

My Master 1451

Chapter 1451:

"Let Yi Sheng go into business with you?" Cao Zhen looked up at Tao Zhenghe and nodded, saying, "Sure, no problem. But in that case, what do I need you for?"

Tao Zhenghe's face changed instantly upon hearing this, and he quickly shook his head, saying, "No, I'm just making a suggestion. By the way, what should we sell as our first product? Our first batch has to make a big splash."

As he spoke, he shook his head, sighed, and said regretfully, "It would have been better if you and Yi Sheng hadn't attended our grand alchemy competition. That way, you could have crafted these two pills and sold them. Or, simply don't compete with these two pills, and I'll arrange a scheme to place you outside the top ten..."

Tao Zhenghe stopped speaking, as a terrifying murderous intent emanated from across him.

Cao Zhen looked coldly at Tao Zhenghe and said, "If you compensate me with sixty Treasures, I could agree to that."

Tao Zhenghe hurriedly waved his hand and said, "Just kidding, I'm just expressing some regret."

Cao Zhen replied indifferently, "Actually, it doesn't have much impact. We can just craft similar pills again, for instance, Yi Sheng's pill is called the Wind Fire Element Promotion Pill, and we can make the Wind Fire Tribulation Promotion Pill; I crafted the Trimming Tribulation Avoidance Pill, and we'll craft the Trimming Lowering Tribulation Pill.

We just need to alter the pill prescription a bit, and the effects are similar. We can price them lower when we sell them."

"Similar effects?" Hearing this, Tao Zhenghe was stunned. Can a pill prescription be casually changed?

Cao Zhen nodded firmly, saying, "You could say they're almost the same, and indeed, we have crafted other pills where the prescriptions are different."

"If that's the case, then we can really maneuver well." Tao Zhenghe grew excited immediately.

Before long, Tao Zhenghe left, starting to plan their new commerce association.

Unknowingly, three months had passed.

The alchemists at the alchemy grand event gathered together, awaiting the Rare Treasures Commerce Association to announce the final top ten pills.

In the crowd, the master alchemists waited anxiously, many of their gazes were directed at Cao Zhen and Yi Sheng.

As long as the pills crafted by Cao Zhen and Yi Sheng did not take the top two spots, then they could earn at least one Treasure.

Many even began to console each other.

"Don't worry, Cao Zhen must be using a trick; it's impossible for them to come first and second!"

"Even if they didn't use a trick, and even if Yi Sheng's pill could take first or second, then there's still Cao Zhen's forty Calamity Avoidance Pills, but Master Dan Yu also crafted Calamity Avoidance Pills, how could Cao Zhen's Calamity Avoidance Pills compare to those of Master Dan Yu!"

One of the spectators followed closely behind his master, listening to the discussions around him, growing more and more nervous, thinking, is my Immortal Sect really going to go bankrupt?

Finally, Tao Zhenghe appeared amidst the crowd, but he didn't even glance in Cao Zhen's direction as he directly announced aloud, "Thank you all for participating in our Rare Treasures Commerce Association's alchemy grand event. This time, the first place pill was crafted by Hundred Peaks Sect's Cao Zhen, Sect Leader Cao's Trimming Tribulation Avoidance Pill!"

As his words fell, cries of astonishment erupted around.

"What? It's Cao Zhen's pill?"

"Cao Zhen's pill? Are you sure there's nothing wrong with Cao Zhen's pills?"

"How could Cao Zhen take first place? Master Dan Yu also crafted Calamity Avoidance Pills, could Cao Zhen's be even stronger than Master Dan Yu's Calamity Avoidance Pills?"

Dan Yu's face turned extremely grim; according to past alchemy events, it was rare to have similar types of pills in the top ten, especially since they all crafted Calamity Avoidance Pills. With Cao Zhen's pill taking first, it's almost impossible for his pill to make the top ten!

"Chairman."

Dan Yu couldn't help but speak up, "It's not that we don't trust the Rare Treasures Commerce Association, but we're really curious why Cao Zhen's crafted pills can achieve first place."

He truly felt dissatisfied and didn't believe that Cao Zhen's Calamity Avoidance Pills could be stronger than their Divine Pill Sect's Calamity Avoidance Pills!

However, since the Rare Treasures Commerce Association was indeed the largest commerce association in the Central Five Provinces, he didn't want to offend them, so he spoke somewhat cautiously.

Tao Zhenghe secretly smiled upon hearing this, fearing only that no one would ask; if no one inquired, how could he promote the Trimming Tribulation Avoidance Pill? As Cao Zhen put it, without promoting the Trimming Tribulation Avoidance Pill, how could they associate it with their crafting of the Trimming Lowering Tribulation Pill?

Fixing his posture, he spoke loudly, "Sect Leader Cao, truly a reincarnated Great Ability, the Trimming Tribulation Avoidance Pill crafted by Sect Leader Cao is a groundbreaking Calamity Avoidance Pill.

Ordinary Calamity Avoidance Pills only help attract the Heavenly Tribulation with the pill, but after taking Sect Leader Cao's Calamity Avoidance Pill, the aura one emits weakens, thus making the descending Wind Fire Heavenly Tribulation weaker as well.

In other words, unless someone barely breaks through to the Wind Fire Tribulation cultivation base through pills and time, and furthermore, has been gravely injured in the Wind Fire Tribulation and never recovered, damaging their foundation, otherwise, anyone at the Wind Fire Tribulation cultivation base can successfully overcome the Wind Fire Heavenly Tribulation after taking Sect Leader Cao's Trimming Tribulation Avoidance Pill!"

Chapter 1452:

As Tao Zhenghe's voice fell, the surrounding crowd seemed to explode instantly, producing exclamations of astonishment!

"What?"

"A completely different Calamity Avoidance Pill?"

"Directly lowering the aura, how did he do it?"

"Is that still a Calamity Avoidance Pill? Even with a Wind Fire Tribulation, there's danger when using such a pill. According to what they say, a normal Wind Fire Tribulation will definitely be successfully overcome as long as one takes Cao Zhen's pill. This way, there will be so many Earth Immortal Realm experts in the world!"

"Is it true?"

Tao Zhenghe had anticipated the crowd's reaction and spoke again: "I know, some of you may not believe it. When we tested Sect Leader Cao's Trimming Tribulation Avoidance Pill, we had the same reaction as you.

Therefore, although there's no necessity, our Rare Treasures Commerce Association has chosen to show you once more the effect of Sect Leader Cao's Trimming Tribulation Avoidance Pill."

As Tao Zhenghe spoke, he waved his hand towards the rear, and two experts of Wind Fire Tribulation cultivation base flew over.

During the ranking announcement at the Alchemy event, he had already discussed concealing the pill refined by Cao Zhen with the high-level members of the Rare Treasures Commerce Association. The purpose was simple: to promote the Trimming Tribulation Avoidance Pill!

