

99 Chapter 99 I want to divorce!

Author's POV 1

Back at the luna ceremony after party, everyone present has fun. The pack members seem to accept Meredith, because Artemis' presence does not give them any other possibility. Even Max's ex-lovers leave their plans alone, feeling threatened, so everything is smooth and goes perfect.

Max sits in the garden on a huge garden armchair and holds Meredith in his lap kissing her neck while James almost kidnapped Lori and went with her in a private area to find out what had tormented him the whole ceremony.

"Max," London said, looking around. "I must confess that you impressed me." and he takes Olivia in his arms, resting his head on the top of her head.

"That was the idea, dad" Max said and London almost drowns with his own saliva hearing him, but calming down he looks at Olivia and then back at Max and Meredith and smiles.

"I never thought I'd hear anything like that from your mouth." Landon says, visibly excited. "We have four kids, my love. Four and you struggled to give birth to only one "and both of them

laughed.

"This is a good deal. Pay for one and buy four," Carter said, coming from behind, holding hands with Lisa.

"Where is grandpa?" Meredith asks, looking around.

"That old perv, helps auntie Jen in the kitchen." Carter said laughing.

"WHAT?" Max yells almost to his feet.

"Since you asked her to stay with us to eat with us, he became very lively and all day long he watches her."

"Impossible. He must be sick," Max said.

"He's not. It seems that auntie Jen is his second chance mate and she didn't want to accept him. They've both been hiding this for ten years since your grandma died. Auntie Jen did it for being an omega and feeling that it is not proper to accept someone like your grandpa and our family perv because he felt that he will betray your grandma."

"I can't believe it. He is sixty eight, and auntie Jen... Shit, she never had a mate, What age is she? "

"Fifty nine," Meredith said, looking at Max and holding his hand to calm him.

"This grandpa is shocking me again and again."
Max said. "And now? He accepted her? "

"He did. Staying with her at the same table daily it triggered something in his heart " Carter said laughing "But auntie Jen is not accepting him, she still says that an omega like her can't be with a strong alpha like he was. Let them be, don't worry about them. At least your grandpa is not focusing on you anymore. He has someone else to focus on. "

"Love has no age limit" Meredith said smiling at Max and pecking his lips.

"We've got news!" suddenly James said and signaled for Sam and Luke to come near.

"Will you be a father?" Luke asked, mocking James.

"How can you know something like that?" James asked, looking at him with his big eyes.

"Oh ... don't you know?" Sam asks James "He's the gynecologist of all women" and everyone starts to laugh but James just looks at him with his mouth wide open.

"NO, stupid!" Luke said. "Those dresses that Meredith chose for them were very relevant. Her little tummy took all the attention, it wasn't there a few weeks ago. "

"I almost shit on myself, thinking that I found out the last." James laughs.

"That happens when you don't keep an eye on your mate. She will hide things from you. I advise you to..." Sam said but Luke interrupted him immediately.

"Cara is pregnant too"

"WHAT?" Sam said and in an instant he looks at Cara and then at her tummy. Cara just looks him in the eye.

"It seems that I am her gynecologist too!" Luke laughs in his face mocking him with his own words, but Sam ignores Luke and looking in Cara's beautiful large blue eyes he asked in a whisper:

"Are you? Are we going to have a baby?" and he puts his hands around her and sits down with his right hand over her tummy. And he felt it. That little flutter that he missed so much. His little pup.

He takes her in an emotional hug and putting his face in the crock of her neck he starts to cry.

"What happened to Sam?" David Jackson asks being alarmed by Sam's reaction but Carter beckons him to shut up,

"I love you, I love you so much!" Sam said and

looked into her eyes but in an instant he realized something.

"I must take care of you! I must protect you, so nothing can happen again! "

"Sam!" Cara said looking at him "I am fine."

"You are now! But what if something happened again? "

Meredith looks at him, then at Max and signals him to say something.

"Man, you are now in the packhouse, you have the most protected house in the area. Nothing will happen. "

"You don't know!" Sam said, panicking. "What if .."

"Samuel Jackson!" Cara yelled at him. "Will you stop?"

"NO, I can't stop" he said and this time Vivi looks at Luke and asks.

"Are you going to react the same way?"

Luke just smiles at her and kisses her tenderly and then concludes: "Of course I will! "

"Then I changed my mind. I will have my baby wolffy alone! " making everyone laugh.

"What do you mean? And is a pup not some baby wolffy "Luke said panicking.

"You will get me pregnant and then we will divorce. I can stand you if you will be like this... this .. "And pointing at Sam said "clinky man! "

"I'm not clingy!" Sam said, pointing his index finger at her.

"No, your second name is Super-Glue, that's all"

"Oh my goddess!" Meredith said and started to laugh with all her heart.

"I am clingy too" Max said through their mindlink and Meredith just turns her head and looks in his eyes,

"I don't mind," she said like a whisper.

"That's what you say now, but I'm overprotected with the one I love," he says in full.

"I don't mind that either," Meredith tells him, smiling.

"I will hold your hand every step and I will be with you all the time." Max said.

"Even when we are working?" Meredith asks laughing.

"You won't work being pregnant" Max said seriously.

"I want to divorce," said Meredith, looking straight into his eyes.

"I will move your office to my office" said Max slightly panicked.

"We will discuss that" and this time Meredith put her arms around his neck.

"I want a baby too, hubby" she told him "But I don't want to rush things. When the time will be right I know that the goddess will give us a pup, but I want you to know that I am fine with this. "

"I want that too" Max said and lifted her in his arms.

"Where are you going?" James, Sam and Luke asked at the same time.

"To change her dress!" Max said laughing. "Is too much material here, and I can't verify if she is pregnant too "
