

92 Chapter 92 What if I am too big?

Author's POV 1

"I am a werewolf! I am a werewolf!" Vivi is making a funny dance in the dining room, because they came to have dinner with the rest of the gang.

Cara is smiling, looking at her while Sam is totally disinterested.

He tells Luke's through mindlinks and ask him:

"Are you sure man? I know that she is your mate but she is like a tiny pup, you have to keep an eye on her .She's worse than a restless child!" and he immediately starts laughing.

"She makes me feel alive, Sam. She makes me go from agony to ecstasy in a second and vice versa even faster, "Luke tells Sam, laughing and looking at Vivi as she shows Meredith her mark.

"At least now I can sleep peacefully!" Max said with a sigh of relief. "She was trying to convince me to accept that threesome" and Sam looks at him in shock.

"Did you refuse something like that?" he asks, startling Luke.

"That's for trying to take Cara away from me a few months ago!" he said laughing.

"I just love her. She is my naughty angel! Luke said and put a hand on the place where she put her mark on his neck.

But they don't even finish what they were talking about when the front door opens and Francois appears in the middle of the door panicking.

"Why?" he asks Luke, approaching him angrily.

"Why, what?" Luke asks him as if he is just someone who is disturbing the party.

"You took Lela from the hospital while I was in the bathroom. Did you know how hard it was to find this place?" he yells at Luke but right then he sees Vivienne and his mind goes blank.

"Did you bite my sister?" he asks and he starts to tremble in fury.

"Mark, not bite!"

"Franco !!!" Vivi yells and comes to take him in her arms but Francois takes a step back.

"Franco?" Vivi asks with tears in her eyes.

"You are like them too, you abandoned me" Francois said and left without looking back at her.

"What the fuck was that?" Max asks , and if he

could he would run after Francois to beat him, while Luke takes Vivi in his arms.

"Let him be," Meredith said. "I know him too well, after some time he will come back. But now he feels that his sister betrayed him, choosing us. " and looking at Max she whispers in his ear.

"Do you still need that run?" and she is smiling at him.

"I want to run too!" Sam said hearing her and her face falls to the ground. She wanted to run alone, with Max not with the entire gang.

"I want to run too," Vivi said. "I am not good at running with my short legs. Maybe as a wolf I will do it better," she said, laughing and making everyone smile.

And so the plan made at home did not match the one in the fair and immediately after dinner all of them, except Meredith transformed into their wolves.

Stark is very royal and beautiful, while Luke's and Sam's wolves are dark gray and very big, almost as big as Stark. Cara's wolf is tiny and sweet, in a light yellow color, just like her hair. But Vivi's wolf is just..just like her, and her name is Storm.

"Why Storm?" Vivi said, pouting her lips.

"Everyone will think I'm restless!" but

immediately Max glanced at her amused.

"No, Vivi. No one will believe that. Everyone knows that you are quiet and pissed. "And makes everyone laugh while Vivi looks at him ugly.

Meredith came to Stark and asked him.

"Can I stay on your back?" she said, caressing his fur easily.

"You won't transform?" Max asked, a little bit disappointed seeing her in her human form.

"I will but I need to do this when we are just the two of us. There is something I didn't tell you and I need a few moments with you, just is all. Nothing more "she said and Max sees her slightly panicked.

"Get up on my back" he tells her, making the other look at her slightly confused but they trust Max and Meredith so just start to run, while Max takes another route.

"We will meet at the lake" he mindlinks Sam and goes in the forest, with Meredith holding by his neck.

"This is my favorite place from my pack" Max said after a thirty minute run.

The place is isolated and offers a panoramic view over the Glacier National Park.

"This is Paradise!" Meredith said, looking around. "I came here once when I was little, with my dad and James." she said looking around and feeling overwhelmed by the splendor of nature. The sky-high height of the Alpine trees, the grass as thick as a carpet, the dark sky full of stars reflected in the lakes in front of them, all inspire happiness.

She takes a few steps away from Max and without looking at him she says.

"I wanted you to meet Artemis before the others could see her. If you will not want us after you see us I will understand but I need to be sincere with you first. "

"I don't understand what you're talking about." Max said coming near her and taking her hand in his hand.

"Artemis is not an ordinary wolf" and she is just trying to find the right words.

"Continue," Max said looking into her eyes.

"Federico Castellano said that I am a monster" she had tears in her eyes.

"Is that why you didn't transform in the last two weeks?" He asks her, taking her and putting her in his lap, because he is already in human form too, and stays naked in front of her.

"I was afraid that you would hate my appearance too," she said in a low voice.

"I don't care if you're too tiny, Mer!" Max said, grabbing her by the chin and making her look into his eyes.

"What if I am too big?" she asks him and her heart is as small as a flea.

"You are an alpha female, it is normal to be big," he said, smiling at her.

"Promise me that you will not be scared by me. That you will not run away from me" Meredith said.

"Artemis is mine, And I am proud of her as my wolf, but at the same time I love you Max" Meredith said "And if you will refuse Artemis .."

But Max makes her watch him as he tells her.

"Do you trust me so little?" he asks her. "Shift, Meredith!"

She just takes a few steps away from him and stays with her back to him, starts undressing, putting her clothes on her feet.

Max just looks at her, as her hands tremble with emotion, but this is her moment and he will not help her.

Meredith undoes her tight hair in a light bun and

lets it fall on her bare back, and this view, with her naked in the middle of this beautiful place, with her hair that looks like a flame in the wind is the most perfect thing on which Max saw in his life.

Meredith leans slightly and pulls out a powerful growl and in an instant she is in four paws, still with her back at Max, who is looking at her with his mouth open.

Artemis turns her head and looks at Max,

She is bigger than Stark, and her white fur shines in the moonlight, making her look like silver, her beautiful blue eyes are shining and Max never saw a wolf like hers.

"You are so beautiful," he whispers, approaching her and stroking her fur.

"So I'm not a monster?" Artemis asks.

"No, you are the most perfect being I ever saw" and he lets Stark take control and transform.

"Mate!" Stark said, rubbing his nose in front of Artemis and signaling her to follow him.

"Mate!" Artemis said, twisting like a happy cat knowing that her mate wants her and is not afraid of her appearance.
