

My Master 1191

Chapter 1191:

Everyone knows about Young Master Xun Hua's reputation, and naturally, that Immortal didn't wish to comply, especially since she already had a beloved, and thus rejected Young Master Xun Hua. As a result, Young Master Xun Hua's master, Old Man Wu Shuang, intervened directly, slaughtering her beloved's entire family, then captured the Immortal's family and her master, compelling her to become Young Master Xun Hua's cultivation companion.

Left with no other choice, the Immortal agreed. However, half a year later, Young Master Xun Hua tired of her and brutally murdered her."

"Such incidents are all too common. Old Man Wu Shuang doesn't care whether it's his disciple who is at fault. As long as someone provokes his disciple, he will take action without hesitation, going as far as to exterminate the offender's entire lineage!"

"Not only his disciples, but there was also an Earth Immortal Realm expert who could no longer stand Old Man Wu Shuang's repugnant deeds. During a discussion about the world's top masters, he spoke a few words about Old Man Wu Shuang.

As a result, Old Man Wu Shuang learned of it, found that Earth Immortal Realm expert, cut off his tongue, and then applied a secret technique to prevent it from ever growing back."

Some people, upon hearing the crowd's discussion about Old Man Wu Shuang, changed their expression and quickly stepped back a few paces, whispering, "If you know what kind of person he is, why do you still dare to speak of him? Do you wish to have your tongues cut off as well?"

"Don't talk about Old Man Wu Shuang anymore. There are just over forty years left before the Minor Era of Inversion of Heaven and Earth ends. When the time comes for Old Man Wu Shuang to awaken..."

"Old Man Wu Shuang's cultivation base is immensely strong; he surely won't be among the first batch to awaken."

"Those five people, they are still taking action."

"The expert from Soul Breaking Sect is dead too!"

"Have they gone mad? It's not enough that they killed Qu Wu, but now they've slain someone from the Soul Breaking Sect too. How many powers are they intending to offend?"

After Li Ke clashed with the expert from Soul Breaking Sect, Zhu Peng and Duo Duo also made their moves in succession.

The previously mentioned Qu Wu, even as a figure nearing the limit of the Golden Core Stage, was wounded by Duo Duo amidst the three-person assault, not to mention a top-tier Perfect Completion Golden Core.

It took but a moment for the opponent to die under the joint attack of the several individuals.

Next, their gazes turned toward the nearby Bloodbath Demon.

Although Bi Yue was currently locked in fierce combat with the Zhui Hun Demon, they didn't care about Bi Yue; their target now was the Bloodbath Demon who had just assisted Qu Wu.

"How so? Do you really dare to make a move against me?" Bloodbath Demon, looking at the five individuals before him, revealed a hint of panic in his eyes. Although he was at the limit of the Golden Core Stage, the other side had too many experts. Adding the three individuals from Dragon Chant Sect, they had a total of three figures close to the limit of the Golden Core Stage and five of the top-tier Ten Different Phenomena of Golden Elixir Great Perfection.

Even he would have significant trouble facing the encirclement of so many experts.

"I am curious," he said, suddenly speaking up to ask the group, "Qu Wu has no grudges with you, so why kill him?" This was something he couldn't fathom.

"Why? Simply because we find him disagreeable! And you, I find you even less agreeable!" Yan Yourong snorted coldly, her long blade sweeping across with massive force, slashing towards Bloodbath Demon.

"Court death!" The face of Bloodbath Demon turned frosty, a ferocious expression emerging suddenly. Behind him, ten auspicious Golden Cores atop the Pill Fusion turned blood red in an instant. From a distance, they looked less like Golden Cores and more like blood pills!

A dense scent of blood spread out, and in his hands appeared a blood-red long spear.

With both hands gripping the spear, he thrust violently against the blade light swung by Yan Yourong.

In an instant, streaks of blood-red light flew into the spear; the weapon felt like it was forged from the blood of countless lives. With its swinging motion, the entire spear appeared to turn into a blood-colored dragon, surging forth.

For a while, the entire space was thrown into crazed trembling by this blood-colored dragon. The air boiled, and this part of the world seemed on the verge of flipping over.

Yan Yourong had just slashed down once, and the power of her second blade was clearly much weaker than the first. As soon as the second blade's light touched the blood-colored dragon, it seemed to be devoured, disappearing without a trace, while the blood-colored dragon, albeit slightly dimmed, still charged forward, barreling towards Yan Yourong!

Bloodbath Demon, as a figure reaching the limit of the Golden Core Stage, had a very different concept from those who were merely close to the limit.

Suddenly, before his eyes, that woman who had previously shattered his divine abilities produced a peculiar Array Plate in her hand!

In the next moment, the Array Plate unfolded, instantly covering the whole sky, not just the void above but seemingly filling up the ground below as well with the unfolded Formation Map.

Ling Xi knew that her opponent was at the limit of the Golden Core Stage, so when she took action, she directly brought out the long-unused Unparalleled Formation Plate!

As the Array Plate unfolded, the Supreme Unparalleled Formation at each trigram position burst forth with a bright light, with beams of light converging together.

At the same time, beams of light shot out from the Heaven and Earth Bagua Talisman marks around her.

The two different streams of light converged towards the center, landing upon Ling Xi.

In an instant, Unparalleled Formation Plate, Heaven and Earth Bagua Talisman, and Ling Xi seemed to fuse completely together, resonating with the Formation Map and the Talismans.

Chapter 1192:

In an instant, Ling Xi was bathed in dazzling light, appearing like a true Immortal descending upon time from afar.

Around her, many people also noticed Ling Xi's transformation; they looked at this radiant and beautiful woman, even feeling an illusion that within the realm created by the Formation Map, this woman was the ruler of everything!

They felt as if the talisman was Heaven, the Formation Map was Earth, and this woman was people around, vaguely forming a trinity of Heaven, Earth, and Man!

Within the Formation Map, Bloodbath Demon instantly felt that the entire world he was in had changed. Although he was only able to remain in these ruins and in the Void, remnants of Sect Tribulation thunderbolts fell occasionally—it wasn't frequent, and apart from thunderbolts, there were flames, heavy water, wind blades, and other fierce attacks raining down!

But now, he felt as though he had entered a world of thunderbolts. Those heavy water, fierce winds, flames, and other Heavenly Tribulations had vanished; it was all filled with purple thunders, embodying the purest, utmost yang energy, falling from above!

He also felt a surge of pure zhonghua energy around him.

These energies, like an invisible giant hand, firmly grabbed him and bound his strength.

In this world, there were hardly any powers that could restrain the Demonic Qi and blood power he cultivated; only those utmost yang energies could, and the purer the zhonghua energy, the more it subdued his Demonic Qi and blood power.

Now, he felt that this realm was filled with pure zhonghua energy!

