

My Master 1291

Chapter 1291:

In the entire Eastern Province, there are only two individuals who reached the Golden Core Stage Limit as soon as their Nine Abnormal Phenomenon Golden Pills were formed, one of them is Cao Zhen, and the other is Xiang Ziyu.

These two individuals both come from the same Sect, known as Hundred Peaks Sect.

If Cao Zhen is here, then Immortal Bi Yue should also be present.

Therefore, the person before us must be Xiang Ziyu.

Right now, there are three existences at the Golden Core Stage Limit here, and that Hundred Peaks Sect also has three Golden Core Stage Limit existences. Therefore, we can no longer attack the Hundred Peaks Sect on this trip to the Eastern Wasteland.

What about the current situation, how should it be resolved?

The Dragon Chant Sect clearly intends to become the backer of the Hundred Peaks Sect.

Master Fu Shui is plagued with a headache, and Ling Xi's voice rings out again: "Moreover, since you have come to our Eastern Wasteland, if it's merely to look around, we naturally wouldn't say anything. However, if you attack any Immortal Sect in our Eastern Wasteland, or if you massacre our Eastern Wasteland's common folk, then you should be prepared to face the wrath of our Eastern Wasteland.

Not to mention other Sects, our Hundred Peaks Sect, having three Golden Core Stage Limit existences, will then undertake incessant assassination attempts on the disciples of your Overturning Water Sect, day and night."

The face of Master Fu Shui instantly turns ashen: "You're going to meddle in other matters even if we target other Sects in the Eastern Wasteland and not your Hundred Peaks Sect?"

On the side, the Sect Hierarchy of Heart Captivating Sect, who always enjoys seeing the Overturning Water Sect made a fool of, turns somber as well. He is unclear why Immortal Bi Yue cares so much about Cao Zhen, even having Yu Long and others help guard the Hundred Peaks Sect. He also does not understand why Jiu Yin is getting involved with people from the Hundred Peaks Sect.

Yet, since behind Hundred Peaks Sect stand these two Great Teachings, they have no need to provoke trouble— at worst they would simply not attack Hundred Peaks Sect, there are plenty of other Sects in the Eastern Wasteland whose resources they could plunder instead.

But now, people from Hundred Peaks Sect are actually threatening them.

Whether it's the Overturning Water Sect or their Heart Captivating Devil Sect, even if they are the weakest among Great Teachings, they are still Great Teachings. And now it seems even a minor Sect could threaten them.

"Meddlesome affairs?" Ling Xi declares righteously, "Our Hundred Peaks Sect is part of the Eastern Wasteland. All the Immortal Sects of the entire Eastern Wasteland have already formed an alliance. If you attack one Immortal Sect of our Eastern Wasteland, you are naturally attacking all Immortal Sects of our Eastern Wasteland!"

"Well said." Jiu Yin hears Ling Xi's words and starts to applaud again, clapping her hands while commenting, "However, a slight correction: we aren't just three Golden Core Stage Limit masters, we are five. When the time comes, I, too, will join you all in assassinating anyone from any Great Teaching or Sect who attacks the Eastern Wasteland.

Besides, I believe Immortal Teacher Bi Yue will also be taking action with us. Therefore, we actually have five Golden Core Stage Limit masters."

As she speaks, she pauses slightly, adding, "Of course, you needn't worry about the forces behind us from the Yin Yang Sect or the Dragon Chant Sect. We've said it before, we only represent ourselves.

Oh, and there's no need for concern about the Cloud Reaching Sect either. Although Zi Yu is considered an Honorary Elder of the Cloud Reaching Sect, he is ultimately a disciple of the Hundred Peaks Sect, and he only represents Hundred Peaks Sect, with no connection whatsoever to the Cloud Reaching Sect."

Master Fu Shui listens to Jiu Yin's words, his expression as dark as iron. Jiu Yin keeps saying there's no connection, but is she truly stating there's no connection? Clearly, she's reminding them of the powers backing them up, she's even dragging the Cloud Reaching Sect into the mix.

However, he also knows that Xiang Ziyu ascending the Rainbow Staircase of the Cloud Reaching Sect and comprehending the Path of the Cloud Reaching Sect qualifies him to become an Honorary Elder. Jiu Yin is not speaking without basis.

And indeed, there are five Golden Core Stage Limit existences on their side.

Five Golden Core Stage Limit masters represent an extremely terrifying power.

Even for a Great Teaching in the Reversal Mini Epoch Period facing a Sect Tribulation, inviting experts to assist and successfully inviting five Golden Core Stage Limit masters would not be easy.

If five Golden Core Stage Limit masters continuously carry out assassination attempts against them, they would be completely helpless!

In fact, that wouldn't even be considered assassination anymore; the opponents could openly come out to kill a fraction of their disciples and then immediately escape.

With five Golden Core Stage Limit masters, they stand no chance of stopping the opponents.

Therefore, now they truly are being threatened by a Sect.

"Immortal Jiu Yin is jesting," Heart Captivating suddenly speaks up with a chuckle, "We are merely curious to see what the Eastern Wasteland is like, so we came here to take a look. But it seems that the esteemed figures of the Eastern Wasteland do not welcome us; hence, we will take our leave for now."

Having said this, he turns around and returns to the Flying Boat of the Heart Captivating Devil Sect. Subsequently, the Flying Boat starts up and returns the way they came.

Why else would he continue to stay here after everything that was said?

They, the Heart Captivating Devil Sect, certainly cannot withstand the assassination of five Golden Core Stage Limit masters.

Who could have imagined that the Hundred Peaks Sect of the Eastern Wasteland would have such a significant connection with the Hundred Peaks Sect of the Eastern Province?

But speaking of which, where exactly is the Hundred Peaks Sect in the Eastern Province?

Even the Wanxiao Sect does not know in which part of the Eastern Province the Hundred Peaks Sect lies. Could it be that the Eastern Province simply has no Hundred Peaks Sect?

But that's not right; when Cao Zhen and others appeared in the Eastern Province, the Eastern Wasteland was clearly not yet connected to the Eastern Province.

Filled with doubts, the Sect Hierarchy of Heart Captivating Sect departs, and following his departure, Master Fu Shui also leaves without regaining face, taking those of the Overturning Water Sect with him.

Chapter 1292:

They, the Overturning Water Sect, originally did not belong to the Demonic Sects, nor were they recognized by the Grand Righteous Sects. They were one of the major sects stuck in the middle and they had always been isolated.

Now, if sects like the Dragon Chant Sect or the Yin and Yang Realm found an excuse to attack them, no major sects would come to their aid.

On one hand, they indeed could not withstand the assassination by five cultivators at the Golden Core Period Limit. More importantly, they really did not dare to offend the Dragon Chant Sect and the Yin Yang Sect.

Shortly after, the Master of the Overturning Water Sect caught up with the retreating leader of the Heart Captivating Sect.

"What exactly is going on? What's the deal with the Hundred Peaks Sect?"

"I'm also puzzled, but think about it, the Wanxiao Sect didn't even know of the existence of the Hundred Peaks Sect, which is rather strange."

"Ahead, there's a city. Let's enter the city and inquire about the situation of the Hundred Peaks Sect and the Eastern Wasteland."

