

My Disciples 801

Chapter 801 Endless sea area, witness the dusk of the gods!

Information on clues of high latitude boundaries.

For a while, it reached the ears of everyone in the Endless Sea Territory.

After a while, it caused a huge controversy.

However, this information was held by the Saint Talisman Sect.

If it is an ordinary force, I am afraid that it has been directly and forcibly plundered by major forces.

The Saint Talisman Sect, as the top force.

also has a large number of talismans.

and a huge network of contacts.

If you want to take food from the tiger's mouth of the Holy Talisman Sect, you still have to think more about it.

Today.

The Saint Talisman Sect and his party, who are at the center of the public opinion turmoil, have returned to their stronghold.

After returning to the stronghold.

The Holy Sovereign immediately asked his disciples and elders to rebuild the destroyed stronghold.

and strengthen defenses in all aspects.

Even the talisman seals are several times more than before!

Now, I am afraid that several powerful experts from the Heavenly Immortal Realm attack at the same time, and it will take a stick of incense to blast them through.

After all, they obtained clues to the high-latitude boundaries.

If the defense is not strengthened, it will be convenient to deal with people who are not afraid of offending the Saint Talisman Sect to forcibly plunder.

In the room.

The Holy Sovereign called everyone in the thatched cottage over.

I just heard him say: "Before, were you interested in this Kunlun Ruins?"

Xiao Hei nodded.

Sovereign Saint said: "Since this is the case, you should also read this information."

Heard the words.

Mu Fusheng immediately said: "Senior, isn't this very good? After all, you took this photo, and this information is so important, so you can tell us so easily..."

Sovereign Saint rolled his eyes and said, "You kid, you don't come here, you obviously want to know, and you're still pretending here."

Mu Fusheng scratched his head and gave a dry laugh.

Ye Qiubai clasped his fists directly and said, "I will definitely repay the kindness of seniors in the future."

This is what the Holy Sovereign wanted to hear.

What he values is not just the future of people like Mu Fusheng, Ye Qiubai, and Xiao Hei.

What is more important is the mysterious master and power behind them.

Be able to train so many monsters at the same time.

It is impossible to be an ordinary person.

When making friends with that mysterious and powerful disciple.

Definitely be able to make good friends with that mighty one.

outside.

No one will treat you sincerely.

good for you.

That must be yours, and there are interests and plans.

For example, Mu Fusheng.

Then he valued his talent.

It is determined that he will be able to bring the Holy Rune School to a peak that does not belong to it in the future.

Another example is the brother of Mu Fusheng.

is for the mighty one behind them.

If their talents are mediocre.

The Holy Sovereign, and the rest of the Holy Talisman Sect, how could they value it so much?

I'm afraid even if he died outside, he wouldn't blink his eyes.

Although cruel.

But it is reality.

Just remember that no one will treat you well for no reason except those close to you.

After the Holy Sovereign opened the information.

Give the information inherited by the Sword God to Ye Qiubai.

Then he took out the paper roll made of special material.

After spreading out on the table.

The above statement is not much.

can be seen.

Information is inferior.

Message as follows.

The road to the upper realm, the endless deep sea.

The sun and the moon alternate, two rounds of the bright moon, and the Kunlun market appears.

The endless sea has witnessed the twilight of the gods.

Broken information displayed is extremely vague.

When everyone saw this, they couldn't help frowning.

Ragnarok.

It can be understood that an extremely large war took place in ancient times.

The location of the war is in this endless sea.

This can explain it.

Why are there so many inheritances of strong men and treasures of heaven and earth in the endless sea.

But.

The sun and the moon alternate, two rounds of the bright moon, the Kunlun market appears.

And the road to the upper realm, what is the endless deep sea?

Hongying frowned and said: "The road to the upper realm should refer to the high-latitude boundary, the endless deep sea, could it be that it refers to a certain place?"

Heard the words.

The Holy Sovereign shook his head slightly and said, "There is no place with this name in the endless deep sea."

"If that's the case." Ye Qiubai stroked his chin and said, "That's probably the place I described."

"The endless deep sea, does it mean the depths of the endless sea?"

The Holy Sovereign looked sad.

"However, although the front and middle sections of the Endless Sea are much less dangerous now."

"But on the other hand, all those hidden dangers have gathered in the depths of the endless sea. Even if a strong person at the peak of the Heavenly Immortal Realm steps into it rashly, he will stay there forever, with no bones left!"

Mu Fusheng said helplessly: "There should be other clues. Now, we can only find other bad information first. Combined, we should have the answer."

The Holy Sovereign nodded.

Immediately.

Ning Chenxin on the side suddenly said: "Senior, if this information is not very useful, I suggest you release this information."

"After all, the outside world must be staring at this information in your hand."

"There are some forces that may use this to make trouble."

"Instead of doing this, it's better to release it first, it won't have any effect."

Mu Fusheng, Ye Qiubai and the others nodded in agreement.

Heard the words.

The Holy Sovereign nodded.

Then someone was called.

Released this information about the high-latitude boundary.

Immediately.

When those forces are considering how to get this information from the Saint Talisman Sect.

But got this message.

The road to the upper realm, the endless deep sea.

Everyone was slightly taken aback.

Saint Talisman actually released the information on his own initiative?

but...

This information, although they are also thinking about it, the channel of this high-latitude boundary is in the depths of the endless sea.

But also reached the same conclusion as the Holy Talisman School.

Can't get in...

The stronghold of Lingxian Palace.

When Lin Zhinan learned about it, he couldn't help laughing: "It's really smart, knowing how to release the information proactively."

Great Elder Zhang Guan said with a smile: "However, to achieve this, one must be bold."

Lin Zhinan smiled lightly and did not speak.

To his understanding.

It is definitely not the Holy Sovereign's idea to release the information actively...

With the character of the Holy Sovereign, at least he must use this information to earn some profit.

Su family stronghold.

Huan Shun asked in surprise, "Since when did the Holy Sovereign become so generous?"

Su Muyou shook his head and said, "Of course it wasn't his idea."

"You mean? Those young people?"

Su Muyou smiled and said, "There are only them."

...

Meanwhile, in a place shrouded in darkness.

A man in a black robe heard the news and sneered and said, "It's decisive, it broke one of my ancestor's plans."

"But...it doesn't hurt."

...

In the stronghold of the Holy Talisman Sect.

After decision.

Ye Qiubai and the others still planned to go to the land of green roots, the place marked on the map.

Of course, before heading out.

The Holy Sovereign also gave them a lot of talismans.

At the same time, the Great Elder was sent to follow them for protection.

In this way, even if there is trouble and you fall into a trap, you can hold the other party back.

Chapter 802 Purple shirts go together, each with their own ghosts!

The place marked on the map.

After asking the suzerain of the Holy Talisman Sect.

The Holy Sovereign also said: "This is a place that has not yet been explored."

And this place is also located in the middle of the endless sea.

Although all the ferocious monsters in the endless sea area gathered in the depths.

However, in the middle, there are still many hidden crises.

not to mention.

The place marked on the map is still an unexplored place.

The dangers involved are self-evident.

After preparation.

The group of thatched cottages, together with the great elder of the Saint Talisman Sect, left the stronghold and headed towards the endless sea.

...

the other side.

The stronghold of the Tianjin Chamber of Commerce.

In a room that looked extremely simple, Zi Shan was sitting on a wooden chair, holding a few scrolls of parchment in his hand.

The information recorded on these parchment rolls is exactly Ye Qiubai's information.

Since it suddenly appeared in the mid-latitude boundary, everything that happened is basically engraved on it.

"It's interesting." Zishan propped his chin with one hand, and threw the parchment rolls on the table.

"It's no wonder the suzerain of the Saint Talisman Sect speaks so highly of them."

"Judging from the information revealed above, what they have done can indeed be regarded as a top evildoer."

Zi Shan quietly turned his eyes to the window.

Outside the window at this moment, although it is daytime and the sun is shining brightly, the fog is thick, and everything you can see is a vast expanse of whiteness.

"The inheritance of the sword **** is probably for that Ye Qiubai..."

"The Holy Land of Body Refining... for the body repairer named Xiao Hei."

"The lord of the Saint Talisman Sect is also an old fox, so he won them over at any cost."

But.

