

## 136 Chapter 136 Our life is too tumultuous

Author's POV 1

"Mr. Cassel, Mr. Cassel!" the reporter yelled as soon as they exit Rogers Arena, and crowded the whole gang.

Francoise just looks at them and doesn't know what to say but Leia is sneaking behind Francoise and says loud enough to be heard by the reporters.

"Here you were! I looked for you everywhere!" and she takes his hand in hers, being marveled by the tingles she feels.

"Mr. Cassel, who's the lady?" a reporter asked and just before Francoise was able to say anything else, Leia kissed him directly, with the tongue because Francoise was with his mouth wide open.

And man! She kissed him until his legs became like jelly, Leia being a werewolf and Francoise just a human, the man was not a match for her.

"I am his fiancée !" Leia said.

"It is true Mr. Cassel." but Francoise just nodded and left the building in a rush, while the reporters took Meredith and Max into target and

started to run after them.

Those two have been front page news for weeks.

"So sweet!" Vivi yelled, rubbing her hands. "So you two are together?" she asks her brother.

"Not at all! It was all for the show. Who the fuck sent that message to that billboard? And who's Levi?"

And Meredith just lifts her shoulders.

"It seems to me that you have a lot of fans, maybe you should continue to act like this with Lela. because everyone knows that you are engaged. As soon as they find out that was just a lie, your suitors will start to run after you in no time."

"I can't use Lela and force her to be a part of this mess." Francoise says.

"She doesn't mind riding around you," Grandpa Cruz said. "After all this shit you will need protection and maybe she can watch after you."

"I don't need a babysitter!" He yelled.

"Then come and live with us again." This time it was Luke who said it, because Meredith just told him her plan through mindlink.

"Vivi is pregnant and she will stress a lot about you with all those reports. They will never dare

to come into the Max packhouse, and our warriors guard the place.”

“Why the fuck did you tell them that you are my fiancée?” Francoise asks, looking at Lela who just stays calm while her wolf purrs inside her mind after she kissed Francoise twice.

“It seems like a good idea.”

“ You could tell them that we are lovers or something else, and in a day or two we could break out, but fiancée? Really Lela? That means that we are together for a while, that we have some history together!”

“It doesn’t disturb me at all. When they will not see in you the headline of the day, we can act normal again.” Lela said as if it was nothing but now she is determined to never leave his side. She will force him to take her back if it is necessary.

“Alright, alright just let’s go home!” Cara said .”By the way, who won the game?” she asks, shocking everyone.

“You were there sweetheart!” Sam said annoyed.

“You didn’t watch the game?”

“No, I felt asleep as soon as it started” she said yawning.

“I can’t believe it!” he said and took her hand but

just a look at her belly and his heart calms. The poor girl is tired of caring for the twins with her tiny body.

Seeing her like this, like a delicious Kinder with Surprise, Sam just caught her hand and pulled her into his arms.

"The locals won." and he kissed her lips and took her in his arms, in bridal style.

"Sam, people are watching!" she said, hiding her face in his chest, because Samuel Jackson and Luke Navaroo are kind of celebrities too, being Maximillian's CRuz best friends.

"Let them watch. This is the way I love my woman, what's wrong with it?" he asked her and kissed her forehead.

"Should I take you in a bridal style, too?" Grandpa Cruz asked Auntie Jen.

"With what?" Auntie Jens asks laughing because every day she is more and more relaxed with grandpa, especially now that they are mated, because that perv oldman still has some life inside his body. A lot of life actually.

"Come here!" the old man said, catching her hand and he just kissed his woman, making her blush.

Meredith just looks at all this scene.

"A few days ago we were in the depths of despair, and just now after just a few days everything is back to normal. Our life is too tumultuous, Max."

"Let's just enjoy this day, because we don't know what tomorrow will bring. That jerk is still after you."

"I am more upset because he destroyed our love nest" Meredith tells him through their mindlink. "He burned the place, for the goddess' sake."

"We will make a new one, somewhere else where no one will find us," and he takes her hand in his hand.

"Let's drive those horny wolves home," he laughs.

"And future werewolf" Meredith pointed to Francoise who just holds Lela's hand trying to keep some distance from her but the woman just sticks near him like some Super Glue.

And in the night when everyone was at home, at Francoise's door, on Meredith's old condo someone knocked.

"What are you doing here, Miss. Navarro?" Francoise asked her with his mouth wide open.

"Meredith and Vivi sent me to watch you or to bring you to our packhouse, it seems that the

reporters formed a posse to catch you.”

“Those fucking intruders! They should paying more attention to their personal life.” and he just looks at Leia who is so beautiful that his heart skips a beat.

She says in front of him just in a T-shirt and some leggings, as if she just came from a run. Her green eyes are like two gems and Francoise knows that he loves the woman , but he will never force himself on her.

“I can't leave this place tonight. I need to work on something, tell Vivi that I will come tomorrow.”

“I will mindlink them and tell them. So , where should I sleep?” she asks him and went directly to his bedroom. “I like this room”

Francoise looks in shock at her.

“That is my bedroom. You can use the other one. Is a spare room and is really nice. Sam and Cara used it in the past.” He said, watching her very reaction.

“It's just one night. I suppose I can sleep there. Do you have something to sleep in? A t-shirt or something else?”

“You didn't bring anything with you?” Francoise asks, looking at her a little bit suspect.

"No, I will borrow something for you. This should not be a problem for you. Anyway I am your fiancée." and she winked at him going into Cara's old room.

"What was that Françoise?" the man asks himself, and puts his hands in front of his pants because this playful attitude of Lela made him aroused.

"Françoise!" Lela yelled from her room and he just goes in just to see her naked.

"Do you have any towels?" and she asks him as if she is not staying naked in front of him, and he just nodded closing his eyes and taking a deep breath.

"I'm doomed!" he said in his mind. "How am I going to survive this night?"

And he just looks at the tent in front of his pants while he comes back in Lela's room, but she is already showering. He opens the bath door and thrown the towel in the sink and runs outside the room.

"Doomed, doomed, doomed!"
