

## **My Master 1181**

Chapter 1181:

At his side, Immortal Bi Yue watched the Special Strange Core that flew out curiously, even giving it a glance. It was this Strange Core that when she was influenced by the black aura and attacked Cao Zhen with all her might, Cao Zhen released this Strange Core to dodge her attack.

Therefore, it was because of this moment with the Strange Core that Cao Zhen reached the Golden Core Period Limit.

But, what exactly is this Strange Core?

She had never heard of anyone being able to refine such a Strange Core.

Around them, many people following behind Cao Zhen also noticed something odd.

"What is that?"

"A Special Strange Core?"

"Why is that Strange Core above Cao Zhen's head?"

"That doesn't seem to be a Golden Core?"

"It definitely isn't a Golden Core!"

"This person, with Nine Abnormal Phenomenon Golden Pills, can still keep flying!"

In front, both Zhui Hun Demon and Lord Qu Wu, upon hearing the voices from behind, turned their heads to look and saw Cao Zhen with a Special Strange Core floating above his head, both showing a look of astonishment.

This guy, just with Nine Abnormal Phenomenon Golden Pills, how did he still catch up?

Catch up...

Eliminate him now?

The thought had just surfaced in their minds when they shook their heads. Attacking Cao Zhen at this time, Immortal Bi Yue would likely attack them too.

If they start fighting, their speed of progress will undoubtedly be evident and would likely benefit others.

At this moment, what they needed to do was to move forward as fast as possible, to get the Silverlight Wings!

Let's talk about this adventure after getting the Silverlight Wings!

At this point, all who left the ruins and were still moving forward had the same thought, to get the Silverlight Wings!

Previously, among the people in the melee, not one took the initiative to attack others!

They all continued against the Heavenly Tribulation falling continuously from the sky, slowly moving forward.

Everyone was moving forward, in the sky, the number of people still flying was getting fewer and fewer.

Ling Xi and others were also moving forward with the crowd, all of a sudden, Bei Yan fell down from the air and surprisingly started to turn toward another direction, while walking, he shouted to the still flying Ling Xi and others: "You guys, run further away, I can hardly hold back anymore!"

His shout was loud, causing many to turn their heads and look in his direction, their eyes filled with confusion and bewilderment.

You can't hold on, what are you shouting about?

You can't hold on, yet you ask your companions to run further away, what are you trying to do?

Ling Xi and several others, however, changed their expressions. Bei Yan's not holding on meant that he was about to release all his combat power, and then...

"Wait a moment, hold on for a while longer, wait until we run farther, then release all your combat power..."

While shouting, they flew away as fast they could.

"No, I also want to hold on, but I can't hold it anymore, here I come..."

Bei Yan, feeling the oppressive force from all around, looked at the blue thunder falling from the void and no longer suppressed himself, his cultivation base belonging to Wind Fire Tribulation fully erupted.

Instantly, a terrifying aura filled the space around him.

Around him, several cultivators who were relatively close to Bei Yan, upon sensing this special aura, had their faces change dramatically.

"This aura, it's the aura of the Wind Fire Tribulation!"

"This guy, he is a Wind Fire Tribulation!"

"Wind Fire Tribulation, why is he still running around? What is he coming here for, isn't he coming to die?"

"He's coming to die then, just don't harm us!"

"Rob clouds, the rob clouds have appeared, quick, run!"

Under normal circumstances, if they encountered someone of the Wind Fire Tribulation cultivation level and the person attracted the Wind Fire Heavenly Tribulation, they would just run away and hide, and after the Heavenly Tribulation, the person would either be in a coma or dead.

But now, they were in this ruin, surrounded by terrifying oppression, they wanted to run, but due to the oppression, they simply couldn't run fast!

In the void, the Wind Fire Heavenly Tribulation had already arrived, in an instant, fierce whirlwinds blew, immediately sweeping up a few cultivators who hadn't managed to retreat in time, followed by scorching flames falling down.

Immediately, screams echoed.

The aura of the Wind Fire Heavenly Tribulation could block everyone else's Divine Skills, but it couldn't stop the falling of Heavenly Tribulation.

Perhaps because they all belong to Heavenly Tribulation, when the Heavenly Tribulation fell, it immediately plunged into this wind and fire.

Including Bei Yan, everyone affected was simultaneously facing the Wind Fire Heavenly Tribulation and also the Heavenly Tribulation falling from the sky.

For a moment, everyone in that space utterly fell into chaos.

Bei Yan was already accustomed to the Wind Fire Heavenly Tribulation, but the others were facing the Wind Fire Heavenly Tribulation for the first time while also dealing with the Heavenly Tribulation falling from the void.

In just a moment, one person fell.

Soon, a second person also fell.

Behind, the crowd that was still progressing forward was avoiding this place, preferring to take a detour rather than walking this way.

But peculiarly, the person who attracted the Wind Fire Heavenly Tribulation turned around and began walking toward the back.

Immediately, the people behind became very anxious, shouting out loud.

"Don't come this way!"

"Esteemed Dao Companion, please show mercy!"

"Dao Companion, stop, don't move forward!"

Bei Yan was also helpless, he originally thought that with the Peak Fire Heavenly Tribulation helping him block the Tribulation, he could quickly fly to that mountain, but the Wind Fire Heavenly Tribulation couldn't stop the Tribulation.

Chapter 1182:

In this way, with each step he took, he had to simultaneously face the lingering might of both the Wind Fire Heavenly Tribulation and the Sect Tribulation. How could he possibly keep moving forward?

Anyway, his master had also stepped forward. Since his master was at the very limit of the Golden Core Stage, it was better to let his master grab that treasure. It was wise for him to obediently return.

Because of Bei Yan, the people who left the ruins later suffered one after another. Many of them didn't continue forward but instead fled to the sides or even backwards.

Fortunately, the Wind Fire Heavenly Tribulation couldn't last forever. Slowly, it also vanished without trace.

However, when the wind and fire faded, the crowd around stood dumbfounded.

That guy who had just triggered the Wind Fire Heavenly Tribulation was still standing there.

"What's going on?"

"It was him who triggered the Wind Fire Heavenly Tribulation just now!"

"Shouldn't he be dead? Why is he still standing?"

"Now, during the Minor Era of Inversion of Heaven and Earth, after the end of the Wind Fire Heavenly Tribulation, if he is successful, he should be directly slumbering. If he failed, he would've died in the Tribulation.

This guy, however, is neither slumbering nor dead. What gives?"

"Did he succeed or fail the Tribulation?"

Everyone was momentarily dumbstruck. They had never heard of someone who, during the period of the Minor Era of Inversion of Heaven and Earth, had finished a Tribulation without either slumbering or dying!

