

My Master 1471

Chapter 1471:

Deep inside his heart, he didn't think much of Elder Yu.

Elder Yu was immediately taken aback, and a fierce glint appeared in his eyes as he looked at the disciple who had just spoken. Before he could speak, several exclamations were heard from the surroundings.

"Reached the Golden Core Period Limit while at the Nine Abnormal Phenomenon Golden Pills stage?"

"And both his physical body and mana reached the Golden Core Period Limit?"

"Who on earth is this Cao Zhen?"

Below, a disciple quickly responded, "Replying to Martial Uncle, Cao Zhen is a reincarnated powerhouse."

"Reincarnated powerhouse?"

"Even if he is a reincarnated powerhouse, to reach the Golden Core Period Limit during the Nine Abnormal Phenomenon Golden Pills stage, he must be a top-tier reincarnated powerhouse!"

"So what if he is a reincarnated powerhouse!" Elder Yu retorted defiantly, "No matter how strong he is, he has just entered the Wind Fire Tribulation from the Golden Core Stage. You also mentioned that he was only at the Nine Abnormal Phenomenon Golden Pills before, he still needs to complete the Pill Fusion first, then enter the Wind Fire Tribulation, and finally break through to the Earth Immortal Realm.

In such a short time, it is already commendable if he can enter the Wind Fire Tribulation. Besides, the gap at the Earth Immortal Realm is enormous, that Hundred Peaks Sect is just a small sect from a remote area like the Eastern Wasteland, how can their Earth Immortal Realm compare to ours!

As long as I go with ten senior and junior brothers at the peak of Longevity Period, we can surely conquer Hundred Peaks Sect."

The words he spoke unconsciously changed; at first, he mentioned bringing ten Earth Immortal Realm cultivators, who naturally would have a lower cultivation base than him, but now he mentioned going together, which means he needs people with higher cultivation.

On the main seat, Elder Li waved his hand to interrupt Elder Yu and said, "Elder Yu, we cannot send out so many top-tier experts. However, Elder Yu is right, their Earth Immortal Realm at the Hundred Peaks Sect surely cannot compare to our Void Breaking Sect's in terms of cultivation technique or spells.

Besides, a small sect like theirs probably doesn't have many treasures."

"Elder Li..." Below, a disciple immediately whispered a reminder, "The Hundred Peaks Sect should have quite a few treasures. Previously, at the Rare Treasures Commerce Association, Cao Zhen made a wager with someone and won thirty treasures. Even if some of those treasures were not wagered by Cao Zhen, since Cao Zhen and Immortal Bi Yue divided the treasures, he must have received a considerable share.

Moreover, when the Heaven Prayers Sect was annihilated earlier, Cao Zhen and Xiang Ziyu must have also acquired quite a few treasures, especially since the tomb of the Heaven Prayers Sect's hierarch was looted by Xiang Ziyu!"

"What? Heaven Prayers Sect was annihilated?"

"How could it be, with so many great teachings in Eastern Province, how did a small sect's members manage to dig up the tomb of the Heaven Prayers Sect's hierarch?"

"Useless, you disciples of this generation are truly lacking!"

"No, in that case, doesn't it mean the Hundred Peaks Sect now possesses many treasures?"

"So if we eliminate the Hundred Peaks Sect, all those treasures will be ours!"

"Surely the other great teachings also know that the Hundred Peaks Sect possesses numerous treasures, right?"

"The other great teachings will certainly take action; we need to act quickly and destroy the Hundred Peaks Sect before the other great teachings do!"

Initially, everyone just wanted revenge, merely to uphold the reputation of their Void Breaking Sect, but now upon hearing about the vast number of treasures the Hundred Peaks Sect holds, everyone's eyes turned greedy.

"Elder Li, you are currently our temporary sect hierarch of the Void Breaking Sect; you're not suited to take action. Let me lead the team this time."

"Brother Huang, the other side has many treasures, naturally one person alone is not enough, it's better if senior brother and you go together."

"I've been sleeping for so long, my body has gotten a bit rusty; it's just right for some activity, to go out for a walk."

