

My Master 1161

Chapter 1161:

It can be said that every Mysterious Rank Treasure is quite renowned in the Eastern Province, and among them, the fame of the Tricolor Divine Wings is particularly immense within the Mysterious Rank Treasures.

Even as a Loose Cultivator like Huan You who has always cultivated alone and has limited exposure, he did not recognize the Silvery Light Wings at first glance, but he was aware of them, as well as the Tricolor Divine Wings.

Cao Zhen, however, was unaware of both the Silvery Light Wings and the Tricolor Divine Wings and even required Immortal Bi Yue to introduce them to him.

As a Golden Core Stage Cultivator from the Eastern Province, how could he not know of these? Could it be that he never descends the mountain, always remaining within his sect's gate, secluded from certain news?

Immortal Bi Yue spoke and paused briefly, glancing at the Five Sounds Sect's disciple standing beside her before continuing: "The reason why everyone has such a divine impression of the Tricolor Divine Wings is that they have not disappeared for a long time.

Now, in the Eastern Province, there are three Musical Rhythm Great Teachings, whether it is the Five Sounds Sect you've seen, the Demon Sound Sect, or the Immortal Melody Sect, none of these Musical Rhythm Great Teachings are strong."

Cao Zhen truly admired this aspect of Bi Yue, speaking in front of others about their sect not being strong, her voice loud enough for the Five Sounds Sect's person to surely hear, yet the Five Sounds Sect's disciple did not utter a word in response.

Immortal Bi Yue sighed: "In fact, before this, in our Eastern Province, there was another Musical Rhythm Great Teaching known as the Sound Doctrine Church. The history of the Sound Doctrine Church is even more ancient than that of the Cloud Reaching Sect and the Sun Chasing Sect, almost comparable to our Dragon Chant Sect.

However, just fifty years before the arrival of the Minor Era of Inversion of Heaven and Earth, the Sound Doctrine Church faced their tenth Sect Tribulation since becoming a Great Teaching—the Million-Year Sect Tribulation—and failed.

After the destruction of the Sound Doctrine Church, many of their Treasures disappeared, among which included the Tricolor Divine Wings. Those were the Divine Weapons of one of the great powers in the Sound Doctrine Church."

"I see," nodded Cao Zhen lightly, startled in his heart. He had always known the Dragon Chant Sect to be strong but never understood the extent of its strength—now he finally realized that the Dragon Chant Sect had already survived their second Million-Year Sect Tribulation!

As Immortal Bi Yue had mentioned, the existence of the Sound Doctrine Church could nearly rival that of the Dragon Chant Sect, which clearly suggested a longer history for the Dragon Chant Sect, thus it must have survived the second Million-Year Sect Tribulation.

That is to say, the Dragon Chant Sect has been in existence for at least over two million years!

Over such an extended period, who knows how many resources the Dragon Chant Sect must have accumulated!

Suddenly, Cao Zhen thought of a question, and looking around discreetly, he transmitted his voice secretly and asked: "Then, when the Sound Doctrine Church failed their Tribulation, did anyone survive? After their annihilation, what happened to the rest of their resources? Were they all claimed by the Heavenly Dao?"

"Some from the Sound Doctrine Church naturally managed to escape, but it is unknown if those who fled survived, and even if they did, they are likely hiding somewhere, not daring to reveal their identity as members of the Sound Doctrine Church, nor daring to use the Divine Skills of the Sound Doctrine Church."

Immortal Bi Yue explained to Cao Zhen: "Actually, it's the same for all Great Teachings facing Tribulation, the Sect Tribulation targets the entire sect, and there would be no danger for regions beyond a hundred li from the sect.

Whenever a Great Teaching faces Tribulation, all kinds of experts and representatives from major forces will stay outside a hundred li, waiting for the sect to potentially fail its Tribulation.

Most disciples cannot escape the Great Teaching during the Tribulation. However, those disciples who have joined the sect for less than a millennium are able to leave.

Yet, what Cultivation Realm could possibly be reached by someone who's joined a Great Teaching for less than a thousand years? At most, they would be at the Earth Immortal Realm.

Fleeing the sect, they would certainly not leave alone, but rather take some of the sect's resources with them.

This is the same for every Great Teaching; they will have everything arranged before the Sect Tribulation, planning for the worst. They will gather the strongest among those who have been with the sect for less than a millennium; should the Sect Tribulation fail, these chosen few would take the prepared resources and scatter to ensure the vestiges of the sect survive.

However, at that time, individuals from all sides would be waiting to ambush the fleeing members of the Great Teaching and seize the resources! After all, these are the resources of an entire Great Teaching!

Imagine how many powerful cultivators they would face and the difficulty of their escape!"

Cao Zhen nodded, understanding, and continued to transmit his voice secretly, asking: "Then, what about those who come to take advantage of the chaos, what strength do they possess? Let's say a Righteous Path Great Teaching is on the verge of destruction, the Demonic Path Great Teachings would certainly come, but what about the other Righteous Path Great Teachings? Wouldn't they intervene to prevent this? Or perhaps..."

"Intervene? How to intervene? At that time, to intervene would be to block others' path to wealth. Of course, there are some Great Teachings that are quite allied with each other, and they would lend aid, but it is exceedingly difficult to hold off many others driven by greed."

Suddenly, Cao Zhen came up with another question and asked via secret transmission: "Then, what about those who come to help the sect in its Tribulation?"

"They would be at risk as well, but not immensely. Once they find the situation is desperate, they will retreat.

Among them, those who are on very good terms with the sect facing Tribulation could even secretly take away some of the sect's resources and some of the sect's Genius Disciples.

This, however, requires exceptional trust, and those supporting the cause must also be strong enough. But the Sect Tribulation of the Sound Doctrine Church was a Million-Year Sect Tribulation."

Chapter 1162:

The Sect Tribulation of a million years is truly terrifying; the later it occurs, the more difficult it becomes, and the greater the danger faced by the experts assisting the Formation.

A million years' Sect Tribulation, the experts who assist in the Formation, must do so at the core of the Great Teaching. Perhaps, by the time the expert realizes it's impossible and wants to retreat, it will be too late.

Thus, it's very rare for experts to assist with the Sect Tribulation of a million years.

The million-year Sect Tribulation of the Sound Doctrine Church actually had a Great Ability assisting. That Great Ability managed to escape, however, he left on his own, not taking any disciples of the Sound Doctrine Church with him.

So, it's really unknown whether any disciples of the Sound Doctrine Church escaped.

Even if they did escape, they wouldn't dare show themselves, fearing exposure, because everyone knows they would have escaped with a great amount of resources, and their own strength certainly wouldn't be enough to protect those resources.

