

My Master 1281

Chapter 1281:

But now, the opponent suddenly has so many Ten Different Phenomena of Golden Elixir Great Perfection experts, how can we fight?

Cao Zhen didn't even look at the group of people in black robes; his eyes, filled with murderous intent, fell directly on the three major sects of the Great Lai Dynasty, his voice cold, as if coming from millennia-old ice: "You three sects have been quite good at hiding, hiding for so many years. Now, it's time to settle the scores you have with our Hundred Peaks Sect."

Immortal Bi Yue and Jiu Yin, although not aware of the grievances between Cao Zhen's Hundred Peaks Sect and these three sects, knew from the murderous aura of Cao Zhen and his group that this was definitely a vendetta.

So, when the fight starts later, they'll just fight to the death as well.

Hei Yuan was momentarily stunned upon hearing Cao Zhen's voice; Cao Zhen comes from the Hundred Peaks Sect, which he had heard of, but what's the situation now? Cao Zhen said, their Hundred Peaks Sect has a feud with these three sects?

Aren't these three sects from the Eastern Wasteland?

Isn't the Hundred Peaks Sect from their Eastern Province? How could the Immortal Sects of Eastern Province have enmity with the Immortal Sects of Eastern Wasteland?

Hundred Peaks Sect?

Someone from the Void Breaking Sect had mentioned before that in the Eastern Wasteland there was an Immortal Sect called the Hundred Peaks Sect, saying that the sect leader of Hundred Peaks Sect is the State Preceptor of the largest dynasty in Eastern Wasteland, the Guardian Immortal Imperial Dynasty, and also said that although the strength of Hundred Peaks Sect is not strong, it has the most resources among the sects.

Thus, there is also a Hundred Peaks Sect in Eastern Wasteland.

Then, they seem to know each other, which means...

Cao Zhen and his group, they actually come from Eastern Wasteland?

Hei Yuan instantly thought that previously many people discussed Hundred Peaks Sect, but in the end, nobody heard about Hundred Peaks Sect, even the people from Wanxiao Sect didn't know of its existence.

If it's said that Hundred Peaks Sect is an Immortal Sect from Eastern Wasteland, then everything makes sense.

However, he still couldn't understand how a sect from such a poor and remote place like Eastern Wasteland could have produced two Nine Abnormal Phenomenon Golden Pills, reaching the limit of the Golden Core Period?

How could there be so many experts?

However, one thing is certain, both sides have enmity, and it's a deadly one.

"Let's back away."

Hei Yuan quickly signaled everyone to move to the side; he did not want to be caught in the middle when the two sides start fighting soon. Especially because the people on Cao Zhen's side are too formidable, four existences at the limit of the Golden Core Period!

As Hei Yuan and his group began to move, the Sect Leader of the Void Breaking Sect felt a stir in his heart, clearly, these people were afraid that they belonged to the Void Breaking Sect, Cao Zhen and his group might be strong, but if it included that group from the Eastern Province, it would not be easy to say who was stronger or weaker.

With a thought in his heart, he suddenly shouted to the people who had moved away: "Gentlemen, you already know, our Void Breaking Sect belongs to the Void Breaking Sect.

Now, we are facing danger, help us and together we'll slay them. Once we return to the Eastern Province afterwards, we will definitely report this to our Void Breaking Sect. At that time, our Void Breaking Sect will surely reward you."

Hei Yuan and the people behind him, upon hearing the opponent's shout, all stopped in their tracks, staring at the opponent like they were looking at fools.

These people from the Eastern Wasteland, have they gone mad, still wanting to command them?

The reason they themselves did not make a move to kill them, that's because they are not completely confident in leaving no one behind.

And then, they thought they could command them?

Simply a joke, they, the Black Lotus Demon Sect, are certainly not a subordinate sect of the Void Breaking Sect.

If they were to recklessly kill people from Void Breaking Sect, especially killing so many at once, the Void Breaking Sect would definitely seek retaliation against them, but if they do not stop people from the Void Breaking Sect, the Void Breaking Sect cannot retaliate against them, not to mention, this is also a branch of the Void Breaking Sect!

Moreover, they don't even see, who they are facing!

That's the people of Dragon Chant Sect and the Yin Yang Sect, the Dragon Chant Sect and the Yin Yang Sect, which are among the most top-ranking Great Teaching in the entire Eastern Province, are they mad to provoke these two Great Teaching.

Especially since there is Immortal Bi Yue among them!

"Simply laughable, who do you think you are!" Hei Yuan looked coldly at the people who just spoke, his gaze also filled with icy murderous intent, previously those people said that Hundred Peaks Sect is not strong enough and has many resources, clearly trying to tempt them to attack Hundred Peaks Sect.

If it's said that Cao Zhen and his group are really from the Hundred Peaks Sect of Eastern Wasteland, it means, these people are letting them attack a sect with two Golden Core Period Limit existences, isn't this sending them to their death!

This group, they themselves have conflicts with Hundred Peaks Sect, then trying to use themselves and others as cannon fodder to weaken the power of Hundred Peaks Sect!

Hei Yuan coldly glared at the people who had just spoken, his gaze quickly fell on Immortal Bi Yue, his face squeezing out a smile said: "Immortal Bi Yue, it was them who asked us to attack you, we have no relation with them, please do not misunderstand.

That is, we will not involve ourselves in your matter, we will leave now."

Hei Yuan said, ready to lead the people away.

But he had just moved a step, and the gentle voice of Immortal Bi Yue was already transmitted over.

"Then, where do you plan to go? Towards the Eastern Wasteland?"

Hei Yuan suddenly stopped, he indeed planned to continue towards the Eastern Wasteland, but if Immortal Bi Yue asked like this, to say he would continue towards the Eastern Wasteland would obviously be problematic.

He quickly waved his hands and said: "No, no, we plan to return to Eastern Province."

Chapter 1282:

Immortal Bi Yue nodded slightly and responded, "It would be best so. I advise you not to come to the Eastern Wasteland without good reason. Of course, it's not that you can't come to the Eastern Wasteland, but it would be better not to bring too many people or attack the Immortal Sects there; otherwise, if we kill you, don't blame me for not warning you."

Hei Yuan's face immediately showed a shade of fear; indeed, it was fortunate he reacted quickly and did not mention going to the Eastern Border.

The words of Immortal Bi Yue continued to echo in his ears.

"Of course, the words I am saying to you are not related to our Dragon Chant Sect, they represent only me."

Standing aside, Jiu Yin quickly followed, "Count me in as well, and of course, my words also don't relate to our Yin Yang Sect, they represent only myself."

By now, Hei Yuan was almost entirely certain that the Hundred Peaks Sect Cao Zhen and his group came from was indeed the Eastern Wasteland's Hundred Peaks Sect, otherwise why would Immortal Bi Yue say such things!

As for their claims of merely representing themselves, it was just something to be heard and ignored.

Jiu Yin is at the extreme limit of the Golden Core Stage; if she dies outside, would the people of the Yin Yang Sect not care? Would they not seek revenge?

Would these smaller sects really dare to attack Jiu Yin, let alone kill her?

Unless under the circumstance where Jiu Yin is alone.