Is it just to attract a few young people with great potential?

Zishan can think of it after a while.

It must be unusual for someone to be able to cultivate so many monsters at the same time.

And the old fox, the suzerain of the Saint Talisman Sect, must be the mysterious existence behind them who wants to make friends in the end.

Speaking of inheritance information...

Zi Shan suddenly frowned again.

At the Information Auction.

The value assessment is too abnormal.

Just like the inheritance of the Sword God, the information given by the suzerain of the Saint Talisman Sect has no five-star value at all!

However, the valuation is still five stars...

At the same time, the information about Dragon Blood Demon Abyss also happened when the Saint Talisman Sect bid with the strong man in the late stage of the Heavenly Immortal Realm.

Although the information value of the Saint Talisman Sect is five stars, it is obviously lower than the value of another bidder!

Could it be that the appraiser made a mistake in judgment?

Zishan shook her head slightly.

The appraisers of the Tianjin Chamber of Commerce can't make mistakes.

There is only one possibility.

Among them, I am afraid that there is some kind of conspiracy that she does not know...

thought of this.

Zi Shan's two willow eyebrows frowned slightly.

Even if you are frowning, the eyebrows with different curves are very charming.

"If the Tianjin Chamber of Commerce is really making small moves behind the scenes, then I will go to investigate and investigate..."

Where to investigate?

If you start the investigation directly from the Tianjin Chamber of Commerce.

That would definitely scare the snake away.

Although the high-level people dare not hurt her, they are extremely cunning.

After being aware of her investigation, she will definitely hide it and eliminate traces.

At this time.

Zishan thought that when something abnormal happened, it must be when the Saint Talisman Sect made a bid.

At the same time, the bidding information is related to Ye Qiubai, Shi Sheng, and Xiao Hei.

That is to say.

This hidden conspiracy is most likely aimed at them.

That being the case.

Zi Shan made a decision, got up, and disappeared in the same place in an instant!

...

The shore of the endless sea.

Countless ascetics have returned from the sea, and countless ascetics will step into the sea again.

Same.

Those who returned, some looked surprised, and some looked sad.

Someone was seriously injured!

Ye Qiubai and others also came here at this moment.

After stopping.

The Great Elder looked at Mu Fusheng and said, "Mu Fusheng, show me the map."

Mu Fusheng nodded, and handed the map to the First Elder.

Seeing it, the Great Elder took it over and took a look.

is clearly setting the direction.

The Great Elder has been to the middle section of the Endless Sea, so he knows the middle section better than Ye Qiubai and the others.

And just as the Great Elder was determining the direction.

A purple-clothed woman with an enchanting figure and a fairy face suddenly appeared beside them.

Ye Qiubai and the others were slightly taken aback when they saw this.

The woman in purple smiled and said: "What's the matter, I just met before, so you don't know me now?"

It was Zishan who came here!

Ye Qiubai shook his head with a smile, and said, "I'm just a little surprised. Miss Zishan is obviously the chief auctioneer of the Tianjin Chamber of Commerce. She should be busy with a lot of things. How can she have time to come here?"

"I'm the auctioneer, I just preside over the auction, and I don't need to intervene in the follow-up matters." Zishan smiled and said: "What's more, there are so many inherited secret treasures in the endless sea area, so I naturally want to explore them."

"It's just..." Zishan suddenly changed the topic, "It seems that you are quite wary of me?"

"But don't worry, I just met you by chance, but I don't have a companion, how about I go with you?"

"Of course, if there are natural treasures, or inheritance secrets, I only want 10% of them. If I have something that is useful to me, I will also exchange it with something that is useful to you if you agree to exchange it. how?"

Without vigilance, it is impossible.

After all, Zishan is the chief auctioneer of Tianjin Chamber of Commerce.

Ye Qiubai and the others suspected that the Tianjin Chamber of Commerce had some kind of cooperation with Infernal Purgatory.

at the same time.

When they were about to enter the endless sea.

Zishan happened to appear in front of them again.

Is this a coincidence?

Cheat ghosts!

The coast of the endless sea is as wide as the mountains stretching for thousands of miles.

Such a big place, but they happened to meet them?

Just when Xiao Hei was about to say no.

Ye Qiubai said: "Yes, with the help of Zishan girl, I must be able to gain more."

"However, we have always been here, whoever is useful, we will give it to whom, after all, we have contributed."

Zi Shan nodded and smiled, "Thank you very much."

After the discussion.

A group of people rushed towards the middle of the endless sea.

on the way.

Xiao Hei was puzzled, and asked through voice transmission: "She must have a purpose to walk with us, why did she agree?"

Ye Qiubai smiled, and said via voice transmission: "It just so happens that we are not sure what the other party wants to do. On the way, we can test her to see what the Tianjin Chamber of Commerce wants to do."

Mu Fusheng also said via voice transmission: "What's more, Brother Shi Sheng's mood has been shaken. This just helps him solve the problem of his mood, so that he can practice better."

The honest man Shi Sheng heard their voice transmission, his face blushed immediately, and he said angrily: "Brother Priest, do you want to fight?!"

sometimes.

An honest person is cornered, and he can jump over the wall...

Chapter 803 Under the vortex!

The minds of both parties.

It can be said that each has his own ghosts.

Ye Qiubai, Mu Fusheng and the others wanted to find out what the purpose of the Tianjin Chamber of Commerce was through Zishan.

I also want to know what kind of cooperation they have reached with Infernal Purgatory.

However, what makes them curious is.

After understanding the background and strength of the Tianjin Chamber of Commerce, they have always remained neutral.

Why did you choose to enter the game at this time.

Infernal Purgatory, what conditions did they give to the Tianjin Chamber of Commerce, so that they could not refuse!

And the purple shirt.

is to go with Ye Qiubai and the others to see what the Tianjin Chamber of Commerce is planning.

Although both parties want to get information from each other.

However, the goals of the two parties are surprisingly consistent.

Everyone wants to know what the Tianjin Chamber of Commerce wants to do!

As far as Zishan is concerned, the purpose of her coming to the Tianjin Chamber of Commerce here is to monitor the Tianjin Chamber of Commerce and not do anything out of the ordinary.

Thus breaking the neutral position of the Tianjin Chamber of Commerce in the mid-latitude boundary.

Once the Tianjin Chamber of Commerce breaks its neutral attitude and favors a certain force.

Potentially serious repercussions!

On the way.

I saw countless forces and scatterers exploring the endless sea.

However, the deeper you go toward the place marked on the map, the fewer people there will be.

At the end.

They have found that there are no traces of other ascetics around.

Zishan couldn't help but asked curiously: "May I ask, where do you want to go? This area has already reached the middle of the endless sea, and it has not yet been explored?"

Ye Qiubai and Mu Fusheng didn't say a word, but directly transmitted sound to Shi Sheng.

Shi Sheng was stunned for a moment, thinking to himself, why do you have to ask me to explain...

However, he still wondered and explained: "When we were competing with others for the living green root, in the process, while we were not paying attention, someone stole the living green root and left a map at the same time."

This news is not impossible to disclose.

If it is the work of Infernal Purgatory and Tianjin Chamber of Commerce.

Then, the other party will definitely know, so it doesn't hurt to say it.

Even if you don't know.

They also don't know what to expect on the map.

Maybe the Tianjin Chamber of Commerce will have some clues?

Zi Shan looked at Shi Sheng and smiled, and said: "Aren't you afraid of being a trap?"

Shi Sheng shook his head and said, "If it's a trap, you'll know if you go and have a look."

"Oh?" Zishan was slightly surprised, "It seems that you are quite sure that even if you fall into a trap, there is a way to leave safely."

And speaking of this.

Shi Sheng didn't answer any more.

Seeing this, Zishan just covered her mouth and gave a chuckle, without asking any further questions.

It's normal for the other party not to tell her about something like a hole card.

Just at this time.

The Great Elder leading the way ahead suddenly stopped.

Pointing forward, said: "It should be here."

Ye Qiubai and others looked over.

At the place the Great Elder pointed out, there was a small vortex on the sea surface.

See this scene.

The great elder also said strangely: "This place doesn't have any special aura, or aura fluctuations."

"So no one wants to waste time exploring this place."

In this place, there are no islands.

Yes, it's just an unusually calm sea.

