

My Master 1311

Chapter 1311:

What a joke, he had finally returned to the Hundred Peaks Sect, how could he possibly leave again so soon.

Ling Xi glanced at her master, then at her junior brother Xiang Ziyu, and took the initiative to say, "Master, let me stay."

Her master was naturally going, and Xiang Ziyu, even more so. Ever since their master left the Hundred Peaks Sect, Xiang Ziyu's expeditions to the relics always yielded great harvests.

In the entire Hundred Peaks Sect, there were only three at the Golden Core Period Limit; thus, the only person who could remain was her.

"That's fine. Right now, that relic has not yet appeared," Cao Zhen said softly, "It is the perfect time for me to refine the Unparalleled Formation Plate for you again."

The Unparalleled Formation Plate he had made back then was when all his disciples were still at the Core Formation Stage. It was a Formation Plate meant for the Core Formation Stage, and after reaching the Golden Core Stage, it was unsuitable for use.

Latter on, Xiang Ziyu, Bei Yan, and Yan Yourong also gave their Formation Plates to Ling Xi.

Only Ling Xi alone, relying on her Ancient Talisman Immortal Body and the Heaven and Earth Bagua Talisman, could resonate with the three talents of heaven, earth, and humanity. This was the only way to deploy the Formation Plate without it being easily broken by others.

Previously, due to lack of time and insufficient resources, he couldn't refine it. But now, having annihilated the three Immortal Sects of the Great Lai Dynasty and acquired a great amount of resources, he could properly refine the Unparalleled Formation Plate for Ling Xi.

Not far away, Yu Long, listening to Cao Zhen's words, instantly recalled the Formation Plate deployed by Ling Xi in the Musical Rhythm relic site.

At that time, Ling Xi was not yet at the Golden Core Period Limit, but she was able to fight on par one-on-one against those at the Golden Core Period Limit in a short time, thanks to that Formation Plate.

Even those at the Golden Core Period Limit could not exert their full strength within that Formation Plate.

Now, hearing Cao Zhen and the others, the Formation Plate was actually refined by Cao Zhen?

Upon hearing that his master was going to refine a Formation Plate, Bei Yan immediately showed excitement exclaiming, "Master, you're going to refine a Formation Plate? Does it mean we each get one again?"

Cao Zhen did not bother to respond to Bei Yan and turned away.

One for each person? If he were to refine one for each of them, Four Treasures Peak would nearly be bankrupt.

Besides, this time's Formation Plate, he wanted to refine it thoroughly.

Previously, the refining of the Formation Plate was mass-produced; this time, he wanted to customize it solely for Ling Xi to make the Formation Plate more suitable for her.

Initially, he just wanted to refine the Formation Plate by himself. However, once word spread that he was going to refine a Formation Plate, every person in the Hundred Peaks Sect skilled in crafting formations came one after another, surrounding Cao Zhen inside and out, eager to learn how the Sect Leader refines a Formation Plate.

Even Yu Long and others, curious, gathered around the outside.

They were genuinely curious; Cao Zhen had already shown too many of his skills, and now, they wanted to see just how skilled Cao Zhen was at refining Formation Plates.

Cao Zhen, looking at the crowd, had no choice but to refine the Formation Plate while explaining to everyone the knowledge and principles of refining Formation Plates and Formation Maps, as the ones gathered were all Disciples of Hundred Peaks Sect. It didn't hurt to explain a bit more if he could.

This time's refining of the Unparalleled Formation Plate was the second time, so it was essentially a reworking, and in fact, the requirements were more difficult than the first personal refining.

Initially refining was like drawing or writing freely on a blank sheet of paper.

But the second refining was about making improvements based on the original, without the freedom to do as one pleased.

As time passed day by day, the disciples surrounding Cao Zhen showed no sign of diminishing; even members of the Dragon Chant Sect listened with rapt attention.

Even Yu Long, listening to Cao Zhen's explanations, felt that he had gained a lot. Many of Cao Zhen's array crafting techniques and his understanding of formations were truly unique.

He even had a feeling that Cao Zhen's crafting techniques might be even more ingenious than those of the Dragon Chant Sect's formation map crafting.

More ingenious than the Dragon Chant Sect?

Yu Long shook his head, how could Cao Zhen's crafting techniques possibly be superior to those of the Dragon Chant Sect!

He also knew that Cao Zhen was a reincarnated being with great ability, but what of it? How many years could a reincarnated being with great ability have?

Their Dragon Chant Sect, on the other hand, had existed for over two million years. Could the inheritance of their sect really be comparable to that of a reincarnated being with great ability?

Of course, a reincarnated being with great ability could also possess inheritances, but those were not easily passed on to others, unless the sect of the reincarnated being no longer existed.

At this thought, Yu Long suddenly realized a problem.

As a reincarnated being with great ability, why hasn't Cao Zhen sought out his previous great teaching since joining the Hundred Peaks Sect?

There were two possibilities. One possibility was that Cao Zhen's original great teaching was somewhere he could not currently reach, such as in the Eastern Province. But from his understanding during the time he had spent in the Hundred Peaks Sect, Cao Zhen had never mentioned the Central Continent, and indeed, he had begun to consider the Hundred Peaks Sect as his base.

Therefore, the second possibility had to be the case: the great teaching that Cao Zhen was previously a part of no longer existed. Could it be that Cao Zhen was now passing on the inheritance of his previous great teaching to the people of the Hundred Peaks Sect?

With this in mind, he could understand why he felt that Cao Zhen's formation map crafting techniques seemed so brilliant.

In the blink of an eye, eleven days had passed.

On the twelfth day, the Unparalleled Formation Plate that Cao Zhen had been crafting once again started taking shape, and rainbow lights gradually began to emerge on the array plate.

Simultaneously, layers of tribulation clouds also started to appear in the void.

"Tribulation clouds?"

A look of astonishment instantly appeared on Yu Long's face. He knew that in their Dragon Chant Sect, sometimes the crafting of treasures by some masters could trigger Heavenly Tribulation.

But that was for treasures used above the Earth Immortal Realm. Could crafting a Golden Core Stage array plate also draw Heavenly Tribulation? To what incredible extent must this array plate reach to summon such tribulation?

Amidst his surprise, disciples of the Hundred Peaks Sect who had noticed the Heavenly Tribulation started to fly away in all directions, praising as they went.

"The Sect Leader is the Sect Leader, crafting an array plate and once again it has attracted Heavenly Tribulation!"

"The last time the Sect Leader crafted an array plate, it also drew Heavenly Tribulation!"

"Yes, at that time the Sect Leader was still at the Core Formation Stage, right?"

Yu Long was completely stunned. If it wasn't for the exclamations of so many people, he would have almost doubted whether Cao Zhen had specifically arranged for some people to put on a show.

