# God, the Real Miss Hated Everyone Equally

Chapter 10

Chapter 10

Brielle punched and kicked the monkey king.

The monkey king’s face was beaten black and blue.

When Brielle released it, it lay on the ground and couldn’t get up.

Brielle looked at the other monkeys with a vicious gaze.

She searched among the monkeys.

Then, she swung the vines to catch the other monkeys.

The monkeys screamed and fled.

However, their speed was not comparable to Brielle.

His flexibility was also inferior to Brielle’s.

Brielle grabbed all the monkeys in the monkey group and beat them up one by one.

In the end, the monkeys on the ground were all lying on the ground.

Those monkeys were all bruised and swollen.

They looked at Brielle, their eyes full of fear and their bodies shivering.

ommo

“You should be glad that you are protecting animals. Otherwise, I will chop off your hands and feet!”

“Why are you as annoying as the monkeys on Mount Emei? Do you like to destroy other people’s things so much? If you dare to touch my things again next time, even if you are a second–class protected animal, it can’t protect you!”

“You broke my tent and luggage, and also ruined my breakfast!”

“Bah! A bunch of trash!”

Brielle spat and then walked back with the vines.

On the way, she caught a chicken laying eggs and brought the chicken and egg back.

[ Hahahaha, Sister E is really great. Every monkey that participated in the destruction was beaten up. Not a single one was spared!]

[She is too awesome. To actually catch a monkey in the forest. If it was me, I wouldn’t be able to make it. I

[ I can’t use words to describe my admiration for Sister E!]

[Sister E, you are my god!]

[ Sister E, don’t act in the future. Start teaching martial arts. I will be the first to register!]

[I’m not bragging. Although Sister E is very awesome, if she fights with me, she will kneel down and beg me with just one move!]

[She will beg you not to die, right? ]

[I actually pity those monkeys a little. The monkeys don’t understand the rules of the human race. They just see something new and are curious. They just want to see it. Destruction is also their nature, but they were beaten so badly. I

Chapter 10

[That’s right, Brielle is too much. The monkeys have no brains and she doesn’t have a brain either? Why does she lower yourself to the same level as small animals? The monkeys are too pitiful. |

[Why are you blaming Brielle? If you want to blame someone, blame it on the program team. It was the program team that deliberately led the monkeys over to destroy Brielle’s things! |

In the wilderness, the equipment was destroyed. When they lost their guarantee of survival, wouldn’t it be normal for Brielle to be angry? If it was the real wilderness, no one would drive the beasts away. Brielle’s equipment was destroyed and she wouldn’t live for a few days. Even if she killed those monkeys, it wouldn’t be wrong at all! I

[That’s right, Brielle only wanted to survive! ]

[Brielle still thought that they were protective anamials and didn’t beat them to death. This is already very lenient. ]

When she returned to the station and looked at the “trash” on the ground, the anger that Brielle had just cooled down a little suddenly emerged again.

She closed her eyes, took a deep breath, and suppressed her violent anger.

When she opened her eyes again, she had already controlled her emotions.

She used tree vines to tie the chicken to one side, and then began to clean up

The tent was completely ruined and could not be used.

The inflatable bed was also leaking air.

Most of the other things were broken.

the place.

The first aid kit had been smashed, a portion of the disinfectant, iodine, and so on had been broken, and the gauze had been torn into pieces.

A bag of toilet paper had been torn, and the paper inside floated everywhere.

Fortunately, her clothes were all packed with vacuum bags and did not become the target of the splashing monkeys.

There was also a one–time use toilet tool. Although it was also shaken out, it could still be used.

The toiletries fell on it and the toothbrush was broken into two pieces. It was barely usable after washing.

She also brought a set of field cooking tools, a triangular cauldron rack, and a very small iron pot.

This kind of thing was very difficult to destroy and was still intact.

A part of the seasoning was sprinkled.

Brielle tidied up the things that could be used and threw the things that could not be used aside.

She picked up some branches, burned them first, and then took the chicken to the river.

By the time he was done with the chicken, the fire had already burned a lot of charcoal. She put the chicken on the fire and roasted it.

Then she looked at the mushroom she had left behind.

It was not broken yet.

She took it to the river and washed it clean.

She burned another bonfire and cooked it with a small iron pot.