He instantly felt his strength being suppressed, suppressed to about ninety percent of his usual strength.

He realized that he couldn't have instantly appeared in another world; all these changes were because of the other party's Formation Map!

It must be that his current position was being suppressed by the opponent.

Bloodbath Demon quickly moved forward, taking a step.

But in the next instant, that feeling of binding was still transmitted.

Had he not left the repressed range?

Bloodbath Demon's eyes showed a hint of surprise as he still moved to the side.

But after flying a distance once again, that feeling of binding did not lessen at all.

So, as long as he was in this Formation, no matter where he was located, he was suppressed?

What kind of Formation was this? In the great and ancient Weeping Blood Demon Sect he belonged to, he had never heard of such a Formation!

Suddenly, his eyes narrowed!

On Ling Xi's palm, streaks of purple thunderlight were already emerging.

Five-thunder Righteous Method!

Purple thunder cascaded from Ling Xi's palm as if it had burst through layers of clouds from the ninth heaven.

In the Void, the sound of rolling thunder echoed continuously!

Simultaneously, thirty-two Thunder Talismans dropped down again, encircling his body and transforming into a massive Thunderbolt-Gathering Array.

Thunder Summoning Symbol!

Normally, cultivators, after using Divine Skills, if they used the same Divine Skill again, its power would weaken, but her deployment of Thunder Summoning Symbol, released through talismans, wasn't affected, at most, the power of the Five-thunder Righteous Method she released consecutively would weaken.

However, her attack was not solely reliant on the Five-thunder Righteous Method; it was also enhanced by the Thunder Summoning Symbol.

This was her greatest advantage compared to other cultivators.

"Damn it!"

Bloodbath Demon, sensing the pure zhonghua energy within the thunderbolts falling from the Void, swiftly waved his hands, and the next moment, his palms exploded with a blood-red light.

The light surged, quickly converging to form the figure of a huge blood-colored Demonic Beast.

This Demonic Beast had three heads and six arms, each arm wielding a blood-colored weapon.

Bloody Asura!

The six arms of the blood-colored apparition swung simultaneously. In the Void, six weapons soared up.

The blood-colored spear, blood-colored blade, blood-colored Giant Hammer... all struck the falling thunderbolts.

In an instant, the entire sky turned blood-red.

"Bang!"

A loud sound erupted, the blood-colored blade was the first to fall, striking the thunderbolts from the Five-thunder Righteous Method, immediately producing a sound like a mountain shattering.

Then, the blood-red blade shattered resoundingly, and a blood-colored spear fell...

One blood-red weapon after another struck the purple thunder from the Five-thunder Righteous Method. In the Void, sounds of loud explosions continuously emitted.

The Five-thunder Righteous Method, under the assault of the five weapons, exhausted its power and disappeared.

And that last blood-colored Giant Hammer directly struck the Formation Map with force!

While constrained in this Formation, the best method was to directly shatter the Formation!

The Bloodbath Demon struck the Formation Map heavily with the blood-colored Giant Hammer. For a moment, the whole Formation Map shook, and there was even a gap appeared on it, but then rays of

light erupted from Ling Xi's body, pouring into the Formation Map. Instantly, it stabilized again, and the gap caused by the strike was also replenished.

Bloodbath Demon's brows furrowed tightly; under normal circumstances, his strike would have surely damaged the Formation Map, and with further attacks, he could have broken through the Formation Map.

But now, that woman and the Formation Map seemed to be completely integrated; although his attacks could damage the Formation Map, the woman's power could instantly repair it.

Chapter 1193:

With this development, breaking the Formation Map has become difficult.

Cao Zhen looked at the Bloodbath Demon trapped in the Formation Map by Ling Xi, and a look of surprise appeared on his face. Previously, in the Endless Blood Prison Paper, Ling Xi had never used the Formation Map, and it had been a long time since he last saw Ling Xi deploy the Supreme Unparalleled Formation Diagram.

Now that Ling Xi deployed the Formation Map again, he found that after reaching a level close to the Golden Core Period Limit, even when facing the Golden Core Period Limit, she actually had the power to fight.

Originally, Ling Xi had lost to Star Lord Hao Yue.

At that time, Star Lord Hao Yue was definitely not as strong as the current Bloodbath Demon, but at that time, Ling Xi was not as strong either!

Suddenly, he thought of a problem. During the Reversal Mini Epoch Period, Heavenly Dao does not allow power beyond the Golden Core Period Limit, but when Ling Xi deployed the true diagram of Supreme Unparalleled Formation, it was not about increasing her own power, but about weakening the opponent's power!

With this in mind, Heavenly Dao would not obstruct the true diagram of Supreme Unparalleled Formation. Therefore, if Ling Xi could reach the Golden Core Period Limit, then who could be her opponent?

After returning, he must find a way to further enhance Ling Xi's strength, and also, the Supreme Unparalleled Formation Diagram needed to be remade.

As for others.

Ling Xi's deployment of the Supreme Unparalleled Formation Diagram is not easily destroyable. However, if someone else's formation was to be deployed, it could easily be destroyed.

Moreover, remaking the Supreme Unparalleled Formation Diagram would require a lot of resources, so he could only make it for Ling Xi for the time being.

Around them, everyone watching the Bloodbath Demon trapped in the Formation Map by Ling Xi was completely unable to remain calm.

"This woman, this is too terrifying!"

"The Bloodbath Demon is a being at the Golden Core Limit, and this woman, fighting alone against the Bloodbath Demon, is only slightly at a disadvantage, or even not at a disadvantage at all?"

"This woman, her aura, clearly has not reached the Golden Core Period Limit, she is only close to it, how can she be so strong?"

"That Formation Diagram, it must be because of that Formation Diagram!"

"Have you guys noticed that the Bloodbath Demon's strength seems not to be at its best within the Formation Paper?"

"It must be the suppression by the Formation Diagram!"

"But it seems that the Bloodbath Demon can't break the Formation Diagram?"

"So, it seems that the Bloodbath Demon might not even be able to defeat this woman?"

"Where do these people come from, each possessing such terrifying strength, not to mention these kinds of treasures, which Great Teaching are they from?"

"Don't forget, they also have a person who seems to be able to indefinitely cross the Wind Fire Heavenly Tribulation!"

Although Immortal Bi Yue was fighting the Zhui Hun Demon, they did not intend to fight a life and death battle. The Zhui Hun Demon's intention was more to capture Immortal Bi Yue alive and let Qu Wu kill Cao Zhen. However, he had not expected that suddenly five people would emerge and directly kill Qu Wu. Now, these people were attacking the Bloodbath Demon!

Immortal Bi Yue knew about Cao Zhen's strength, and she did not fight fiercely with the Zhui Hun Demon. While she fought with the Zhui Hun Demon, she even observed the situation on Cao Zhen's side and the battles of other people.