Although he is the president of the Rare Treasures Commerce Association, he is only a president during the Reversal Mini Epoch Period. His authority, although greater than many temporary Sect Hierarchs of the Great Teachings, is also limited. Many matters need to be reported to the high-level members of the Rare Treasures Commerce Association.

The high-level members unanimously approved his decision.

They could also see the value of the Trimming Tribulation Avoidance Pill, and all agreed to fully rotate the production of both the Trimming Tribulation Avoidance Pill and Yi Sheng's Wind Fire Element Promotion Pill.

Since a strong rotation is required, it is natural to first spread these two kinds of pills among the circles of Alchemists.

Moreover, to highlight the power of the Trimming Tribulation Avoidance Pill refined by Cao Zhen, it is best to find a person for comparison. There is no better object for comparison than the Calamity Avoidance Pill refined by Dan Yu.

Tao Zhenghe took out two bottles of pills and said: "These two bottles are pills refined by Sect Leader Cao and Master Dan Yu respectively. I will have them take one pill each, and everyone can compare the effects."

With that, he turned back to the two and said, "You may choose which pill to use yourself."

The two experts of Wind Fire Tribulation cultivation base hesitated for a moment, then both reached for the pill refined by Cao Zhen. After all, it was the pill ranked first by the Rare Treasures Commerce

Association. However, one of them moved faster and grabbed Cao Zhen's pill first, leaving the other to choose Dan Yu's pill.

After selecting the pills, they quickly released their own mana.

Instantly, in the void, tribulation clouds appeared.

Although the surrounding crowd were all Alchemists, many had witnessed the ordeal of someone undergoing the Wind Fire Tribulation. Even if they hadn't seen it, they had read many records and knew the power of the Wind Fire Heavenly Tribulation.

Moreover, with two people undergoing tribulation at the same time, they immediately noticed the difference.

"The one who took the Calamity Avoidance Pill refined by Cao Zhen, the power of the Wind Fire Heavenly Tribulation he is facing is indeed much less!"

"The difference is too noticeable! I feel like the power difference of the Wind Fire Heavenly Tribulation faced by the two seems to be nearly double!"

"Is this still the Wind Fire Heavenly Tribulation? I feel that even a slightly stronger Ten Different Phenomena of Golden Elixir Great Perfection could overcome this Wind Fire Heavenly Tribulation!"

The contrast of the two undergoing tribulation at the same time was simply too striking.

After just a moment, the expert of the Wind Fire Tribulation who took the Calamity Avoidance Pill refined by Cao Zhen had successfully overcome the tribulation, falling into a deep sleep. His body showed no visible injuries.

Meanwhile, the other Wind Fire Tribulation expert was covered with marks of wind blade cuts and flame burns, his body riddled with scars. In the final moments, he even used two treasures successively to successfully overcome the Wind Fire Heavenly Tribulation, after which he immediately fell into a deep sleep.

Tao Zhenghe quickly sent people to place the two in the prepared living graves, then looked around and asked, "Do any of you have any issues with Sect Leader Cao's Calamity Avoidance Pill being ranked first?"

The surrounding crowd shook their heads mechanically, thoroughly stunned!

"This is the true Calamity Avoidance Pill!"

"Indeed, as stated by the Rare Treasures Commerce Association, taking this Calamity Avoidance Pill almost guarantees successfully overcoming the tribulation!"

"Once this pill is introduced, except for those exceptionally powerful Wind Fire Tribulation practitioners confident enough to rely on their own strength, no one else can refuse this pill!"

"This pill certainly deserves first place!"

In the crowd, Luo Zhen was also full of surprise. He knew Cao Zhen's alchemy skills were extremely fearsome; otherwise, he wouldn't have collaborated with him to play tricks on others. But he never expected Cao Zhen's alchemy ability was so advanced, capable of producing such a terrifying Calamity Avoidance Pill!

After his shock subsided, he quickly responded, deliberately calling out, "President, are you sure that pill was refined by Cao Zhen? Did Cao Zhen use any deceitful methods, or is it possible the pill wasn't actually refined by Cao Zhen, but something he had prepared long ago?"

After all, he planned to continue surviving in the pill master circle, and he couldn't let others know he was collaborating with Cao Zhen to deceive people, so he thought it best to act it out — maybe he could fool everyone!

Chapter 1453:

Tao Zhenghe had already learned from Cao Zhen that Cao Zhen and Luo Zhen were colluding to deceive everyone. Hearing Cao Zhen's words, he chuckled inwardly. This Luo Zhen was quite the actor, so he cooperated and said, "Deceive? The effect of the pills is right here, how is it a deception? Besides, everyone saw Sect Leader Cao refine the pills, so how can they not be his creation?"

"But..." Luo Zhen murmured, yet couldn't say a word.

The people around instantly realized—they had bet with Cao Zhen. Now that Cao Zhen's pills had already won first place, what about the second?

The pill refined by Cao Zhen's disciple Yi Sheng could allow people to swiftly undergo Heavenly Tribulation. It was theoretically the most suitable, complementing the promotion of Cao Zhen's Calamity Avoidance Pill.

The pill refined by Yi Sheng wouldn't...

Some of those who bet, startled, couldn't help but ask aloud, "Chairman, then what about the second? Who took the second place?"

Tao Zhenghe cooperatively replied, "The one who got second is also an Alchemy Master from the Hundred Peaks Sect, the Wind Fire Element Promotion Pill refined by Sect Leader Cao's disciple, Yi Sheng!"

As his words fell, cries of surprise echoed around!

"It's really her!"

"It's actually her!"

"So it's true, Cao Zhen and his disciple really swept the top two positions of this alchemy grand event!"

"Our Treasure, our Treasures!"

"I bet two Treasures!"

Listening to Tao Zhenghe's words, Cao Zhen's expression remained unchanged. He had already come to an agreement with Tao Zhenghe. Not to mention that the pills refined by Cao Zhen and Yi Sheng were initially of great value, even if their pills weren't the best, Tao Zhenghe could promote them to first and second place.

All around, many people, after their surprise, turned to look at Luo Zhen.

"Luo Zhen, you misled me!"

"Luo Zhen, what grudge do you have against me to harm me like this!"

"Luo Zhen, return my Treasure!"

They knew that the Rare Treasures Commerce Association had already selected the first and second, and given that the pills of Cao Zhen and Yi Sheng were indeed of great value, the Association wouldn't change the rankings due to their protests, so for a moment, Luo Zhen became the target of all.

Seeing everyone wanting to kill him, Luo Zhen shrugged his shoulders, revealing a disgruntled expression, saying, "Return to you? Did I ask you to bet? It was you who wanted to bet. At first, when I asked to borrow your Treasures, you refused and insisted on betting yourself.

Now that you've lost money, you blame me? Do you think I wanted to see Cao Zhen win? In the end, I was also deceived by Cao Zhen. The pill he first refined definitely had issues. If his first refined pill had no problem, why hasn't his mana recovered to the Golden Core Period Limit!"