After explaining, Immortal Bi Yue paused slightly, then continued: "As for your other question, after a Great Teaching's Sect Tribulation ends and the Heavenly Tribulation has dissipated completely, various powers will rush into that Great Teaching to seek all kinds of resources. Or rather, to snatch various resources.

After all, many of the resources of a Great Teaching cannot be taken away directly.

There are also resources that are left behind in the haste. At that time, everyone will go there, and whoever snatches the resources, they naturally belong to them. Even sometimes, when a Great Teaching fails to survive the Heavenly Tribulation, massive battles erupt among those fighting for resources!

After the Sound Doctrine Church was destroyed this time, many Treasures also disappeared. At first, everyone thought they might have been taken by people from the Sound Doctrine Church, or by the Great Ability who initially assisted the Sound Doctrine Church, or perhaps by some formidable power.

It turns out they were taken by the Heavenly Dao."

As Immortal Bi Yue spoke, she looked at Cao Zhen, a trace of joy appearing on her face, and she transmitted her voice: "This time, preserving our strength was indeed the right move.

Unexpectedly, what appeared this time was the Silver Light Feather Wings, which are not only Yellow Level Mid Grade Treasures but also Upper-grade Profound Level Treasures, part of the Three-Color Divine Wings.

In this ruin, no one could remain indifferent to such a Treasure, all experts will surely gather.

Even though I am at the Golden Core Period Limit, I am not confident that I can obtain that Treasure and even less confident that I can escape with it once obtained."

Immortal Bi Yue paused for a moment and then continued transmitting: "Although due to my identity, I am not usually targeted, if I truly snatched the Silver Light Feather Wings, innumerable people would attack me, and even our Dragon Chant Sect would not be able to hold anyone accountable afterwards.

Whoever first seizes the Silver Light Feather Wings will undoubtedly face countless attacks. Therefore, our goal is not to snatch the Feather Wings first but to wait and see which power snatches them, and then we will take it back."

When Immortal Bi Yue mentioned snatching it back, her face showed not the slightest bit of discomfort, such were the survival laws within the realm of Immortal Cultivation.

"You have not exposed your strength, and even though I am at the Golden Core Period Limit, we are only two people, so when we go there, we will not attract too much attention. It is really beneficial for us, beneficial for us..." Immortal Bi Yue seemed to be searching for a word to express her thoughts.

Cao Zhen took over and said: "I understand, beneficial for making a fortune in silence."

"Right, that's what I meant, making a fortune in silence. How did you come up with that term? Now, I'm really more and more inclined to marry you."

As Immortal Bi Yue spoke, her eyes filled with love as she looked over at Cao Zhen.

Beside them, Zhi Nuo noticed that ever since the Silver Light Feather Wings appeared, Cao Zhen and Immortal Bi Yue had briefly conversed, and then fell silent.

Clearly, the two were secretly communicating, and it was unknown what they were discussing.

Suddenly, Immortal Bi Yue, full of love, looked towards Cao Zhen, that affectionate gaze even made her, a woman, feel excited, crying out in her heart that it was irresistible.

"Buzz buzz..."

Suddenly, there came a violent rumbling in the air, and Cao Zhen as well as Immortal Bi Yue stopped talking and looked off into the distance together.

In the distance, the Silver Light Feather Wings vibrated violently, and then plummeted towards the ground.

Then, in the skies, countless particles of dust and Great Stones rose up, heading towards the place where the Silver Light Feather Wings landed as if to bury the Treasure deep underground.

"Is this to bury the Treasure underground so that we have to search for it?"

"Or is it sealed, and the seal will be lifted when the time comes?"

Ren Xiaoyao retracted his gaze from the distance and turned to look in the direction of Immortal Bi Yue, whispering, "Bi Yue, how about the three of us join forces with you?"

We just witnessed that Dao Companion Cao's strength is also formidable, but after all, he is only at the Nine Abnormal Phenomenon Golden Pills, and you are alone. Honestly, it won't be easy for you to compete for the Silver Light Feather Wings, and the three of us don't stand much of a chance either. Since that's the case, what do you think about joining forces?"

"Join forces?" Immortal Bi Yue gently shook her head and said, "We are very grateful for your assistance just now, but there is no need to join forces. Because, it's impossible for us to trust each other completely."

Immortal Bi Yue spoke and looked at Ren Xiaoyao and the others. After hesitating for a moment, she still said, "I'll warn you, the black aura present here is very strange. From my analysis along the way, if people together cannot fully trust each other, it's very easy to be influenced by the black aura, resulting in them killing each other. So, it's better for you to find someone you can trust to accompany you."

Chapter 1163:

The sound of her voice had just faded when she began to control the Divine Weapon, taking Cao Zhen and flying towards the distance.

What a joke, she was supposed to keep a low profile and make a fortune quietly. Teaming up with Ren Xiaoyao and the other two, the increase in numbers would surely catch people's attention toward them.

And the people from the Dragon Chant Sect, it was unknown how many of them had entered this place. If the Dragon Chant Sect had too many people and experts, they would also draw attention to them.

Firstly, they needed a strategy to clarify their relationship with the Dragon Chant Sect...

Ren Xiaoyao waited until the figures of Immortal Bi Yue and Cao Zhen vanished before he withdrew his gaze. Beside him, Zhi Nuo looked at her senior brother speechlessly and said, "Senior brother, can't you see? The relationship between those two is incredibly strong, especially the way Bi Yue looks at Cao Zhen, that tenderness... Senior brother, do you still think they would take us with them?"

Moreover, the Dragon Chant Sect isn't just represented by Immortal Bi Yue here."

"That's true." Ren Xiaoyao nodded lightly, recalled the words Bi Yue left with, and sighed helplessly, "Actually, I had suspected earlier. When the three of us were traveling together, why did the junior brother suddenly act that way, suddenly attacked me. Could it be because there was distrust among us. It turns out it's true, Bi Yue had also noticed it."

Initially, they started the journey together with the junior brother and junior sister, but one night, for some unknown reason, his junior brother suddenly attacked him; if it hadn't been for the junior sister's timely intervention, he would have been seriously injured.

Later, the junior sister joined forces with him to kill the junior brother.

Cao Zhen generally let Bi Yue carry him while flying, quickly opening the Zhonghua Cloud, and connecting to Ling Xi.

Soon, he saw figures including Ling Xi appearing in his vision.

At that moment, Ling Xi and others were advancing forcefully towards the front, apparently also heading towards the direction where the silver wings were located.

Soon, Ling Xi's voice came through.

"I heard that the wings are called the Silverlight Wings, a Yellow Level Mid Grade Treasure. I don't know if master knows the name and origin of this Treasure, if master has gone there."

Cao Zhen nodded secretly, sure enough, his beloved grand disciple was always thinking of her master.