But, in the extremely calm sea, there is a vortex?

Zishan saw this scene and said: "The possibility of a vortex appearing on a calm sea is very small. What's more, in such a calm situation, the range of the vortex's rotation will gradually decrease and then disappear."

"But now, the amplitude has not changed at all, as if this vortex will always exist."

This is the only weird point.

Ye Qiubai also nodded, and said: "It seems that there is something tricky under this vortex."

Xiao Hei asked: "How about I go down to explore the road first?"

Heard the words.

Hongying patted Xiao Hei on the head helplessly, and said, "Don't be so reckless, who knows what danger there may be."

"Second Senior Sister is right." Mu Fusheng took out a talisman and said with a smile, "Senior Brother Xiao Hei, you really need to restrain your reckless character."

Immediately, under the curious eyes of everyone.

Mu Fusheng urged the talisman in his hand.

One time.

On the talisman seal, golden thunder flickered.

It condensed into a small brontosaurus, and quickly drilled into the vortex!

But.

After the small thunder dragon escaped into the vortex, like a rope, the source was still on the talisman in Mu Fusheng's hand.

Extending towards the vortex.

Zi Shan asked curiously: "What kind of talisman is this?"

Mu Fusheng chuckled lightly, and said: "It's not a rare talisman, it's just a talisman to detect danger. While wandering around, I met an extremely advanced talisman master, who passed it on to me. "

Ye Qiubai: "..."

Hongying: "..."

Ning Chenxin: "..."

Xiao Hei: "..."

Shi Sheng: "..."

Mu Wan'er: "..."

They bet.

This must have been developed by Mu Fusheng...

Zi Shan nodded and said: "So that's the case. I haven't seen this type of talisman. Although there are detection talismans, there is no such form."

Immediately afterwards, the golden thunder dragon extended by the talisman in Mu Fusheng's hand trembled slightly.

Felt the scene.

Mu Fusheng took it back, and said: "There seems to be a large space under the vortex, but I don't feel any danger."

I saw the utility of talismans.

Zishan was a little surprised, and said: "Do you still have this talisman? If so, our Tianjin Chamber of Commerce can buy it at a big price."

Mu Fusheng shook his head and said with a smile: "I don't have much in hand. If I meet that advanced talisman next time, I'll ask for you."

Zishan tilted her head slightly.

There is a little doubt in the eyes.

Although it sounds reasonable.

But why does it always feel that there is something wrong with the advanced talisman master Mu Fusheng said?

Ye Qiubai rolled his eyes and said, "Since there is no danger, you should go down first."

Don't wait for Mu Fusheng to complain.

The Great Elder on the side said: "I'll go down first, my strength is higher, and even if there is any hidden danger, I have a greater chance of escaping."

Let Mu Fusheng, the big baby, go on an adventure.

If the suzerain and the elders know about it, why not take his skin off?

Hear here.

Several people did not refuse.

The realm of the elders present is indeed the highest.

It is also most suitable for him to go.

Mu Fusheng greeted: "Senior, if there is any danger, remember to use the talisman I gave you!"

The Great Elder nodded.

Wait until the Great Elder enters.

Confirmed, no danger.

Ye Qiubai and the others entered the vortex one after another.

At this moment, the scene in the vortex was also exposed to the horrified eyes of everyone!

Chapter 804 Divine Alchemist

Under the vortex.

It is not filled with sea water as they imagined, and needs to act in the sea.

After entering the vortex and diving for an unknown number of feet.

The scene in front of me.

Let everyone be horrified!

Here, most of the surrounding areas are blocked by a thin film made of aura that looks like substance.

Sea water cannot penetrate into the membrane.

Leading to this place, although it is deep in the deep sea, there is no sea water around it!

And in front of Ye Qiubai Zishan and the others.

is a huge palace.

The palace looks like an alchemy furnace.

Nine different directions around the alchemy furnace.

There is a fiery red fire dragon statue, surrounding the Dan furnace palace.

The mouth of the fire dragon sculpture is wide open.

Even standing in Ye Qiubai's position, they can clearly feel it.

There are waves of heat gushing out from the mouths of these nine fire dragon sculptures!

Burn this piece of space to distortion.

On the brink of breaking...

When entering this place.

Mu Fusheng pasted a talisman on his body.

At the same time, you took a elixir refined by Mu Wan'er to strengthen the perception of the soul.

Scan around.

But did not find any breath of other people's existence.

Seeing this, Mu Fusheng said with doubts on his face: "I didn't notice any other ambush, unless someone from the peak of the Immortal Realm came out in person to avoid the perception that I'm releasing now."

Mu Fusheng's soul is extremely powerful now.

Not only reached the sixth level of soul cultivation.

There are also talismans and pills that enhance perception.

Under the peak of the Heavenly Wonderland, it is impossible to escape his perception.

It is bound to leak clues!

Without waiting for Ye Qiubai and the others to speak.

Zi Shan took a step forward.

He took out a delicate mirror in his hand.

When the power of the soul emerges from the center of Zishan's eyebrows and pours into the mirror.

This small mirror actually turned in all directions, bursting out dazzling and dazzling light of the soul!

See this scene.

Mu Fusheng, Ye Qiubai and Hongying looked at each other.

thought to himself.

Today, the Shanxi Chamber of Commerce really has a deep foundation.

This mirror obviously has the effect of greatly increasing the perception of the soul.

And this kind of treasure, even if it is placed in the entire mid-latitude boundary, is something that can be encountered but not sought after.

It took half a stick of incense to pass.

Zi Shan took it back, and then said: "Although I don't know who you are looking for, there is indeed no one else here. Even people at the peak of the Heavenly Wonderland cannot escape this investigation."

"But having said that," Zishan looked around and smiled curiously: "Who gave you the clues to find this place?"

"This is obviously the inheritance left by an alchemist who has a strong attainment in alchemy."

Mu Wan'er shook her head and said: "We don't know, and there is no alchemist we know here, so I suspect that it is a trap set by others."

Zi Shan chuckled and said, "It's guessing the ambush set by the Infernal Purgatory."

Hearing this, Ye Qiubai also smiled and said: "It seems that Miss Zishan has investigated us very carefully."

"I'm a businessman."

Zi Shan was not embarrassed either, and said bluntly: "For such an evil peer, it is natural to investigate, so that we can have more cooperation in the future when the Tianjin Chamber of Commerce is not involved, isn't it?"

"Is it really cooperation?"

"As far as I'm concerned, it's really collaboration."

Ye Qiubai, Mu Fusheng, Ning Chenxin, and Hongying were all examining Zishan's expression, breathing, and even the relaxation of his muscles when he said this.

These words do not seem to be lying.

When Zi Shan uttered these words, the small movements of his body were very natural.
only.

Zishan, as the chief auctioneer of the Tianjin Chamber of Commerce, has nothing but ability.

Naturally, it also plays an extremely important role in the Tianjin Chamber of Commerce.

If even she said that she had no other intention of harming them.

What about the Shanxi Chamber of Commerce that day?

Ye Qiubai asked with a smile: "So, Miss Zishan doesn't know what the Tianjin Chamber of Commerce wants to do?"

Since Zishan said this sentence.

Naturally, I want to show my attitude to them.

"That's right, I came here to find out what the Tianjin Chamber of Commerce really wants to do."

Zishan didn't hide anything about his purpose.

"After all, for some reasons, the Tianjin Chamber of Commerce must remain neutral in this mid-latitude boundary."

"Once someone in the Chamber of Commerce wants to break this situation, then I will definitely stop it."

When it comes to this last sentence.

In Zishan's eyes, strands of cold light appeared.

but.

Ye Qiubai and the others also noticed a few pieces of information from Zishan's words.

First.

Tianjin Chamber of Commerce not only has influence in the mid-latitude boundary.

But in the low-latitude boundary, they didn't know the existence of the Tianjin Chamber of Commerce.

Then, the Shanxi Chamber of Commerce must be in the high latitude boundary today.

The second message.

That is to say, Zishan does not want Tianjin Chamber of Commerce to cooperate with other forces.

She didn't come here to deal with Ye Qiubai and the others.

Instead, I want to find out.

What exactly is the Tianjin Chamber of Commerce going to do.

Purpose is consistent with them.

That being the case.