And let's not even mention Immortal Bi Yue. To the disciples of the Dragon Chant Sect, Immortal Bi Yue is revered as an immortal. Not only killing or attacking her is considered sacrilege, but even speaking ill of her, if heard by someone from the Dragon Chant Sect, would lead them to fight tooth and nail!

Others may say they represent themselves not their powerful organizations, and might indeed be speaking for themselves, but for Immortal Bi Yue, regardless of the situation, she always represents the Dragon Chant Sect.

Provoking Immortal Bi Yue is tantamount to provoking the whole Dragon Chant Sect!

From what Immortal Bi Yue and Jiu Yin indicated, it's clear they intend to support the Hundred Peaks Sect, perhaps even the whole of Eastern Wasteland. Whoever attacks Eastern Wasteland could likely face their wrath.

Hei Yuan immediately felt a headache sprouting; with this development, how could he continue to plunder resources in the Eastern Wasteland!

Su Fangrong, along with the sect leaders of two other big sects, suddenly felt a shock upon hearing the conversation; although they didn't recognize those two women, even a fool could tell from that conversation that these women held very high statuses.

Otherwise, the counterpart would not have been so deferential to them.

Moreover, they just mentioned their affiliations with Dragon Chant Sect and the Yin Yang Sect.

Although they didn't know about Sun Moon Sect and Yin Yang Sect, they caught the significant word "sect."

Throughout the journey, the Sect Leader of the Void Breaking Sect was never tired of boasting how powerful the great teachings are; all organizations worthy of being labeled as a 'great teaching' are invariably amongst the top-tier powers!

Now, on Cao Zhen's side, those two women are evidently from such powerful organizations.

It's unknown how Cao Zhen and his disciples came to meet such high-profile individuals from these great teachings.

Eastern Wasteland has only been connected to the Eastern Province for so long? In such a short period, they have come to know people from great teachings, quite a capability indeed.

But in such a short time, they didn't believe that Cao Zhen and his disciples could develop such a close relationship with individuals from the great teachings.

The Sect Leader of the Void Breaking Sect, knowing that these two women are the sources of all, stopped looking at others and addressed the two women, "Immortal ladies, I am the Sect Leader from the Minor Era of Inversion of Heaven and Earth in the Void Breaking Sect, which belongs to the Void Breaking Sect. Surely, you are aware of the existence of the Void Breaking Sect.

You two are also from great teachings. There is no need to offend the Void Breaking Sect over them. If you step aside, after we return, we will certainly report to the Void Breaking Sect, and they will owe you a favor.

But, by doing this, would you not make it difficult for your own great teachings to confront the Void Breaking Sect upon returning?"

Upon hearing this, Immortal Bi Yue burst into sarcastic laughter, "You report to the Void Breaking Sect? You think you are worthy? The Void Breaking Sect, does it all depend on what a small branch division's Sect Leader says?"

Don't say you are just a branch division leader, even if your current Void Breaking Sect Hierarch comes, do you think he dares to speak to me this way? You dare to threaten me? Moreover, why should we fear offending your Void Breaking Sect? What exactly are you in the grand scheme of things!"

As Immortal Bi Yue spoke, her voice grew louder, and by the end, she was radiating an aura of absolute dominance, as if she was unrivaled under Heaven.

The Sect Leader of the Void Breaking Sect was stunned. What situation was this? Who was this woman? How dare she outright insult the Void Breaking Sect and even say that their Sect Hierarch wouldn't dare threaten her this way?

This...

On the side, people from the Black Lotus Sect who heard the words of the Void Breaking Sect's leader couldn't help but snicker.

"This is laughable; he dares to threaten Immortal Bi Yue!"

"He probably doesn't know the status of Immortal Bi Yue."

"Not only does he not know Immortal Bi Yue's status, but he also probably doesn't understand what kind of existence the Dragon Chant Sect is."

"We kindly remind you, in the Eastern Province, both the Dragon Chant Sect and the Yin Yang Sect are amongst the top-tier great teachings, standing at the pinnacle of all great teachings!"

"Although Immortal Bi Yue isn't the Hierarch of the Dragon Chant Sect, even their current Hierarch wouldn't dare provoke Immortal Bi Yue."

It was true, back in the day when the senior officials of the Dragon Chant Sect were not yet in slumber, several Elders had proposed that Immortal Bi Yue become the Hierarch of the Dragon Chant Sect during the Minor Era of Inversion of Heaven and Earth, and there were quite a few supporters for this proposal.

Chapter 1283:

It was Immortal Bi Yue herself who said that she was not interested in becoming the Sect Hierarch, which is why she never became the Hierarch of the Dragon Chant Sect.

The current Hierarch of the Dragon Chant Sect belongs to the same family as Immortal Bi Yue, but within their family, whether in terms of importance or favor, he cannot come close to comparing with Immortal Bi Yue.

Previously, people even joked behind closed doors that the one who truly has the final say in the Dragon Chant Sect is surely the Sect Hierarch, as the authority of the Hierarch is inviolable, even if it's just a temporary one during the Minor Era of Inversion of Heaven and Earth.

However, if the Hierarch of the Dragon Chant Sect ordered the killing of Immortal Bi Yue, it's feared that the disciples of the Dragon Chant Sect would catch him on the spot and throw their Hierarch into the dungeon right after breakfast.

Su Fangrong, as she listened to the words of the people from the Eastern Province on the ground, felt her heart sink continuously. She had originally hoped that the Void Breaking Sect could summon the support of the Void Breaking Sect and intimidate the other party into staying out of the matter.

But now, hearing what they said, it was obviously no longer a possibility.

Others made it clear that the Dragon Chant Sect and Yin Yang Sect are the top Great Teachings in the Eastern Province, but there was no mention of the Void Breaking Sect being a top Great Teaching. Obviously, the Void Breaking Sect is nowhere near as strong as those two Great Teachings, and in fact, significantly weaker.

Otherwise, they would not have openly mocked the Void Breaking Sect.

Moreover, the person they were dealing with had such a high status within their teaching.

Since the Void Breaking Sect could not intimidate them, then they had no choice but to fight.

But if it came to fighting... how could they possibly be the opponents of the other side? The other side had the presence of more than thirty individuals at the Ten Different Phenomena of Golden Elixir Great Perfection.

Therefore, the only option left was to flee!

"Flee! Everyone, scatter and escape!"

Su Fangrong suddenly shouted loudly, while he himself charged straight towards the enemy. He knew that as the Mansion Master of the Star Moon Mansion, the other party would definitely not let him go; he had no chance to escape, and he was certain to die today. Thus, he wanted to stall for time for the disciples of the Star Moon Mansion.

This was the only thing he could do for the Star Moon Mansion, but even so, it could not cover up the fact that he was the biggest sinner of the Star Moon Mansion. After all, the Star Moon Mansion was nearly decimated under his hands.

As soon as Su Fangrong's voice fell, the Sect Leaders from the Void Breaking Sect and the East Sea Mirage Tower also began to shout loudly: "Quick, escape in all directions, they are few in number, and it won't be possible for them to keep all of us."

They had no intention of fighting at all. Even though they had many people, a large number of them were disciples at the Core Formation Stage or even the Immortal Bridge Period. However, the other side was uniform with everyone at the Ten Different Phenomena of Golden Elixir Great Perfection. How could they even fight?

