

## 130 Chapter 130 Love cannot be commanded !

Meredith's POV 1

"Love?" I asked that shit that stays in front of me.

"Love? Really? You entered my life with your boots and that is the only thing that goes through your head?"

"Should I have brought flowers?" the jerk asked me.

He is somewhere over his forty, a damned good example of nowadays gladiator. I would lie to say that the jerk is not looking well, but all I care about right now is how to break his neck quickly and then save Max.

"So you are my royal trophy," he said, starting to walk around me. "And you are a white wolf too, so rare for a royal, that makes you even more special."

"What the hell ? Doesn't he know that I am a primordial wolf too?" I asked Artemis.

"It seems he doesn't . A royal is strong enough, only our white fur could make him find the truth but it seems that all he knows is about royals."

I look around him. There were at least ten hunters that encircled the place.

"You are so beautiful!" he said, looking at me and licking his lips.

"What do you want for me? Because it seems to me that you are not here to kill me. " I asked him, looking in the direction where Max is. His heart is still beating.

"To kill you?" and starts to laugh.

"That was the plan but after we discovered that your parents were the last royal, we just couldn't let our future colleagues without the pleasure of hunting a royal. And you are so beautiful that you made me change my mind."

"Change your mind?" I asked him and even if I am not in the position of being arrogant I can't stand seeing this jerk acting like this."

"Do you think that I give a shit about your plans or what's in your mind?" I ask him coming closer to him while he just smiles at me.

"Superb!" he said. "Fearless and beautiful, exactly how I like it."

I just look in his eyes, the time flows and Max's chances are getting smaller and smaller.

"Tell me what you want!" I asked him.

"It's not clear? I want you. That alpha is not worthy to be with you. Imagine how powerful our kids will be?" he asked me.

"Kids that you will start to hunt, won't you?" and I think that the jerk is out of his mind to speak about something like this.

"I haven't decided yet whether or not I will keep all our kids but maybe if they are as gorgeous as you are I will let them all live."

"What about my mate?" I asked him, pointing to Max who was barely breathing.

"I'm not interested in him. He will die anyway." and he starts to laugh.

"Then I have a deal for you too. As a royal I am strong, but if my mate dies I will not be able to live anymore. So you won't get anything if he dies."

And I crossed my arms under my chest looking at him defiantly.

"Keep going!" he commands me, but now I realize that his words have no power against me.

"Let me save Max, and I will go with you without making a big fuss. But if my mate dies, believe when I tell you, you will all die here today. And that's a promise."

"Just for the sake of the game, I will let you save him. I can kill him later when he will try to take you away from me" and he starts to laugh.

"Who the fuck are you?" I ask him because I

never saw a human so demonic as this jerk.

"I didn't introduce myself? But where are my manners?" and he tries to hold my hand, but I withdraw it immediately.

"You will not touch me until Max is not safe." I tell him between clenched teeth.

"I am Michele Manganiello" he said, extending his hand, but I didn't even look at him, but I ran directly to Max and started to massage his chest again.

"He really needs help urgently!" I tell Artemis, who starts to talk with Stark trying to make him fight, but right then James mindlinks me.

"Where are you?" he said. "We are all here! Tell me where you are!"

If he is here I know that everyone is here with him so the most simple thing I can do is to mindlink all of them/ I know that this will scare them a little, but this is the beauty of being a primordial and also a royal .

I look at Manganiello, who watches me like a hawk, so I try to hide the fact that I mindlink my dear ones.

"I have no idea where I am. Max is unconscious and I am trying here to protect him. We were somewhere near Nanaimo but we had to turn

and exit the main road, because those brutes blocked us. And now we are in the middle of nowhere near a very big crack in the earth. It's full of slippery rocks; exposed tree roots. Shit, I can't see more from where we are."

The truth is that I am literally in the middle of nowhere. Max knew the road but I am like in a foreign country even if it is my pack territory.

"The Abyss!" I heard my dads saying at the same time, and that crack really looks like some abyss. A dog or a wolf could fall on it, even a human and it seems terribly deep water.

"Stay there Mer, we are coming to you." James yelled in panic.

"I hit Max's heart again to restart it, punch after punch until I hear his heart beats again.

"I am surrounded by hunters, James" I tell him even if all of them can hear me. "If you won't come fast I will lose Max, and if I lose Max you will find me for nothing." and right now I see Manganiello taking out his phone and reading a message he yells at me:

"Did you just mindlink your people and tell them where you are?" he yelled at me and came near trying to catch me by my hair but I elongated my claws and caught his hand, sticking my claws in his flesh.

He just looks at me, while he just takes the attack position.

"Of course I mindlink them. Do you think that I am stupid and I will let you win this game without fighting back?"

"I hoped so!" he laughed in my face.

"Let me save Max, this is the last time I am asking this. If you insist on disturbing me, I will hunt you and kill you one by one!"

And all the hunters started to laugh about me.

"Artemis! It's your show!" I tell her and let her take control and in two seconds she leaves Max on the ground and detaches the neck of the closest hunter from where we just stay, shocking everyone.

"If you don't want to kill all your men I suggest you take a step back and leave me alone!"

I just bent and kissed Max's lips.

"I will get you out of here" I tell him through mindlink hoping that he is hearing me.

"Where are you?" I mindlink James.

"Very close," he said.

"James, tell Carter that the traitor is with him. He has a phone with him. Just be careful!"

And right then the jerk let his "dogs" off the leash and attacked me.

"That's enough!" Manganiello said. "You are coming with me!"

But I transform completely in my white wolf making his hunters to take a step back and growling at them I say:

"Didn't you learn that love cannot be commanded!?"