As soon as Ling Xi's voice faded, Li Ke complained unhappily, "Why do you still care about him? How long has it been since he contacted you? Rest assured, your master is with that Immortal Bi Yue, how could your master not know what that Treasure is?"

There was an underlying sarcastic tone to these words.

Cao Zhen didn't wait for them to continue interacting, but directly said to Ling Xi, "Ling Xi, are you going to look for those Silverlight Wings?"

"Ah, master, you're here. Yes, we're indeed heading that way. Master, shall we group together after we reach the location where the Silverlight Wings fell?" Ling Xi deliberately called out softly, also looking at her mater - who had come to find them now that Silverlight Wings had just appeared.

With Ling Xi's exclamation, everyone around instantly turned their gazes towards her.

"I also wish to see you sooner, but it's probably not appropriate to be together this time," Cao Zhen explained hurriedly, "I'm now with Bi Yue, and she is very well-known, her being at the Golden Core Period Limit.

If it was just the two of us, it would be okay, but once there are more people, that would be troublesome. Others would definitely notice Bi Yue and would be wary of her.

Thus, we will be together just the two of us for now. You should try not to gather with us, or if you walk with us, you can pretend not to know us.

When it's time to act, I will tell you what to do."

"Oh..." Ling Xi showed a hint of disappointment on her face, but before she could think more, her master's voice once again rang in her ears.

"By the way, Ling Xi, how has your harvest been during this period?" Cao Zhen initially wanted to use Zhonghua Cloud, like he did with Eclipse Demon to obtain relics, to help his disciples.

However, the relics that appeared here were those towers, which required music to enter.

His disciples had no foundation in Musical Rhythm, and even though he knew through Zhonghua Cloud, his disciples couldn't enter the towers however they played.

So he had to give up.

He feared that his disciples hadn't achieved much.

If Xiang Ziyu had been here, he could still have had some expectations.

Speaking of which, he hadn't visited Xiang Ziyu for a while, but his Eight Nine Mysterious Art had already broken through to the Seventh Level for some time now.

Xiang Ziyu had been continually cultivating.

He guessed that Xiang Ziyu would not act or leave the formation of the Cloud Reaching Sect until he could no longer cultivate the Eight Nine Mysterious Art.

Speaking of which, it was really unfortunate for the Cloud Reaching Sect, to have encountered Xiang Ziyu.

Now, the grand event of Cloud Reaching Sect should be over, but there are still ten people in the Sky-reaching Formation.

Actually, it seems that the nine other people besides Xiang Ziyu in the Sky-reaching Formation were the unluckiest. They were stuck there without any reason, unable to leave, and when they get out, the grand event will have long ended, and their friends and fellow disciples might have already left.

When Ling Xi heard her master asking, her face showed a hint of excitement, "Master, we have obtained two towers."

"Uh? Two towers? How did you manage that?" Cao Zhen felt surprised, if Ling Xi and her group had obtained a tower perhaps due to some accident or various reasons, but getting two towers was exceedingly abnormal.

Chapter 1164:

"These two towers both came to us on their own accord," Ling Xi said, her face flushing a faint purple hue of shyness, "One of them was because three cultivators came to tease me and my junior sister. They even tried to get handsy, so we took action.

At the time, our Mistress warned us that we should not reveal our identities upon arrival here. If we left any survivors, who knows if they would seek revenge against us.

So, we simply killed all three of them and then took a tower and a divine weapon from their Qiankun Bags."

"Indeed, this is precisely why I told you to burst your soldiers first, equip the Six Divine Gears, before venturing out. Especially for you female disciples, you are so beautiful, who knows when you might encounter a pervert. If you do not have enough self-protection ability, it is really too dangerous."

Hearing her master praise her beauty, the corners of Ling Xi's mouth slightly curled up, painting a charming smile.

Soon after, her master's voice came through her ears again.

"By the way, after acquiring that tower and the divine weapon, didn't you receive a strand of divine thought?"

"No, I'm afraid they used that strand of divine thought for themselves," Ling Xi shook her head, "However, there was a divine thought inside the other tower.

We encountered four people killing each other over it. We were just passing by, and then they attacked us, so we had to counterattack and kill them. From this, we obtained another tower and a strand of divine thought from the corresponding Divine Soldier Weapon Relics."

"More infighting, it seems they were affected by the dark aura after acquiring the treasures, unable to divide the loot equitably, thus turning on each other."

Cao Zhen looked at his disciples and Li Ke, a hint of relief apparent in his eyes; his disciples had not been affected by the dark aura, evidently trusting each other, a fact that comforted him the most.

At this point, Cao Zhen noticed that his connection with Ling Xi also broke off, obviously as the time had come.

Speaking of which, ever since Immortal Bi Yue confessed her feelings to him, she really had not been affected by the dark aura anymore.

On the contrary, he had been suspecting whether Immortal Bi Yue had some ulterior motive. She was influenced by the dark aura twice, but due to the Age of Prosperity Qi in his body, the dark aura didn't really affect him—at least it didn't drive him to act against Bi Yue.

Along the way, he also saw many dead bodies, and even felt that most deaths after the opening of the relics were not due to other people's attacks, but rather to the influence of the dark aura that led them to kill each other!

He truly couldn't understand why the relics left by the Heavenly Dao to the Five Sounds Sect, which were supposed to be a lifeline for the sect, contained such a dark aura.

Was it a trial by the Heavenly Dao, or was it an intentional slaughter?

Meanwhile, Ling Xi had already relayed her conversation with her master to everyone.

Upon hearing this, Li Ke sneered, "Excuses, what did I tell you? Your master is now only focused on frolicking with that Bi Yue, completely forgetting about you all."

Even Bei Yan nodded in agreement and said, "That's right, the master is being too much." While speaking, he turned to the young Zhu Peng to instruct, "Little Zhu Peng, you must not follow the master's example in this respect. You must learn from me, to be wholehearted."

With that, he turned to Duo Duo and asked, "Duo Duo, you seem to be pondering something?"

"Um," Duo Duo nodded slightly, speaking softly, "Previously, everyone said that the silver light wings were one of the three pieces, combining the silver, orange, and red light wings to form the Upper-grade Profound Level Treasure, the Three-Colored Divine Wings.

However, I remember from the past, my father seemed to have said, this treasure shouldn't be called the Three-Colored Divine Wings, but the Five Light Divine Wings!"

"Five lights?"

The crowd showed shock upon hearing this.

Bei Yan even exclaimed, "Does that mean there are five different wing treasures? Three combined are already Upper-grade Profound Level treasures, so if five are combined, what level of treasure would that be? Could it be an Earth Level Treasure?"

Duo Duo, are you sure there are five pieces?"

