

## 62 Chapter 62 Call me hubby !

Author's POV 1

"Will you let me?" Max asks her, feeling how every part of his body yells for Meredith touch.

"I will not mate with you even if this is something I want with my every cell of my body but I need to touch you more, to taste you and feel you" Max whispers kissing her neck and sucking from it, letting kiss bites all over her body.

And Meredith is so melted and so aroused that she can't say not even a single word and she just nods.

That's all Max needed.

He takes her hand and looks into her eyes all the time as he drives her to her bedroom, puts her in the middle of the bed and sits between her legs with his long and thick cock glued to her pussy.

"I know that you want this too, Mer. I can smell your arousal but tell me one more time that you are ok with this. I don't want to force you" Max said caressing her hair with his hands.

Meredith can't stand it anymore and take the lead and kiss him using her tongue for the first

time, making Max smile and that's the signal he needed.

He detaches himself from her and starts to kiss her neck again, sucking from her skin, leaving traces of his love for her all over her body.

He bites her shoulder lightly.

"I will mark all your body, every day and every night until you will let me mark you for real" he says looking at her breast.

He stretches out his hands and gently strokes her nipples, making Meredith arch under him and moan with pleasure.

"Shit, Mer! Don't do that anymore or I'll take you right now!" he says and shivers, trying to control himself.

"I want you" Meredith said feeling mesmerized by the tingles that are even stronger than yesterday.

Hearing her, Max leans over and starts kissing her breasts, he takes them in his hands and puts his mouth on her right nipple and starts to suck from it like a hungry baby.

It is the first time for Meredith when she is touched like this and she feels how an enormous wave of pleasure starts to flow over her body, to her pussy, making her tremble.

“Don't stop, please, just don't stop” she tells Max and puts her hand in his hair pulling him lightly and moving her hips under him.

Max suck from one nipple and then from the other one and when he looks at her and see her so blushed, with her eyes glowing from pleasure, he goes down and trails kisses on her body until his lips arrive to their final destination. Her pussy.

“You smell so good” he tells her inhaling her pussy scent and a put a hand on each of her knees, he cracks her to the maximum exposing her pussy in front of his eyes.

“Pink and sweet” he whispers and sees how his cock tries to find its own way to her pussy but he just lay his head and put his mouth over her clit, blowing it a little.

“Max” Meredith moans and almost burst in tears not knowing what is happening with her. She never felt so overwhelmed in her life. Is like she is not able to control herself anymore.

“I am here” max said taking her clit in his mouth, sucking very lightly from it.

“Max” Stark said “She is so perfect, you could say that she is untouched” and only the thought that she could be a virgin make him even more aroused.

He put his hands on her pussy folds, undoing it easily and when he feel that she is near her orgasm, he let her breathe a little, but just when she thought this is all, his tongue enter her making Meredith to yell his name in pleasure .

"Max!" she said crying and trembling while he fuck her with his mouth continuously until she starts to squirt over his face, "Max! I will die!" she yells in panic feeling how wave after wave flow through her body and she is not able to control it.

"Give me one more orgasm " Max commands her and this time he alternate his moves between biting her clit and fucking her with his tongue and a new wave of juices starts to flow over his mouth, while Meredith is just crying because of those new emotions she never thought she is able to live.

"I've got you" Max said laying near her, and taking her in his arms and placing her over his body. "I am here, I am here" he said and kissed her mouth, making her taste herself on his lips.

"I love you," Meredith said, trying to calm herself. "I love you so much" and she puts her head over his heart which in beating like crazy. Seeing her coming on his mouth, touching her like this was the best experience of his life.

He stays with her on his chest and screams in

his mind in spite and fury that he lived in vain for so many years, that he throw this happiness, while Stark just stays in the back of his head knockout by everything that happened.

"Will you let me try something?" Meredith asks him when she starts to breathe normally again.

"I am all yours, try whatever you have in your mind" Max said without knowing what is in her mind but when she lifts in her knees and place herself between his legs his heartbeats stopped.

"What are you doing?" he asks her trying not to have any hope that he could receive more from her than he has already received.

"I want to taste you too" Meredith said smiling at him and taking him in her hands, with both her hands because he is too big to hold him in one hand.

"Holy fucking shit!" Max said trembling when he feels the tingles that start to appear all over his cock. This is something absolutely new for him and he is already addicted to this sensation.

And he closes his eyes and try to breath normally but when Meredith mouth touches the tip of his cock, licking it lightly, Max shudders and gets completely shocked because his cum has a little and already explodes.

"Mer, there is no need to do it, there is no rush"

he tells her but Meredith ignores him, fascinated by her new toy and just when he wants to tell her something else, she swallows it completely until his balls, making him to remain perplexed.

Stark appears again and howls in pleasure, forcing Max to move his hips so he can fuck her mouth with his cock, because Max is just paralyzed by this new sensation.

"This is the real mate bond!" he tells to himself.  
"I lived all these years thinking that I know what an orgasm is and I knew nothing"

"Shut up and let me cum, you moron!" Stark tells him, and gives him back the control and Max starts to realize what Meredith is doing.

She is sucking his cock as if she just found the most delicious lollipop, and she sucks from it with force, but applying the perfect pressure and at the same time she massages with one hand his shaft and with the other one his big balls.

And after two more moves Max's legs starts to tremble uncontrollably and he tells her"

"Please, let me ....., I'm going to cum I don't want to force you to take me in your mouth" but Meredith keeps sucking him until he effectively explodes in her mouth with a force he never came in his life.

And he just lift a little to be sure that his cock is not torn to pieces by the force with which he had just ejaculated, and then he collapses back in bed.

Meredith just continues to suck him, even if it is the first time in her life she does something like this, but she is doing it perfectly until Max stops shivering and just lays on his back with his eyes in the ceiling and his mouth wide open.

"I did it well? " Meredith asks him seeing that Max does not react but he just starts to cry like a pussy shocking Meredith, and he takes her in his arms and kisses her lips.

He takes her hand and puts it on his heart.

"This heart" he said and kissed her again. "He has never beaten so hard. You blow my mind" he tells her and she looks at him and smile sweetly.

"Will you do it again?" Meredith asks him, blushing.

"Do you want to make you cum again?" Max asks her and he feels like his cock starts to hardened again.

"Yes, Max, make me cum again" she whispers in his ear with a very seductive voice.

And the scoundrel in him, activates and whisper in her ear while his fingers are at her entrance

and massage her pussy.

"Call me hubby and I will give as many orgasms as you wish." And he puts a finger inside her, moving slightly back and forth, feeling how her walls constrict his finger.
