

127 Chapter 127 Common efforts

Meredith's POV 1

"Sweet baby girl, you are a little terrorist! You know that?" I ask Theo tickling her lightly and she is just making some sounds that seem like giggling.

"I am sure you know, but your daddy has a little and will break a blood vein. Don't you want to see him smiling?" and I kissed her little feet that were moving continuously.

Theo is three weeks old and she is more and more beautiful every day, now she already looks like a baby with a normal delivery due. Her dark brown hair is a little curly and those two big black eyes melt my heart every day. I can't even believe that I am the mother of this fantastic kid.

"What are you doing?" Vivi and Cara asks sticking their heads in the door of Theo's bedroom, where I stayed most of the time in the last three weeks. Max made this room perfect.

"I am discussing with my daughter about the fact that she needs to have a happy daddy, because she sabotaged all our attempts to be together, and I miss Max"

"How did Max react about this?" Cara asks me, knowing that before being with me he was a

hearing him.

"James and Lori will stay with us this evening. They want to spend time with Theo."

"They do?" I ask hoping that I will have some time with him, alone...Goddess help me!

"Yes, I am coming home in half an hour, with them. Wait for me" and he ends everything.

"Change of plan, Vivi!" and I start to laugh. "Lori and James are on their way here to stay with Theo, so thank you for your good intentions."

"She will stay with her tomorrow. I suddenly hear Luke, and Sam appears behind him and goes straight to Cara and takes her in a bridal stay, almost scaring her.

"Sam!" she whispers "What are you doing?"

"Do you need my mate here, Mer?" Sam asks, looking into my eyes.

"No, she was just visiting Theo"

"In this case, excuse us!" he said and walked out of the room with her, while she was telling him that he is rude.

Luke goes to Vivi and starts to play with Theo.

"I asked Max to let us stay with Theo tomorrow" he tells Vivi. "It will help us to win some experience with those tiny pups. What do you

"I asked Max to let us stay with Theo tomorrow" he tells Vivi. "It will help us to win some experience with those tiny pups. What do you

say?"

"I want that!" Vivi said, smiling at him. "Can we invite Françoise here? He would like to meet Theo."

"If he wants that of course!" Luke said and kissed her and then looking at me he said:

"We will keep an eye on her until James and Lori will come, go and change, Max will take out to have dinner tonight.

"He will?" and I swear that I feel like squealing of joy because I really miss my time alone with him. Theo was so unexpected that we didn't have time to adapt.

So after a short "THANK YOU BOTH!" I ran directly into our bedroom, opened my closet and I started to look for the perfect outfit for tonight.

"What are you doing?" I hear Max coming from behind, and hugging me.

"Luke told me that we will have dinner together, so I am looking for a dress."

"Dinner?" and he laughs "Better look for some jeans and a warm sweater."

"What?" I said, totally disappointed. So it's not something romantic.

"We will go to Tofino" and he winked at me, "but

it's a little bit cold tonight and there we will." he said but I stopped him, jumping into his arms and kissing him directly.

"Let's go Max!" I tell him, stretching out my hand and taking from my closet the first pair of jeans and the first sweater that came before me.

"No special preparation anymore?" he asks laughing.

"No, I just want to be with you. Alone!" I tell him, blushing a little, and he leans and kisses my lips.

"Then, let's go!" and he caught my hand. "Let's go to our nest love!"

And I almost ran out of the house with him just to come face to face with James and Lori.

"Have fun, Mer!" James winks at me, and helps Lori to walk the front door stairs. Her belly is bigger and bigger every day.

It took Max almost two hours to reach Tofino but I almost died in anticipation, waiting to reach our Paradise. As soon as he stopped his motorcycle I jumped on his arms and whispered in his ear.

"I want you NOW, Max! Take me or I will die!"

"You will?" he asks, laughing hard. "Then you don't know how I feel right now!"

And he takes my hand and puts it between his legs making me feel a hardened cock.

"Oh, Max!" I whisper again but laugh this time.
"You know exactly what I need."

And I swear to you that he becomes even bigger just hearing me talking to him.

He lifted me in his arms, throwing me over his shoulder, slapped my ass and said:

"Then I will show you my cock!"

Let me ask you, have you ever seen a desperate person? Someone who would do anything to reach his goal? This is an almost identical stance. He opened the door of our nest, closing it back with his foot. He put me on our little dining table, in front of our enormous window and shredded my jeans and my panties, while he just opened his jeans, took of his thick cock and placed it in my entrance saying:

"I will take care of you all night, but first let me have this" and he slipped on me directly, making me yell. I feel like it was my first time, I felt like a virgin.

And when he was sure that I am calm and he is with all his length inside me he started to move.

I never saw Max this way.

He trembles and with every move he makes, he

is even more hardened.

"Meredith!" he whispers, his voice being so frail that I barely heard him. "I've missed you so much!"

"I've missed you too!" I tell him and I feel how my walls start to tighten around Max's member.

"I would have died another day without you!" he whispers me and moves one more time making me to ark my back while he holds me on our table and starts to roar effectively, like a fucking lion while he puts his semen inside my womb.

"Shit!" he said, opening his eyes.

"What Happened?" I ask him, seeing his pale face.

"What if I just made you pregnant again?" And he looks at me with tears in his eyes.

"Is that a bad thing?" I ask him because I don't know what to think about his reaction.

"It won't be, but Theo is small and we just need time to adapt to this new step we have, having her."

"You won't make me pregnant" I tell him, putting him inside me again. "I've been on pills since Theo was a week old."

"You were?" and he is happy again.

"Yeah, Max, now let's continue this wonderful day!"