How could one in the Core Formation Stage craft an array plate that would attract Heavenly Tribulation?

Cao Zhen, looking at the array plate falling in the void, was also stunned for a moment. Could this really attract Heavenly Tribulation? The last time he crafted an array plate that attracted Heavenly Tribulation, it was not because of the Unparalleled Formation Plate, but because of the array plate he crafted for Ai Yunqi.

Back then, when the Heavenly Tribulation descended, there were Lv Chaoqiong, Ai Yunqi, Gu Chengyu and other Earth Immortals to help him overcome the tribulation. This time, there were not so many Earth Immortals around.

Chapter 1312:

Cao Zhen had experienced numerous Heavenly Tribulations, both his own and those of others.

However, he had never encountered such a peculiar celestial catastrophe.

After he refined the Unparalleled Formation Plate once again, he could distinctly feel the terrifying oppressive force emanating from the gathering tribulation clouds in the void.

Yet just as the tribulation clouds amassed and veiled the entire expanse of the sky, they suddenly dispersed.

"Dispersed?"

"What's happening?"

"Wasn't the Heavenly Tribulation about to occur? Why did it suddenly vanish?"

"I've never heard of such an event. Can the Heavenly Tribulation appear and then disappear?"

"Is it over just like that?"

For a moment, everyone around Cao Zhen was dumbstruck, including the people from the Hundred Peaks Sect, Jiu Yin, and Immortal Bi Yue, all utterly baffled.

Refining treasures that trigger a Heavenly Tribulation proves that the artifact challenges the heavens. However, the tribulation came, did not even begin to descend, and then disappeared—what circumstance was this?

Among the Dragon Chant Sect's attendees, someone speculated in whispers, "Could it be the Heavenly Tribulation realized that the array plate Cao Zhen refined hadn't reached that level, so it decided not to descend?"

"That's unlikely, isn't it? When has the Heavenly Dao ever made such a mistake?"

"Then what's the reason?"

"I really can't figure it out."

The crowd looked toward Cao Zhen, hoping he could provide an explanation.

But Cao Zhen was just as confounded. It was the first time he had faced this situation, and he also didn't know the reason. Moreover, this scenario was not mentioned in the theories of immortal cultivation by either Zhang Daoling or True Person Yu Ding.

Though he did not know why the Heavenly Tribulation failed to descend, he was certain about one thing.

Ling Xi was now extremely strong and terrifyingly powerful.

In the Minor Era of Inversion of Heaven and Earth, the strongest combat power was at the Golden Core Period Limit—an apex that everyone could only strive to reach. Ling Xi was naturally also at this threshold, unable to surpass it.

However, after employing the Unparalleled Formation Plate, Ling Xi could restrain her opponent, preventing them from reaching the limit of the Golden Core Stage.

Furthermore, this newly refined Unparalleled Formation Plate was even more restraining against Golden Core experts and more difficult to break.

It could even be said that at Ling Xi's Golden Core Period Limit cultivation base, if she hadn't used the Unparalleled Formation Plate to trap Tido's people, her formation would be unbreakable.

Cao Zhen didn't know how to explain to everyone why the Heavenly Tribulation did not descend. He could only turn to Ling Xi, pass her the array plate, and say, "All right, the formation plate is refined. Ling Xi, take the formation plate first, then familiarize yourself with it slowly. The changes to the plate are not significant; it's just that its power is stronger than before, and it's harder to break."

After handing over the formation plate to his own disciple, Cao Zhen looked to the crowd and said, "Gentlemen, we are all aware of the situation with the Qi Tian Dynasty. When the Qi Tian Dynasty existed, our Eastern Wasteland would always see Earth Immortal Realm masters mysteriously die, and the people of the Qi Tian Dynasty, especially those from the Heaven Prayers Sect, must have been refining some demonic technique.

But we stopped them, and when they tried to revive, we, the Hundred Peaks Sect, blocked them again. Now they are undergoing their Sect Tribulation and have no time to pay attention to us, but if they overcome their Sect Tribulation, they will surely retaliate against our Hundred Peaks Sect.

Being a Great Teaching, the opponent is not necessarily something our Hundred Peaks Sect can resist when it comes to retaliation. Therefore, the best method is to make the opponent disappear completely.

And the best way to do that is to directly seize the treasures from the relics left by the Heavenly Dao for the Void Breaking Sect as soon as they appear. We don't know how much longer it will be until the relics emerge, nor the exact location where they will appear, but it's likely that the relics are not far from the Heaven Prayers Sect. Thus, I have decided to depart now and head for the relics."

Having said this, he turned to Nie Jie and said, "Nie Jie, the Hundred Peaks Sect will be in your hands during my absence."

Nie Jie was truly helpless. Although Cao Zhen was the Sect Leader of the Hundred Peaks Sect, he had scarcely spent much time there. Whenever he did return, it was always a hurried visit before he left again.

But he also understood that as Cao Zhen said, the Heaven Prayers Sect would undoubtedly seek revenge against the Hundred Peaks Sect, and he knew Cao Zhen's approach was the best course of action.

He nodded firmly and said, "Don't worry, Sect Leader, I will take good care of the Hundred Peaks Sect."

Cao Zhen nodded slightly, having no particular concerns about Nie Jie. Then he turned to Ling Xi and said, "Ling Xi, you assist Vice Sect Master Nie Jie in protecting the Hundred Peaks Sect. During my absence, try to limit our disciples from going out as much as possible.

And Jing Yao, although the demon sects of the Eastern Wasteland have mostly withdrawn from our lands, the Eastern Wasteland has not yet fully settled down. So, don't be in a hurry to leave the Hundred Peaks Sect for now. Stay with us for a while longer, and then you can leave."

Cao Zhen reiterated his instructions to the crowd and then left with Xiang Ziyu.

As he and Xiang Ziyu departed, naturally Immortal Bi Yue and Jiu Yin also followed, and the members of the Dragon Chant Sect led by Yu Long likewise departed.

From a distance, as they watched Cao Zhen and the others leave, Yan Yourong immediately turned to her senior sister and said, "Senior sister, didn't you just obtain a formation plate? Come on, let's spar so I can see how powerful your formation plate really is."

Chapter 1313:

Now, among the earliest four disciples of the Hundred Peaks Sect, both her senior sister and junior brother had reached the Golden Core Period Limit, in addition, another, Little Beiyan, was an existence of the Wind Fire Tribulation. Only she had not reached the Golden Core Period Limit.

She needed to put pressure on herself, to stimulate her own potential, to break through to the Golden Core Period Limit as soon as possible.

And since her senior sister was currently the sole person in the Hundred Peaks Sect at the Golden Core Period Limit, it was natural for her to seek a spar with her senior sister.

"Count me in." Suddenly, Li Ke's voice came from the side, her eyes filled with war intent. Once, she had been the first among the Golden Core Stage within Hundred Peaks Sect, but now, Cao Zhen and the others had left her behind when they went out to explore relics.