Ye Qiubai and the others also lost some of their defense against Zi Shan.

And Zishan also determined an important message from the conversation.

That is.

Tianjin Chamber of Commerce may have cooperation with Infernal Purgatory.

Tianjin Chamber of Commerce helps Infernal Purgatory to lure Ye Qiubai and the others to those places where the encirclement has been set up.

Just don't know.

Relying on Infernal Purgatory, how much benefit will it give to the Tianjin Chamber of Commerce.

Let them be shaken too?

Even at the expense of breaking the neutral situation, the Tianjin Chamber of Commerce may face a crisis from the monitoring temple in the mid-latitude boundary...

Zi Shan crossed her arms and said with a smile, "You should be able to trust me now, right?"

Ye Qiubai smiled and nodded: "That's natural."

Finished speaking.

Everyone looked at the Dan Furnace Palace.

Ye Qiubai looked at Mu Wan'er and said, "Let's go, the inheritance here just suits you."

Mu Wan'er nodded.

Walk to the palace with everyone.

When you reach the gate of the palace.

The door opened automatically towards both sides.

And inside.

There is a ray of Danxiang like a gust of wind, rushing towards everyone!

Just smelling this Danxiang.

Ye Qiubai and the others could feel the various functions of the body showing signs of improvement!

Even, the speed of the aura in the meridians has been accelerated by more than ten times!

Just Danxiang.

Has this effect?

What level can this kind of elixir reach?

Don't think about it.

It is definitely a elixir that surpasses the level of a fairy.

And the owner of this palace, I am afraid that at least he has stepped into the alchemist...

Chapter 805 Nine Dragons Transforming God Cauldron!

Anyone who can refine fairyland elixirs is an elixir teacher.

For example, Mu Wan'er is now in the ranks of elixir masters.

And above the elixir, there is the magic elixir.

If you want to reach the realm of a divine alchemist.

It is impossible to achieve only progress on the Dao of alchemy.

If you want to refine the magic pill, if you don't have enough aura and immortal energy as the foundation.

cannot be successfully refined.

That is to say.

Mu Wan'er must reach the divine realm above the fairyland.

Only then can one successfully step into the realm of a divine alchemist.

Step into it.

See the scene in the palace.

Although it doesn't look particularly luxurious.

but.

The furnishings and the materials used for construction.

All have great bonuses for alchemy.

That is to say.

This pill furnace palace itself is a huge pill furnace.

And within the palace.

There are not many rooms.

before their very eyes.

There is only one alchemy furnace.

The shape of the furnace.

It is similar to this huge palace.

at the same time.

Around the alchemy furnace, there are also nine red fire dragons that are extremely resembling, coiling around the alchemy furnace.

Mu Wan'er seemed to be attracted by this cauldron furnace, and couldn't help walking forward.

Ye Qiubai and the others stood where they were and did not step forward.

Here, after all, is Mu Wan'er's home field.

This inheritance, only Mu Wan'er, who is an elixir master, can have the opportunity to obtain it.

When Mu Wan'er walked to the front of the cauldron furnace.

Sudden.

On the alchemy furnace, several texts appeared out of thin air!

The content is as follows.

This tripod.

It is named Jiulong Huashen Ding.

To obtain the inheritance of this seat, one must use the Nine Dragons Transforming God Cauldron to refine a elixir of the immortal level.

Required that there must be no impurities.

At the same time, there are no side effects.

Fulfill these conditions and successfully refine, you can get the inheritance of this seat, as well as this Nine Dragon Transformation God Cauldron.

Ye Qiubai and others behind Mu Wan'er.

Naturally, I also saw these words.

Zi Shan also couldn't help asking curiously: "Can your junior sister refine a fairy-level pill?"
after all.

Mu Wan'er, Hongying, Shi Sheng, and Ning Chenxin are all new to the mid-latitude boundary.

For their profile.

Even the Tianjin Chamber of Commerce, which has all-hands and eyes in the mid-latitude boundary, can't get much.

not to mention.

Mu Wan'er is so young.

In this mid-latitude boundary, one hand can count the number of people who can successfully refine the immortal-level elixir.

Just like a talisman master!

Ye Qiubai and the others smiled.

"It's not difficult for her."

Hear here.

Zishan was surprised and said: "A elixir of the immortal level requires no impurities and no side effects, which is as difficult as heaven!"

For Mu Wan'er.

It's not difficult to make immortal-level pills.

Even if she created the elixir herself, there are still immortals in it.
only.

Is this test really just like this?

To know.

This inheritance was left by a divine alchemist...
at the same time.

The doubts in Mu Wan'er's heart are also the same.

If you just use this cauldron to refine a elixir with no impurities and no side effects, it would be too simple.

After all, under the influence of Lu Changsheng.

Mu Wan'er's alchemy thought was gradually assimilated by Lu Changsheng.

If there are impurities in a pill.

There are also side effects.

That also deserves to be called a elixir?

Shit is not.

If these words are heard by fellow alchemists.

I'm afraid I will spurt three liters of blood...

It's okay if there are no side effects, just refine the recovery type of elixir.

But what if it is to improve the realm?

Is it a pill to speed up the cultivation speed?

Can this frankly have no side effects?

Wouldn't this make him dependent on the elixir, making it even more difficult for him to break through the shackles when he breaks through to a higher level in the future?
but.

If it is placed with Lu Changsheng.

Then it is different.

A stove of pills, you can make it as you like.

No side effects.

For breaking through the realm in the future, except for the lack of experience that may have a little impact, the rest?

It doesn't have the slightest impact.

Mu Wan'er looked at the Nine Dragons Transforming God Cauldron.

After thinking about it.

Is it impossible?

What is the mystery of this tripod?

thought of this.

Mu Wan'er first thought about what kind of elixir to refine.

Since it is required to have no side effects.

At the same time without any impurities.

Then refine a recovery pill that Mu Wan'er is best at.

After all, from the beginning.

Mu Wan'er used the recovery pill to get started.

After taking out the materials.

Follow the steps to put the materials into the furnace.

When preparing to release the flame to refine the essence.

And it is at this moment.

The flame released by Mu Wan'er was instantly swallowed by the nine-headed fire dragon coiled on the alchemy furnace!

The temperature on the alchemy furnace has not increased in the slightest!

In this case, how to refine the materials?

Mu Wan'er frowned slightly.

Sure enough.

This pill furnace is not simple.

For an alchemist.

The better the alchemy furnace, the greater the quality of the finished product and the alchemy process.

But.

The better the pill furnace, the more difficult it is to control!

The consequences of not being able to control the pill furnace.

Either it is impossible to activate the alchemy furnace at all to refine materials.

This is the current situation of Mu Wan'er.

Either you can't directly control the alchemy furnace, and directly fry the furnace!

Take control.

That is to get the approval of Dan furnace.

It has reached the level of Dan Furnace, which even Mu Wan'er can hardly control.

Generally, there is a hint of wisdom.

If you can't get the approval of Pill Furnace's spiritual wisdom.

cannot use it.

So.

How to do it?

Mu Wan'er simply sat cross-legged in front of the alchemy stove.

Immediately stretched out his hand and put it on the alchemy furnace.

Close your eyes, strands of breath flowed down Mu Wan'er's hand into the alchemy furnace.

Rear.

Seeing this scene, Shi Sheng couldn't help wondering: "What is Junior Sister Wan'er doing?"

Zishan beside him couldn't help explaining: "The higher the level of the pill furnace, the more difficult it is to control."

"I'm afraid this cauldron pill furnace already has spiritual wisdom, so if you want to control it, you must first get its approval."

However, this cauldron furnace also attracted Zishan's attention.

In the mid-latitude boundary, there will be a pill furnace of this level?

This endless sea area is really interesting...

Sudden.

Zishan also thought of the sentence in the message.

Endless Sea, Ragnarok.

Could it be that the battlefield in the Endless Sea is not just a battlefield in the mid-latitude realm?

"only..."

Zi Shan frowned slightly: "Unable to fully control the alchemy furnace, it must be of a quality without any impurities and without any side effects."

"Even if you look at the entire mid-latitude boundary, no one can do it."

Hear here.

Shi Sheng laughed and said, "Junior Sister Wan'er can do it."