"I really want to see what kind of three-headed and six-armed reincarnated powerhouse he could be."

"I just remembered, the one who went to establish a branch in the Eastern Wasteland is from our line, so naturally, I have to go on this matter."

In no time, all the newly awakened Earth Immortal Realm individuals voiced their intention to head to Hundred Peaks Sect, since it had a plethora of treasures, whoever eliminated Hundred Peaks Sect would claim those treasures!

As for danger?

With so many of them going to the Hundred Peaks Sect, what danger could there be in not wiping out the Hundred Peaks Sect!

Elder Li felt tormented; before they went to sleep, it was already arranged that after the first batch of Earth Immortal Realm awakened, he would serve as the temporary hierarch.

He, of course, also wanted to go to the Hundred Peaks Sect to seize treasures, but as the hierarch, he couldn't leave so easily.

"Gentlemen, we can't send all our top experts out. Since the other side might have thirty, or even forty Earth Immortal Realm experts, let's send thirty Earth Immortal Realm experts, and then dispatch two hundred Golden Core Stage disciples. Elder Lu, you will lead the team this time."

The gap between Earth Immortal Realms is, indeed, vast, even if they have a Mountain Protection Array, what strength could a small sect's Mountain Protection Array possess?

As for their Golden Core Stage disciples, no matter how many of them there are, we don't regard them.

The two hundred Golden Core Stage disciples we send are not meant to fight, but to ensure that the Hundred Peaks Sect's people don't escape.

Soon, the people of the Void Breaking Sect set off, under the lead of the Earth Immortal Realm, riding flying boats towards the direction of the Hundred Peaks Sect.

It is no longer the Reversal Mini Epoch Period, so they can employ the Magic Treasure Flying Ships, traveling even faster.

Cao Zhen found himself really busy now, after passing down spells, he still had to make treasures for his disciples. After all, those treasures his disciples used were divine weapons, some needed to be converted into treasures, and others required new treasures.

Chapter 1472:

Ling Xi's Unparalleled Formation Plate also needs to be remade.

And he himself...

He had always been puzzled. After he became an Earth Immortal, such a significant realm breakthrough should have allowed him to randomly connect with someone or specify a connection with someone. But why hadn't China Cloud prompted anything?

Besides that, there was also the Prosperous Age Picture Record.

He could clearly feel that after he broke through to become an Earth Immortal, his Prosperous Age Picture Record also started to tremble, the entire Guardian Immortal Imperial Dynasty was closely connected with him.

He could now draw the Prosperous Age Picture of the Guardian Immortal Imperial Dynasty.

But all these years, he really hasn't visited the entire Guardian Immortal Imperial Dynasty, and before drawing it, he needs to travel around every part of the Guardian Immortal Imperial Dynasty.

Busy, truly too busy!

"Better to first inventory all the treasures, see which ones can be given to the disciples, and those that cannot be given, then melt them down."

Back then, Xiang Ziyu had indeed opened the life tomb of the Heaven Prayers Sect Hierarch, who was a True Immortal Realm existence. Previously, they were only at the Golden Core Stage, unable to research the specific uses of those treasures or who they were suitable for, even if they checked those treasures.

Now, however, there is finally a chance to examine them.

As he opened the Qiankun Bag, immediately beams of light from the treasures shot out, causing his eyes to sting with pain.

These were treasures from the life tomb of the Heaven Prayers Sect Hierarch. He even suspected whether the sect hierarch of the Heaven Prayers Sect had embezzled the sect's treasures into his life tomb, as there were simply too many treasures inside!

Soon, his gaze fell upon a particular light mirror.

"This is... a Middle-Rank Mystical Level treasure? What kind of treasure is this?" Cao Zhen, full of curiosity, raised his hand and infused immortal energy into the treasure.

Instantly, the Light Mirror brightened up, making the entire Four Treasures Peak and the whole Hundred Peaks Sect above glow brightly.

"This treasure is called Streaming Light Mirror, let me see what it's used for."

As Cao Zhen sent his immortal power into the Streaming Light Mirror, information streamed into his mind quickly.