"I'm not completely sure," Duo Duo gently shook her head, "After all, I was young then, and only overheard it once. I don't know if it's this set of Treasures!"

But, I'm certain that the Dragon Chant Sect, where Immortal Bi Yue belongs to, is really strong according to what my father said.

Moreover, within their Dragon Chant Sect, there really is a divine dragon."

"So, are you suggesting that our master is trying to infiltrate the Dragon Chant Sect? To secure a powerful backer for our Hundred Peaks Sect? In that case, it seems like our master is sacrificing himself." As soon as Bei Yan finished speaking, Zhu Peng's voice chimed in.

"Zhu Peng doesn't want the master to sacrifice himself, Grandfather said, a disciple should protect the master. Let Zhu Peng make the sacrifice."

Bei Yan suddenly turned his head, looking at the earnest Zhu Peng, this guy sure knew how to dream big, and sometimes he really wondered if this junior brother of his was really such a simpleton.

Sigh...

Not a single one of his brothers, except for himself, is normal.

Even Duo Duo, who appeared very normal, had a mysterious background, and her father seemed extremely powerful, but then he ran into trouble.

Perhaps Duo Duo carried a deep-seated vendetta on her back.

Looking at it this way, it seemed that his fifth junior sister was the most normal one. He didn't know how she was doing now, nor how the Hundred Peaks Sect was faring.

After disconnecting from Ling Xi, Cao Zhen thought of Yi Sheng, whom he hadn't seen in a long time and decided to connect with him through the Zhonghua Cloud.

In the Spirit Fields of Four Treasures Peak, Yi Sheng was busily tending to the spiritual medicines.

Suddenly, a disciple flew rapidly from the bottom of Four Treasures Peak. Upon seeing Yi Sheng, he called out loudly, "Sister Yi Sheng, the Vice Sect Master requests your immediate presence for an important discussion."

Chapter 1165:

Four Treasures Peak originally gained several Spirit Fields due to Cao Zhen's influence, and thereafter, Xiang Ziyu and the disciples of Four Treasures Peak, with their master skilled in Alchemy, also intentionally gathered Spirit Fields.

Now, the number of Spirit Fields at Four Treasures Peak even surpasses the entire Hundred Peaks Sect.

Normally, it would not be possible for Four Treasures Peak to achieve such a feat so quickly, to surpass other peaks in terms of Spirit Fields in such a short time.

After all, the Hundred Peaks Sect has existed for hundreds of thousands of years, especially Flying Immortal Peak, which has always been the strongest peak within Hundred Peaks Sect. How could they surpass decades of accumulation so easily?

But now, during the Reversal Mini Epoch Period, the people of Four Treasures Peak are the strongest force of this period, and then there were incidents like Eastern Wasteland attacking Dongliang and such. Moreover, with Xiang Ziyu's exceptionally good luck, it allowed Four Treasures Peak to experience a surge in the number of Spirit Fields in a short time, thereby becoming the peak with the most Spirit Fields within Hundred Peaks Sect.

After Cao Zhen and others left Hundred Peaks Sect, Yi Sheng has been taking care of these Spirit Fields. Everything else could be ignored, but not the Spirit Fields.

In fact, it was not impossible to let the mechanical beings created by master take care of the Spirit Fields, but Yi Sheng felt that, after all, mechanical beings are not human and wouldn't handle different situations based on the growth conditions of various Spiritual Medicines.

However today, just like other days when she went to manage the Spirit Fields, a disciple from the sect suddenly sought her out. She was curious, what major event had befallen Hundred Peaks Sect that required her presence?

Soon, she arrived at the Conference Hall, only to be surprised to find almost all Peak Masters of Hundred Peaks Sect had gathered here. She waited a while more until a representative from each and every one of the Hundred Peaks had arrived. Then in the main seat of the Conference Hall, Nie Jie slowly began, "Fellows, I just received news from the Frost Sect in the northern Desolate Cold Country. They saw White Fog at the border."

"White Fog?"

Instantly, cries of surprise continuously echoed throughout the Conference Hall.

The last time they saw White Fog was around Dongliang as well as Dongjiang.

Now, since Dongliang, Dongjiang, and other regions had already merged together, there was only one possibility if they were seeing White Fog again...

"Central Five Provinces? We've finally seen the Central Five Provinces!"

"Elder Nie, did the people from Falling Frost Sect only see the White Fog? Did they at times see anything beyond the White Fog?"

"There was nothing," Nie Jie gently shook his head. "They only saw the White Fog and nothing of the opposite side, likely due to the distance being too great.

Moreover, they have tried, but it's essentially impossible to break through the White Fog.

However, we in Eastern Wasteland have now seen the White Fog, and it shouldn't be long before we see what lies beyond it. Now, I have gathered you all to inform you that our connection to the Central Five Provinces should be in the north.

Also, you should prepare early, as no one knows what will happen once we truly border the Central Five Provinces. We likewise do not know if the people of the Central Five Provinces have seen this White Fog."

Desolate Cold Country is located to the north of Guardian Immortal Imperial Dynasty, not a large country, but a very small one, and also the northernmost country in the entire Eastern Wasteland.

Moreover, just like its name, it is both icy cold and desolate, which is why the Guardian Immortal Imperial Dynasty has never used military force against it.

After Nie Jie finished conveying the news, everyone quickly left, but Nie Jie kept Yi Sheng alone. After everyone had left and only the two of them remained in the room, Nie Jie helplessly looked at Yi Sheng and asked, "Yi Sheng, has your master sent any news? Did he mention when he will return?"

He truly felt helpless, dealing with a Sect Leader and a Grand Elder who frequently wander off on their own, leaving him without anyone to discuss matters during critical times.

"My master...", Yi Sheng sighed helplessly, her master had stopped contacting her since telling her they had reached the Central noon.

While she pondered how to respond to the Vice Sect Leader, her master's voice suddenly rang in her mind.

"Tell Nie Jie that when Eastern Wasteland connects to the Central Five Provinces, your master and the Grand Elder will naturally appear." Cao Zhen had not expected to just connect with Yi Sheng and coincidentally hear the news about the Eastern Wasteland seeing the White Fog.

However, seeing the White Fog did not mean that Eastern Wasteland could immediately connect with the Central Five Provinces, after all, when Eastern Wasteland had seen the White Fog of Dongjiang and Dongliang before, it also took a long while before the two sides truly connected.

Let alone, when they first saw the White Fog before, they could still see the vague shadow of the opposite continent; now, they couldn't even see a shadow, indicating a further distance.

However, if the north side of Eastern Wasteland connects to the Central Five Provinces, it should likely connect to the southern side of the Central Five Provinces, right? Eastern Wasteland's connection point shouldn't be the Southern Continent, right?