Cao Zhen suddenly laughed. No matter what, Luo Zhen had cooperated with him, allowing him to earn some free Treasures. Moreover, if it weren't for Luo Zhen actively seeking him out to set others up, he wouldn't have attended this alchemy event or met Tao Zhenghe, and wouldn't have established their Commerce Association together, so he explained a sentence for Luo Zhen.

"There was no problem with the pill I refined back then, and it's not that I haven't recovered my wounds; my mana has not recovered to the mana limit, which has nothing to do with my injuries.

The reason I did not let my mana recover to the Golden Core Period Limit is because I wanted to cultivate some other things, and as for what it is, it's not necessary for you to know.

Besides, it won't be long before I can recover to the extent where my mana reaches the Golden Core Period Limit. And even now, who is my opponent even when my mana hasn't reached the Golden Core Period Limit?

Why should I be in a hurry to restore my mana to the Golden Core Period Limit?"

As soon as Cao Zhen's words fell, for a moment, those around didn't know what to say. Cao Zhen's words indeed seemed sound, yet this manner of speaking.

If spread, what face would those self-proclaimed genius cultivators have?

Cao Zhen's words implied that his mana could reach the Golden Core Period Limit, but it was unnecessary, for he was already invincible.

Yet they couldn't find any fault with it.

Of course, Cao Zhen wasn't truly invincible, but the one person they knew who could defeat him seemed to be his disciple Xiang Ziyu.

In this light, Cao Zhen's words weren't unfounded.

The myriad looks at their master with even more aspiration in their gaze; this was their master. Who else but their master could speak such domineering words!

When could they be so formidable like their master!

Moreover, their master and senior sister won, which meant thirty pieces of Treasure!

Although Cao Zhen won thirty pieces of Treasure, these couldn't all belong to him.

Out of the thirty pieces, he took four pieces of Treasure, including the three he initially won from Luo Zhen, and gave them to Luo Zhen.

The remaining twenty-six pieces he and Bi Yue divided evenly, thirteen pieces each, as most of the capital Treasures were provided by Bi Yue, and he had already taken much advantage of Bi Yue; he couldn't keep taking advantage of her!

The alchemy grand event had concluded. Cao Zhen and Immortal Bi Yue soon left, as it was time for them to part ways.

"I'm planning to return to the Dragon Chant Sect," Immortal Bi Yue said earnestly, looking at Cao Zhen. "Once back, I intend to self-detonate a Golden Core, then cultivate the Eight Nine Mysterious Art, striving to push my physical body to the Golden Core Period Limit, and then cultivate my mana to the Golden Core Period Limit as well."

Chapter 1454:

Cao Zhen was speechless. Why do these people enjoy self-destructing their Golden Cores for no reason? He led his two disciples and Little Yin back to the Hundred Peaks Sect.

On the way, he felt that his current cultivation base was still too weak. The main reason was that the Eastern Province was simply too vast, and traveling back and forth truly wasted time. If he could cultivate to the Earth Immortal Realm, then traveling would be faster, and he wouldn't waste so much time on the road as he did now.

He reckoned that he had been away from the Hundred Peaks Sect for quite a while this time.

Returning to the Eastern Wasteland once again, he could clearly feel that it was more devastated than before. After all, there had been several invasions by the Demon Sect from Eastern Province, causing significant damage to the Eastern Wasteland.

However, the Guardian Immortal Imperial Dynasty, especially the area where their Hundred Peaks Sect was located, suffered relatively less impact.

Although Cao Zhen always acted as a hands-off shopkeeper, letting Nie Jie handle everything, upon returning to the Hundred Peaks Sect, there were still many decisions he needed to make.

"What's the first one hundred and first peak?"

Before Cao Zhen returned to Four Treasures Peak, he was intercepted by Nie Jie.

"So, after Qiao Jingyao experienced so many events, she feels that her current strength is not enough to become the sect leader of her sect. So, she wants to integrate their Celestial Plum Sect into our Hundred Peaks Sect?"

Listening to Nie Jie's words, Cao Zhen quickly understood and curiously asked, "Qiao Jingyao has maintained a good relationship with our Hundred Peaks Sect, and she has helped us fight several times before. It seems joining our Hundred Peaks Sect shouldn't be a problem. But this one hundred and first peak, would it still be called the Hundred Peaks Sect? Is there any historical precedent in our Hundred Peaks Sect?"

"Yes, there is." Nie Jie, having prepared for this, immediately replied upon hearing the question, "Our Hundred Peaks Sect once had a similar situation. At that time, there was a sect called the Solution Fire Sect. The sect leader of the Solution Fire Sect had a sworn bond with the Peak Master of our Hundred Peaks Sect's Azure Pheasant Peak.

Later, when the Solution Fire Sect faced a great calamity, the sect leader brought some disciples and came to seek refuge at our Hundred Peaks Sect. Initially, they took shelter with us at the Hundred Peaks Sect. We even allocated them a separate peak, naming it the Solution Fire Peak.

However, the sect leader of the Solution Fire Sect refused. He said they were merely seeking refuge and would consider themselves part of the Hundred Peaks Sect. But they stated that once they felt they were strong enough, they hoped to leave the Hundred Peaks Sect and rebuild the Solution Fire Sect.

Our sect leader at the time agreed, and then..."

Cao Zhen, immediately piqued by curiosity, asked, "And then what happened?"

"Then, the people from Solution Fire Sect gradually took root in our Hundred Peaks Sect, and then... as time went by, after the Peak Master of Azure Pheasant Peak and several experts from our Hundred Peaks Sect helped them exact revenge, a few years later, the major calamity we faced was the battle between our large sects and the Qi Tian Dynasty.

During that battle, many from the Solution Fire Peak died. The remaining people felt they were no longer suited to establish a sect, and much of their heritage was lost. Eventually, all the people of the Solution Fire Sect joined Azure Pheasant Peak."

Nie Jie paused for a moment before continuing, "Although the Solution Fire Sect did not establish a separate peak at that time, the sect leader said they could become the one hundred and first peak; they just didn't agree."

So there is a precedent to follow."

Cao Zhen shook his head with a smile and said, "Since there is a precedent, just agree to it directly without bothering me."

Nie Jie frowned and said, "But Yi Sheng also mentioned that when the time is right, she intends to leave the Hundred Peaks Sect. We..."

"Do you think they will consume our Hundred Peaks Sect's resources? It's just some resources, let them take them. Besides, Qiao Jingyao's strength is not weak, and she herself will obtain some resources. Even if she leaves our Hundred Peaks Sect in the future, they won't forget the kindness of the Hundred Peaks Sect. Just consider them as the one hundred and first peak, exactly the same as the other peaks."

Cao Zhen quickly made his decision. It's just a bit of resources, after all. Nie Jie didn't know the extent of his gains this time. Moreover, the harvest Xiang Ziyu got is likely even greater than his, as Xiang Ziyu directly took all the treasures from a True Immortal's grave.

