

## **My Master 1461**

Chapter 1461:

If I mentioned the Immortal Bi Yue of the Dragon Chant Sect, the consequences would be unimaginable!

Thankfully, I reacted quickly!

Nie Jie, thinking quickly in a moment of crisis, pointed to Cao Zhen and said, "If not for Sect Leader Cao, how could our Hundred Peaks Sect have its current momentum, with so many experts? Look, in the direction of the Four Treasures Peak, the disciples of Four Treasures Peak, except for Bei Yan and the youngest disciple, all the disciples are at the Golden Core Period Limit.

Moreover, I have also told you, Sect Leader Cao and Xiang Ziyu are both at the pinnacle of the Golden Core Period in physique and mana. They are the strongest in the Eastern Province, who dares to provoke our Hundred Peaks Sect!"

"Indeed." Tu Zhuque looked at Cao Zhen, growing more satisfied the more he looked, nodded, and said, "Peak Master Cao has done well. The Hundred Peaks Sect has indeed taken a step forward in his hands."

Nearby, several awakened Earth Immortal Realm individuals immediately laughed.

"Chief Tu, Peak Master Cao has done more than just well!"

"Yes, before we fell asleep, who could have imagined the Hundred Peaks Sect would reach its current heights?"

"That's right, such a large number of Perfect Completion Golden Cores, so many at the Golden Core Stage, who could have imagined this before!"

"Peak Master Cao has indeed done a great job!"

Cao Zhen noticed that everyone still referred to him as Peak Master and not Sect Leader. These people had fallen asleep during the Minor Era of Inversion of Heaven and Earth, so they had not called him Sect Leader.

However, the fact that they didn't call him Sect Leader also served as a reminder to him.

Cao Zhen cupped his hands towards everyone and said, "Ladies and gentlemen, we agreed back then that I would act as the temporary Sect Leader of the Hundred Peaks Sect during the Minor Era of Inversion of Heaven and Earth. Now that this period has ended, and everyone has awakened, I think it is time to select a new Sect Leader.

Surely it wouldn't be right to let someone at the Golden Core Stage continue as Sect Leader."

He genuinely had no interest in being the Sect Leader, and he felt he was not suited for it; over the years, it was always Nie Jie helping to handle those matters.

"Choose a new Sect Leader?"

Upon hearing this, everyone looked towards Tu Zhuque and Chen Qingluan.

Among the awakened, the strongest were Chen Qingluan and Tu Zhuque, and theoretically, it should indeed be one of them to become the new Sect Leader.

But the problem was, everyone knew that these two never conceded to each other.

As they would put it, neither saw themselves as weaker than the other, each one could just point to the other individually.

To have them choose a Sect Leader from among themselves—who knows how long it would take.

Seeing the two about to clash, an awakened Earth Immortal Realm immediately spoke, "Let Peak Master Cao continue as Sect Leader instead."

"Yes, I agree. Peak Master Cao has done a fine job as Sect Leader."

"Indeed, our Hundred Peaks Sect is so strong now thanks to Peak Master Cao's merits."

"Peak Master Cao is also a reincarnated great ability, more than capable of being the Sect Leader!"

"Right, now that the Minor Era of Inversion of Heaven and Earth has ended, I reckon it won't be long before Peak Master Cao breaks through to the Wind Fire Tribulation, and before long, he will become an Earth Immortal! There's no problem with Peak Master Cao continuing as Sect Leader."

Hearing this, Ru Wenlin and Zhong Xinyi quickly chimed in, "Indeed, it's best if Peak Master Cao continues as Sect Leader."

They thought, if anyone dared to call them the Hundred Peaks Six Evils again, their sixth would actually be the Sect Leader of Hundred Peaks Sect!

Even though Tu Zhuque and Chen Qingluan were inclined to serve as Sect Leader for a period, seeing everyone unanimously wanting Cao Zhen to continue as Sect Leader, they both nodded in agreement, saying, "That's fine too, let it be Cao Zhen to continue as Sect Leader of Hundred Peaks Sect. Everything will be discussed again when our Sect Leader awakens."

Cao Zhen knew they were referring to Bai Fengzi, not himself, as the Sect Leader.

However, now, since the time everyone has been awakened has passed with no further awakening, it is evident the first batch of awakened individuals is indeed these people.

According to his observations, he discovered that the first batch of awakened people is likely all at the first layer of the Earth Immortal Realm, the Ten Thousand Life Stage.

Besides Bai Fengzi, there were three other familiar individuals who hadn't awakened.

Gu Chengyu, Ai Yunqi, and Lv Chaoqiong.

Lv Chaoqiong, being someone of interest at the Hidden Dragon Observatory, naturally had a higher cultivation, while Ai Yunqi had gained enlightenment from a formation map refined in the past. Although this enlightenment did not allow her to break through on the spot, it clarified many things for her, leading her to break through to the second layer of the Earth Immortal Realm, the undying and imperishable stage, before the Minor Era of Inversion of Heaven and Earth began.

Gu Chengyu similarly gained much understanding due to this and temporarily broke through into the second layer of the Earth Immortal Realm.

Hence, they had not awakened yet.

This indicates that after the Minor Era of Inversion of Heaven and Earth concluded, the first batch of awakened individuals were merely at the first layer of the Earth Immortal Realm.

In this case, what is there to worry about?

It's merely the first layer of the Earth Immortal Realm.

The pills I temporarily sealed are nearing completion; once they're ready, my disciples and I can quickly break through into the Wind Fire Tribulation. Then, after a little consolidation within the Wind Fire Tribulation, we can prepare to break through the Wind Fire Tribulation and enter the Earth Immortal Realm.

My disciples and I are all at the Golden Core Period Limit, and after entering the Earth Immortal Realm, how could we possibly be inferior to those in the Earth Immortal Realm?

Besides, I possess a top-notch spell!

A spell far stronger than the divine skills I currently master!

By then, the Hundred Peaks Sect will still possess the strongest combat power in the world!

What needs to be done now is to quickly let the pills take shape.

Cao Zhen quickly looked at everyone and cupped his hands, saying, "Ladies and gentlemen, you have just awakened. As the Sect Leader of the Hundred Peaks Sect, I should theoretically host a banquet and detail the major events of our Hundred Peaks Sect over these years. However, although our Hundred Peaks Sect appears stable now, it is fraught with various dangers, with several great teachings eyeing us eagerly, just waiting for the Minor Era of Inversion of Heaven and Earth to end to seek revenge on our Hundred Peaks Sect. Therefore, we must quickly elevate our strength, I need to swiftly return to conduct alchemy, and then break through into the Earth Immortal Realm as soon as possible. Thus, I shall not accompany you much longer.

If there is anything you wish to know, you can ask Vice Sect Master Nie Jie. To my shame, over these years, Vice Sect Master Nie Jie has been responsible for the various sect affairs of our Hundred Peaks Sect."

After speaking, Cao Zhen swiftly flew in the direction of Four Treasures Peak, leaving Tu Zhuque and the group of Earth Immortal Realm individuals utterly bewildered.

What did Cao Zhen just say? They have some enemies, and those enemies are great teachings? Not one great teaching, not two, but many great teachings?

What has Cao Zhen done to offend so many great teachings?