Zi Shan looked over and asked with a smile: "It seems that you have great confidence in your junior sister?"

Shi Sheng replied without hesitation: "Junior Sister Wan'er's dedication and talent for alchemy are obvious to all of us brothers and sisters."

Ye Qiubai and the others also nodded.

After all, he is the only descendant who has inherited the master alchemy!

Chapter 806 The first test, fire control

When the level of weapons and armor reaches a certain level, then wisdom will be born.

This is a spiritual weapon.

And when there is a soul in it, with independent consciousness, and even when it can control weapons and armor, it is at least a divine weapon above the fairy weapon, and it can reach this step.

The Nine Dragons Transforming God Cauldron has obviously reached the realm of a divine weapon.

Only with the approval of the cauldron soul in the Nine Dragons Transforming God Cauldron, can Mu Wan'er control this divine cauldron and use the Nine Dragons Transforming God Cauldron to refine elixir.

When Mu Wan'er's hand was lightly placed on the Nine Dragons God Transformation Cauldron, a ray of divine soul power passed down her arm into the Nine Dragons God Transformation Cauldron.

In an instant, Mu Wan'er's soul power, as if being dragged by some irresistible force, was dragged into a space of flames!

Mu Wan'er's spirit looked around.

This piece of heaven and earth, whether it is the sky, the ground, or the surroundings, is shrouded in raging fire.

Obviously.

This is the inside of the Jiulong Huashen Cauldron, which is where the Cauldron Soul lives.

And in front of Mu Wan'er.

There was an old man in rags and sackcloth, with his back to Mu Wan'er, as if staring at the sea of flames in a daze.

Seeing this, Mu Wan'er didn't make a sound to disturb her.

also sat cross-legged on the ground, calming down.

I don't know how long it has passed.

Under the sea of fire.

The old man still didn't move, not even breathing.

It seems that he has already sat down.

And Mu Wan'er also didn't move at all.

Only the body transformed by the soul began to fluctuate a little.

The temperature of the sea of fire is extremely high.

With the strength of Mu Wan'er's soul, it is obviously impossible to swim in it and stay as long as she wants.

However, even under the sea of fire.

Mu Wan'er's mood is still stable.

There is no intention of retreating in the slightest.

And it was at this moment.

The body of the old man who had not moved for a long time actually stood up.

In the process of standing up.

There was a clicking sound all over the body...

The old man turned around, faced Mu Wan'er, and said coldly: "Okay, get up, don't hold on."

After hearing these words, Mu Wan'er got up.

"You, want the master's inheritance?"

Mu Wan'er nodded without hesitation.

"You, want to control me?"

Mu Wan'er still nodded.

Ding Hun saw this, and said: "Your talent is indeed good, and you already have the strength to refine immortal-level pills at a young age."

"However, if you want to control me at the level of a fairy-level alchemist, that would be a bit too simple."

Mu Wan'er heard the words and said: "Senior has any test, just say it. If Wan'er fails to pass, she will not disturb Senior Qingxiu, and will leave on her own."

Ding Hun nodded and said: "It's interesting, since that's the case, I will give you this chance."

"If you want to control me, then first use this sea of fire to refine a good-quality pill without a pill furnace."

Mu Wan'er froze for a moment and said, "Is the quality not bad? Doesn't senior have a restricted level?"

Hearing Mu Wan'er's question, Cauldron Soul couldn't help laughing, and said, "Level restriction? It's already very difficult for you to successfully refine a pill with this sea of fire."

"You do this first, and then talk about the next test."

Finished speaking.

Ding Hun ignored Mu Wan'er, and sat down again on his own.

Mu Wan'er looked at the sea of flames around her.

Ding Hun said that the pill furnace cannot be used, only the sea of fire here can be used to refine a pill.

There is no grade quality requirement.

As long as it is a pill!

Mu Wan'er was puzzled, this? Wouldn't it be too simple?
but.

When Mu Wan'er started to try, she understood why Cauldron Soul would say such words.

When Mu Wan'er wanted to control the sea of fire to refine the essence of the material.

The violence of the sea of fire was beyond Mu Wan'er's imagination!

Under Mu Wan'er's control, she kept on rampage!

Even the heat cannot be fully controlled!

The moment when the sea of fire touches the material.

Not to mention the essence, even the dross is gone!

Seeing this scene, Cauldron Soul sneered and shook his head, "Sure enough, the trainee this time is still so weak..."

...

Time passed day by day.

Under the protection of Ye Qiubai and others.

Mu Wan'er was still sitting in front of the Nine Dragons Transforming God Cauldron with her eyes closed.

The soul wanders in the tripod body.

In the space of the Jiulong Huashen Cauldron.

During these seven days.

Mu Wan'er has already been able to control the trend of the sea of fire, but the fire is still unable to be accurately controlled, which will result in the essence of the material being unable to be extracted perfectly.

Seeing this, Mu Wan'er was still dissatisfied and continued to try.

However, Cauldron Soul, who was watching from the side, put away his contemptuous eyes.

Seven days.

Already able to control the fire, this kind of talent in fire control can be described as amazing.

Wants to become an alchemist.

It not only requires a stable state of mind, control over medicinal materials, and hard-working alchemy exercises.

At the same time, the ability to control fire is also very important.

The higher the level of the pill.

The requirements for dosage are becoming more and more stringent.

If in terms of fire control, you can't achieve extreme precision and no gaps in your strength, then you will fail again and again when refining high-level pills.

certainly.

The high-level elixir imagined by Cauldron Soul is naturally at least a magic elixir.

...

Another nine days passed.

In the space of Nine Dragons Transforming God Cauldron.

Mu Wan'er suddenly yelled!

"Dan Cheng!"

In front of her, in a pill furnace made of condensed flames, a ray of green light was shining.

When Mu Wan'er flicked her hand slightly, the fire dissipated and the pill furnace disappeared.

The elixir in it also lightly fell into Mu Wan'er's hands.

Immediately, he handed it to Cauldron Soul with an unnatural expression.

said: "Does this mean that I have passed this first test?"

Cauldron Soul looked at the elixir in his hand.

Although there are still impurities in the elixir, they are already pitifully small, and can be said to be negligible.

It is already very enchanting to be able to reach this level after just mastering the fire control ability.

Ding Hun couldn't help asking: "Even if you are talented in controlling fire, it is impossible to master it so quickly."

"Have you practiced before, or have you inherited fire control?"

Mu Wan'er thought for a while, then shook her head and said, "No, I just watched too much."

Seeing a lot?

Ding Hun frowned.

Immediately afterwards, Mu Wan'er continued: "Every time my master refines the elixir, I will watch from the sidelines."

After all, Lu Changsheng's method of refining elixirs is simple and crude.

But isn't that precisely the precise control that depends on the ability to control goods?

"It's just that with my current fire control ability, I can't reach the level of Master..."

Chapter 807 Ragnarok

Seeing a lot?

Ding Hun nodded slightly and said: "That's normal. The alchemist you watched should have excellent fire control ability, so you have a certain understanding of fire control ability in your subconscious mind."

"However, you have passed this test."

Mu Wan'er asked: "Senior, what about the next test?"

"The next level test?" Cauldron Soul raised his hand, just now Mu Wan'er handed him the pill, and said: "You have already cleared the level in advance, with the ability to control the goods, control this sea of fire to refine an impurity with only one A heavenly immortal grade pill."

"And your recovery pill has obviously achieved the mission goal."

Mu Wan'er was slightly taken aback, and said, "So, I have passed all the tests?"

Ding Hun nodded and said: "Your talent is enough, but you still can't fully display my ability."

"However, it is enough for you to use at this stage. After you go out, first use the Nine Dragons God Transformation Cauldron to refine a Celestial Immortal Medicinal Pill. After completing the trial, let's get acquainted with the Nine Dragons God Transformation Cauldron by the way."

After Mu Wan'er cupped her hands slightly to thank her, Shenhun withdrew from the cauldron soul space.

Outside.

Mu Wan'er opened her eyes.

Immediately, under the surprised eyes of Ye Qiu, Bai Shisheng, Zishan and others, as well as the great elder of the Saint Talisman Sect.

I saw Mu Wan'er raised her hands slightly.

at the same time.

The Nine Dragons God Transforming Cauldron is also slowly vacated!