They even began to doubt whether what he had just gone through was the Wind Fire Heavenly Tribulation!

"Damn it, it's this guy; because of his Tribulation just now, I almost died. And now he's still standing here? Die!"

Suddenly, a wretched-looking chap violently raised his hand, a beam of silvery radiance shot out and headed straight for Bei Yan.

Bei Yan's eyes instantly flared with rage, bellowing, "Do you think I wanted to undergo the Tribulation, and you even dare to attack me!"

Enraged for being impeded from moving due to the effects of the Wind Fire Heavenly Tribulation, and now suddenly attacked, he unleashed all his might in retaliation with the Five-thunder Righteous Method.

As he activated his full power, clumps of Tribulation clouds from the Wind Fire Heavenly Tribulation appeared in the void, and the next moment, the Tribulation descended!

The surrounding cultivators instantly went mad.

"What's going on?"

"Again?"

"Can one undergo the Wind Fire Heavenly Tribulation twice?"

"He just underwent the Tribulation, either he failed or succeeded, why can he go through it again?"

"Damn, run!"

"That bastard, he's from Zhi Zhen Sect, I'll remember your Zhi Zhen Sect, why did you provoke him for no reason?"

For a moment, this area that had just calmed down once again became utterly chaotic.

Due to the events in the back, many people in the front also turned their heads to look.

"Going through Wind Fire Heavenly Tribulation twice? I've never heard of such a situation."

"Does anyone know which Great Teaching that guy belongs to?"

"Don't know him, never seen that person before!"

Although Bei Yan and the others had attended a grand gathering of the Cloud Reaching Sect, they were not honored guests and sat at the periphery. There weren't any experts in the periphery, and those who might have seen them could also have entered the ruins.

But many had died on the way to the ruins due to the black aura, and those who died were mostly not strong.

And here, still some distance outside the ruins, those who could arrive were experts among the Ten Different Phenomena of Golden Elixir Great Perfection. Unexpectedly, for a time, no one had seen Bei Yan.

Immortal Bi Yue continued to fly with Cao Zhen, turning her head to look back and seeing Bei Yan who had undergone the Tribulation twice, a flash of surprise in her eyes. She looked at Cao Zhen with puzzlement and questioned him telepathically, "Is this your Disciple? What's with him? Why can he undergo the Wind Fire Heavenly Tribulation twice?"

Even in her Dragon Chant Sect with a history spanning over two million years, there were no records of anyone undergoing the Wind Fire Heavenly Tribulation twice.

Even if Cao Zhen was a reincarnated Great Ability, he shouldn't be able to let his disciple undergo the Tribulation twice!

Cao Zhen immediately smiled and replied telepathically: "Twice? If he wants, he can undergo it twenty times, two hundred times, countless times! Because this is the period of the Minor Era of Inversion of

Heaven and Earth! And he is endowed with an Ancient Immortal Body! The Ancient Immortal Body can hardly cultivate and is even harder to breakthrough!"

"What? Ancient Immortal Body?"

Immortal Bi Yue couldn't believe that was the answer; she of course knew that the Ancient Immortal Body was almost impossible to cultivate.

Indeed, if it was an Ancient Immortal Body and the Tribulation was successful, due to its uniqueness, it might fail to advance into the Earth Immortal Realm, thus naturally being unable to breakthrough.

Then, if he activated his full power again, it could indeed attract the Wind Fire Heavenly Tribulation once more, in which case it was possible to undergo countless Tribulations.

But the question was, how did the Ancient Immortal Body cultivate to the level of facing the Wind Fire Tribulation?

In the current era, the Ancient Immortal Body is nearly incapable of cultivation. Of course, that's not to say it can't cultivate at all, but it requires a tremendous number of resources for an Ancient Immortal Body to break through.

The terrifying amount of resources needed, even for their Dragon Chant Sect, were not worth the effort!

Mainly, there was no need!

To help an Ancient Immortal Body breakthrough to face a Wind Fire Great Tribulation, the resources consumed could create countless Ten Different Phenomena of Golden Elixir Great Perfections!

How did Cao Zhen, located in the remote Eastern Wasteland, come by so many resources to let an Ancient Immortal Body cultivate to the level of facing a Wind Fire Great Tribulation?

Could it be the resources from his reincarnation? Did he use all of them to assist his disciple's cultivation?

Then what about himself?

Moreover, normally reincarnated Great Ability individuals would spread out their resources, right? Has he not yet divided his resources?

For a moment, Immortal Bi Yue found it hard to understand.

At last, after Bei Yan underwent the Tribulation anew, everyone saw he was still standing there, neither dead nor slumbering. Although surprised, after experiencing it once, their shock had somewhat lessened, and no one provoked him again.

To provoke this guy who could bring forth another Wind Fire Heavenly Tribulation - was that not courting discomfort?

However, due to Bei Yan's uniqueness, people began to pay attention to the likes of Ling Xi, who had been with Bei Yan earlier.

Chapter 1183:

Although Eastern Province is vast, the areas of activity for the many Cultivators are actually limited. A Cultivator couldn't possibly always head east while his Sect is situated in the western side of Eastern Province.

Even for someone at the Ten Different Phenomena Golden Elixir Great Perfection beneath Earth Immortals, flying from the westernmost to the easternmost point of Eastern Province would take more than two years.

And flying from the northernmost to the southernmost point would take even longer.

Just like when people mention East Demon, West Immortal, South Sound, North Mansion, and Central Qu Wu, they aren't actually located in the east, west, south, north, and center of Eastern Province. It's just that relative to each other, what's in the east is called East Demon and what's in the west West

Immortal, but actually, West Immortal is further north than North Mansion. It's just a convenient way of speaking that everyone has adopted.

Therefore, the Cultivators active in a certain region generally know each other.

Of course, it might be normal that nobody recognizes a single Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion, but if there are several, and no one knows them, that would be highly abnormal.

Such strange beings, seemingly capable of enduring continuous Heavenly Tribulations of Wind Fire, are being seen for the first time by everyone. Involuntarily, they all turn their gaze towards the other five people.

"Those five, they are together with that strange Wind Fire Tribulation!"

"The remaining five are still advancing!"

"I'm at the Wilderness Level Ten Different Phenomena Golden Core Perfect Completion, but I too can't go any further from here."

"Don't even mention Wilderness Level, look ahead, that's from Picking Empty Sect, Empty Hands, he's at the Profound Level Ten Different Phenomena Golden Core Perfect Completion. He can't hold on anymore and is falling from the sky."