16:43 Mon,

Chapter 10

After the water was boiled, she added seasoning and the fragrance became stronger.

The fragrance of roasted chicken and mushroom drifted far away.

Pearl, Jordan, Jaxson, Austin, and Quinn all smelled it.

Quinn sniffed the tempting fragrance. “It smells so good. Has Brielle started eating? There is the smell of roasted chicken, so fragrant, and the smell of cooked mushrooms?”

“Brielle is really amazing. She can even find mushrooms!”

“It’s so tempting to roast the chicken so well. My stomach is starting to growl again…”

The more Quinn spoke, the hungrier she became, and the saliva in her mouth became even more exuberant.

The others couldn’t help but swallow their saliva, and they all turned to look in the direction of Brielle.

They couldn’t see Brielle in this place, but they still couldn’t help but look in that direction.

Jaxson frowned and said, “Why hasn’t the program team sent people yet?”

Austin said, “It has been so long. They should have found out that we were left in the forest. They should have sent someone to continue filming or take us back, right? Why is there still no one coming?”

Jordan’s face was full of frustration. “What the hell is the program team doing? When I see them, I will definitely settle the score with them!”

It was definitely a dereliction of duty to leave the guests in the forest for so long!

Everyone’s expressions were very ugly.

They had already thought about it. When they returned, they would ask the program team for compensation for mental damage!

Pearl said, “I’m so hungry. Go find something to eat. I don’t know when the program will come. I don’t want to wait here!”

They had been waiting by the river since dawn.

They thought that the program team would come to find them today.

However, from dawn until now, the program team had not come. They were already very impatient from waiting.

They were still thinking that the program team would definitely bring food with them when they came, so they would not look for food. After the program team came, they would eat the program team’s food.

They had not eaten anything yesterday, and now they were so hungry that their front chests were pressed against their backs.

They had relied on a belief to hold on.

But now, when they smelled the aroma of food coming from Brielle’s side, they could no longer bear it.

Their beliefs instantly collapsed.

They were living such a bitter life, but Brielle seemed to have come for a vacation. This was unfair!

On what basis?

Jordan said, “Alright, let’s get something to eat first. We’ll continue waiting when we’re full.”

Jaxson, Austin, the three of us will go find food and the two girls wait here.”

$16:43 Mon,

Chapter 10

“Alright,” Jaxson and Austin stood up.

The three men entered the forest confidently.

They all felt that Brielle could easily catch prey every time, so could they!

After they entered the forest. Quinn said to Pearl, Pearl, let’s go pick up some dry firewood first. When they come back from hunting, we can start a fire and roast meat!”

When it came to barbecue, she couldn’t help but swallow a mouthful of water.

She was already starving to death.

She hoped to save some time and quickly eat delicious food.

Pearl frowned unhappily. “You actually order me to do things? Or do you want me to do the lowly work that only farmers

do?”

Quinn quickly said, “I… I don’t mean to order you. I just propose…”

Pearl sneered, “I don’t want to pick up firewood. I can’t do that kind of thing. Since you have suggested it, you can go by yourself.”

*Remember to pick up more. The five of us need to roast more meat.

Quinn’s face was red and red.

In the end, she didn’t say anything and went to pick up firewood gloomily.

She didn’t have the courage to challenge Pearl.

Pearl looked at her back and sneered, “I heard that you were born in a rural area. This kind of farm work is most suitable for you. I will let you experience farm work again. Remember the past; don’t be ungrateful and think that I am targeting you!”

Quinn clenched her fists, but she squeezed out a smile on her face, “Thank you for your kind intentions, Pearl. I will reflect

on it.”

She endured!

When she had earned enough money, she would quit the entertainment industry and no longer face the various monsters of the entertainment industry!

Pearl sat by the river, swallowing her saliva as she smelled the aroma of the roasted meat. She continued to look into the distance of the river.

“Why haven’t they come yet? Damn program team, you better all die!”

Pearl disgusted me again. She actually ridiculed the farmers. What’s wrong with the farmers? The farmers are better than thieves like you who steal other people’s identities!]

[Looking down on the farmers so much, you better not use the things produced by farmers for the rest of your life!]

