

## The Mightiest Little Peasant Chapter 2625

“You can’t calculate it?”

Tang Hao asked urgently.

“That’s not it!” Supreme Emperor Xi shook his head. “It’s just that ... There’s a problem with the location indicated by the divination.” As he spoke, he frowned from time to time, his face full of confusion.

“What’s the problem?”

Tang Hao was confused.

“The location indicated by the divination is not in this world!”

Paragon Emperor Xi said.

“Not in this world? What do you mean by that?” Tang Hao was stunned.

“The world I’m talking about doesn’t just include the Holy region. It also includes Pangu and the endless starry sky below.” Sovereign Emperor Xi said solemnly.

“This ... How is this possible!”

Tang Hao’s expression changed.

If he wasn’t in this starry sky, didn’t that mean that he was in the nine color clan’s world outside?

Wasn’t it said that those ancient Almighty beings sacrificed themselves back then to build a great formation and completely isolate this world?

The only gap was the one on the battlefield of gods and demons above.

How could the two of them leave this world?

“I know that it’s hard to believe, but that’s how the divination works. They all point to the outside world, and they all point in different directions.” Supreme Emperor Xi shook his head and said, “as you know, with the perfected immortal formation, the heaven and earth are isolated. My divination skills are also affected and I can’t accurately calculate the location.”

Tang Hao’s brows were tightly furrowed, and his expression was grim.

“How about this, I’ll read your fortune again!”

Supreme Emperor Xi said after a moment.

“Good! That’ll be troublesome!”

Tang Hao said immediately.

However, when Emperor Xi tried to calculate again, the result was the same. He pointed to the outer space.

“This ... This is really strange!”

Sovereign Emperor Xi was a little depressed.

Little friend Tang’s two beauties must be from this world. How could they be considered to be from the outside world?

The people on the outside couldn’t enter the true immortal formation on the upper level, and those on the inside couldn’t leave either. The only passage was created by the Dragon count divine clan with great effort in the past, which allowed the nine-colored clan to enter.

And this passage was guarded by Supreme martial artists of both races, so it was impossible for anyone to enter the other’s territory.

“Passageway ... Wait!”

Tang Hao pondered for a moment. Suddenly, he remembered something.

Back then, when he was looking for the creation divine ring, he had gone to a place in the endless void. There was a huge Whirlpool there, and he had found the creation ring and the creation divine boat there.

At the same time, he also found the nine-colored remains.

He had once speculated that the previous generation’s master of fate had fought an intense battle with the nine-colored tribe and had thus fallen there.

This battle was less than 10000 years old, and that generation’s master creation was only at the 8th tribulation. This meant that this battle had occurred after the Holy region had been established, and the opponents were only a group of 8th tribulation nine-colored clansmen.

It was impossible for the nine-colored tribe to enter Pangu through the battlefield of gods and demons. That meant that Pangu had another passage, and the huge void Whirlpool was most likely the passage.

Perhaps even the reverent-God of the nine-colored tribe didn’t know about this passage. Otherwise, it would be impossible for only a group of 8th tribulation tribulation experts to enter.

In addition, in the endless starry sky below, in the immortal astral land, where he found the chaos Scripture left by the ancestor of technique, there were also nine-colored bones and a mysterious void.

Could it be ... That it was also a passageway?

If these two passages were the same, then didn't that mean that there were other passages in this world?!

The more Tang Hao thought about it, the more certain he was of that thought.

There was definitely a passage, and it was very well hidden. Not many people from the two races should know about it.

For some reason, star pupil and Sia passed through these passages and went to the other side.

He could understand the star pupil. She had the body of the mystic fairy and was following a seven-tribulation Sir God at that time. She might have had some fortuitous encounter and entered the passage by chance and went to the other side.

On the other hand, he couldn't figure out why SIA was from the Xi Fang race.

In Pangu, he had inquired about the existence of the Western Fang clan, but he had never found them. Now that he had come to the Holy region, he had not found the existence of the Western Fang clan.

Where was this Xi Fang clan?

"Little friend Tang, I'm not sure what's going on, but the divination is like this, so it shouldn't be wrong!" Paragon Emperor Xi said.

"Maybe there's a passage in this world that we don't know about. We can go outside the perfected immortal formation. You don't have to worry. The starry sky outside is vast, and there are some humans."

"There are humans outside too?" Tang Hao was surprised.

"Yup!" The Supreme martial artist nodded. "I've used a soul-searching technique on the people of the nine-colored clan before, so I have some understanding of the situation outside. Compared to our world, that place is much more vast."

"There are not only the nine-colored tribe but also many humans. Of course, the status of the human race is not high there."

"Since I can predict their future, it means that they're still alive. As long as we can find the passage in the future, you'll have a chance to find them, little friend."

Sovereign Xi consoled.

Tang Hao sat for a while longer, then got up and left.

Under the guidance of the elder, he walked out. He had been thinking about the passage in his heart, and his expression was somewhat serious.

As he flew out of Emperor Xi's orthodoxy, he suddenly saw a Luan flying over in the void in front of him with a Palace on it.

Tang Hao was surprised. Wasn't that the prologue of the Ji clan?

Did she also come to Emperor Xi's orthodoxy to ask for a divination?

For some reason, Tang Hao's heart skipped a beat. He had a bad feeling about this.

However, he didn't care. He didn't have time to think about other things.

He quickly returned to the temple and told sis Xiangyi and the others about what had happened. Then, he quickly left the temple and went straight down to the sacred zone.

He wanted to go to Pangu and explore the whirlpool to see if it was a passage.

This matter was very urgent, and he could only be at ease after he confirmed it.

He also wanted to go to the immortal astral land.

Soon, he was at the bottom of the sacred zone.

At the entrance to Pangu's passageway, there was now an additional Hall, guarded by a Saint elder.

This path to heaven had always been open, and there were still many people trying below. Every day, there were people coming up, and they needed someone to guide them.

When he arrived in front of the hall, he showed his identity token, and he successfully passed through, sweeping down along the creation wood.

Along the way, he could see that there were still many people on the builder tree. Many people could not hold on and fell down, but there were still many people who persisted.

At the bottom, he saw the Taoist of Tianshui and the others.

"F \* ck! It's this kid!"

Daoist Tianshui and the few divine temple elders who had arrived there had been guarding the place. Their faces darkened when they saw Tang Hao.

Back then, this kid had really screwed them over.

They looked at Tang Hao with complicated expressions.

Although he had been here for a long time, they had all heard about the things he had done. The fallen Dao mountain had been lit up by thousands of lights, and now he had overturned the entire God Spirit Mountain and defeated seven Supreme figures.

They were all stunned by the news.

Is he still a F \* cking human?!

When he went up, this guy was still a six acupores master. In fact, he wasn't that strong in the Saint realm. But now, only two years had passed, and this guy could fight a Supreme-being head on. He was simply abnormal to the extreme!

Furthermore, this brat even invented some many children divine pill and became the alchemy ancestor that everyone respected!

"Greetings, elder Tang!"

Even though they were extremely unwilling, they had no choice but to bow and greet him respectfully.

Although they were colleagues, this person's status in the Holy region was comparable to a Supreme. Moreover, he was a favorite of Supreme Xuan Hong. They could only bow their heads in this way.