Chapter 1462:

The many Earth Immortal Realm members of the Hundred Peaks Sect, although they had never been to the Eastern Province, had seen records about the Great Teachings in some scrolls. Even though it was just fragments, they could still understand the terror of the Great Teaching.

At the very least, they knew that after existing for a million years, a sect would face a Sect Tribulation and only by overcoming it could they become a Great Teaching.

In this extensive history of at least a million years, who knows how many resources could be accumulated and how much heritage could be left behind.

Such a colossal entity, the Hundred Peaks Sect seems to have offended more than one or two of them?

Chen Qingluan watched Cao Zhen's departing figure and turned to look at Nie Jie, asking, "Can you tell me how many Great Teachings our Hundred Peaks Sect has offended before?"

"How many Great Teachings..." Nie Jie was baffled by the question, "That depends on how they were offended. Those small frictions don't count, we are rather competent..."

Before he could finish his sentence, Chen Qingluan interrupted him: "Wait a while, what are those small frictions referring to?"

"Small frictions mean that a few years ago, during an alchemy event, the Sect Leader cheated... no, won thirty treasures from others. Although these were won through gambling, others have held a grudge against the Sect Leader."

All around, everyone was instantly stunned: "How many treasures did you say? Thirty pieces? Are you sure they are treasures, not divine weapons?"

"Indeed treasures," Nie Jie said, looking at everyone with complete speechlessness, "If they were divine weapons, I wouldn't be telling you all about it."

The way the crowd looked at Nie Jie instantly changed, and they thought, you brat have become overconfident, daring to talk to us like that. Do you forget that you are standing before your uncles?

Ru Wenlin originally did not want to say much at this moment, but he had to speak up for the youngest among the Hundred Peaks Six Evils, who had committed these acts.

After a moment of contemplation, he slowly spoke: "Since it was a gamble, winning treasures means winning. Even if the opponent comes from a Great Teaching, they will probably not target our Hundred Peaks Sect for this reason, especially since the Sect Leader won thirty treasures."

After he said that, everyone around nodded in agreement.

"Exactly, winning thirty treasures is quite enough, those are treasures after all. Our Hundred Peaks Sect does not have many treasures. Among all of us, some do not even possess a treasure."

"Just like Ru Wenlin said, this was won through a gamble. How could they come after us for this?!"

Listening to everyone's words, Nie Jie timidly spoke up: "Everyone, the Sect Leader did not share much of those treasures because the Sect Leader did not have thirty treasures to carry out the gamble with. Therefore, the Sect Leader only got thirteen treasures."

"Thirteen pieces? So few?"

"This... seems not that little either."

"Well, the entire Hundred Peaks Sect together only has about twenty treasures. Acquiring thirteen treasures in one go is already enough."

In the discussion, Nie Jie spoke again: "Moreover, back then, one Great Teaching failed the Sect Tribulation. It was the Heaven Prayers Sect, and many forces went to seize treasures. I don't know the specific situation, but I just know that the Sect Leader and they, in a rear mountain, drew out a master at the True Immortal Realm who self-detonated, causing everyone on the mountain to die, including many existences at the Golden Core Period Limit.

It seems some also blamed this incident on the Sect Leader. Besides, the Sect Leader also sold things to others in a certain relic, but in the end, what was sold to others was all taken by Xiang Ziyu. Among them, there were people from Great Teachings, and they also harbored resentment."

Nie Jie said a lot in one breath, and for a moment, it was hard for everyone to take it all in.

"Wait a moment... say it slowly."

"Yes, tell us one by one. A Great Teaching was destroyed, Cao Zhen went to someone else's Great Teaching to plunder stuff too?"

"Heaven Prayers Sect? Does this Heaven Prayers Sect have any relation to the Qi Tian Dynasty?"

For a moment, everyone couldn't comprehend. After all, they came from a small sect in the Eastern Wasteland!

"Yes, after all, both the Sect Leader and Xiang Ziyu were the strongest existences in the Mini Era of Inversion of Heaven and Earth. Qi Tian Dynasty was established by the branch members of the Heaven Prayers Sect. In short, there are many similar incidents. The Sect Leader mentioned that he also snatched many treasures from the Great Teachings in some relics. He also killed some members of the Great Teachings, and the Sect Leader said those Great Teachings will come to settle accounts with us sooner or later, like the Void Breaking Sect, Soul Breaking Demonic Sect, Weeping Blood Demon Sect..."

As everyone listened to one demonic sect name after another, they became numb. They had just praised Cao Zhen for doing well, making the Hundred Peaks Sect so strong, and now, turning around, Nie Jie told them that Cao Zhen had offended so many Great Teachings!

Those are Great Teachings, and before, they had seen many records about the Qi Tian Dynasty in the sect annals. They had seen a lot, such a powerful Qi Tian Dynasty, which even needed their Guardian Immortal Imperial Dynasty along with numerous Immortal Sects to jointly confront it, was only a branch of a Great Teaching. What about the other Great Teachings!

If Cao Zhen had offended so many Great Teachings, what if others attacked together...

This is going to be the end for the Hundred Peaks Sect!

Seeing the worry on the faces of the various uncles, Nie Jie comforted them: "Actually, we don't need to worry too much. We still have more than ten existences who have surpassed the Wind Fire Tribulation, moreover, we have so many of those with the Ten Different Phenomena of Golden Elixir Great Perfection, so many with the Golden Core Great Perfection. Now that the Minor Era of Inversion of Heaven and Earth has ended, we can also break through into the Wind Fire Tribulation. After consuming the pills refined by the Sect Leader, after entering the Wind Fire Tribulation, we can quickly break through into the Earth Immortal Realm."

Chapter 1463:

"Soon? How can it be soon? Breaking through the Wind Fire Tribulation to enter the Earth Immortal Realm is not something that can be done just by saying so. Back then, I was trapped in the Wind Fire Tribulation for two hundred years before breaking through."

"Indeed, although you've accumulated a lot at the Golden Core Stage, wanting to break through from the Wind Fire Tribulation to the Earth Immortal Realm, who knows how long it will take. What's more, the Wind Fire Tribulation must overcome the Wind Fire Heavenly Tribulation, which is extremely dangerous."

Many Golden Core Stage disciples nearby hurried to explain: "Master, the pills refined by the Sect Leader can speed up the tribulation crossing. Among the best quality pills, taking one can speed up by fifty times. For example, if you need two hundred years to break through from the Wind Fire Tribulation to pass the tribulation, after taking the Sect Leader's pill, you only need four years to cross the Wind Fire Heavenly Tribulation.

Furthermore, the Sect Leader has left us in the Hundred Peaks Sect with enough best quality pills!"

"And the Sect Leader also left us another type of pill, after taking it, even a normal Wind Fire Tribulation can be successfully crossed. So, it won't take much time, and we all can achieve the Earth Immortal status."

Everyone found that the world had changed too much in the hundred years they had been asleep. Since when did becoming an Earth Immortal become so easy? They felt that what they needed most now was to understand this world well.

"Let's go back, we'll return to our peaks first."

"We'll discuss it further after returning."

A group of Earth Immortal Realm experts who had just awakened all returned to their respective peaks, and the elders also went to find their disciples to inquire about the changes in the Hundred Peaks Sect and the Eastern Wasteland over the years.

Soon, they knew more and more things.