Soon, both sides sent out Disciples to enter the city and gather information. They weren't planning an attack on the Eastern Wasteland, but were purely curious about the situation regarding the Hundred Peaks Sect.

In no long time, after their Disciples completed their inquiries, the two of them were utterly baffled by the reports they received.

"The largest Dynasty in the Eastern Wasteland is indeed called the Guardian Immortal Imperial Dynasty."

"The once strongest person in the Eastern Wasteland was the Grand Preceptor of the Guardian Immortal Imperial Dynasty. He alone suppressed all the Immortal Sects throughout the Eastern Wasteland."

"Before the Grand Preceptor went into slumber, the Eastern Wasteland had an Immortals Martial Contest, and the one who won first place was Cao Zhen, who at that time had only six distinguishable phenomena Golden Pills!"

"Cao Zhen is a Divine Rebirth Great Ability!"

"There are also two Divine Rebirth Great Abilities in the Eastern Wasteland, both approaching the Golden Core Period Limit. One of them also participated in the Immortals Martial Contest, yet faced with Cao Zhen who only had six distinguishable phenomena Golden Pills, they were defeated?"

"Afterward, Cao Zhen became the State Preceptor of the Guardian Immortal Imperial Dynasty!"

Through the reports from their subordinates, the two of them have fully confirmed one thing.

"So, there is not a pair of Hundred Peaks Sects, nor is there a Hundred Peaks Sect in the Eastern Province; there is only one Hundred Peaks Sect, and it is right here in the Eastern Wasteland!"

"Cao Zhen and his people, through some method, arrived in the Eastern Province before the Eastern Wasteland was even connected to it!"

Heart Captivating Sect furrowed his brow and said, "Although it's very strange that they could arrive in the Eastern Wasteland so prematurely, now that the Eastern Wasteland is already connected with our Eastern Province, that point isn't important anymore. What I find strange is their method of Cultivation. Even if Cao Zhen is a Divine Rebirth Great Ability, the fact that he could cultivate to the Golden Core Period Limit in a place like the Eastern Wasteland is astonishing enough, let alone that he attained a Golden Core of Nine Abnormal Phenomena at the Period Limit.

Look at the other two Divine Rebirth Great Abilities from the Eastern Wasteland; they have only managed to cultivate close to the Golden Core Period Limit as well. Thus, while the resources of the Eastern Wasteland might not be as poor as we initially thought, they absolutely cannot compare to our Eastern Province, and the difference is enormous."

This is evident from those two women as well; when they first arrived in our Eastern Wasteland, in their initial confrontation, one was close to the Golden Core Period Limit, the other was a top-tier Ten Different Phenomena of Golden Elixir Great Perfection.

But now, they have both become one at the Golden Core Period Limit, and the other also approaching the Period Limit.

The reason is obviously because the Spiritual Energy in our Eastern Province is more abundant."

The Master of the Overturning Water Sect nodded in agreement, saying: "Therefore, the horrors of Cao Zhen and his Disciple Xiang Zi Yu become even more apparent, as the two of them were able to reach the Golden Core Period Limit while still having a Golden Core of Nine Abnormal Phenomena, even in the challenging conditions of the Eastern Wasteland."

"The situation with Xiang Zi Yu seems off as well," the leader of the Heart Captivating Sect said with a puzzled look. "From the information we have, it was clear that Xiang Zi Yu had Ten Different Phenomena Golden Elixir Great Perfection. I wonder how he suddenly became a Golden Core of Nine Abnormal Phenomena at the Period Limit. Could it be that he detonated one of his Golden Pills?"

"Exploding a Golden Pill? What is he going to do, explode a Golden Pill for fun? Has he gone mad?"

"But other than detonating a Golden Pill, how can we explain his change from Ten Different Phenomena Golden Elixir Great Perfection to a Golden Core of Nine Abnormal Phenomena? In conclusion, that Hundred Peaks Sect is too weird; it's better not to get involved."

"Let's just go back. But as we leave, I don't believe that the Eastern Wasteland will be able to keep out all the Demonic Sects from the Eastern Province from entering."

"Go ahead, but if those from the Demon Sect encounter the Eastern Wasteland, they are fine if they don't meet anyone; if they do, they're just out of luck."

Cao Zhen and Immortal Bi Yue flew together towards the hiding place of the three major Immortal Sects of the Great Lai Dynasty. Along the way, they encountered none of the Demonic Sect from the Eastern Province.

In a secluded valley.

Disciples from the three major sects of the Great Lai Dynasty gathered here.

Previously, their Sect Leaders and experts had left, leaving only two Golden Core Stage Disciples from each sect to guard the place.

Throughout the valley, aside from these six Golden Core Stage Disciples, the most numerous things were graves.

Yet these graves were built very simply, looking just like the graves of ordinary mortals.

Even being here, they were scared someone might pass by through the sky, notice the peculiarities of these graves, so they specially constructed them in this manner to deceive the eye. They even deliberately neglected to clean the wild grass around the graves.

Although the six came from three different sects, they had lived together for years, and quite nearly seemed like disciples of a single Immortal Sect.

The reason for leaving the six of them to guard the living graves was because they were close and, with the Sect Leaders gone, it ensured they would not erupt in conflicts without supervision.

Among the six, a burly man with a full beard suddenly spoke, "What do you think our Sect Leaders are doing now? They must have already left the Eastern Wasteland by now."

"Judging the time, they surely have long departed from the Eastern Wasteland." A handsome-looking disciple gazed at the sky, eyes filled with yearning as he said, "Once the Sect Leaders reach the Eastern Wasteland and find the Void Breaking Sect, the next step will be for them to summon us back.

We finally won't have to stay in this miserable place anymore, and I wonder what the Eastern Province is like."

"The Eastern Province must certainly be more prosperous than our Eastern Wasteland, filled with more Spiritual Energy, more resources. However, it's not certain we will leave the Eastern Wasteland."

One of the six, a man with a square face and a very steady appearance, now showed a ferocious expression as he coldly said, "Once the Sect Leaders find the Void Breaking Sect, they will surely bring back the sect's experts. Then, we must attack and enter the Hundred Peaks Sect, and not leave a single soul of their entire sect alive!"

"Exactly, we must kill them all! The Hundred Peaks Sect, no matter how powerful they are in the Eastern Wasteland, can they compare to the Grand Righteous Sect of the Eastern Province!"

"When the Sect Leaders return, that will be the day of the Hundred Peaks Sect's demise!"

"Their arrogance won't last much longer."

As they were speaking, one of them suddenly looked towards the distance, a look of surprise in his eyes, shouting, "Over there, two figures, such speed, someone is flying towards us."

The other disciples heard and looked up one after another.

"Indeed there are people, such speed, how can someone fly so fast? This speed is even faster than our Sect Leaders! But our Sect Leaders are existences of the Ten Different Phenomena of Golden Elixir Great Perfection. Faster than them, what kind of existence could that be?"

Suddenly, one of them realized the situation and murmured urgently, "Not good, quick, hide, we mustn't let them discover us."

The others rapidly responded and headed towards the cave to hide.

But just as they had barely entered the cave, an icy voice had already come from outside.

"No need to hide, I've already seen you. The grudge between our Hundred Peaks Sect and your three great Immortal Sects of the Great Lai Dynasty has come to a time when it must be settled."

Hearing the voice outside, the six looked at the two figures descending from the sky, each with a great shock in their hearts.