"Still trying to run?"

Bi Yue quickly turned around and shouted to Yu Long and others: "You, encircle them, forbid anyone from leaving!"

At a distance, the people from Hei Yuan and others, who had already stepped aside, suddenly twitched at the corners of their mouths, since Immortal Bi Yue had just stated that this time she represented only herself, and it had nothing to do with the Dragon Chant Sect.

But in the blink of an eye, she directly gave orders to the people of the Dragon Chant Sect.

As her words fell, Yu Long and the others quickly spread out around them.

Although there were only just over thirty of them, in the blink of an eye, they had surrounded all the people from the three major Sects of the Great Lai Dynasty.

"Such speed!"

"They seem not to be ordinary individuals at the Ten Different Phenomena of Golden Elixir Great Perfection!"

When the Sect Leaders of the East Sea Mirage Tower and the Void Breaking Sect saw the movements of these thirty plus individuals, their hearts sank. They had often interacted with people from the Hundred Peaks Sect and knew there were great disparities among those at the Ten Different Phenomena of Golden Elixir Great Perfection. Individuals like Yan Yourong from the Hundred Peaks Sect even had the power to instantly kill those at the said level.

And now, seeing those people moving and feeling the aura they exuded, they were astonished to discover that, amongst these thirty plus individuals, not a single one was an ordinary Ten Different Phenomena of Golden Elixir Great Perfection.

They even found out that every single one of them exuded an aura stronger than theirs! And not just stronger, but substantially so!

As Yu Long and others spread out, Cao Zhen and others also began to make their moves.

Yan Yourong watched as Su Fangrong flew toward her, and a sudden sonorous dragon chant filled with boundless anger echoed from the Grieving Anger Dragon Blade in her hand.

Xiang Ziyu had been continually blaming himself for not being at the Hundred Peaks Sect, and she was no different in her self-reproach, as among all the disciples within the Hundred Peaks Sect back then, she was the strongest! Once, Master had even specifically tasked her with defending the Hundred Peaks Sect. However, she had failed her Master, and as a result, several ancestors of the Hundred Peaks Sect, including Master's sworn brother, Chao Zi's Master, the Peak Master of Seven Star Peak, Deng Qixing, died right at the entrance of the Hundred Peaks Sect.

If only she could have been stronger at that time, if only she had the same strength as Master, Junior Brother Xiang Ziyu, and Senior Sister Ling Xi, if only she had reached the limit of the Golden Core Period, then those ancestors of the Hundred Peaks Sect wouldn't have had to die.

Now, seeing the people from the three major Sects of the Great Lai Dynasty again, a boundless fury surged within her continuously, and she, like a killer god from hell, radiated an endless murderous intent!

Behind her, within the vast Golden Core, the ten unique Golden Cores vibrated wildly as a flood of mana surged like a breached dam into her body, following the meridians, and flowing into the Grieving Anger Dragon Blade.

In an instant, an invisible force gathered along the Grieving Anger Dragon Blade, its brilliance coming together without shooting out, causing the air around to tremble violently.

Chapter 1284:

The next moment, she slashed out with her blade!

The longsword swept through, instantly shattering the surrounding air, as if the entire world were cleaved apart at this instant.

Where the longsword passed, a clear trace appeared in the void, much like the white space left intentionally in a painting.

The speed of the longsword was so swift that only after the blade light had passed and the scars in the void emerged did the crisp and echoing sound of the sonic boom finally travel through the air.

This slash might not be the most perfect one she had executed in her cultivation thus far.

Yet, this slash was indeed the one she had delivered in her lifetime that contained the most hatred, and the most regret!

In this slash, she even resonated with the Grieving Anger Dragon Blade, subtly merging as one with the sword!

The shimmering blade light raged magnificently, resembling the Milky Way cascading inverted from the void into a river of blades, or like flames that could consume all things, converging into a fiery blade, or as solid as a massive mountain, or even like a bursting dyke's torrential flood...

With this slash falling, the power of the Five Elements fully manifested.

This slash also gave the impression as though it desired to tear apart everything under heaven!

With one slash, the heavens and earth changed color, the sun and moon lost their light, and heaven and earth seemed to reverse!

Su Fangrong, taken aback by the oncoming slash, was shocked to his core; how could this slash be so terrifying?

He had seen Yan Yourong wield her sword before; while her blade was indeed fearsome, it should not be terrifying to this extent! How could he possibly defend against this slash?

Self-detonation!

In that instant, his only thought was self-detonation!

He had absolutely no chance of withstanding this slash, and since that was the case, he would prefer to self-detonate; even in death, he intended to take someone down with him!

However, as soon as this thought emerged and he just began to gather his energy, that terrifying slash had already descended.

In the mere blink of an eye, his Protective Divine Power was completely shattered, and the heavy slash came crushing down, cleaving his body apart, the residual sword energy from the slash, even reaching a Disciple of the East Sea mirage, instantly slaying that Disciple with just the aftermath!

Yu Long, amidst the crowd, watched Yan Yourong's slash with a slight change in expression. Back in the ruins, he had seen her take action. Although Yan Yourong was strong at the time, he believed that she was no match for him.

Back then, at best, Yan Yourong could barely reach a level close to the Golden Core Period Limit with her slash, but she had yet to reach the Golden Core Period Limit.

But now, in such a short period of time, Yan Yourong had reached the Golden Core Period Limit, and even with this slash, he wasn't sure he could handle it.

As Yan Yourong made her move, in front of Ling Xi, the Unparalleled Formation Plate and the Heaven and Earth Bagua Talisman emerged in their entirety.

The Array Plate unfolded in an instant, filling the entire sky and even the ground below, all occupied by the expanding Formation Map.

The Unparalleled Formation Plate in her hands was not just to deal with a single person; as long as she wished, everyone trapped within the Array Plate would be bound and suppressed.

Of course, the more people the Array Plate bound and suppressed, the less force would be applied to each individual, and correspondingly, the easier it would be for opponents to break the formation.

If it were against others of the same Cultivation Realm, she certainly wouldn't use the Unparalleled Formation Plate all at once to suppress so many people.

But these people here, she alone was enough to overpower them.

As the Array Plate unfolded, a brilliant light shot out from each position of the Unparalleled Formation Plate, and around her, the Heaven and Earth Bagua Talisman also emitted beams of light.

Two different streams of light converged toward the center, falling upon Ling Xi.

For a moment, the Unparalleled Formation Plate, the Heaven and Earth Bagua Talisman, and Ling Xi seemed to merge completely as one; the Formation Map, Talisman, and Ling Xi resonated together.

Ling Xi herself was bathed in dazzling light; at first glance, she appeared like a true Immortal descending from Heaven.

Within the Formation Map, Golden Core Period Disciples trapped by Ling Xi felt as if their entire world had changed.

Some felt as though they had plunged into the ocean, with invisible giant hands in the vast sea gripping them tightly; others sensed as if they had fallen into endless darkness, with black gargantuan hands binding them; some felt as if they were in a desert, making it difficult for them to move even an inch; and others...

They moved swiftly, trying to escape the area, but no matter how they stirred, they were firmly bound by a certain force.