They even learned that Xiang Ziyu became an honorary elder of a great teaching, learned that people from their Hundred Peaks Sect helped a great teaching named the Five Sounds Sect, which was very friendly to the Hundred Peaks Sect, and also learned that they were helped by a top great teaching called the Dragon Chant Sect.

As for the reason, it was because an immortal of high status in the Dragon Chant Sect took a liking to Cao Zhen.

Vermilion Bird Peak, Tu Zhuque was so angry that she smashed the tea cup in front of her!

"Bastard, how can Cao Zhen be like this! What does my Ke not match up to him? I've only been asleep for a hundred years, and he's found someone else outside! That Bi Yue... she..." Tu Zhuque was furious upon hearing about the existence of Immortal Bi Yue.

Beside her, a disciple of Vermilion Bird Peak softly reminded, "Master, she is from the Dragon Chant Sect, and her status is extremely high, even higher than the temporary Sect Hierarchy of the Dragon Chant Sect. The Dragon Chant Sect is the most top-tier great teaching in the Eastern Province..."

"What if it is the most top-tier great teaching? That Bi Yue... let's not talk about Bi Yue for now, this Cao Zhen is really outrageous, I have to find him and have a good talk, how dare he start something and not finish it!" Tu Zhuque naturally turned the conversation to finding trouble with Cao Zhen.

She was really angry, her disciple was the most outstanding disciple in the entire Hundred Peaks Sect, yet Cao Zhen found someone else!

"Master..." Li Ke interjected, full of helplessness, "Cao Zhen did not start something and not finish it, we two have not yet become Dao partners, and neither has Bi Yue with him."

Hearing this, Tu Zhuque immediately exclaimed: "Not become Dao partners? Then fine, let me go find Cao Zhen, have him become your Dao partner immediately, and then no longer associate with that Bi Yue."

Li Ke said with a face full of displeasure: "They are probably still going to associate, now there is still a dragon from the Dragon Chant Sect being raised at Cao Zhen's Four Treasures Peak."

Tu Zhuque's attention was instantly shifted and asked: "What? Dragon? You're talking about a dragon? Not a flood dragon? A real dragon?"

She had not yet seen what a real dragon looked like.

"No, I have to go to him for a talk."

Tu Zhuque said as she left Vermilion Bird Peak, heading towards Four Treasures Peak.

After arriving at Four Treasures Peak, she found that not only her, but many newly awakened people were all heading towards Four Treasures Peak.

They all wanted to see what a real dragon looked like after hearing that there was a dragon at Four Treasures Peak.

As cultivators, they naturally all knew about the existence of dragons, but the problem was, they had really never seen a real dragon, even though they were in the Earth Immortal Realm, they were curious.

They all saw the dragon, but did not see Cao Zhen.

Cao Zhen was truly busy.

He had to refine pills for himself and his disciples, the Minor Era of Inversion of Heaven and Earth was over, those great teachings they had offended might send people over at any time, he had to quickly enhance the strength of the Hundred Peaks Sect.

While Cao Zhen was refining pills.

Within the Hundred Peaks Sect, a group of disciples who had already completed Pill Fusion, whether they completed it with ten Golden Cores or nine, one by one were aiming to break through the Wind Fire Tribulation.

With the Minor Era of Inversion of Heaven and Earth over, the strongest combat power was no longer at the Golden Core Period Limit, and even those at the Wind Fire Tribulation cultivation base would soon surpass this limit.

After completing Pill Fusion at the Golden Core Stage, it also takes time to break through to the Wind Fire Tribulation.

However, everyone's accumulation at the Golden Core Stage before was sufficient.

Except for a few, who only completed Pill Fusion in the last few years, most disciples quickly broke through to the Peak Fire Tribulation.

And those who had been at the Wind Fire Tribulation cultivation base before, such as Beichen Ying and others, after taking the pills given by Cao Zhen, soon began to cross the Wind Fire Heavenly Tribulation!

Chapter 1464:

Tu Zhuque and others finally witnessed the terrifying potency of the pills refined by Cao Zhen.

Back then, during the Wind Fire Tribulation, many from their group died during the tribulation process.

Yet now, everyone from the Hundred Peaks Sect successfully passed their tribulation.

Four Treasures Peak.

Cao Zhen quickly completed the first batch of pills, which allowed those at the Golden Core Stage to directly break through and enter the Wind Fire Tribulation.

Yi Sheng, Zhu Peng, and Wan Ren Di, being High Level Immortal Bodies, were not restricted by the Heavenly Dao, and their previous accumulations were strong enough. After all, they had reached the limits of the Golden Core Period, so breaking through to the Wind Fire Tribulation was not difficult.

The key was that the rest of Cao's disciples were all of Ancient Immortal Bodies, naturally requiring pills to enter the Wind Fire Tribulation.

Bei Yan, having already reached the Wind Fire Tribulation level, did not need pills, but the others like Ling Xi, Yan Yourong, and Duo Duo needed pills for their breakthrough.

Cao Zhen and Xiang Ziyu, moreover, needed to first achieve Perfect Completion Golden Core with Ten Different Phenomena!

The two of them were still at the Nine Abnormal Phenomenon Golden Pills stage.

Cao Zhen pondered how to create his tenth Abnormal Phenomenon Golden Pill.

He felt that the divine skills from his current nine Abnormal Phenomenon Golden Pills were enough, and further condensing another Phenomenon Golden Pill with divine skills seemed unnecessary.

Thus, for this tenth Abnormal Phenomenon Golden Pill, he did not use ten divine skills to condense it, but rather gathered Chaos Qi to form it.

Having condensed ten Abnormal Phenomenon Golden Pills, he and Xiang Ziyu immediately took the pills to break into the Wind Fire Tribulation cultivation level.

He himself was not an Ancient Immortal Body, so he could take the Wind Fire Element Promotion Pill and cross the Wind Fire Heavenly Tribulation, but the problem was with Xiang Ziyu and others who were Ancient Immortal Bodies, forcing him to refine another type of pill to allow them to cross the Wind Fire Heavenly Tribulation.

This pill was somewhat similar to the Wind Fire Element Promotion Pill but more intense.

Given the alchemy process, he simply concocted pills for everyone, so they could all cross the tribulation together, even refining a pill for Little Yin Dragon to let Little Yin break through to the Earth Immortal Realm.

Once the pills were formed and everyone consumed them, the Heavenly Tribulation swiftly gathered.

In no time, the entire sky above Four Treasures Peak was covered by the Heavenly Tribulation.

Even though they had taken the Trimming Tribulation Avoidance Pill, given their previous Golden Core Period Limit, the tribulation clouds in the void remained thick, shrouding the entire sky in that direction.

The whole Hundred Peaks Sect turned to gaze towards Four Treasures Peak.

"So many tribulation clouds... Are the disciples of the Hundred Peaks Sect crossing tribulations at the same time?"

"Counting Sect Leader Cao Zhen, there are a total of nine people in the Hundred Peaks Sect!"

"Does this mean the Hundred Peaks Sect is about to have nine more Earth Immortal Realm beings?"

"But Ling Xi, Xiang Ziyu, they are all Ancient Immortal Bodies. Sect Leader Cao allowing them to break through to the Golden Core Stage is already astonishing, could he really make them Earth Immortal Realm beings?"