"Cao Zhen!"

Chapter 1293:

The six disciples left by the three Immortal Sects of the Great Lai Dynasty had been fantasizing. They fantasized that after their Sect Leader returned from the Eastern Province, bringing people from the Void Breaking Sect to strike back, and how they would slaughter the Disciples of Hundred Peaks Sect. Little did they know, they didn't see their Sect Leader, but saw Cao Zhen instead.

"Cao Zhen?"

"How could he appear here?"

"We've been hiding here for so many years without being discovered. How could Cao Zhen suddenly find us?"

"Looking at Cao Zhen's manner, he is clearly coming for us; he knows about this place!"

"How could he know?"

Amidst the surprised looks of everyone, a Nine Abnormal Phenomenon Golden Pill suddenly shone brightly behind Cao Zhen, and dull thunder sounds came from the void.

The next moment, the entire void began to shake violently.

In the sight of the six, bolts of lightning fell and directly hit the mountain cave.

Under the fierce power of the strike, the mountain cave burst apart, countless fragments of rocks fell, instantly burying the six people while the vast thunder continued to fall like a violent storm, unrelentingly hitting the spot.

The six did not even manage to rush out from under the rocks before terrifying bolts of lightning struck their bodies.

In that instant, the six were pulverized.

Cao Zhen sensed that the life force of the six had completely dissipated, and he didn't even bother to check if these six people were dead. He is now at the limit of the Golden Core Period, and a full-force strike from him would kill even a normal Ten Different Phenomena of Golden Elixir Great Perfection, let alone six ordinary Golden Core Period cultivators.

As for these six people's Qiankun Bags, they were just ordinary disciples left behind to guard the tombs; he did not expect them to have any treasures.

These six people's Qiankun Bags, how can they compare to those graves themselves.

Those people, they are at least at the Earth Immortal Realm, although their cultivation bases certainly can't compare to Old Man Wu Shuang, they were Earth Immortals after all, and there should be quite a few treasures in their graves.

Cao Zhen looked at the graves overgrown with weeds before him.

Speaking of which, this was his second time excavating others' graves, and both times it had been graves disguised as ordinary human tombs, surrounded by overgrown weeds.

If it weren't for the fact that his Hundred Peaks Sect also had graves, having seen the graves of the Hundred Peaks Sect, he would almost start to wonder if all graves had to be built this way.

Immortal Bi Yue came up excitedly beside Cao Zhen and looked at each grave: "Shall we start digging? Do we dig one by one slowly, or do each of us dig two at once?"

Cao Zhen thought of the time he dug up Old Man Wu Shuang's grave and the counter-attack he faced from him, and shook his head gently: "Let's dig one by one."

If these people's descendants hadn't provoked their Hundred Peaks Sect, if they weren't sworn enemies, he wouldn't want to dig up these people's graves.

But now, they are sworn enemies, and they even killed all the disciples of the three great sects. If he doesn't dig up these Earth Immortals' graves, should he wait for these people to wake up after the Minor Era of Inversion of Heaven and Earth ends and let them kill people from the Hundred Peaks Sect?

Cao Zhen looked at Immortal Bi Yue and said, "Step back."

After Immortal Bi Yue stepped back, behind him, the nine Abnormal Phenomenon Golden Pills and the Heretical Golden Core above his head started to rotate crazily.

A rich mana began to spin rapidly around him.

Behind him, a Nine Abnormal Phenomenon Golden Pill suddenly burst out dazzling light; the next moment, protective divine power light emerged on his body.

He had learned his lesson from last time, preparing the Protective Divine Power first.

Only then did he place his palm above the first tomb, and immediately a vast mana burst out from within him, like floodwaters breaking through a dam.

The mound in front, under the impact of this mountain-shattering force, exploded violently, not just the mound, but the surrounding land was completely blown open.

His Four Treasures Peak did not have an Earth Immortal ancestor, so he also didn't know if all graves were like this.

Like Old Man Wu Shuang's grave, after this one exploded, it also revealed a downward passageway, with a formation laid out within.

This formation, moreover, prevented the life energy inside from leaking out.

Recalling how he had been attacked after opening Old Man Wu Shuang's grave, and retreated for a distance, Cao Zhen once again raised his hand and bombarded the passageway in front of him.

Bolts of lightning descended from heaven, instantly shattering the formation of the grave before him.

Suddenly, bursts of vivid life energy surged out of the passageway.

Cao Zhen, unlike last time, did not directly enter underground but continued to stay outside the grave. His silver light wings had also appeared behind him.

In the Reversal Mini Epoch Period, some treasures could not be used because those treasures required the power of the Earth Immortal Realm to activate.

But some treasures, like some knives, spears, sharp swords could still be used, although their full power could not be fully unleashed.

Although his Silver Light Wings were a treasure, they could still be used, of course, its full power could not be fully unleashed, but this was enough.

Chapter 1294:

As he summoned the silver wings, he did not forget to remind Immortal Bi Yue, "If anything goes wrong later, we'll escape immediately."

No sooner had his voice faded than an angry roar filled with boundless hatred burst forth from the fresh grave.

"What do you want to do! You've already disturbed my eternal rest once, causing my foundation to be damaged. Now, do you want to disturb it again? This isn't just disturbing my eternal rest; this is wanting me dead!"

Following that voice, an immensely furious aura erupted from the fresh grave, and an old man with white hair and a wrinkled face flew out, rage written all over his face.

He had chosen his place of eternal rest before the Minor Era of Inversion of Heaven and Earth, yet the disciples of his Sect had exhumed them all, intending to relocate their resting places.

The reason was that they had provoked the Hundred Peaks Sect and had no choice but to flee!

The Hundred Peaks Sect, he was well aware of them. Indeed, the Star Moon Mansion was no match for the Hundred Peaks Sect, but the problem was that the three major Sects of the Great Lai Dynasty, including his own, were in an alliance. Although Star Moon Mansion was inferior to the Hundred Peaks

Sect, the combined strength of the three major Sects could even surpass that of the Hundred Peaks Sect by a small margin.

Not to mention that it was the Reversal Mini Epoch Period. The experts of each sect who are the pillars were all in the Golden Core Stage. Even if there was a gap, how significant could it be?

Yet, not just the Star Moon Mansion but also the East Sea Mirage Pavilion and the Void Breaking Sect had to abandon their sect grounds and flee as failing to do so would lead to the complete destruction of their sect grounds by others.

He truly couldn't understand how worthless these disciples were that the combined forces of three Immortal Sects were not enough to withstand their enemies and had reached the point where they had to abandon their sects and flee.

Abandoning the sect naturally meant leaving no one behind. Those in eternal rest like themselves would undeniably be excavated by others.

Hence, their disciples could only construct a temporary eternal rest and transfer them. Yet even though it was just transferring, the implications were enormous. Two of his old friends had even perished during the relocation of their resting places.

Although he had not died, he too was affected, and his foundation was damaged.

And now, his eternal rest had once again been disturbed.

Having his eternal rest disturbed twice in succession, given the resources of the Star Moon Mansion and his cultivation base, he was certain to die a definite death!

These juniors of his, they were wanting to kill him!

In his furious rage, he explosively burst open his own eternal rest and emerged; he wanted to thoroughly question these juniors about what exactly they were doing!

