

## 158 Chapter 158 A perfect match made in heaven

Author's POV 1

"Francois" Leia whispered as soon as they were in their house, from the back of Max's garden. "Are you sure that Max will not punish you for fighting against him?" and she cuddled in his arms on the sofa from their not so spacious but very homey.

"He won't" Francois said and took her and placed her in his lap, facing her, so that now she was with her legs on each side of his body.

Leia placed her arms around his neck and leant her forehead on Francois's forehead.

"How can you be so sure about this? You know nothing about an alpha's pride. What you did, Francois is unforgivable."

"Then it must be the fact that I am an alpha too, but he said that we are fine and I believe him, love. If not for his word for Meredith's. She will never let him go against me. What we have together is beyond any family ties"

And Leia's heart becomes uneasy. She distanced herself from Francois just a little so that now she can watch him and scared she asked.

"You two have been together?"

She just watched him. He is her mate now, She knows that he is hers and she knows that he was with other women before her, but if he was with Meredith, who is so perfect and everything a man could hope she will never feel enough for him anymore. She will never be as perfect as Meredith is, or that's what she thinks.

"What?" Francois asked her a little bit in panic, realizing what's going on with her mind. He looks at her and feels her emotions and her saddened face make his heart shiver.

"Look at me Leia!" He commands her and lifts her chin so that now she is looking straight in his eyes.

"Between me and Meredith was nothing romantic. She was my student at the beginning. Are we clear?"

"You are not lying to me?" she asked, almost crying.

"I would never do something like this, Leia" he said visibly annoyed. "What the fuck is wrong with you?" and he is hurt by her reaction.

"I am sorry" she said and held him in her arms. "I am sorry, but I know that I am not so beautiful and elegant, and smart ...and perfect as she is ... and .."

“Leia Cassel!” Francois growled at her, making her startle.

“I will tell this only one time and you better do to put it in your mind because next time I will not be so calm. There was nothing between me and Meredith. She and her family saved my sister. She suffered because of my family and was kidnapped with Vivi. She is just a friend, my only friend actually because until I met her I never had a friend, or Vivienne.”

And Franchoise puts his palm on Leia’s face and caresses her cheek.

“ She is not prefect, Leia. You are...When I saw you for the first time I was so shocked that I can’t even explain to you. You are perfect, Leia. You are beautiful, the most beautiful woman I ever saw. You are strong and a perfect athlete and warrior, and I always was impressed by women that can fight side by side with men.”

“You do?” Leia asked and started to smile at him.

“Yes, I really do!” and he kissed her, putting his arms around her waist.

“I never liked sophisticated women, those elegant women that all day have nothing else to do than looking in the mirror and trying to attract all the looks. I was with those women , I will not lie to you but I never intended to be with them forever. “

And Leia looked at him and placed her legs around his waist.

“So you like me?”

Francois pushed himself a little so that his “friend” poked in Leia’s ass.

“I think that my body speaks for me. Don’t you think so?” and he kissed her directly until she couldn’t breathe anymore.

“I love you, Leia Cassel. You are my wife in human laws and werewolves’ laws, you are mine. In this world I never met someone to satisfy me more than you do. All this time I was just thinking how marvelous you are and that I am just so weak, while you are so strong and perfect. I was so afraid that one day you will get bored dragging me after you all the time.”

“I wasn’t upset for protecting you,” Leia whispered, “I liked every minute with you in bed, in this tiny house, in the training room, I will never get bored being with you.”

“Meredith will not let Max to hurt me because she knows that in this world other than her and Vivi, I had none until I met you. We promised each other after the attack that we will protect each other no matter what.”

“With your previous fighting skills you wouldn’t be able to fight, not even a mosquito” Leia

laughed.

“So you are mocking me now?” Francois asked raising an eyebrow.

“Qui moi?” the little brat of his mate asked fussing in his lap and making him even more hardened than he was.

“You ‘ve just told me a few minutes ago that it is not good to provoke an alpha and now what are you doing?” Francoise asked and took her in his arms and got up with her.

“I was mated with a handsome guy , who was just a simple werewolf until today and suddenly I found out that he is an alpha! I feel cheated!” she said blinking a few times at him.

“You do?” and he started to laugh” And why is that?”

“Because I am!” and she kissed him on his neck right where her mark stays. “I want to meet the alpha on you, Francois!” she whispered.

“ You will!” he said but stopped with her in his arms in the middle of the room. “But just to be clear. My past is history. Are we clear?” he asked in a very commanding way.

“Yes, my alpha” she whispered and Francois and Avi escaped a moan at the same time.

“If you ever doubt my love for you again, I

promise that you will get the greatest rebuke that you ever saw.” and he used his alpha command and that made Leia so aroused that she started to shiver in pleasure in his arms just feeling him so strong.

“ You would have been a great alpha!” she whispered. “You are so perfect, Francois” she whispered.

“Then we are even. You are perfect, I am perfect, that means that we are a perfect match!” and he lets his shorts fall on his ankles, along with his boxers. He lifts her little skirt and places himself in, right there in the middle of their living room, while he just stay on his feet , with Leia coiled around his waist.

“Oh my goddess!” he whispered, feeling her contracting her walls around him and he simply couldn't wait to go to their bedroom and glued her to the first wall and started to rotate his hips so she would feel every inch of him.

He used all his alpha power this time, because just knowing what he is made from, made him so confident that blew Leia's brains and made her cried in pleasure as she never did.

“i love you ,Francois,” she cried her heart out while he emptied himself deep inside her womb for the second time.

**"I love you too, Cherie!" he whispered and started to laugh. "Shit, I like this alpha thing.. you must teach me how to use it"**

**"Oh...darling" Lela laughed "Be sure I will!"**

**For the first time since they met the things were clear between them. There was no more fear , no more panic and insecurities around. The past was left behind. Their personal enemies were gone, the real nature of their relationship was relieved and they were more in love than before.**

**Who said that the truth will make us free was right.**

**They were just what they needed! They were just a perfect match, just as every match made in heaven.**