"This is not a direct combat treasure, it's a treasure for communication? It can communicate with the Heavenly Dao; Heaven Prayers Sect originally used it to communicate with Heavenly Dao and pray for its blessing? What use is this treasure? I don't pray for the power of the Heavenly Dao."

To Cao Zhen, the Heavenly Dao was not something benevolent; he often felt that the Heavenly Dao purposely caused people to die.

"Melt it, this treasure is useless, just melt it directly."

Without thinking, Cao Zhen tossed the treasure aside.

Soon, he looked at the second treasure.

"What is this...? A Lower Profound Grade treasure! A sect hierarch is a sect hierarch after all, I wonder if he embezzled this one. It's merely a blood-related treasure, doesn't seem to suit any disciple. Zhu Peng might fit? However, Zhu Peng has too much of a murderous aura. Giving it to him, what if Zhu Peng goes mad? This one can't be given out for now."

Cao Zhen continued looking and soon found a third Profound Rank treasure, a Lower Profound Grade treasure. It was a talisman, a giant talisman, which upon unfurling was much larger than the room he was in.

"A talisman treasure, it must be for Ling Xi. Just right, after reaching the Earth Immortal Realm, Ling Xi's Heaven and Earth Bagua Talisman is somewhat insufficient. This talisman can be used for remodeling, merging with Ling Xi's talisman, and then I can forge a formation map for Ling Xi... At that time, Ling Xi would have perfect resonance with the formation map and talisman, and her combat power might even allow Ling Xi to easily beat that kid Xiang Ziyu.

But of course, as the great senior sister, she should be more formidable to ensure all her junior brothers and sisters follow her obediently."

Cao Zhen decided to first remodel and forge the talisman for Ling Xi during the crafting session later.

As he continued to inspect, he discovered that there were four treasures that could be directly given to the disciples.

"This Yellow Level Mid Grade Flame Furnace Cauldron should go to Yi Sheng, anyway, I have enough treasures myself. Yi Sheng's main cultivation focuses on flames and also involves pill forging, she needs a Pill Furnace for her cultivation; this Flame Furnace Cauldron suits her well."

"This staff is definitely for Zhu Peng, who has always used staffs. A Yellow Level Low Grade treasure is sufficient."

"The Yellow Level Low Grade sharp sword... never mind, it'll go to Duo Duo. I already have wings and the sharp sword that Bi Yue gave me. Duo Duo uses a sword, so it suits her better."

"This Lower Profound Grade turtle shell... it should go to Wan Ren Di. That kid is good at running away, and with such a defensive treasure, it shouldn't be easy for anyone to stop him."

All his disciples were now Earth Immortals, but undoubtedly the weakest was Wan Ren Di, who wasn't very proficient in combat.

"As for Yan Yourong, I need to forge a blade for her. Xiang Ziyu said he has ideas for his own treasures, that he can craft them himself, so I don't need to bother, and then Little Bei Yan... I can forge a tower for him or two hammers, I'll ask him then.

And for the leftover treasures, if anyone from the Hundred Peaks Sect can use them, I'll keep them for now; if not, I'll melt them down directly!"

For now, let's first forge treasures and formation maps for Ling Xi!"

Cao Zhen was preparing to forge the formation map when suddenly, a series of bells rang throughout the Hundred Peaks Sect, followed by voices shouting.

Chapter 1473:

"Enemy attack!"

"An Earth Immortal Realm cultivator is attacking, defend the sect!"

"All Earth Immortal Realm cultivators, head to the mountain gate!"

"Activate the Mountain Protection Array!"

Cao Zhen listened to the voices, put down the treasure he intended to refine, and suddenly got up, flying rapidly towards the mountain gate. The reason he wanted to quickly enhance the strength of the Hundred Peaks Sect was that he anticipated that after the Minor Era of Inversion of Heaven and Earth ended, someone would attack the Hundred Peaks Sect. However, he hadn't expected someone to come so quickly.

By the time he flew to the mountain gate of the Hundred Peaks Sect, the Mountain Protection Array was already activated.