As he flew out from the eternal rest, the next moment, he stood there stupefied.

In his line of sight, there were only two individuals, one male and one female; the male possessing Nine Abnormal Phenomenon Golden Pills, and the woman at the Ten Different Phenomena of Golden Elixir Great Perfection.

However, the aura emitted by the two people was identical.

Moreover, their aura far exceeded an ordinary Ten Different Phenomena of Golden Elixir Great Perfection. Before his extended slumber, he had also witnessed the Great Perfection and knew the aura of the Great Perfection wasn't nearly this powerful.

Faintly, he even felt that the aura of the two had reached the limit allowed by the Heavenly Dao during this period.

Suddenly, a term popped into his mind.

Golden Core Period Limit!

Had these two achieved the legendary Golden Core Period Limit?

In the Eastern Wasteland, were there still people who could reach the Golden Core Period Limit?

Especially the man, only possessing Nine Abnormal Phenomenon Golden Pills, and yet he had reached the Golden Core Period Limit? How could that be possible?

Moreover, who were they?

Why were they here, and was it them who disturbed his eternal rest?

Where were the disciples of Star Moon Mansion? Why didn't he see even one of them?

Could it be that these two were people from the Hundred Peaks Sect?

He didn't know who these two people were, nor their origins, but he was certain of one thing: it was these two who had caused the great disturbance to his eternal rest.

His eternal rest had been tampered with, and moreover disturbed twice in succession, he was surely bound to die.

He had never thought that he, a being of the Earth Immortal Realm, especially an Earth Immortal from a major Sect, would one day die because his eternal rest had been desecrated.

If he was to die, then he was determined to take these two down with him.

"Die!"

A ferocious look suddenly spread across his face, and he emitted an intimidating aura, a force that surpassed the Golden Core Period Limit.

The originally clear sky was suddenly shrouded, and in the void, scattered stars and a crescent moon appeared.

Yet the next moment, both stars and crescent moon vanished without a trace.

Calamity clouds converged!

In the void, an irresistible pressure thundered down!

Heavenly Dao's aura!

This Heavenly Dao's aura bore down directly towards the Earth Immortal of the Star Moon Mansion before him.

Under the force of this Heavenly Dao's aura, the Earth Immortal of the Star Moon Mansion could not help but tremble throughout, and in the void, a thunderous explosion was heard.

A startling thunderbolt emerged from the dense calamity clouds, plummeting towards the Earth Immortal of the Star Moon Mansion!

Heavenly Punishment Thunderbolt!

This was the second time he had seen such a thunderbolt. The previous time was when he had unearthed Old Man Wu Shuang's eternal resting place, and Heavenly Dao had cast this thunderbolt to strike Old Man Wu Shuang.

This time, similarly after disturbing the eternal rest of a sleeper, the Heavenly Punishment Thunderbolt fell as the other released their power to attack him.

Although it was the second time he saw this golden thunderbolt, his heart was still as shocked as the first time he had seen it. He even felt that there was nothing in the world, no force, that could resist the Force of Heaven's Punishment.

Chapter 1295:

He instinctively believed that Heavenly Penalty Thunderbolt was the utmost supreme power in the world.

The speed at which this Heavenly Penalty Thunderbolt fell was incredibly fast; he had only just seen the golden thunderbolt when in the next moment, it had already crashed down on the opponent with a thunderous roar.

All at once, a thunderous noise erupted, as if the entire canyon had shattered.

This Earth Immortal Realm hadn't even had time to make a move before his entire being was blasted apart.

The ground where he was standing even burst open into a huge pit, from which cracks spread outwards to the surrounding area and quickly covered the entire canyon.

The aftermath of this strike surged all around, and the tops of the newly formed mounds at the graves burst open under its impact,

Cao Zhen was chilled to the bone by what he saw.

Luckily, the aftershock only shattered the tops of the graves and not all of the fresh tombs; otherwise, if a group of Earth Immortal Realm individuals had emerged, he and Bi Yue might not even have been able to escape.

But that might not necessarily be the case.

In the past, Old Man Wu Shuang had been able to make a move under the pressure of the Heavenly Dao; if it weren't for his use of the Prosperous Age Picture Record, he might have died from that strike of Old Man Wu Shuang.

But in the case of this Earth Immortal Realm, he wanted to forcefully make a move too; however, under the Heavenly Dao Pressure, he couldn't even manage to do so.

So, perhaps under the pressure of the Heavenly Dao, Earth Immortal Realm individuals don't get a chance to strike?

Cao Zhen pondered as he waited for the dust to settle before diving into the underground graves.

This underground tomb was indeed set with some formations, but compared to the tomb of Old Man Wu Shuang, the formations here were not quite impressive.

Besides, the treasures here were also significantly fewer than those in the tomb of Old Man Wu Shuang.

In fact, there wasn't a single treasure within the entire tomb.

"You're just an Earth Immortal Realm; Old Man Wu Shuang was at the Peak Immortality Regainment Realm, I can understand you being poor, but you're too poor, aren't you? Not a single treasure, how do you even manage?"

Cao Zhen helplessly commented, then after collecting everything possible from the tomb, he left this grave and then smashed open a second one.

It seems that the tombs of the people from Star Moon Mansion who are asleep are all built together, this time too, he opened another Earth Immortal Realm's tomb from Star Moon Mansion.

Like the previous Earth Immortal Realm, after this tomb was shattered, the Earth Immortal from inside flew out, attempted to strike at Cao Zhen after realizing he wasn't a disciple of their Star Moon Mansion.

But as the pressure of the Heavenly Dao descended, he couldn't lift a finger, and then was directly obliterated by the golden thunderbolt!

In the distance, a team from a Demon Sect in Eastern Province was swiftly advancing when suddenly, they noticed the golden thunderbolts from afar; the golden light, even during daytime, was exceedingly noticeable.

"Golden thunderbolt!"

"That's Heavenly Punishment Thunder!"

"Heavenly Punishment Thunder only occurs under one circumstance—that is when someone in the Earth Immortal Realm, during the Minor Era of Inversion of Heaven and Earth, exerts power exceeding the Golden Core Period Limit."

"Someone has unearthed an Earth Immortal Realm's grave!"

"Too bad, the light is still too far from us, by the time we get there, the heat will have already gone."

The people sighed helplessly and continued on their way, but not long after, another golden flash fell from afar, causing everyone to stop in their tracks, watching the skyline in astonishment.

"Another Heavenly Punishment Thunder!"

"The person didn't just dig up one tomb, but two?"

"Could there be a sect from Eastern Wasteland over there?"

"The one who opened two graves, wonder if they will open a third!"

"Graves—it's Earth Immortal Realm, and even Immortality Regainment Realm resting there. Even if Eastern Wasteland doesn't have Immortality Regainment Realm members, there are Earth Immortal Realms; the treasures in their tombs wouldn't be few."

"Let's go, let's turn and check that area out."

"Maybe, that person is still continuing to dig graves!"

People turned around and flew towards the direction from where the sounds came.

On their way, they were amazed to find that in the distance, Heavenly Punishment Thunderbolts kept descending one after the other, constantly.

"The person over there must have dug up a sect's grave!"

"But based on our investigations, there doesn't seem to be any major sect nearby!"

"Perhaps our information is wrong."