"Fight? Zhu Peng wants to fight too, Zhu Peng also wants to join," Little Zhu Peng said with interest upon hearing that several people were to spar.

Ling Xi glanced at the three of them and nodded slightly, "Very well, the three of you come at once."

Speaking, she paused for a moment, then turned to look at Duo Duo and said, "Duo Duo, you join too."

The crowd around was surprised by Ling Xi's words. Although Ling Xi was a Golden Core Period Limit existence, all four of her opponents were also top-notch experts.

Yan Yourong was someone close to the Golden Core Period Limit, while Li Ke, the Grand Elder, along with Zhu Peng and Duo Duo, were not much weaker than Yan Yourong.

Yet Ling Xi would face four of them alone, this...

Soon, the news that Ling Xi was to spar with the four top experts of the Hundred Peaks Sect spread throughout the sect, and the disciples of the Hundred Peaks Sect rushed over one by one to watch the spar. Meanwhile, most people felt that Ling Xi was perhaps being too arrogant this time, believing that even if she was strong, she couldn't possibly defeat the group led by Yan Yourong.

But, after the time it takes an incense stick to burn, everyone realized just how wrong they were, spectacularly so.

After the fight ended, Ling Xi turned to look at Yi Sheng and Qiao Jingyao, who were watching from the side, and beckoned them over, saying lightly, "You two come join in as well."

On this day, everyone finally understood the extent of Ling Xi's strength.

At the same time, many were wondering who was truly the number one expert of the Hundred Peaks Sect. They knew that their Sect Leader Cao Zhen, Elder Xiang Ziyu responsible for passing down teachings, and Ling Xi were all at the Golden Core Period Limit.

Logically, the three of them should be equally strong. However, they still thought that Cao Zhen should be the strongest, followed by Xiang Ziyu, and Ling Xi last.

But after today, their views had changed completely. Perhaps, Ling Xi was actually the most powerful existence in the Hundred Peaks Sect now.

Because Ling Xi could make those at the Golden Core Period Limit, unable to reach the Golden Core Period Limit!

After leaving the Hundred Peaks Sect, Cao Zhen and others headed straight for the Eastern Province.

Although the Qi Tian Dynasty could send people into the Eastern Wasteland, they weren't the closest Great Teaching to the wasteland. Of course, to say they were far wouldn't be accurate either.

After entering the Eastern Province, Cao Zhen and the rest only flew for a day. In the distance, within the void, the enormous silhouette of the relic had already begun to surface.

"The relic left by Heavenly Dao for the Heaven Prayers Sect!"

"Our entry into the Eastern Province is just in time."

This time, they did not control two Flying Boats but instead directly took the Dragon Chant Sect's Flying Boat. Cao Zhen looked at the distant silhouette of the relic and said to the people, "This time we are heading to the relic, but we come from three different forces, and the strength of each force differs.

Before entering the relic, we had better agree on a principle for sharing, or perhaps..."

Cao Zhen paused briefly and continued, "After arriving at the relic, Xiang Ziyu and I will act together. Will you all act together, or act separately?"

He was not trying to alienate the others, but this time they had too many people.

When it came time to snatch treasures, how to divide them would be a big issue. He couldn't always take advantage of Immortal Bi Yue, especially with so many top experts with Perfect Completion Golden Core from the Dragon Chant Sect.

No sooner had he finished speaking than Immortal Bi Yue shook her head and replied, "I will accompany you; let Yu Long and the others act on their own. As for dividing the treasures, we are three people. You and Xiang Ziyu are two, so I'll take thirty percent, the remaining seventy percent is yours."

"Otherwise, you should only take twenty-five percent," Jiu Yin said with a smile, "I'm alone, surely you cannot abandon me, right?"

Cao Zhen nodded slightly and replied, "That's fine, then we have an agreement. The treasures we acquire will be equally divided among the four of us."

Speaking of which, Jiu Yin's pursuit of Xiang Ziyu and Immortal Bi Yue's attitude towards him had some similarities, yet they were not completely the same.

Jiu Yin wanted to cultivate alongside Xiang Ziyu.

As for Xiang Ziyu, he claimed that women would affect the speed of his sword drawing, so he wouldn't cultivate alongside another.

He did not know when Jiu Yin would finally give up and leave.

Though they had seen the phantom of the relic, it still took them half a month to reach its location.

Compared to the Eastern Wasteland, the Eastern Province was just too vast.

Cao Zhen had visited two peerless relics before, both of which had multiple entrances. However, now that he had arrived at this relic, he discovered that there was only one entrance to this one.

The relic had not fully opened yet, and now everyone gathered at the one and only entrance.

Cao Zhen looked at the towering mountains before him, feeling deep inside that this mountain could lead straight to the nine heavens. Below the mountain was a massive cave.

Chapter 1314:

At this moment, an invisible wall seemed to be blocking everyone in the cave entrance as people from various major forces in the Eastern Province gathered here, including individuals from the Great Teaching, Sect members, and Loose Cultivators.

Among the crowd, there were those from reputable orthodox schools, Demonic Cultivators, and also evil cultivators.

Due to the sheer number of gathered individuals, many of whom had grievances with each other, conflicts inevitably broke out even before entering the ruins.

After Cao Zhen landed, he immediately noticed fights breaking out in four or five spots, with most of the surrounding observers, perhaps out of boredom or other reasons, mostly watching these fights.

However, there were also some individuals who, perhaps having seen too many fights or feeling that the combatants were too weak to be of interest, didn't even bother to look at the ongoing conflicts.

Cao Zhen and the others arrived on a Flying Boat called Dragon Chant Sect, which is one of the top Great Teachings, and their flying boat was exceptionally conspicuous.

As the Flying Boat arrived, many people's gazes turned towards the Dragon Chant Sect's Flying Boat. They were surprised to find that the people alighting from Dragon Chant Sect's boat quickly split into two groups.

"They split up? Weird, why did the people from Dragon Chant Sect split up?"

"That must be Immortal Bi Yue, she is not walking with the people from Dragon Chant Sect."

"No, look at the person next to Immortal Bi Yue, isn't that Jiu Yin from the Yin Yang Sect?"

"That said, the other two men must be Cao Zhen and Xiang Zi Yu!"

"It is said that after helping the Five Sounds Sect with their Heavenly Tribulation, Jiu Yin Immortal has been mixing with the people from the Hundred Peaks Sect."

"I wonder what's so fascinating about these two from Hundred Peaks Sect that first Immortal Bi Yue, and then Jiu Yin Immortal, both well-known Immortals from our Eastern Province, actually ended up following people from Eastern Wasteland."

"What's fascinating? Both of them have reached the Golden Core Period Limit, a peak condition that no one else in our entire Eastern Province can achieve."