In the void, Talismans flew in, some transforming into thunderbolts, some into flames, some with bone-chilling cold, and some as flexible and sharp Divine weapons; as these Talismans passed, one after another, Disciples from the three major Sects of the Great Lai Dynasty were laid to rest in pools of blood.

Yu Long, while casually slaying those Disciples trying to flee, looked towards Ling Xi in the distance, feeling an ever-growing sense of awe. Back in the ruins, Ling Xi was merely close to the Golden Core Period Limit, of course, Ling Xi belonged to those infinitely close to the Golden Core Period Limit, still slightly stronger than him.

But no matter how close, that still wasn't the Golden Core Period Limit. Now, Ling Xi had already reached the Golden Core Period Limit.

Being someone close to the Golden Core Period Limit himself, he understood all too well that while it looked easy to be close to the Golden Core Period Limit, the difficulty of actually taking that step and reaching the Golden Core Period Limit was unimaginable.

Chapter 1285:

In the entirety of the Eastern Province, countless individuals were unable to advance due to being trapped just shy of reaching the Golden Core Period Limit. Yet, this woman managed to attain that limit just by helping the Five Sounds Sect endure one Sect Tribulation!

The disciples of Cao Zhen are advancing at a rate that is both alarmingly fast and astonishing!

With her Formation Map, Ling Xi becomes a horrific killing machine when facing foes with a weaker cultivation base than hers!

Her Formation Map can suppress the opponent's strength, and her Talismans can release different attacks tailored to the opponent! She slaughters these people far too quickly!

On the battlefield, the Sect Leader of the Void Breaking Sect discovered that, within a mere instant of clashing, half of their Golden Core stage experts had already been lost!

The opposing side was too terrifying, not only Xiang Ziyu, Ling Xi, and Yan Yourong showed their strength – far greater than what they have encountered before and stronger than rumored – but also those two unfamiliar women were terrifyingly formidable.

They even felt that these two women's strength was almost as mighty as Cao Zhen and Xiang Ziyu!

The extraordinarily beautiful woman was not only terrifyingly strong but her speed was also astoundingly fast. She appeared in front of someone in the blink of an eye, killed them, and the next moment she was in front of another person, taking their life instantaneously.

Furthermore, though she continuously moved back and forth through the crowd, killing one Golden Core after another, she somehow gave off the impression of dancing amongst the crowd.

Behind Cao Zhen, a pair of slightly transparent silver wings appeared – no one knew what Divine Weapon that was, but it allowed Cao Zhen to move with terrifying speed, weaving through the crowd such that everyone from the three Immortal Sects fell in his wake!

These people were too horrifying!

So terrifying that they had no power to even retaliate, not even those who had reached the Ten Different Phenomena of Golden Elixir Great Perfection. Even some of their disciples couldn't manage to detonate themselves!

Suddenly, a flash of light appeared before his eyes. Unbeknownst to him, Cao Zhen had already appeared before him, along with a Sharp Sword slashing through.

Instantly, a hundred phantasms of Cao Zhen appeared before him.

This is bad!

He was horrified, just as he thought about self-detonating, the Sharp Sword had already slashed through.

The next moment, he ceased all thoughts as his head soared into the sky, subsequently caught by Cao Zhen.

Hei Yuan, from a distance, observing the battlefield completely dominated by unilateral slaughter, gasped in terror. These people were too terrifying; is this really just a Sect from the Eastern Wasteland? How could a Sect from the Eastern Wasteland be this powerful?

Everyone knew that Cao Zhen and Xiang Ziyu were beings at the limit of the Golden Core Period; their strength was not surprising, but that woman using Talismans, wasn't it said that she was only near the Golden Core Period Limit? How had she also reached the Golden Core Period Limit?

In one Sect, to have three individuals at the Golden Core Period Limit, is this still a Sect?

Even some of the top Great Teachings, some only possess two at the Golden Core Period Limit, and some even only one.

There are even some Great Teachings without a single Golden Core Period Limit presence.

Yet, the Hundred Peaks Sect actually possesses three individuals at the Golden Core Period Limit.

Moreover, those damn people from the Void Breaking Sect even tried to entice them to attack the Hundred Peaks Sect.

It's good they're dead!

However...

Hei Yuan glanced at the members of the three Sects, who were almost entirely wiped out by the people from Hundred Peaks Sect, then suddenly shouted to someone beside him: "Hurry, let's go!"

Immortal Bi Yue and their group are currently occupied with fighting those from Eastern Wasteland and haven't the time to deal with them.

But what about after these people are all dead?

Who knows if Immortal Bi Yue and their group will turn to target them next.

While they have more people, Immortal Bi Yue's group includes five individuals at the Golden Core Period Limit, Yu Long and that woman with a knife, who are also near the Golden Core Period Limit, they won't stand a chance if it really comes to a fight.

If not running now, then when?

At Hei Yuan's command, everyone hastily fled.

The Eastern Wasteland is no longer an option, and the East Breeze is mostly divided, so they must either head to Eastern Border or perhaps even farther?

Now seeing that the members of the three Great Sects from the Great Lai Dynasty were almost completely dead, Cao Zhen looked around at the disciples of the three Great Sects who hadn't fallen yet and suddenly loudly said: "Don't kill them all, capture some alive to interrogate where their stronghold is.

This isn't all their disciples, their sleeping masters tombs, they couldn't have taken them with them again, those tombs must still be guarded."

No sooner had Cao Zhen finished speaking than Immortal Bi Yue shouted to the people of Dragon Chant Sect: "Did you hear? Capture them alive!"

As she spoke, she struck down a person in front of her, knocking them unconscious. She clearly remembered what Cao Zhen had said, that after digging up Old Man Wu Shuang's tomb back then, they had obtained the Chaotic Pearl!

Now, with another chance to dig up tombs, how could she miss it!

The people of the Three Branches of the Society of Boatmen's silence, and the gathering of the opponent grabbing the Democrat PEAT unclosily and immediately chose to self-detonate.

But with the weakest present being at the Wilderness Level Ten Different Phenomena Golden Elixir Great Perfection and the Golden Core Period of the three Great Sects were almost entirely dead, they hardly had a chance to self-detonate.

One after another, disciples from the three Great Sects were knocked unconscious.

In just a short span of time, the disciples from the three Great Sects of the Great Lai Dynasty were either dead or unconscious.

"Our grudge with the Hundred Peaks Sect has finally been half avenged, now only those left guarding the tombs remain," Cao Zhen looked at everyone.

Immediately, Immortal Bi Yue asked, "So what should we do next? Should we just wipe out their remaining people, return to Hundred Peaks Sect, or split up?"

"First, let's find out where their stronghold is." Cao Zhen immediately seized one of the previously unconscious disciples, awakening him. Xiang Ziyu had cultivated a Divine Skill somewhat similar to soul

capturing. If the opponent's Cultivation Base was significantly weaker than Xiang Ziyu's, Xiang could coerce the truth out of them.

He, having also learned this Divine Skill thanks to Xiang Ziyu, now used it as well; being a Divine Skill from Hundred Peaks Sect, even if he used it, others wouldn't find it strange.

Chapter 1286:

Cao Zhen and Xiang Ziyu each used their Divine Skills to interrogate the disciples captured from the three major Immortal Sects of the Great Lai Dynasty, and finally understood why they had not been able to find the members of these three Immortal Sects.

