

My Master 1271

Chapter 1271:

They risked their lives to enter perilous places, perhaps to gain something.

But since the arrival of the Minor Era of Inversion of Heaven and Earth, those dangerous areas have been sealed off, completely inaccessible to anyone; even if they wanted to risk everything, they could not obtain any resources.

Now is their best chance, so despite knowing the dangers of entering the Eastern Wasteland, they still ventured in.

As for why they did not seize opportunities in East Breeze?

Nowadays, firstly, there are still quite a few people scrambling for resources in East Breeze. They initially entered the Eastern Wasteland and then re-entered from there, with the major Immortal Sects of East Breeze having been largely plundered by those who came first.

Furthermore, East Breeze is truly impoverished, frightfully so.

Only later did they find out that East Breeze wasn't connected to the Eastern Wasteland to begin with. After the two were joined together, East Breeze had once tried to plunder resources from the Eastern Wasteland.

The result was that all the experts who entered the Eastern Wasteland perished.

After that, the Eastern Wasteland struck directly into East Breeze, and the Immortal Sects of East Breeze, in order to preserve their own Sects, could only surrender their resources to those from the Eastern Wasteland.

That time, they lost a significant amount of resources. Then, realizing they were too weak, over the years, the major Immortal Sects of East Breeze have been madly consuming various resources, striving to become stronger.

This has led to the current situation, where every Immortal Sect in East Breeze is as poor as can be!

They had no choice but to try their luck in the Eastern Wasteland.

After all, if their elders could enter perilous places to fight for resources, why can't they enter the Eastern Wasteland?

The Eastern Wasteland can't be more dangerous than the perilous places.

Those areas are places where even Golden Core Stage cultivators dare not enter, accessible only to those above the Earth Immortal Realm. Moreover, even being in the Immortality Regainment Realm is no guarantee of safety within those areas, where encountering danger often means instant death.

It is also because their two Sects are weak that they have formed an alliance, and have agreed to split acquired resources evenly, fifty-fifty.

Although the two Demon Sects are weak, after joining forces, they still entered the Eastern Province with over five hundred Golden Core Stage experts. Despite some disciples being lost previously, there are still over four hundred left.

Moreover, the Sect Leaders of both Demon Sects during the Reversal Mini Epoch Period have personally led the team here.

"This region is so desolate."

"Yes, indeed desolate."

"Over there, there's a mountain gate."

Soon, the two Demon Sects discovered a mountain gate, but upon arrival, they found it deserted and utterly empty, without a single person.

"This mountain gate has been abandoned for a long time."

"Perhaps there was internal strife within the Eastern Wasteland, causing the entire mountain gate's inhabitants to perish? Or were they assimilated?"

"Don't know. This mountain gate has been abandoned for so long, there surely won't be any resources left. Let's go and check further ahead."

The members of the two Demon Sects continued to move forward, but little did they expect that the next mountain gate they came upon was also deserted.

For a moment, everyone from the two Demon Sects was dumbfounded.

"What's the situation? Are all the mountain gates deserted?"

"Previously, we had fought against cultivators from the Eastern Wasteland. They seemed to have a multitude of cultivators. Why are all the Sects we come across deserted?"

"Yeah, this Sect's mountain gate doesn't look small, so how... look, what's that?"

Suddenly, someone cried out in alarm.

Upon hearing this, the people all around flew over and saw what the shouting person was pointing at, each one of them revealing a look of disbelief.

"That's... isn't that the mark of the Void Breaking Sect?"

"What's going on?"

"Over there, do you see the ruins of the Great Formation? Does it also bear the Void Breaking Sect's mark?"

"So, is this a branch of the Void Breaking Sect?"

"But how could a branch of the Void Breaking Sect be destroyed?"

"Yes, even if it's just a branch, the legacy should still include the Void Breaking Sect's Divine Skills, Cultivation Techniques, and Spells."

"This... if even a branch of the Void Breaking Sect could be annihilated, then this place..."

Everyone's expressions turned incredibly strange.

"What do we do?"

"This Eastern Wasteland seems even more dangerous than we anticipated."

"Do we continue to move forward?"

Everyone hesitated for a moment.

"Go! We've already come this far; there's no need to stop now. Besides, who knows how long the Void Breaking Sect's branch has been here, and for what reason they were eliminated. Perhaps their development wasn't smooth, and the branch lacked strong experts."

"That's right. This area is also on the edge of the Eastern Wasteland. The closer to the edge, the thinner the Spiritual Energy. That the Void Breaking Sect was able to establish a mountain gate here indicates that they weren't dominant when founding it. Therefore, their destruction isn't as terrifying as we imagined."

"Let's continue onward!"

After staying briefly at this location, the members of the two Demon Sects pressed on. However, when they came upon the third Immortal Sect, they were stunned.

It was another abandoned mountain gate.

But the time since this mountain gate had been left was clearly not as long as the previous one had been.

"There are clear signs of recent habitation!"

"It seems they had only left a short while ago."

"They must have known we entered the Eastern Wasteland and didn't have the strength to defend it, so they left."

"No, that's not right. I feel like there was already a mountain gate here before, and then that mountain gate was destroyed, with another Sect coming over to establish their own!"

Chapter 1272:

"Yes, it should be like this."

"Look at those new graves, those have obviously been abandoned for a long time."

"So, does this mean that the new Immortal Sect here has no new graves at all?"

"Could it be that this is just a branch and the ancestral graves are with the former sect?"

"Stop overthinking it, let's continue exploring."

"Let's go, keep moving forward, there must be another Immortal Sect ahead!"

Everyone charged onward, ignoring the few cities they occasionally passed on the way. However, the density of the cities gave them a sense of ease.

"With such scattered cities, the Immortal Sects here must be very weak."

"Indeed, this place can't even compare to our Eastern Province, not to mention the one we visited before from Eastern Arrival, which had more cities and the cities were bigger!"

"Actually, this is good news. Few cities mean fewer mortals, and subsequently, fewer mortals with the talent for Immortal Cultivation. Hence, there will be fewer cultivators here and the Immortal Sects will be weaker."

"So, we just need to charge ahead and upon spotting an Immortal Sect, we should be able to easily conquer it!"

"The only problem now is that this place is still too close to the border between the Eastern Wasteland and East Breeze. I'm afraid that people from the Eastern Wasteland will rush back, and I also worry that the Demon Sects will come here and compete with us for it."

"Pick up the pace, reach there first, take control of the mountain gates, seize the resources and leave quickly!"

Hastening their advance, they finally laid eyes upon the fourth Immortal Sect.

"At last, this Immortal Sect isn't empty."

"Yes, and this mountain gate is even larger than the preceding three we've seen!"

"They've activated the Mountain Protection Array."

Hundred Peaks Sect had all its Great Formations at the mountain gates activated, with disciples pouring into them, all those at the Golden Core Stage gathering around the gate.

At the same time, within Hundred Peaks Sect, all disciples below the Golden Core Stage were also brought together at the rear mountain.

