

80 Chapter 80 It's happening again

Author's POV 1

Max laughs with James as they spin the steaks on the grill when suddenly Stark starts to shake.

"Max, I need to see our mate!" he said, almost howling in pain.

"She is with the girls" Max said trying to calm him down and looking around he sees that Leia and Cara are not here.

"Where is Cara?" Max asks Sam, seeing him as he laughs with Francois and Luke, while Vivi keeps moving in Luke's lap.

Sam stops and looks around, as if trying to concentrate and suddenly Max sees him frowning.

"Shit!" Max said and throwing the grill utensils he starts to run and tells James.

"Something happened!" and lets Stark take control and transform in the middle of the patio into a huge black wolf, making Vivi and Francois frightened.

Sam does the same because right now he is more than sure that Cara suffered something.

They enter the house and start to search while James and Lori follow them.

Luke puts Vivienne down saying with fear

"Something happened and is about Meredith, stay here please!" and he runs outside transforming and leaving Kodi to take control, while Vivi and Francoise just stay with their mouths wide open seeing themselves surrounded by wolves.

"Outside, Max!" Sam yelled "Cara is outside!" and they almost break the front door when they exist, but seeing the image in front of them they are collapsing and they roll over the stairs.

Cara is barely breathing, she is full of wounds and she is bleeding everywhere.

"Cara, no!" Sam yells transforming into human form and staying naked near her almost lifeless body.

"Cara!!!!!" and he takes her in his arms and starts to cry so hard that even if you were the most insensitive man you could still have tears in your eyes.

"Don't leave me! Cara!" he said, collapsing with her in his arms.

And looking at her hurt tummy, his heart almost stops. He puts his face on her neck and cries his

heart out but at the same time the range completely envelops him.

"Veronica was here!" he said and right then James with Lori and Luke appeared.

Did you ever hear an animal growling?

I met once on the mountain with a female bear that was walking with her three pups, and feeling that I was a danger to her pups she attacked me. It was the most frightening moment of my life. I don't remember much from that moment because I know that at some moment I fainted and when I was found by my friend I had a lot of wounds.

Her ferocious growl, just before she started running after me, will hunt me for the rest of my life, but this is nothing compared with the growl that Luke made seeing his only sister dead on the stairs of this rented house.

"LEIA!" he yells in panic and runs to her. Her chest is full of blood, and her organs can be seen. Blood dripped from her chest, and he put her on her back and put his hand over her wounds trying to stop the bleeding.

This is the view Vivi and Francois see when they come out from the house. A pool of blood. Cara was seriously wounded and Leia looked dead.

"No!" Vivi yelled running to Leia.

"No! I don't know you, you can't die! We must become friends, you are now my sister!" she said crying, pushing Luke and trying to stop her bleeding.

"Luke!" she yelled. "Put your hands here! Her aorta is broken!" and looking around she commands Francois.

"Help us! Why are you sitting and looking like this? She is dying!"

But Francois is in shock. She was alive a few moments ago. Just a few minutes ago, Vivi presented her to her and he acted as if it was the first time in his life when he saw her. As if he didn't broker her heart earlier in the same day. And now she is dying? How can she die? Humans die, werewolves are not so vulnerable!

"Franco!" Vivi yelled at him. "Help us!"

And coming to his senses, he ran next to Vivi and Luke and, kneeling in panic at the blood flowing around him, said:

"What can I do to help you?"

Her blood is red. Even is she is a fucking animal, Leia's blood looks like a human blood. And he is so shocked realizing this. Right now Leia looks like a human being, where is the wolf that stays in her?

"Put your hand inside her chest and catch her heart!" Vivi tells him.

"NOW!" she yells again, making him wake up. And when he holds her heart in his hand, he felt a little tingle and his face is whitening.

"The heartbeats are so rare and it seems that her heart will stop soon." Vivi said.

"Massage her heart!" Vivi tells him again. "Don't let her stop! Until the ambulance will be here we must make her heart beat! "

When the ambulance came and the doctors saw the massacre they were so shocked that for minutes they could not ask or say anything.

Seeing Luke and Francois full of Leia's blood made them think that they are wounded and when they finally took Leia, Francois thought at what happened and looking around he almost collapsed, but no one cares about him because in another part of the stairs Max and James and Lori struggled all the time to keep Cara alive. Sam is in some catatonic state unable to speak or to act in any way.

He keeps repeating:

"I will lose her!" because her wounds are too severe to withstand. Her tiny body is still weak, her tiny womb is probably empty right now because all this blood has to come from

somewhere. How could some unborn baby survive an attack like this?

But what makes him feel like dying is Veronica's presence here.

"I will kill her," Leo said. "I don't care if she is my sister. I will just kill her!"

And when the second ambulance arrived and took her, Sam went with her, never leaving her alone.

"Where the fuck is Meredith!?" Max asked, looking around and smelling the air.

"She is not here, man!" James said, being alone with Max and Lori, after everyone ran to the hospital.

James closed his eyes and smelled the air.

"He took her again," he said, turning his head to Max, who approved of him.

"This is all my fault. Max whispered" I thought this place was safe. I put the guard down and now he took her. "

"We will find her, Max." James said and took his phone and called Landon Quinn, saying with pain in his soul.

"Dad, it's happening again."

And silence starts right where James's words

end.

"Wait for me!" Landon said after some time. "I will bring reinforcements"