Cao Zhen thought of a possibility.

Upon hearing her master's words, Yi Sheng immediately relayed to Nie Jie: "Master just informed me. He said when our Eastern Wasteland connects with the Central Five Provinces, he will appear with the Grand Elder."

"Then, I am reassured," Nie Jie nodded lightly, but did not inquire where Cao Zhen and the others had gone.

Chapter 1166:

This time, Cao Zhen said he needed to venture out for experience, and he even took so many experts with him. Clearly, the destination was exceedingly secretive; therefore, he didn't ask further.

After Yi Sheng relayed the message, he immediately inquired in his mind to his master, "Master, you have been gone for too long, where are you now? Are you waiting for us directly from there?"

"The master should be waiting there, and I deduce we might connect to the Eastern Province. However, it is not certain. I am currently within a relic. After leaving the relic, I will clarify whether Eastern Wasteland is connected to Eastern Province."

Cao Zhen worried that the connection from Eastern Wasteland would lead to Southern Continent instead of Eastern Province and hastily ended the link with Yi Sheng. He then promptly asked Immortal Bi Yue, who was advancing ahead, "Bi Yue, I have a question. How far are we from Southern Continent? If we wanted to reach there, how long would it take? Consider traveling at a moderate pace with the cultivation base of Ten Different Phenomena of Golden Elixir Great Perfection."

Immortal Bi Yue did not respond to Cao Zhen immediately but instead said, "That depends on where in Eastern Province one is starting from to reach Southern Continent."

Cao Zhen thought of their current location in Eastern Wasteland and replied, "From Cloud Reaching Sect to Southern Continent."

"That would be extremely far," said Immortal Bi Yue after pondering for a while, "I have never been to Southern Continent myself, and cannot provide precise details. But even with the full speed of Ten Different Phenomena of Golden Elixir Great Perfection, flying would take several months, approximately four to five months. Also, the provinces from East, West, South, and North, though interconnected, are separated by thick mists at their borders. To reach another province, one must pass through these mists."

Inside the mists, dangers abound, and unless necessary, no one travels to other provinces. Especially during the Reversal Mini Epoch Period, no one dares to pass through the mists to another province."

"Mists?" Cao Zhen's face showed a sudden look of anticipation and he said, "I wonder, after Eastern Wasteland connects with the Central Five Provinces, will there be mists between Eastern Wasteland and the Central Five Provinces?"

"There won't be," Bi Yue gently shook her head. "According to records, after the connection of places like Eastern Wasteland to our Eastern Province, no mists will appear."

Cao Zhen felt disappointed yet he knew such a possibility was indeed slim, otherwise, people wouldn't keep saying that those from the Demonic Path of the Central Five Provinces might target them.

"By the way, you mentioned records. And since Dragon Chant Sect has existed for so many years, there certainly must be other records as well, such as whether Eastern Province is connected to Eastern Wasteland, Eastern Border, or East Breeze?"

"I don't know," Immortal Bi Yue said apologetically, "I did not pay much attention to this matter before, so I'm also unclear about the regions Eastern Province is connected to. But there must be records in our Dragon Chant Sect. I can contact my uncle and ask."

As Immortal Bi Yue spoke, she quickly took out a yellow paper resembling a sect's chart and wrote a message on it.

"Uncle, could you check which region our Eastern Province is connected to?"

This is the benefit of having a background; one could directly inquire from the Dragon Chant Sect, the large temporary hierarch.

However, as the yellow paper burned, a wisp of black smoke rose, spiraled around the surroundings, and dissipate in the air.

Immortal Bi Yue immediately furrowed her brows and helplessly said, "We are in this relic, I cannot send messages back to the sect."

"Never mind, we can ask again after we leave the relic," Cao Zhen had no other alternatives, but from Immortal Bi Yue's words, he could deduce that Eastern Province was far from Southern Continent. Considering the great distance and their traversal through Boundless Bloody Hell while fighting Demonic Beasts, calculating the time, they should currently be in Eastern Province.

The two resumed their journey, flying towards the direction where the Silver Light Feather Wings had fallen.

At this moment in the entire relic, almost everyone was heading towards where the Silver Light Feather Wings landed, as it was clear to everyone that the most precious treasure in the relic had appeared.

These were Yellow Grade Mid Grade treasures. Most Earth Immortal Realm masters wielded only Mortal Rank treasures, and even those were mostly Common Low Grade or Common Mid Grade treasures.

Not to mention, Silver Light Feather Wings were part of the Three Colored Divine Wings, components of a Mysterious Rank treasure, which made them even more valuable.

This relic was massive; guided by Immortal Bi Yue, it took Cao Zhen two days of flying to finally reach where the Silver Light Feather Wings had landed.

This place was neither deep in any mountain nor in any tumultuous sea, but amidst a ruin.

This region was littered with destroyed remnants of Great Formations, abandoned buildings...

Although there were only two of them, Immortal Bi Yue was incredibly well-known. As Bi Yue arrived, many people looked their way.

"Immortal Bi Yue?"

"Immortal Bi Yue has actually brought a male cultivator with her; it seems the rumors are true."

"Immortal Bi Yue, has she really found a Dao Companion?"

Chapter 1167:

"I heard that this male cultivator is merely someone with a Nine Abnormal Phenomenon Golden Pills, what virtue and ability does he have to be favored by Immortal Bi Yue?"

"Yes, in our Eastern Province, how many talents wish to become a subordinate under Immortal Bi Yue's skirt? Which one of them isn't better than that male cultivator?"

"I really don't understand."

"Isn't that person called Cao Zhen? He's really lucky, to become the Dao companion of Immortal Bi Yue, he can definitely stride across the Eastern Province in the future."

"Things are probably not as simple as you think. Immortal Bi Yue favors him, but would the people from Dragon Chant Sect agree?"

"That's right, it's currently the Reversal Mini Epoch Period, the elders of Immortal Bi Yue are all asleep. What about when the Reversal Mini Epoch ends? When those experts from Dragon Chant Sect, the elders of Immortal Bi Yue, and her master wake up, how could they possibly agree to Immortal Bi Yue choosing such a person."

"Keep your voices down, Immortal Bi Yue is looking over here."

Although both are beautiful, Cao Zhen noticed that when his disciples made flippant remarks they courted death, but when Immortal Bi Yue appeared, no one dared to provoke her.

However, having a famous reputation has its downside, which notably increases the difficulty of quietly making a fortune.

With their arrival, more and more people started noticing them.

Cao Zhen looked around but did not see his disciples; mainly because there were too many people. However, he felt that it wouldn't be long before Ling Xi and the others would come over, after all, with Immortal Bi Yue's high reputation, more and more people started discussing the two of them.