Almost all Immortal Sects, when facing major crises, concentrated their young disciples in a safe place, for these young disciples are the hope of the sect.

Unless their masters, their elders, are eradicated in battle, they would never willingly sacrifice their young disciples.

Among the crowd, a scholarly-looking man was carefully supporting a woman of similar age, speaking softly, "Be careful, you're pregnant now."

The woman glared at the man irritably and said, "It hasn't been that long, there's no need to be so cautious. To think, this is all your fault... How many children do you want!"

"How can you blame me for this? Besides, our children are so exceptional. Having a few more would also make a great contribution to Hundred Peaks Sect.

Maybe this little one might even surpass his brothers and sisters."

As he spoke, the man gently touched the woman's flat belly that showed no signs of bulging.

It's rather strange; for a long time, they didn't plan on having children, but after their journey from the Eastern Wasteland to the Eastern Province, his wife informed him that she was pregnant.

He was already considering names for the child.

As for the crisis at hand, he believed that Hundred Peaks Sect would surely overcome it.

Even though the Sect Leader had yet to return to Hundred Peaks, they still possessed numerous experts, including Vice Sect Master Nie Jie and his son, Shen Lid, both at the Perfect Completion Golden Core with Ten Different Phenomena!

Atop the mountain gate of Hundred Peaks Sect, Nie Jie and Shen Lid had already released their massive Pill Fusions, completed by their ten Phenomenal Golden Cores.

Furthermore, Qiao Jingyao from Celestial Plum Sect, after settling her people, had also released her Phenomenal Golden Core.

Outside the mountain gate, the members of two great Demon Sects looked at the mountain gate, clearly well-prepared for defense, and at the three Perfect Completion Golden Cores with Ten Different Phenomena above the gate, nodding slightly.

"Three Perfect Completion Golden Cores with Ten Different Phenomena."

"This Immortal Sect is a bit stronger than we anticipated."

"Maybe they're not just from this mountain gate. Did you forget the one we saw earlier? The one that had obviously been recently abandoned?"

"This could be a union of two, or even several, Immortal Sects consolidated into one mountain gate."

"So, if we can break through their mountain gate, we could seize the resources of multiple Immortal Sects!"

"At least the resources from two mountain gates!"

"With three Perfect Completion Golden Cores with Ten Different Phenomena on our side, our two sects together have a total of ten, all Perfect Completion Golden Cores with Ten Different Phenomena!"

"Attack!"

The leaders of the two Demon Sects exchanged glances and issued the order simultaneously.

For a moment, all the members of the two Demon Sects raised their Golden Cores, with ten particularly prominent among them!

Nie Jie frowned and said, "There are ten Perfect Completion Golden Cores with Ten Different Phenomena on their side. Plus, they have more than a few at the Golden Core Stage. If we can stall them with our Formations until Yi Sheng and Liè Yàn return..."

Under Nie Jie and Yi Sheng's command, the disciples of Hundred Peaks Sect also sprang into action. However, not a single one rushed out of the gates, instead relying on various Great Formations to bombard their opponents with Divine Skills.

The disciples of Hundred Peaks Sect were, after all, protected by Great Formations.

Moreover, after these Formations were rearranged by Cao Zhen, Bei Yan further modified them again.

After all, during the Reversal Mini Epoch Period, even the Great Formations could only unleash power at the limit of the Golden Core Stage, making such an extensive array somewhat wasteful.

Chapter 1273:

Therefore, Bei Yan modified the Great Formation, transforming it into several that could unleash the full power of the Golden Core Period Limit.

As for the materials used to modify the Great Formation, a part was provided by the Hundred Peaks Sect, and another part was supplied by Xiang Ziyu.

As disciples from the Hundred Peaks Sect entered the formations one by one, and one Spirit Stone after another was thrown into the formation, bright lights quickly illuminated the mountain gate of the Hundred Peaks Sect.

These lights included silver, blue, red, and green hues; for a moment, it was as if rainbows fell from the sky, standing in front of the Hundred Peaks Sect, guarding it.

As the masses from the two great Demon Sects made their move, streams of Divine Skills surged like turbulent river waters, striking the light barriers and instantly producing loud booming noises.

The barriers shook violently, but they did not shatter.

"So many great formations!"

"Now, during the Minor Era of Inversion of Heaven and Earth, so many formations have reached the Golden Core Period Limit, thus their formations must be different from the original Mountain Protection Array."

"That's to say, these are the formations they just modified!"

"This Immortal Sect, being able to spare such a vast amount of resources to modify the formations, must have extremely plentiful resources!"

"Taking down their mountain gate, all these resources will be ours!"

"This mountain gate is attackable!"

The people from the two great Demon Sects furiously unleashed various Divine Skills.

Although the Mountain Protection Array of the Hundred Peaks Sect had been modified twice by Cao Zhen and Bei Yan, the attacking forces were overwhelming, and gradually, some of the formations began to show signs of breaking.

At the same time, beams of Divine Skills flew out from the Hundred Peaks Sect, some colliding with the opponents' Divine Skills in the void, others directly hitting the crowd across the way.

Inside the Hundred Peaks Sect, disciples were safe for the moment thanks to the formations, but outside, the two great Demon Sects had no such protection, and as Divine Skills rained down, continuous screams could be heard.

However, not a single Sect Leader from the two great Demon Sects showed any intention of retreating; after all, they had the rare opportunity of being the first to reach this Immortal Sect without competition.

Moreover, since the opponent's tenth different Golden Core didn't outnumber theirs, they were ninety percent confident they could take down the opposing mountain gate, so naturally, they wouldn't give up.

Combat, especially such Sect battles, inevitably comes with sacrifices.

Under their relentless assault, although the disciples of the Hundred Peaks Sect remained unharmed for the moment, the Great Formations of the Hundred Peaks Sect started fracturing.

"Continue the attack, they're almost unable to hold on!"

"Keep charging!"

"Another one of their Mountain Protection Arrays has been breached!"

"Charge!"

"Break in!"

Seeing the Mountain Protection Arrays of the opposing Immortal Sect breaking one after another, disciples from the two sects quickly surged forward.

But just as they were nearing the mountain gate of the opposing side, suddenly, a number of mirrors appeared before their eyes.

A total of twenty-one Treasure Mirrors, each mounted on a high pole, one mirror hanging at the top of each pole, and each mirror had a frame.

Suddenly, a series of muffled thunder sounds emanated.

The sound vibrated, causing the air to tremble, and in turn, these twenty-one mirrors also vibrated, sending out beams of golden light under the vibrations.

The golden light moved incredibly fast, instantly hitting the disciple who was charging the fastest.

In an instant, a sound like a water droplet falling into a fiercely burning flame emitted.

This disciple's body instantly emitted a thick smoke, and in just a breath's time, he had turned into a puddle of blood and water.

"What?"

"What kind of formation is this?"

The disciples from the two great Demon Sects were greatly shocked. Although their Sects were not strong in the Eastern Province, they came from the Eastern Province and had considerable knowledge, yet they had never heard of any Sect or even Immortal Sect in the Eastern Province possessing such a Formation.