Now that the Minor Era of Inversion of Heaven and Earth has ended, the Mountain Protection Array could no longer exert only Golden Core Stage power. But since no one was fully awakened, the Mountain Protection Array was still limited and unable to exert its full power.

Cao Zhen raised his eyes and instantly saw figures dressed in Void Breaking Sect attire surrounding the mountain gate.

All around, Earth Immortal Realm cultivators flew over, and upon seeing Cao Zhen, they cupped their hands and said, "Sect Leader."

"The Sect Leader is dealing with people from the Void Breaking Sect."

"The other side has sent thirty Earth Immortal Realm cultivators."

"Thirty of them? Their number of Earth Immortal Realm cultivators is less than ours, yet they dare to attack our Hundred Peaks Sect, simply courting death!"

Previously, many Earth Immortal Realm cultivators had awakened in the Hundred Peaks Sect, and later, Four Treasures Peak along with Li Ke, Liao Youdi, Shen Lidi, and others broke through into the Earth Immortal Realm.

Even more so, the ten or so cultivators from the initial Wind Fire Tribulation have all entered the Earth Immortal Realm. Now the Hundred Peaks Sect has more than fifty Earth Immortal Realm cultivators.

On the Void Breaking Sect's side, everyone looked at the mountain gate opposite with a look of surprise on their faces.

"The number of Earth Immortal Realm cultivators on the other side is actually more than we anticipated, there are over fifty Earth Immortal Realm cultivators."

Although the other side hasn't unleashed their Immortal Mountain, the aura of Earth Immortal Realm and Golden Core Stage is vastly different. Even from a great distance, they could discern who is Earth Immortal Realm and who is Golden Core Stage.

"So what if there are over fifty of them? Among them, many have just entered the Earth Immortal Realm, how can they compare with us!"

"Those kinds of Earth Immortal Realm cultivators, I alone can annihilate ten of them."

In the back, a Golden Core Stage disciple quickly pointed towards Cao Zhen and said, "Elder Lu, that is Cao Zhen."

"Elder Lu, do you have anything to say?"

Elder Lu was tall and had a darker complexion than ordinary people. His nose was high and bent, making him appear more sinister.

"Say? Say what? What's there to say? Just act directly."

With those words, behind him, a great Immortal Mountain emerged.

In an instant, a forty-zhang high Immortal Mountain appeared, or rather, calling it a Demonic Mountain would be more appropriate.

This Demonic Mountain was entirely pitch-black, surrounded by black demonic energy that hovered around like black tribulation clouds. The Demonic Mountain was enormous, with five peaks particularly prominent, resembling the hands of an ancient giant demon, exuding an extremely terrifying power.

On the side of the Hundred Peaks Sect, everyone's expressions suddenly changed dramatically.

Zhong Xinyi exclaimed, "This is the peak of the Longevity Period."

"A forty-zhang high Demonic Mountain!"

Among them, the strongest Chen Qingluan and Tu Zhuque had Immortal Mountains only thirty-three zhang high. Their Immortal Mountains were shorter than the opponent's, and since the opponent is from a Great Teaching, their spells are naturally stronger, this...

"Is forty-zhang high very tall?" Cao Zhen sneered, and behind him, a massive Immortal Mountain appeared. Although he had been very busy during this period, he still took time each day to practice his cultivation technique.

Moreover, on the first day of condensing the Immortal Mountain, he had already brought it to thirty zhang in height. The first day of Immortal Mountain condensation is when its height increases the fastest, and in the following days, its height continues to increase rapidly.

Now his Immortal Mountain is also forty zhang high!

On the opposite side, the people from the Void Breaking Sect were instantly stunned.

"What's going on?"

"That Cao Zhen, why is his Immortal Mountain also forty zhang high?"

"Wasn't he a nine-abnormal phenomena Golden Core before? How long has it been since the Minor Era of Inversion of Heaven and Earth ended? It's already amazing that he could break through into the Earth Immortal Realm, but what's with his Immortal Mountain?"

"No, his aura clearly shows he's only at the early stage of the Ten Thousand Life Stage, how can his Immortal Mountain be so tall!"

