

## 8 Chapter 8 How to reject your mate?

Author's POV 1

"Veronica, stop!" Max said on the verge of a nervous breakdown.

"Why, Maxi!?!? Why are you always with that woman?" she asks, humming and pretending to be hurt.

"Because she is my fucking mate! That's why!" Max would like to say in front of her, but to tell her that would mean putting the posse after Meredith's trace, and he doesn't even know if she'll ever be his mate in the true sense of the word. Why risk that woman's safety?

Looking at Veronica carefully, he realizes that no matter what he does, Veronica has no right to behave like that.

"What's the point of this whole circus, Veronica?" he asks her but, like a sly fox, Veronica starts to walk past Max trying to seduce him as usual.

"Maxi," she said, placing her hands on his chest and beginning to kiss him on the cheek.

"That employee of yours is too disrespectful, and she is always with you. It's the second time I see

you with her on the same day." she said, pursing her lips and letting some light love bites on his neck.

"And why do you care?" suddenly Max asks and pushes her away from him, shocking her.

"Because you are mine! We've been together for three years and this never happened."

"When the hell did three years go by with this madwoman?" "He asks himself.

Moving away from her, Max walks over and sits down at his desk, leaving Veronica speechless. Did he really not want to be with her anymore? A single touch and he was always at her feet.

"I believe that three years is a lot of time." Max said looking into her eyes without mimicking any trace of emotion.

"You think so?" Veronica asks, and smiling at the thought that maybe he has finally decided to make her as his luna .

"Yes, maybe too much considering there's nothing serious between us." Max says suddenly, making her almost fall off her feet.

"WHAT!?!?!" she asks, yelling with all her lungs  
"Are you breaking up with me? "

"It seems so." but this time he is not even looking at her.

"But I love you!" she tells him in a very carrying voice.

"Veronica. That's enough," Max said, but immediately Veronica lunges at him and actually jumps on him.

"No! You are mine!" she yells and cries at the same time. "We are meant to be together."

"Sam!" he yells through mindlink "Come in my office or I will kill your sister!".

"What the fuck, man?" Sam Jackson says and starts to run to Max's office, opening the door in a panic.

"What are you doing here, Veronica?" Sam asks his sister.

"Sam, Max is breaking up with me!" Veronica starts to cry.

"But we have never been together! What don't you understand?" Max says, already completely irritated. "Do you want to stop this whole circus?"

"No. I do not want to! It is all because of that human, isn't it? She is new and being human is like something exotic for you. Just fuck her and come back to me!" she said as if this would be something normal.

"Veronica!" Sam yells at her. "Leave the office or

you will never be able to put your feet here."

But Veronica frowns at him and then, turning to Max, begins to beg him.

"I am suitable to be your luna, think about it please." She's still trying to convince him.

"Sam! Get her out!" Suddenly Max orders him angrily and his beta immediately grabs his sister's hand and drags her after him.

"One more thing, Veronica. If you just try to touch her or anyone else in this company, I will take you not only out of my life but out of this pack too. "He said, pointing to her with his finger.

"You wouldn't dare do that!" Veronica says laughing. "You love me but now you're confused."

"Sam, kick her out! I don't want to see her again, "said Max, and rising from his chair he angrily slammed everything on the desk.

"She is here only for one day and look what happens!. I had peace in my mind until Meredith Quinn appeared here. "

"That wasn't peace !" Stark said, "It was a fornication thing that you've been doing for years."

"I don't want this woman, Stark! She only brings trouble! " Max says, confused, but Stark doesn't

even notice him.

"What was that, man?" Sam asks back in the office.

"Your fucking sister tried to beat my new chief designer and not once but twice. This time she hurt Cara Lewis in her attempt to reach her target.

"What?" Sam asks and his hands are trembling. "How is she?" and immediately he feels that his heart is going mad, but when he catches his breath he calms down.

"I have no reason to care what happens to Cara," Sam said in his mind and his wolf approves. Why would he care about her? He just rejected her. How does he, a beta, have as his mate a bitter omega? People will laugh of him.

"She is fine, just some bruises and a swollen cheek" and turning with his back at Sam, he puts his hands on his temples massaging them a little.

"I am doomed, Sam." and without preparing it, he drops the bomb on Sam. "That designer, is also human and she is my mate"

"Are you kidding me?" Sam asks and comes near Max watching him carefully because he's sure this is a prank.

"I wish it was a joke, but the least funny part is

that Stark wants her as his mate."

"Of course I want her, you idiot!" Stark said. "I want my fated mate"

"Reject her! It's not hard to do. I rejected Cara, because she is not worthy to be my mate. I am a beta, how can I have an omega next to me? 'He asks?

"Compared to me, Cara was in the luxury category. I have a weak human on my head. "

"This is because you divorced that wife of yours. Now your mate is a human." Sam said laughing.

"Yeah, it's true, but this one is really beautiful." Max says contemplating her face in his mind.

"You must find a way to reject her. She is not suitable for our pack. It will take her a lifetime to accept the idea that we are werewolves. "

"How, Sam? Tell me how, because Stark wants her." Max almost yells.

"We will watch this human every day and we will find reasons to make Stark hate her. I'm sure we'll find something about her that will make Stark change his mind. "

And holding out his hand, Max grabs it and slaps it.

"I knew I could count on you!" he tells Sam.

8 Chapter 8 How to reject your mate?

"Of course you can," Sam tells him. "Let's start the mission "How to reject your mate!" "And they both laugh hard.

But on the other hand, Veronica listens in shock, peeking out the door..

"That human is his fated mate?" she asks herself.

"I must get rid of her," and immediately her fists clenched and her eyes reddened with rage.

"I will kill her! Nobody will deprive myself of the title of the luna! This title will be mine! "