The beams of golden light emitted from those mirrors were terrifyingly powerful; not only was the speed of the golden light astonishing, but those hit by the golden light turned instantly into blood and water.

From the twenty-one Treasure Mirrors, beams of golden light continued firing, one by one turning the advanced Golden Core practitioners of the two great Demon Sects into blood and water.

Around, those who had not been hit by the golden light and were at the front started to feel fear rising in their hearts!

"This formation is too terrifying!"

"Retreat fast!"

"Retreat what?"

"Quick, attack those mirrors!"

In the crowd, some people loudly called to attack the Treasure Mirrors, but some had already begun to retreat, and for a moment, they were caught in chaos.

At this moment, four figures appeared behind them.

Li Ke, along with Duo Duo, Zhu Peng, and Bei Yan, had traveled to East Breeze, making their way from the border of the Eastern Wasteland only to find that everyone had already returned to the Eastern Wasteland to return to their respective Immortal Sects.

They had no choice but to hasten towards the Hundred Peaks Sect without stopping.

But, they found that they had still arrived too late.

Chapter 1274:

Li Ke gazed at the legion of Golden Core stage cultivators clothed in black, who had encircled Hundred Peaks Sect. On their travel-worn faces tinged with traces of weariness, a pair of pitch-black pupils suddenly glowed with a fiery red light, as if flames were shooting out from her eyes.

Behind her, within the massive Pill Fusion, ten Golden Cores burned fiercely, as if ten suns had emerged from behind her back.

The temperature around them soared suddenly, and the air became scorching hot.

Behind her, the phantom of a Saint Beast Vermilion Bird manifested.

In an instant, the atmosphere filled with a fierce, violent, and savage aura, surging ferociously towards the direction of the two Demon Sect groups.

In almost the blink of an eye, the crisp cry of the Vermilion Bird resounded.

The phantom of the Vermilion Bird instantly became substantial, and what was in the void was no longer a mere phantom, but a Flame Vermilion Bird ablaze with fire!

Endless flames shot out, darting rapidly towards the direction where the people of the two Demon Sects were.

Disciples from both Demon Sects almost simultaneously noticed the crowd that had appeared in the distance.

"Ten Different Phenomena of Golden Elixir Great Perfection?"

"Coming from afar, they must be the skilled practitioners from the Eastern Wasteland who were previously blocking our path."

"Flames? It so happens that I also excel in flames. I refuse to believe that the Ten Different Phenomena of Golden Elixir Great Perfection from the Eastern Wasteland are all so formidable!"

In the crowd, a man with a scar across his face suddenly took flight. Behind him, a massive Pill Fusion was also formed by ten Phenomenal Golden Cores, and at this moment, a pitch-black flame emerged from within these ten Phenomenal Golden Cores.

As he waved his hands, a flame snake fiercely burst forth from between them.

His flames were black in color.

The Divine Skills cast by Demonic Cultivators are mostly black due to being full of Demonic Qi.

Within the void, two clusters of flames rose at the same time, and in an instant, this space became scorching hot.

In just a blink of an eye, the two clusters of flames collided in the void.

But the next moment, the pitch-black flame snake encountered the true Saint Beast Vermilion Bird and was instantly devoured!

"What!"

The man's eyes widened in shock. Both were at the Great Perfection of the Ten Different Phenomena Golden Core, both skilled in using flames – why was there such a huge disparity!

Even if the other party was stronger than him, his flames should not have been devoured in an instant!

This woman, she must at least be at the pinnacle of the Ten Different Phenomena Golden Core Great Perfection, perhaps even nearing the limit of the Golden Core stage!

How could this be?

Since when did the Eastern Wasteland have such a terrifying being?

Indeed, there was previously a woman in the Eastern Wasteland who was good at using fire, but her flames were not like this, moreover, that woman was not so strong.

As the black flame snake was devoured, the Vermilion Bird's flames roared down towards the surrounding people.

Under the burning flames, the air in this space seemed to be sucked away instantly, and the disciples from the two Demon Sects felt a sense of suffocation in an instant.

Some among them, with weaker Cultivation Bases, even subconsciously opened their mouths, trying to breathe deeply.

But as soon as their mouths opened, they felt a scorching sensation, the air they breathed was so hot it seemed to burn their throats.

Around them, the air seemed to warp under the scorching heat of the flames.

As the flame fell on their bodies, it instantly ignited their clothes and skin, burning them fiercely.

For a time, screams mixed with the smell of charred flesh spread in all directions.

Indeed, Li Ke had not yet reached the limit of the Golden Core stage, but her release of the Vermilion Bird's flames would trouble even a master close to that limit.

Under the burning flames, disciples from the Four Direction Sect and Red Demon Sect were reduced to mere ashes.

"How could someone be this powerful?"

"But they only have four people."

"First, let's turn back and kill these four."

The crowd quickly reacted, with some wanting to separate a part of their forces to extinguish the people who had suddenly launched the surprise attack. At a distance, yet another series of figures flew toward them.

Yi Sheng, Liè Yàn, Liao Youdi, and others had also finally arrived.

Looking at the people in black who were besieging from afar, the three took the initiative to strike.

In an instant, behind each of them, the Pill Fusion completed by ten Phenomenal Golden Cores expanded a portion of space, with dense Mana circulating ceaselessly within each Phenomenal Golden Core.

"Ten Different Phenomena Golden Core Great Perfection!"

"Another three Ten Different Phenomena Golden Core Great Perfections!"

The next moment, in front of the three, clusters of flames burst out violently, each flame searing hot, each flame seemingly capable of burning everything to ashes.

Together with the flames previously released by Li Ke, four different clusters of flames fell at once, turning this world into a sea of fire.

Even the sparks that splattered on the ground instantly ignited the grass and even the earth below.

These four streams of fire, each one immensely terrifying.

The disciples from the two Demon Sects instantly made a judgment in their hearts – they must have encountered an Immortal Sect that specializes in flames.

"Stop the attack, focus on killing those outside first!"

The Sect Leader of the Four Direction Sect shouted, turning to attack in the direction they came from.

Suddenly another person from the opposing side charged towards them at high speed.

Without a second thought, he gathered boundless Demonic Qi in his hands, and instantly, a black halberd, formed from the convergence of Demonic Qi, appeared in each of his hands. He hurled the Demonic Halberds at the approaching person.

Chapter 1275:

Almost simultaneously, an alarming aura of pressure emerged from within the approaching figure.

"Wind Fire Tribulation?"

The Sect Leaders from all around felt the aura and were momentarily taken aback. How could someone at the Wind Fire Tribulation level come from the outside? Wind Fire Tribulation...

Quick, retreat!

Previously, when he was in East Breeze, he had heard that some Immortal Sects there were pushed to extremes, leading those in the Wind Fire Tribulation level to choose self-destruction.

So, does this person intend to self-destruct?

No, it's not self-destruction. That aura... it's the aura of the Wind Fire Heavenly Tribulation. The person has drawn the Wind Fire Heavenly Tribulation upon himself!

