(One week later) 1

"Holy guacamole!" Vivi yelled and jumped in Luke's arms.

"Will you stop, Viv! You are pregnant for the goddess 'sake!" and he ran to catch her because as soon as she put her foot down the helicopter, she sprinted to the Royal Packhouse as if there were some Christmas promotions and she won't find anything if she doesn't hurry up.

"Vivienne Navarro!" Luke yelled seeing her like that.

"Cassel" Francoise said, coming from behind, while he was holding hands with Lela.

They had their alpha and luna ceremony, to the shock of the entire pack, that is still processing the fact that Max is not their alpha anymore.

"What?" and Luke keeps an eye on Vivi but he can't stop from looking at Francoise as well.

"She is still Cassel, if you forget that. You didn't marry my sister, and I'm really glad that she forgot about this, because otherwise I will need to search for a beta."

Luke just stays there and watches Vivi as she hopping around when she met Cara and

Meredith.

“Shit!” and slapping his forehead she said “I forgot completely!”

And Francois and Leia go past him laughing at him:

“Shame on you, Luke”

It is the first time the whole gang's here.

Max and Meredith came to Tofino four days ago, and just as they talked, Sam and Cara and as well Grandpa Cruz and auntie Jen came with them. Carter and Lisa will move here too, in a few months, after they will be sure that Françoise learned everything is necessary about New Moon Pack.

The alphas wanted to offer them a bigger castle and even more properties around the world, but they wanted just the Vancouver Island and chose to live in a packhouse in Tofino that is not very big but is like a fairytale one.

The splendid construction looks a lot with Boldt Castle, being placed right on the shore, over some majestic cliffs from where you can see everything around. The place is just wow, and as soon Vivi saw it, she went mute for the first time in her life.

Marble from Italy, fine silks and tapestries from

Europe, rugs from the Orient. Guest rooms in the eight-story, 145-room castle were to be warmed by fireplaces, and massive crystal chandeliers arrived to illuminate the hallways and ballroom.

"Luke," she whispered. "I am moving here!"

But he just came closer to her and pulled her to his chest he whispered in her ear.

"You could move here, darling. But who is going to love you as much as I do, caress your back and your feet when you are tired and kiss you when you are moody?"

"It's so beautiful here," she whispered, and he kissed her again.

"Coming here I just realized that I owe you a wedding." and he kissed her earlobe. "With everything that happened I forgot completely."

Vivienne lifted her eyes and smiled at him, while he was ready to meet her warth.

"I don't need one. We are fine just the way we are." and saying this she whispered.

"Bend a little ,please, I want to kiss you and with this balloon attached on me I can't jump on you anymore."

"But I want to marry you" Luke said and entered the castle with her, holding her waist.

Vivi stopped right there and smiled at him.

“You really want to do this? You can’t escape from me if you are marrying me.” and she started to laugh, but Sam came from an office and looked at them and laughed in their faces.

“Please take him, Vivienne. This way I will be sure that he is not dreaming of Cara anymore.”

“WHAT?” and Vivi has a little and kills him.

“He is joking, Love, don’t mind him!” and he is all sweeting looking at her and then at Sam.

“Tell her that you are joking!”

“But I am not!” Sam said and left, laughing. He missed mocking Luke.

“You!” Vivienne shouted at him and dragging Luke after her, she exists the castle, went directly to a guardian and looking to the parking lot she commands:

“Give me the keys to that car!”

“But!” and the man starts to blabber.

“Give me those fucking keys or I will beat you!” and she snaps the keys, pushes Luke in the car and starts to drive to the center of Tofino.

“Viv, stop the car! What the hell is wrong with you!” and he tries to hold the wheel, because this car is a little bit too big for Vivi and she can

barely see the road .

“So you were dreaming of Cara?” she said, gritting her teeth.

“No, he was just joking!”

“He wasn’t” she cried and the pregnancy hormone hit her directly this time. “That’s why you didn’t marry me, but let me tell you! You are mine!”

And Luke just watches her with his mouth wide open.

“Viv, are you nuts?” he asked with calm.

“I AM!” and she is parking the car, opened the door and goes directly to Luke’s seat, opening his door too and tells him:

“Get out now!”

“Vivienne..” Luke whispered.

“Don’t make me kick your jewelers here, Luke Navarro. Get out of the car now!” she growled at him and she almost grabbed him and he dragged him outside the car.

“Kodi” he whispered to his wolf “Our mate is not normal”.

“Holy guacamole!” Kodi exclaimed. “What are we doing here?” and hearing him Luke starts to look around.

She brought him to the City Hall.

"Are you marrying me?" he asked, laughing and trying to pull her to his chest.

"No, I am divorcing you!" she said, punching him in his chest.

"We are not even married, So I am free!" and he jokes with her turning his back but as soon as he does that, Vivi runs after him and slips the stairs, falling on her tummy. And this time was really hard.

"Oh my goddess!" Luke yelled seeing her completely pale and he takes her in his arms and wants to run to the first hospital but Vivi stops him.

"I am fine, stop it, please"

"You are not!" he said growling at her.

"I am, I just got scared." and pushing him a little she just went a few steps further from him and stood back on the stairs.

"I am stupid" she whispered.

Luke didn't said anything.

"Say something," Kodi growled at him.