"There's another one, Immortal Hua Die, also a Profound Level Ten Different Phenomena Golden Core Perfect Completion. She is falling as well."

"If there's one Profound Level Ten Different Phenomena Golden Core Perfect Completion who falls because they can't hold on, it might be their own issue, but with so many Profound Level Ten Different Phenomena Golden Core Perfect Completion masters falling, it means after reaching that spot, they can no longer fly."

"But those five are still flying, that means, at the very least, they are also Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion!"

"Our region doesn't have such a force with these five people."

"Among these five, four are such beautiful Immortals. If they were from a Sect in our region, it would be impossible for us not to know."

"So, they are probably not from our region."

"I wonder from which Great Teaching they hail!"

Many had already noticed Ling Xi and her four companions, yet they continued to fly forward just as before.

Flying in the air is undoubtedly much faster than walking on the ground. Especially on the ground, where they must face many attacks.

Naturally, they choose to fly.

Silver Light Wings are just ahead on the mountain, even if they can't seize it directly, they are determined to aid their master.

Gradually, they too felt the increasing pressure.

Around them, fewer and fewer people remained flying, continuously some fell from the sky to the ground.

"That person, that's Yuan Xiuming from Dragon Chant Sect, even he as a Transcendent Ten Abnormal Phenomena Golden Elixir Perfect Completion, has fallen."

"There's another, I see Hong Qilue from Five Sounds Sect has also fallen, he's also a Transcendent Ten Abnormal Phenomena Golden Elixir Perfect Completion."

"So it seems, even Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion can't hold on anymore..."

"You see those five, they are still enduring!"

"So, are all these five above the Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion? They must be at least top Ten Different Phenomena Golden Core Perfect Completion!"

"Which Great Teaching dispatched so many top Ten Different Phenomena Golden Core Perfect Completion?"

At this moment, even Yu Long from Dragon Chant Sect, with surprise, turned back to look at the five unfamiliar figures not far behind.

Their Dragon Chant Sect though a top Great Teaching, had not dispatched so many top Ten Different Phenomena Golden Core Perfect Completion. Besides him, who is close to the Golden Core Period Limit, among the Ten Different Phenomena Golden Core Perfect Completion, they have only two top level ones. The strongest remaining ones are merely six Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion.

His Dragon Chant Sect had not dispatched so many top Ten Different Phenomena Golden Core Perfect Completion.

Who are these five people!

Five top levels of Ten Different Phenomena Golden Core Perfect Completion, and five Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion, the implications are completely different.

At this moment, another round of exclamations arose.

"Wait, look in the Void, that guy called Cao Zhen, he's still flying."

"How can he still hold on, he's just a Nine Abnormal Phenomemon Golden Pills?"

"What is happening with that guy?"

Soon, everyone's attention turned to Cao Zhen.

"No way, if even Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion can't hold up and have to land, he's just a Nine Abnormal Phenomenon Golden Pills, how can he still be flying?"

"Does it mean, although he's only a Nine Abnormal Phenomena Golden Pills, he has already reached the level of top Ten Different Phenomena Golden Core Perfect Completion?"

"But he hasn

't completed Pill Fusion, no Pill Fusion! How can he be so strong?"

"Who is this person, and why have we never heard his name before!"

Chapter 1184:

"Just Nine Abnormal Phenomenon Golden Pills are this powerful; once he reaches the Ten Different Phenomena of Golden Elixir Great Perfection, wouldn't he definitely hit the Golden Core Period Limit?"

"No wonder Immortal Bi Yue is with him! Turns out, he's already this strong with just Nine Abnormal Phenomenon Golden Pills!"

In the crowd, some exclaimed: "So strong without Pill Fusion? Those at the Golden Core Period Limit, at the time of Nine Abnormal Phenomenon Golden Pills, weren't this terrifying, right?"

"Which Great Teaching does this guy belong to? How come I've never heard of him before?"

"I remember someone mentioned, he seems to be from the Hundred Peaks Sect."

"Hundred Peaks Sect? Not a Great Teaching? Someone from a Sect? Such a person, not from a Great Teaching!"

"Could it be that aside from the people of Great Teachings, a Sect is about to produce someone who'll reach the Golden Core Period Limit?"

In the Eastern Province, those who are at the Golden Core Period Limit are almost always from Great Teachings, and even, top Great Teachings like the Dragon Chant Sect have two individuals at the Golden Core Period Limit.

After all, to reach the Golden Core Period Limit isn't just about having high talent, but also requires great destiny, the most top-tier legacy, immense resources!

Compared to Great Teachings, Sects still lack accumulation.

Currently, within the Eastern Province, only Horizon Sect, a Sect, is known to have someone at the Golden Core Period Limit.

And Horizon Sect is a Sect with a legacy of nine hundred and ninety-nine thousand nine hundred and ninety-nine years, and in ten more years, it will face Sect Tribulation.

Yu Long was completely stunned; this is the Cultivator Partner Immortal Bi Yue found?

Just how strong is Nine Abnormal Phenomenon Golden Pills!

Perhaps many people don't know how strong those at the Golden Core Period Limit are with Nine Abnormal Phenomenon Golden Pills, but he knows.

Their Dragon Chant Sect, after all, has two people at the Golden Core Period Limit.

And he himself is also close to the Golden Core Period Limit.

He's very aware, whether it is Immortal Bi Yue or their current Sect Hierarchy, Dragon Chant Sect's two individuals at the Golden Core Period Limit, when having Nine Abnormal Phenomenon Golden Pills, although they can defeat those with Ten Different Phenomena of Golden Elixir Great Perfection, are only ordinary Ten Different Phenomena Golden Elixir Great Perfection.

And, they can only barely manage to defeat them.

When they had Nine Abnormal Phenomenon Golden Pills, it was absolutely impossible to reach the level of top Ten Different Phenomena of Golden Elixir Great Perfection!

After all, for a Golden Core Stage Cultivator, whether or not they have completed Pill Fusion, the difference is really huge!

So to say, this guy, with Nine Abnormal Phenomenon Golden Pills, is not as strong as Golden Core Period Limit at the Nine Abnormal Phenomenon stage, but has already surpassed the Golden Core Period Limit!

Not far from Ling Xi, Ren Xiaoyao, Huan You, and Zhi Nuo were extremely surprised. They had seen Cao Zhen make a move before, knew that Cao Zhen was extremely strong, and knew that although Cao Zhen was just Nine Abnormal Phenomenon Golden Pills, he was a supremely strong being even among those at Ten Different Phenomena of Golden Elixir Great Perfection.

But they had not thought that Cao Zhen would be so strong as to reach the level of top Ten Different Phenomena of Golden Elixir Great Perfection with just Nine Abnormal Phenomenon Golden Pills!