In the void, clusters of dark tribulation clouds began to converge, and the person charged towards them with full force. His speed was terrifyingly fast, even among those at the Wind Fire Tribulation level, his speed was definitely top-notch.

"Quick, move away!"

Everyone felt the changes between heaven and earth, and as the person at the Wind Fire Tribulation level suddenly rushed towards them, they all scattered quickly in different directions. They were all at

the Golden Core Stage, how could they not know that a Wind Fire Heavenly Tribulation would strike everyone within range of the person undergoing the tribulation.

Instantly, everyone started scattering around.

Although their reaction was extremely fast, the other party's speed was simply too quick. Among them, there were still individuals at the Golden Core First Layer and Golden Core Second Layer.

In the blink of an eye, the person had already charged into their midst.

"Not good!"

"This guy, he wants to perish together with us, a madman, he's simply a madman!"

Amidst the exclamations of the crowd, the Wind Fire Heavenly Tribulation had already descended.

In a flash, within the void, there came a series of piercing winds. The howling wind instantly formed a tornado, which, while spinning, swept several Disciples from the two Demon Sects into it.

Within the tornado, wind blades sharp as Divine Weapons sliced through their bodies, and that was not even the most terrifying part. At some point, flames had appeared within the tornado.

Wind Fire Heavenly Tribulation, with both wind and fire, it truly is the Wind Fire Heavenly Tribulation!

Some tried to attack the person at the Wind Fire Tribulation level, but as soon as their Divine Skills landed, they were swept away by the tornado, and they themselves suffered even more from the assaults of the Wind Fire Heavenly Tribulation.

"Do not attack him, the Divine Skills will be devoured by the Wind Fire Heavenly Tribulation, and if you attack him, you will be deemed as attacking the Wind Fire Heavenly Tribulation by it!"

"Everyone scatter, wait for the Wind Fire Heavenly Tribulation to end; he will die on his own, there's no need to bother with him."

People shouted, scattering away in different directions.

Meanwhile, inside the Hundred Peaks Sect, the crowd that saw the confrontation unfold shouted out loud.

"That is the Grand Elder's Flame, the Grand Elders have returned!"

"Yi Sheng and the others have also returned!"

"Attack them!"

Inside the Hundred Peaks Sect, everyone was greatly encouraged, and they launched crazy attacks from within the gate, and if not for Nie Jie keeping them in check, they might have already rushed out of the Hundred Peaks Sect's gate by now.

For a time, due to the arrival of Li Ke, Yi Sheng, and others, as well as Bei Yan rushing into the crowd and triggering the Wind Fire Heavenly Tribulation to strike everyone, the two sides of the Demon Sect were thrown into complete chaos.

In the chaos, the tribulation clouds in the void gradually dissipated.

The Wind Fire Heavenly Tribulation finally came to an end.

Only...

"What's going on?"

"That person, why is he still standing there?"

"Now it's the Reversal Mini Epoch Period. After overcoming the Wind Fire Tribulation, if successful, one will surely fall into a deep sleep. If failed, then they will die directly within the Wind Fire Heavenly Tribulation.

Why isn't this person asleep nor dead? What's the situation?"

"Even if it's not the Reversal Mini Epoch Period, this shouldn't have happened either!"

"Did he succeed or fail?"

The people from both Demon Sects were completely bewildered, but before they could recover, the person who caused the Wind Fire Heavenly Tribulation once again rushed into the crowd, and as he released his aura, tribulation clouds emerged once more in the void.

Following that, the Wind Fire Heavenly Tribulation descended!

"Wind Fire Heavenly Tribulation! What's the situation?"

"This person, hasn't he already undergone the tribulation? Is there anyone who can undergo the Wind Fire Heavenly Tribulation twice?"

"I've never heard of such a person!"

"No, I've heard of it, there seems to be such a person in the Eastern Province."

"Right, it's said that before the Five Sounds Sect's Sect Tribulation, in the ruins that appeared, there was such a person who could continually cross the Wind Fire Heavenly Tribulation!"

"That's correct, and moreover, that side has extremely strong power, possessing an individual at the Golden Core Period Limit along with a host of experts."

"Right now, has a second such person appeared?"

While everyone was still in shock, the Sect Leader of the Quadrant Sect suddenly looked up towards the gate they were attacking, at the three big characters carved on it—Hundred Peaks Sect!

Hundred Peaks Sect?

It seems, the person who could continually undergo the Wind Fire Heavenly Tribulation, is said to have come from the Hundred Peaks Sect.

The name Hundred Peaks Sect may reoccur. It is possible for there to be a Hundred Peaks Sect in the Eastern Province and another Hundred Peaks Sect in the Eastern Wasteland without any relation to each other.

Such a thing is not impossible to happen.

Previously, when they were in East Breeze, they saw that a Sect's name was the same as a Sect from the Eastern Province, and those two Sects genuinely had no relation; they just happened to have the same name.

However, given the current situation, it doesn't seem to be like that.

After all, there was only one person capable of undergoing the Wind Fire Tribulation multiple times, and as it turns out, this person has appeared in this Hundred Peaks Sect.

Chapter 1276:

They might, indeed, be an Immortal Sect!

If this Hundred Peaks Sect is exactly that Hundred Peaks Sect, then everything would make sense.

Why does nobody know where the Hundred Peaks Sect is located?

Because the Hundred Peaks Sect isn't an Immortal Sect of the Eastern Province but of the Eastern Wasteland. No wonder no one knew before.

But...

Upon realizing this, the various Sect Leaders felt even more incredulous.

Back then, the Eastern Province wasn't connected to the Eastern Wasteland, and the mist hadn't yet cleared. How did those people get to the Eastern Province?

Moreover, there was someone among them who had achieved the Golden Core Period Limit with a Nine Abnormal Phenomenon Golden Pills. Even in our Eastern Province, we do not have anyone who has reached the Golden Core Period Limit with a Nine Abnormal Phenomenon Golden Pills.

How could such a person come from such a barbaric land as the Eastern Wasteland? How is that possible?

However, how can the person who twice traversed the Wind Fire Heavenly Tribulation be explained?

As he was racking his brain, an exclamation came from a distance.

"That person, that person is terrifying!"

"That simpleton, too strong, stay away from him!"

"This simpleton, he is definitely a top Ten Different Phenomena of Golden Elixir Great Perfection!"

"These people, why do they look so familiar?"

"Hundred Peaks Sect, is it that Hundred Peaks Sect?"

"The man from Hundred Peaks Sect who arrived suddenly, it is said that there is also someone who can continuously undergo Heavenly Tribulation."

"It's said that there is also a simpleton in Hundred Peaks Sect who uses a staff, and his murderous intent strikes deep."

"Rumors have it that this simpleton also possesses the Kylin phenomenon!"

"The simpleton before us is also extremely strong, has the Kylin phenomenon, and there is the one who can continuously traverse the Wind Fire Heavenly Tribulation!"