"With so many graves, it must be the top sect in Eastern Wasteland. Moreover, opening their graves must mean that their sect has been breached.

This is certainly done by one of our sects from Eastern Province. If they were able to breach a sect of this level, they must also have suffered heavy losses.

When we get there, if they are weaker than us, everyone knows what to do, right? This might be an opportunity for our Same Prison Demon Sect."

The people from Eastern Province indeed came together to Eastern Wasteland to snatch resources, but they had no alliance. If there's an opportunity to stamp down on others to obtain plenty of resources, they wouldn't let it pass.

Initially, Cao Zhen alone was blowing open the graves, but later on, he noticed that these Earth Immortal Realm individuals, under the Heavenly Dao Pressure, could hardly mount any attack. Even if a few managed an attack occasionally, the strength of these attacks was greatly weakened under the Heavenly Dao, so he completely let his guard down.

He was now utterly certain; digging up Immortality Regainment Realm graves was dangerous, but digging Earth Immortal Realm graves was almost entirely safe.

Chapter 1296:

Among the three major Immortal Sects of the Great Lai Dynasty, it seems there is no existence of the Immortality Regainment Realm.

"Now only the last burial mound remains, probably it's not a burial mound of the Immortality Regainment Realm either."

Cao Zhen looked towards the last burial mound and was about to make his move when a series of breaking through the air was heard in the distance.

He and Immortal Bi Yue almost simultaneously raised their heads to look in the direction of the sound, and within their field of vision, a group of figures dressed in black appeared, and the insignia on their clothing was something he had never seen before.

So many people clad in black attire must be from the Demon Sect.

There is no such thing as a Demon Sect in the Eastern Wasteland, so these people must be from the Eastern Province.

He turned his head to look at Immortal Bi Yue beside him, full of curiosity, and asked, "Do you recognize them?"

Immortal Bi Yue glanced at the emblem on their clothing and gently shook her head, "They are not from the Great Teaching, I do not recognize them." She didn't know, nor needed to know, what the symbols of those sects besides a few she had come into contact with looked like.

It has always been others who recognize her, not her who remembers others.

The disciples of the Same Prison Demon Sect pursued the direction where the Heavenly Penalty Thunderbolt had fallen, but when they arrived at the location, they were completely shocked.

In front of them was a desolate canyon, and furthermore, there was not much spiritual energy around, nor was it any sect's gate.

They even doubted they had come to the wrong place, but in the midst of this canyon, there were several dug-up burial mounds and two figures.

"Two people?"

"Just two people? And they found so many burial mounds here?"

"They must be specialized tomb raiders!"

"Quick, surround them; don't let the two escape."

"Never mind that; just kill the two first."

The leader of the Same Prison Demon Sect was about to order his people to start when someone suddenly shouted to stop: "Sect Leader, stop!"

"Do not take action, that... that is Immortal Bi Yue!"

"Immortal Bi Yue?"

Upon hearing this, the Sect Leader of the Same Prison Demon Sect immediately showed a look of surprise, then quickly coming to his senses, he loudly commanded: "Do not take action, everyone stand down."

While speaking, he even abandoned his dignity as a sect leader and bowed towards the direction of Immortal Bi Yue: "Immortal Bi Yue, please forgive my blindness for not recognizing you. We had absolutely no intention of making a move against the Immortal."

While he is a Sect Leader of a Demon Sect, Immortal Bi Yue comes from a top-ranking Great Teaching, the Dragon Chant Sect, where she holds an incredibly high status. How can he compare to Immortal Bi Yue?

Even if it were to spread that he bowed his head to Immortal Bi Yue, no one would think he had lost face.

He had never even seen Immortal Bi Yue before this.

Thinking back to when he ordered his disciples to move, droplets of cold sweat fell from his forehead. Had they taken action just now, he might have become the criminal of the Same Prison Demon Sect.

That is Immortal Bi Yue after all!

If they attacked Immortal Bi Yue without reason, unless they could kill Immortal Bi Yue outright, once she returned, Dragon Chant Sect would surely come and annihilate their Same Prison Demon Sect after learning of the incident.

For Dragon Chant Sect, annihilating their Same Prison Demon Sect would be all too easy.

He also had no confidence in capturing Immortal Bi Yue; although they had many people, how could anyone stop Immortal Bi Yue, who was at the limit of Golden Core Period, if she wanted to escape?

Moreover, Immortal Bi Yue was known for her speed, making it even less likely they could stop her.

As for the man...

The Sect Leader of Same Prison flew forward for some more time and, feeling the terrifying aura emitting from the man with the Nine Abnormal Phenomenon Golden Pills, his eyebrows immediately furrowed, his heart was filled with great alarm; the aura was not at all weaker than that of Immortal Bi Yue.

So this meant that this man was, too, an existence at the limit of the Golden Core Period.

Nine Abnormal Phenomenon Golden Pills signified an existence at the limit of Golden Core Period, and he was together with Immortal Bi Yue, not to forget the silver wings on his back.

This person must be Cao Zhen!

Therefore, if they were both individuals at the extreme limit of the Golden Core Period, it would be even less possible for them to hold them back.

The Sect Leader of Same Prison felt an immense sense of relief inside, thankful that someone among them recognized Immortal Bi Yue. Otherwise, their Same Prison Demon Sect might really have become history.

Immortal Bi Yue's face was icy cold and showed no signs of easing due to the apology. Her eyes slightly narrowed, gazing coldly at them as she spoke in a chilling voice: "You had no intention of taking action? Then, who just now gave the order to stop us?"

The Sect Leader of Same Prison wiped the sweat from his forehead; just as he was about to make an excuse, Immortal Bi Yue, showing impatience, waved her hand and said, "Now, leave this place, leave the Eastern Wasteland, and I can pretend nothing has happened."

Throughout her contact with Cao Zhen, she noticed not just his affection toward Hundred Peaks Sect, but Cao Zhen seemed to have a deep affection for the entire Guardian Immortal Imperial Dynasty and the whole Eastern Wasteland.

"Yes, yes..."

The Sect Leader of Same Prison did not dare to question why, and upon hearing Immortal Bi Yue's words, immediately led his group to run towards the outside.

Only after flying a great distance did they stop, and someone whispered from behind: "Senior brother, why do I feel something's off? Immortal Bi Yue let us go, but why did she tell us to leave the Eastern Wasteland?"

Chapter 1297:

"Indeed, and why would someone like Immortal Bi Yue come to the Eastern Wasteland?"

"Who knows why they are in the Eastern Wasteland? Anyway, since Immortal Bi Yue has told us to leave the Eastern Wasteland, let's just leave the Eastern Wasteland."

After the other party left, Cao Zhen finally opened the last of the fresh graves, and this time he was in luck. Inside the fresh grave, he found a Treasure.

Though it was just a common Treasure, it was still a Treasure.

"However, these three Immortal Sects really are destitute. Altogether the three sects only had five Treasures, and all of them are the lowest of Mortal Rank Treasures, even all being the Common Low Grade. There was only one Common Mid Grade Treasure. Not a single special Treasure among them."

"Actually, it's not too few. After all, when we helped the Five Sounds Sect with their Heavenly Tribulation, in the end, a few people only got Common Low Grade Treasures," Immortal Bi Yue said gently shaking her head. "It's only because previously you dug up Old Man Wu Shuang's fresh grave that you feel these fresh graves don't have enough treasures."