The treasures used by a True Immortal cannot be used for the most part during the Minor Era of Inversion of Heaven and Earth period. After Cao Zhen returned to Four Treasures Peak, he merely asked briefly and didn't look into what treasures exactly. Those must be researched after the Minor Era of Inversion of Heaven and Earth ends.

Since the connection between the Eastern Wasteland and Eastern Province started from Cao Zhen's Four Treasures Peak, the disciples of Four Treasures Peak have all been busy for quite some time and haven't gathered together so neatly for a long time.

With Cao Zhen's return, the disciples of Four Treasures Peak finally assembled.

Many Enemies looked at his senior brothers and sisters one by one, feeling more secure in his heart.

Previously, he heard from the fifth senior sister that among their senior brothers and sisters at Four Treasures Peak, two were on the verge of breaking through to the Golden Core Period Limit.

Now, back at Four Treasures Peak, he knows that the second senior sister has already broken through to the Golden Core Period Limit, and his sixth senior sister is about to reach the Golden Core Period Limit as well.

Chapter 1455:

So, among my seven senior brothers and sisters, three have already reached the Golden Core Period Limit, and the other three are also close to it.

Hmm, only the Fourth Senior Brother is neither at the Golden Core Period Limit nor close to it, but is instead facing the Wind Fire Tribulation.

The Wind Fire Tribulation is known to easily trigger the Wind Fire Heavenly Tribulation.

In the future, I must remember to stay a bit away from the Fourth Senior Brother.

Ling Xi and the others were also very curious about the sudden addition of this young junior brother. They all knew that their master disliked trouble and was not fond of taking disciples. Now that the master had proactively accepted a disciple, how could they not be curious? They surrounded the young junior brother, asking all sorts of questions, until suddenly a silver dragon appeared beside Cao Zhen, instantly drawing everyone's attention.

"Master, is this a dragon?" Ling Xi barely finished speaking when Bei Yan quipped, "Senior Sister, are you sure it's a dragon and not a snake?"

"Idiot, have you ever seen a snake like this? It's clearly a dragon, and a small one at that. It must be a very special dragon." With a serious face, Xiang Ziyu walked over to the small dragon, extending a hand, "Come here, little dragon. You are so unique, once you grow up, you will surely be the most powerful dragon. Coming to the Hundred Peaks Sect with Master, arriving at our Four Treasures Peak, you are destined to become the steed of the protagonist, which is me.

Come, recognize your master now, and I will definitely lead you to stand at the pinnacle of the world."

The small dragon glanced at Xiang Ziyu but then turned its head to look at Cao Zhen, although it didn't speak, everyone thought its expression seemed to question its master whether Xiang Ziyu was a fool.

The small dragon preferred places with water.

Not far from where they lived, on a mountain peak, Cao Zhen chose a place and used mana to create an artificial lake, where he placed the small dragon.

In the following days, Cao Zhen didn't go out much and instead focused on alchemy.

Apart from making pills for the small dragon, he also needed to produce some Trimming Tribulation Avoidance Pills and Trimming Lowering Tribulation Pills, the latter of which would be sold through their commerce association after the Minor Era of Inversion of Heaven and Earth ended, aiming to make the association famous overnight!

The former was promised to Tao Zhenghe.

Although Tao Zhenghe was the president of the Rare Treasures Commerce Association, he couldn't go too far by making Cao Zhen produce no pills at all. Moreover, if the commerce association didn't have enough pills, it couldn't promote forcefully.

However, it didn't really matter because, if he fully devoted himself to alchemy, he could do it quickly since he could make multiple furnaces of pills at once.

Besides, for the pills made for the Rare Treasures Commerce Association, he could add strong herbs to speed up the pill formation process.

Since the pills were sold through the Rare Treasures Commerce Association, the association would provide the herbs, so there was no need for him to pay for the herbs, allowing him to add as much as possible.

As for his disciple Wan Ren Di, he had so many senior brothers and sisters to train him.

Wan Ren Di was in agony. He hadn't yet felt the guardianship of his senior brothers and sisters; instead, he already felt their strictness.

Second Senior Sister went unsaid, being cold and a blade fanatic, and she was exceptionally strict during teaching.

As for the Third Senior Brother, it was as the Fourth Senior Brother said, the Third Senior Brother really had some issues in his head. Although not strict while teaching, the cultivation methods suggested by him required the strength of four people to practice.

He was familiar with the Fifth Senior Sister, but the problem was she needed to follow the master for alchemy.

And the Sixth Senior Sister was extremely shrewd, not allowing him any chance to slack off.

As for the Seventh Senior Brother, the senior brothers and sisters didn't let him teach Wan Ren Di for fear that the Seventh Senior Brother, with his poor control, might accidentally beat him to death!

He had always hoped for the First Senior Sister to teach him, as she seemed so gentle, but when she did teach, she displayed her authority.

He truly felt like he was under both water and fire now.

Days passed one by one.

Under the guidance of his senior brothers and sisters and with the pill assistance his master occasionally provided, Wan Ren Di soon broke through to the Golden Core Stage.

After settling in the Golden Core Stage for some time, his master once again provided him with pills, directly allowing him to break through to the Ten Different Phenomena of Golden Elixir Great Perfection.

In the blink of an eye, more than thirty years had passed.

During this time, nothing major happened in the Hundred Peaks Sect, except that the sect recruited three more top-tier Immortal Bodies.

Among them was the fifth child of the Shen family.

The Shen family's previous four children were all Immortal Bodies, with some even having high level Immortal Bodies. Then, they couldn't have more children until the connection between Eastern Province and the Eastern Wasteland, which led to their fifth child, who was also a high level Immortal Body.

Besides this, over the thirty-plus years, the Hundred Peaks Sect only recruited two top-tier Immortal Bodies.

In fact, after the Eastern Wasteland connected with the Eastern Province, recruitment for disciples by sects in the Eastern Wasteland was indeed affected.

In many cases, when sects recruited disciples, many highly talented geniuses no longer directly joined the sect as they did before. Instead, they refused, opting to wait for opportunities to join the Great Teachings of the Eastern Province.

With the connection between the Eastern Wasteland and the Eastern Province, even ordinary people from the Eastern Wasteland learned of the existence of the Great Teachings. They were aware that some Great Teachings had even entered the Eastern Wasteland to recruit disciples.

Some sects forcibly took disciples into their mountain gates.

However, some sects believed that forcibly taking disciples would not ensure their loyalty. They thought such disciples might not have the fate to join and simply moved on if they didn't join.

Yet, the Hundred Peaks Sect didn't encounter such situations when recruiting disciples, possibly due to the sect's large reputation, its constant protection of its territory during disturbances, or the absence of recruiters from other Great Teachings in the area, resulting in all recruited disciples willingly joining.

