

## 97 Chapter 97 Will you woo me?

### Author's POV 1

Max stands face to face with Meredith, holding hands and just smiles while his father delivers the speech for the luna ceremony. He can't hear even a single word, he is in his own world.

He always wonders what it would have been like if six years ago only for a single time we would have come home, only for a single time he would have cared.

There is no need to ask how would have been because now he feels like beating himself up for losing so much time with his mate. All the evil in his life is for what he has done back then. The whoring, the hater, absolutely everything is his fault.

"Max" Meredith whispers through the mindlink, as if she knows what's in his heart.

"I am here now!" and she smiles at him in the most innocent way, melting his alpha heart.

"New Moon Pack " he hears Carter saying when he returns with his feet on the ground. "We gathered here today to finish what we started six years ago. It's been a long road, but looking at Max and Meredith today, I can only say that it was worth it. It was my dearest wish and her

father's wish that those two to be together and the gods made the things even better making them real fated mates. Today you will find your luna, but today I gained a daughter in the real meaning of the word. "

And looking at Max he said:

"Impress the girl, Maximilian!" and he starts to laugh.

Max looks her in the eye and pulls her hands to his mouth kissing it lightly.

"Mer, we have already been married for six years, and I would like to say that we have been happy so far and that we have lived a wonderful life together but I know that was not the case. My deeds have grieved and hurt you, but I have changed now. Even if I am not worthy you let me back in into your life "

"I didn't" Meredith said laughing "you came in like a thief!" and everyone started to laugh.

"I had to!" he said, pointing to Meredith and looking at his pack members. "She didn't want me back!"

And looking back to her he continues:

"I'm so happy I'm the one who gets to sit beside you. That you didn't give up on me in the end and that I will be the one who will spend his entire life with you. "

Meredith just looks at him and has tears in her eyes. This moment would have been a joke if someone would have told her that she will be here, making a love oath with Maximillian Cruz.

"I love you Meredith Cruz, body and soul, I love you. Every day of my life would be perfect if I would spend it all with you. Want to know something funny? I am not a romantic guy "

"Don't say it," Meredith says, raising an eyebrow and making everyone laugh.

"I am not but for you I wake up daily thinking how to make your day brighter, how to make you happy. I love you and please forgive me for every tear you shed because of me. I love you my sweet luna "he said, holding her hands in his hands and feeling a soft trembling in his own hands, and he pulled her to him and kissed her, in a tender and sweet kiss.

"Meredith, " Carter said, looking at her. "Is your turn sweetie" and he starts to laugh and then signals to her to start.

"Max" Meredith said, letting Artemis to appear and now her eyes are glowing and make her look unreal. Even the pack members look at her with their mouths open. Some of them heard from the doctors that she is a werewolf now but none of them saw her wolf and this is the first time when they have confirmation that what they

heard is real. Artemis' aura makes them feel safe and at the same time she is so strong that it imposes respect on her and they submit to her involuntarily.

“My dear husband, my crazy Max” she said again “you fooled me” and started to laugh while Max just smiled at her.

“I came back to work and I thought that I am safe from Maximillian Cruz and that our ways will never intersect, but it did from the first hour here.

Finding out that I am your mate, made me even more upset, because even as a human I knew too well the meaning of this and I was so furious with myself for not rejecting you. You are an alpha and I thought that I would hurt you too much and make you vulnerable, also you pack. ”

And everyone looks at her smiling.

“But you stole my heart step by step and after sometime I discovered that I like you, then I love you and in the end that I want you forever. I felt the mate bond even as a human but what I feel now is beyond any beautiful dream. ”

And looking him in the eyes she said.

“Just thinking of you makes my heart skip a beat, and I love it. We fit together perfectly. We are two sides of a coin, but we complete each other

so well. We are so different and yet so similar. I love you and I swear to do it until the end of the days of my life. I swear to be a good help to you, not to kill you when you drive me crazy, and always remember what I said today. I love you my darling husband "she said and looked at him waiting for him to kiss her, and he did it without thinking.

Carter takes them both by the hand as soon as he manages to make them stop kissing and holding their hands he said:

"New Moon Pack, this is your luna. Protect her and love her because she is the best thing that ever happened to you and soon you will understand what I am talking about. She is beautiful and kind, but she is also very strong and correct. Protect her with all your strength! "

Everyone starts to howl at the moon, which has already appeared in the sky and pours its rays over Meredith and Max as if directly blessing this union.

"My luna" Max said through mindlink, smiling like a fool at her.

"Yes, my alpha?" Meredith asks, giggling at him. "Do you have something more to say?"

"I have a lot of things to say but better I will show you...tonight...when we will be alone" and

the pervert in him starts to laugh.

"Promises, alpha" Meredith said turning her gaze from him, "Promises like always" she starts to laugh seeing his face.

"What do you mean?" he says, coming near her and taking her in his arms but seeing her face he asks: "You are fooling around aren't you?"

"Maybe" Meredith tells him "Or maybe I am not. I just found out that Lori is pregnant and Cara too, and I am not... so you are not doing something proper!" and Max's face is white.

"Cara is pregnant again?" he asks looking at Sam.

"Sam doesn't know" she said and this time she kissed him in front of everyone. "Your beta doesn't waste time... like you" and she can't stand it seeing his pale face.

"Meredith Cruz" Max said, putting his hand around her waist and caressing her tummy as if she would be pregnant.

"Prepare yourself. "

"For what, hubby?" she asks smiling sweetly at him "will you woo me?"

"No, we will make a baby tonight" and he kissed his mark on her neck and lifted her in his arms in bridal style, he said.

"New Moon Pack! Welcome your luna! "