In the far distance of the ruins, a group of Golden Core Stage cultivators in uniform white attire, with the image of a Divine Dragon howling skyward embroidered on their chests, listened to the surrounding noises, each of their faces turned extremely ugly.

For a moment, the air around them seemed to have become heavier.

The people discussing nearby, sensing the change over here, fell silent one after another.

"Stop talking..."

"The people from Dragon Chant Sect are looking over here, don't stir up trouble."

"Let's go, clear out from here."

The disciples of Dragon Chant Sect swept their gaze around, their eyes eventually settling on a handsome man exuding a cold aura among them,

"Brother Yu Long... so many people are spreading rumors about Sister Bi Yue."

"Brother, Sister Bi Yue has arrived, shall we go and see what exactly is happening?"

"Brother?"

Yu Long, emanating a cold aura, nodded heavily and walked forward, and soon, more than thirty disciples from Dragon Chant Sect followed him.

Cao Zhen noticed that many people here were not just idling around, but were deciphering a Great Formation, constantly searching within this ruin, seemingly in anticipation of finding something.

Meanwhile, faint sounds of musical instruments could be heard all around, carrying a touch of tragic undertone. However, the sound was too faint, making it hard for him to hear clearly.

"Follow me," whispered Cao Zhen to Bi Yue, taking a step forward.

Ever since Bi Yue arrived at the ruins, she almost always heeded Cao Zhen's words. When Cao Zhen said to move, she naturally followed him forward.

As Cao Zhen walked, he transmitted a message to Immortal Bi Yue, "Do you know the origins of these ruins?"

"I don't know..." Bi Yue had just replied with two words but suddenly changed her statement, "This, this is the emblem of Sound Doctrine Church, it's the Sound Doctrine Church!"

"Sound Doctrine Church?" Cao Zhen sent a surprised message back. "Wasn't it said that after the failure of Sound Doctrine Church's Heavenly Tribulation, many went there to scavenge for things? How come the ruins of Sound Doctrine Church have appeared here?"

"I don't know either, after all, after a Great Teaching had been scavenged, everyone would leave." Immortal Bi Yue frowned and communicated. "After all, although Sound Doctrine Church was a Great Teaching that existed for two million years, after the failure of their Sect Tribulation, the remnants of the Sect Tribulation's aftermath would linger around the entire sect.

These aftereffects constantly manifested anomalies throughout the entire sect grounds. Though high-level cultivators could go to scavenge treasures, for those disciples with weaker cultivation bases, they couldn't withstand the aftermath of the Sect Tribulation, let alone cultivate.

Thus no forces would occupy a Great Teaching's sect grounds after it was destroyed. After Sound Doctrine Church was eradicated, once everything worthwhile had been taken, people left. Hence, no one knew what later became of the Sound Doctrine Church's sect.

Now it seems, after the destruction of Sound Doctrine Church, part of the sect grounds was taken away by the Heavenly Dao.

Currently, it is the Five Sounds Sect facing the Sect Tribulation, another Great Teaching that enters Dao through Musical Rhythm, so the ruins descended by the Heavenly Dao hold a part of Sound Doctrine Church's sect grounds."

Cao Zhen nodded slightly, if it were the sect grounds of Sound Doctrine Church, then the tragic undertone in the sounds he heard was not unexpected.

After all, the failure of Sound Doctrine Church's Sect Tribulation must have been incredibly tragic.

At the same time, images of what he had seen in the Age of Prosperity Ruins emerged in his mind; did those images also include scenes of a Sect Tribulation?

As they walked, the path in front of him was blocked by some people.

Since he was walking with Bi Yue, everyone knew that Bi Yue was at the Golden Core Period Limit and didn't want to provoke Bi Yue, so as the two of them walked, others would voluntarily clear a path for them. Now, someone was blocking the way?

Chapter 1168:

Cao Zhen looked up in surprise, his sight meeting over thirty individuals dressed in uniform attire.

And these thirty-odd individuals, at the same time, exclaimed, "Greetings, Sister Bi Yue."

Cao Zhen glanced at the emblem on their chests, indeed, these were people from Dragon Chant Sect. However, with so many people coming to seek Bi Yue, she would probably be very annoyed.

As the thirty-plus disciples of Dragon Chant Sect appeared simultaneously, more people also turned their attention towards the scene.

Immortal Bi Yue's complexion immediately turned sour, she was just thinking about making a fortune quietly, why are these people coming here to find her for no reason? Are they afraid that others won't notice them?

The eyes of the people from Dragon Chant Sect, however, all fell on Cao Zhen next to her.

Immortal Bi Yue was considered the most perfect immortal among the younger disciples of the Dragon Chant Sect, but in this relic, they heard that Immortal Bi Yue had taken a fancy to a man without any powerful background, and was very intimate with him.

Even more, they heard that the man was just a Nine Abnormal Phenomenon Golden Pills holder.

If Sister Bi Yue had chosen someone who is at the limit of Golden Core Period and a hero from another Great Teaching, they naturally would have nothing to say.

But what about this guy in front of them?

How is he worthy of Sister Bi Yue?

Their most outstanding immortal from the Dragon Chant Sect, why should she settle for someone like this!

Each disciple from Dragon Chant Sect looked at Cao Zhen with dissatisfaction in their eyes.

Even the female disciples were filled with doubt and confusion, they couldn't understand why Sister Bi Yue would take a liking to someone who merely had Nine Abnormal Phenomenon Golden Pills.

Although everyone was curious and displeased, no one took the initiative to speak; they were waiting for their Brother Yu Long.

Yu Long stepped forward from the crowd, glanced disdainfully at Cao Zhen, then deliberately turned to Bi Yue and asked, "Sister, who is this?"

Immortal Bi Yue replied harshly, "You should address him as Brother."

"Brother?" Yu Long, and even those behind him were all stunned. Yu Long confusedly asked, "Sister, he isn't from our Dragon Chant Sect, right?"

"Correct, he isn't from Dragon Chant Sect," Bi Yue said, proactively leaning towards Cao Zhen, addressing her fellow sect members, "But he will become my Dao Companion, and then you will naturally address him as Brother. Or, do you prefer to call him Junior Brother?"

As Immortal Bi Yue's words fell, the surroundings instantly erupted in murmurs.

Many had heard that Immortal Bi Yue and a male cultivator were very close; they also saw with their own eyes Immortal Bi Yue alone with a male cultivator.

But being together, being intimate, did not equate being Dao Companions.

But now, they heard from Immortal Bi Yue herself that she wanted to take this man as her Dao Companion!

Yu Long directly said, "Sister? Choosing him as your Dao Companion may not be appropriate."