Chapter 1456:

The Minor Era of Inversion of Heaven and Earth is about to end, and people from various power factions are beginning to retreat back to their great teachings or sects, preparing for the arrival of the normal era and the awakening of numerous Earth Immortal Realm experts.

Meanwhile, as the largest commerce association in the Eastern Province, the Rare Treasures Commerce Association suddenly fell into chaos.

The president of Rare Treasures Commerce Association during the Minor Era of Inversion of Heaven and Earth, Tao Zhenghe, suddenly left the Rare Treasures Commerce Association with all the vice-presidents and others.

Then, he even formed a new commerce association, called Pinbao Business Association.

Soon after, two kinds of pills began circulating in the cultivation world, the Trimming Lowering Tribulation Pill and the Wind Fire Tribulation Promotion Pill!

Over the past thirty years, Rare Treasures Commerce Association has been consistently promoting two kinds of pills, the Trimming Tribulation Avoidance Pill and the Wind Fire Element Promotion Pill. Everyone in the cultivation world knows these two pills, and they also know that these two pills were actually refined by Cao Zhen.

Although Yi Sheng could also refine these pills, Rare Treasures Commerce Association focused their promotion on Cao Zhen.

In fact, when Tao Zhenghe was formulating the promotion plan, he promoted Cao Zhen's identity as a reincarnated great ability just as much as the two pills, emphasizing how skilled Cao Zhen was at alchemy.

Now, after leaving Rare Treasures Commerce Association and starting to truly establish his own commerce association, he directly continued the previous promotion of Rare Treasures Commerce Association, stating that these two pills were refined by Cao Zhen and that their efficacy was not inferior to the Trimming Tribulation Avoidance Pill and Wind Fire Element Promotion Pill. Consequently, people in the cultivation world immediately took notice of these two similarly named pills and became aware of the Pinbao Business Association.

The Trimming Lowering Tribulation Pill and Wind Fire Tribulation Promotion Pill are priced the same as the Trimming Tribulation Avoidance Pill and Wind Fire Element Promotion Pill. Even though people know that these two pills were refined by Cao Zhen, more people still choose Rare Treasures Commerce Association.

However, Pinbao Business Association introduced a new sales method called group order!

Two people buying together can enjoy a group order discount, and the discounted price is only about eighty percent of the original price, creating a significant difference.

With the same efficacy, people will undoubtedly buy the cheaper one.

Furthermore, to prove the efficacy of the Trimming Lowering Tribulation Pill and the Wind Fire Tribulation Promotion Pill, Tao Zhenghe specially found someone undergoing a Wind Fire Tribulation and demonstrated it at a grand gathering of a great teaching, convincing people that these two pills were no different in efficacy from the Trimming Tribulation Avoidance Pill and Wind Fire Element Promotion Pill.

All of a sudden, the newly appointed president of the Rare Treasures Commerce Association was extremely anxious.

"That bastard, Tao Zhenghe, the traitor, had already teamed up with Cao Zhen after Cao Zhen attended the alchemy grand gathering. He had already begun preparing his commerce association when he was

still the president of our Rare Treasures Commerce Association. Otherwise, how could he have established so many commerce associations so quickly!

And how did he negotiate with Cao Zhen and them? A fifty-fifty split can be acceptable, given the high value of these pills! But why is the quantity specified at two thousand pills? Two thousand pills are not enough!

What's the situation outside now? How's your investigation going?"

The president looked up at those around him, and the people below all had a worried expression.

"The situation isn't optimistic. Their group order sells at a cheaper price, and others want to group order with them unless we lower the price again."

"But how can we lower the price! Besides, they have another promotion called 'slash the price.' They distribute many talismans, and as long as a cultivator leaves their breath on someone else's talisman, it's considered as helping to slash the price. Once it's slashed, the price can be randomly reduced, and how much it reduces depends on the talisman. In the end, they can even determine who gets a free pill based on the talisman.

Now more and more cultivators are helping each other slash the price, especially those with Wind Fire Tribulation cultivation bases. Nowadays, the most common question in the cultivation world is, 'Did you help slash the price today?' Because this 'slash the price' promotion has made almost everyone in the cultivation world aware of Pinbao Business Association."

The president scratched his head, feeling a headache, and said, "Can't we sabotage this 'slash the price' promotion? We know so many masters of talisman making; can't they forge the same talismans?"

"We've tried, but we can't forge them!" One person below shook their head helplessly and said, "Their talisman-making technique is extremely unique and cannot be duplicated. Moreover, their Rare Treasures Commerce Association also used this 'slash the price' talisman to promote their talismans, claiming they knew top-notch talisman-making masters, saying their 'slash the price' talisman was made by that master and that master allowed them to exclusively sell the talismans he made.

Everyone previously studied the 'slash the price' talismans from Pinbao Business Association and found them unable to be mimicked, thus acknowledging the opponent's talisman-making method. So, when the opponent started selling talismans, their business was excellent too.

They only sold some of the simplest talismans. We bought some for research and found those talismans indeed stronger than ordinary talismans."

"Damn masters!" The president immediately exclaimed in anger upon hearing this, "That person must be Ling Xi from the Hundred Peaks Sect. The news about their Four Treasures Peak has already spread far and wide.

The Senior Disciple Ling Xi of Four Treasures Peak possesses the Ancient Talisman Immortal Body. The talismans must have been made by her. The Hundred Peaks Sect, they are really bold, daring to compete with our Rare Treasures Commerce Association for business.

Chapter 1457:

Sure, here is the translation:

``html

Currently, it is the Minor Era of Inversion of Heaven and Earth. Let's not act against them yet. After this era ends and those in the Earth Immortal Realm awaken, let's see how they remain arrogant!

As for Cao Zhen, he can provide a large amount of resources for his disciples with Ancient Immortal Bodies to break through to the Ten Different Phenomena of Golden Elixir Great Perfection, achieving the Golden Core Period Limit. I have seen the Earth Immortal Realm, how he would help his disciples improve!

Those people will only be rampant for the last decade or so during the Minor Era of Inversion of Heaven and Earth! Once the era concludes, there will naturally be others who will deal with them without us having to take action.

The key now is to find a way to surpass our opponents. At the very least, we must sell all the Pills we have! Otherwise, when the experts from our business association awaken and see what we've accomplished, I cannot imagine the wrath we will face!"

People at the Rare Treasures Commerce Association are desperately trying to find a way, but no matter what method they try, they find that they cannot deal with the Pinbao Business Association. More people are becoming aware of Pinbao Business Association in the Eastern Province, and many see a business opportunity, starting to join their ranks.

Cao Zhen has realized that Tao Zhenghe is truly a talent, having spread the Pinbao Business Association throughout most cities in the Eastern Province in a short time. Now, the Pinbao Business Association has almost become a household name in the cultivation world of the Eastern Province.

Moreover, the sales of Pinbao Business Association's products, whether the Talismans or Pills, are incredibly pleasing.

The only problem is transportation.