"These four people, they are all existences at the Golden Core Period Limit. Even though they are separate from the people of the Dragon Chant Sect, their strength is still terrifying."

In the crowd, someone

"I wonder how many treasures they can grab this time! It is said that last time at the relic site of the Five Sounds Sect's Musical Rhythm, Cao Zhen and crew managed to seize a large number of Musical Rhythm Towers, and even the ultimate treasure was taken by Cao Zhen!"

"This time, they probably will not be able to grab that many treasures. Previously, Cao Zhen managed to seize so many treasures partly because of their strong capabilities, but also because Cao Zhen is a master of Musical Rhythm.

Praying Heaven Sect is not a sect that delves into Musical Rhythm. Although their powerful alliance will reap some benefits, they won't likely get as many treasures."

"Actually, there's another reason. Previously, others didn't know their strength; in the relic of Musical Rhythm, everyone initially thought Cao Zhen was just a presence with Nine Abnormal Phenomenon Golden Pills and didn't realize how strong Cao Zhen's disciples were.

But now, everyone knows their strength, aware they are all at the Golden Core Period Limit, and others will guard against them early."

"Even if others take precautions against them, with their strength, they are sure to obtain a significant number of treasures. And even if they don't get the treasures directly, wouldn't they just seize them? With four at the Golden Core Period Limit, who could escape from them?"

"Do you think they might go directly after the Praying Heaven Sect? As far as I know, there's quite a feud between the Praying Heaven Sect and the Hundred Peaks Sect."

"Speaking of which, Cao Zhen sold all the Musical Rhythm Towers he obtained from the previous relic of the Five Sounds Sect to the Five Sounds Sect and later assisted the Five Sounds Sect in their Heavenly Tribulation. But with Praying Heaven Sect, they probably won't sell the items to them."

"Not just them, many powerful individuals entering the relics this time are not planning to sell the items to the Praying Heaven Sect." someone in the crowd whispered, "How much resources can be exchanged when finding relics through the Praying Heaven Sect? But what if Praying Heaven Sect fails their Heavenly Tribulation? Then everyone can share the spoils of Praying Heaven Sect."

As he spoke, his voice lowered, mysteriously stating, "I have even heard that some forces are planning to attack the members of the Praying Heaven Sect directly in this relic."

The more Praying Heaven Sect's disciples die, the more their power will be damaged, and the lower the chance they will succeed in their Heavenly Tribulation."

Although a large number of people had already gathered here, bringing together countless masters, with the arrival of Cao Zhen and the three others, almost everyone's attention was on them.

After all, these were four existences at the Golden Core Period Limit.

Even in the Eastern Province, the Golden Core Period Limit was a rare existence.

In the crowd, one by one the disciples of Praying Heaven Sect, dressed in uniform attire, looked solemnly at the approaching foursome of Cao Zhen.

Although the appearance of the relic had attracted people from various forces nearby to compete for the treasures within, so far, the most noteworthy were Cao Zhen and his three companions, given that these are four individuals at the Golden Core Period Limit and additionally, Cao Zhen had grievances with them.

He also worried that Cao Zhen and his group might attack them within the relics.

Chapter 1315:

He also knew that this time their visit to the relic was extremely dangerous; they might face numerous powerful ambushes and attacks.

Previously, when the Musical Rhythm relics of the Five Sounds Sect appeared, nobody attacked the members of the Five Sounds Sect because it was their first Sect Tribulation of one hundred thousand years after becoming a Great Teaching, and the chances of the Five Sounds Sect surviving the Sect Tribulation were not small.

However, the Heaven Prayers Sect had to face a Sect Tribulation of four hundred thousand years, which was much stronger, and the current strength of the Heaven Prayers Sect was not much stronger than that of the Five Sounds Sect.

Therefore, everyone believed that the Heaven Prayers Sect had a high chance of failing the Heavenly Tribulation.

Some even wanted them to fail and attacked them to weaken the strength of the Heaven Prayers Sect; this was nothing unusual.

After all, once they failed the Heavenly Tribulation, others could divide the resources of the Heaven Prayers Sect.

Yet, despite knowing that others might attack the Heaven Prayers Sect during this time, they had no choice but to come.

If they were worried about being killed and did not enter the Heaven Prayers Sect, there would indeed be no chance of successfully passing the Heavenly Tribulation. This was Heavenly Dao's relic specifically left as a life opportunity for their Sect Tribulation.

If the Heaven Prayers Sect did not come to contend for this relic, how could they possibly survive the Sect Tribulation!

Five days after Cao Zhen and others arrived, below Gao Shan, the huge opening of the cave shook suddenly, followed by a light mist emerging from the entrance.

"The relic has opened!"

Instantly, those who had been waiting for a long time all flew towards the cave. The cave was huge, and at the same time, it could accommodate thousands of people flying through without any problems.

Although Cao Zhen and Immortal Bi Yue arrived later, due to their strength, they directly moved to the closest position to the cave entrance. Seeing the relic open now, the four of them were also the first to fly into the relic.

The cave was about three miles long, and in just a moment, Cao Zhen flew out of the cave and truly entered into the relic.

Looking up, he saw mountains towering all around, lush and verdant everywhere. This particular area could indeed be described as filled with birdsong and fragrant flowers. The air even carried a light fragrance, refreshing the spirit and making one feel as though they had entered an Immortal Realm.

Cao Zhen stepped forward to continue on, but as he took a step, the next moment, the entire world in front of him changed abruptly, as if he had entered another world altogether.

All around him, fierce winds howled, and not far in front of him, the Void completely shattered, revealing large, black cracks!

Void Cracks?

Cao Zhen suddenly widened his eyes, numerous streams of Chaos of Void flying out from the cracks. These streams had no specific trajectory, making it uncertain where they would go. Some passed

through the air and disappeared into the Void, while others fell to the ground, instantly slicing the hard ground open and revealing deep ravines.

And this was not the most terrifying part. The most terrifying aspect was the cracks themselves.

He could distinctly feel horrifying suction forces emanating from the spatial cracks. That was not the worst part; the truly terrifying aspect was that these spatial cracks were not stationary; they were slowly moving.

Behind him, others also noticed the changes between Heaven and Earth, their eyes widening!

"What is this? Chaos of Void?"

"How is this possible? Even the existence of the Earth Immortal Realm, if careless, gets sucked into one of these Chaos of Void, would perish immediately, let alone us!"

"It's only the Minor Era of Inversion of Heaven and Earth period, why are there such terrifying Chaos of Void here?"

"This relic, how do we get past this?"

"This is clearly not a relic meant for those in the Golden Core Stage!"

At that moment, everyone started to panic.

Cao Zhen's gaze turned to the distant area he had initially seen filled with birdsong and flowers, which was no longer within close reach but rather behind this vast expanse of Chaos of Void. To reach that area, one would have to navigate through this field of Chaos of Void.

