mystical flood Dragon seemed to have sensed that something was wrong. It turned around and was about to escape back into the lake.

"You want to leave?"

"Stop!" Emperor Xu Yuan shouted and intercepted.

"Now!"

On the ship, Tang Hao also shouted. He stomped his foot, and the divine boat under his feet trembled. With a Swoosh, it blasted out an extremely bright divine light that tore the void apart and ruthlessly bombarded the black water profound Dragon.

The hard scales on the flood Dragon's body instantly exploded, and blood splattered everywhere.

The flood Dragon screamed and its momentum was greatly reduced. The shocking blast, which had gathered the power of eight venerable sovereigns and millions of cultivators, had seriously injured it.

"Do it!"

On the ship, Lord of numinous treasure path and the others shouted a few times and flew out. They flashed above the black water lake and used their divine powers to attack the flood Dragon.

The nine venerable sovereigns attacked together and besieged a seriously injured eight tribulation flood Dragon. There was no suspense at all. After a while, they killed the flood Dragon and even pulled out its primordial spirit.

"Let me do it!"

Emperor Xu Yuan rushed forward and was the first to remove the collar from the corpse to take the treasure box.

"Let me see what treasure is inside!"

He rubbed his hands together in excitement.

“Old man Xu Yuan, let me do it! I’m lucky, maybe I can get a good treasure!” The Blood King laughed.

“Go, go, go!” Emperor Xu Yuan waved his hand and was a little unhappy.

Did this mean that he was unlucky?

Bah!

His face was pale! In his life, Emperor Xu Yuan had many fortuitous encounters and good luck!

He then used his strength to open the box.

When the lid was opened, a clear light spilled out.

“This is ...?”

He focused his eyes and was stunned at first. Then, his eyes became a little fiery and even his breathing became rapid.

“Star dew, this is star dew!”

He shouted excitedly.

“Heavens! It’s really the star dew!”

“Old man, you’re quite lucky!” The rest of the venerable sovereigns went over to take a look and were also a little excited.

This star dew was a type of heavenly treasure, and it was the highest grade. They didn’t know where it came from, but it was said that it was a kind of spiritual liquid extracted from the stars by ancient mighty figures using some secret technique.

If this item was used in the 8th tribulation, it could help with the aperture breakthrough. A drop of star dew could greatly increase the success rate of aperture breakthrough.

“With this and some other natural treasures, this elder Xu will probably have a chance of opening two apertures.”

Numinous treasure Dao master stroked his beard and sighed with envy.

If he had known that the Blackwater profound dragon’s treasure box had such a top-notch treasure, he would have definitely fought to come out.

“Hahaha! This treasure is mine! Thank you for your help, fellow Daoists!” Emperor Xu Yuan took out a treasure bottle and carefully put away the drop of star dew in the box. Then, he cupped his hands and smiled proudly.

The group of venerable sovereigns envied him for a while and then turned their eyes to the corpse.

The star dew was good, but there was only one drop. They had no share, so they could only get some flesh.

“I’ll take this tail!”

Numinous treasure Dao Lord struck and cut off the dragon’s tail.

“I’ll take some scales and bones!”

Thearch golden scales was the second to act. He peeled off the black scales and a portion of the bones.

Then, the venerable sovereigns started to attack.

They didn’t take much, and when they finished dividing, there was still half of the flesh left.

“Many thanks to all the seniors!”

Tang Hao bowed and thanked them.

He knew that these venerable sovereigns were taking special care of him and leaving half of the flesh and blood for the gate of fortune.

“Little friend, you’re too kind. If it wasn’t for your divine boat, we wouldn’t have been able to kill this beast so easily. You deserve half of it.” Numinous treasure Dao master said with a kind smile.

“Yes, yes! Little friend, you have contributed the most!”

The other venerable sovereigns agreed.

Tang Hao accepted the Dragon’s flesh and blood, then looked down at the Black Lake. He activated his heaven’s eyes and scanned the lake.

“There’s a box!”

He found a black box in the corner of the flood Dragon’s Nest.

“Black iron? It should be the lowest level!”

Tang Hao mumbled.

Black iron, silver, gold ... And finally dark gold. He was very clear about this rule.

“There’s a treasure chest? I didn’t see it just now!”

A venerable sovereign asked in surprise.

Naturally, they had also searched the bottom of the lake, but they did not find any treasure chests.

“There really is one. This box was hidden so well that I didn’t even see it!” When they took a closer look, they also found the treasure chest.

“I’ll do it!”

The Vermillion Bird path master extended his hand and took the box out from the bottom of the lake.

“It’s the aperture opening pill!”

When he opened the box, he saw three Jade bottles inside. Each bottle contained a huge golden core.