"This..."

Elder Lu's eyes also revealed a trace of shock, then his face showed a mocking expression, sneering, "What kind of Immortal Mountain is this? It has both flames and Yin Yang Qi, with both sword energy and sword aura? How can such a chaotic Immortal Mountain focus its power?"

Even if it's forty zhang, what of it? I will show him that even at forty zhang, there is a difference!"

He sneered, and a jet-black branch appeared in his hand. In the next moment, endless demonic energy surged into the branch, and instantly, five leaves appeared on the otherwise leafless black branch.

As he waved his hand, he struck a palm towards the direction of the Hundred Peaks Sect.

Instantly, a giant black palm appeared in the void, and the five leaves from the branch flew up and attached themselves to this palm, seeming to transform into rootless fingers.

The black palm covered the sky, blocking out the sun, completely shrouding this corner of the sky in darkness.

The next moment, in the pitch blackness, a terrifying thunderous boom echoed, so loud that it seemed to shatter this corner of space.

Then, suddenly, a purple thunderbolt appeared across the darkened sky, descending from the heavens, seemingly cleaving this space in two, dispelling all darkness in its path.

Five-thunder Righteous Method!

The Five-thunder Righteous Method driven by immortal power! This is the true Five-thunder Righteous Method!

In the void, the vast and boundless power of thunderbolt spread, instantly smashing onto the black palm.

In that moment, a sound akin to the collision of two continents echoed, followed by a cracking sound as if a mountain had been split and the sky torn apart.

In the void, under the gaze of everyone, the black palm shattered!

Furthermore, the purple thunderbolt didn't dissipate, continuing to carry its unparalleled thunderous power, striking towards Elder Lu!

Chapter 1474:

In front of the Hundred Peaks Sect gates, the purple thunderbolts seemed like terrifying Heavenly Tribulation Thunder, tearing apart the darkness, and ripping open a clear crack in the void, crashing toward Elder Lu with immense force.

In an instant, the confident smile on Elder Lu's face froze, his eyes filled with shock as he gazed at the descending thunderbolt.

The spell he had cast, which was a top-grade Yellow Level spell, was instantly torn apart by the opponent.

Mysterious Rank spell!

Cao Zhen cast at least a Mysterious Rank spell!

Cao Zhen, he had just entered the Earth Immortal Realm, how could he possibly cast a Mysterious Rank spell!

In the cultivation world, spells, like treasures, are divided into several ranks based on their strength, from high to low: Heaven, Earth, Mysterious, Yellow, and Mortal.

Each rank of spells is further divided into upper, middle, and lower grades.

In the Earth Immortal Realm, the limit of spells one can cast should be Mysterious Rank spells.

Spells of a higher rank, even with the cultivation base of the Earth Immortal Realm, are impossible to cultivate. Moreover, Heavenly Rank spells and Earth Level spells aren't something you can have just because you want them.

Even for their Void Breaking Sect, there is only one Earth Level spell, which can only be cultivated after reaching the Immortality Regainment Realm.

Cao Zhen, having just entered the Earth Immortal Realm, how could he have cultivated a Mysterious Rank spell?

Mysterious Rank spells should only be cultivated after reaching the peak of the Longevity Period, and even then, it would be just cultivation; to master it proficiently, one probably needs to break through into the Indestructible Period.

In his eyes, full of disbelief, the thunderbolt had already reached in front of him, and before he could react, as the thunderbolt was about to strike down, a torrent of demonic qi surged from his body, gathering in front of him to form a gigantic umbrella-like shape.

In a hair's breadth, he cast a second spell, also a top-grade Yellow Level spell.

The black giant umbrella seemed to unfold in this space, giving off a weird, eerie vibe, as if it could block everything in the heavens and earth.

But in the next moment, the thunderbolt, filled with overwhelming righteousness, fell, penetrating the giant umbrella in an instant, and its terrifying force slammed onto Elder Lu.

In an instant, Elder Lu's entire body shuddered violently, his hair standing on end under the force of the thunderbolt, and his clothes shattered in an instant.