As she spoke, she paused for a moment and then enticingly said: "And if you feel there aren't enough fresh graves here, we can go back to the Eastern Province to dig up the graves of those at the Immortality Regainment Realm."

"Well, it doesn't feel right to dig up other people's graves for no reason. I dug up these people's graves because they have offended me. If I don't dig up their graves, once the Minor Era of Inversion of Heaven and Earth is over, they would seek revenge against me."

Cao Zhen wiped the sweat from his forehead. He hadn't realized that Bi Yue actually had a hobby of grave digging.

Or perhaps, someday she could form a group with Yan Yourong? One likes live burials, and the other likes grave digging!

"Alright, since their graves have been dug up, and the people from the East Sea Mirage, Void Breaking Sect, and Star Moon Mansion have all been annihilated, we should also head back to Hundred Peaks Sect."

Hundred Peaks Sect.

With the Eastern Wasteland now fully connected to the Eastern Province, and as the people from the major Demon Sects of the Eastern Province began to invade the Eastern Wasteland, the gates of Hundred Peaks Sect also started to close off.

To say half-closed, because the Great Formation of Hundred Peaks Sect was always ready to be activated, the ordinary Disciples were not allowed to leave the mountain at will. However, the experts within Hundred Peaks Sect could leave at any time to support other places.

After all, most of the Cultivators who entered the Eastern Wasteland from the Eastern Province were Demonic Cultivators, among which there were many who relished in killing. They would slaughter not only Cultivators but also mortals.

As of now, Hundred Peaks Sect just barely had enough strength to defend itself, so they would also dispatch people to rescue Cultivators in nearby cities, or even leave Hundred Peaks Sect for some distance to rescue other Immortal Sects.

It was only because people like Cao Zhen had not returned that they could not go to the rescue of the more distant Immortal Sects.

"Bright Heart Sect is asking for help? They've found a large number of people from the Demonic Sects of Eastern Province nearby, and it seems like they're intent on taking action against Bright Heart Sect? They must be waiting for more people to arrive, and once everyone is there, they'll make their move on Bright Heart Sect?"

Nie Jie looked at everyone with a headache and said, "Bright Heart Sect is requesting aid, and we should certainly go to the rescue, but Bright Heart Sect is far from our Hundred Peaks Sect. If we are to go to the rescue, we must send powerful experts to lead the way. But with such a long distance, what will we do about the defense of our Hundred Peaks Sect?"

Below, the higher-ups of Hundred Peaks Sect were discussing fervently.

"But Bright Heart Sect has always supported us at Hundred Peaks Sect, so it wouldn't be right for us not to rescue them."

"We should certainly go to the rescue, but is there a possibility that the people from the Eastern Province's Demonic Sects are trying to lure us out for an ambush?"

"So you're suggesting we don't go to their aid?"

"Of course we should go to the rescue, but we must think carefully about how to do it."

Everyone was troubled when suddenly a Disciple came to report.

"Vice Sect Master Nie Jie, Ling Xi the Immortal, Elder Xiang Ziyu, and others have returned!"

Normally, although Nie Jie was the Vice Sect Master, everyone would address him as Sect Leader in Cao Zhen's absence since no one likes their title to contain the word 'vice'.

However, Nie Jie was an exception.

He emphasized many times that he was the Vice Sect Master, not the Sect Leader.

So gradually, everyone addressed him as Vice Sect Master.

Below, everyone heard the Disciple's announcement and immediately got excited.

"Elder Xiang Ziyu has returned?"

"That's great, they've finally come back!"

"With this, the number of experts we have at Hundred Peaks Sect will be sufficient!"

"Let's go, let's quickly welcome Sect Leader and Elder Xiang Ziyu and the others!"

The higher-ups and experts from Hundred Peaks Sect flew out one after another, and as they just left the Conference Hall, they saw a grand procession coming towards them.

Now, the entire Eastern Wasteland was beginning to fall into chaos, and the Disciples of Hundred Peaks Sect also hoped that their high experts could all return. Now, seeing Ling Xi, Xiang Ziyu, and others returning, they naturally followed along. For a moment, the team of Ling Xi and Xiang Ziyu appeared grand and imposing.

"Elder Xiang, you've finally returned. This is wonderful."

Nie Jie let out a sigh of relief upon seeing the returning crowd, his gaze sweeping across their faces—Ling Xi, Yan Yourong, Xiang Ziyu... Xiang...

Suddenly, his gaze froze, full of surprise as he looked behind several people. Behind them, there were over thirty individuals they had not seen before, but notably, their Sect Leader Cao Zhen was missing.

Chapter 1298:

The crowd in the rear also noticed that the Sect Leader was present here.

Nie Jie, full of astonishment, turned to Ling Xi and asked, "Ling Xi, where is the Sect Leader? Why don't we see the Sect Leader?"

He merely found it strange that their Sect Leader did not return with them, but somehow, as soon as he posed the question, he noticed that Grand Elder Li Ke from the already-returned Hundred Peaks Sect had an extremely unsightly expression on his face.

"Your Sect Leader? He hasn't come back, which means, without thinking, he must have gone to enjoy a romantic escapade with some other woman!" Li Ke glanced at the party of Ling Xi and others. Although she did not see Immortal Bi Yue, she did see people from the Dragon Chant Sect.

The Dragon Chant Sect's members wouldn't come to their Hundred Peaks Sect without good reason, surely they must have followed Immortal Bi Yue.

Both Cao Zhen and Immortal Bi Yue were absent, evidently, the two of them went off who knows where.

Just thinking of Cao Zhen and Immortal Bi Yue leaving together made his blood boil.

Yu Long, upon hearing Li Ke's words, turned his head to the side, acting as if he hadn't heard anything at all.

The 'other' Li Ke referred to was none other than Immortal Bi Yue.

If it were anyone else slandering Immortal Bi Yue, he and the disciple of Dragon Chant Sect behind him would have already made their move, but this Li Ke... The relationship between Li Ke, their Sister Bi Yue, and Cao Zhen was a little complicated.

Bi Yue Sister had advised him that the issue between the three of them would be settled among themselves and outsiders should not interfere.

She could only pretend that she heard nothing.

Nie Jie, for a moment, did not know how to respond, as he had already learned a lot from Bei Yan and Duo Duo, as well as Zhu Peng, on their return.

He knew that the Sect Leader and others had gone to the Eastern Province, and that the Sect Leader had a close relationship with a talented Immortal Bi Yue from a very powerful Great Teaching there, and moreover, this talented person from the Great Teaching had an extremely high status.

Exactly how high Duo Duo and others did not know, except to say that the disciples of that Great Teaching respected her immensely.

Others from Great Teachings also gave Immortal Bi Yue considerable face, not daring to offend her in the slightest.

The person Grand Elder Li Ke was referring to should be Immortal Bi Yue.

Grand Elder Li Ke and the Sect Leader were Dao companions, although not officially as Dao companions, as they had not held a Dao companion ceremony.

But their relationship was well known not only throughout the Hundred Peaks Sect but across the entire Eastern Wasteland.

Now that Immortal Bi Yue appeared out of nowhere, could Grand Elder Li Ke not be angry?

And the Sect Leader too, what was he doing going off alone with Immortal Bi Yue? Couldn't he have taken both along?