"No, haven't you noticed? These are indeed Chaos of Void, but the energy they emit is far less terrifying than the rumors say."

"We clearly entered a small world, these Chaos of Void belong to a small world, not the Chaos of Void of the great outside world, and their power is much smaller."

"Even if the power is smaller, it is still incredibly dangerous." Someone in the crowd suddenly grew frightened and turned to a companion, saying, "Senior brother, I think I'll go back for now?"

"Yes, this place is indeed dangerous, let's go back together."

For a time, many chose to return, but when they looked back, they realized that they could no longer find the way out.

Meanwhile, more people were entering this small world from behind.

"Unable to leave!"

"Now, in this small world, we can only enter but cannot leave!"

"Maybe to leave, we must pass through the Chaos of Void up ahead."

The crowd quickly made a judgment.

"Unable to leave, we can only take shelter here temporarily."

"We can only hide until this relic disappears, who would have thought that this relic would be this terrifying."

Chapter 1316:

Many who entered the relic decided to stay put, but soon they realized their naivety and oversimplification.

In the Void, the pace of those Void Cracks increased, moving swiftly towards their location.

All at once, everyone's faces dramatically changed.

"The cracks are flying towards us!"

"Staying put isn't safe either!"

"So, the only way to safety is to rush through to the distant area that looks peaceful and beautiful!"

"Damn it, how could this Chaos of Void be so dangerous!"

In the midst of close calls, suddenly, a figure shot out at high speed.

This was a very thin figure, who dashed out so rapidly and suddenly that Cao Zhen barely saw the person's face.

However, this person, although not majestic in stature, gave Cao Zhen the impression of a towering mountain; the rapid flight felt as if a grand mountain was soaring through the Void.

The person was filled with a strong sense of grandeur and solidity.

Behind him, above the massive Pill Fusion, ten Golden Cores with visions appeared.

Among these ten Golden Cores, eight bore the visions of various grand mountains – lofty ones, elegant ones, towering ones...

The remaining two Golden Cores featured visions of dragons – one black and one white – intertwining!

The aura emanating from this person was no weaker than that of Cao Zhen or Immortal Bi Yue.

In the blink of an eye, this person had already flown a great distance away.

Suddenly, a Void Crack fell in front of him, not just a random stream but one that could shoot out numerous Chaos of Void!

A huge suction force spread, and even Cao Zhen and the others behind felt the powerful pull of the crack.

At the same time, many Chaos of Void shot towards the person, each stream as sharp as a Divine Weapon in the hands of an Earth Immortal Realm master, cutting through the Void and leaving clear marks with ease.

Just as these rifts were about to shred him into dust, the ten Golden Cores on his back shone brightly, and a sea of Spiritual Energy surged within each core, producing a terrifying Mana that swept this corner of Heaven and Earth, almost overturning the world.

In his hand appeared a pagoda that was strikingly disproportionate to his frame, seemingly taller than him. He grasped the pagoda and swung it forward with force.

In an instant, a fierce wind howled, a piercing gust blew, even altering the direction of the Chaos of Void falling towards him, causing them to fly to the side instead.

Moreover, the pagoda dazzled with golden light, pounding heavily upon the Void Crack.

The next moment, under the immense power, the crack exploded with a boom, followed by more Chaos of Void shooting out in all directions, dense like rain.

The brunt of it, more Chaos of Void, shot directly at the person of short stature.

But then, mountainous visions appeared in front of him, shielding him in the center; suddenly, the Chaos of Void were unable to touch him in the slightest.

This person had no issues, but behind him, many people were directly facing the Chaos of Void.

Cao Zhen and his three companions were relatively at ease; Cao Zhen ducked from the incoming streams while glancing at Immortal Bi Yue.

Although Immortal Bi Yue had not known Cao Zhen for long, the two had spent almost all their time together since meeting, and she understood him very well. Just by catching Cao Zhen's gaze, she understood his thoughts and introduced, "The person just now is a disciple of Elder Long Yue, his name is Yue Shuanglong, and he too is at the Golden Core Period Limit.

However, although he has inherited from Elder Long Yue, his combat style is vastly different from Elder Long Yue's. Elder Long Yue's style is all about offense, ceaseless aggression.

But as you have seen, the visions of great mountains that appear around him suggest he is more adept at defense."

Indeed, it is interesting to mention that Elder Long Yue is a tall and handsome Cultivator, yet his disciple, Yue Shuanglong, is quite skinny and... well, frankly, looks rather sleazy."

He doesn't seem at all like a disciple of Elder Long Yue."

At the side, Jiu Yin, after hearing Immortal Bi Yue's explanation, muttered under her breath, "Immortal Bi Yue, Yue Shuanglong is Elder Long Yue's disciple, not his son, isn't it normal that they don't look alike?"

Immortal Bi Yue quickly realized and nodded continuously, "True, that's a good point. However, Elder Long Yue's other two disciples both look magnificent, except for this Yue Shuanglong..."

While dodging incoming streams of Void, Cao Zhen asked, "The Elder Long Yue you mentioned, is he a Loose Cultivator?"

"Hm? Yes, he is indeed a Loose Cultivator. And none of Elder Long Yue's three disciples are in seclusion; among them, two are at the Golden Core Period Limit."

As she spoke, she seemed to recall something and suddenly exclaimed to Cao Zhen, "You're not thinking of raiding Elder Long Yue's living grave because he's a Loose Cultivator, right?"

Although Elder Long Yue is a Loose Cultivator, he is on good terms with many Great Teachings; raiding his living grave might be a bit of a hassle. Additionally, he has a good relationship with our Dragon Chant Sect as well."

Chapter 1317:

Cao Zhen looked at Immortal Bi Yue with a speechless face, wondering where she got the idea that he liked to dig up the graves of the living. Besides, Elder Long Yue hadn't provoked him at all, so why on earth would he go disturb his resting place!

As Yue Shuanglong soared into the sky, one expert after another swiftly flew forward, unleashing Divine Skills. Among them, many even joined forces, seemingly forming a Formation as they advanced together.

The largest group among them consisted of forty-nine individuals.

These forty-nine people were divided into seven groups of seven, forming a pattern resembling the Big Dipper, with each septet taking the shape of an individual star. Altogether, the seven groups formed a larger Big Dipper.

Beneath everyone's feet, there was a trail of silver light linking them, with the silvery glow shimmering like a river, pooling together their Mana and breath into one.

Suddenly, not far in front of Cao Zhen, the air began to oscillate violently without warning.

With the shaking of this space, a pitch-black Void Fracture appeared about fifteen yards ahead of him, splitting the space open.

With the appearance of this Void Fracture,

In an instant, streams of Chaos of Void shot out from the fracture with sharp edges, as if they could easily tear through mountains, rivers, and stars.

