

148 Chapter 148 Judah Manganiello

Author's POV 1

"Oh my goddess!" Mark Dickens "What's on fire to hurry up like this?" and he enters Max's office with Luke, who didn't say anything about why he's there.

He just enters as he did many times before laughing with Luke who is all smiles and he finds Max on his chair, behind his desk, holding Meredith in his lap and kissing her as if there will be no tomorrow.

"Ho,ho,ho...horny wolves" he jokes with them. "You call me to mock me because I am single?" He laughs with all his heart, but inside Max's heart he feels like killing him in the next second.

"Don't Max." Meredith whispers through their mindlink.

"He doesn't hear us", Max said to her "Why are you whispering when we use our mindlink?" and he puts a hand on her cheek kissing her again.

"But this is more exciting, right Max?"

"I want to break his neck," Max said without blinking, looking in her eyes.

"So?" Mark asks again while Luke goes and sits on Max' sofa. "You asked for me?"

And Max wants to say something but Meredith just touches his lips stopping him and she simply says.

"He did, Mark. And I am sorry for thinking that he wants to mock you" and turns her head to him and says smiling at him.

"He just wants to kill you!"

Mark swallows his own saliva and is left stunned. He looks at Max who just stays calm, while Meredith holds his hand, he looks at Meredith who smiles at him and after he blinks a few times he looks at Luke.

"You are full of jokes today, Meredith" isn't it?" Mark said after some time but in the next second Luke corrects him.

"She is Luna Meredith Cruz for you, not Meredith!" and he speaks so tough that Mark knows that this is the end and just becomes pale and starts to look around.

"There is no need to look for an escape" Meredith says again and this time she starts to walk until she is in front of Mark how almost shit in his pants and looks at Max who is clenching his fists and stands up from his chair.

“So you know that we know” Max says, rolling up his sleeves, and snapping his fingers.

“I don’t know what you are talking about” Marks starts to stammer and makes a step back.

“But you do” Meredith says and in two steps she just stays in front of him.

“What do you say Max? I should make him stay still or try something new, to see how much power I never have in reality?”

“I think that we should do some experiments” Max said and comes near her, holding her hand in his hand.

“This must be a misunderstanding” Mark almost whispers but this time Luke growls.

“NO, no..is not. Believe me , Mark. We just wait for Sam because he wants to know why you slapped his little sister.”

“I didn’t!” Mark yells and right then Luke slapped his just he did with Veronica two days ago.

“Now sit down and start talking” Meredith said and she used her Luna command making him look at her strangely.

“Sit down, Mark!” she says again but he is not even blinking.

“What the fuck is going wrong here?” Max asks,

looking at Mark and at Meredith.

“Nothing is going wrong, Max, except the fact that my luna command doesn’t work on him.”

“Impossible!” Max almost wells and he just squeezes his eyes trying to understand what’s going on.

“Why don’t you try to?” she asks Max “This will explain everything “ and they both see mark whitening his face.

“I command you to tell me what’s happening!” Max said using his alpha command and he just sees Mark looking at him with his mouth closed.

“What the fuck!” Luke yells and he is in his feet , giving him a slap on the back of the head.

“Speak now you, fucking jerk!”

“He can’t “ Meredith whispered, “He can’t because Max is not his alpha, as well as I am not his luna and from what I see he is just a rogue infiltrated in our pack.”

“But he swore allegiance to this pack!” Luke says.

“Then , he was lying, it must have been some magic to make him hide this or at some point he changed his mind. But it doesn't matter.”

And Meredith kissed Max’s lips and then out of the blue she punched Mark right in his nose putting him down in one single punch.

“What the fuck?” Max and Luke yelled at the same time.

“I just hate all traitors!” she says smiling at Max. “Put him on the sofa, Luke ” she continues and looking at Max she says loud enough so that everyone can hear her.

“Did I tell you that you are the cutest alpha ever, especially when you are so surprised. I feel like kissing you continuously” and she winks at him.

“You are crazy, darling” Max says and takes her to his arms and kisses her directly but right then Marks gets on his feet and tries to run.

Meredith turns her head and just says, using a voice pore powerful then her luna command.

“Just stay the hell where I told you to stay or I will kill you right now!” and she is so ferocious and Artemis growls so hard that the entire house vibrates, creating a little bit of panic, thinking that it is a earthquake.

“I..I...” Mark starts to stutter while Max and Luke watch Meredith with their mouths open.

“That was new” Luke whispers but right then Max’s office door opens and Carter comes in, followed by Sam, Pete and Grandpa Cruz.

“What was that?” Sam asked in panic.

“Sorry” Meredith said smiling innocently “I

escaped a growl”

“WHAT?” Carter and Grandpa Cruz asked at the same time.

“You see,” she says smiling again. “Our friend here, Mark Dickens, one of our top warriors, refuses to speak when I use my luna command, so I was forced to use my royal command. Isn’t it funny how strange it sounds?”

“I thought that I was struck by a thunderbolt, for goddess sake!” Sam said but right then looking at Max and Meredith he asks.

“What do you mean that your luna command didn’t work on him?”

“Tell us why!” Meredith commands him and she sees Mark how he takes out his claws and tries to end his life, but in one move she is over his body, holding his claws with one hand and his hand with the other hand.

“WHAT THE HELL IS HAPPENING HERE?” Grandpa Cruz yelled .

“He won’t speak” suddenly Pete says and he bows down his head, feeling unworthy to look in Max and Meredith’s eyes.

“Why, Pete? Tell us why” Meredith says while she drags Mark and leaves him in Sam and Luke’s hands.

"Because he is my father's right hand. He is here to sell you, not to submit to you." Pete said, falling in his knees.

"His name is not even Mark Dickens" and he lifts his head and looks at Mark.

"Shut the fuck up you fucking coward. My master will kill you for this."

"Master?" everyone said, looking at him.

"His name is Judah...Judah Manganiello. And he is my cousin."