Before, nobody could understand why such an outstanding Immortal Bi Yue would choose such a guy as her Cultivator Partner; now, everyone understood.

In the crowd, someone who had always been alone, advancing forward on his own, the Bloodbath Demon of the Weeping Blood Demon Sect, even turned around for the first time after departing, looking in the direction of Cao Zhen.

Nine Abnormal Phenomenon Golden Pills and already reaching the level of top Ten Different Phenomena of Golden Elixir Great Perfection?

Even himself, at the Nine Abnormal Phenomenon Golden Pills stage, had not even reached the Wilderness Level Ten Different Phenomena of Golden Elixir Great Perfection.

After he broke through to Ten Different Phenomena of Golden Elixir Great Perfection, he did not reach the Golden Core Period Limit; how much longer did he need to cultivate, even entering that terrifying sea of blood, experiencing life-and-death moments, before he reached the Golden Core Period Limit?

This Cao Zhen, with Nine Abnormal Phenomenon Golden Pills, is so strong, meaning this guy, just by condensing the tenth extraordinary Golden Pill and completing Pill Fusion, would become the Golden Core Period Limit!

As for him not being able to condense the tenth extraordinary Golden Pill?

How is that possible!

If he's this strong with just Nine Abnormal Phenomenon Golden Pills, if he can't condense ten extraordinary Golden Pills, then truly no one can.

How did this person come to reach such a level with just Nine Abnormal Phenomenon Golden Pills?

Not far from the Bloodbath Demon, the Zhui Hun Demon was also filled with surprise, and behind the Zhui Hun Demon, Qu Wu's face was already covered with frost.

Damn it, damn it all, why is this guy so strong with just Nine Abnormal Phenomenon Golden Pills!

If he is so strong at Nine Abnormal Phenomenon Golden Pills, then becoming a Ten Different Phenomena of Golden Elixir wouldn't he instantly become the Golden Core Period Limit, instantly surpassing himself?

At that time, Bi Yue may truly become his Cultivator Partner.

Then he would really have no chance.

By then, the Dragon Chant Sect would become this guy's backing, not his!

No, he absolutely cannot let this person achieve Ten Different Phenomena of Golden Elixir Great Perfection.

He must kill him before he breaks through!

Even in front of Bi Yue, he must kill him!

Inside Qu Wu's body, a deeply hidden dark aura began to spread... His expression became colder and colder, he glanced at the three people from the Dragon Chant Sect nearby, suddenly, he sent a secret message to the Zhui Hun Demon not far ahead: "Brother Zhui Hun, how is your relationship with the Bloodbath Demon of the Weeping Blood Demon Sect?"

Chapter 1185:

"Bloodbath Demon? I merely know of him." Zhui Hun Demon explained, "Although our Soul Breaking Sect and the Weeping Blood Demon Sect are both Demonic Sects, we seldom interact. The Weeping Blood Demon Sect doesn't have much dealings with other Demonic Sects either; they're a group of madmen.

So, I don't have any significant relationship with Bloodbath Demon. Why do you suddenly ask this question?"

"Because I want to join forces with him to deal with that Cao Zhen. Never mind, I will ask him myself..." Master Qu Wu wanted Zhui Hun Demon to help ask Bloodbath Demon to join forces because they were both from Demonic Sects. But since Zhui Hun Demon didn't know Bloodbath Demon, it would be better for him to ask Bloodbath Demon himself.

Master Qu Wu, while flying, transmitted his voice secretly to Bloodbath Demon at his side, "Bloodbath, I am Master Qu Wu. Would you be interested in joining hands to deal with Immortal Bi Yue and kill that Cao Zhen first?"

"En?" Bloodbath Demon was taken aback upon hearing Master Qu Wu's words, then chuckled, "Why would I join hands with you to deal with Bi Yue? If I were to join forces, I should be allying with Bi Yue to deal with you and Bloodbath Demon instead. After all, between you two, one is at the Golden Core Period Limit, and the other is close to the Golden Core Period Limit.

That Cao Zhen, who seems to possess the strength of Perfect Completion Golden Core at the level of the Ten Different Phenomena of Golden Elixir Great Perfection, after all, has only nine Golden Cores.

He can have such strength probably because of that Special Strange Core atop his head, which means he won't be as strong in a real battle.

So whichever way you look at it, I should be joining hands with Bi Yue."

"But there aren't only the two of them here; there are also people from the Dragon Chant Sect." Master Qu Wu emphasized, "The members of the Dragon Chant Sect will not ignore Bi Yue. When we reach the end and truly start fighting for the treasure, people from the Dragon Chant Sect will surely help Bi Yue."

Bloodbath Demon still unperturbed, replied: "Then again, there are also people from the Soul Breaking Sect here."

"But now the Soul Breaking Sect only has one supreme being at the Ten Different Phenomena Golden Core Great Perfection, while the Dragon Chant Sect still has Yu Long, who is close to the Golden Core Period Limit, and two supreme beings at the Ten Different Phenomena Golden Core Great Perfection!"

"What about Bi Yue then?" Bloodbath Demon continued to inquire, "Are we supposed to kill Bi Yue as well?"

"Of course not. We just need to severely wound Bi Yue to prevent her from contending for the Silverglow Wings."

"Fine, I agree."

Master Qu Wu thought he would have to persuade further, but Bloodbath Demon readily agreed.

Bloodbath Demon looked at Master Qu Wu and Zhui Hun Demon, sneering in his heart. He knew full well that without Bi Yue, Zhui Hun Demon and Qu Wu – one at the Golden Core Limit and the other close to the Golden Core Limit – were no match for him.

But he still accepted.

Because once Immortal Bi Yue was out of the final contention, then the strongest forces, Qu Wu and Zhui Hun Demon, would become targets of concerted attacks, with everyone manically assaulting the two of them!

Seeing Bloodbath Demon agreeing, Master Qu Wu didn't immediately launch an attack but looked towards Zhui Hun Demon, transmitting his voice secretly: "Bloodbath Demon has agreed to ally. In a moment, I will directly attack Cao Zhen; you help me stop Immortal Bi Yue."

"OK!" I will stop her.

While Master Qu Wu transmitted his voice, he looked at the thunder falling in the Void, a Ancient Zither materialized in front of him, his fingers swiftly strumming the strings, and instantly, one of the strings shot out a red light that soared into the sky, directly smashing into the thunder in the void and shattering it.

The next moment, a fierce killing intent flashed suddenly in his eyes, and his hands swept across the zither strings again, producing a shrill clang.

Instantly, the surrounding space trembled with the sound.