"So, this is the Hundred Peaks Sect!"

"That Hundred Peaks Sect which is at the Golden Core Period Limit?"

"The Hundred Peaks Sect that is on good terms with the Dragon Chant Sect?"

"Retreat now!"

"Retreat!"

Previously, people thought that the enemy only had few Ten Different Phenomena of Golden Elixir Great Perfection and felt confident about defeating the other party.

Later, however, they discovered that the sect's Mountain Protection Array was terrifyingly powerful, but by then, they were already in too deep and didn't think about retreating.

But now, the sudden arrival of so many masters from the other side has caused them heavy losses.

Now, discovering that this Immortal Sect might be the Hundred Peaks Sect that suddenly became famous in the Eastern Province, disciples immediately thought of retreating.

"Retreat!"

The Sect Leaders of the four directions exchanged a glance with the Sect Leader of the Demon Sect and ordered a retreat towards a distant place.

Now, it was not possible to not retreat.

The sudden arrival of so many experts from the opposing side made them fear that they truly couldn't conquer the other side's mountain gate. Not to mention, they couldn't deal with the person who could continuously attract the Wind Fire Heavenly Tribulation.

Moreover, the other side could very well be the Hundred Peaks Sect they knew of.

"You want to retreat?"

Atop the Hundred Peaks Sect's mountain gate, Nie Jie, observing the retreating Demonic Sect members, finally stopped suppressing his people and loudly gave the command.

"Pursue them!"

The Hundred Peaks Sect isn't a place that they can come and leave as they please.

For a moment, disciples of the Hundred Peaks Sect flanked from both sides, chasing and slaughtering the people from the two great Demon Sects. While the Demon Sect members initially tried to resist, they eventually stopped and fled towards the distance with all their might.

After chasing for a distance, Hundred Peaks Sect's disciples, feeling they were getting too far from the sect's gate, stopped their pursuit and began to collect their spoils of war.

"Are these people really from the Eastern Province? They all carry Qiankun Bags, but what are these things inside the bags?"

"So poor, each one poorer than the last!"

The people of Hundred Peaks Sect complained as they collected the Qiankun Bags one by one.

Li Ke and her companions finally returned to Hundred Peaks Sect.

However, it didn't take long for Nie Jie to notice that something was amiss.

"Where is the Sect Leader? And Ling Xi, Yan Yourong, Xiang Ziyu, where are they?"

"Them? They didn't travel with us, but they should be returning to Hundred Peaks Sect soon."

Cao Zhen did not take the East Breeze route but the northern route of the Eastern Wasteland.

In the northernmost area of the Eastern Wasteland, the Desolate Cold Country.

Within the void, a team is speeding towards the distance.

This team actually hails from three different Immortal Sects.

Void Breaking Sect, East Sea Mirage, and Star Moon Mansion!

When these three Immortal Sects realized something was wrong, they immediately returned to their sects, took their disciples and their resources, even excavated their ancestors from their graves, and collectively fled from the Guardian Immortal Imperial Dynasty.

Thereafter, they found a place to hide and had been hidden until today.

Among them, aboard Star Moon Mansion's Flying Boat, Mansion Master Su Fangrong, looking into the distance, revealed a helpless expression.

Since their escape, life had become harder day by day. At first, they thought that by leaving the Guardian Immortal Imperial Dynasty, they could return to their sects after the Hundred Peaks Sect was destroyed.

But instead of being destroyed, the Hundred Peaks Sect actually united the entire Eastern Wasteland. All Immortal Sects in the Eastern Wasteland followed the lead of Hundred Peaks Sect. They dared not reveal themselves for a long time.

If others discovered them, in order to please Hundred Peaks Sect, they would surely report their whereabouts to the Hundred Peaks Sect. So, they had to stay hidden, and to survive, they dared not settle in areas rich in Spiritual Energy but found an incredibly secluded place instead.

They had waited with difficulty until today, the day the Eastern Wasteland connected with the Eastern Province.

These three great Immortal Sects hurriedly took their disciples and headed towards the distance. They were going to seek refuge with the main branch of the Void Breaking Sect, or rather, its leader.

Chapter 1277:

They only learned later that the Void Breaking Sect was actually just a branch of the Void Breaking Sect in this area.

The Void Breaking Sect comes from a Great Teaching.

Of course, with so many people practicing differently from the Void Breaking Sect, it was inevitable that they would not be accepted by it.

However, they could become subordinate sects to the Void Breaking Sect.

In the Eastern Province, many sects protect themselves under the wing of a Great Teaching to survive.

Of course, as the Great Teaching shelters them, they too must show their gratitude. It is much like those large dynasties in the Eastern Wasteland that must pay tribute each year; subordinate sects are not necessarily expected to do so annually, since that would be far too cumbersome, but they do have to offer tribute every ten years.

Besides, if the Great Teaching issues an order, they have no choice but to obey.

If possible, they naturally would not want to become a subsidiary sect to others.

But now, they have no other choice.

They can no longer return to their own sect and there is no place for them to survive in the Eastern Wasteland. They can only leave for the Eastern Province.

Whether it's the East Sea Mirage or their own Star Moon Mansion, they have all suffered heavy losses due to the previous battle with the Hundred Peaks Sect. In these years, they have been hiding, taking refuge in areas with scant spiritual energy, too fearful to openly recruit disciples. These past years have seen no development for their three sects, and without seeking shelter from a Great Teaching in the Eastern Province, they too cannot survive.

Moreover, even after the Minor Era of Inversion of Heaven and Earth comes to an end, their situation will not be much improved.

Previously, in their rush to escape, they had to exhume the living graves of their ancestors.

Though they had set up temporary living graves at that time, these were, after all, only temporary. Many ancestors perished during the relocation of the living graves, some suffered damaged foundations – practically none remained unaffected.

Thus, when the Minor Era of Inversion of Heaven and Earth ends, their strength will still be extremely weak, so they have no choice but to seek refuge with the Void Breaking Sect.

Moreover, this time a portion of them has gone first, while the rest have stayed behind, guarding the living graves they hold dear in their hearts.

After all, their ancestors have already been disturbed once; if they were to move the living graves again, they fear they may lose their remaining elders without any outside interference.

"Sect Leader, it's bad, there are people up ahead!"

"Many people in black robes, nearly over five hundred of them."

"These people do not seem to be part of any team from the Eastern Wasteland; they are a team from the Eastern Province!"

"They're strong, among those people, there are more than twenty with the Ten Different Phenomena of Golden Elixir Great Perfection, and even the weakest among them are at the fourth level of Golden Core. And they all have abundant Golden Elixirs!"

"They plan to stop us, what should we do!"

The combined might of the three Immortal Sects is severely injured, joining forces still wouldn't make them an opponent for the others.

Su Fangrong's face darkened instantly. Was she destined to become a sinner of Star Moon Mansion? Although they had been in hiding, they were not oblivious to world affairs.

They were also aware that many Demon Sects from the Eastern Province were now attacking the Eastern Wasteland. Otherwise, they would not have attempted to flee at this moment, yet they encountered so many from the Demon Sects on their way.