She really did not expect that Cao Zhen's disciples were so strong, especially this last big female disciple who could actually fight the Bloodbath Demon.

The Bloodbath Demon, just like her, was a being at the Golden Core Period Limit. To be able to fight the Bloodbath Demon means that this woman also possesses the strength to battle her!

Although Ling Xi had the strength to fight the Bloodbath Demon, she was not alone.

Nearby, after Li Ke had killed a person from the Soul Breaking Sect, Li Ke deployed Divine Skills, and a sea of fire emerged in the void, blasting towards the Bloodbath Demon.

At the same time, Yan Yourong, Duo Duo, and Zhu Peng also took action.

For a time, five people attacked the Bloodbath Demon simultaneously.

Ling Xi's Supreme Unparalleled Formation Diagram could suppress the Bloodbath Demon, but it would not suppress Yan Yourong and the others.

For a time, under the attack of five people, the Bloodbath Demon was extremely embarrassed and soon, injuries appeared all over his body. If he were in his peak state it would be fine, but now, due to the presence of the Formation Diagram, he couldn't exert all his strength and was actually being defeated and even injured by these few people!

"Boom!"

In front of him, the only male cultivator among the five opponents swung down a long stick, he had just blocked another person's longsword, and now he had no time to dodge, he could only swing a blood-colored long spear to block in front of him.

With a loud noise, an unstoppable force came, and his body uncontrollably retreated three steps backward.

His eyes showed deep astonishment; how was this young man's strength so formidable?

It was not the power of mana, but the sheer physical strength; how did this young man cultivate, how could the Golden Core Stage possess such experience?

This strike also made his wrists sore, and both arms faintly felt numb; his internal energy slightly churned. But before he could catch his breath, another slash fell before his eyes.

He had no choice but to raise his long spear to block again.

Instantly, with a loud sound, another great force came.

Although the power was not as strong as that young man's, it was still terrifyingly strong, and the opponent's physical strength still appeared beyond what should be possible at the Golden Core Stage.

Under the continuous impact of great forces, his internal energy finally ruptured. He could no longer hold on and spat out a large mouthful of fresh blood.

Chapter 1194:

He couldn't understand why every one of these people had such terrifying physical strength, it was simply incomparable to those at the Golden Core Stage!

Could this be a Great Teaching that primarily focuses on Body Refining?

"Bloodbath Demon is injured!"

"He's vomiting blood, this..."

"Under their siege, he seems powerless to fight back, only continuously taking hits passively!"

"These five people are too terrifying, that is the existence at the limit of the Golden Core Stage!"

Everyone watched as the Bloodbath Demon, completely overwhelmed and retreating while vomiting blood, was astonished.

Suddenly, the voice of Zhui Hun Demon rang out: "What are you all still standing around for? Clearly, these five people are with Immortal Bi Yue. Otherwise, why would they want to kill Master Qu Wu and also Bloodbath Demon!"

Do you really believe they just disliked Master Qu Wu and Bloodbath Demon?

Once Bloodbath Demon dies and I am defeated, none of you together can stop them. Don't you want the silver light wings? Now, join forces, defeat Bi Yue and her people, everyone will have a chance to compete for the silver light wings!"

After these words from Zhui Hun Demon, the surrounding crowd quickly came to their senses!

Yes, these five people are very likely with Bi Yue!

As for the opponent's claim that they just disliked Master Qu Wu and Bloodbath Demon, they didn't believe it at all!

Just because they disliked someone, they wanted to kill them? Master Qu Wu's master, Old Man Wu Shuang, is famously protective and notorious, weren't they afraid of Old Man Wu Shuang's retaliation?

And Bloodbath Demon, he is from the Weeping Blood Demon Sect, a very furious Great Teaching among the Demonic Sects, aren't they afraid of retaliation?

Therefore, the only explanation is that they are with Immortal Bi Yue!

If Bloodbath Demon and Zhui Hun Demon both die, then the final treasure must belong to Immortal Bi Yue and others, because no one can stop her!

But now, if their own people join in.

They would have a chance to snatch the silver light wings.

In the chaotic battle, Bloodbath Demon and Zhui Hun Demon would still be the targets of these people, they would definitely get injured, and with their powers damaged, they might not be able to seize the silver light wings, then everyone's chance would come.

"Take action!"

"Let's fight!"

Someone shouted first, and around them, everyone started moving, attacking towards Ling Xi and the other five.

Firstly, these people mainly targeted Ling Xi.

They realized that because of the Formation Map of this woman, Bloodbath Demon was influenced and unable to exert his full power, so they first attacked this woman to rescue Bloodbath Demon, letting Bloodbath Demon fight back against the opponents!

Ling Xi sensed the attacks from everyone. Initially wanting to attack the Bloodbath Demon, her Talisman abruptly shifted, forming in front of her as a massive mountain.

Though it was only a mountain formed by a Talisman, the illusion of the mountain gave the impression of a real and immensely towering mountain that broke through the Void and plummeted from Heaven.

The endless robust power of the earth further diffused across the space.

The next moment, various Divine Skills fell, bombarding the mountain.

Instantly, explosive sounds like the earth shattering echoed.

The illusion of the mountain crazily shook, then it dramatically collapsed!

At this point, those still able to fight and attack at this location were at the very least extraordinary Ten Different Phenomena of Golden Elixir Great Perfection existences, mostly top-notch Ten Different Phenomena of Great Perfection.

There was not a single weakling among them!

Divine Skills smashed the mountain, and continued plummeting towards Ling Xi's direction.

Suddenly, the next moment, another massive mountain emerged in front of Ling Xi.

Yan Yourong had made her move!

In the Void, on top of an immensely towering high mountain, towering trees were everywhere, branches and leaves abundant, sheltering the sky and obscuring the sun as if to cover the void of this world, a dense life force was emerging from above the mountain, spreading around.

On the mountainside, a waterfall resembling the Milky Way upside-down ran down, hitting the ground and forming a long river that spiraled around the mountain like a giant dragon,

On both sides of the river, on the ground, were firmly embedded sharp weapons, as if earth banks of the river, guarding this river and radiating endless sharp essence.

On the mountain's peak, there was a huge volcanic crater, seemingly igniting everything around, making the whole mountain appear as a burning fierce sun.

Golden, wooden, water, fire, and earthy-colored brilliance emitted from this mountain, guarding this area!

The next moment, a series of bombardments fell, striking the Five Elements mountain.

Although Yan Yourong had almost reached the power close to the Golden Core Stage limit and although the mountain was the strongest protective Divine Skill of the Five Elements Peak, there were simply too many attackers at this moment.

Under countless attacks, the Five Elements mountain only held up briefly before it broke.