At that moment, he felt as if all the bones in his body were shattered by the thunderbolt, the terrifying power of the thunderbolt surged into his body, wreaking havoc, making his internal organs seem as if they were about to split open.

"Puff..."

With one strike, Elder Lu couldn't bear it and spat out a mouthful of blood.

Everything happened too quickly, the people of the Void Breaking Sect never imagined Elder Lu would be defeated by the opponent.

Elder Lu was at the peak of the Longevity Period, and Cao Zhen had just entered the Earth Immortal Realm, how could he defeat Elder Lu!

Mysterious Rank!

Cao Zhen must have cast a Mysterious Rank spell!

Mysterious Rank spells, in their Void Breaking Sect, aren't spells that everyone can cultivate.

Among them, no one has even cultivated a Mysterious Rank spell.

Among their awakened members, only the currently temporary Sect Hierarch, Elder Li, has cultivated a Mysterious Rank spell.

After all, at the end of the day, they too are only beings of the Longevity Period.

It is already very rare to be able to cultivate top-grade Yellow Level spells during the Longevity Period.

In some sects, there might not even be a few Yellow Level spells, having one top-grade Yellow Level spell would be considered a sect-treasured spell!

Such is the case even for the sects in the Eastern Province, let alone the sects in remote places like the Eastern Wasteland.

That's why they were so confident that their spells would surely be superior to those of the Hundred Peaks Sect; among them, every one of them had cultivated Yellow Level spells, with the strongest among them, Elder Lu and Elder Yu along with four other elders, even mastered top-grade Yellow Level spells.

So they were confident, they could crush the Earth Immortal realm of the Hundred Peaks Sect, they could defeat ten Earth Immortals of the Hundred Peaks Sect with one person!

But now, Cao Zhen actually cast a Mysterious Rank spell.

Suddenly, four big words emerged in their minds—Reincarnated Powerful Being!

Cao Zhen is a reincarnated powerful being, hence, this spell is one he mastered in his previous life, they never expected that Cao Zhen, who just broke through to the Earth Immortal Realm, could possess such strong power.

The Immortal Mountain was actually as high as Elder Lu's Demonic Mountain, and even more terrifying, Cao Zhen's Immortal Mountain was a range of mountains, with more than a dozen peaks each reaching a height of forty zhang.

The higher the Immortal Mountain, the stronger the immortal qi, with Cao Zhen's Immortal Mountain being so large, the immortal qi was even more terrifying.

Regardless of how Cao Zhen condensed the Immortal Mountain and how he continues to cultivate in the future, whether the path will be blocked, at least for now, Cao Zhen is genuinely terrifying!

Stronger immortal power, stronger spells!

And the treasure!

In their line of sight, a blue sharp sword appeared in Cao Zhen's hands, upon which were wrapped streaks of thunderbolts, the sharp sword not being swung yet seemed as if its thunder lights could shatter this part of space.

Cao Zhen tightly grasped the Sword of Heavenly Thunder in his hand, this sword was what Immortal Bi Yue gave to him after they helped the Five Sounds Sect with the Heavenly Tribulation.

Although this sword's rank wasn't particularly high, only a top-grade Mortal Rank, it was truly suitable for him.

Many treasures have unique functions, or contain some kind of spell, either extremely strong defensively or unmatchedly sharp.

Chapter 1475:

The greatest feature of this Sword of Heavenly Thunder is that the power of the thunderbolt technique it unleashes can be further enhanced.

After releasing the Five-thunder Righteous Method, Cao Zhen almost didn't pause and raised his hand again, gathering mana from within and channeling it into the Thunder Sword in his hand.

The next moment, thunder light converged on the sword body, with violet thunder covering the blue blade, and faintly, the longsword seemed to transform into a violet hue.

The color violet is originally a combination of blue and red, and some people cannot clearly distinguish violet from blue.

Once a divine skill is used, using it again causes the power to markedly decrease.

However, with mana, once it's used the second time, or the third time, the power is not significantly affected. Of course, if the same spell is cast repeatedly in quick succession, its power will naturally diminish, but how many times it can be cast without diminishing depends on the spell and the caster.