"Sect Leader Cao is a reincarnated great ability, he should have some special methods."

In the midst of everyone's discussion, ten Wind Fire Heavenly Tribulations descended from the void, and from afar, it appeared as though the entire Four Treasures Peak was ablaze.

Even though Cao Zhen had already taken the Trimming Tribulation Avoidance Pill, he found the Wind Fire Heavenly Tribulation he faced seemed more intense than those who hadn't taken it.

Not only that, but he also discovered that everyone faced tribulations far stronger than normal Wind Fire Heavenly Tribulations, especially he and Xiang Ziyu, facing the strongest tribulations.

Yet, despite this, they still easily passed through the Wind Fire Heavenly Tribulation.

Earth Immortal Realm!

After pursuing immortal cultivation for so long in this world, he finally achieved the Earth Immortal status.

In an instant, Cao Zhen sensed his inner churning mana beginning to transform, becoming less turbulent. If his earlier aura was a mighty river, now it was a gentle stream, yet this aura was much stronger than before.

As he circulated the Prosperous Age Skills through one cycle, his inner aura completed its qualitative transformation, changing from mana to celestial aura!

It was often said that there was a great difference between the inner core and the golden core, yet back during the Hundred Peaks Sect's competition, Ling Xi almost defeated a Golden Core First Stage individual using the Unparalleled Formation Diagram.

When he had not yet condensed a Golden Core, he too could defeat someone at the Golden Core Stage.

However, no matter how powerful or defiant he was at the Golden Core Stage, he could not defeat an Earth Immortal Realm being.

After participating in the World of Immortals Martial Tournament, they were already extremely strong, but facing Earth Immortal Realm masters, they were almost killed.

The disparity between the Earth Immortal Realm and the Golden Core Stage was truly immense, a gap impossible to cross.

For after reaching the Earth Immortal Realm, one condenses celestial aura!

No matter how strong, mana cannot compare to celestial aura.

Earth Immortal Realm beings also use spells vastly superior to divine skills, and they can truly wield treasures, unleashing their powerful abilities.

However, they still couldn't be considered true Earth Immortal Realm beings because they hadn't yet condensed their own celestial mountain formations.

Chapter 1465:

The immortal mountain you condense will determine the path you will walk in the future.

For some disciples of the Hundred Peaks Sect, he had already mapped out their paths. What was lacking now was teaching them the cultivation techniques after they enter the Earth Immortal Realm.

As for himself, he was cultivating the Age of Prosperity Qi.

Cao Zhen continued to circulate the Prosperous Age Skills after completing one small cycle, without stopping, and began another large cycle.

Inside him, streams of Age of Prosperity Qi and immortal energy fused together, while the Chaos Seed within him was nurtured by mana and Age of Prosperity Qi, even sprouting new buds.

Streams of immortal energy gathered behind him, gradually forming the shape of a small mountain.

This mountain appeared to be over three zhang tall, seemingly shorter than the trees needed. But as more Age of Prosperity Qi and immortal energy poured in, the mountain began to grow rapidly, reaching more than ten zhang in height within moments.

In the distance, many people who were paying attention to Four Treasures Peak because of the tribulations being undergone there also directed their gaze over.

"That's an immortal mountain..."

"It's Sect Leader Cao's immortal mountain!"

"Sect Leader Cao is becoming a true master of the Earth Immortal Realm!"

"Speaking of which, among the people of Four Treasures Peak, Sect Leader Cao was always the last to break through. When the disciples of Four Treasures Peak had all broken through to the Golden Core Stage, Sect Leader Cao was still at the Core Formation Stage. Later on, others reached Great Perfection with Ten Different Phenomena of Golden Elixir, but Sect Leader Cao only had six Golden Cores. This time, however, Sect Leader Cao was the first to break through, condensing the immortal mountain!"

"We had no choice, it might be due to the tremendous pressure Hundred Peaks Sect is currently under, with the threat of an attack from any Great Teaching looming, so the sect leader had to break through first!"

"But why is the sect leader's immortal mountain so large?"

"Indeed, the immortal mountain is still growing!"

The commotion from the tribulation of the Hundred Peaks Sect was considerable, almost all disciples of Hundred Peaks Sect noticed the change in Four Treasures Peak and Cao Zhen's condensed immortal mountain.

Aside from Cao Zhen, the other Five Evils of Hundred Peaks somehow gathered together, looking at the immortal mountain condensed behind Cao Zhen, Beichen Ying sighed and said: "Old Six is indeed Old Six, I condensed my immortal mountain way earlier than Old Six, but now my immortal mountain is only three zhang tall. Old Six's immortal mountain appeared three zhang tall, and in the blink of an eye, it's already over ten zhang tall, this difference is simply too great!"

Beside him, Zhong Xinyi sighed upon hearing this: "Don't mention yourself, back when I condensed my immortal mountain, after the first day of condensation it was only one zhang tall, hardly calling it an immortal mountain. Old Six, truly worthy of being a reincarnated Great Ability, having reached the

Golden Core Period Limit with Nine Abnormal Phenomenon Golden Pills, it's really incomparable, the difference is too big, I wonder how tall Old Six's immortal mountain can grow."

Just as her words fell, Li Lingwei curiously asked: "Second Sister, how tall is your immortal mountain now? Do you think Old Six's immortal mountain will surpass yours today?"

Zhong Xinyi fell silent, looking at the immortal mountain of Cao Zhen still climbing higher amidst the sky: "Don't use such questioning words, right now Old Six's immortal mountain is already taller than mine!"

Although, when she was dormant, she was among the weakest batch in the Earth Immortal Realm, she had been there for a long time. Now, with Cao Zhen's breakthrough, his immortal mountain being taller than hers was simply too vast a disparity.

Although, an Earth Immortal's strength cannot only be judged by the height of the immortal mountain, naturally, the higher the immortal mountain, the purer and stronger the immortal energy.

In the distance, the group of Earth Immortal Realm experts who awoke after a long dormancy watched the immortal mountain in the sky, and one by one, they fell into shock.

"This immortal mountain is over twenty zhang tall and still growing!"

"This is only the first day; everyone's immortal mountain usually grows slowly as their cultivation base improves, but Sect Leader's immortal mountain..."

"The immortal mountain is already taller than mine now!"

"No, how is Sect Leader's immortal mountain still getting taller!"

"It's thirty zhang tall now!"

"No way, none of us have an immortal mountain this tall!"

"Seems like Tu Zhuque and Chen Qingluan's immortal mountains are only thirty zhang tall, and Sect Leader's just condensed today, yet it reached thirty zhang tall?"

"Chief Tu and Peak Master Chen both reached the first layer of Earth Immortal Realm's Longevity Period Peak, very close to breaking into the Indestructible Period!"

"It's stopped, the sect leader's mountain has finally stopped growing!"

"Terrifying, it's truly terrifying, what kind of talent is this!"

"Think about it, Sect Leader reached the Golden Core Period Limit at Nine Abnormal Phenomenon Golden Pills, without completing Pill Fusion, surely Sect Leader was incredibly powerful upon entering the Earth Immortal Realm!"

Everyone gazed upon the thirty-zhang high immortal mountain in the void, feeling nothing but shock!