The Eastern Province is vast; transporting those Pills and Talismans from the Hundred Peaks Sect to different cities takes a considerable amount of time.

Unknowingly, the Minor Era of Inversion of Heaven and Earth has come to an end.

At the artificial lake palace of the Four Treasures Peak, a giant dragon covered with silver scales, more than ten yards long, soared into the sky, with bursts of fierce might emanating from its body, engulfing a space.

Golden Core Period Limit!

The little dragon has finally fully recovered with his help.

Cao Zhen, however, did not even look at the little dragon; the voice of China Cloud sounded in his mind.

'Beast control level breakthrough, administrator level increased by one, a random user connected, a designated user connected.'

During this time, Cao Zhen healed the little dragon's body not only through Alchemy but also studied the little dragon's body through the art of beast control, thus raising his beast control level.

"Please designate a user..."

The urgent voice of China Cloud quickly arrived.

Cao Zhen did not hesitate and immediately said, "Designate, my disciple Fearless Warrior."

All his other disciples were connected; there was no reason not to connect the youngest disciple.

Soon, the voice of China Cloud echoed.

'Connection success for Fearless Warrior of Hundred Peaks Sect, Four Treasures Peak...'

User: Fearless Warrior

Gender: Male:

Identity: Eighth Disciple of Hundred Peaks Sect, Four Treasures Peak.

Cultivation: Ten Different Phenomena of Golden Elixir Great Perfection.

Aptitude: Innate Escaping Body

Extra Experience Points: 1000

Alchemy Level: Level 1

Talisman Level: Level 1

Array Level: Level 1

Specialty: Escape!

Over the years, Fearless Warrior had also nearly reached the Golden Core Period Limit, but unlike his other senior brothers and sisters, except Bei Yan, who all reached the Golden Core Period Limit, he still has not reached it.

The five disciples of Four Treasures Peak all possess Ancient Immortal Bodies, making them invincible at the same Cultivation Realm. After Yan Yourong reached the Golden Core Period Limit, Duo Duo also reached it.

Next to reach the Golden Core Period Limit was Zhu Peng.

Though Zhu Peng is simple-minded, his talent for Cultivation is astonishing. In fact, Cao Zhen didn't guide Zhu Peng much, yet Zhu Peng reached the Golden Core Period Limit just by Cultivating.

Among his disciples, besides him and Xiang Ziyu, Zhu Peng's physical strength is the highest, nearing the Golden Core Period Limit.

The last one was Yi Sheng, who reached the Golden Core Period Limit this year as the Minor Era of Inversion of Heaven and Earth was ending.

With the Eastern Wasteland and Eastern Province connected and Spiritual Energy growing richer, many cultivators in the Eastern Wasteland have greatly improved their cultivation.

Even Li Ke has reached the Golden Core Period Limit.

Additionally, Qiao Jingyao, and later genius disciples recruited by the Hundred Peaks Sect, like Shen Lid and Liao Youdi, also reached nearly the Golden Core Period Limit.

Naturally, over the years, his Mana has also been restored to the Golden Core Period Limit!

As for Fearless Warrior's knack for running away, it's nothing strange. In the past, every force he joined, others perished while he escaped. What else could it be if not being good at running away!

As long as this brat does not specialize in bringing calamity, like causing catastrophe to his sect.

While Cao Zhen was contemplating, the voice of China Cloud once again appeared.

'Random user Yun Zhongzi has been connected.'

Yun Zhongzi?

Cao Zhen was stunned; could a ground chicken be connected too? Would he grow a pair of wings?

Soon, he opened the newly appeared document.

User: Yun Zhongzi.

Gender: Male

"Yun Zhongzi? So it wasn't Yun Zhongjun..."

Cao Zhen read further down.

Identity: Original Heaven Virtue Sect's disciple, Grandmaster of Artifact Refining!

Cao Zhen immediately realized, Yun Zhongzi is Thunder Master's mentor, isn't he? I seem to have ties with the Great Desolation world, now connecting with the third cultivator from that era.

Chapter 1458:

Yun Zhongzi excels in artifact refining, so it seems.

He vaguely remembers that the wings of Yun Zhongzi's disciple, Thunder Master, were modified by Yun Zhongzi, making Yun Zhongzi not only an alchemy maniac but also a modification maniac?

He continued to look down.

Cultivation Base: Golden Immortal!

Golden Immortal, besides the initial connection with Zhang Daoling, he finally connected with another Golden Immortal!

Expertise: Artifact Refining!

Alchemy Level: 30

Talisman Level: 30

Array Level: 30

Refining Level: 98

Ninety-eight level of refining!

This is the most top-tier artifact master!

Artifact refining...

The Minor Era of Inversion of Heaven and Earth is about to end, and once the normal era arrives, I will need to refine some treasures too. The connection with Yun Zhongzi came just in time.

And there's the little dragon.

Cao Zhen looked at the little dragon, whose body had recovered. He was now a normal dragon, and he should be guided. An adult dragon must do what an adult dragon should do.

Otherwise, even if Bi Yue is the saintess of the Dragon Chant Sect, it seems that not many people know of her status as a saintess. If those old guys from the Dragon Chant Sect awaken and then find out that the little dragon is with me, and insist on taking him back, what will I do?

Then I'd suffer a huge loss!

I must guide him first, and then find out if there are any female dragons around. If not, finding a few flood dragons or small female snakes will do.

Cao Zhen looked up at the sky and temporarily sealed the pill he was refining, quickly leaving Four Treasures Peak with his group of disciples, heading towards the back mountain of Hundred Peaks Sect, where the masters of the Earthly Immortal Realm were buried.

"Here they come!"

"Tomorrow, the Minor Era of Inversion of Heaven and Earth will end!"

At Hundred Peaks Sect, all the top members and disciples from various peaks gathered here, waiting for the masters to awaken.

The end of the Minor Era of Inversion of Heaven and Earth has a great impact on Hundred Peaks Sect.

For this reason, Nie Jie held multiple meetings to tell everyone to hold back a bit. Once the Minor Era of Inversion of Heaven and Earth ends, they won't be as strong and shouldn't be as reckless as before.

During the reversal mini epoch period, Hundred Peaks Sect had a large number of Golden Core Period Limit existences and those close to that level, making others hesitant to provoke them.

But once the Minor Era of Inversion of Heaven and Earth ends, the Golden Core Period Limit won't be the strongest anymore; it will be the Earth Immortal Realm instead.

Even if they act recklessly, there won't be anyone to protect them.

Moreover, the great teachings they offended before might also come to trouble them.

"I wonder how many people will awaken."

In the crowd, Nie Jie looked at the alive tombs ahead and asked Cao Zhen beside him: "Sect Leader, you are a reincarnated great ability, you should be able to judge how many people can awaken, right."

Cao Zhen was puzzled; how did he never notice Nie Jie was so talkative before? If you ask me, who do I ask?