Like Zhang Daoling — Cao Zhen feels that Zhang Daoling could release the Five-thunder Righteous Method from morning till night, treating it as a fireworks display, and its power wouldn't diminish. After all, old Zhang is most proficient in the Five-thunder Righteous Method.

It's just that his current cultivation base is weak, having just entered the Earth Immortal Realm, and he is releasing a lower profound grade Five-thunder Righteous Method.

But old Zhang's Five-thunder Righteous Method is a heaven rank spell!

Normally, such a heavenly tribulation spell cannot be cultivated while he's merely at the Earth Immortal Realm.

The problem is that old Zhang's most proficient spell is the Five-thunder Righteous Method. With his immortal cultivation experience and theoretical knowledge, making slight modifications naturally allows him to cultivate the Five-thunder Righteous Method.

As the violet lightning descended once more, those in the Earth Immortal Realm around him began to act.

In an instant, a series of Demonic Mountains emerged, and numerous spells shot out, striking toward the thunderbolt.

"Everyone, take action together!"

"Cao Zhen is a reincarnated great ability, so he might naturally possess a mysterious rank spell, but others are not reincarnated great abilities and cannot be as strong as Cao Zhen, nor can they possess such terrifying spells!"

"This is a mysterious rank spell; Cao Zhen cannot easily pass it on to his disciples!"

The members of the Void Breaking Sect quickly responded; as strong as Cao Zhen might be, he couldn't handle them all alone. What did they have to fear!

At worst, they could send out three or four experts to block Cao Zhen. The remaining people among them would be enough to destroy the Hundred Peaks Sect, they...

The next moment, everyone froze.

From the direction of the Hundred Peaks Sect, another massive immortal mountain rose, seemingly even taller than Cao Zhen's immortal mountain. The black and white twin immortal mountains appeared like two ancient immortal demons gazing down on the living beings.

Xiang Ziyu!

While Cao Zhen has been occupied with other matters, Xiang Ziyu has been continuously cultivating. His immortal mountain is even loftier, and his immortal power even stronger!

He raised his hand, pointing into the void, where a violet thunderbolt appeared and struck toward the members of the Void Breaking Sect.

The members of the Void Breaking Sect were instantly dumbfounded. What's going on?

How could there still be such a master in the Hundred Peaks Sect, in such a small, remote sect? How could they also have such figures?

The disciples had already informed them that among the disciples of the Hundred Peaks Sect, besides Cao Zhen, the most terrifying was Xiang Ziyu, who had reached the Golden Core Period Limit with the Nine Abnormal Phenomenon Golden Pills, and was a dual limit of mana and physical body.

From the description of the disciples and looking at this person's immortal mountain, this was undoubtedly Xiang Ziyu.

However, the disciples had clearly stated that Xiang Ziyu had an Ancient Immortal Body.

In the Guardian Immortal Imperial Dynasty's immortal cultivation world, it was nearly universally known that Cao Zhen's five disciples, Ling Xi, Yan Yourong, Xiang Ziyu, Bei Yan, and Duo Duo, all had Ancient Immortal Bodies.

In today's era, the Ancient Immortal Body is almost impossible to cultivate.

Cao Zhen being able to make these people break through to the Golden Core Stage was terrifying enough, but how could these people also cultivate to the Earth Immortal Realm?

How did Cao Zhen achieve this?

It was no longer a question of how many resources had been consumed.

They, being from a Great Teaching, naturally understood how terrifying an Ancient Immortal Body was at the same cultivation realm. If it were merely a matter of consuming resources to allow an Ancient Immortal Body to break through to the Earth Immortal Realm, they believed all the Great Teachings would spend those resources.

The problem was, no matter how many resources, it couldn't enable an Ancient Immortal Body to break through into the Earth Immortal Realm.

Once, the Divine Pill Sect, known for alchemy, encountered an Ancient Pill Body. If it had been another Immortal Body, they could have given up. But the Ancient Pill Body was the most suitable Ancient Immortal Body for alchemy, and the Divine Pill Sect wouldn't give up easily.