The next moment, a series of Divine Skills plummeted towards Ling Xi.

Just as those several Divine Skills were about to hit Yan Yourong, Cao Zhen sharply inhaled, behind him nine Abnormal Phenomenon Golden Pills crazily vibrated, and atop his head, the Heretical Golden Core also spun rapidly, a vast endless power streamed into his body, circulated swiftly, and returned back into the Golden Pills.

His back emitted a gleaming light from one Abnormal Phenomenon Golden Pill, the brightness of the light at that moment made the space seem to consist only of this light.

He hadn't anticipated that after his disciples made their move, it would turn into this situation, making them the target of everyone, almost leading everyone to attack them.

At this time, the only ones not attacking them were the people from the Five Sounds Sect, along with Ren Xiaoyao and his two companions.

Now, as his disciple was about to be struck, he no longer held back.

In just a moment, his entire presence surged to its peak, his whole being radiating a boundless might.

This was the power at the limit of the Golden Core Stage!

Suddenly, from his Golden Pill, a spinning force shot out!

After remanufacturing his Golden Pill, he reorganized every Golden Pill's Divine Skills, among which at this moment, the Golden Pill included various Divine Skills like Cosmic Rotation and nine other types, allowing air to rotate; creating ocean whirlpools among similar Divine Skills, all fused into the Abnormal Phenomenon Golden Pills.

This spinning force fell in front of Ling Xi, the next moment, several Divine Skills falling, uncontrollably followed the spinning force and started to rotate along with it.

Chapter 1195:

The aftermath of the Sect Tribulation grew stronger the further one progressed, especially the oppressive force that made it hard for many to breathe, let alone walk.

At this moment, those who could still advance under the aftermath of the Sect Tribulation were at least at the Transcendent Ten Abnormal Phenomena Golden Core Perfect Completion level. They were experienced and knowledgeable, but they had never seen a cultivator who could release ten Divine Skills at once, and these ten Divine Skills seemed to have merged into one, their power astonishingly formidable.

Although their attacks, having been blocked twice consecutively by someone, had some Divine Skills dissipating and others significantly weakened in power, the remaining Divine Skills were still plentiful.

Yet, when their released Divine Skills came into contact with the ten Divine Skills released by Cao Zhen, they uncontrollably began to swirl around.

In the next moment, these various Divine Skills were reflected back simultaneously!

This...

Everyone was stunned.

This method of reflecting an opponent's attacks, they had heard of it before.

But such methods were only possible after reaching the Earth Immortal Realm; how could someone in the Golden Core Stage achieve this? And he was alone, with just one move, he managed to reflect so many of their attacks back at them!

Around them, as everyone watched their Divine Skills being hurled back, they were shocked and hurriedly gathered their mana to defend against the Divine Skills they had just released.

For a time, in the void, Divine Skills collided, emitting loud explosive sounds.

When the collisions of Divine Skills gradually dissipated, when the sounds of explosions faded, peace returned to the world. Only then did everyone turn their attention to the only person in the area who hadn't achieved Pill Fusion, the only one without Ten Abnormal Phenomenon Golden Pills.

At this point, Cao Zhen stood in the void, his power fully unleashed without any reservation. Even though he only had Nine Abnormal Phenomenon Golden Pills, everyone still felt an enormous oppressive force.

"Something's not right..."

"His aura..."

"This person, this aura, doesn't it feel on par with Immortal Bi Yue, Bloodbath Demon, Zhui Hun Demon?"

"Is this aura at the limit of the Golden Core Stage?"

"What? The limit of the Golden Core Stage? He only has Nine Abnormal Phenomenon Golden Pills. How could he be at the limit of the Golden Core Stage?"

"But this aura, it's significantly stronger than those close to the Golden Core Period Limit. This is the aura of the Golden Core Period Limit!"

"If he is not at the Golden Core Period Limit, how could he possibly block the attacks of so many of us alone?"

People around, even those who had halted their steps early due to the oppressive force of the Sect Tribulation's aftermath, stared at the figure with only nine Abnormal Phenomenon Golden Pills in the void, feeling inexplicably shocked.

How could someone with Nine Abnormal Phenomenon Golden Pills be at the limit of the Golden Core Stage?

Reaching the limit of the Golden Core Stage is actually what one achieves after surviving the Wind Fire Tribulation.

Being able to reach the Golden Core Stage Limit during the Ten Abnormal Phenomena Golden Core Great Perfection is already surpassing one's Cultivation Realm.

They had never heard of someone reaching the Golden Core Stage Limit with Nine Abnormal Phenomenon Golden Pills!

They hadn't even seen any records noting such a feat!

Now, even though they felt the aura emitted by Cao Zhen was at the Golden Core Stage Limit, they still couldn't believe that Cao Zhen was at the Nine Abnormal Phenomenon Golden Pill Perfect Completion.

Until Cao Zhen acted again.

Cao Zhen glanced at Bloodbath Demon, still trapped in the Supreme Unparalleled Formation, facing attacks from his disciples. Behind him, another Abnormal Phenomenon Golden Pill erupted with dazzling brilliance.

As the power surged, the air around him seemed to burst, emitting a series of sonic booms.

The next moment, ten blinding beams of light shot out from that one Golden Pill.

Simultaneously, ten different sounds echoed through the void.

Sounds of the lute, erhu, bell chimes, flute, whistles, zither, qin, xun, sheng, and drums blended together.

Some of these sounds were ethereal, filled with an immortal aura; some were deep, some shrill, resembling the roars of extinct ferocious beasts, some like the sound of mountains bursting, some heavenly, and others demonic...

The ten distinct sounds came together, stirring in the void, forming visible sonic waves that shot towards the distant Bloodbath Demon.

This Bloodbath Demon was a member of the Weeping Blood Demon Sect, and once the Eastern Wasteland connected with the Eastern Province, it was highly likely that the Weeping Blood Demon Sect would attack the Hundred Peaks Sect and the Guardian Immortal Imperial Dynasty.

Since they were all enemies, and Bloodbath Demon had already made a move against them, why shouldn't he take this chance to eliminate Bloodbath Demon now?

Sonic waves streaked through the air, causing the surrounding atmosphere to tremble continuously.

Far away, Bloodbath Demon felt the sounds in the air and his face instantly showed a grave expression. The woman who had briefly held her own against him did so more because of the Formation, and after several exchanges, there weren't many Talismans left, and she started to struggle.

If it weren't for the large number of people on her side and others helping her, he would have gained the upper hand.

Chapter 1196:

But this Cao Zhen was different!

This power, this is definitely the strength at the limit of the Golden Core Stage, and moreover, the opponent released ten different Divine Skills all at once.

He was still under the influence of that Formation, unable to unleash his full strength; even just a moment ago, he had barely blocked an attack, and facing Cao Zhen's assault now, he simply couldn't gather all his power.