Three beams of light shot from the strings, like arrows leaving the bow, hurtling straight towards Cao Zhen.

The three beams cut through the air, leaving three distinct traces, and in the blink of an eye, they reached in front of Cao Zhen.

"Courting death!"

Immortal Bi Yue let out a cold shout, swiftly waving her hand, and immediately, a white Dragon flew out from her palm, colliding head-on with the three beams of zither light.

The three beams of light shattered instantly.

Immortal Bi Yue's eyes, cold as ice, looked towards Master Qu Wu, her voice chilling, "Qu Wu, are you courting death?"

Qu Wu remained silent, instead, Zhui Hun Demon suddenly laughed, "Immortal Bi Yue, since I've reached the Golden Core Period Limit, I've yet to cross hands with someone at the same level. How about we spar a bit?"

As Zhui Hun Demon spoke, not waiting for Immortal Bi Yue's response, a black fog appeared in his hands, and in the next instant, the fog flew out towards Immortal Bi Yue.

Behind them, Yu Long from the Dragon Chant Sect, seeing Zhui Hun Demon suddenly attack Immortal Bi Yue while they were advancing, displayed a flash of anger on his face and sharply said, "Zhui Hun, does your Soul Breaking Sect intend to start a war with our Dragon Chant Sect!"

He bellowed in rage, and ten Golden Cores at his back suddenly glowed brilliantly as mana gathered within his body. Just as he was about to take action, a voice came from a distance.

"Is there a fight between those at the limit of the Golden Core Period, and you want to interrupt just like that? If you're itching for a fight, I'd be happy to oblige."

Bloodbath Demon!

As his voice fell, he raised his hand and sliced his palm with a nail, and immediately drops of deep red blood fell.

Chapter 1186:

Only a few drops of fresh blood fell, yet in the air, they instantly converged into a sea of blood, rapidly plummeting in front of Yu Long and the others.

For a moment, a thick scent of blood filled the space.

The Bloodbath Demon did not directly attack Yu Long and the others but blocked their way.

Around them, various top ten Phenomena Perfect Completion Golden Core champions still advancing, and those extraordinary Perfect Completion Golden Core champions on the ground, who were relatively close, instantly noticed the change here.

"Is this Bloodbath Demon working with Zhui Hun Demon?"

"What are they trying to do? Kill Immortal Bi Yue?"

"Impossible, they aren't real madmen, to kill Immortal Bi Yue in front of so many people. Not to mention, if Immortal Bi Yue fights back desperately, they won't have an easy time, even if they could really kill Immortal Bi Yue, would they dare to? The Dragon Chant Sect would fight them to the death!"

"They must be aiming to kill Cao Zhen, one blocking Immortal Bi Yue, the other blocking Yu Long and the others!"

"Poor Cao Zhen."

A ferocious expression surfaced on Qu Wu's face, now, let's see who can save Cao Zhen!

"I have witnessed your Strike Technique, now, let me experience your Divine Skills!"

Qu Wu sneered, ready to launch an attack, suddenly, from the side, a scorching heat came.

He felt the abrupt change in temperature, hastily turned his head, and found that among the five people he didn't recognize, was a beautiful woman whose back was backing ten Phenomena Golden Cores burning crazily like ten scorching suns.

Behind her, a phantom of the Sacred Beast Vermilion Bird appeared, and for a moment, an aura filled with fierceness, violence, and rage enveloped the entire space, the intense heat spreading in all directions.

Suddenly, a high and crisp call of the Vermilion Bird rang out, a Sacred Beast Vermilion Bird formed from flames suddenly flew out, darting towards him.

In an instant, this space was dyed red with the flames.

The fiery aura, as if wanting to burn this entire relic to ashes.

"Die!" Qu Wu repeatedly swung his hands on the strings, each movement of his fingers caused a visibly oscillating sound wave from the strings, waves after waves, like ripples on water, constantly undulating, turning the space's air into a lake.

The Vermilion Bird's fire fell, touching these sound waves, as if falling into an endless sea, emitting sounds of the flames being doused.

In just a blink of an eye, the flames were completely extinguished.

But the sound waves emitted also dissipated into the air.

Surprise flashed across Qu Wu's face, he was close to the Golden Core Period Limit, yet his attack was merely neutralized by the opponent's Divine Skills; this woman, among the top Ten Phenomena Perfect Completion Golden Core, was a very strong presence.

Around them, the onlookers who saw both sides engaging were also shocked, they had already deduced that these people were top Ten Phenomena Perfect Completion Golden Core champions, but they had not expected that among them, this woman was so powerful.

They were even more puzzled, why this woman suddenly attacked Qu Wu.

Qu Wu did not understand either, why this woman suddenly attacked him.

"What... are you doing? Do you know who I am?" Qu Wu looked at her with panic, Keri Ke had not yet opened her mouth to respond, Zhu Peng had already pulled out his pitch-black long stick, smashing it down fiercely in front of him.

"Zhu Peng will kill you!"

Seeing his master attack, Zhu Peng did not care why his master wanted to, and he immediately followed suit. Behind him, ten Phenomena Golden Cores suddenly appeared, and simultaneously, ten different Kylin phantoms appeared.

Among them, some Kyilins were entirely green, as if they had just swum out from the Endless Sea; some stood on mountains, howling up to the sky; some Kyilins' faces were fierce; some were covered in spikes-filled scale armor; there was even a Kylin bound all over with iron chains, as if it had been sealed.

Ten Kyilins, each with different expressions, but each emanated a thick, raw, and ferocious wild aura.

The next moment, the ten Phenomena Golden Cores merged into one, and the phantoms of the ten Kyilins also seemed to blend together, forming an even larger Kylin.

Instantly, a most ferocious, violent, and wild aura swept through the space.

At the same time, a thick scent of blood emanated from his body, resonating with the Kylin phantoms from his Phenomena Golden Core, a brutal, barbaric, and fierce aura surged wildly from Zhu Peng, spreading everywhere.

At this moment, everyone looking at the giant Kylin phantom felt it wasn't just a person before them but a Kylin from the ancient barren lands, not a Saint Beast Kylin but a blood Kylin that had slaughtered and devoured countless beings, crossing historical rivers, traveling through countless epochs, arriving at this world.

Looking at this figure, they even felt a throbbing in their hearts, feeling as if this person could slaughter all the beings in the entire world.

Chapter 1187:

"Court your own death!"

Qu Wu watched another formidable opponent approach with intense murderous intent, his face revealing a trace of fierce anger as his palm once again slid across the ancient zither before him.

His hands glided so swiftly that residual images lingered in the air.