After leaving the Great Lai Dynasty, these three Immortal Sects unexpectedly banded together and hid in a desolate place in the northeast direction of the Guardian Immortal Imperial Dynasty.

The place where they were hiding was not only remote but also devoid of substantial Spiritual Energy. No wonder they had never found their sect premises; where they were hiding simply couldn't serve as a sect base. These people were indeed doing everything possible to survive.

With the Spiritual Energy in that place, cultivating was hardly even worth the effort it required.

After Xiang Ziyu successively interrogated the three captured disciples, getting the same answers from all, he turned to Cao Zhen and asked, "Master, what should we do now? If we first go to their hiding place, we will need to take a detour and only then can we return to the Hundred Peaks Sect."

"Like this, I will first go to their hiding place to capture them all, and you return to the Hundred Peaks Sect," Cao Zhen pondered a moment before deciding to split up.

After all, the Demon Sects from Eastern Province have begun attacking the Eastern Wasteland, and their first priority should be to protect the Hundred Peaks Sect. However, there is no need for everyone to return; it is already sufficient for Xiang Ziyu and the others to go back.

Both Xiang Ziyu and Ling Xi are now at the limit of the Golden Core Stage, possessing combat abilities equal to his, and in fact, Xiang Ziyu is even stronger than him.

While both are at the limit of the Golden Core Stage, his physical body hasn't reached the Golden Core Period Limit, but Xiang Ziyu's body has.

Of course, if it were a matter of life and death, things would be different when he activates the Prosperous Age Picture Record.

Therefore, it is sufficient for Xiang Ziyu and the others to return.

On the side, Immortal Bi Yue, hearing that Cao Zhen will leave temporarily, quickly said, "I will go with you. It is too dangerous for you to go there alone. Have you forgotten, after you last disturbed Old Man Wu Shuang's tomb and he sought to eradicate you using a spell upon realizing his inevitable death?"

This time, you will certainly need to disturb the tombs of dormant masters within their Immortal Sect. What if someone fights you to the death again?

So, I will go with you for support."

Hearing this, Cao Zhen slightly nodded and replied, "That's fine, we both will go together."

As they were just turning around, Yu Long quickly followed right behind.

Immortal Bi Yue instantly stopped in her tracks, turned back, and glared at Yu Long, "Why are you following?"

Yu Long immediately bowed his head and replied, "Replying to Elder Sister, we are protecting you."

"I am at the limit of the Golden Core Stage, do I need you to protect me?" Immortal Bi Yue was infuriated. She finally had the chance to be alone with Cao Zhen, and now you want to follow and mess it up? Do you really need a lesson?"

"All of you... you all follow Ling Xi and go. Go protect the Hundred Peaks Sect. Follow them and listen, if I find out upon my return that you did not properly help in protecting the Hundred Peaks Sect, you don't need to return to the Dragon Chant Sect, just like that."

Having said that, Immortal Bi Yue turned to look at Cao Zhen, softly saying, "Let's go," her change of demeanor so swift, it made one suspect if it was the same person.

Soon, Cao Zhen left together with Immortal Bi Yue, while the rest continued to clear the battlefield. At the very least, they had to take away the corpses of the Sect Leaders from the three major sects, and since those sects were leaving the Eastern Wasteland, they carried their resources, which naturally, the Hundred Peaks Sect would take over.

In the northern part of the Eastern Wasteland.

In the Void, several Flying Boats came from two different directions.

Among one of the Flying Boats, everyone was dressed in water-blue long robes with a double wave pattern embroidered on the cuffs.

Among them, only one person wore a black robe; his clothing lacked the wave pattern on the cuffs, but there was a fierce tiger embroidered on the chest area.

He looked at the leader among the opposite crowd and said, "Master Fu Shui, up ahead is the Eastern Wasteland. I have investigated before, and the strongest Dynasty here is the Guardian Immortal Imperial Dynasty."

"Town Immortal? That's audacious, a dynasty daring to suppress immortals above them?"

Master Fu Shui sneered, looking unhappily at the person below and coldly said, "For a Dynasty to have such a name here, and yet other sects have not destroyed this Dynasty, it shows that the sects here in the Eastern Wasteland are not that strong. Do you think this place would have abundant resources?"

The only man in black clothes below quickly replied, "Master, the strength of cultivators here in the Eastern Wasteland is indeed very strong; they even have individuals close to the limit of the Golden Core Stage, and there are quite a few at the Ten Different Phenomena of Golden Elixir Great Perfection.

With so many at the Golden Core Stage and possessing so many at the Ten Different Phenomena of Golden Elixir Great Perfection, they must have very ample resources.

Moreover, I also found out previously that next to the Eastern Wasteland is East Breeze; initially, the Eastern Wasteland even stormed into East Breeze and plundered the resources of various Immortal Sects there. So, the resources of the Eastern Wasteland must be plentiful."

"Plentiful, but how much?" Master Fu Shui stared hard at the man below, coldly stated, "Xiao Hu, I took our high-level experts of the Overturning Water Sect to the Eastern Wasteland based on your word.

We are a Great Teaching, different from your sects.

Chapter 1287:

A great sect like ours comes to this place to plunder resources, we would be a laughing stock among other great sects. Moreover, our disciples are all busy with their own affairs. Now, we have pulled together a large number of experts to come to the Eastern Wasteland. If the resources of the Eastern Wasteland are limited and cannot satisfy me, satisfy us of the Overturning Water Sect, then you will bear the consequences."

"Yes..."

Xiao Hu sighed helplessly in his heart, knowing full well it was they who told the Overturning Water Sect that the Immortal Sects in the Eastern Wasteland had abundant resources, luring them to snatch the resources, promising great rewards.

But what's the result?

The Overturning Water Sect showed no gratitude for their tip-off, insisting that if the resources of the Eastern Wasteland couldn't satisfy them, Xiao Hu Sect must deal with the aftermath!

But that's the harsh reality. How could they, the Xiao Hu Sect, compare to the strength of the Overturning Water Sect? Furthermore, they were not powerful enough to plunder the resources of the Eastern Wasteland themselves. They could only invite the Overturning Water Sect over and follow behind them.

When the time comes, the Overturning Water Sect would feast on meat, while they would have to settle for soup.

And he did believe that the Immortal Sects of the Eastern Wasteland must all possess vast resources.

Bowing his head, he said to the Master of the Overturning Water Sect: "Sect Master, I have also inquired. Within the Guardian Immortal Imperial Dynasty, there are the so-called ten great Immortal Sects, among which the most powerful should be the Hundred Peaks Sect. We can directly go to the Guardian Immortal Imperial Dynasty to plunder..."

He was offering his suggestion when suddenly, several voices transmitted over.

"Sect Master, a Flying Boat is approaching, also heading towards the Eastern Wasteland."

"Sect Master, it's the Flying Boat of the Heart Captivating Devil Sect."

The Master of the Overturning Water Sect's face immediately showed a look of surprise: "Heart Captivating Devil Sect? How did they come here as well?"

Soon, the Master of the Overturning Water Sect also learned why the Heart Captivating Devil Sect came here. They were also here to plunder the resources of the Eastern Wasteland. Like them, the Heart Captivating Devil Sect was also led here by other Demon Sects.