Or maybe the Sect Leader should learn from himself, learn from Xiang Ziyu, and stay away from women.

Ling Xi, seeing that the atmosphere was becoming somewhat awkward, hurriedly said, "Vice Sect Master, in fact, our master went with Immortal Bi Yue to the East Sea Mirage Tower, the old lairs of Void Breaking Sect and Star Moon Mansion. On our way there, we encountered people from these three sects, who were trying to flee our Eastern Wasteland.

After we eradicated them all, we used our Divine Skills to interrogate a few. We learned that there were still people remaining in their hideout, and they also had slumbering experts, so our master went to their hideout to prevent future troubles, and Immortal Bi Yue worried for our master's safety, so she also went along with him."

"What? You ran into people from those three sects?"

"All their people were killed?"

Upon hearing this, everyone became excited.

Even Li Ke widened her eyes—Cao Zhen, they actually encountered people from the three sects of the East Sea Mirage Tower?

The only sects in the entire Eastern Wasteland that held a grudge against their Hundred Peaks Sect were the three sects of the former Great Lai Dynasty. However, those three sects were so well concealed that although they have been searching for those three sects, even with the help of other sects in the Eastern Wasteland, they still hadn't found them.

Now, Ling Xi told them, they found the people from those three sects, and moreover, all members of the three sects had been killed.

Ling Xi nodded and said, "To be precise, most of them have already been eradicated by us, only a few remain in their hideout. However, judging by the time, our master should have also eradicated them by now."

"Fantastic, our Hundred Peaks Sect has finally taken its revenge!"

"When they joined forces to attack our Hundred Peaks Sect, they should have anticipated this day!"

As cries of celebration rang out from the crowd, Ling Xi took out a Qiankun Bag and threw it on the ground: "Additionally, the remains of the Sect Leaders and the higher-ups from those three sects are all here."

"Good, very good!"

"This is perfect; when the Sect Leader returns, our Hundred Peaks Sect must use their blood to commemorate our fellow disciples who died in that battle!"

"Now, we just wait for the Sect Leader and the others to return."

"By the way, although the Sect Leader has not returned yet, the Grand Elder, Elder Xiang, and others have returned, so shouldn't we immediately send people to rescue Bright Heart Sect?"

"Right, Bright Heart Sect is in a dangerous situation, we should set out now. After we rescue Bright Heart Sect, we can then hold the memorial ceremony."

Listening to everyone's inquiries, Ling Xi revealed a look of surprise and asked, "Bright Heart Sect asking for help? What's the situation?"

Nie Jie quickly explained the situation of Bright Heart Sect, then said, "Grand Elder, you have just returned and must be tired. How about you rest in Hundred Peaks Sect for a while? This time, let Junior Brother Lie Yan, Sister Duo Duo, and Junior Brother Zhu Peng go together to rescue Bright Heart Sect."

Chapter 1299:

"We're just hastening our journey, it's not particularly tiring," Ling Xi thought for a moment before saying, "It's been quite some time since Mistress Li Ke left, and it's necessary to check on the situation at Vermilion Bird Peak. Moreover, third junior brother, who is also the Elder of Transmitting Power, should not leave. Why not do this? Second senior sister and I will go together."

If conflicts arose between the Eastern Wasteland and East Breeze, or even with the Eastern Border, he would naturally feel at ease allowing Duo Duo and others to go for assistance, but the situation now was unlike before, as the Eastern Wasteland had already connected with the Eastern Province.

Perhaps the people arriving would not possess cultivators at the limit of the Golden Core Stage, but it was possible that there would be those nearing that limit. Therefore, for safety reasons, either she or Xiang Ziyu must go.

While speaking, she turned to Xiang Ziyu and instructed, "With our master and your second senior sister absent from the Hundred Peaks Sect, you have to take good care of our junior brothers and sisters. It's also a good opportunity for you to decently host Immortal Jiu Yin and the Dao Companions from the Dragon Chant Sect."

The reason she asked Xiang Ziyu to stay also implied that he should pair up well with Jiu Yin.

Immortal Jiu Yin?

People from the Dragon Chant Sect?

Upon hearing Ling Xi's words, everyone looked towards the group of unfamiliar people following behind.

Without asking, it was evident that those dressed in uniform were from the Dragon Chant Sect. Nie Jie already knew that Immortal Bi Yue came from the Dragon Chant Sect, which was a top-tier Great Teaching in the entire Eastern Wasteland. However, while it was one thing for Immortal Bi Yue to come alone, why were there so many from the Dragon Chant Sect here?

Although puzzled, he still greeted the people from the Dragon Chant Sect with a hand clasped before him, "I have seen all the Honored Dao Companions."

Yu Long returned the gesture to Nie Jie as a form of acknowledgement. If it were another sect, let alone a mere vice Sect Leader of a small sect, even if the Sect Leader of the opposing sect greeted him, unless that person was nearing the limit of the Golden Core Stage and respected for their strength, Yu Long would not seriously reciprocate the greeting.

At this moment, his gracious gesture was already a considerable honor given to the other party.

Ling Xi also realized that she might have neglected the people from the Dragon Chant Sect. Regardless of whether they only came upon Bi Yue Immortal's orders, they were indeed coming to aid the Hundred Peaks Sect, and she was only introducing them now, which was indeed somewhat impolite.

Ling Xi quickly introduced, "This is Yu Long, from the Dragon Chant Sect, a being near the limit of the Golden Core Stage."

As she spoke, she pointed towards the back and said, "The Dao Companions from the Dragon Chant Sect, all possess Perfect Completion Golden Cores with Ten Different Phenomena, and they have come to our Hundred Peaks Sect to provide assistance."

Nie Jie was instantly taken aback. He knew of beings nearing the limit of the Golden Core Stage as Duo Duo had informed him before that there were significant disparities between those at the Great Perfection of Golden Core with Ten Different Phenomena, and thus, there were grades even within the Eastern Province.

Beyond the limit of the Golden Core Stage, there were those nearing it.

He was also aware that, apart from the two Sect Leaders of Eastern Wasteland who were reincarnations with Great Ability, the Axe Lunatic and Star Lord Hao Yue were also beings nearing the limit of the Golden Core Stage, having reached this level only within the last half-year.

Previously, they could only be considered as the top-tier Perfect Completion Golden Cores with Ten Different Phenomena.

That is to say, this Yu Long before him was an existence on the same level as Star Lord Hao Yue and the Axe Lunatic. Moreover, he had come to aid the Hundred Peaks Sect.

Nie Jie once again gestured with a hand clasped before him towards the other party, "Thank you, Honored Dao Companions for coming to assist the Hundred Peaks Sect!"

As he spoke, he also looked behind Yu Long, because the people from the Dragon Chant Sect had not displayed their Golden Cores with Different Phenomena, so he only felt they were a group of Golden Core Stage beings. At most, due to the others' auras, he sensed they were a relatively strong group of Golden Core Stage cultivators, but it had not crossed his mind that these thirty-plus people were all Perfect Completion Golden Cores with Ten Different Phenomena!

These were Ten Different Phenomena of Golden Elixir Great Perfection!

Back when Li Ke became a Perfect Completion Golden Core with Ten Different Phenomena, even the Peak Master of Vermilion Bird Peak, Tu Zhuque, had set up a Golden Core Banquet and invited everyone to celebrate.