"She really is stupid. What can I say?" but he goes closer and leaning near he takes her hand in his hand and commands her:

"Look at me. I thought that we already cleared this, but it seems we didn't"

And he looked into Vivienne's green eyes, and arranged her strawberry hair , that now looks like a crow's nest and said.

"I wanted you from the first second I saw you. Maybe I wasn't clear enough, but there is no one in this world beside you that can make my heart beat like you do. Stop fooling around and put it in your head. I am yours as well as you are mine." And he stood up and gave her his hand.

"Let's go and marry and then go back to the royal packhouse because Sam yells in my mind, because he thinks that you killed me."

"You are so sweet, Lukey" Vivienne said, pouting her lips and blinking at him.

"Shut up, Vivienne Cassel!" and he pulled her to his chest and dragged her to the City hall and made her an "honorable woman" and as soon as they took their marriage certificate, he brought her a wedding ring.

"Now you are mine!" he said and he helps her sit in the car.

"Luke," Vivienne whispered and stopped him when he was ready to start the car and drive back.

“What happened?” and he is damned scared right now, because she is very serious.

“I love you” and she was so serious saying that, that Luke couldn’t process what was happening.

“I know you do.” and he caressed her face and pulled her in his lap.

“No. I really, really love you. “ and she looked at him, right in his blue eyes and smiling.

“I know that I am stupid sometimes, but I had some trust issues. “ and she feels her eyes becoming watery.

“I just want you to know that from now on I am with you one hundred percent. I will be a perfect mate for you. I will do..”

“Firstly” Luke stopped her. “You are stupid, but you are my stupid and this is the thing I like at you the most. So don’t you dare no being stupid anymore!” and he pecked her lips.

“Secondly. I am more stupid than you are.” and he pecked her lips again.

“Thirdly: you are already perfect, so, no thank you. I don’t need to see you struggling to become something that you already are.”

“And in the fourth place: I love you too.”

“Luke...” She whispered but this time smiling at

him . "If I am stupid and you are stupid, do you think that our baby boy will be stupid too?"

"I really hope so" and they both started to laugh.
"Now let's go back and mock Sam."

But as soon as they arrived back, they found the whole gang in Max and Meredith's living room looking at them.

"So?" Max asked. "Did you do it?"

"Do what?" Luke just watches them and has no idea what is going on.

"Did you marry my sister?" Francoise asked.

"How do you..." and Luke squeezed his eyes and looked at Sam.

"Jerk!"

"Meredith, Cara," Luke said. "Can you cover your baby's ears? I need a word with this..this.."

"Scoundrel!" Vivi said.

"They are too young to understand your shit!"
Max said.

"Sist!" he heard Theo saying.

"WHAT?" and Meredith looks at him and he wants to strangle him.

"My baby girl's second word is SHIT? I will kill you, Max!" and she wants to beat him but Theo

claps her hand and happily says : "Ma-ma!"

And right there she has a little bit and faints.

"She said mama!" and she runs to Lisa and takes her baby from her arms and starts to kiss her, while Theo giggles.

"Man," and Sam is completely boomed. " just as I said. Today those baby pups are too precious. I know that they are growing faster than human babies but yet. She said "shit?""

"Sist!" Theo said again.

"I will kill you!" both Max and Meredith said and start to walk to Sam but Theo clapped again from her little hands and as if she is telling the biggest news she giggles:

"Da-da ma-ma siiiiist!"

"Holy shi.."and Francoise stopped right there because Leia covered his mouth with her hands.

"She just said that she has two shitty parents!" and Francoise starts to run while Max went after him, and catching him he kicked him in the ass.

"Da-daaaa!" Theo said again.

"That's my granddaughter!" Grandpa Cruz shouted "I told you that she looks like me!"

And suddenly Max looked at Meredith, and burst in laughter.

"We are doomed!" he said, but he took Theo from Meredith's arms and concluded.

"We have an old perv in this family, and as if it was not enough now we have a baby perv."

"Da-da!" Theo said and caught max face with her tiny little hands and tried to kiss him but she just gave him a head in his mouth, making him to shed a tear:

"Da-da!"

"That's my baby girl!" he said proudly.

"We need to hide her tomorrow at your crowning ceremony or everyone will know you as Maximillian Cruz the shitty king of werewolves." James said laughing with all his heart.

"I will stay with her!" Grandpa Cruz said and auntie Jen approved because this is their greatest happiness, to play with Theo.

Theo looked at them and stretched her arms to grandpa Cruz, happy because she just made everyone laugh.

They stood there all night, laughing and remembering all the stupid things they did, and promised each other that no matter what, the gang will never change and that they will always stay like this.

And the fact is that now everyone has his own Paradise.

Max holds Meredith in his lap and looks at Theo, how she sleeps in Grandpa's Cruz arms, Cara and Sam have their arms full, because Elias and Bella and some stinky fatty babies that you can kiss all day and are the sweetest thing ever, James holds Lori on one leg while he supports Loren on his arm and Leia and Vivi sit in their mates laps , while they caress their pregnant bellies.

In front of this Carter looks at Landon and laughs.

"Our plan succeeded, old friend" he tells him through their mindlink.

"And even upgrade into this royal family. Who would have thought that they would reach this way? It is more than we ever hoped."

"Yes...they are just perfect."