The opposing side must be from the Demon Sects of the Eastern Province, seeing them, how could they possibly let them go.

Ahead in the void, all five hundred figures wore the same attire, on the left chest of the robes was stitched a lotus flower. Their clothing was originally black, but the lotus was a deeper shade, such a dark black that even on dark robes, the lotus was immediately visible.

Black Lotus Sect!

This time, entering the Eastern Wasteland and other places, most of the Demon Sects are relatively weak in the Eastern Province, but the Black Lotus Sect is different. Although not the strongest sect in the Eastern Province, the Black Lotus Sect is certainly not weak.

At the very front of the Black Lotus Sect, a pale-faced man with a black lotus tattoo on his face sneered, "So, those fools, it is indeed the best choice to enter from here at this time. It seems no one is guarding this place. We..."

Suddenly he stopped mid-sentence as several Flying Boats appeared before his eyes.

"So many Flying Boats? Are those from the Eastern Wasteland? Are they planning to escape the Eastern Wasteland to enter the Eastern Province? I did not expect to encounter such good fortune just as we enter the Eastern Wasteland."

He sneered and said: "Stop them, the people can pass, but all resources must remain!"

"Yes, Brother Hei Yuan!"

"Brother, we assure you not a single Flying Boat will fly away."

As his voice fell, mana surged within the Golden Cores of the people around him.

Suddenly, a Flying Boat flew out from among the fleet, and a voice came from within.

"Ladies and gentlemen, we are disciples of the Void Breaking Sect, a branch of the Void Breaking Sect here!"

As the voice faded, a man flew out from the Flying Boat.

Hei Yuan's expression changed dramatically at the sound. Raising his hand, he stopped his people from acting rashly, his sinister gaze fixed on the man who had emerged.

People from the Void Breaking Sect?

There's a branch of the Void Breaking Sect in the Eastern Wasteland?

He looked at the emblem on the opposing Flying Boat, and it was indeed the emblem of the Void Breaking Sect.

Of course, he could not simply take the emblem as proof that the others were indeed from the Void Breaking Sect.

"You say you are from the Void Breaking Sect, but do you have any proof?"

Chapter 1278:

"Of course, there is!" The Sect Leader of the Void Breaking Sect abruptly showed a strange black color on his face, and then he waved his hands, sweeping towards the Void. In an instant, a pitch-black long knife appeared within the Void, swinging down as if to shatter the entire Void itself.

"The Divine Skills of the Void Breaking Sect, the Void Breaking Demon Blade."

Hei Yuan's expression darkened slightly, clearly, the other party was indeed a branch of the Void Breaking Sect.

They thought that upon their arrival in the Eastern Wasteland, they would encounter such good fortune and could even seize some resources without attacking the opponent's sect base. Unexpectedly, they encountered a branch of the Void Breaking Sect.

If the other party had few people, it would still be manageable.

It's just a branch of the Void Breaking Sect. Whether there are people from the Void Breaking Sect here or not, they could directly take action and eliminate the other party. Who would know it was them who killed them!

However, they don't know how many people are inside the opponent's Flying Boat. If the number of people is very large and they scatter to escape, even if one person flees to the Void Breaking Sect and reports the situation, their Black Lotus Sect would face extinction!

He cannot afford to gamble.

He glanced at the man opposite him and suddenly spoke, "Since you are a branch of the Void Breaking Sect, you naturally can leave, but clearly, you don't all come from one sect. The rest surely aren't branches of the Void Breaking Sect, right?"

You may go while they must stay."

Inside the Flying Boat of Star Moon Mansion, Su Fangrong sank in his heart upon hearing the man opposite speaking. The people from Void Breaking Sect could leave, but their own group had to stay behind...

Fortunately, at this moment, the Sect Leader of the Void Breaking Sect did not leave immediately but instead looked at the other party and said, "These two are also from our subordinate sects under Void Breaking Sect. We are here to enter the Eastern Province and join the Void Breaking Sect."

Hei Yuan's expression became even more somber. Subordinate sects?

If this branch of the Void Breaking Sect was so strong that they had subordinate sects, would they still consider leaving the Eastern Wasteland?

Moreover, looking at the number of their Flying Boats, it's clear that they have not reached the level where they can control subordinate sects.

The other side is lying, but...

He really couldn't react fiercely or directly start a fight.

Because the other side is a branch of the Void Breaking Sect!

The strength of a Great Teaching is far beyond that of sects, and moreover, a Great Teaching is not to be infringed upon.

If any sect daringly kills a disciple of a Great Teaching, that Great Teaching will certainly start a ferocious retaliation, possibly even annihilating the offender's sect.

If they still take action after realizing the other party is people of the Void Breaking Sect's branch, even if the other party is a subordinate sect of the branch, that would still mean disrespect to the Void Breaking Sect, who will definitely send people to destroy their Black Lotus Sect.

Therefore, he can only compromise, unless he is confident enough to obliterate all their enemies.

Hei Yuan sighed in his heart, being helpless but to nod and say, "If that's the case, then go ahead and leave.

In the Flying Boat of the Star Moon Mansion, Su Fangrong heard this and immediately showed a trace of joy on his face, then helplessly shook his head. Previously, Void Breaking Sect suggested that Star Moon Mansion would become a subordinate sect of Void Breaking Sect but now, in the words of the Sect Leader of Void Breaking Sect, it has directly become a subordinate sect already.

After reaching the Eastern Province, they do not know what kind of treatment Star Moon Mansion will receive.

But no matter what, other than following the people from Void Breaking Sect, they have no other options.

In any case, they first need to preserve the heritage of Star Moon Mansion.

But before leaving, could you please inform us about the situation in the Eastern Wasteland? For example, which is the strongest sect here? What is their strength like?"

Previously, the Demon Sect of the Eastern Province did not participate in the attack on the Eastern Wasteland, but they have heard that the Eastern Wasteland is extremely strong, with two individuals close to the Golden Core Period Limit.

Thus, even if attacking the Eastern Wasteland, he plans to avoid the strongest sect here.

The Sect Leader of the Void Breaking Sect does not know how strong their Void Breaking Sect in the Eastern Province is. Only after becoming the Sect Leader did he learn that their Void Breaking Sect is just a branch of the Void Breaking Sect in the Eastern Wasteland.

He also learned that the Great Teaching is an extremely strong existence in the Eastern Province.

But he is not certain that the other party will definitely retreat, yet after revealing their identity, not only did the other party not attack their Void Breaking Sect anymore, but they also did not attack Star Moon Mansion and East Sea Mirage Pavillion, two other large sects, clearly showcasing the immense power of the Great Teaching, which was beyond his expectations.

On hearing the other side's question, his mind suddenly stirred. Is the other party asking about the strongest sect because they intend to eliminate that strongest sect?

Or perhaps, they want to avoid the strongest sect in the Eastern Wasteland?