"This, I don't know for now." Cao Zhen sighed slightly and said, "After all, this Minor Era of Inversion of Heaven and Earth was too special then, all the masters fell asleep, so how many will awaken after the end, I cannot judge."

Beside him, Li Ke looked at Cao Zhen with contempt and said in a mocking tone, "Continue pretending. You're not truly a reincarnated great ability, which is why you cannot judge; the true reincarnated great ability is Senior Long Aotian."

Now that I think about it, Senior Long has been missing for a long time; it should also be due to the influence of the Minor Era of Inversion of Heaven and Earth. After it ends, Senior Long should appear.

I wonder if by then Senior Long can teach me some cultivation techniques and divine skills. No, it shouldn't be divine skills but spells!

Also, my little cat needs to awaken.

Everyone just waited like this, and in a blink of an eye, a day's time had passed, but the moment the sky barely began to brighten the next day, suddenly the entire world started shaking madly. Not just the earth but also the sky and even in the void, the sun and moon appeared simultaneously, surrounded by a multitude of stars.

Then, a deafening noise came from afar in the sky, as if something was split in half.

Following this, Cao Zhen felt that the invisible shackles, which he had faintly felt ever since he reached the Golden Core Period Limit, disappeared. It seemed like the explosive sound shattered the shackles on him.

"The Minor Era of Inversion of Heaven and Earth has ended!"

Almost instantly, dozens of alive tombs in front of them started exploding amongst the crowds!

Then, a figure soared into the sky.

Meanwhile, amidst the crowd, loud voices echoed one after another.

"Master Lu Feng!"

"It's Master Lu Feng from Green Wood Peak who has awakened!"

"The masters of the Earth Immortal Realm have finally awakened!"

Following Master Lu Feng's awakening, all around, tomb after tomb exploded, with Earthly Immortal Realm masters flying out of them.

Hundred Peaks Sect initially had a total of twenty-eight peaks whose peak masters were asleep; besides them, there were also various Elders, reaching over thirty Earthly Immortal Realm masters in slumber.

And now, Cao Zhen felt as if all these Hundred Peaks Sect Earthly Immortal Realm masters seemed to awaken altogether; he saw two familiar figures, Ru Wenlin and Zhong Xinyi, the leaders among the Hundred Peaks Six Evils.

One tomb exploded after another, and familiar figures flew out one by one.

Among all those figures, even a cat flew out.

This was the cat raised by Li Ke, and Cao Zhen could never understand how Li Ke, a Golden Core Stage, was able to raise a cat from the Earthly Immortal Realm.

Chapter 1459:

Soon, even experts from the top ten peaks of the Hundred Peaks Sect flew out.

Boom! Boom!

Suddenly, two muffled sounds resounded almost simultaneously.

Chen Qingluan from Azure Pheasant Peak and Tu Zhuque from Vermilion Bird Peak both shot out from their graves almost at the same time.

Cao Zhen saw this scene and couldn't help but show a nostalgic smile. The Chief Tu and Peak Master Chen were quite interesting; neither ever conceded to the other. The result was that they awoke at the same time; indeed, this must be what the legends call fated rivals.

Hmm? Somehow this term doesn't feel quite right?

As one Earth Immortal after another flew out, terrifying auras surged from the rear mountain, spreading in all directions.

It seemed they had been asleep for so long that after just awakening, they couldn't fully control their auras.

As the aura surged forward, the disciples of the Hundred Peaks Sect felt an overwhelming pressure, especially those who hadn't reached the Golden Core Stage, almost unable to stand.

In the next moment, Cao Zhen, Xiang Ziyu, Ling Xi, Yan Yourong... all the current Golden Core Stage experts of the Hundred Peaks Sect released their own auras.

In an instant, one by one, the Nine Abnormal Phenomenon Golden Pills manifested, as if to fill the entire void. They unleashed their auras freely, blocking the auras of those Earth Immortal experts, protecting the disciples behind them of the Hundred Peaks Sect.

The auras of the Earth Immortal beings were completely blocked by their defenses.

"What's this?"

"What's going on?"

The newly awakened Earth Immortal experts stared blankly at the figures possessing Ten Different Phenomena of Golden Elixir Great Perfection, completely frozen. Wasn't the Hundred Peaks Sect supposed to have only seven Ten Different Phenomena of Golden Elixir Great Perfection? But here, how many of them were there?

Moreover, among these Ten Different Phenomena of Golden Elixir Great Perfection, why were there so many unfamiliar faces!

And those, are they really just Ten Different Phenomena of Golden Elixir Great Perfection?

Their auras felt far stronger than the usual Ten Different Phenomena of Golden Elixir Great Perfection by many times!

And there were Cao Zhen and Xiang Ziyu. The two of them clearly only possessed Nine Abnormal Phenomenon Golden Pills, yet why did their auras feel even stronger than many of those with Ten Different Phenomena of Golden Elixir Great Perfection?

Wait, wasn't Xiang Ziyu already a Ten Different Phenomena of Golden Elixir Great Perfection?

The Earth Immortal beings quickly restrained their auras. They didn't release them because they couldn't control them, but because they had agreed when they fell asleep to test the disciples of the Hundred Peaks Sect by releasing their auras once they awoke, to see if there had been any progress in their absence. But who would've thought they'd see such an astonishing scene!

The current Hundred Peaks Sect, it actually holds more than twenty Ten Different Phenomena of Golden Elixir Great Perfection!

Before they fell asleep, the Guardian Immortal Imperial Dynasty's ten Immortal Sects each had only two Ten Different Phenomena of Golden Elixir Great Perfection at most. So, the Hundred Peaks Sect with one Immortal Sect exceeds all of the other ten Immortal Sects?

After a long time, Chen Qingluan was the first to speak, "Can anyone tell me what happened?"

As she spoke, her gaze fell towards Azure Pheasant Peak, looking at the unfamiliar yet strongly exuding ten Abnormal Phenomena Golden Pills, far surpassing the usual Ten Different Phenomena of Golden Elixir Great Perfection with terrifying aura, looked blankly at a disciple beside her and asked, "Is this our Azure Pheasant Peak's disciple?"

"Master, this is indeed our Azure Pheasant Peak's disciple." A female disciple beside her quickly signaled with her eyes for Liao Youdi to speak.

Liao Youdi, although she had never seen Chen Qingluan before, she entered the Hundred Peaks Sect during the Minor Era of Inversion of Heaven and Earth, when Chen Qingluan was already deep in slumber. But their Azure Pheasant Peak still had many portraits of Chen Qingluan.

After receiving a sign from her senior sister, she immediately took a step back and then respectfully bowed to Chen Qingluan, "Disciple Liao Youdi, pays respects to the Peak Master!"

"Good, good! Our Azure Pheasant Peak also has a Ten Different Phenomena of Golden Elixir Great Perfection!" Chen Qingluan exclaimed with joy. The cool demeanor of the girl didn't dampen her spirits; she became increasingly delighted.