"Are you teaching me how to conduct my affairs?" Immortal Bi Yue's face instantly cooled, her voice icy as if emanating from ages of frost, the surrounding air temperature sharply dropping, "Since when did it become your place to decide on my matters?"

The disciples from Dragon Chant Sect instantly bowed their heads in fear, witnessing Sister Bi Yue this angry for the first time; even Yu Long bowed his head, not daring to speak further.

Immortal Bi Yue pointed towards the distance angrily and shouted, "Leave, I don't want to see you!"

The nearby Dragon Chant Sect disciples were once again stunned. Yu Long then raised his head, full of surprise, and said pointing around, "Sister, of course, we wouldn't dare to interfere and have no right to concern ourselves with your matters. But now, we are in these relics, if you want to contest for that Silver Gleam Feathers, we can also lend you a hand in support."

Yu Long, although not at the limit of the Golden Core Period, was also extremely close to that limit, otherwise during this exploration inside the relic, he wouldn't have been the leader.

Besides him, in their team, there were even two top masters at perfect completion of Ten Different Phenomena Golden Elixir and six transcendents at Ten Abnormal Phenomena Golden Elixir Great Perfection.

These thirty-odd individuals each were at the Great Perfection stage of Ten Different Phenomena Golden Pills.

They indeed represented a formidable strength.

Bi Yue really wanted to kick Yu Long out right now; how could this fellow be so thoughtless?

She asked him to leave, and he should've just obediently done so, but he had to stay.

She looked at Cao Zhen beside her, a thought crossing her mind, suddenly reached out, and grabbing Cao Zhen's arm shouted, "I know your strength isn't bad, but on this occasion, within this relic, however strong you are, it has nothing to do with me.

Because, this time, I am going to help Cao Zhen seize the Treasure, and if it is obtained, I will give it to him. I am not representing Dragon Chant Sect but myself; even if I get the Treasure, I won't give it to Dragon Chant Sect, so you all should go and seize your own treasures, and not get involved with me."

As she spoke, she briefly paused, then added, "Of course, if you want to help him, that would be best."

The people around were almost driven mad upon hearing this, Immortal Bi Yue, stated she would help this Cao Zhen seize the Treasure instead of helping Dragon Chant Sect.

This Cao Zhen, what merits does he have to make Immortal Bi Yue help him so?

If it were not for the Reversal Mini Epoch Period, if Immortal Bi Yue were not at the limit of the Golden Core Period, they would even suspect that Immortal Bi Yue had fallen under some sort of evil spell, bewitched by Cao Zhen.

Chapter 1169:

Yu Long couldn't comprehend why Bi Yue was doing this, and he definitely couldn't help this favored individual.

"Please forgive me, Senior Sister, but as disciples of the Dragon Chant Sect, we naturally have to submit the treasure to our sect, not to him."

After speaking, Yu Long turned and started walking backwards, but he had only taken two steps when Bi Yue's voice came from behind.

"Wait..."

Upon hearing this, a look of delight momentarily flashed across Yu Long's face. Could it be that Senior Sister had changed her mind?

He quickly turned back, while Bi Yue's voice came once again.

"Right, those other regions are going to connect with our Eastern Province, do you know which regions we are connected with?" She recalled the question that had been asked by Cao Zhen before. It was not a secret, she simply had not paid attention to it, but maybe other disciples might know.

Yu Long paused, confused about what was going with Bi Yue. Why was she acting so unnaturally? Now he even doubted whether the person in front of him was the real Bi Yue, as she showed no concern for those regio...

Let alone Bi Yue, no one in their Dragon Chant Sect cared about this matter.

Yu Long slightly shook his head and said, "I don't know."

Bi Yue replied irritably, "If you don't know, then keep quiet."

Yu Long...

He was truly baffled. Is this really Bi Yue? Since when did she have such a temper?

Bi Yue ignored Yu Long and looked towards the others, asking, "Does anyone else know?"

"Senior Sister, I know," hastily replied an inconspicuous man from the crowd, "It's places like the Eastern Wasteland, Dongliang, Dongjiang..."

Actually, he hadn't been paying attention to this affair, but a good friend of his said, after teaming up with another friend, they planned to go there to see if they could benefit from it while als...

...analyzing that although they were in a Great Teaching with ample resources, the real resources were still given to the geniuses in the sect; they needed to rely on themselves to get more resources.

Eventually, he agreed and thus specifically looked up some information and learned that the Eastern Wasteland and other regions would connect to their Eastern Province.

"Very good." Bi Yue, upon seeing the disciples of Dragon Chant Sect, showed a smile for the first time, knowing that the regions connecting to their Eastern Province were Eastern Wasteland and others. Cao Zhen can rest assured then.

She looked at the unremarkable disciple and asked, "Good, I've remembered you, what's your name?"

"Senior Sister, my name is Yin Yuanliang."

"Very well, Yin Yuanliang, when we return to the sect, you can come to me if there's anything." Bi Yue made a promise, then waved her hand to the crowd, "Alright, you can go now."

The crowd was utterly baffled, not understanding why Bi Yue suddenly became interested in the Eastern Wasteland and other places, and even just because of a message, she had made a promise to Yin Yuanliang that he could seek her out if he faced any problems.

Though it was just a simple sentence, with this promise, Yin Yuanliang could indeed seek out Bi Yue if he encountered any difficulties.

This is an existence at the Golden Core Period Limit!

Cao Zhen felt touched as he saw that Bi Yue remembered his concerns about this matter, and his mind was entirely at ease now. As long as the Eastern Wasteland connected with the Eastern Province, that was good.

This being the case, he needn't worry about not being able to return to Hundred Peaks Sect promptly after the Eastern Wasteland connects to the Central Five Provinces. Now he even had time to engage in other activities, could gather more information in Eastern Province, or even consider visiting the Five Sounds Sect, help them with their Sect Tribulation, and then collect some benefits.

He could even make a substantial deal with the Five Sounds Sect.

He had six Treasure Pagodas on him, and his disciple had two more. He had researched these pagodas and discovered that they were extremely powerful Divine Weapons, and having a number of pagodas might form a Great Formation.

Especially, for those who entered the Treasure Pagodas with knowledge of Musical Rhythm, playing music could significantly enhance its power.

The Five Sounds Sect needed these Treasure Pagodas for their Sect Tribulation, and the more, the better. When the time came, he could carry out a substantial trade with the Five Sounds Sect.

Among the crowd, Ling Xi and others had heard the name of Immortal Bi Yue and went towards the source of the voice without needing to communicate; they wanted to see for themselves what kind of person Immortal Bi Yue was, now that Cao Zhen had left them behind.

As they walked, they happened to hear what Yin Yuanliang said.

The Eastern Wasteland's connection spot would be the Eastern Province, and at that moment, they too were relieved.