Since the Heart Captivating Devil Sect managed to arrive, it seems that the resources in the Eastern Wasteland are indeed not trivial.

However, the resources of the Eastern Wasteland, for one great sect to plunder would be enough, but for two great sects to divide...

The Masters of both the Overturning Water Sect and the Heart Captivating Devil Sect did not enter the Flying Boat. Instead, they continued flying alongside each other while discussing.

"Sect Master of the Heart Captivating Sect, there is no need for our two great sects to fight over resources here. How about we divide it, each great sect takes half, and split the Eastern Wasteland between us?"

The Sect Master of the Heart Captivating Sect nodded slightly and said: "I had the same idea, by the way, I heard that there is a Guardian Immortal Imperial Dynasty here. How about this, the Guardian Immortal Imperial Dynasty will be taken by our Heart Captivating Devil Sect, and the rest will be left to your Overturning Water Sect, how is that?"

The face of the Master of the Overturning Water Sect immediately stiffened. He initially proposed the idea because he wanted to snatch the Guardian Immortal Imperial Dynasty for himself, yet the target of the Heart Captivating Devil Sect turned out to be the Guardian Immortal Imperial Dynasty as well.

It seems that the news of the Guardian Immortal Imperial Dynasty being the wealthiest dynasty in the Eastern Wasteland has already spread throughout the Eastern Province.

This complicates matters.

He naturally did not want to give up the richest dynasty in the Eastern Wasteland, and the Heart Captivating Devil Sect was also here for the Guardian Immortal Imperial Dynasty. The two great sects couldn't possibly start a war over this, could they?

But if neither side wants to give up, are they going to share this dynasty together? How much resources could they each get then?

While they were still talking, several silhouettes appeared in their line of sight ahead.

Xiang Ziyu and the others had just finished cleaning up the battlefield and were ready to leave when suddenly, a series of piercing sounds approached.

They turned their heads to look, and in their field of vision, there appeared a series of Flying Boats, which looked enormous. People in the Eastern Wasteland had never seen such large Flying Boats. They were almost as big as the Flying Boats boarded by Cao Zhen and Yu Long from the Dragon Chant Sect.

Yu Long turned his head to look at the Flying Boats approaching from afar, his eyebrows slightly knitted, and he said in a low voice, "Those are the Flying Boats of the Overturning Water Sect and the Heart Captivating Devil Sect."

"Great Sect?"

Xiang Ziyu's face immediately showed a look of surprise. Was it not said that, in the eyes of the Eastern Province, places like the Eastern Wasteland were remote and insignificant territories, and that powerful sects in the Eastern Province disdained to come to such places for resource plundering, not to mention great sects?

Yet now, two great sects have flown here.

And they didn't know exactly what kind of great sects the Overturning Water Sect and the Heart Captivating Devil Sect were.

Jiu Yin seemed to know what Xiang Ziyu was contemplating, and explained in a low voice, "The Overturning Water Sect is somewhat unique; they belong neither to the Demonic Sects nor to our illustrious great sects."

"Both sides regard them as an outcast. Therefore, although the Overturning Water Sect has existed for a not inconsiderably short period, longer than the Five Sounds Sect, their development is rather unsatisfactory. They barely held on during their previous Sect Tribulation, and many believe that they are bound to fail their next Heavenly Tribulation."

"As for the Heart Captivating Devil Sect, they have only recently become recognized as a great sect, and they have existed for even less time than the Five Sounds Sect. They are among the weakest of the great sects in the Eastern Province."

She knew that Xiang Ziyu and his peers were from the Eastern Wasteland, so they surely would not be well-informed about the great sects of the Eastern Province.

Following the Flying Boats of these two great sects were several other much smaller Flying Boats, and their insignia were also different, clearly belonging to other powers.

At the same time, they also noticed two figures flying outside of the Flying Boats.

Jiu Yin, recognizing the figures, was slightly taken aback, "Hmm? That appears to be the Sect Master of the Overturning Water Sect, but the other fellow, I do not recognize."

In the Dragon Chant Sect, however, someone spoke in a low voice, "The other one is the Sect Master of the Heart Captivating Devil Sect."

"The Sect Masters of two great sects coming here with their men? What are they planning to do?"

Chapter 1288:

The Master of the Overturning Water Sect and the Hierarch of the Heart Captivating Sect both froze as they caught sight of the people ahead and their appearance.

"Is that? Yu Long from the Dragon Chant Sect? What's going on here? Do they have so many people from their sect? Could it be that the Dragon Chant Sect wants to snatch the resources of the Eastern Wasteland?" The Master of the Overturning Water Sect's eyes were filled with shock. The Dragon Chant Sect was one of the top-tier Great Teachings of the Eastern Province, so they shouldn't be interested in competing for resources in a place like the Eastern Wasteland.

If the other party really intended to snatch resources, that would be a major problem.

How could their Overturning Water Sect compete with the Dragon Chant Sect!

Beside him, the Hierarch of the Heart Captivating Sect whispered as he looked at the voluptuous woman in the crowd: "Not just the Dragon Chant Sect, that's Jiu Yin from the Yin Yang Sect!"

"Yin Yang Sect? Jiu Yin?" The Master of the Overturning Water Sect's face showed even greater surprise. Although he didn't recognize Jiu Yin, he had heard of the name and knew that she was a figure at the Golden Core Period Limit.

Now, members of two top-tier Great Teachings had gathered here. What were they up to?

As the Master of the Overturning Water Sect wondered, Jiu Yin's voice suddenly came from below.

"Hey, what are you doing in the Eastern Wasteland?"

Although the other party was a Sect Master of a Great Teaching, Jiu Yin was not the least bit polite. They were merely interim masters of the two weakest Great Teachings, and she didn't need to show any respect.

For she was the genius of the Yin Yang Sect!

The Master of the Overturning Water Sect, listening to Jiu Yin's uncompromising tone, revealed a trace of discontent in his eyes, but he also knew that his dissatisfaction was futile.

His Overturning Water Sect was too far behind the Yin Yang Sect.

He even knew something else: before the Minor Era of Inversion of Heaven and Earth, a Vice Sect Hierarch of their Overturning Water Sect had killed a Genius Disciple of the Yin Yang Sect.

At the time, their Vice Sect Hierarch thought he had left no trace and wouldn't be detected.

However, the Yin Yang Sect learned about it.

On that day, a Vice Sect Hierarch of the Yin Yang Sect, accompanied by two Elders, forcefully entered the Overturning Water Sect, demanding the surrender of their Vice Sect Hierarch.

That was their Vice Sect Hierarch, after all; the Overturning Water Sect naturally refused to hand him over.

As a result, the three from the Yin Yang Sect took action by force and killed their Vice Sect Hierarch within the bounds of the Overturning Water Sect. Even though the Overturning Water Sect had not activated the Great Formation at the time, and all their powerful members, including their Sect Master, were present, they still couldn't stop their adversaries.

Afterwards, despite someone being killed in their sect, the Overturning Water Sect still had to apologize and compensate the Yin Yang Sect with a considerable amount of resources to settle the matter.

All these events were recounted by his master, who later even mentioned that if their Vice Sect Hierarch had killed the most talented disciple of the Yin Yang Sect at that time, the matter would not have been resolved so easily.