In an instant, ideas flashed in his mind, and he spoke: "The strongest sect should be Thousand Caves Door, and Thousand Caves Door is powerful because there is a reincarnated Great Ability among them. The current situation in the Eastern Wasteland is led by that reincarnated Great Ability.

But the Thousand Caves Door is very far from here.

If we talk about closer sects, the stronger one is the Hundred Peaks Sect. As for the strength of the Hundred Peaks Sect..."

He looked at the assembly of Ten Different Phenomena Golden Elixir Great Perfection experts from the opposition and said, "Hundred Peaks Sect currently has six Ten Different Phenomena Golden Elixir Great Perfections."

He naturally knew that the current Hundred Peaks Sect had more than six Ten Different Phenomena Golden Elixir Great Perfections, but he still said so because he needed to lead the other party to attack Hundred Peaks Sect.

The opposition has twenty Ten Different Phenomena Golden Elixir Great Perfections, saying the Hundred Peaks Sect has only six Ten Different Phenomena Golden Elixir Great Perfections should likely prompt an attack on Hundred Peaks Sect.

Yes, it would also be good to portray the Hundred Peaks Sect as even more affluent.

Chapter 1279:

After a slight pause, he said, "Now, the strongest dynasty in the Eastern Wasteland is the Guardian Immortal Imperial Dynasty, and the Sect Leader of the Hundred Peaks Sect is the State Preceptor of the Guardian Immortal Imperial Dynasty, hence the Hundred Peaks Sect have hoarded a vast amount of resources over the years.

While it may not be the strongest Sect, the Hundred Peaks Sect is certainly the richest!"

He couldn't believe that these people would not be moved by his words, that they would not want to plunder the Hundred Peaks Sect!

With so many Golden Core Stage masters, even if they cannot take down the Hundred Peaks Sect, they could certainly inflict heavy losses on them!

"Hundred Peaks Sect?"

Hei Yuan and many of the disciples behind him had strange expressions on their faces when they heard these three words.

"Hundred Peaks Sect? The Sect that caused all those incidents previously, wasn't it called Hundred Peaks Sect?"

"That's right, whether it's the person who was spotted with Immortal Bi Yue or the one who broke through the Cloud Reaching Sect's Sky-reaching Formation and later comprehended the Dao of the Cloud Reaching Sect, both of them seemed to come from a place called the Hundred Peaks Sect."

"However, it should just be a coincidence of names."

"Yeah, someone who achieves the Golden Core Period Limit with the Nine changes of Golden Elixir couldn't possibly come from such a remote and backward area."

"Indeed, and besides, the Eastern Wasteland wasn't connected to our Eastern Province, so it was impossible for them to have made the trip."

Hei Yuan nodded slightly and was just about to ask more about the situation in the Eastern Wasteland, particularly the Hundred Peaks Sect and the Guardian Immortal Imperial Dynasty, when suddenly, a succession of sounds of piercing the sky came from behind.

He turned his head at the sound.

The next instant, his eyes suddenly bulged.

Two huge Flying Boats arrived from behind. Such large Flying Boats, though not common, did exist; what was key, however, were the insignias on the Flying Boats.

"Five Sounds Sect? And the Dragon Chant Sect's Flying Boats?"

"How is that possible? The Five Sounds Sect has just undergone its Sect Tribulation; they couldn't have had the time to come to this out-of-the-way place!"

"Yes, and besides, the Dragon Chant Sect, that's even less likely. The Dragon Chant Sect is amongst the top in the Great Teachings, how could they possibly have come here."

"Could it be that this Eastern Wasteland has branches of the Five Sounds Sect and Dragon Chant Sect?"

"That's impossible, right? Moreover, these Flying Boats are coming from the direction of our Eastern Province."

For a moment, everyone was filled with confusion.

After leaving the Five Sounds Sect, Cao Zhen was steering a Flying Boat from the Five Sounds Sect.

Regarding the Sect Tribulation of the Five Sounds Sect, they have supported it greatly; he was certainly justified, based on his and Xiang Ziyu's performance, in asking for another Treasure from the Five Sounds Sect, but considering that the people from the Five Sounds Sect had already given him a Spirit Field, he let it be.

However, since they needed to hurry on their journey, the Five Sounds Sect still presented him with a Flying Boat.

As for the Dragon Chant Sect, they naturally also had Flying Boats.

They were steering the Flying Boats, just having flown into the direction of the Eastern Province, and not long into their flight, they saw a gathering of people, as well as a series of Flying Boats and the insignias on the Flying Boats behind these people!

In an instant, boundless murderous intent surged from within Cao Zhen.

On the side, Immortal Bi Yue instantly felt the murderous intent radiating from Cao Zhen, a shade of doubt flashing through her heart, as it was the first time she sensed such intense killing intent from him since she'd known him.

Was it because of those from the Demon Sect, or because of those flying boats?

While she was pondering, four terrifying waves of killing intent surged forth from beside her.

It wasn't just Cao Zhen; Yan Yourong, Ling Xi, and Xiang Ziyu were also all releasing boundless murderous auras!

It was normal for Yan Yourong to emit killing intent, but Ling Xi, so gentle and soft-spoken, was also unleashing such strong intent to kill, and Xiang Ziyu, she even felt that the intent emanating from Xiang Ziyu was stronger than that of Cao Zhen and the others!

Standing by Xiang Ziyu's side, Jiu Yin felt the killing intent spreading from him and asked in a low voice, "Zi Yu, what's wrong? Do you have enemies inside there? Who is it?"

"They all deserve to die!" The most regrettable thing in Xiang Ziyu's life was the time he thought that by leaving the Hundred Peaks Sect, he caused his master and senior sisters to look for him, thereby weakening the Sect's defenses, which led to an attack on the Hundred Peaks Sect. Many of their seniors sacrificed themselves for the sake of the Hundred Peaks Sect.

If he had not left the Hundred Peaks Sect back then, those seniors would not have died.

In addition to the nearly wiped out Red Refinery Demonic Sect and the Sun and Moon Demon Sect, those who attacked the Hundred Peaks Sect included three Immortal Sects from the Great Lai Dynasty: the Mirage of the East Sea, the Void Breaking Sect, and the Star Moon Mansion.

He had later sought out these three major sects but had failed to find them, and unexpectedly, after they returned from the Eastern Province, they ran into the flying boats of these three major sects.

So many flying boats—it was clear that these three major sects were about to leave the Eastern Province!

Kill the people of the Hundred Peaks Sect and still want to leave?

"All these people must die!"

As the boundless rage within Xiang Ziyu surged, he didn't even wait for Cao Zhen to stow the flying boat, nor did he take the flying boat's channel. Instead, he just charged straight out of the flying boat.

"Boom!"

The flying boat gifted by the Five Sounds Sect, a treasure from the Great Teaching, was smashed open by Xiang Ziyu's raw force, tearing a huge hole in it!

Hei Yuan was puzzled about what was going on with the two flying boats from the Five Sounds Sect and the Dragon Chant Sect's flying boat, when suddenly, a figure burst out from one of the Five Sounds Sect's flying vessels.