They had never heard of anyone successfully becoming an Earth Immortal that could condense such a massive immortal mountain!

"Thirty zhang tall!"

"It's not just the height; Sect Leader's immortal mountain looks so enormous, it doesn't appear as a mere mountain but more like a mountain range or even a nation?"

Chapter 1466:

"The Immortal Mountain, the Sect Leader's Immortal Mountain has started to change."

In the void, around the outskirts of the Immortal Mountain behind Cao Zhen, appeared flashes of thunder, encircling the Immortal Mountain and emitting terrifying sounds, as if intending to tear the void apart.

Soon, around the Immortal Mountain, clusters of flame, flowing water, fierce winds, and lights from various protective divine powers emerged, with even celestial sounds emanating from within the mountain.

"What kind of Immortal Mountain does the Sect Leader possess? How come it has all sorts of auras?"

"It seems to be the transformation of the Sect Leader's ten wondrous Golden Cores!"

In the crowd, many Earth Immortal Realm beings, who had awakened from slumber, gazed at the awe-inspiring Immortal Mountain behind Cao Zhen, but they frowned.

"What is he up to, making the Immortal Mountain like this!"

Tu Zhuque watched the various flames, thunders, and water flows on Cao Zhen's Immortal Mountain with a worried expression. Although he felt it was unworthy for his disciple because Cao Zhen had gotten involved with a woman named Immortal Bi Yue, he was still displeased. However, Cao Zhen was, after all, a member of their Hundred Peaks Sect and even their current Sect Leader.

She naturally hoped Cao Zhen would become stronger, but what was he trying to achieve in this manner?

"The Immortal Mountain of the Earth Immortal Realm is what determines the path one will walk in the future. The path of Immortal Cultivation naturally involves finding the most suitable path and following it to its end to touch the ultimate Dao.

Just like you, Ke, you cultivate the Path of Flame and possess the Bi Fang Fire Body, so it's normal for your Immortal Mountain to have both flame and Bi Fang, as Bi Fang is the Saint Beast of fire.

But look at Cao Zhen, his Immortal Mountain has everything. What path is he trying to follow? If he is cultivating the Five Elements Power, then having metal, wood, water, fire, and earth on the mountain would be normal, but he's not cultivating the Five Elements Power. What is this mess, such a mix of auras, how can he integrate them? How can he make them unleash their greatest power?

Could he, a reincarnated great ability, not understand this? What is he trying to do!"

"Master, you know he is a reincarnated great ability. He couldn't possibly not know these things; he must have his reason for doing this." Li Ke also didn't know why Cao Zhen was doing this but thought it must be under the guidance of Dragon senior, and that's why Cao Zhen did it.

Dragon senior surely has his own reasoning.

Cao Zhen could feel the aura of his ten wondrous Golden Cores all falling onto his Immortal Mountain, and he could also feel that these auras were fundamentally different and unable to integrate.

However, when the aura of his tenth wondrous Golden Core, the Chaos Core, emanated and fell onto the Immortal Mountain, a small already sprouted seed emerged on the peak of the Immortal Mountain.

Chaos Seed!

Strands of Chaos Qi gushed out, swiftly permeating the entire Immortal Mountain.

In a moment, all the forces atop the Immortal Mountain began to connect closely under the influence of the Chaos Qi.

Chaos Qi, the earliest aura in the world, from which all powers and auras originated, embraces everything, naturally able to gather all auras and powers into one.

As the Chaos Qi surged forth, clusters of Age of Prosperity Qi also began to gather, while in the very center of the Immortal Mountain, indistinct mountains and rivers materialized...

Though indistinct, the people of the Hundred Peaks Sect recognized it at a glance, they were all too familiar with it!

"Hundred Peaks Sect, the Hundred Peaks Sect actually appeared within Sect Leader Cao's Immortal Mountain!"

"Sect Leader, is his path actually our Hundred Peaks Sect?"

"The immaterial image of the Immortal Mountain is the foreboding of one's future path, Sect Leader, he, a reincarnated great ability, condensed the Hundred Peaks Sect onto his Immortal Mountain!"

"Sect Leader, he has tightly linked himself with our Hundred Peaks Sect, sharing honor and disgrace together!"

"What a display of courage from the Sect Leader, what an emphasis on the Hundred Peaks Sect!"

"To have such a Sect Leader is our Hundred Peaks Sect's fortune!"

"We once misunderstood the Sect Leader so much, even saying he was the Hundred Peaks Six Evils!"

"Thinking back, everything the Sect Leader did was actually for our Hundred Peaks Sect, if it weren't for our Hundred Peaks Sect, would a reincarnated great ability like the Sect Leader need to care so much?"

For a moment, the members of the Hundred Peaks Sect looked at Cao Zhen's Immortal Mountain, their eyes filled with admiration!

Even Tu Zhuque, Chen Qingluan, and others were all full of respect, even though they had grown up in the Hundred Peaks Sect, they had never thought their future path would be the Hundred Peaks Sect, never thought of condensing the Hundred Peaks Sect on their Immortal Mountain!

Once the Hundred Peaks Sect completely emerged on the Immortal Mountain, Cao Zhen's Immortal Mountain ceased changing, gradually stabilizing.

Then he withdrew his Immortal Mountain and turned to look at his disciples. Just as he was about to speak, in his sight, Xiang Ziyu suddenly soared into the sky, and behind Xiang Ziyu, an Immortal Mountain emerged.

Immortal Mountain?

Cao Zhen was dumbfounded.

No, I haven't even taught this kid Xiang Ziyu the cultivation technique yet, so how did he condense an Immortal Mountain? What kind of random cultivation technique did he practice?

Cao Zhen immediately opened China Cloud to check.

Name: Xiang Ziyu

Gender: Male

Cultivation Base: Earth Immortal Realm (in the process of condensing an Immortal Mountain)

Expertise: Everything Point to Understand

Immortal Cultivation Experience...

Chapter 1467:

Possessed Cultivation Technique: Heaven and Earth immortal demon Yin Yang Supreme power (demon modified)!

So, what is this thing? Demon modified? What did this kid modify again? I've never heard of this Heaven and Earth immortal demon Yin Yang Supreme power, where did he find this Cultivation Technique?

This kid, it was one thing when he previously modified his Divine Skills, but after cultivating Earth Immortal Realm, he's casually modifying his Cultivation Techniques. He's not merely testing the limits; he's continuously charging towards the edge of death!

The key is, this kid seems to have successfully modified it.

Cao Zhen's Immortal Mountain is a massive range, a set of mountains, while the Immortal Mountain condensed behind Xiang Ziyu is two connected mountains, seemingly twin peaks.

These two Immortal Mountains, one is black and one is white, like the existence of Yin and Yang poles, after the Immortal Mountain surfaced, they quickly grew taller, reaching towards the sky.

Inside the Hundred Peaks Sect, the crowd had just seen Cao Zhen's Immortal Mountain disappear, just as they were about to leave, Xiang Ziyu's Immortal Mountain rose again, and everyone was even more surprised to find that the growth speed of Xiang Ziyu's Immortal Mountain was no slower than the height-changing speed of Cao Zhen's Immortal Mountain.

"This growth speed, Xiang Ziyu's Immortal Mountain, won't also reach thirty zhang high?"