To have their Vice Sect Hierarch of the Yin Yang Sect killed and settle it easily, what would be considered not easy then?

Although both the Overturning Water Sect and the Yin Yang Sect were Great Teachings, the disparity between them was simply too great.

Bowing to Jiu Yin, the Master of the Overturning Water Sect said, "We heard that there are abundant resources in the Eastern Wasteland, so we decided to come and have a look." After all, they were a Great Teaching, and it would be shameful to admit they came to snatch resources outright, so he phrased it differently.

"Have a look? Are you here just to take a look at the Eastern Wasteland or to snatch its resources?" Jiu Yin's face instantly turned ice-cold.

The pupils of the Overturning Water Sect Master abruptly narrowed. The expression on Jiu Yin's face was clearly off. What was happening? His Overturning Water Sect hadn't provoked the Yin Yang Sect recently, why was Jiu Yin reacting like this?

Because of the Eastern Wasteland?

Even if Jiu Yin came to plunder the resources of the Eastern Wasteland, it shouldn't be necessary to be so displeased just because of them.

Yan Yourong, looking at the people opposite her, revealed a deep hostility and said coldly, "If you wish to look, go elsewhere. The Eastern Wasteland does not welcome you!"

"How dare you, insignificant fool, speak to our Sect Master like that!"

Several disciples of the Overturning Water Sect, seeing that their Master had stopped, also flew out from the Flying Boat. They had just emerged when they heard the arrogant remarks of the person before them.

"Courting death!"

One of the disciples from the Overturning Water Sect released his fighting prowess. In an instant, a gigantic Pill Fusion formed behind him of ten different Golden Core phantoms appeared.

Then, a blue glow emerged around him, as if a long river was flowing around him. As his hands waved, the blue glow surged violently, like the rolling waves of a vast ocean, sweeping towards Yan Yourong.

The air around them instantly turned moist.

Yan Yourong watched the Divine Skills descending, her eyes surging with a cold killing intent, as she suddenly drew her long blade.

Before the blade was even swung, the entire Void seemed to be split in two by a sharp blade. A tide of grieving and anger filled the Void, spreading outwards.

In the next moment, ten Golden Core phantoms appeared behind her, and the Grieving Anger Dragon Blade suddenly slashed down.

With the blade's descent, the heavens and earth lost their color in an instant!

The face of the disciple from the Overturning Water Sect who had acted first revealed a flash of terror, and his back was drenched in cold sweat in a heartbeat.

Chapter 1289:

This aura, such a terrifying aura, this is at least amongst the top... No, this is an existence close to the Golden Core Period Limit!

What's going on?

Didn't this person say they were from the Eastern Wasteland? This person is obviously from the Eastern Wasteland.

According to legends, the two strongest people in the Eastern Wasteland are indeed existences close to the Golden Core Period Limit, but those two are male cultivators, none are female cultivators!

What's the situation with this female cultivator?

On the side, the Master of Overturning Water Sect's complexion suddenly changed greatly, this person is just like him, also an existence close to the Golden Core Period Limit, he sensed the other's aura, wanting to take action, but it was already too late.

An incredibly terrifying slash passed by, directly cutting the disciple in front of him into two halves, and bright red blood soared into the sky.

No one expected that a casual strike from a person of the Eastern Wasteland would be this terrifying, an existence at the Golden Core Period Limit. Even among some Great Teachings, the most powerful individuals are only at the Golden Core Period Limit.

Within the Flying Boat, several disciples from the Overturning Water Sect seeing their companions getting killed one by one by the opponent, rushed out of the Flying Boat, ready to rush out and eradicate the adversary.

So what if the opponent is close to the Golden Core Period Limit? The opponent is only a few people after all, while they have countless experts on their side.

Just as everyone was about to take action, a round of applause rang out.

Jiu Yin, while clapping, praised: "Sister You Rong's Sword Technique is indeed extraordinary. A mere, ordinary Ten Different Phenomena of Golden Elixir Great Perfection, daring to take action against Sister You Rong, is simply seeking death!"

Yan Yourong is Xiang Ziyu's senior sister, and she definitely also follows the senior sister's call.

As the words fell, everyone instantly halted.

They aren't blind, naturally recognizing that the attire on the other party is that of the Yin Yang Sect.

Moreover, many of them recognized Jiu Yin, knowing that this person is also an existence at the Golden Core Period Limit.

Now, Jiu Yin actually calls that woman senior sister?

So, is that woman also a person of the Yin Yang Sect?

But then, why does she claim to be from the Eastern Wasteland while being a person of the Yin Yang Sect?

He couldn't figure out the identity of the other party for a moment and didn't dare to take action, only looking towards Jiu Yin with an unhappy expression: "Jiu Yin, arbitrarily killing our people from the Overturning Water Sect, should you provide an explanation for this matter?"

Although the opponent is an existence at the Golden Core Period Limit, and even though the Yin Yang Sect is extremely powerful,

but he is now the temporary Sect Hierarchy of the Overturning Water Sect; outside, he represents the face of the Overturning Water Sect, he can't be too weak.

Jiu Yin just scoffed: "Give you an explanation? Does your Overturning Water Sect even deserve an explanation from our Yin Yang Sect?"

"You..." The Master of the Overturning Water Sect was so choked up that he couldn't speak.

At that moment, Yan Yourong's voice rang out.

"I am not a disciple of the Yin Yang Sect. This matter has nothing to do with the Yin Yang Sect," Yan Yourong pointed to herself and spoke firmly, "I am a disciple of the Hundred Peaks Sect from the Eastern Wasteland, Guardian Immortal Imperial Dynasty."

"A person from the Eastern Wasteland?"

"A disciple of the Hundred Peaks Sect from the Eastern Wasteland?"

"But just now, Jiu Yin called you senior sister."

The people around, hearing this, suddenly showed a puzzled look on their faces, this person is from the Hundred Peaks Sect of the Eastern Wasteland, so why does Jiu Yin call her senior sister?

Could it be that this Hundred Peaks Sect of the Eastern Wasteland has connections with the Yin Yang Sect?

If that's the case, they absolutely dare not oppose the Hundred Peaks Sect.

Jiu Yin looked at the crowd with disdain and coldly said: "How I address Sister You Rong, what does it have to do with you?"

As these words fell, the people from the Overturning Water Sect could only feel indignant but dared not speak a word, they really didn't dare to provoke Jiu Yin lightly, for she is a person from the Yin Yang Sect.

Moreover, although they have many people, Jiu Yin is an existence at the Golden Core Period Limit, they were not confident enough to capture Jiu Yin, therefore, they really dared not act rashly against Jiu Yin.

Ignoring the issue with Jiu Yin, the Master of the Overturning Water Sect instead followed Yan Yourong's words and said: "Since she isn't a person from your Yin Yang Sect, then Jiu Yin, please step aside.

She has killed our disciple from the Overturning Water Sect, this vengeance, we must avenge."

Jiu Yin didn't yield at all, she continued to stand in place, even releasing her own Golden Elixir Phenomena, her terrifying combat strength rippling around, appearing as if she might take action against the Sect Master of Overturning Water at any moment.

