

## 66 Chapter 66 Let's make a deal!

"What's with that face?" Meredith asks Vivienne as soon as she arrives at the restaurants and Max dismisses his warrior. 1

"It's nothing" Vivi said and placed on her sit taking a menu and looking at it but her mind was somewhere else.

"I've heard that you fooled around with my gamma" Max said smiling at her and taking Meredith's hand in his hand and kissing it.

"Oh, he went and he complained about me at his daddy?" Vivi asks ironically.

"No, my wife complained about you for hurting Luke." Max said this time seriously. "Don't play with him. If you have good intentions ,be with him, but otherwise stay away from him. "

"Is he serious, Mer?" Vivi asks looking at Max.

"I am afraid he is. Everyone loves Luke in this pack and will do anything to protect him because just as I told you before he is one in a million. " and looking at Vivi she said.

"You're not interested in him, so why are we talking about Luke?" Meredith asks her smiling and Max leans over and kisses her temple.

"Yes, I am not," Vivi said, trying to convince herself that she wasn't.

"What are you doing here?" Meredith asks smiling at her "This is the biggest surprise after I found out that Max is my boss, but that was an unpleasant surprise" she said and Max squeezes his eyes at her whispering in her ear.

"I will punish you for this"

"Can I watch?" Vivi asks starting to laugh while Max looks at her and says.

"No, but you can visit Luke and he will teach some moves" he tells her laughing while her face falls.

Luke again?

"I was boring in Paris. I went to New York and worked there as a doctor for a month but then I thought that Vancouver is a better option because you are here too." She said but looking at Max she said. "But I didn't know that here I would find a soap opera." And she immediately pursed her lips.

"You are a doctor?" Max asks with interest.

"For dogs and cats" Vivi said very proud. "I am a veterinarian. I can treat you if you get sick. Mr. Wolfy!" she said making Meredith laugh but Max points his finger at her.

"I will show you wolffy!" he said, growling lightly at the joke, making them both laugh.

And late in the night Max and Meredith took Vivi at her hotel and when they arrived at Meredith condo they finally found peace.

"That friend of yours is from another world" Max said laughing "How can a person speak so much?"

"Wow, and she was silent tonight because she had a dilemma regarding Luke." And Meredith goes to the bathroom and starts to undress to take a shower, while Max is watching her from the door.

"I know that she is your friend but if she will hurt Luke I will break her tiny legs and stuff them in her ass!"

"She won't!" Meredith said entering the shower "She had her own drama and she is just confused because except Francois and me, none showed her what it's like to be loved."

"She didn't seem affected." And Max starts to undress himself by his suite and enter the shower following Meredith.

"It's a long story, but she is. And it is not my story to talk about but I have hope that she will find her peace here, and I pray that Luke to be the one who will deliver it to her. "

And she feels how Max's hands starts to wash her back,

"Do I remember right that I had to punish you tonight?" Max asks her smiling at her.

"No, because you are a very good husband and you will not keep spite of your wife"

"Oh, but I will" he said kissing her and caressing her body and right when she thought that he will repeat the show from the other night he said smiling sweetly at her.

"Let's sleep, darling. You had an emotional day" and takes her in his arms, places her in bed and covers hers, while she stays naked under the blanket.

Max, he gets in bed and turns off the light and Meredith looks at him and gets angry.

"Maximillian Cruz!" she yells.

"Shhh!" Max said. "Your neighbors will hear you. Let's sleep!"

And he turns with his back at her laughing at himself.

"Are you really going to sleep?" she asks him and Max starts to pretend to snore.

"Max?" she said not believing that he had flirt with her and aroused her only to fall asleep in

five seconds.

"You scoundrel!" she said and looking at him she starts to laugh and whisper in his ear.

"It's good that you are sleeping. Now it's the perfect time to test my new vibrator" and she moves away from Max a little, but in just one second he catches her and asks her.

"Where are you hiding it?"

And Meredith looks at him very serious and says even if she has no piece of this object in her house"

"It's a secret, but just for your knowledge, every time you will deprive me of what I deserve I will use it!"

"I will find that piece of shitty plastic and destroy it!" Max said pulling her under his body and placing himself between her legs, and then smiles at her!

"Tell me what you want, darling" Max tells Meredith kissing her neck.

"I want to set a new rule, or if I'm thinking now, two rules"

"I am listening," Max said, rubbing her body lightly and making her escape a softly moan.

"You will give me pleasure every night, until I say

that I can't do it anymore." Meredith said blushing but if this perv tries to punish her in this way she needs to find a way to be sure she gets what she dreams of.

"I agree" Max said and his fingers find their way inside of Meredith. "And secondly?" he asks her.

"I want to train!" she said seriously.

"WHAT?" Max asks, remaining motionless with his fingers still inside Meredith.

"I want to train, Max. Vivienne's coming just reminds me the way I met her five years ago and I need to train myself. I have a black belt in taekwondo, but as your mate is not enough. "

"I will think about," Max said.

"There is nothing to think about, Max. If you don't train me, I'll ask James. It's been five years since I trained in a pack. I need to defend myself. "

"I will defend you!" Max tells but Meredith just looks at him and asks him directly.

"Do you consider me as your luna?"

"You are my luna!" he said looking into her eyes. " Just a single word from you and I will take you. It's my deepest wish to mark you! "

"Then let me train," Meredith said. "As your luna I need to fight for my pack when the time comes."

And he sees that she is more than serious, and also knows that Vivienne's coming triggered something in her mind.

He knows that for a human she is strong, she hit Veronica twice and Castellano's brother too, but to train and to force herself so much?

"Let's make a deal." Meredith said and Max motioned for her to continue.

"You will train me and when I will put you down in a fight I will let you mark me."

"I will let you win tomorrow if this is your solution." Max laughs.

"You have no pride as an alpha?" she asks him playing the card of alpha's ego and provoking him directly.

"It's a deal!" he said "Beat me and I will mark you" and he puts his fingers deeper inside her. "But you will train only with me!"

And that was the deal of his life, because while he thinks this is just a way to make her stronger, Meredith remembers what the cost of being weak is and she knows that when the danger comes if you want to live, first you must fight.

Shit! How could she forget what happened?
