

91 Chapter 91 Countless times

Author's POV 1

As soon as Sam brought Cara to the packhouse her heart was little as a flea. She had her home in the town, where she lived happily with Sam for almost two months but now she is here again, in this horrible place where everyone abused her.

The second she put her foot down from Sam's car, Meredith and Vivi appeared in the doorway smiling at her. And also Carter, Lisa and grandpa Cruz. Max appears out of nowhere and takes Sam's luggage from his hand, telling him gently.

"Let me help you. Take care of Cara." and she just looks at them being unable to say anything. Sam takes her in his arms in bridal style and she hides her face in his chest.

"Put me down, Sam. Everyone is looking at me!" she said blushing.

"Let them look. Let them know that you are mine!" Sam said with pride and more than that he lifted her chin and kissed her in front of all the pack members that were in the area.

Everyone knows what happened and after so many years, except for a few ex-lovers of Sam, everyone feels bad for the way they treated

Cara.

"Welcome home, sweetie!" Meredith tells her as soon as Sam arrives with her at the entrance to the house.

"Home?" she asks, looking at the huge house in front of her and then at Sam who nods.

"This is our real home," he said. "Meredith lives here now, so will Vivi and Luke. And guess what, you will stay here as a beta female of this pack from today on!"

Cara's eyes are full of tears.

"I will?" she asks Sam timidly.

"You will!" and he signals to Max to help him open the door and enter the pack house.

"Young Beta!" Auntie Jen said seeing him. "I am so happy for you to finally bring this beautiful girl home! She helped me a lot when she was here and I really missed her!"

And seeing her Cara goes straight and hugs the old woman.

"I missed you too, auntie Jen," she said.

All afternoon the house was full of joy, only Luke was absent because he was with Leia, but he let Vivi come in his place. And after they all retired to their rooms, Sam took Cara's hand and drove her to their new house.

"Holy goddess!" Cara said as soon Sam opened the door.

She put her hands on her mouth looking around.

"I didn't even know that this place existed in the pack house," she said.

"My parents should have lived here, but they chose an individual house for our family. The floor was closed until now. On the other side is Luke's condo. Only we live on this floor." he said and took her in an embrace.

"Everything is so beautiful!" she said, unable to take her eyes off all the beautiful things around her.

"And it's yours, ours!" he said and kissed her neck.

"I want to see our bedroom!" Cara suddenly said looking into his eyes in a playful way.

"For what?" Sam asked, picking up an eyebrow and looking at her amused.

"It's my favorite room in the house!" Cara said
"And the most important too!"

"Why do you say that?" Sam asks and this time he laughs, and he is doing it with all his heart for the first time after two weeks.

"All the important things are happening in the

bedroom," Cara tells him, and immediately turns her back on him and begins to walk around the house until she finds what she was looking for.

"I like it!" she said and turning her blushed face to Sam she said.

"I know this is too soon. And I know that maybe you will not agree, but I want to forget about everything that happened. "

"I want that too" Sam said and put his arms around her waist looking into her eyes.

"I want to do a lot of things, Sam. I want to train and become a real beta female. " she said, making Sam smile at her.

"You are my little warrior, you know that?" he asked her and kissed her lips.

"And" she said, kissing him in return.

"And?" Sam asks melting for her sake.

"And I want a baby!" Cara said and Sam looks at her and his heart stops.

"The doctor said that I am healed. I asked him yesterday. I can have a baby and I want a baby, Sam. I want a little Sammy in my home. "

"And I want that too," Sam said. "But I am scared," he acknowledged. "Veronica is still free and her mind is lost. She represents a danger in our life. "

"I want a baby!" Cara said again looking into his eyes like a capricious child.

And he is already hard and he wants not one baby but a dozen of babies with her but he is just afraid.

"Give me a baby or I'll die, Samuel Jackson!" Cara said, pouting her lips. And that's it! Every time she pouts her lips at him is like a trigger and he can't resist her charm.

He lifts her in his arms and puts her in the middle of their newly bed and he whispers in her ear.

"Then let me give you that baby!" and he starts to take her clothes down.

He just looks at her tiny and delicate body, at those marks that still stand as a testimony of what happened.

"Cici will make them disappear" she said knowing what is in his mind, and she takes him in her hand.

"Now let's start again. We were having a baby two weeks ago and someone ruined our joy. Let's start it again!"

And he gave her everything she asked for.

But on the other side of their floor Vivi was sleeping alone in the middle of their bedroom,

because since she found out that this condo will be hers and Luke she came here every time she could.

Being sent home by Max and Meredith, while they watch Leia in his return, Luke finds her sleeping like an angel.

She accepted him in her life, but since she did all he could offer her were just hugs and kisses on the run. They didn't have time for them.

Meredith and Max are right. This is not what Leia would have wished for him, so today he came home only to find his naughty angel sleeping alone in the middle of their bed,

He takes his shoes off and then his t-shirt and climbs into bed next to Vivi, who is wearing a thin dress with fine straps. From where he stays he can see her tiny breast and he can't take his eyes off them.

He stretches out his hands and takes her in his arms, pulling her to his chest, and kisses her lightly on the temple.

"Hey," Suddenly Vivi said, feeling someone touch her. "What are you doing here?"

"I missed you," Luke said looking into her eyes.

"What about Leia, did you leave her alone?" Vivi asks in panic.

"No, sweet angel," he said. "Max and Meredith are with her and they are talking to the doctors to bring her here, in the pack house, so we don't have to stay in the hospital."

"Can he do that?" Vivi happily asks.

"Max is some god almighty, he can do anything" he tells her laughing but looking at her he said.

"I know that is too soon, and I know that maybe you didn't process everything and all the consequences... but .." Luke said, swallowing his words.

"Say what you have to say!" Vivi tells him seriously, running in her mind through a lot of things. If he breaks up with her, she will beat him with her tiny hands!

"I want to mark you!" Luke said.

And in an instant Vivi rides Luke and rushes to his neck and bites him hard.

"What are you doing?" he asks her, putting his hand on his neck where Vivi just bit him hard leaving him with a huge bruise.

"I want to mark you too!" she said seriously and made Luke laugh hysterically, but he immediately takes her in his arms and turns with her in bed.

"To be able to do it, I must mark you first. You

will become a werewolf and then you will be able to mark me." and he is looking in her eyes hoping for a yes.

Vivi puts her head to one side and, without thinking, asks him.

"After that you will mate with me?"

And kissing her neck, he finds the perfect place for his mark and tells her " For countless times" and he sticks his fangs in her neck making her shiver in pain and pleasure.

But when the transformation starts she looks in his yes and said:

"Shit!! This hurts!"