"This matter indeed has nothing to do with our Yin Yang Sect, but the affairs of the Hundred Peaks Sect are my affair, Jiu Yin!"

For a moment, the Master of Overturning Water Sect frowned even more severely, Jiu Yin says it has nothing to do with the Yin Yang Sect, but how could it possibly have nothing to do!

If they dare to kill Jiu Yin, the Yin Yang Sect would immediately launch an attack on them.

Jiu Yin being an existence at the Golden Core Period Limit, during the Yin Yang Inversion Era, is too important for a Great Teaching.

Unless they could severely injure Jiu Yin, or even knock her unconscious.

But Jiu Yin is an existence at the Golden Core Period Limit, how could they possibly knock her unconscious directly?

Yet their people from the Overturning Water Sect were also killed by the opponent; as the Sect Hierarchy, he couldn't just ignore this.

Before he could figure out how to handle the situation, Yu Long, who had been standing by the side motionless, suddenly stepped forward, standing in front of Yan Yourong, and behind Yu Long, the Golden Elixir Phenomena also fully emerged, displaying all his battle prowess!

Following Yu Long's action, another thirty disciples from the Dragon Chant Sect also stepped forward, shielding Yan Yourong and others behind them, as their Golden Cores also fully emerged behind them.

Chapter 1290:

Over thirty disciples at the Ten Different Phenomena of Perfect Completion Golden Core simultaneously unleashed their combat power. In an instant, the space all around began to tremble wildly.

The Master Fu Shui, filled with confusion, looked towards Yu Long and asked, "Protector Yu Long, what is your intention?" He knew that Yu Long, during the Reversal Mini Epoch Period, was a protector of the Dragon Chant Sect.

He really couldn't understand why Jiu Yin would protect that person, and now, the previously silent Dragon Chant Sect suddenly wanted to protect that woman, or rather, protect the Hundred Peaks Sect—what exactly is the background of this Hundred Peaks Sect?

Individuals from two peak-level Great Teachings are protecting them.

"What do I mean?" Yu Long said solemnly, "If you intend to make a move against the Hundred Peaks Sect, then naturally, you are enemies of the Dragon Chant Sect. Our sister Bi Yue has just left this place, and she mentioned that we could guarantee the safety of the Hundred Peaks Sect. Should any problem arise with the Hundred Peaks Sect, we would no longer need to return to the Dragon Chant Sect."

"Immortal Bi Yue?"

The Overturning Water Sect leader became even more puzzled. How did Immortal Bi Yue come into the picture? Like Jiu Yin, Immortal Bi Yue was at the limit of the Golden Core Stage, but she was more troublesome than Jiu Yin.

Jiu Yin was merely a genius disciple within the Yin Yang Sect, and even though Jiu Yin's master was an incredibly fearsome being, she couldn't compare to Immortal Bi Yue.

Just like Jiu Yin now, she claimed to represent only herself; she wouldn't casually say that she represents the Yin Yang Sect.

But Immortal Bi Yue was different. She didn't need to say anything at all—whatever she did, in others' eyes, she always represented the Dragon Chant Sect.

After all, her identity was too special.

The true upper echelon of the Dragon Chant Sect, not the ones from the Reversal Mini Epoch Period, but the actual higher-ups of the Dragon Chant Sect, many are related to Immortal Bi Yue.

To use a mortal term, Immortal Bi Yue is like the princess of the Dragon Chant Sect!

Therefore, if the matter involves the Dragon Chant Sect, the trouble becomes serious.

He would not doubt whether Yu Long was lying; likely, no one in the Dragon Chant Sect would dare to casually spread words on behalf of Immortal Bi Yue.

The only thing he didn't understand was why Immortal Bi Yue wanted to help the Hundred Peaks Sect.

Hundred Peaks Sect...

A thought suddenly struck him.

It had been widely rumored that Immortal Bi Yue was unusually close to someone named Cao Zhen, and even initially, within the ruins bestowed by the Heavenly Dao during the tribulation of the Five Sounds Sect, Immortal Bi Yue was injured while trying to save a disciple of Cao Zhen.

That Cao Zhen, it seems, was said to come from a place called the Hundred Peaks Sect.

Also, a person named Xiang Ziyu, who ascended the rainbow staircase of the Cloud Reaching Sect to comprehend its Great Dao, seemed to also hail from a place called the Hundred Peaks Sect.

So, what is the relationship between their Hundred Peaks Sect and the Hundred Peaks Sect of the Eastern Wasteland?

Is that why Immortal Bi Yue would aid the Hundred Peaks Sect?

Suddenly, another thought came to him. It was said that Cao Zhen and several of his disciples were incredibly strong existences, one of whom wielded a saber and was amongst the top with the Perfect Completion Golden Core.

Was that disciple the very person who had just utilized a saber?

However, this saber wielder was approaching the ultimate limit of the Golden Core Stage.

For a moment, he found himself in a difficult position.

Although the opposing side had many experts, his group had even more members. If a fight truly broke out, even if there were entities at the Golden Core Stage limit on the opposing side, victory would surely be theirs.

Yet, he did not dare to make a move; moving a single hand would be to offend two top-level Great Teachings—especially the Dragon Chant Sect. If they didn't kill Jiu Yin, they still wouldn't offend the Yin Yang Sect, but since Immortal Bi Yue had already spoken, if they made a move, they would definitely offend the Dragon Chant Sect outright.

But if he didn't make a move, how would he explain it to the disciples within the Great Teaching?

For the moment, the Overturning Water Sect leader was caught between a rock and a hard place.

As he was preoccupied with his headache, Ling Xi, who had been standing quietly by Jiu Yin, suddenly spoke: "Why the need for any explanation? Your people initiated the attack on my junior sister and were defeated due to their inferior skills, slain by my junior sister—who can you blame! Now you even want to demand an explanation from our Hundred Peaks Sect!"

While speaking, behind her, the colossal Pill Fusion showed ten Abnormal Phenomenon Golden Pills fully manifesting, with their boundless and infinite aura rippling outwards.

The Overturning Water Sect leader, just feeling this aura, felt waves of oppression, adding greatly to his stress.

Golden Core Period Limit!

This is another existence at the Golden Core Period Limit!

Who is this person? Since when did so many Golden Core Period Limit beings pop up in the world?

And moreover, this woman claims to be from the Hundred Peaks Sect!

Right, in the rumors, among the disciples of the Hundred Peaks Sect, there was a very tall woman who was incredibly close to the Golden Core Stage; even in the ruins, many people even saw that woman momentarily contend against beings at the Golden Core Stage Limit.

That woman should be the one standing before him now.

However, in the rumors, she was only incredibly close to the Golden Core Stage Limit, yet now, she has already reached the Golden Core Stage Limit?

As he was filled with shock and doubt, suddenly, another aura that was no weaker than the woman's surged forth.

At Jiu Yin's side, an unfamiliar man released Nine Abnormal Phenomenon Golden Pills.

These Nine Abnormal Phenomenon Golden Pills had not undergone Pill Fusion, but the aura they emitted was even stronger than him, who was close to the Golden Core Stage Limit.

Another existence at the Golden Core Stage Limit, and furthermore, it was a being that reached the Golden Core Stage Limit with Nine Abnormal Phenomenon Golden Pills.