Moreover, these streams of Chaos of Void had no pattern to their fall. Although they were extremely close to Cao Zhen, they did not all shoot towards him, but scattered in all directions.

Many Golden Core Stage cultivators following behind Cao Zhen and the others panicked in the face of the sudden Chaos of Void. Before the streams even touched them, they could feel their cheeks stinging as if whipped by the wind.

Cao Zhen bore the brunt of it, facing even more streams of Chaos of Void.

Unfortunately, at this very moment, two Void Fractures moved beside him, intersecting one another, violently shaking the space around them. These two Void Fractures continued to overlap, and within moments, they formed a massive Void Vortex.

In no time at all, the space around them became wrinkled and twisted. It felt as if the whole area would collapse at any moment.

After the Void Vortex formed, fearsome forces of ripping surged out, and endless streams of Chaos of Void shot out from within the vortex.

Those following behind, numerous Golden Core Stage cultivators, felt at that instant as if they were a small boat amidst the ocean, struck by towering waves; a vast momentum hit them head-on, causing their inner energies to churn and their internal organs to feel as though they were shattering.

Each stream of Chaos of Void that passed could easily slice through their skin!

In the midst of this tempest-like Chaos of Void, ten kinds of luminous Protective Divine Power ignited around Cao Zhen. But it seemed as if their presence made no difference at all – despite the proximity, Cao Zhen managed to evade nearly all the streams of Chaos of Void.

The occasional streams that did land on him were instantly nullified by his Protective Divine Power.

It seems that the Protective Divine Power on his body is indeed somewhat necessary.

However, not far away, Xiang Ziyu was merely relying on his movement technique to dodge all the Chaos of Void effortlessly.

In the distance, a member of the Heaven Prayers Sect, the Huan Tian Demon, watched with a look of astonishment as Xiang Ziyu and Cao Zhen, in the eye of a storm of Chaos of Void, still managed to dodge with ease.

Although she was not at the Golden Core Period Limit, she had exchanged moves with those at the Golden Core Period Limit, and not just with one such individual.

Even though the Heaven Prayers Sect was somewhat looked down upon among the great teachings, she had good relations with some of the masters and geniuses from the larger sects. Otherwise, they would not have sent her to recruit those at the Golden Core Period Limit to help with the Heavenly Tribulation.

But even with those connections, when it came to matters of their interest, those people would charge a steep price, one higher than the next.

In any case, having sparred with those at the Golden Core Period Limit, she was well aware of their power. With such Chaos of Void flying at speeds as fast as lightning, devoid of any pattern, even if one sees the Chaos of Void approaching, attempting to dodge could still mean that, mid-dodge, the Chaos of Void might change direction towards where one is dodging or even other streams of Chaos of Void might change direction and converge on the same spot.

Therefore, in the storm center of the Chaos of Void, even those at the Golden Core Period Limit could not dodge all Chaos of Void streams—it's truly terrifying!

Yet now, there were people who could!

How could that Xiang Ziyu possess such incredible speed and reaction times? And that Cao Zhen. Although Cao Zhen couldn't dodge every stream of Chaos of Void, he dodged even the big swollen streams of Chaos of Void.

Not only did Huan Tian notice the terrifying capabilities of Cao Zhen and Xiang Ziyu, many others also noticed. They didn't even need to use any Divine Skills, just relying on their own movement technique, they dodged through the streams of Chaos of Void.

Apart from them, there was also Immortal Bi Yue, who did not use Divine Skills to strike down the falling Chaos of Void. Her steps were light, constantly moving around, and every time her toes touched the air, a starry Xu Ying appeared beneath her feet. From afar, it looked as if she was dancing solo in the night sky, her feet stepping on shooting stars.

Jiu Yin watched the three of them effortlessly dodge the Chaos of Void, the ten extraordinary Golden Cores behind her spun rapidly, and a surge of ultimate Yin power emerged from her back.

In front of her, a crescent moon appeared, and an overwhelming, soul-shattering power emerged from it.

With the wave of her hand, she drew a semi-arc through the air from the Void, perfectly matching the shape of that crescent moon. The crescent seemed to become a sharp Sword Energy, and as it sliced through the air, the Chaos of Void streams were violently destroyed—some cut in half, breaking into pieces, and some even vanishing into oblivion!

Jiu Yin quickly caught up with Cao Zhen, Xiang Ziyu, and Immortal Bi Yue ahead. Although she was also at the Golden Core Period Limit, her other three companions were much faster than her.

Immortal Bi Yue was originally known for her speed, and with silver light wings behind Cao Zhen's back, even if he couldn't exert his full strength, he could still increase his flying speed.

Although Xiang Ziyu was not skilled in movement techniques, nor did he have any special winged Treasures, Xiang Ziyu's Physical Strength was too terrifying, and his speed was still extremely fast.

Jiu Yin sadly realized that despite being at the Golden Core Period Limit, she was lagging behind the entire team.

Chapter 1318:

After the initiation of the Qiankun small epoch, the Eastern Province also saw many ancient ruins emerge, but never has there been a relic as bizarre as this one, where all who enter are attacked by the Chaos of Void.

Cao Zhen even feels that rather than calling it a relic, it would be more accurate to describe it as an Asura Purgatory battleground.

He, along with Xiang Ziyu, Immortal Bi Yue, and Jiu Yin, could evade these chaotic streams of the Void; that is because they exist at the Golden Core Period Limit. However, others are much less fortunate.

Faced with such dense Chaos of Void, and terrifying void cracks forming vortexes, let's not even mention those typical cultivators who achieved the Ten Different Phenomena of Perfect Completion Golden Core; even the top cultivators at that level could be in danger.

The Chaos of Void streams fly down, faster and more fierce than the thunderbolts from Heavenly Tribulation! What's more terrifying is that these streams have no discernible pattern.

Cao Zhen flies at the front of the crowd. He doesn't look back, but he can still hear the screams of agony coming from behind him.

Fortunately, he didn't bring other Disciples of the Hundred Peaks Sect this time; otherwise, it would have been truly dangerous.

Although the chaotic streams lack any pattern, the further forward one goes, the more numerous become the void cracks, and inevitably, the void vortexes, which result in an increase in the Chaos of Void.

Cao Zhen slowly feels the pressure mounting. The breath within his body climbs rapidly, the light from ten Protective Divine Powers converges around him, with a Blue Sharp Sword in hand.

This was the Treasure that Immortal Bi Yue had chosen after they helped the Five Sounds Sect through the Heavenly Tribulation, and she directly gifted it to him.

Every Treasure has its own name, but now, during the Reversal Mini Epoch Period, he could not exploit the true power of the Treasure, nor could he bond with it through a blood pact; therefore, he does not know the name of this Treasure.