With each pluck of the strings, beams of light burst forth, quickly converging into sharp Sword Qi, aimed directly at Zhu Peng.

The number of Sword Qi completely filled the space in front of him.

No matter how Zhu Peng tried, he couldn't dodge all the Sword Qi.

Instead, Zhu Peng, showing no intention to evade, braced himself and plunged headfirst into the assault.

From a distance, Ren Xiaoyao shook his head. This man was truly unwise. While Qu Wu had unleashed such a vast quantity of Sword Qi, each strand's power was inevitably diluted.

However, Qu Wu was an entity exceedingly close to the Golden Core Period Limit, and this man, though exuding an aura terrifying and laden with bloodthirsty Qi, Ren could discern that he was still at the pinnacle of Ten Different Phenomena of Golden Elixir Great Perfection, not quite having reached the proximity of the Golden Core Period Limit.

To withstand someone near the Golden Core Period Limit like this was...

The next moment, Ren Xiaoyao's eyes widened in shock.

Around Zhu Peng's body shimmered lights black and white, each distinctly pure and intertwining around his form.

Within these lights emerged the phantoms of two kylin, two blood-colored brother kylin phantoms!

Strands of Sword Qi rained down on Zhu Peng, which caused the black and white lights to intensify, spinning rapidly to block each strike.

Yet, these lights continued to dissipate.

Eventually, the black and white lights could no longer hold, exploding outwards, but in the Void, each streak of Sword Qi also completely vanished, leaving only three to pierce Zhu Peng's body.

His clothes were instantly torn; golden light penetrated his skin, leaving three bloody wounds from which crimson blood seeped.

"Seeped? Not spurted?"

Ren Xiaoyao's eyes widened again in disbelief. Qu Wu, being near the Golden Core Period Limit, had potent attacks, and this seemingly naive fellow, having endured three Sword Qi, only had shallow cuts on his skin - how was his physical body so immensely strong?

People around were also stunned.

"Such powerful Divine Skills, his black and white Protective Divine Power nearly blocked all of Qu Wu's attacks!"

"Qu Wu is close to the Golden Core Period Limit, but this man, being only at the pinnacle of Ten Different Phenomena of Golden Elixir Great Perfection, almost managed to block it, which means his Protective Divine Power is even stronger than Qu Wu's Divine Skills!"

"This man's physique is also extremely strong!"

"And that woman who acted earlier, although they are both pinnacle Ten Different Phenomena Golden Core Great Perfection, they seem to be the most elite among them!"

Zhu Peng, with three new wounds, suddenly had a vicious expression appear on his face, resembling a ferocious beast, temporarily amplifying his savage aura!

The next moment, layers of blue scales appeared on his body, each bearing a hint of eerie red.

His eyes furiously stared at Qu Wu, seeming to swallow him whole.

At this moment, though still at a distance from Qu Wu, his roar caused him to suddenly stomp on the Void.

His feet clearly stood on the Void, but the whole space quivered, turning the Void into solid ground, as his figure leaped out, landing right before Qu Wu.

Due to the residual oppression from the Sect Tribulation, flight here was much slower than usual. Hence, previously, whether Zhui Hun Demon blocked Immortal Bi Yue or Bloodbath Demon blocked Yu Long and others, they all used their Divine Skills from a distance because flying over took time.

But now, Zhu Peng seemed to disregard the residual oppression of the Sect Tribulation, directly landing above Qu Wu, wielding

an exceedingly large black stick, smashing it down heavily.

This stroke, devoid of flair or mystery and simply smashing down, somehow gave the impression that this is how Stick method should be performed.

With this strike, loaded with unrivaled power, there was a sensation as if mountains and the earth could shatter, rivers sever!

The surrounding air burst under this strike, trembling wildly.

Endless gales blew with the descent of the stick.

Behind the dark giant stick, a massive kylin phantom emerged, almost making people feel as if the descending black stick was not just a stick but a kylin's leg!

Truly a leg from a Saint Beast Kylin of ancient times!

Chapter 1188:

With this strike, the heavens and earth seemed to change colors, the sun and moon reversed, giving a sensation of the world turning upside down.

At this moment, this space suddenly exploded with a terrifying beastly roar. This roar came so suddenly that it even caused Young Master Qu Wu to pause briefly. Following that, he looked at the approaching long staff and suddenly lifted his hand.

The staff struck down, hammering onto the copper mirror. The already cracked copper mirror shattered instantly at this moment, with numerous pieces falling from the sky.

Zhu Peng's strike shattered the copper mirror, his momentum unabated, continuing forward towards Qu Wu.

Qu Wu never expected his released treasure, a divine weapon ranked in the top ten of his Immortal Sect, to be shattered under two strikes from his opponent. Moreover, the beastly roar that resounded in his heart had shocked him to a full stop. In the next moment, he fiercely grabbed the strings of the ancient zither.

Each string was grasped in his hands, but the ancient zither suddenly flew up. At this moment, the zither seemed to transform into a towering giant mountain, a behemoth that spanned east to west, blocking above the long staff.

The staff fell, striking heavily on the ancient zither.

Instantly, on the zither, characters that no one could recognize appeared, flickering as if each character was a piece of history, like a never-ending river of history slowly flowing past.

This river emitted an ancient, vast aura like a vast sea of smoke.

In the next moment, impacted by a force that seemed capable of tearing the earth and reversing the seas, the ancient zither harshly snapped back.

Qu Wu, with strings in hand, fiercely pulled, causing the zither to shake violently twice in the air before he pulled it back.

By now, his hands were continuously bleeding; the strings had cut through his palms.

Around him, the crowd took a sharp intake of breath at this strike.

"Is that man really just at the Ten Different Phenomena of Golden Elixir Great Perfection? Not close to the limit of the Golden Core Stage?"

"What's happening? It seems like Qu Wu is at a disadvantage?"

"A Ten Different Phenomena of Golden Elixir Great Perfection stronger than Qu Wu?"

"No, Qu Wu is still stronger, but he had just faced an attack from a top Ten Different Phenomena of Golden Elixir Great Perfection, blocked his strike, and didn't even catch his breath; his mana did not have time to regroup, and then this person attacked.

Moreover, Qu Wu did not expect him to suddenly appear before him, a misjudgement, so he ended up being passive."

"Right, if they were to directly confront each other, Qu Wu wouldn't be so embarrassed."

"Qu Wu has indeed blocked attacks from two people consecutively..."

"Just then, a third person has made a move!"

After just blocking Zhu Peng's attack, from the void, Duo Duo suddenly drew her sword.

Behind Duo Duo, ten Golden Elixir Phantoms moved, and in the void, numerous sword shadows emerged.