During the banquet, even the unslumbered Peak Masters of the other peaks attended to offer their congratulations with great courtesy, and even the Sect Leader of Hundred Peaks Sect at the time, Bai Fengzi, made a personal appearance. This indicated the prestige and importance of beings with Perfect Completion Golden Cores with Ten Different Phenomena.

Initially, within the Hundred Peaks Sect, before the Sect and Four Treasures Peak fully revealed their power and rose prominently, only he and Li Ke were the Perfect Completion Golden Cores with Ten Different Phenomena.

Even at the grand competition among various Immortal Sects in the Guardian Immortal Imperial Dynasty, most of the ten major Immortal Sects had only two or three such beings, with the entire Dynasty boasting only a little over thirty of them in total.

And now, the opposing party had dispatched thirty such beings at once.

Is this the strength and heritage of the Eastern Wasteland's top-tier Great Teachings?

The disciples of the Hundred Peaks Sect always believed that their sect's strength was extremely formidable.

Especially after the Eastern Province's Demon Sect members invaded Eastern Wasteland, they were still repelled by them, leading to a sentiment that the Eastern Province wasn't much of a concern.

However, now that Ling Xi mentioned that all those thirty-plus people were Perfect Completion Golden Cores with Ten Different Phenomena, they were utterly astonished.

It was impossible for the opposing Great Teaching to deploy all the top experts and all the Perfect Completion Golden Cores with Ten Different Phenomena from their sect. There must be many more powerful practitioners within their ranks.

So, just how many experts with Perfect Completion Golden Cores with Ten Different Phenomena does the Dragon Chant Sect truly have?

Chapter 1300:

Moreover, why would the Dragon Chant Sect send so many high-ranked experts to the Eastern Wastelands to aid the Hundred Peaks Sect?

Is it because of the Immortal Bi Yue?

But even if Immortal Bi Yue has a high status and identity, inviting so many experts to help would surely involve a significant debt of gratitude.

Indeed, the Sect Leader is formidable, able to have the talents from the Eastern Province Grand Sect proactively pursue him.

Yu Long, listening to Nie Jie's words of gratitude, replied calmly, "There's no need for thanks. It was Immortal Bi Yue who asked us to come and help protect the Hundred Peaks Sect. If anything were to go wrong with your sect, we wouldn't be able to return to the Dragon Chant Sect either.

So, there's no need to thank us. We are merely following orders."

Even his tone carried a hint of indifference; if not for the command of his elder sister, they wouldn't have come to this Eastern Wasteland to help such a minor sect.

As Yu Long's voice faded, the surrounding disciples of the Hundred Peaks Sect were completely stunned.

Nie Jie was dumbfounded. These people came to help the Hundred Peaks Sect, not at the invitation of Immortal Bi Yue but on her command?

A disciple of a Grand Sect, directly commanding thirty experts at the Ten Different Phenomena of Golden Elixir Great Perfection to come here? Among them, there was even one who had reached nearly the limit of the Golden Core Period, much like Star Lord Hao Yue and the 'Axe Lunatic'!

He had heard from Duo Duo about the extremely high status of Immortal Bi Yue, but how high could that be?

To directly order disciples of their sect to help a sect they previously knew nothing about—what kind of status and identity would that require?

Even as the Vice Sect Master of the Hundred Peaks Sect, if he were to give such an order, let alone send thirty disciples at the Ten Different Phenomena of Golden Elixir Great Perfection to assist...

The Hundred Peaks Sect did not have that many experts at the Ten Different Phenomena of Golden Elixir Great Perfection level, but even if he ordered thirty Golden Core Period disciples to help another

Immortal Sect, he would have to call a meeting and consult with the high-ranking officials of the Hundred Peaks Sect for approval.

Moreover, helping an unrelated Immortal Sect would most likely be impossible to approve.

Not to mention, Yu Long also said that if the Hundred Peaks Sect encountered any issues, they would not be able to return to the Dragon Chant Sect.

Doesn't that mean they are effectively being exiled from the sect?

This level of authority, presumably, only the Sect Hierarchy could exercise, and it should be the real Sect Hierarchy. He even doubted whether the Sect Hierarchy during the Reversal Mini Epoch Period had such authority.

What is the identity of that Immortal Bi Yue? To be able to issue such a command and have all these people follow it?

He had never heard of Immortal Bi Yue being the Hierarchy or the Grand Elder of the Dragon Chant Sect.

Shocked, Nie Jie secretly communicated with Ling Xi, asking, "Ling Xi, what is the status of Immortal Bi Yue? Is what Yu Long said true?"

Clearly, Ling Xi was somewhat familiar with Immortal Bi Yue. Since Duo Duo and the others were not as acquainted with Immortal Bi Yue, he asked Ling Xi.

"It's true. These were Immortal Bi Yue's exact words, so Vice Sect Master can rest assured, they will surely protect our Hundred Peaks Sect with all their might," Ling Xi responded secretly: "As for Bi Yue's identity, I can't remember the specifics as she told me so much, but her Grand Preceptor is the true Sect Hierarchy of the Dragon Chant Sect, and her grandfather seems to be the Dragon Chant Sect's Grand Elder. Her father, uncles... In short, her elders are all high-ranking officials of the Dragon Chant Sect. Even the current temporary Sect Hierarchy is her junior uncle..."

In short, her status in the Dragon Chant Sect is akin to that of a princess in the imperial court among mortals," Ling Xi finished, feeling her description was insufficient and added, "It's like the situation where there's only one princess in the entire royal family.

Basically, her family and even her sect favor her the most, and there's no 'among others' in this. Additionally, she has the support and adoration of all disciples in the Dragon Chant Sect; that's the situation."

Nie Jie instantly understood; he felt he could comprehend it this way: although Immortal Bi Yue is not the Hierarch of the Dragon Chant Sect, her words seem to carry even more weight than the Hierarch's.

Having understood the situation with the people from the Dragon Chant Sect, he turned his gaze to the female cultivator beside them. He remembered that Ling Xi had mentioned a female cultivator known as Jiu Yin. It must be this woman that Ling Xi was referring to, and moreover, Ling Xi had asked Xiang Ziyu to accompany this woman...

Before Nie Jie could speak, Little Beiyan had already run gossippingly to Xiang Ziyu, looking teasingly at his senior brother and saying, "Senior brother, who is this Immortal? Shouldn't you introduce her to us?"

As his words ended, Li Ke, Duo Duo, and others also turned their curious gaze, having left the Five Sounds Sect before fighting their Heavenly Tribulation. They had left only one or two days earlier. Then, after returning to the Hundred Peaks Sect, they found this new addition to their group, who seemed to be quite intimate with Xiang Ziyu.

What was all this about?

Jiu Yin, without waiting for Xiang Ziyu to speak, looked at Bei Yan with a smile and said, "Junior Brother Bei Yan, though you have not met me, I have seen you."

"Ah?" Little Beiyan was confused, "When have we met?" With such a beautiful female cultivator, if he had met her before, he would definitely remember.

"Naturally, it was at the Five Sounds Sect." Jiu Yin looked towards Li Ke, Duo Duo, and the others as she said, blinking with a coquettish smile, "I was in seclusion in my room at the time, so you did not see me, but I did see all of you."