As mana surges into the Blue Longsword, suddenly, thunderous rumbling noises erupt within it, with arcs of blue lightning appearing around the sword. As Cao Zhen wields the Longsword, the flashes of his sword are accompanied by arcs of electricity. The Chaos of Void that are struck by the sword dissipate into nothingness.

The main issue is that his cultivation of the Eight Nine Mysterious Art is still too rudimentary.

He recalls reading in novels from his past life about two individuals, Yang Jian and Yuan Hong, who cultivated the Eight Nine Mysterious Art to the point where they could dodge all manner of Divine Skills and Spells with just their bodies, practically invulnerable, possessing the Vajra Indestructible Body.

He doesn't know to what extent the two had cultivated the Eight Nine Mysterious Art, but his own cultivation of it still has a long way to go. Currently, he can no longer dodge the Chaos of Void with just his body and must rely on his Divine Powers and Swordsmanship to stop them.

Meanwhile, Immortal Bi Yue seems to be doing even better than he is.

Under Immortal Bi Yue's feet, stars continually emerge. She lightly steps upon these stars, and from a distance, she resembles a dragonfly skimming the water, or rather, an Immortal, dancing upon flecks of starlight against the night sky.

She doesn't need to use Divine Skills to block these chaotic streams, just continuously dodge them instead.

Gradually, Cao Zhen starts accelerating, and they even begin to catch up to Yue Shuanglong, who is flying in the lead.

At this moment, the chaotic streams in the Void become denser and unavoidable to the extent that one must confront them directly.

In front of Immortal Bi Yue, Chaos of Void assail her from all directions, seemingly intent on slicing her into shreds.

Suddenly, space explodes in front of her, a boundless force blasting in all directions, shattering the Chaos of Void upon impact.

Within the blasted space, resonant dragon roars echo forth.

A snow-white dragon-shaped Xu Ying emerges, emitting a majestic and vast aura as if the explosion in space was caused by its traverse across the Void.

The white dragon howls to the sky, and in an instant, a visible wave of sound disperses like ripples on water, shattering the sharp blade-like Chaos of Void streams with its terrifying power.

For a moment, a true vacuum forms around her, but it is quickly assaulted once again by more streams of Chaos of Void.

Immediately, Immortal Bi Yue's progress is significantly hindered.

On another side, Xiang Ziyu, faced with the Chaos of Void from all directions, can no longer dodge them. No matter how fast he is, there must be space to dodge.

Gazing at these streams, a black and a white Xu Ying emerge from the phenomena on his back; the black is darker than the darkest imaginable hue, and the white is utterly pure, devoid of any impurities.

The aura emitted by these two figures is vastly different: the white Xu Ying is imbued with an elusive aura of Immortality, as if descending from the Nine Heavens, while the black Xu Ying exudes a domineering, malicious, and sinister terror, like a supreme Demon Head rising from the darkest depths.

Within these twin airs, the forces of Yin and Yang pulsate; the white represents Yang, and the black represents Yin.

The very next moment, the two Xu Ying on his back begin to spin.

Chapter 1319:

Suddenly, the air around him also began to stir with the rotation of these two Xu Ying,

Behind him, two humanoid Xu Ying, one black and one white, also emerged, integrating Yin and Yang.

For a moment, streams of pure Yin and Yang forces surged around his body. Xiang Ziyu did not use any Divine Skills, but simply wrapped his body with the Yin and Yang forces, and then charged forward like that.

Streams of Chaos of Void fell, striking his body and causing the Yin and Yang forces around him to shake wildly.

Although the Yin and Yang forces were mysterious and powerful, there were simply too many Chaos of Void. Each and every one of the Chaos of Void flew at him, each as sharp as the sword strike of a top Sword Dao master, a strike with a lifetime of power, each Chaos of Void was incomparably sharp.

But just after a moment, Xiang Ziyu's body, wrapped in Yin and Yang forces, showed signs of damage, and the Void Cracks struck his flesh, cutting his skin open.

Yet Xiang Ziyu seemed as if he had not been injured at all, still charging forward with astonishing speed, his whole person emitting a domineering aura of unrivaled supremacy!

Just moments later, Xiang Ziyu had already charged to the very front.

From behind, the crowd watched as Xiang Ziyu rapidly advanced without slowing down, his distance from the others growing larger and larger. Everyone's hearts were filled with shock.

"This..."

"Is this still Golden Core Stage?"

"He just charged through like that? He can actually withstand the Chaos of Void?"

Behind Xiang Ziyu, ahead of Yue Shuanglong, a blast like a thunderclap exploded, where two Void Cracks overlapped, forming a massive Void Vortex.

In a flash, countless streams of Chaos of Void shot out, heading straight for Yue Shuanglong's face.

Yue Shuanglong's expression abruptly tightened, and in an instant, eight Gao Shan materialized in front of him, protecting him in the middle. Chains linked each Gao Shan, connecting the eight together like the existence of the Bagua, each mountain representing one trigram.

From afar, those chains seemed not to be chains, but rather Divine Dragons.

On top of these eight Gao Shan, numerous complex Runes covered them, their light flickering, imparting an endless, majestic essence to this world.

In this instant, these eight Gao Shan even gave off the impression that they were indestructible.

But beside them, in the Void, two more Void Cracks emerged, overlapping to form another Void Vortex.

For a time, two Void Vortices appeared around him, and both Vortices were extremely close to each other.

The next moment, the two Void Vortices overlapped, and with that, the entire Void exploded with a thunderous boom!

"Damn it!"

Yue Shuanglong cursed softly, rapidly retreating backward, but the explosion from the overlapping vortices was too terrifying, and at the same time countless streams of Chaos of Void rained down upon him.

The terrifying force of countless Chaos of Void and the explosion of the Void Vortices bombarded the eight Gao Shan, causing deafening blasts to resonate.

Even Yue Shuanglong felt a piercing pain in his ears, with trickles of fresh blood flowing out.

In front of him, the eight Gao Shan collapsed thunderously, and streams of Chaos of Void fell upon him, shattering his Protective Divine Power instantly.

One of the Chaos of Void hit him directly in the leg, and at once, the flesh on his thigh was torn off, revealing a deep, bone-visible wound.

He was even sent flying uncontrollably backward due to the terrifying impact.

From behind, the crowd watched with heart-pounding fear.

Yue Shuanglong was a Golden Core Period Limit existence; even he got injured instantly in this Chaos of Void, let alone themselves.

Just now, two Void Vortices suddenly appeared, but what if there were three, or even four?

Now, the crowd was filled with regret. Had they known it would be like this, they never would have entered this ruin.

What exactly did the Heaven Prayers Sect do? The relic of life given by the Heavenly Dao turned out to be so terrifying!

The members of the Heaven Prayers Sect gathered together, jointly resisting the Chaos of Void, but even so, their Disciples kept dying one after another.