Bloodbath Demon frantically stimulated the Qi within his body, but due to the recent fight and the suppression of the Formation Map, he could only just about gather around eighty percent of his power.

With his hands quickly clasped together, a stream of crimson fresh blood flowed from his palms, trickling down to his feet, converging into a long Blood River, and his body swiftly dove into the midst of this Blood River.

But, in the next moment, ten different voices transmitted, piercing directly into the Blood River, these voices seemed unaffected by the Blood River, shooting straight into his body, resonating in his mind, his heart, his ears, echoing in every part of his body all at once, as loud as if ten claps of thunder exploded right within him.

In an instant, within his body, all his meridians, and his internal organs, burst apart!

"Puh..." The Eclipse Demon spat out a mouthful of rich red blood, his face suddenly pale without a trace of color, looking as if he had not recovered from a severe illness.

And his body was trembling uncontrollably, his eyes revealing a deep horror. Without a doubt, the opponent was definitely an existence at the limit of the Golden Core Stage, and furthermore, the opponent's method of attack was incredibly mystic, with ten voices exploding right from within his heart. How could this be defended against?

Even at his peak state, facing this Cao Zhen would be a major problem, let alone in this current state.

Not good!

Suddenly, he widened his eyes; in his field of vision, behind Cao Zhen, one of the Nine Abnormal Phenomenon Golden Pills exploded with dazzling brilliance.

Following that, countless Thunderbolts shot out from within one Golden Pill.

Ten Divine Skills, these were another ten Divine Skills, and moreover, ten different Thunderbolt Proficiencies, some shooting out a single thunderbolt, some releasing several thunderbolts, some thunderbolts were purple, others blue, and there were even golden thunderbolts!

Most of these Thunderbolts fell from the sky, with only one rising from the ground, striking upwards from below.

Although Cao Zhen had reorganized his Divine Skills, these Divine Skills were the strongest he had selected, but speaking of offensive power, aside from the special Ten Sounds Sky Demon, the strongest were still the Thunderbolt Proficiency and the Flame Divine Power.

The Flame Divine Power was stronger due to Yi Sheng's cultivation of the Scarlet Flame Heavenly Phoenix and Li Ke's Vermilion Bird Sub-fire, while the Thunderbolt Proficiency was strong due to the Five-thunder Righteous Method and his connection to the Golden Light Sage, gaining the immensely powerful Thunderbolt Proficiency.

The Bloodbath Demon was injured under the Ten Sounds Sky Demon's attack, with tumultuous Qi and blood in his body.

All of a sudden, countless Thunderbolts descended again, and this time he didn't even have time to dodge, let alone release a Divine Skill to block the attack. He could only hastily circulate his Mana, gathering a blood-colored armor around his body.

Protective Divine Power!

But in his haste, after being injured, the Mana released for the Protective Divine Power was not ample, and the luminosity of the protective armor was somewhat dim.

The next moment, a purple Thunderbolt struck down with a thunderous crash onto the blood-red armor, instantly turning the armor into dust, disappearing into the Void, and at the same time, the pure and quintessential positive energy from the Five-thunder Righteous Method surged in, rushing into his body.

Following that, thunderbolts kept falling consecutively, battering the Bloodbath Demon.

Instantly, from Bloodbath Demon's body, the booming sounds of explosions resonated; his flesh burst open, his bones shattered, his tendons...

Just in a blink of an eye, his entire body was blown apart by the relentless thunderbolts, turning into nothingness!

Bloodbath Demon, dead!

From afar, the crowd, witnessing the Bloodbath Demon turned to dust, his entire being obliterated, felt a surge of shocking terror rapidly spreading through their hearts.

"Bloodbath Demon is dead?"

"That was an existence at the Golden Core Stage limit, a Golden Core Stage limit, just like that, dead?"

"In the Minor Era of Inversion of Heaven and Earth, the Golden Core Stage limit, that's already the strongest existence."

"This Cao Zhen, he really is at the Golden Core Stage limit!"

"He must undoubtedly be at the Golden Core Stage limit, and I even feel that, even though both are at the limit of the Golden Core Stage, he seems even more terrifying and powerful than Bloodbath Demon!"

"How did he do it, to be at the Golden Core Stage limit with only the Nine Abnormal Phenomenon Golden Pills?"

"Isn't he, isn't he a Musical Rhythm master? Shouldn't he be delving into the path of Musical Rhythm? Why then did the Divine Skills he just used include thunderbolts and whirlpools?"

"Just being proficient in Musical Rhythm doesn't necessarily mean he will use Musical Rhythm Divine Skills."

"He has yet to perform Pill Fusion; he's already at the Golden Core Stage limit, if he completes Pill Fusion, how horrifying that would be!"

"I think I know why he only has Nine Abnormal Phenomenon Golden Pills. It must be because he has already reached the limit of the Golden Core Stage, so Heavenly Dao does not permit him to break

through any further, because just forming one more Golden Pill, even just a common Golden Pill and not a unique one, his power would surely surpass the limit of the Golden Core Stage."

Chapter 1197:

"So, it's not just that he can no longer condense a Golden Core, he can't even complete Pill Fusion with nine Golden Pills!"

"This person is truly bizarre. Have you all noticed? Whenever he attacks, he releases ten different kinds of Divine Skills at once. How does he do that?"

In the back, Ren Xiaoyao who hadn't joined the group's encirclement and even intended to help, stood far away, completely dumbfounded by the overwhelming power that Cao Zhen radiated.

He had seen Cao Zhen make a move before, and even then he had held Cao Zhen in high regard. Later, seeing Cao Zhen flying continuously, he felt that Cao Zhen had reached the top strength of the Ten Different Phenomena of Golden Elixir Great Perfection, which made him even more astonished.

He had no doubt that after Cao Zhen became a Ten Different Phenomena of Great Perfection Golden Core, he would immediately reach the Golden Core Period Limit.

But now?

He couldn't have been more wrong.

Cao Zhen had already reached the Golden Core Period Limit!

In that moment, he understood a lot—no wonder Immortal Bi Yue chose Cao Zhen as her Dao companion.

Bi Yue had once said that her Dao companion must be stronger than her, but how could she find someone stronger than herself at the Golden Core Period Limit during the Reversal Mini Epoch Period?

He, along with many others, believed that it would be impossible for Immortal Bi Yue to find a Dao companion during the Reversal Mini Epoch Period, as during this special period marked by a Death Aura, no one stronger than the Golden Core Period Limit could emerge.

Yet Bi Yue actually did.

Cao Zhen had reached the Golden Core Period Limit with his Nine Abnormal Phenomenon Golden Pills, which was clearly stronger than Bi Yue.

Bi Yue had not reached the Golden Core Period Limit when she was at the Nine Abnormal Phenomemon Golden Pills stage!