As expected, it was the Eastern Province. If the connection spot had been somewhere else like the Western continent or Southern continent, they might have had to immediately return to Boundless Bloody Hell and then fight their way back to the Eastern Wasteland and return to Hundred Peaks Sect.

The group exchanged nods as they moved forward, and soon, they could see Immortal Bi Yue.

They had seen Immortal Bi Yue before, as she performed a dance at the grand event of Cloud Reaching Sect, but they were too far away at that time to see her clearly.

Now, under close observation, they instantly felt a powerful aura emanating from her.

Even though Immortal Bi Yue wasn't using her Golden Core, being an existence at the limit of the Golden Core Stage, her uncontrolled aura still gave a strong sense of oppression.

Chapter 1170:

Golden Core Period Limit...

This aura, they were very familiar with it, after all, both Cao Zhen and Xiang Ziyu had reached the limit of the Golden Core Stage.

Ling Xi and the others, even within the realm of immortal cultivation, were top-notch beauties, let alone when all four appeared together. As the four walked over, for a moment, many people around them also turned their gazes.

Even Immortal Bi Yue also looked over.

Ling Xi, Yan Yourong, Duo Duo, and Li Ke, feeling Bi Yue's gaze, dared not to face them as they all glared back, especially Li Ke, whose eyes seemed to emit a fierce light.

That's right, her and Cao Zhen were indeed only pretending to be Dao companions, but in the eyes of others, in the eyes of the disciples of the Hundred Peaks Sect, and even to all the people of the Eastern Wasteland, she and Cao Zhen were Dao companions. Now that Cao Zhen was with another woman, what was this supposed to mean!

"Hm?"

Immortal Bi Yue sensed the gazes of the four women, a glint of intrigue that seemed as if she had found a new amusing toy flashed in her eyes. Given her status, ever since she started her cultivation, scarcely anyone dared to provoke her.

And with her own astonishing talents, no one dared to have a staring contest with her. Now, these four people were actually looking back at her unabashedly. If this wasn't interesting, what was?

Cao Zhen, looking at Bi Yue and the other four women engaged in a staring contest, felt a headache coming on and quickly tugged at Bi Yue, while whispering in secret transmission: "Enough, stop looking, or you'll blow our cover."

"What do you mean?" Immortal Bi Yue asked, puzzled as she looked towards Cao Zhen.

Cao Zhen sent a whisper through secret transmission: "These people are all from Hundred Peaks Sect, and most of them are my disciples. If you keep staring them down, and a conflict breaks out, how are we going to deal with it? How will we continue to profit quietly?"

"What? These are your disciples?" Immortal Bi Yue showed a look of surprise. Cao Zhen had told her that his disciples had also entered this ruin, but he never mentioned he had so many female disciples, nor that they were all stunning beauties.

She suddenly understood why these women were glaring so intently at her, with eyes clearly filled with animosity. Were they hating her for taking away their Master?

Bi Yue wrapped her arm around one of Cao Zhen's, slightly tilting her head and giving the other women a glance, with a victorious smile in her gaze.

On the other side, Li Ke felt like her lungs were about to explode in anger. Cao Zhen must have revealed their identity to Bi Yue. This woman, her actions were definitely provocative—this was naked provocation!

Cao Zhen, noticing the change in Li Ke's expression, quickly sent a secret transmission to his cherished Senior Disciple: "Ling Xi, keep calm, contain Li Ke. Don't recognize me now, and stop looking at us, otherwise others will start to notice something's wrong."

After transmitting to his disciple, he hurriedly sent another message to Bi Yue: "Look, there are so many people around. We aren't really Dao companions right now, this isn't quite appropriate."

Somehow, even though he was just pretending to be Dao companions with Li Ke, when Bi Yue clung onto his arm so intimately, he felt an inexplicable sense of trepidation, as if a man caught in an affair by his lawful wife.

He would have been better off not saying anything, for after he spoke, Bi Yue held onto him even tighter, and sent a secret transmission back: "What's wrong? Are you scared? Worried that your disciples, seeing us so intimate, will get jealous? Or that your disciples can't take it and will fight to the death with me?"

Cao Zhen felt completely overwhelmed: "No, what are you thinking? I am their Master, and they are my disciples, how can you have such thoughts?"

"Why can't I have these thoughts? Why can't a Master be together with a disciple? Not to mention those from the Demonic Path who don't care about these things, or the Evil Path figures. Even within our Righteous Path, there are situations where Masters and Disciples become Dao companions, rare as it may be."

Immortal Bi Yue transmitted: "But speaking of which, your female disciples are indeed first-rate beauties, especially that one in the white clothing, who really does have impressive assets. And that one that looks the youngest is impossibly beautiful.

Did you choose disciples based on their beauty? Tell me, out of these four female disciples, which one do you like the most?"

"Nonsense, how could I choose disciples based merely on looks, I am not so vulgar. Plus, among my four female disciples, two of them were not picked by myself. One came over by herself, and another—this youngest disciple you mentioned.

When I took her in, I wasn't even at the sect entrance; it was my other disciples who chose her! And my disciples, they are truly strong."

"Oh? How strong?" Immortal Bi Yue was successfully diverted to another topic, and she inquired with secret transmission: "Are they all equivalent to what you call the Ten Different Phenomena of Golden Elixir Great Perfection?"

A smug look crossed Cao Zhen's face: "The Ten Different Phenomena of Golden Elixir Great Perfection is a given."

Hearing this, Immortal Bi Yue was slightly surprised, but then she felt that it was expected. Cao Zhen was a reincarnated being with Great Ability; his disciples all being of the Ten Different Phenomena of Golden Elixir Great Perfection, what was there to be surprised about?

Cao Zhen continued transmitting: "That smallest female disciple you mentioned, she should be equivalent to, as you say, the peak of Ten Different Phenomena Golden Elixir Great Perfection. Also, that tall male disciple, he is also one of the peak Ten Different Phenomena Golden Elixir."

"Oh?" Immortal Bi Yue was truly surprised this time. So many at the peak of the Ten Different Phenomena of Golden Elixir Great Perfection? She glanced at Ling Xi and asked: "Then, what about the big one?"

"The big one... I mean, my Senior Disciple, she should be close to the Golden Core Limit." Ling Xi's strength among his disciples was also extremely formidable, and even a long time ago, she was almost comparable to Xiang Ziyu.

Before they entered the Boundless Bloody Hell, Ling Xi was close to the Golden Core Stage Limit when using the Unparalleled Formation Diagram combined with the Heaven and Earth Bagua Talisman. And after cultivating the Eight Nine Mysterious Art, Ling Xi's full power deployment would surely be incredibly close to the Golden Core Stage Limit.