The next moment, her whole figure flickered, and in an instant, it seemed a hundred Duo Duos appeared in the sky, each delivering a sword strike simultaneously.

Heavenly Illusion Sword Technique!

The only person in the Hundred Peaks Sect who used swordsmanship was Duo Duo.

Initially, Duo Duo's Heavenly Illusion Sword Technique was a modified version taught by Xiang Ziyu, and later, Cao Zhen personally taught her the Heavenly Illusion Sword Technique.

However, Duo Duo's Heavenly Illusion Sword Technique differed from that of Cao Zhen and Xiang Ziyu.

Or rather, although the sword moves seemed the same, the sword intent was entirely different.

A hundred Duo Duos struck simultaneously, a hundred swords lighting up, each sword brimming with unparalleled sword intent, each filled with a dense ethereal essence.

In this hundred swords, each seemed different, as if a hundred exceptional swordsmen who cultivated different Sword Dao, with different sword intents executed their strongest strike simultaneously!

Whether it was Cao Zhen or Xiang Ziyu, when they executed this strike, they only had one sword intent!

But Duo Duo, after constant perfection, especially after training in the Boundless Bloody Hell, once she executed this Heavenly Illusion Sword Technique, it gave the impression of being filled with a hundred different sword intents!

Some swords pursued extreme speed, some pursued extreme sharpness, some were ever-changing, some flowed like water, and some like a gentle breeze...

And these hundred sword intents, these hundred sharp swords, seemed to converge into one sword, shooting towards Qu Wu.

Qu Wu suddenly widened his eyes, what kind of sword technique was this? How could one person possess so many different sword intents?

He had just resisted Zhu Peng's full strike, not knowing how the opponent could be so powerful, even feeling numbness in his arms now, yet here was another terrifying strike descending.

He had no time to think more, his inner strength crazily surged, his whole aura climbed to an extreme peak, and the strings in his hand shot out.

In an instant, the strings crossed through the void, transforming into rainbow trails, protecting him behind.

The nächste moment, as the sword light fell, the rainbow trails suddenly split apart, and the sword light dimmed, yet it didn't completely disappear. Strips of golden light, though less powerful, still flew down, crossing through the void and landing on Qu Wu.

Qu Wu had no time to release his Protective Divine Power; the sword light had already swept across.

Immediately, sounds of hissing erupted, and his body was pierced with numerous blood holes!

Qu Wu was injured!

"No, that woman, she's not just a top Ten Different Phenomena Golden Elixir Great Perfection, or rather, she's now very close to the Golden Core Stage limit!"

The crowd instantly reacted.

This beautiful woman, if merely at the top Ten Different Phenomena Golden Elixir Great Perfection, couldn't possess such a strong attack!

"These three people, each seems stronger than the last!"

"In a combined effort, it seems Qu Wu is no match!"

The crowd couldn't understand how so many powerful people had appeared, and moreover, they had all targeted Qu Wu, seemingly aiming for his life!

Although Qu Wu isn't from a Great Teaching, Qu Wu's master was the famous protector, Old Man Wu Shuang.

These people attacking Qu Wu, weren't they afraid that after the Minor Era of Inversion of Heaven and Earth ended, Old Man Wu Shuang would seek them out for trouble?

At this moment, under the shocked gazes of the crowd, a surge of grieving and angry aura suddenly came.

In Yan Yourong's hands, the Grieving Anger Dragon Blade was already appearing.

Chapter 1189:

Yan Yourong's way of the sword is just one strike!

A single strike to determine victory or defeat, a single strike to seal life and death!

She had always honed this singular strike, never pausing for a moment.

She lacks those obsolete notions of fairness, like refusing to launch surprise attacks or fighting openly and squarely.

Seeing Qu Wu block the attacks of her master Li Ke, as well as her junior sister Duo Duo and junior brother Zhu Peng, she unsheathed her sword resoundingly.

She didn't care who this Qu Wu was; she knew one thing—if Qu Wu sought to kill her master, then she would kill Qu Wu!

Indeed, she once chased her own master with a sword, but that was because her master disallowed her from cultivation and sword practice; that doesn't mean she didn't love her master or Four Treasures Peak!

Behind Yan Yourong, within the vast Golden Core, ten Phenomenal Golden Cores vibrated wildly. Rich mana flowed like a surging river, tumultuously rushing into her body and into the Grieving Anger Dragon Blade.

As the long blade swept through, the surrounding air was instantly sliced apart, leaving a clear blank space in the void.

The sharp blade glinted with five-colored lights, drawing a perfectly exquisite arc, like a crescent moon in the dark night. The overwhelming sword energy, like a galaxy, filled this world without bound.

A single slash felt as though it could sweep away all errors in the world.

The friction of the long blade with the air resulted in a series of sonic booms, so loud that it seemed as if this entire sky had completely shattered.

This strike was filled with an unstoppable momentum, filled with a resolve of no return!

With one slash, the world seemed to have split apart under it.

Blade light shined, like the Milky Way cascading down from the void, like a flame that could burn all things converging into a blade, as heavy as a massive mountain, or like a burst dam's floodwaters...

Within this strike, the power of the Five Elements converged.

Watching from afar, Ren Xiaoyao felt this strike gave the impression that there was nothing in the world, no precious treasure, which could stop it!

Everything in the path of this strike, be they treasures or people, would be shattered!

The blade fell, the heavens and earth changed color, the sun and moon lacked light.

Qu Wu had just blocked Duo Duo's attack and hadn't even fully defended against it; his body was pierced open by streaks of golden light. Although these didn't cause him serious damage, they made the qi and blood in his body uncontrollably surge.

Before he could react, the terrifying slash had already plunged from the void.

He wanted to dodge, but with the surging qi and blood inside, he was simply unable to gather enough mana in time.

Beside him, a top expert from the Soul Breaking Sect, at the Ten Different Phenomena of Golden Elixir Great Perfection, quickly moved to block this fearsome strike for Qu Wu. He knew the slash was terrifyingly powerful, and he wasn't confident he could stop it, but he still made his move.

After all, Qu Wu was currently allied with the Soul Breaking Sect, and he couldn't stand idly by while Qu Wu was attacked.

But as he barely moved, a cluster of intense flames was already hurtling towards him.

At the beginning, when Li Ke's attack on Qu Wu was blocked, she did not cease; instead, she gathered strength again. In the void, streaks of flame merged, forming a sea of fire, sweeping towards that Soul Breaking Sect expert.

As the flames merely streaked across the sky, the wild grass on the ground was instantly ignited.

The scorching flames forced him to counter this new attack; around him, streaks of black light converged to instantly form a large black shield before him.