As Mu Wan'er put the materials into the tripod body, she waved her right hand slightly.

Time to stop!

The nine red fire dragons coiled around the body of the Nine Dragons Transforming God Cauldron, all of them spewed out raging fires from the mouths of the dragons at the same time!

Enclose the Jiulong Huashen Cauldron!

See this scene.

Zi Shan looked surprised, and said: "It's amazing, to be recognized by this level of Cauldron Soul. It seems that your junior sister has a limitless future in the way of alchemy."

"How about letting her come to our Tianjin Chamber of Commerce as a guest alchemist?"

Zishan suddenly smiled coquettishly and said: "You don't need to leave the original sect, you just need to refine a batch of pills for the Tianjin Chamber of Commerce every once in a while, and with the background of the Tianjin Chamber of Commerce, the reward will definitely not Thanks to her."

There was no joke in Zishan's words.

She is serious.

She really fell in love with Mu Wan'er's alchemy talent!

Ye Qiubai heard the words, shook his head with a chuckle, and said, "Miss Zishan should ask her junior sister Wan'er about this matter, after all, we can't decide these things for her."

Zi Shan smiled and nodded.

Looking at Mu Wan'er's posture when she was refining alchemy, she couldn't help showing a look of pity in her eyes.

For an alchemist of this level, it is really a waste in this mid-latitude boundary!

And at this moment.

Mu Wan'er decided to use the Nine Dragons Transforming God Cauldron to refine a peak immortal-level recovery pill!

After the fire control ability has been greatly improved, it must be able to make the elixir more pure, and the success rate will naturally be higher!

Time passed by one minute and one second.

During half a day.

Mu Wan'er successfully refined the recovery elixir of the immortal peak.

Among them, there is no trace of impurities!

When that ray of medicinal fragrance floated in the palace.

Ye Qiubai and the others couldn't help but look at each other and smiled.

The Great Elder of Shengfu Zong said with emotion: "It's incredible... At this age, it is possible to refine the elixir of the peak of the immortal level. I am afraid that it has never appeared in the history of the entire mid-latitude boundary?"

At the same time, I was also terrified.

Mu Fusheng, his senior brothers and sisters, are they all so perverted...

Each one has extremely enchanting performances in different fields.

Where did they come from?

Zi Shan at the moment also has this kind of thought in his heart.

She also became more and more curious about who was behind them.

When the time comes, go back and use the information network of Tianjin Chamber of Commerce to investigate...

And at this very moment.

When the elixir is refined.

Outside the Pill Stove Palace, there are nine huge fire dragon sculptures surrounding the side, and there is a ray of red light blooming out of its eyes!

The mouth of the nine-headed fire dragon also released raging fires at the same time!

Immediately, gathered on the dome of the palace!

And it is at this moment.

In front of Mu Wan'er.

An illusory figure gradually emerged.

is a man who looks extremely young.

However, those eyes that seemed to have experienced vicissitudes revealed his age.

The man said with a smile: "I don't remember how many years have passed, but finally someone was able to get the approval of Nine Dragons and control this Nine Dragons Transforming God Cauldron."

"You are very good."

Mu Wan'er bowed with a smile, and said, "Senior praises you."

The man smiled and said: "Since you have passed all the tests, then accept the mantle of my seat."

"However, before accepting the mantle of this seat, this seat needs you to know something."

Mu Wan'er was slightly taken aback.

However, before she could react.

The man's finger has already lightly touched the center of Mu Wan'er's eyebrows.

Time to stop!

In her mind.

There are one after another pictures, just like watching flowers on a horse, passing by continuously.

But it was also engraved in Mu Wan'er's mind.

In the screen, a sea appeared.

The sea.

It seems to be the endless sea...

But.

Over the endless sea.

Mu Wan'er saw a scene that she will never forget...

The sky is dim yellow.

I saw that the sky was actually divided into nine layers.

Each layer of clouds stood in golden light armor, and behind them, there was actually a halo of light clinging to them.

Every time you go up one level.

There will be an extra halo behind him.

Up to the ninth layer of clouds, the top few people have nine halos behind them.

And their aura seemed to have turned into substance.

It turned into infinite golden light, illuminating the whole world from top to bottom!

Under the clouds.

are countless ascetics.

These ascetics have extremely powerful aura.

Even the powerhouses in the mid-latitude realm are not worth mentioning in front of these ascetics.

There is no comparison at all!

In the sound of war drums resounding through the sky and the earth.

Under the sweeping stormy sea.

The two sides began a life-and-death fight...

The screen came to an abrupt end.

The man said with a smile: "Accepting the inheritance of this seat means that you have to take on some responsibilities. Although you don't know what the responsibilities are now, after watching this scene, you should understand that it is very heavy, right?"

Mu Wan'er nodded.

The man saw this and asked: "Then do you still want to accept the mantle of this seat?"

Mu Wan'er thought for a while, then nodded and said: "I accept."

Um.

Anyway, I don't know what it is.

Accept it first.

What if things don't happen?

Even if it happens, Master should be able to handle it...

After hearing Mu Wan'er's words, the man smiled and nodded.

Immediately, it turned into a flash of light, which directly penetrated into the center of Mu Wan'er's eyebrows!

Chapter 808 Dan Bible, Mystics

For Mu Wan'er.

She believes that her own strength is not able to truly help the brothers and sisters share the troubles.

Although the alchemy level has reached an extremely high level, it can be refined to the realm of immortal-level elixir.

However, Master's elixir is used.

So, at some point, it's not very practical.

It is precisely because of this.

Mu Wan'er wanted to urgently improve her own strength.

And the man said responsibility.

Mu Wan'er, who had no burden at all, suddenly had a pressure, which could motivate herself to climb up even harder.

Only in this way can we better help the brothers and sisters.

During the battle, she can also stand by their side.

When that ray of soul penetrated into Mu Wan'er's eyebrows.

The huge amount of information occupied Mu Wan'er's sea of consciousness at this moment!

And the content of it.

But Mu Wan'er was very pleasantly surprised.

This is a cultivation method that can become a sage with one alchemy!

named Dan Bible.

If you want to practice this exercise, the premise is to change the direction of the meridians in your body.

The qi of alchemy flows through the meridians in the form of aura, and then flows into the dantian.

Simply put.

is to enter the sage with the way of alchemy.

While Dan Dao grows, one's own realm can also grow accordingly!

After getting this exercise.

For Mu Wan'er, who is immersed in alchemy, it can't be said to be perfect!

but.

This first step to change the direction of the meridians is an extremely difficult and painful step.

Here, you can't let go of your mind to practice.

In case someone finds this and gets disturbed.

In the process of changing the meridians, the meridians will be disordered and the breath will be confused.

What's more, the meridian is cut off, and the cultivation base is lost!

Mu Wan'er told Ye Qiubai Hongying and others about this matter by voice transmission.

After hearing the effect of the practice of Dan Bible.

Ye Qiubai and the others were also slightly surprised.

Is there such a mysterious exercise in the world?

After reacting.

Ye Qiubai immediately said: "Don't practice yet, let the master help you to see it when the time comes, with the master's attainments, not only will it allow you to practice the first step safely, but it may also make this practice more powerful. Perfect, check for leaks and make up for gaps."

Mu Wan'er nodded.

Zi Shan looked at several people, and naturally knew that the other party was using sound transmission.

smiled and didn't say anything.

What inheritance is obtained, naturally it will not be easily revealed to others.

This is normal.

At this moment, Zi Shan smiled and said, "Should we go to the place of inheritance that you bid for in the Tianjin Chamber of Commerce?"

Ye Qiubai nodded, looked at Zishan and said: "Miss Zishan should also be eager to know whether Tianjin Chamber of Commerce is cooperating with Infernal Purgatory, and what kind of cooperation is there?"

Zi Shan was noncommittal, and said: "Of course, if I really find out that the Tianjin Chamber of Commerce has broken the rules, I will deal with it."

The voice fell.

Everyone couldn't help turning their eyes to Zishan.

Tianjin Chamber of Commerce broke the rules?

What are the rules?

And, can she handle it?

There are only two situations where a chief auctioneer can say such a thing.

The first type, Zishan is a person without brains.

The second type, her identity, is stronger than they imagined.

Obviously.