"This...is not impossible, Xiang Ziyu, like the Sect Leader, was of Golden Core Period Limit when they reached Nine Abnormal Phenomemon Golden Pills!"

"Look, it's thirty zhang, Xiang Ziyu's Immortal Mountain also reached thirty zhang high!"

"His Immortal Mountain is starting to change."

"Look, a hint of black light appears at the top of the white Immortal Mountain, and a hint of white light appears at the top of the black Immortal Mountain."

"These Immortal Mountains, why do I feel they don't look like two mountains, but rather like two figures!"

"Such terrifying aura, feels like the Ancient Immortal Demons are gazing down on us!"

"Even though Xiang Ziyu and the Sect Leader have just broken into the Earth Immortal Realm, why do I feel the Sect Leader and Xiang Ziyu may now be stronger than other Earth Immortal Realm masters in the Hundred Peaks Sect?"

"I also have this feeling; the aura emitted by their Immortal Mountains is too terrifying!"

After Xiang Ziyu's Immortal Mountain was condensed, it quickly disappeared.

The other disciples of Four Treasures Peak also did not condense their Immortal Mountain, but everyone surrounded Xiang Ziyu, Cao Zhen even asked, "Didn't I say I would pass on a Cultivation Technique to you? Why have you cultivated a Cultivation Technique yourself? What kind of Cultivation Technique have you cultivated? Where did you get it from?"

Xiang Ziyu replied proudly, "Master, did you forget about that True Immortal from Heaven Prayers Sect? I obtained a strand of Divine Thought from him, inside was a recorded Cultivation Technique, but that strand of Divine Thought was somewhat fragmented, the Cultivation Technique recorded inside was incomplete."

Cao Zhen begrudgingly touched his forehead and said, "So, you directly cultivated that strand of Divine Thought?" Specializing in cultivating fragments is indeed in Xiang Ziyu's style.

"That's not the case, Master, do you remember I said we brothers went to kill the Alliance Hierarch of East Breeze? At that time, there was also a strand of Divine Thought in that guy's Qiankun Bag, regardless of whether it was that guy's Divine Thought, that strand of Divine Thought was also fragmented. And Master, do you know what's most unique? These two strands of Divine Thought, one is Yin Breath, the other is Yang Breath."

Cao Zhen recalled Xiang Ziyu's previous cultivation of the Record of Deities and Demons and said helplessly, "So, you fused these two strands of Divine Thought and cultivated them?"

"It's not that simple, Master, I'm telling you, it was through Cloud Reaching Sect's rainbow staircase that I saw their Dao, and I combined it with their Dao and then fused these two different strands of Divine Thought." Xiang Ziyu became increasingly excited, even gesturing with his hands and feet, "Master, I'm telling you, this is definitely the most suitable Cultivation Technique for me, I am born the protagonist."

Cao Zhen didn't know how to respond to Xiang Ziyu, this guy, always seeking danger, previously only treating two different books of Cultivation Techniques as one, now even dares to cultivate fragmented Divine Thought together and actually managed to cultivate it.

He slightly nodded and said, "Show me what Cultivation Technique you cultivated later."

The reason being that Zhonghua Cloud can win lying down, his demon-modified Heaven and Earth immortal demon Yin Yang Supreme power is on the same level as Xiang Ziyu's, he said so because he suddenly thought of a question.

The Immortal Mountain is condensed because of techniques; if there are multiple Cultivation Techniques, then naturally there would be more variations.

Others naturally cannot cultivate multiple Cultivation Techniques simultaneously, because it not only renders the Immortal Mountain inharmonious, but the time spent might be better spent focusing on cultivating a single technique and breaking through to higher realms.

Moreover, cultivating different Cultivation Techniques will definitely cause conflict; if one is not careful, they will go mad.

The more Cultivation Techniques, the higher the probability of madness.

But he is different; he can directly win lying down.

Additionally, his Chaotic Reversal Energy can theoretically encompass all energies, so even if his Immortal Mountain is inharmonious, it doesn't matter, Chaos Qi can encompass everything.

So, if he operates Xiang Ziyu's Heaven and Earth immortal demon Yin Yang Supreme power, what will happen? Will the Immortal Mountain also change?

However, if he directly operates it and the Immortal Mountain changes, others will certainly be puzzled, so first he asks Xiang Ziyu to teach him the Cultivation Technique, then should his Immortal Mountain exhibit changes, it won't be strange, for in others' eyes, he also knows Heaven and Earth immortal demon Yin Yang Supreme power!

Xiang Ziyu's demon-modified Heaven and Earth immortal demon Yin Yang Supreme power is extremely intricate; it cannot be outlined verbally. Even after Xiang Ziyu became an Earth Immortal, it took three hours to fully transmit it to Cao Zhen through Divine Thought.

Cao Zhen was genuinely impressed; such a complex Cultivation Technique, Xiang Ziyu managed to modify and even cultivate it, and it looks incredibly powerful.

The night was already deep, after Cao Zhen taught all the disciples' Cultivation Techniques except Yi Sheng's, he returned to his own room and began operating Xiang Ziyu's Heaven and Earth immortal demon Yin Yang Supreme power.

After one great cycle, behind him, the Immortal Mountain surfaced. His Immortal Mountain was a range and not every peak was thirty zhang high, but now, the two originally low peaks among the stable Immortal Mountains suddenly rose, swiftly elevating to thirty zhang, these two Immortal Mountains, one black, one white, just like two Ancient Immortal Demons!

Chapter 1468:

Cao Zhen discovered that his Immortal Mountain was somewhat different from Xiang Ziyu's. Xiang Ziyu's white Immortal Mountain had black at its peak, and the black Immortal Mountain had white at its peak, which was actually Yin Yang Qi. Xiang Ziyu had achieved yin-yang fusion.

However, his own two peaks, the white peak was just a white peak and the black peak was just a black peak, without achieving yin-yang fusion. Moreover, the aura of his two peaks was not as strong as the aura emitted by Xiang Ziyu's Immortal Demon Fairy Mountain!

Yet the problem is, these are just his own two peaks, two among his group of mountains.

Cao Zhen's mind moved, and in his hands, Yin Yang Qi emerged. Enveloped by Chaos Qi, the Yin Yang Qi gathered together.

"So, because of Chaos Qi, although my Yin Yang Qi cannot achieve yin-yang fusion like Xiang Ziyu's, I can force it to merge together."

He could clearly feel that as the two peaks rose higher, the celestial energy on the Immortal Mountain noticeably strengthened, correspondingly, the celestial energy stream inside him also increased slightly.

"This is just Xiang Ziyu alone, and there are Ling Xi, Yan Yourong, Bei Yan, and other disciples. As long as I operate their cultivation techniques, my Immortal Mountain can be enhanced a bit. This is truly winning by doing nothing.

Also, Li Ke, luckily I was smart before, and I taught Li Ke a cultivation technique in advance, so I have no issue relying on Li Ke to win by doing nothing. The key is Bi Yue; she cultivates her Dragon Chant Sect's cultivation technique. How can I rely on Bi Yue to win by doing nothing?

One day, when a Divine Dragon appears on my Immortal Mountain, like Bi Yue's Immortal Mountain, everyone will be suspicious. I need to think of a way to legitimately win by doing nothing, or think of a way to slightly change the appearance of others' Immortal Mountains?"