Does she think she is very noble? Isn’t she also the daughter of a nanny? Does she think that after stealing Brielle’s identity, she will be superior? Disgusting! ]

[After so many years of advanced education, her thoughts are still so low. It seems that the genetic theory is real. Some people’s evil, bad, and stupid are all engraved in their genes. No matter what, they can’t be changed! ]

After nearly an hour, Jordan, Jaxson, and Austin came out of the forest.

Pearl looked at them excitedly.

16:43 Mon, 7 Aug

Chapter 10

But when she saw that they didn’t have any prey with them, her face instantly sank,

“Why did you come back empty–handed? Where are the prey?”

Jaxson said. “The prey has run into the depths of the forest. We walked for a long time before we found a few chickens.”

“But they became more agile today. They ran too fast and there were too many plants in the forest to cover them. In the blink of an eye, they disappeared. We couldn’t catch them. We only picked up a few eggs.”

As he spoke, he took out four eggs from his bag.

Austin took out three.

Jordan also brought four.

One eleven eggs.

Jordan said, “There are five of us, a total of eleven eggs, two for each person, and one more.”

“Let’s make do with eating first to fill our stomachs. When the program team arrives, we will ask them to order something to

eat.”

Pearl could not hold it in anymore and shrieked. “It’s not like you don’t know that I don’t like to eat eggs!”

“Why is it that Brielle can catch prey every time, but you can’t catch it every time?”

“You are still men. Three men can’t beat one woman, Brielle? Aren’t you ashamed”

She was sleepy and hungry, her body was painful and itchy, and her mood had collapsed.

Jaxson was also angry and said unhappily, “Brielle is a woman, and you are also a woman like her. If she can do it, why can’t you do it? Go and catch it yourself!”

“If you can catch it, then you are qualified to scold us!”

“Otherwise, you, a person who has not contributed anything, are not qualified to force the blame here!”

Pearl glared at him angrily. “You dare to scold me”

Jaxson took a deep breath and said in a deep voice, “I don’t get along with your team. I picked up all the eggs in my hands myself. I will take my things and make them myself!”

He ran to pick up his backpack and went to find the encampment again.

Austin thought about it and said, “I will go with Jaxson. He is not safe alone.”

He also took his eggs and left with his things.

Quinn also wanted to go with them.

However, Pearl looked over and asked in a gloomy voice, “Are you going with them?”

Quinn twitched the corner of her mouth awkwardly and shook her head. “No, no, I just want to take a look.”

Her position was not as big as Jaxson and Austin, and she did not dare to go against Pearl like them.

Jaxson was the top, and he signed an overseas entertainment company. Even if Galley family suppressed him, it was not that he could not continue to move, but that he would lack some resources.

Austin was the best actor. His strength was not bad, and he also had his own connections. Without Galley family’s support, he only developed a little slower, and lacked some resources and activities. He could not cut off his path.

But she was different.

She was just a newcomer in the entertainment circle. She had no background, no fame, and her strength was average.

If she offended Galley family, the company would not go against Galley family for a small figure like her.

The company would even directly ban her in order to please Galley family.

Therefore, she could only follow Pearl and curry favor with her.

“Humph!”

Pearl snorted.

Jordan silently put down the egg-

Pearl seemed to realize that she had accidentally scolded Jordan just now.

She hurriedly softened her voice and hugged Jordan’s arm. Her entire body was pressed against his body as she said in a sweet voice, “Third brother, I wasn’t scolding you just now. In my heart, third brother, you are especially powerful, just like, an invincible superhero. You are my idol. In my heart, you are the best!”

“You have never come into contact with farming like catching prey. It’s normal that you can’t catch it.”

Jordan’s expression became slightly better.

However, Pearl’s tight body made him feel a little uncomfortable.

He pulled back his arm and said, “First, cook the eggs and eat them.”

Quinn had already picked up the firewood and folded it into a length suitable for burning.

Jordan lit the fire with a lighter.

After the fire burned up, he put four eggs in it.

They did not bring the pot with them. There was no way to cook or boil it. They could only roast it.

The fire burned for five minutes..

Suddenly….

“Bang!”

“Bang!”

“Bang!”

“Bang!”

All four eggs exploded.

“Ah –

The egg exploded and the fire exploded. The eggshell splashed around.

Pearl, Jordan, and Quinn were all around the fire.

The eggshells that splashed out all splashed on them.