This was an unfamiliar figure, who only bore Nine Abnormal Phenomenon Golden Pills and had not completed Pill Fusion yet, but even so, he sensed a terrifying pressure emanating from the person that was so daunting, it gave him palpitations and filled him with the desire not to confront this individual.

And he was a top-tier Ten Different Phenomena of Golden Elixir Great Perfection.

If the person could possess such an aura, they must be nearing the Golden Core Period Limit, or even at the Golden Core Period Limit itself!

No, this presence, so fearfully intense, can only be reached at the Golden Core Period Limit!

From within the flying boat of Star Moon Mansion, Su Fangrong watched as two flying boats suddenly appeared, puzzled by why all those from the Eastern Province were looking at the two boats, then his eyes suddenly sharpened, focusing on the figure that flew out from one of the boats.

Xiang Ziyu!

Xiang Ziyu of the Hundred Peaks Sect, how could he run into Xiang Ziyu here?

Wasn't Xiang Ziyu already a Ten Different Phenomena of Golden Elixir Great Perfection much earlier, how could he only be releasing Nine Abnormal Phenomenon Golden Pills?

As he was wondering, from a distance, Xiang Ziyu had already made his move.

In Xiang Ziyu's palm, bunches of purple lightning flickered into existence, and the next moment, with a fierce wave of his hand, a thunderous boom erupted in the void, followed by a bolt of purple lightning striking down from the sky, heading straight for a flying boat!

Chapter 1280:

Whether it was the mirages of the East Sea or the Void Breaking Sect, or even the people of Star Moon Mansion, they had no idea how many times they had seen the Five-thunder Righteous Method in their battle against the Hundred Peaks Sect.

But they had never seen such a terrifying Five-thunder Righteous Method.

Just as the Sect Leader of the Void Breaking Sect was about to take action to block the divine thunder, the purple thunder in his vision had already plummeted down.

"Quick..." Su Fangrong had just managed to let out a syllable when the thunder heavily smashed onto the Flying Boat he was on.

In an instant, a thunderous boom rang out.

The whole world shook wildly at that moment.

The Flying Boat exploded immediately, and within the Flying Boat, Su Fangrong felt an incomparable force approaching. Even with the protection of the Flying Boat, and even though this was just a single thunderstrike and did not hit directly where he was, he was still affected by the force, causing the qi and blood within his body to roil tumultuously.

And at the center of the Flying Boat, those disciples directly struck by the thunder were instantly killed!

Even the residual waves of the thunderstrike that blew outwards caused many disciples who were affected to vomit blood, each of them severely injured.

All the disciples who could be on this Flying Boat of his were at the Golden Core Stage, yet they were killed so easily. Even he, being at the Ten Different Phenomena of Golden Elixir Great Perfection, was affected.

The Xiang Ziyu of the past, although strong, was not strong to this extent!

Hei Yuan, staring at the might of that single thunderstrike and the Flying Boat that shattered, was absolutely certain that the person before him must be at the Golden Core Period Limit.

Nine Abnormal Phenomenon Golden Pills, reaching the Golden Core Period Limit, to his knowledge, there were only two, one was Cao Zhen, and the other was the guy called Xiang Ziyu, but he didn't know which one this person was.

Moreover, why did they come here?

As he was puzzling over this, just after Xiang Ziyu had burst out, Jiu Yin also followed and flew out through the large hole exposed on the Flying Boat.

She too did not know why Xiang Ziyu was attacking these people, nor did she know what grudges lay between Xiang Ziyu and them. She didn't need to know, her only task was simple: when Xiang Ziyu attacked again, she would join Xiang Ziyu in the killing.

Just as Jiu Yin had flown out, Hei Yuan immediately widened his eyes in disbelief at the figure that appeared, and uncertainly said, "Jiu Yin from the Yin Yang Sect?"

His voice was not loud, as if he was questioning himself, and yet it seemed like he was asking those beside him.

Next to him, a man also at the Ten Different Phenomena of Golden Elixir Great Perfection said in a low voice, "It is indeed Jiu Yin, I have seen Jiu Yin twice before."

"Why would someone from the Yin Yang Sect come here?"

"Yes, people from the Yin Yang Sect would never be interested in a place like this. Moreover, Jiu Yin is at the Golden Core Period Limit, why would she come here for no reason?"

"Isn't it said in the rumors that Cao Zhen is together with Immortal Bi Yue? How did it turn into Jiu Yin?"

"Or is he not Cao Zhen?"

"Over there, Immortal Bi Yue has appeared."

The crowd quickly noticed that with the previous two appearances, from the other side's Flying Boat, a number of figures emerged, among them was the Immortal Bi Yue, who was nearly known to everyone in the Eastern Province.

"Immortal Bi Yue is following another Nine Abnormal Phenomemon Golden Pills."

"So, the other Nine Abnormal Phenomemon Golden Pills is Cao Zhen."

"Then the Nine Abnormal Phenomemon Golden Pills that appeared earlier must be Xiang Ziyu."

"It should be, and those other two women, they must be with them."

"But, why is Jiu Yin walking with them? And looking at Jiu Yin, why does she seem to be just like Immortal Bi Yue and Cao Zhen."

"What is the situation with them? Does their Sect possess some special soul-controlling technique? Why are our fairies from the Eastern Province one after another flocking to their side?"

"The people from the other Flying Boat have descended too, it's Yu Long and the rest, all of them are from the Dragon Chant Sect."

The people of Hei Yuan watched as figures flew down from the Flying Boat, and for a moment, were completely unable to understand.

"What are they doing in this backwater with so many experts?"

"Yes, among them are four individuals at the Golden Core Period Limit, where couldn't they go? Why would they run to the Eastern Wasteland for no reason?"

The crowd was filled with doubts, while at the same time, the opposite side, Su Fangrong as well as the Sect Leaders of Void Breaking Sect and the East Sea Mirage, looked at the figures descending from the Flying Boat, their expressions becoming extremely solemn.

Cao Zhen, Ling Xi, and Yan Yourong, along with the previously seen Xiang Ziyu, almost all the experts of the Hundred Peaks Sect were here.

What bad luck, to come across the people of Hundred Peaks Sect just as they were about to leave the Eastern Wasteland.

The people of the Hundred Peaks Sect, at this moment, with the Demonic Sect invading the Eastern Wasteland, why were they not guarding their Hundred Peaks, wandering outside for what?

They...

Suddenly, their expressions changed once again.

From another Flying Boat, a group of more than thirty people also flew down, and each of these thirty or so people were at the Ten Different Phenomena of Golden Elixir Great Perfection!

When did the Eastern Wasteland have so many Ten Different Phenomena of Golden Elixir Great Perfection existences?

They didn't recognize any of these people!

And moreover, these people were all dressed in uniform attire, clearly coming from one faction, but the insignia on their clothing was something they had never seen before.

If there were only Cao Zhen and the others here, although the power of Cao Zhen and his group was strong, they were not necessarily afraid of Cao Zhen and company.
