

Chapter 1899 He Is About To Be Crippled

The gang leader was shocked and an embarrassed expression appeared on his face. He was clearly angry.

It turned out that Trevor was making fun of him by showing him the check, since in the end, Trevor didn't give it to him.

Damn it! The gang leader had been feared for several years in the Clouauro underworld and never before had anyone dared to offend him.

Although the man was furious now, he didn't dare to say or do anything since he was afraid of Trevor. He only watched Trevor and Luisa leave.

When the two people disappeared from sight, a resentful expression appeared on the gang leader's face. He made up his mind to do something, otherwise he would not be able to calm down.

The other members of Fire Gang got up one after another. They all had the same thought, but neither spoke for a while.

On the other side, in the hospital.

Connie's guilty conscience made her come to visit Ewing. Despite their past conflicts, she was eager to break the news to him that Trevor would soon be disabled.

Ewing had just undergone an operation and at the moment, he lay weakly on the hospital bed. A look of surprise and disgust appeared on his face when he saw Connie walk into his ward.

Connie was so engrossed in her thoughts that she didn't even notice the change in Ewing's expression and his coldness towards her. She walked over and said proudly, "I got news that Trevor is about to be crippled! Don't ask me how I know it, it is my secret. Once he is crippled he won't be able to practice medicine in the future. Humph! That serves him right!"

Hearing what Connie said, instead of being happy, Ewing was overwhelmed with anger. This strong emotion caused him to feel even more pain in his body. He let out a groan and said with difficulty, "What have you done? He has saved my life! I'm not completely healed yet. I

Seeing how agitated Ewing was, Connie was afraid that something bad would happen to him, so she quickly corrected herself. "Perhaps the information I got is not accurate. Don't mind what I said. I am just talking nonsense."

Although she said so, she was happy in her heart.

Trevor shouldn't have stood in her way. His recklessness caused his demise. By this time, the Fire Gang must have taken care of him.

While Connie was lost in her fantasies, the door of the ward was suddenly pushed open and Trevor walked in with Luisa.

Connie's eyes widened in shock when she saw Trevor, and she stammered, "What... What are you doing here?"

Seeing the guilty look on Connie's face, Trevor smiled. He had the confirmation of what he had guessed. However, he didn't expose her just yet. He said casually, "Can't I come to pay Ewing a visit? I have saved his life after all. It's but normal that I come check on him. Besides, aren't you the one who called and asked me to come here? Don't you want me to check Ewing anymore? Or do you just want him to die?"

Upon hearing Trevor's words, Connie's face changed dramatically and she explained in a panic, "No. I just didn't expect you to be here so soon..."

Luisa wasn't as patient as Trevor and she couldn't stand Connie's lies. She angrily called Connie out.

"You are lying! You hired a local gang to kill us. We were almost unable to make it to this hospital! You just didn't want us to come here today, did you?"

Hearing Luisa's words, Connie broke out in a cold sweat and she kept denying Luisa's accusations, pretending to be innocent.

"What gang are you talking about? I am not in contact with any gang. Besides, I have been with Ewing all this while. When did I have time to hire a gang to hurt you? Don't slander me!"

Luisa's accusation also made Ewing suspicious about Connie. He recalled that when Connie walked in earlier, she had said that Trevor was going to be disabled. Thinking of that, Ewing squinted at Connie.

He guessed that what Luisa said was true.