Streak after streak of flame landed on this black shield. As the fire clashed with demonic qi, a series of hissing noises erupted; both the flames and his black demonic qi rapidly dissipated.

Yet, his face revealed a look of shock; he could feel that the flames currently used were not as strong as the ones initially unleashed against Qu Wu—in fact, they were much weaker.

But even such flames, he barely managed to block.

If the flames meant for Qu Wu were targeting him instead, what then? How would he defend?

On the other side, the Bloodbath Demon alone was holding off Yu Long and two others, as he was at the limit of the Golden Core Stage. He had no intention of harming Yu Long's party, not wishing to offend the Dragon Chant Sect without reason.

Besides, as long as he could stop Yu Long and the others, the combination of Qu Wu and the Soul Breaking Sect's top Ten Different Phenomena of Golden Elixir Great Perfection should be enough to slay Cao Zhen.

Yet he had not expected that those five unknown individuals would suddenly attack Qu Wu.

Moreover, each of these five was stronger than the last. As he saw Qu Wu about to die under their combined attacks, he had no choice but to make a move.

Bloodbath Demon lifted a finger, pointing towards Qu Wu's direction from the void, and immediately, a thread of blood shot out from his fingertip. Crimson blood flew forth, rapidly forming a giant droplet of blood in the void.

This droplet, seemingly gathered from the blood of thousands upon thousands of people or strange beasts, emitted a pungent bloody scent, giving off an overwhelming sense of dread as if an infinite sea of blood had descended.

However, the next moment, from afar, several talismans converged.

The reason she had not made a move all this while, was exactly to wait for Bloodbath Demon.

Chapter 1190:

She had just heard that Bloodbath Demon was at the very limit of the Golden Core Stage. Therefore, as soon as she made her move, thirty-two talismans were released.

These thirty-two talismans converged and instantly fell before the pool of blood.

As soon as the talismans touched the blood, they abruptly split apart. However, they did not shatter but fell into thirty-two different positions, attaching themselves above the blood.

Thunderbolt-Gathering Symbol!

In the next instant, a purple light shimmered in Ling Xi's palm, and as she waved her hand, a thick bolt of lightning roared down from the void, striking directly upon the blood.

Five-thunder Righteous Method!

When the lightning touched the pool of blood, the thirty-two talismans affixed to it suddenly shot out dazzling rays of light.

These thirty-two talismans acted as if they formed a formation, channeling their energy to enhance the falling lightning.

Bolstered by the thirty-two talismans, the Five-thunder Righteous Method's might surged explosively, the thunderbolt's descent accompanied by a roar that seemed to overturn the entire world.

Endless Power of Thunderbolt unleashed, countless purple lightning bolts burst forth, and like snakes of electricity, they danced over the blood.

The Five-thunder Righteous Method was the natural nemesis of all demons and evil spirits.

The talismans deployed by Ling Xi were not meant to attack directly, but to amplify the power of all Thunderbolt Divine Skills.

Under her strike, the blood released by the Bloodbath Demon evaporated instantly.

A look of shock flashed in the eyes of Bloodbath Demon; even though he had not exerted his full strength just now, after all, he was a being at the limit of the Golden Core Stage. Yet his strike was so easily broken by this woman!

This woman...

This was a presence that was incredibly close to the limit of the Golden Core Stage!

Around them, the crowd gasped in amazement. Bloodbath Demon was known to be at the limit of the Golden Core Stage, yet this busty woman had effortlessly broken his attack.

Was she such an existence?

Where had all these powerhouses come from?

Just as the crowd began to wonder, many widened their eyes again,

Young Master Qu Wu's eyes bulged, filled with fear, as the blade that no one had blocked before came crashing down directly.

The falling blade brought an overwhelming force, with the power to sweep through all things, and it slashed down upon him.

In an instant, his entire body, whether flesh, bones, meridians, or internal organs, burst open.

Young Master Qu Wu, dead!

Until his death, he couldn't understand where all these powerful figures had come from and why they were attacking him!

"Young Master Qu Wu is dead!"

"This... This is someone close to the limit of the Golden Core Stage, and he just died like that?"

"Those five people, they're too strong!"

"Among the five, three are top Ten Different Phenomena of Golden Elixir Great Perfection, and these three are also on the verge of reaching Young Master Qu Wu's level."

"The other two are even more terrifying, I feel that the last two who made a move seem to have also reached near the limit of the Golden Core Stage!"

"Where did these five people come from?"

"I don't understand why they wanted to kill Young Master Qu Wu."

"They killed Young Master Qu Wu, they're in trouble now."

"Yes, Young Master Qu Wu still has two senior brothers; his two senior brothers will not let this go easily now that he's been killed."

"What's terrifying is not Qu Wu's two senior brothers; like him, they also are beings close to the limit of the Golden Core Stage. What's truly frightening is his master, Old Man Wu Shuang!"

"Yes, Old Man Wu Shuang has been in slumber for more than fifty years now, and many people have forgotten how protective Old Man Wu Shuang can be of his disciples!"

"I wouldn't call that being protective; it's more like holding an unreasoning grudge!"

"Perhaps you don't know, but there once was a sect called The Myriad Things Sect. Originally, Young Master Qu Wu's eldest senior brother, Young Master Yin Qiang, hadn't yet reached the Golden Core Stage limit; I heard he had only just achieved the Golden Core.

Then, Young Master Yin Qiang visited a ruin and got into a conflict with members of The Myriad Things Sect. The sect knew of Young Master Yin Qiang's background, that he was a disciple of Old Man Wu Shuang, so they didn't kill him outright; they only injured him.

After Young Master Yin Qiang returned, Old Man Wu Shuang found out that his disciple had been hurt and went straight to The Myriad Things Sect to massacre everyone, old and young, male and female, sparing none. This included various cultivators' families within the sect, and even a baby who had just been born."

"I'm aware of the incident you mentioned," sighed someone in the crowd: "I was acquainted with a disciple from The Myriad Things Sect and knew about the matter. Indeed, it was instigated by Young Master Yin Qiang, as he attempted to seize a treasure from a disciple of The Myriad Things Sect, launching a surprise attack. But he didn't expect that other disciples of the sect would arrive.

Because they hated Young Master Yin Qiang's vicious action, which was intended to bring their disciple to death's door, they retaliated, only to unwittingly bring disaster upon themselves, resulting in the extermination of the entire sect!"

"Old Man Wu Shuang also massacred an entire clan for Qu Wu's second senior brother, Young Master Xun Hua. Originally, there was an Immortal whose name I've forgotten, whom Young Master Xun Hua fancied, asking her to become his Dao companion.