Zishan cannot be the first type of person.

Ye Qiubai nodded and said, "If that's the case, then go to the place where the Sword God inherits first?"

Hongying chuckled and said, "You are a senior brother, so you can decide."

After deciding.

Everyone left this place and rushed towards the place where the sword **** passed on.

And after they left.

Darkly.

An old man appeared slowly.

I saw a medicine basket behind him, holding a vigorous green grass root in his hand.

If Mu Waner was here, she would definitely be able to recognize her.

What the old man holds is the living green root!

I saw the old man looking at the direction Mu Waner and the others left, smiled and said: "Mu girl, using this living green root for a fortune, shouldn't it hurt you?"

The voice of the voice was like a breeze, blowing gently, and then dissipated.

The figure of the old man is also the same...

...

The front part of the endless sea area has basically been explored.

And those ascetics who are still not satisfied.

Also started to form a team and headed towards the middle section.

After all, such opportunities are rare.

Wait until the terrifying monsters in the endless sea react and return to their own territory.

At that time, the endless sea area will become an absolute forbidden area again.

Can't take a half step!

At the same time, with the influx of more ascetics.

In the middle of the endless sea area, there are also many places of inheritance to be discovered.

For example, Le Zhengchi received the inheritance of a strong man who entered Taoism with the piano.

Strength skyrocketed!

It actually directly broke through to the fairyland.

For example, Su Muyou, under the protection of many powerful members of the Su family.

Also got the inheritance of a strong man who practiced Dao Dao.

Actually stepped into the threshold of the Dao Dao in one fell swoop, and at the same time stepped into the early stage of the fairyland!

Lin Zhinan also got his inheritance.

Chen Hui is the same.

Cultivation levels have increased significantly!

What surprised people even more.

Some unknown ascetics.

It turned out to be out of nowhere.

In the endless sea, he has gained a great reputation!

A sword cultivator is a half-step fairy sword realm, and his realm has reached the peak of the fairyland!

A cultivator who cultivates the soul, his soul attacks, disappears, even if he is a strong person at the peak of the fairyland, he will be killed directly if he is not careful!

There is also a cultivator who has a very special skill, who can summon a swamp field at will. Once caught in it, the realm is not enough, and it is impossible to break free from it!

And the origin of these people.

Even the top forces like the Su family and the Saint Talisman Sect don't know their origins.

And the leaders of the major forces, seeing this scene, gradually became agitated in their hearts.

The birth of a young generation of geniuses, rapid growth.

Those old monsters, as well as the disciples of the old monsters, were born one after another.

Some unknown ascetics turned out.

The opening of the endless sea.

The first appearance of the high-latitude boundary clue.

All in all.

Does it all indicate that a great era is coming?

Some peaks of the Celestial Wonderland, as well as the suzerains of the top forces, felt it in their hearts.

A huge storm is condensing, and in the near future, it will sweep the entire mid-latitude boundary!

Let the pattern of the mid-latitude boundary be completely disrupted!

This is opportunity.

It's also a disaster.

If you are in this storm, you can withstand the storm and climb up.

Then, he will become the king after this storm.

But a wrong step.

will also be directly destroyed by this storm!

Even for those top forces, the same is true.

is riding the wind.

Instead, fall into the abyss.

It all depends on the choices of these forces...

Chapter 809 Mo Qixun

In a place of inheritance.

The inheritance here, according to the information, is the inheritance of a strong man who has a deep understanding of the meaning of wind.

And here.

Gathered two forces.

One side is Ren Yinlong, a Tianjiao disciple of the Four Elephant Sect.

Ren Yinlong's strength has reached the middle stage of the Earth Wonderland.

is the master of the Four Elephant Sect, the heir of the appointed master of the Four Elephant Sect!

So, by his side, there is even a strong guard in the early days of the Celestial Wonderland.

This is what Ren Yinlong said on his own initiative, that he cannot have too many protectors.

Otherwise, it will have an adverse effect on one's character and growth.

And the other side.

But there is only one person.

This person has no expression on his face, his face is flat, his eyes are like a calm lake, without waves.

Wearing a linen robe, although a bit worn out, it is refreshing and capable!

One hand is behind the back, and the other hand is holding a sword. The blade is very thin and looks very light.

is a thin sword.

Ren Yinlong looked at the man with a calm face, frowned slightly, and asked: "Only my Four Elephant Sect has information about this place, so I know the exact location of this place."

"And you, how did you find it?"

The man replied calmly, and his tone was even more emotionless!

"Following you."

Follow us?

Ren Yinlong, as well as the elder beside him at the early stage of the Heavenly Wonderland, were stunned.

I saw Ren Yinlong looking at the elder of the Heavenly Immortal Realm beside him, and asked in an unhappy tone: "Elder Ming, didn't you notice that there was a tail behind you?"

Was questioned by Ren Yinlong.

Elder Ming's face was a little ugly.

Of course, this is not aimed at Ren Yinlong's tone, but doubting himself.

The other party is obviously only the peak of the fairyland.

And he is a strong man in the Heavenly Wonderland!

However, he, a powerhouse in the Celestial Wonderland, failed to notice that they followed behind them?

How is this done?

Elder Ming couldn't help asking: "Do you have a treasure that hides your breath?"

The man shook his head and said: "I don't want you to find out, it's easy. No treasure is needed."

Heard the words.

Ren Yinlong couldn't help grinning, on his hands, a pair of gauntlets shining with black light had covered them at some point.

"You are crazy, but you can escape the perception of elder Ming by being able to reach the peak of the fairyland, and you do have the capital of madness."

"Let me see how strong your actual combat ability is!"

After finishing speaking, Ren Yinlong rushed towards the man!

Elder Ming did not stop him from this.

Because he knew Ren Yinlong's character.

Crazy!

Crazier than anyone else!

But he has crazy capital!

As an evildoer of the Four Elephants Sect, he was appointed by the Sect Master as the next Sect Master's successor in the Earth Fairyland.

Its strength is beyond doubt.

In the middle stage of the Earth Wonderland, he killed a strong man in the late stage of the Earth Wonderland, and then repelled a strong man at the peak of the Earth Wonderland!

This kind of record, is there no capital for arrogance?

The man watched Ren Yinlong rushing towards him, and couldn't help asking: "Aren't you going to ask my name?"

Ren Yinlong sneered while rushing forward, "Why do you ask the name of a dead person?"

Heard the words.

The man nodded calmly, slowly raised the rapier in his hand, and said seriously: "Indeed, you don't need to ask the name of the dead."

Finished speaking.

A sword pierced towards Ren Yinlong!

There seems to be no breath on the sword!

It seems to be an ordinary, ordinary stab.

Ren Yinlong laughed even more when he saw this: "A thin sword can also compete with my fist?"

Finished speaking.

Just let Yinlong roar like a tiger!

is behind him.

Qinglong, Baihu, and Xuanwu appeared at the same time!

Immediately, it turned into a force and merged into Ren Yinlong's fists!

Elder Ming watched this scene with admiration.

In the fairyland of the earth, he was able to completely condense the phantoms of Qinglong, Baihu, Xuanwu, Ren Yinlong's talent, and the elders of the Four Elephants Sect were convinced!

But, the next moment.

Elder Ming's eyes froze.

I saw that the man seemed to be stabbed in an ordinary way.

After encountering Ren Yinlong's fist.

Ren Yinlong's figure also stagnated in an instant at this moment.

In his eyes, there was a look of disbelief.

On his gauntlets.

has a small hole.

If you look in along the small hole.

Then you can see the scenery behind Ren Yinlong...

That is to say.

The man's sword went along Ren Yinlong's arm and directly pierced Ren Yinlong's body...

If this is the only way, Ren Yinlong cannot be killed.

But.

While piercing.

A storm-like sword intent surged in his body!

The body's meridians, bones, flesh, and dantian are all strangled at this moment!

There is no possibility of survival at all!

Ren Yinlong was bewildered, and fell straight down like this...

The man lowered his head, looked at Ren Yinlong's body, and said flatly: "Although you said that the dead don't need to know the name, but out of politeness, I'll tell you."

"The one who killed you, Mo Qixun."

Elder Ming finally reacted, although he didn't know how Mo Qixun did it.

However, Ren Yinlong was killed by others under his nose!