Cao Zhen began to ponder.

Outside, even in the dark of night, when Cao Zhen's Immortal Mountain rose, and the two peaks rapidly elevated, it still drew attention from everyone within the Hundred Peaks Sect.

"What is this situation?"

"Sect Leader Cao's Immortal Mountain, why has it changed again?"

"Why do those two peaks look like Xiang Ziyu's peaks?"

"Why is there still such a change?"

"It seems that the Sect Leader has also cultivated Xiang Ziyu's cultivation techniques."

"Xiang Ziyu is the Sect Leader's disciple; it is normal that the Sect Leader knows Xiang Ziyu's cultivation techniques."

"But how could the Sect Leader have time to cultivate the techniques to such a profound level? He certainly can't cultivate two different cultivation techniques simultaneously; that would certainly disperse his focus! Moreover, these two cultivation techniques seem completely different."

"Yes, I don't know what the Sect Leader is thinking."

At Four Treasures Peak, Ling Xi and others gazed at the virtual image of their master's Immortal Mountain that appeared and then disappeared in the void, marveling at it one by one. They knew very well their master wouldn't know Xiang Ziyu's cultivation techniques. Xiang Ziyu's cultivation technique was something he cultivated himself, yet in such a short time, their master had already cultivated it.

People said the third one Xiang Ziyu was talented, said he was a genius, that there was no cultivation technique or divine skills he couldn't cultivate, but compared to their master, Xiang Ziyu still had a clear gap.

Moreover, given the talents of their master and Xiang Ziyu, both possessing top-tier talents, yet still working so hard, they too must hasten their cultivation.

Their master had already taught them the cultivation technique, but possessing the cultivation technique does not mean they can directly cultivate it with just a little practice, and they must reach the first level of the cultivation technique to condense the Immortal Mountain, which requires time.

The next day, none of the disciples at Four Treasures Peak condensed the Immortal Mountain again.

Cao Zhen prepared a gigantic pill furnace and gathered a large amount of medicinal ingredients.

He taught cultivation techniques to other disciples but had not taught Yi Sheng yet because he had prepared a special cultivation technique and pill for Yi Sheng.

In the room, Cao Zhen pointed at the giant pill furnace in front of Yi Sheng, saying, "Remember how I taught you to refine Scarlet Flame Heavenly Phoenix back then? Actually, the Scarlet Flame Heavenly Phoenix originates from the cultivation technique I am going to teach you. You've experienced it once, so cultivating again should be somewhat easier."

However, the difference is, the last time I helped you with alchemy, this time you need to refine the pill yourself, or rather, refine fire. You yourself are the flame of the pill furnace, and you need to burn yourself to refine the pill. Once the pill forms, the pill will envelop you, and you must use your flame internally to consume the pill bit by bit. Breaking out of the pill will be when the cultivation technique is mastered.

Once it's mastered, I will teach you some special spells."

Cao Zhen, who had never really guided Yi Sheng in his cultivation, sat out this time, constantly watching Yi Sheng's cultivation from the outside.

Once he imparted the cultivation technique to other disciples, they practiced step by step, but Yi Sheng's cultivation was more troublesome and could even be dangerous.

Three days later, over Four Treasures Peak, a figure leaped into the sky, followed by the emergence of a gigantic virtual image of an Immortal Mountain. This towering and fierce mountain seemed like a massive Kylin beast looking down from the sky, and more than that, it was a blood-red Immortal Mountain emitting an intimidatingly vicious aura.

Zhu Peng's Immortal Mountain condensed.

In the following days, over Four Treasures Peak, one Immortal Mountain after another emerged.

Among them, some Immortal Mountains were wrapped with talismans, some looked like long knives, Immortal Mountains above even condensed with Five Elements Power, some Immortal Mountains resembled pagodas, some looked like longswords...

Chapter 1469:

The disciples of Four Treasures Peak successively condensed their immortal mountains.

And every time after the disciples of Four Treasures Peak condensed their immortal mountains, Cao Zhen's immortal mountain would also change.

Everyone was initially puzzled, but later they became accustomed to it.

Even Little Silver Dragon condensed its immortal mountain.

Although Cao Zhen did not connect with Little Silver Dragon, after Little Silver Dragon condensed its immortal mountain, a towering peak rose on his immortal mountain, resembling a giant dragon.

This peak was not actually formed from the change in Little Silver Dragon's immortal mountain, but came from Bi Yue's immortal mountain, with just a slight alteration by his mana.

After another seven days, a loud explosion suddenly echoed from Four Treasures Peak, followed by the house where Cao Zhen and Yi Sheng had been staying violently exploding, as a huge reddish pill shattered, Yi Sheng flying out from the pill. In the next moment, a gigantic immortal mountain appeared in the void, yet this immortal mountain looked very much like a pill.

Thus, everyone from Four Treasures Peak had entered the Earth Immortal Realm.

"You have all entered the Earth Immortal Realm, so next I will teach you spells. First, as disciples of Four Treasures Peak, you will know the Five-thunder Righteous Method, but the Five-thunder Righteous Method you used before was merely divine skills, unable to fully unleash its true power. Now, what I'll be teaching you are the spells of the Five-thunder Righteous Method.

You first cultivate the Five-thunder Righteous Method, and afterwards, I will impart spells suitable for you."

Cao Zhen begins teaching spells to his disciples. Before the Earth Immortal Realm, he imparted very few divine skills to his disciples, often letting them find divine skills to cultivate on their own.

The main reason is his connection with Zhang Daoling, who knows divine skills, but has far fewer than spells, and Zhang Daoling is more focused on researching spells rather than divine skills.

Now, he can finally impart spells to his disciples.

The Minor Era of Inversion of Heaven and Earth ended, and experts from various sects and great teachings awakened, leading to changes among the leaders of these sects and teachings.

And the awakened experts quickly learned about the current major events in the world.

Especially the experts from the Guardian Immortal Imperial Dynasty of various immortal sects, who listened to the reports from their juniors, felt extremely complex emotions.

"We actually connected to the Eastern Province."

"Those with excellent cultivation talent joined the great teachings of the Eastern Province?"

"So now the ten immortal sects have become dominated by the Hundred Peaks Sect?"

"The Hundred Peaks Sect has become so powerful? However, they've offended too many people. Now that the Minor Era of Inversion of Heaven and Earth is over, those experts from the Eastern Province's great teachings have awakened. The Hundred Peaks Sect might be in danger."

Void Breaking Sect!

As experts of the first layer of Earth Immortal Realm and Longevity Period awakened, the temporary hierarch was replaced by an elder at the peak of the Longevity Period.

The experts listened to the reports from below, growing increasingly furious!

"Waste, all of them are a bunch of waste! The Void Breaking Sect of the Eastern Wasteland, even though they left our Void Breaking Sect long ago, they are still our branch, and part of the Void Breaking Sect.

Now, our entire branch of the Void Breaking Sect has been wiped out by someone, and the opponent is just a small sect in the Eastern Wasteland. You have no way to destroy the opponent's sect, and you don't know how much you disgrace our Void Breaking Sect!

All of them are a bunch of waste!"

An elderly man angrily slammed the table, and the wooden table in front of him exploded into a powder.

The disciples previously in high positions within the Void Breaking Sect could only sit below, facing the fury of the elders, their faces paling in fear.

