

## Spoiled by Mr. Russell Chapter 636

All these years of knowing Lily, Nathaniel had thought that she was a weakling, but she turned out to be skilled in kickboxing. Back then, all he had brought with him were bodyguards and thugs, who were no match for Lily's training.

She had long since abandoned the Lodge household and had not returned for several years. Even though they had been together for a long time, he never once saw her train in kickboxing. Thus, he reasoned that she, a woman, would not be able to do much regardless of her current skill level.

With Alexander and La Beauté Group on her side, Lily could do everything she wanted. With control of the Tanner Corporation, Nathaniel may make a comeback using the company's resources. He hoped Lily would feel terrible about her past actions and break down in his