Such a Cao Zhen, if he were to wait until the end of the Reversal Mini Epoch Period, once he could condense the tenth Golden Pill, once he could perform Pill Fusion, just how strong would he become?

He even doubted whether Cao Zhen would become the strongest Golden Core in the history of the Eastern Province!

The crowd around him also came to their senses.

"No wonder, no wonder Immortal Bi Yue is together with him. In reality, it's not Immortal Bi Yue protecting him, but two existences at the Golden Core Period Limit joining forces!"

"Lucky we acted early; otherwise, if he kept hiding his strength until the end, and he and Immortal Bi Yue suddenly joined forces, who could stop them?"

"Even now that he has revealed his strength, there's nothing we can do about it anymore."

"The Bloodbath Demon is dead, and those five are clearly aligned with Cao Zhen."

"They are too cunning—splitting the same group into two parties, and that Cao Zhen has been concealing his strength all along. Previously, the message was that Cao Zhen was very weak and needed

the protection of Immortal Bi Yue! But in fact, Cao Zhen is also an existence at the Golden Core Period Limit!"

"But, who exactly are these people? Which Great Teaching do they belong to?"

"People from the Dragon Chant Sect should know."

Yu Long listened to the discussions around him, his face full of confusion and curiosity just like everyone else. What does he know? If he really knew the origins of these people, if he really knew that Cao Zhen had reached the Golden Core Period Limit with the Nine Abnormal Phenomenon Golden Pills, he wouldn't have said that it was inappropriate for his Senior Sister Bi Yue to be with Cao Zhen.

He, too, was meeting these people for the first time; he didn't know where his Senior Sister had met them.

The Bloodbath Demon had died too quickly.

No one expected a being at the Golden Core Period Limit to die just like that.

Their previous attack was grounded in the belief that after defeating the other party, they had a chance to compete for the Silver Light Wings.

But now, one Golden Core Period Limit existence on their side had suddenly died, while another one appeared on the opposing side.

Continuing the attack seemed futile as they were unlikely to achieve victory.

Even more so, considering the power of the opposition, they didn't know how many of them would die if targeted; for a while, everyone ceased their attacks.

Everyone stopping only made things worse for the Zhui Hun Demon.

The Zhui Hun Demon's side had originally taken the initiative, after all, they had a Golden Core Period Limit existence and another nearly at the same level.

But in an instant, the situation flipped on its head; now only he was left on their side, while the opposition had two at the Golden Core Period Limit, and aside from that, five top experts.

Now that the others were dead, if the opposition...

Suddenly, Immortal Bi Yue's voice rang out: "Cao Zhen, join me, let's kill the Zhui Hun Demon!"

Zhui Hun Demon's face drastically changed as he defended against Immortal Bi Yue's attack while retreating, calling out at the same time: "Bi Yue, I was only sparring with you and had no intention of killing you. There's no need to be so ruthless.

Moreover, although your Dragon Chant Sect is strong, making enemies everywhere is not good for your sect."

"What does it matter to you whether I make enemies or not?" countered Immortal Bi Yue while fiercely attacking the Zhui Hun Demon.

The next moment, Cao Zhen's voice suddenly came.

"Ling Xi, take action!"

Indeed, their Hundred Peaks Sect did not have the powerful influence of the Dragon Chant Sect. If possible, he would prefer not to make too many enemies; but just now, Zhui Hun and others clearly intended to kill him.

He was the Sect Leader of the Hundred Peaks Sect during the Reversal Mini Epoch Period, representing the face of the Hundred Peaks Sect.

If others attacked the Sect Leader of Hundred Peaks Sect and he did not retaliate, acting as if nothing happened, once word got out, everyone would think that the Hundred Peaks Sect was afraid of conflict. Anyone targeting the Disciples of Hundred Peaks Sect would then do so without any scruples.

Chapter 1198:

As Cao Zhen's voice fell, the Supreme Unparalleled Formation Diagram unfolded once again, spreading forth and enveloping the Zhui Hun Demon within it.

The Zhui Hun Demon instantly felt a sense of restraint, and at the same time, he realized that his power was suppressed by this binding force, only capable of exerting about ninety percent of his strength.

Just now, although he had been fighting with Immortal Bi Yue, neither of them had gone all out, so he had been keeping an eye on the situation with the Bloodbath Demon and noticed that the Bloodbath Demon hadn't been able to fully exert his power either.

Now, he finally understood the reason—it was because of this Formation Map, which could reduce the power of someone at the Golden Core Period Limit to just ninety percent.

The opposing side had two existences at the Golden Core Period Limit, and even at his peak state, his only option was to flee.

Not to mention, when he only had ninety percent of his strength.

Moreover, the opposing side had more than just these two people.

"Damn it!"

The Zhui Hun Demon cursed under his breath, his face revealing a resolute expression as he roared furiously: "Bi Yue, do you truly wish for us to fight to the death! If you want to kill me, none of you will have it easy either!"

With a roar from the Zhui Hun Demon, the aura within his body rapidly escalated. He had just seen how the Bloodbath Demon failed—it could be said that after Cao Zhen made his move, the Bloodbath Demon was defeated instantly.

And now, the adversaries he faced were more numerous and stronger!

Even as an existence at the Golden Core Period Limit, facing so many experts, his defeat would only come faster than that of the Bloodbath Demon.

If he were to be defeated, there would only be one outcome—death.

Given the circumstances, why wouldn't he self-destruct his Golden Core?

These people wanted him dead; then none of them, not a single one, would have it easy!

Within the Zhui Hun Demon's eyes emerged a vicious and frenzied glint. On the massive Pill Fusion behind him, ten Golden Cores with extraordinary visions suddenly shone with dazzling brilliance, each one swelling and expanding as if about to burst.

Powerful and surging forces even overflowed from the Golden Cores, pouring into the air around them, seemingly about to rupture this entire space.

Cao Zhen, sensing the change in the Zhui Hun Demon's aura, his face suddenly turned pale as he shouted loudly, "Quick, back away, he's going to self-destruct!"

As his voice fell, the ten Golden Cores with extraordinary visions behind the Zhui Hun Demon suddenly flew up.

The next moment, the ten Golden Cores with extraordinary visions exploded with a bang!

The Zhui Hun Demon had self-destructed!

A Golden Core Period Limit expert had self-destructed!

Instantly, within the void, a deafening boom that reached an extreme echoed through the air.

Everyone felt the space around them, the ground beneath their feet, even the ruins behind them, all violently shake at this moment.

The ground suddenly cracked open down the middle, revealing a vast fissure akin to a gorge, from which countless more fissures spread out, dense and web-like, covering the entire space.

At the same time, a boundless and relentless force swept out in all directions.

