

Chapter 318 Secretly Glad

Alick stole a quick glance at Isaac.

Annis had broken in, what would he possibly do?

The fact remained that Annis was his half-sister.

Isaac, despite everything, remained indifferent.

Alick couldn't come up with a thing to say.

How could Isaac be so cruel?

Isaac could have embraced Annis as his sister, avoiding the loneliness that haunted him.

Alick pondered this notion silently, realizing the potential solace it could bring.

"You must be Isaac, right? I checked out your photos. Cathy was not only your mother but mine as well. Please tell me where her resting place is so that I can go and pay my respects." In a bold stance, Annis confronted Isaac, standing tall before him.

Annis's presence commanded attention.

She was unwilling to relent until Isaac gave her an answer.

Isaac lifted his gaze, looked at Wynter, and then commanded, "Summon security!"

Wynter, feeling a surge of excitement, replied, "As you wish."

Annis, undeterred, exclaimed, "What is this madness? I am Cathy's daughter for God's sake!"

Wynter asserted, "Regardless of your identity, trespassing without consent is unacceptable!"

Just then, the security guards arrived, and Wynter wasted no time ordering, "Get this woman out of this place now!"

Wynter harbored no intentions of permitting any woman to win over Isaac's heart.

She was being driven by her desire to replace Camila in Isaac's life!

Every female presence ignited her vigilant spirit, urging her to expel them from his world.

Annis found herself in the firm grasp of the security guards.

"Hey... Isaac!" Annis protested, refusing to accept the current situation. "Cathy was not just your mother; she was our mother!"

Wynter gestured to the guards and added, "Be done with it already!"

Annis was escorted away into the elevator.

Her voice continually faded into the distance.

Silence descended upon the office, broken only by Isaac's palpable discontent.

"How did she manage to intrude?" he grumbled.

Alick understood that he was in a bad position!

"I'll make sure to upgrade our security mechanism. No outsiders will intrude anymore," Alick said soberly, trying not to completely get into trouble.

Isaac's countenance remained cold, dissatisfied with the response he received.

Alick swallowed hard, determined to rectify his mistake. "I will find a way to send her back."

He then made his exit before things escalated.

Wynter was momentarily pleased by Alick's words.

However, she found her elation short-lived.

"Get the hell out!" Isaac said coldly.

Wynter calmly bowed her head and exited the office.

However, she possessed a patient resolve and so didn't feel at all bad.

Considering the situation, she found herself lucky to be his secretary again.

After all, her reunion with Isaac would be a long game.

So, she was determined to take one step after the other.

After spending a considerable amount of time with her, Wynter figured Isaac would finally notice her.

She relished the knowledge that her usefulness outweighed Camila's, especially when it came to assisting Isaac with his work.

As for Camila, what could she have truly offered?

Thankfully, fate had decided her course.

Annis was promptly kicked out.

More than ten years ago, Nelson had relocated abroad to be closer to Cathy. Annis had gone along with them.

She had an upbringing in another country.

Alick used her visa expiry as a pretext to force her to leave.

Annis did not make any peace with that.

When she saw Nelson, she immediately started whining.

"Dad, why does my half-brother possess such a heartless and frigid nature? He had me cast out of his office as if I were a stranger. Am I not his sister? His coldness wounds me deeply. And to add insult to injury, he kicked me out of the country! How dare he!"

Annis raged, her features twisted with anger.

Nelson was unsurprised by Annis's outburst.

He offered her a glass of water. "Drink, my dear, and let this water soothe your storm."

Annis, still aflame, continued her tirade. "Even if he's against me looking for him, I shall do it regardless!"

Nelson, realizing the significance of Cathy in his own life, understood Annis's determination.

"You need to work out a strategy." He contemplated the situation, recognizing that Camila, who had spent months by Isaac's side, could hold the key to unlocking his guarded heart.

"Fret not, my child. I shall help you," Nelson said, assuring her.

Annis's eyes sparkled with anticipation. "Tell me, dad, what's your plan? Come on, dad, what is it?! What's going through your head?"