She couldn't help but ask again, "Who accepted Youdi as a disciple?"

It only took a moment, and she was already calling her Youdi.

A disciple below immediately replied, "Reporting to the Master, knowing our own limited cultivation base, we didn't dare accept Youdi as a disciple ourselves, so we accepted her on behalf of a teacher."

Upon hearing this, Chen Qingluan grew even more joyful, loudly asking, "Good, very good! Youdi, from today onward, you are my disciple. Would you be willing to be my pupil?"

"Disciple Liao Youdi, pays respects to Master! In fact, I was already Master's disciple," Liao Youdi added, emphasizing that her senior sister had accepted her on behalf of the Master, and she had long been Chen Qingluan's disciple.

Within the peak, Chen Qingluan had a rather strict demeanor. While she was there, not a single disciple dared to contradict her; yet at this moment, hearing Liao Youdi emphasize that she was originally her disciple and needed no further questioning, she showed not a hint of displeasure. She even smiled and said, "Yes, yes, my disciple is right. Your master was so overjoyed to see her pupil, I momentarily lost my head."

Her gaze at Liao Youdi was filled with undeniable joy.

Chapter 1460:

After speaking, she turned her head proudly towards Tu Zhuque and said, "Tu Zhuque, it's not just your Vermilion Bird Peak that has a Ten Different Phenomena of Golden Elixir Great Perfection. Now, our Azure Pheasant Peak also has someone at that level."

Tu Zhuque glanced in the direction of her Vermilion Bird Peak. The number of disciples on Vermilion Bird Peak had also noticeably increased, including a few she hadn't seen before, those with Nine Abnormal Phenomenon Golden Pill Perfect Completion, yet she still didn't see any with Ten Different Phenomena of Golden Elixir Great Perfection.

It seems that while she was away, her Vermilion Bird Peak had fallen behind.

Sighing inwardly, but with an unyielding expression on her face, she provocatively said towards Li Ke, "As if your peak is the only one with Ten Different Phenomena of Golden Elixir Great Perfection, our Vermilion Bird Peak's Ke is also at this level, and she won first place in the Hundred Peaks competition. Can your Azure Pheasant Peak match that?"

Chen Qingluan immediately retorted disapprovingly, "She won first because our You Di hadn't joined Azure Pheasant Peak yet! Haven't you felt the terrifying aura from our You Di?"

Tu Zhuque, equally unwilling to yield, puffed out her chest and exclaimed, "Her aura may be strong, but isn't our Ke's aura just as powerful?"

"Indeed, it's slightly weaker, while our You Di's aura is stronger!"

"Nonsense, clearly our Ke's aura is stronger!"

"You Di is stronger!"

"My Li Ke is stronger!"

Chen Qingluan and Tu Zhuque, having just awoken, began to argue fiercely again without backing down.

On the side, Nie Jie observed the Minor Era of Inversion of Heaven and Earth had just ended, and the Earth Immortal Realms had just awakened, with many tasks ahead. Yet these two were arguing. If they continued, who knows how long it would go on? Having no choice, he interjected, "Ladies, whether it is Grand Elder Li Ke or Junior Sister Liao Youdi, they both exist at the Golden Core Period Limit.

Their mana has reached the limit allowed by the Heavenly Dao during the Reversal Mini Epoch Period, so their mana is equally strong."

"The Golden Core Period Limit?"

"Both of them are at the Golden Core Period Limit!"

"No wonder I felt their auras are so incredibly strong!"

All around, everyone immediately rejoiced upon hearing this. Being in the Earth Immortal Realm themselves, they knew about the existence of the Golden Core Period Limit, but they hadn't expected their Hundred Peaks Sect to produce two individuals at this limit!

"Heaven blesses us, the Hundred Peaks Sect! Never in our history have we had someone reach the Golden Core Period Limit before the Wind Fire Tribulation!"

"Truly, heaven blesses our Hundred Peaks Sect!"

"Hold on, why do I feel their auras are all so strong!"

Their gazes quickly turned towards Cao Zhen and the group of disciples standing behind him.

Some Peak Masters couldn't help but ask, "How many in our Hundred Peaks Sect currently exist at the Golden Core Period Limit!"

"Eleven." Nie Jie promptly responded, introducing them to the crowd, "Besides Grand Elder Li Ke and Junior Sister Liao Youdi, Sect Leader Cao and Elder Xiang Ziyu, though not at Ten Different Phenomena of Golden Elixir Great Perfection, are also at the Golden Core Period Limit."

Everyone had already sensed the incredibly powerful aura emitted by Cao Zhen and Xiang Ziyu, no different from Li Ke and others. Yet hearing Nie Jie confirm it, they couldn't help but be shocked once again.

"Reaching the Golden Core Period Limit with Ten Different Phenomena of Golden Elixir is already remarkable. Yet with Nine Abnormal Phenomenon Golden Pills, they haven't even completed Pill Fusion and have reached the Golden Core Period Limit; what geniuses they are!"

"What formidable powers they will have when they reach Ten Different Phenomena of Golden Elixir Great Perfection!"

"It's not Ten Different Phenomena of Golden Elixir Great Perfection, but Wind Fire Tribulation, for they are now in the Earth Immortal Realm. Now that we have woken up, it indicates the Minor Era of Inversion of Heaven and Earth is over, and they can all break through to become Earth Immortals!"

Listening to the crowd's exclamations, Nie Jie reiterated, "Moreover, Sect Leader Cao and Elder Xiang Ziyu have not only achieved the Golden Core Period Limit in mana, they are also the only two in the entire Eastern Province to have achieved the Golden Core Period Limit in their physical bodies as well."

"Their physical bodies have also reached the Golden Core Period Limit? They..."

"Wait a minute..." Tu Zhuque suddenly caught something, looking at Nie Jie and asking, "What did you just say? You said Eastern Province? Shouldn't it be Eastern Wasteland?"

"Uncle Tu, while you were asleep, our Eastern Wasteland has already connected with the Eastern Province."

For a while, all the Earth Immortal Realms were stunned.

"What?"

"Connected to the Eastern Province? When did this happen?"

Nie Jie quickly replied, "It was more than forty years ago."

Chen Qingluan immediately asked, "Then what was the reaction of the Eastern Province when we connected? Did they attack us?"

"They did attack, and there were even people from a Great Teaching among them, but they were all repelled, and since then, no one has bothered us again." Nie Jie pointed to Cao Zhen as he spoke, "It's all thanks to Sect Leader Cao. Without him, we might not have been able to withstand their attack."

Tu Zhuque curiously asked, "Cao Zhen? Able to repel even an attack from a Great Teaching? What was that about? Tell me more specifically."

"Of course, it was because..." Nie Jie was about to speak, but suddenly stopped, recalling how Chief Tu wanted to unite Sect Leader Cao and Li Ke as Dao companions, nearly arranging a Dao ceremony for them back then.

...