The first to bear the brunt was the Supreme Unparalleled Formation Diagram!

The terrifying force arrived and instantly tore apart the Formation Diagram!

Even with Ling Xi's resonance with her Heaven and Earth Bagua Talisman and the Supreme Unparalleled Formation Diagram, forming a trinity, the current self-detonation came from a Golden Core Period Limit existence, and the self-destructive force was indescribably fearsome.

In just an instant, the Formation Diagram was completely shredded.

The moment the Formation was destroyed, Ling Xi spewed a mouthful of bright red blood, her entire demeanor collapsed instantly, her face pale, devoid of a trace of color.

Her resonance with the Formation Map, while enhancing its power and making it more difficult to break, also deepened her connection to it. The Formation Map was equivalent to a part of her body; with it shattered, it was as if a part of her body had been shattered, so naturally, she suffered a heavy blow.

With the Formation Map destroyed, the endless mighty force still did not diminish noticeably, continuing to assault the surroundings.

"Ling Xi!"

In great urgency, Cao Zhen quickly flew toward Ling Xi's direction, but under the residual might of the Sect Tribulation, his flying speed was greatly reduced.

Suddenly, among them, Immortal Bi Yue, who was closest to the Zhui Hun Demon, saw ten Golden Cores with extraordinary visions on her massive Pill Formation suddenly burst with blinding brilliance, and a giant star emerged under her feet. Stepping onto the star, her figure shot forward with incredible speed, though not as fast as usual. With a single step, she appeared at Ling Xi's side.

Right after, she grabbed Ling Xi's slender waist and took another stride. The next moment, another star appeared below her feet, and she took off again, treading on the star.

However, behind them, the terrifying force from the Zhui Hun Demon's Golden Core self-destruction was already closing in.

While her speed was swift, the pace at which the Zhui Hun Demon's Golden Core self-destruction spread was equally astonishing. Furthermore, the oppressive force from the Sect Tribulation residue made every movement slow, and now she was carrying Ling Xi.

Immortal Bi Yue felt the horrifying force approaching from behind, and around her, the phantom of a Divine Dragon emerged, frantically circling her and Ling Xi.

From afar, Cao Zhen, Li Ke, Yan Yourong, and others also took action, striking at the terror unleashed by the Zhui Hun Demon's Golden Core self-destruction within the void.

However, flying with Divine Skills also required time.

The boundless force had descended, striking Immortal Bi Yue and Ling Xi from behind.

Chapter 1199:

Suddenly, behind Immortal Bi Yue, those shadows, resembling real Divine Dragons, shattered explosively as ten mysterious Golden Cores self-destructed. The earth-shattering force heavily bombarded the backs of the two individuals, sending them flying.

However, the force did not stop there, and continued to chase after them as they fell.

At this moment, the Divine Skills released by Cao Zhen and others finally arrived.

Yet, the power of the opposing Golden Core's self-destruction was so immense that even their Divine Skills could not fully block it, only managing to slightly slow it down.

In the midst of the loud explosions, Immortal Bi Yue and Ling Xi were sent flying backward, falling right in front of Cao Zhen.

Cao Zhen quickly stretched out both hands, catching each person.

At this time, the breath of both women was so weak it was almost imperceptible; they could barely even open their eyes.

Those were Golden Cores at the limit of the Golden Core Stage self-detonating!

It was only because their Cultivation Base was high, especially Immortal Bi Yue, who at the crucial moment, continued to carry Ling Xi and even flew for a while. Moreover, Bi Yue even deployed her Protective Divine Power to shield both herself and Ling Xi.

If not for Immortal Bi Yue, Ling Xi's situation could have been dire...

Cao Zhen hurriedly channeled his Mana, sending it into both individuals while also quickly producing Pills for them to ingest.

He looked at the weak figures of the two women, his heart filled with guilt, already recalling how the enemy, facing certain death, would desperately self-detonate their Golden Cores.

Why did he still allow Ling Xi to deploy the Formation Map?

Even without Ling Xi deploying the Formation Map, they could have handled the Zhui Hun Demon.

"Senior sister!"

Not far away, Yu Long cried out in alarm and hastened forward, arriving beside Cao Zhen, and also took out a jade bottle: "Quick, give this Pill to senior sister."

As a disciple of the prestigious Dragon Chant Sect, and being extremely close to reaching the limit of the Golden Core Stage, he was surely carrying a top-level Healing Sacred Medicine.

He had not anticipated that in a mere instant, such a drastic change could occur; the Zhui Hun Demon actually self-detonated just like that. He also hadn't expected his senior sister, Bi Yue, to actually go and save an enemy.

If Immortal Bi Yue hadn't delayed rescuing that woman, if the Protective Divine Power she deployed hadn't been to protect both of them, but just herself, she wouldn't have been injured so severely.

He was truly frightened; if something happened to his senior sister, the entire Eastern Province would be thrown into chaos!

He couldn't even begin to imagine the thunderous rage that would erupt from Immortal Bi Yue's elders once they learned of her death.

Cao Zhen had already administered Pills to the two women, and he didn't plan to continue feeding them more Pills.

The Pills for healing were effective, but more isn't always better since the nature of the medicine could conflict.

But when Yu Long opened the jade bottle, a whiff of medicinal fragrance wafted out, and Cao Zhen immediately took the bottle and administered the contents to both Ling Xi and Bi Yue. This Pill did not conflict with his own and even had a better healing effect.

It wasn't that the other's Pill-making technique was superior, but the resources for the Pills he made were limited. With the same materials, Yu Long could make better Healing Sacred Medicine.

Cao Zhen administered the Pills to the two women, then turned and flew off into the distance.

Though the two were seriously injured, with the Pills present their lives were not in danger.

Yet here, with the lingering force of the Sect Tribulation, and disturbances like lightning and flames from the Heavenly Tribulation falling, their current condition made it unsuitable for them to stay here. The best course of action was to take them back.

Yet he had only moved a little distance when Immortal Bi Yue's voice rang out.

"What are you doing?"

Although Bi Yue and Ling Xi were both severely injured, Bi Yue's injuries were slightly less severe than Ling Xi's, given that Bi Yue had a higher cultivation and also suffered an additional injury due to the shattered Formation Map.

Without a second thought, Cao Zhen replied, "What am I doing? Naturally, I am taking you both away from here to a safe place!"

Immortal Bi Yue gently shook her head and said, "But if you fly out now and then fly back, others will have already advanced. What about the Silver Light Feathers?"

Cao Zhen frowned and said, "At this time, who cares about Silver Light Feathers!"

He looked at Immortal Bi Yue, his heart filled with emotion. If not for Bi Yue's immediate action to save Ling Xi just moments ago, Ling Xi would have truly been in danger.

He really hadn't expected Bi Yue, despite the danger, to go and save Ling Xi.