The other party is just a person at the peak of the fairyland!

If this is known by the Suzerain.

Is there still a way out?

Elder Ming roared, but didn't say anything.

The breath on the body surged out at this moment!

The coercion of Heavenly Wonderland.

Like the Milky Way in the sky, pouring down towards the earth, it went straight to suppress Mo Qixun!

Mo Qixun's expression remained calm.

But his whole body has the meaning of a wind, and the meaning of a half-step fairy sword, surrounding him.

Cleverly, the suppressing power of Elder Ming's Heavenly Wonderland was completely offset and resisted.

"Damn you!"

Elder Ming let out a roar, and threw his fist at Mo Qixun!

The power of Qinglong, Baihu, Xuanwu, Suzaku, and the four elephants shines unprecedentedly at this moment!

All gathered on the fists of Elder Ming!

One punch blasted out, and the roar of dragons and tigers!

turned into a monstrous fist wind, blasting towards Mo Qixun!

Seeing this, Mo Qixun nodded slightly: "This is what it looks like."

Immediately, the rapier was raised.

In his body, there is actually a huge immortal energy coming out of his body!

Seeing this, Elder Ming's face changed drastically!

Immortal energy? !

"Such a huge fairy energy?! Even the Heavenly Fairyland doesn't have so much! Who are you?!"

In Mo Qixun's calm eyes, something called ambition finally appeared.

"Me? My name is Mo Qixun, and I am the one who wants to rule the mid-latitude realm."

Finished speaking.

Mo Qixun cut off with a sword.

split the fist wind.

Immediately, he rushed towards Elder Ming!

After a stick of incense in the past.

Mo Qixun turned around and walked towards the place of inheritance.

And behind him.

The corpses of Ren Yinlong and Elder Ming were placed neatly...

It's just that Elder Ming's body is covered with fine holes...

Chapter 810 Inheritance of the Sword God, full of doubts

Things like this are happening one after another.

Xuanyuan Huangzong, Shengfuzong, and the Su family were all attacked by some unknown ascetics.

And these people seem to have found the top forces in the mid-latitude boundary.

In a relic of a spell that surpasses heavenly spells.

The Tianjiao of Xuanyuan Huangzong was seriously injured by a cultivator named Wu Xubai who attacked his spirit and made him unpredictable.

Although he escaped under the cover of the elders of the sect, his soul was seriously injured.

also brought his path of cultivation to an end.

Unless the soul can be repaired.

But this level of damage to the soul, how can the general method of soul recovery be able to do it?

Sacred Talisman.

An early-stage elder in the Heavenly Immortal Realm of the Saint Talisman Sect is in the process of exploring the endless sea.

was blocked by a monk using the swamp field.

The other party was actually at the peak of the Earth Fairyland, so he trapped the elder of the Saint Talisman Sect in the Heavenly Fairyland to death in the swamp!

Su Family Su Muyou.

was also intercepted by a knife repairer.

The Lingbao he obtained was snatched away by the other party.

Fortunately, Su Muyou was not seriously injured.

However, under the siege of several Celestial Immortal Realm elders, the opponent was still able to retreat intact.

How terrifying is this?

And this incident quickly swept through the intelligence networks of the major forces like a storm.

Sixiangmen, Xuanyuanhuangzong, Shengfuzong, Sujia, are all furious!

It's not just a face-shaming anymore.

It can already be said that it is standing in front of them, pointing their noses, waiting for the war!

But.

While they were angry, they were also very puzzled.

Why do so many of this little-known evildoer appear at one time?

And they are all competing against top forces like them.

If there is no premeditation.

This is a bit too strange.

For this matter.

The major forces also began to search for the information and locations of these people.

Even at the expense of using a reward order.

As long as you find the location of the opponent, you can get a lot of rewards.

...

the other side.

Infernal Purgatory also learned this information.

At this moment, Qiu Genyin also brought the people from Biluo Huangquan Palace here.

also brings this message.

Qi Shadao couldn't help being amused after hearing this.

"God really helped me too!"

At this time, other forces stepped in, causing such a big chaos.

Even more so, the eyes that were originally locked on their Infernal Purgatory attracted a part of the past.

Is there anything more perfect than this?

Qiu Genyin nodded and said, "I don't know what the ancestor is going to do?"

In Qiu Genyin's words, he was not just asking how to deal with the major forces and when to do it.

is asking even more.

In the main hall that originally belonged to the suzerain, there lived those powerful men from the upper realm.

How to deal with it.

Qi Shadao sneered and said: "These forces are not in a hurry. After the work of those seniors is completed, these things will naturally be easy."

"My ancestor, what I have to do now is to wait for the fish to take the bait."

Qiu Genyin naturally knew about Qi Shadao's plan.

Can't help but strike: "With all due respect, those people's thinking is extremely flexible, I'm afraid they have already seen the clues now, maybe this strategy has no effect on them."

Qi Shadao had an indifferent look on his face, "Of course I know this, the ancestors, but so what if they find out?"

"When doubts are not solved, they will still step in."

Qiu Genyin smiled: "Then wait for the good news from the ancestor."

"That's natural." Qi Shadao nodded, then looked at Qiu Genyin and asked, "You Biluo Huangquan Palace, should you be ready?"

Qiu Genyin shrugged noncommittally, and said lightly: "Now that we have reached a cooperation with the ancestor, we will naturally show our sincerity."

"So good."

...

Sword God Inheritance.

Judging from the information of the Tianjin Chamber of Commerce, the place of its inheritance is a sword **** whose realm of kendo has surpassed the realm of fairy swords and reached the realm of divine swords.

To know.

Looking at the entire mid-latitude realm, there has never been a sword cultivator who has truly stepped into this highest realm in their opinion.

If you can reach the realm of the sword god.

I'm afraid the people in the fairyland are not enough to watch.

Or.

The Realm of the Sword God.

It's like those ascetics who are at the peak of the fairyland, seeking to break through that layer of shackles.

It is also a realm where there is no clue.

Now there is the information of Sword God inheritance.

Naturally, those sword masters were also crazy about it!

At this time.

Zi Shan said suddenly: "There are two sword cultivators following behind us."

Heard the words.

The Great Elder of the Shengfu Sect was taken aback for a moment, and then immediately let go of his sensory investigation.

But no trace was found!

Feeling this, Zishan couldn't help laughing: "Senior, the opponent's strength is far above yours, and I only used foreign objects to perceive it when the opponent was approaching."

Hearing this, the Great Elder of Shengfuzong couldn't help taking a deep look at Zishan.

The background of Tianjin Chamber of Commerce.

Sure enough, it was unusual.

"The other two are stronger than me, so I'm afraid it will be a little troublesome."

The Great Elder couldn't help but frowned and said, "Do you want to send a voice transmission to the suzerain so that he can send support."

Mu Fusheng immediately nodded and said, "Transmit the sound, just in case."

Zishan also asked: "Then continue to go to the place where the sword body is inherited?"

"The opponent's purpose is probably to follow you to the place where the sword **** is inherited, and then plunder the inheritance."

Hear here.

Ye Qiubai smiled and shook his head, "No, since they are willing to follow, let them follow."

"Exactly, in case there is an ambush there, we have two more thugs."

...

Three full days.

Ye Qiubai and the others finally arrived at the island where the inheritance marked in the information was located.

The endless sea area is too vast, it can be said that it occupies 70% of the entire mid-latitude boundary.

It took three days, and it wasn't too far away.

However, the moment when the island is seen.

Ye Qiubai and the others landed directly in no hurry.

Instead, relying on Zishan, she sensed her surroundings.

But.

The result was unexpected.

There is no ambush around.

According to Ye Qiubai's guess.

There is a high probability that there will be many ambushes in Infernal Purgatory.

in case.

Zi Shan activated the magic weapon again, and after sensing it for a while, he finally confirmed it.

There is indeed no ambush around.

This made Ye Qiubai and the others puzzled.

Could it be that their guess was wrong?

Could it be a coincidence?

Zishan also frowned slightly.

Ruoruo really is a coincidence.

Why did you deliberately let the Saint Talisman get this information when evaluating it?

Nothing more.

The uneasiness and doubts in my heart at that time were genuine.

Perhaps, the purpose of Infernal Purgatory is not here...