The Heaven Prayers Sect had the most people entering here, so now, they were the ones with the most Disciple casualties.

"That Xiang Ziyu..."

Suddenly, everyone's gaze once again fell on Xiang Ziyu at the forefront.

A stream of Chaos of Void flew past, slicing Xiang Ziyu's arm and leaving a trail of blood. The blood spurted out, but Xiang Ziyu seemed as if he wasn't injured at all, continuing to charge forward without slowing down.

Suddenly, everyone noticed something special about Xiang Ziyu!

"What, what kind of Physical Strength does he possess!"

"At the same Golden Core Period Limit, Yue Shuanglong was pierced by the Chaos of Void, his wound was deep enough to see the bone, but Xiang Ziyu's wound is clearly not that deep, you can't even see the bone."

"If it was one or two Chaos of Void, perhaps it was by chance, but none of the Chaos of Void falling on Xiang Ziyu could pierce his flesh!"

"Not just Yue Shuanglong; look, Jiu Yin Immortal has also been injured, with a similarly bone-visible wound!"

"Only Xiang Ziyu, his Physical Strength is frighteningly strong!"

Suddenly, someone realized, and exclaimed loudly: "Golden Core Period Limit! Xiang Ziyu has not only reached the Limit of Mana of the Golden Core Stage, but his Physical Strength has also reached the Golden Core Stage Limit."

Chapter 1320:

"What! His physical body has also reached the Golden Core Period Limit!"

"That's right, only when the physical body reaches the Golden Core Period Limit can this situation occur!"

"Both body and mana reaching the Golden Core Period Limit, in our entire Eastern Province, it seems he is the only one whose both physical body and mana have reached the Golden Core Period Limit!"

"Therefore, Xiang Ziyu is very likely to be, in this era, the strongest expert in the entire Eastern Province!"

"It's not just very likely, the strongest person is indeed him!"

"It is said that even the Sect Hierarchy of the All-encompassing Sect during the Minor Era of Inversion of Heaven and Earth didn't reach the limit of his physical body!"

"The All-encompassing Sect, they are the number one in Body Refining in the Eastern Province!"

"This guy, he is truly terrifying!"

"He is still charging forward!"

At this moment, almost everyone's gaze was on Xiang Ziyu.

Although, at this time, there are several other experts who have reached the limit of the Golden Core Stage who have entered this relic, none can keep up with Xiang Ziyu.

Xiang Ziyu far outstripped everyone behind him, and even some who were further back could hardly see his figure.

Cao Zhen's body was enveloped with mana surging rapidly, but even possessing Silver Light Wings, he could not catch up to Xiang Ziyu; he himself has only reached the mana limit of the Golden Core Stage, but his physical body had not!

Or, should I also try what Xiang Ziyu did, self-destruct a Golden Core?

Cao Zhen, looking at Xiang Ziyu who had left him far behind, suddenly had an idea—Xiang Ziyu had already proven that, by cultivating the Eight Nine Mysterious Art to level ten and reaching Great Perfection, one could bring his physical body to the limit of the Golden Core Stage.

And because of Xiang Ziyu, he had also advanced to level ten of the Eight Nine Mysterious Art effortlessly, so if he self-destructed a Golden Core, he could immediately begin cultivating the Eight Nine Mysterious Art and then bring his physical body to the limit of the Golden Core Stage.

The only issue is, how can his mana once again reach the limit of the Golden Core Stage?

After Xiang Ziyu self-destructed a Golden Core, the reason he was still able to reach the Golden Core Stage Limit was that Xiang Ziyu previously did not fully understand the power of Yin and Yang. Later, his understanding deepened, but he had already reached the limit of the Golden Core Stage and could no longer cultivate.

After he self-destructed a Golden Core, he precisely cultivated the power of Yin and Yang along with the Eight Nine Mysterious Art, which is why he achieved the Golden Core Stage Limit.

Cao Zhen deduced that the Eight Nine Mysterious Art should not only increase physical toughness and body strength but also increase the strength of mana, otherwise, why would it suddenly become impossible to cultivate further?

Besides, aside from Body Refining, the Eight Nine Mysterious Art has many variations, which should necessarily increase mana strength.

Previously, since their mana had reached the limit of the Golden Core Stage, they could not cultivate the Eight Nine Mysterious Art, but after self-destructing a Golden Core, they were no longer at the limit, and could perfectly cultivate the Eight Nine Mysterious Art.

The problem is, I do not possess the power of Yin and Yang for cultivation; relying solely on the Eight Nine Mysterious Art, my body could reach the limit of the Golden Core Stage, but my mana could not.

Unless, I cultivate Chaotic Power.

It is unknown whether cultivating Chaotic Power could bring me to the limit of the Golden Core Stage.

Cao Zhen only felt the power of Chaos, but now he already is at the Golden Core Stage Limit, a slight cultivation of Chaotic Power would exceed the limit of the Golden Core Stage, thus fundamentally making it impossible to cultivate. He does not know what cultivating Chaotic Power would entail.

In his contemplation, Xiang Ziyu had already charged to the forefront, and within just one breath's time, he would be able to enter that area that seems like an Immortal Realm.

"He's about to rush in."

"We are still so far from him."

"Does it mean that the treasures of this relic will all go to Xiang Ziyu?"

"What's the point of us entering this relic then?"

Under everyone's gaze, Xiang Ziyu rushed into that area resembling an Immortal Realm.

Suddenly, the whole area began to shake wildly.

Xiang Ziyu's gaze fell upon a blood-red Bronze Cauldron, merely the size of a palm.

As Xiang Ziyu flew into the area, the Bronze Cauldron suddenly shook as if wanting to fly away, but Xiang Ziyu raised his hand and grabbed it.

The Bronze Cauldron was not far in front of him; after capturing it, he did not even glance at it and instantly tucked it into the Qiankun Bag.

Immediately, as if he activated some mechanism, the whole world began to shake insanely, following which the Void Cracks gradually began to close.

In the sky, the Void Cracks, Chaos of Void, and Void Vortex all dissipated.

"What's happening? The Chaos of Void has disappeared?"

"The Chaos of Void disappeared, but the relic hasn't vanished!"

"Just now, did Xiang Ziyu get hold of something?"

"The distance was too far; I couldn't see clearly."

"So, what's the situation? Normally when the key treasure of a relic is taken, the relic disappears, but now the relic hasn't disappeared, which means that the key treasure of the relic hasn't been taken by anyone!"

"Let's go, quickly head to the front to check!"

People quickly reacted and flew towards the front.

As for Xiang Ziyu, they didn't pay attention to him anymore, some of them indeed vaguely saw Xiang Ziyu take something.

But since the relic hasn't disappeared, then what Xiang Ziyu took was not the best treasure of the relic.

It's not strange that Xiang Ziyu, being the first one to rush over, managed to get a treasure.