After all, Bi Yue and he hadn't known each other for long, and it was the first time Bi Yue met Ling Xi. He even always thought that Bi Yue's proposal to become his Dao companion might have had some ulterior motive, or perhaps she wanted someone to cover for her.

He really hadn't seen it coming, that Bi Yue would actually save Ling Xi in that moment!

Even now, visibly weak and shaking her head, Bi Yue appeared to be smiling: "We... We're not yet at the point of dying. You... continue and go after the Silver Light Feathers, let your Disciple take us out.

If you miss obtaining the Silver Light Feathers just to escort us out, then what point was there in our intense fight to the death?"

"This..." Cao Zhen hesitated.

At that instant, Li Ke appeared, took over Ling Xi, and said: "Let's take them and leave."

Chapter 1200:

Beside them, Duo Duo, who was very perceptive, hastily took over the care of Immortal Bi Yue.

Cao Zhen glanced at the two of them and finally nodded his head. Indeed, if it was for the sake of sending the two away, only to let the Silver Light Wings be snatched by others, didn't that mean their prolonged battle was all for naught?

The main reason was that it was his disciple Duo Duo who took over Immortal Bi Yue, and not Li Ke; otherwise, he might have really needed to consider whether or not it was time to head back.

Although Bi Yue and Ling Xi were injured, with Li Ke and Duo Duo, as well as Zhu Peng there, their safety should still be ensured.

Moreover, there were people from the Dragon Chant Sect.

Cao Zhen turned his head to look at Yu Long, and just as he thought to persuade Yu Long and his group to also return and protect Immortal Bi Yue, he found there was no need to speak; Yu Long had already started walking back.

For him, the safety of Immortal Bi Yue was naturally more important than the Silver Light Wings, which might not even be obtained.

Not to mention the friendship between sect members, even if he truly wanted to contest for the Silver Light Wings, he now dared not disregard Bi Yue. If upon returning to the Dragon Chant Sect others found out that he ignored an injured Bi Yue to contest for treasures, Bi Yue's admirers could skin him alive!

Seeing Yu Long and his group also leaving, Cao Zhen felt relieved and then turned to head towards the front.

All around, the influential figures watching Cao Zhen turn back towards them stepped aside to make way, the man before them, although the only one among them with a Nine Abnormal Phenomenon Golden Core, is now the only existence at the limit of the Golden Core Stage!

The previous three at the limit of the Golden Core Stage were either injured or dead, and now Cao Zhen was the only strongest one left.

Cao Zhen did not move forward directly but instead sought the bodies of Young Master Qu Wu, Zhui Hun Demon, and Bloodbath Demon. He searched their bodies for a while and took their Qiankun Bags, not even having the time to see what was inside, and continued moving forward.

They were the ones who killed these people, and although it was clear to everyone that these three Qiankun Bags must contain numerous treasures, not a single one dared to contest for them.

Now, seeing Cao Zhen flying towards them so quickly, each and every one of them had complicated thoughts.

Logically, with Cao Zhen's strength far surpassing the others, it was very possible that the best Silver Light Wings would end up in Cao Zhen's hands.

And now, with Cao Zhen's side, Immortal Bi Yue among others injured and others escorting the two injured away, only Cao Zhen was left alone.

They should seize the opportunity to join hands and attack Cao Zhen.

But at this moment, not a single one of them made a move.

None of them dared to assure that after they took action, Cao Zhen wouldn't retaliate by desperately attacking one or two of them.

What's more, the terrifying scene of the Zhui Hun Demon's self-destruction was still vividly in their minds.

It was the first time they had witnessed the terror of a Golden Core Stage Limit self-destructing; it was likely that apart from them, no one in the Eastern Province had ever seen a Golden Core Stage Limit self-destruct.

After all, at the Golden Core Period Limit, during the Reversal Mini Epoch Period, that was the strongest existence. Even if faced with many more opponents, a Golden Core Period Limit could kill their way out of an encirclement and escape.

It was because here the remnants of the Sect Tribulation hindered the speed of flight, making escape slower, thus making one a target for Divine Skills attacks, that he resorted to self-destruction because he knew he couldn't escape.

Similarly, if Cao Zhen found himself being besieged and overpowered later on, what if he self-destructed?

Who among them could withstand the terror of a Golden Core Stage Limit's self-destruction?

For a time, no one wanted to take the initiative to attack Cao Zhen, or maybe they had the idea, but with no one leading, no one made a move.

Among the crowd, the only remaining expert from the Five Sounds Sect who was still persisting furrowed his brows; Immortal Bi Yue was actually injured – they needed to find Immortal Bi Yue to help them cross the Sect Tribulation.

It looked like Immortal Bi Yue was seriously injured. If by the time came Immortal Bi Yue hadn't recovered, that would be troublesome.

However, if Immortal Bi Yue did recover, given her relationship with Cao Zhen, could they not re-invite this Cao Zhen? By then, having one more at the Golden Core Period Limit would increase the Five Sounds Sect's chances of withstanding the Sect Tribulation!

Cao Zhen slowly advanced, and in the void, Thunderbolt Flames, Frost, fierce winds... various Heavenly Tribulations kept falling.

As he continued forward, he increasingly felt greater pressure. After two hours, those who could still fly in the sky were only him.

And after four hours, even Cao Zhen could no longer withstand the terror of the continuous pressure falling from all around, and he landed on the earth.

The moment he landed on the ground, the pressure suddenly lightened.

Previously, the mountain where they saw the Silver Light Wings fall was not very far away, and he had already flown half the distance.

But when he landed on the ground and started moving forward again, he had not walked for long before the pressure in the air around suddenly surged violently again. Those following behind him also stopped one after another, not venturing further.

"I can't go on; I've reached my limit."

"I can only go this far."

Many sighed and stopped in their tracks, yet some still refused to accept this, continuing to step forward.

"I... I don't believe it; this is just pressure, the pressure from the remnants of the Sect Tribulation, I still can't contend with it!" A man in white, whose clothes were still spotless despite reaching this point, took steps forward.

But as soon as he lifted his leg, his body suddenly trembled and he swayed to the side, falling to the ground.

From a distance, the assembly of masters who could not advance nonetheless did not leave the area, and watching the man in white fall, they shook their heads and sighed, "That's Young Master Bai Shi, an existence at Perfect Completion Golden Core; even he couldn't hold on."

"Indeed, look at those who have stopped; they're all top Perfect Completion Golden Core existences."

"Those who are still advancing now are either at the Golden Core Period Limit or close to it."

"Just how much longer can they hold on?"

One day later, to everyone's surprise, those approaching the Golden Core Period Limit also halted in their steps.

Among them, some tried to push forward, but the result was spitting blood and falling down.

Only Cao Zhen alone continued to slowly move forward.