After a while, one person raised his head, reluctantly saying, "Elder Yu, it's not that we don't want to destroy the Hundred Peaks Sect; it's that Dragon Chant Sect's Bi Yue is always protecting the Hundred Peaks Sect. Moreover, several beings at the limit of the Golden Core Stage have appeared in the Hundred Peaks Sect.

Even if we go all out to destroy the Hundred Peaks Sect, the beings at the limit of the Golden Core Stage could escape. If they retaliate against us afterward, our disciples would suffer damages, which is why we haven't destroyed the Hundred Peaks Sect."

"Excuses! Those from the remote places of the Eastern Wasteland can become the limit of the Golden Core Stage; can't you also reach the limit of the Golden Core Stage? I don't want to hear any explanations. I only know that you're bringing shame to our Void Breaking Sect!

Now, we have to clean up your mess immediately upon awakening!"

Elder Yu said coldly, "Now is not the Reversal Mini Epoch Period. They will soon understand the consequences of offending a great teaching."

Turning to the elderly man seated in the temporary hierarch's position, he said, "Elder Li, let me handle this, I'll take ten experts from the Earth Immortal Realm to destroy the Hundred Peaks Sect. The dignity of our great teaching must not be challenged."

Below, the disciples from the Reversal Mini Epoch Period tightened their hearts hearing about ten people, and hastily spoke up, "Elder Yu, ten might be a bit too few."

Elder Yu's eyebrows furrowed, looking coldly at the disciple who spoke, "Why are ten people too few? I see you've been scared stiff by their Hundred Peaks Sect!"

"Elder, it's not so, it's just..." the questioned disciple hesitated, then expressed what he knew, "We didn't destroy the Hundred Peaks Sect before, but we also figured out the situation of the Hundred Peaks Sect. This time, up to twenty people from the Earth Immortal Realm might awaken from the Hundred Peaks Sect.

Chapter 1470:

Besides, the Hundred Peaks Sect also has individuals with the Wind Fire Tribulation cultivation and those who have completed Pill Fusion. I fear it won't be long before they break through to the Earth Immortal Realm.

At that time, who knows how many will exist in the Earth Immortal Realm?"

"You say that a portion of those with Wind Fire Tribulation cultivation can break through to the Earth Immortal Realm in a short time; that, I can believe. But for those who completed Pill Fusion to all enter the Earth Immortal Realm? How is that possible!"

Upon hearing this, Elder Yu immediately sneered, "Even though you have accumulated for a long time during the Minor Era of Inversion of Heaven and Earth, after entering the Wind Fire Tribulation, you still need prolonged cultivation to slowly break through and cross the Wind Fire Tribulation."

"No, Elder Yu, you don't know, today there is a kind, no, there should be two kinds of pills, after consuming them, one can quickly cross the Wind Fire Heavenly Tribulation.

If you take one of those best quality pills, a person who originally needed fifty years to cross the Peak Fire Heavenly Tribulation can accumulate enough in one year and then cross the Wind Fire Heavenly Tribulation."

"What? There's such a pill?"

"This..."

A crowd including Elder Yu of the waking Earth Immortal Realm was stupefied.

"Are you sure these two kinds of pills exist? There's no problem?"

"There won't be any problem. One of those pills is sold by the Rare Treasures Commerce Association, and the other is sold by a commerce association founded by the previous president of the Rare Treasures Commerce Association after he left. Moreover, they had already concealed the effects of these two pills before."

Suddenly, the group of just-awakened Earth Immortals fell silent, followed by Elder Yu suddenly speaking, "Even so, most of their Earth Immortals need time to break through into the Wind Fire Tribulation, and need time to cross the Wind Fire Heavenly Tribulation, perhaps one year, maybe two.

Moreover, even if they cross the Wind Fire Heavenly Tribulation, it doesn't mean they will necessarily succeed."

"Elder, now there are another two kinds of Heavenly Tribulation Pills, after consuming these two pills, unless one is incredibly weak in the Wind Fire Tribulation realm, they're almost guaranteed to succeed in crossing into the Earth Immortal Realm."

"What? There's such a pill?"

"How can there be such a pill, who from which great teaching made this? The Divine Pill Sect or the Holy Pill Sect?"

"Elder, it wasn't the Divine Pill Sect or the Holy Pill Sect, but Cao Zhen of the Hundred Peaks Sect. Out of the four types of pills we mentioned, the two sold by the Rare Treasures Commerce Association were crafted by Cao Zhen and his disciple.

As for the other two pills, although there is no concrete evidence that they were made by Cao Zhen, everyone speculates that they were crafted by him, because they are very similar, and their effects are almost the same.

It wouldn't make sense for an Alchemy Master to suddenly appear and create these pills."

"Hundred Peaks Sect? Again, someone from the Hundred Peaks Sect!"

Elder Yu furrowed his brows tightly. Back when they crossed the Wind Fire Heavenly Tribulation, many people failed.

Even for their Void Breaking Sect, around thirty percent of them failed the Wind Fire Tribulation! Now, his nephews tell him there's a pill that can ensure success in crossing the tribulation.

He found that during his hundred-year slumber, the outside world had changed so dramatically, some things even overturning his understanding.

The disciple below saw Elder Yu deep in thought and continued, "Elder, those disciples of theirs with weaker Pill Fusion, need time to cross the Wind Fire Heavenly Tribulation, but within their Hundred Peaks Sect, those top disciples will probably break through to Earth Immortal soon.

So..."

He paused slightly, thought for a while, and said, "So, we believe that the Hundred Peaks Sect currently has at least over thirty, even over forty Earth Immortal Realm beings. The other side also has the Mountain Protection Array. Elder Yu, you bringing only ten Earth Immortals might be a bit too few."

Elder Yu seemed to realize that ten people were indeed a bit few, but he still stubbornly said, "You might not know how big the gap is between Earth Immortals? Let's put it this way, during the Golden Core Stage, with the same cultivation realm, even if both are Ten Different Phenomena of Golden Core Great Perfection, one can't slaughter ten others of the same level. But in the Earth Immortal Realm, it's possible.

The same Earth Immortal Realm Longevity Period peak, a more terrifying Longevity Period peak can annihilate ten other same-period cultivators; such things have happened among cultivators."

Below, a disciple suddenly objected, "Ten Different Phenomena of Golden Core Great Perfection, slaughtering ten peers of the same cultivation realm, seems not impossible. For example, Cao Zhen and Xiang Ziyu of the Hundred Peaks Sect, when they were Nine Abnormal Phenomena Golden Pills, had reached the peak of the Golden Core Stage, with both body and mana achieving Golden Core Stage limit. If they completed Pill Fusion, slaughtering ten ordinary Ten Different Phenomena Golden Core Great Perfection individuals could be considered easy."

It's true that those before me are indeed Earth Immortals, and I'm currently only in Wind Fire Tribulation's cultivation level, but soon, when the pills I ordered arrive, I can swiftly break through to the Earth Immortal Realm.

During my Golden Core Stage, I was at the pinnacle of Ten Different Phenomena of Golden Core Great Perfection, and during the same period, Elder Yu was not stronger than I was.

I'm confident that after entering the Earth Immortal Realm, I can quickly surpass Elder Yu.