At that time, the Divine Pill Sect used the full power of the sect to help that Ancient Immortal Body advance.

They indeed elevated that Ancient Immortal Body to the Golden Core Stage, and completed the Pill Fusion with ten golden cores. Finally, they even helped it become the Wind Fire Tribulation.

But beyond that, they couldn't proceed further and couldn't help it break through into the Earth Immortal Realm.

Ultimately, after three thousand years, that Ancient Pill Body could only exhaust its life essence and perish.

What even the Divine Pill Sect couldn't achieve, how did Cao Zhen accomplish?

Moreover, this Xiang Ziyu's thunder technique was not weaker than Cao Zhen's!

Cao Zhen is a reincarnated great ability, having cultivated these thunderbolt techniques in a previous life; it's understandable that he would quickly master them again. But what about Xiang Ziyu? Did he master them so quickly?

Chapter 1476:

Before the crowd could recover from their shock, numerous Immortal Mountains once again rose above the gates of the Hundred Peaks Sect. These Immortal Mountains were enshrouded with talismans, some resembled sharp treasures, while others were like precious towers...

In the next moment, bolts of thunder shot out from the hands of these people.

Though these bolts of thunder were visibly less terrifying than those of Cao Zhen and Xiang Ziyu, as they gathered, it seemed that the world had transformed into one of thunder, akin to a real Heavenly Tribulation descending.

The people from the Void Breaking Sect were completely dumbfounded. What was happening? Are all these disciples from the Four Treasures Peak? How did they all suddenly breakthrough to the Earth Immortal Realm? And each Immortal Mountain stood so tall? They had only just entered the Earth Immortal Realm!

Moreover, why did they all possess such terrifying thunder magic?

Did Cao Zhen really hold nothing back?

That was a Mysterious Rank spell, yet he taught it to everyone?

In their Void Breaking Sect, a master would never so easily impart such powerful spells to their disciples.

"Quick, dodge!"

"This is bad, that is definitely a Lower Profound Grade spell, get out of the way!"

"Damn it..."

Though only the disciples of Four Treasures Peak from the Hundred Peaks Sect were attacking, and the Void Breaking Sect had thirty Earth Immortal Realm beings present, they had no way to deal with them.

That was a Lower Profound Grade spell, while their strongest ones only had Upper Yellow Level spells.

The difference between Upper Yellow Level and Lower Profound Grade seems just a rank, but the gap was vast with different levels in between.

Furthermore, those who possessed Upper Yellow Level spells were few in number; most had Mid to Low Yellow Grade spells.

Suddenly, the Earth Immortal Realm individuals of the Void Breaking Sect started retreating one after another.

They could dodge, but the other Golden Core Stage disciples suffered.

A Ten Different Phenomena of Golden Elixir Great Perfection disciple just caught sight of a thunderbolt falling, and before he could react, it had already struck.

In an instant, his entire being exploded, turning to dust, even his bones shattered into powder!

This time, the Void Breaking Sect initially didn't intend to bring along those with Ten Different Phenomena Golden Cores or even those who had completed Pill Fusion, considering after completing Pill Fusion, one must prepare to face the Wind Fire Tribulation.

Yet some disciples with Ten Different Phenomena of Golden Elixir Great Perfection wished to come, hoping to gain some benefits following the older Earth Immortal Realm seniors.

The gap between Earth Immortal Realm and Golden Core Stage was indeed vast; after the thunderbolt fell, its aura spread around, affecting a nearby Nine Abnormal Phenomenon Golden Pill disciple who hadn't completed Pill Fusion, causing his body to explode.

Soon, the gathering place for Golden Core Stage disciples of Void Breaking Sect was awash with blood mist.

Disciples of the Golden Core Stage scattered rapidly in all directions, filled with deep regret for why they followed along, having been deceived by the words of their sleeping elders.

How could one fight ten?!

You thirty couldn't withstand nine of them attacking; who exactly could fight ten?

"Still trying to run? Our Hundred Peaks Sect is not a place where you can come and go as you please."

At the gates of the Hundred Peaks Sect, Cao Zhen led the Four Treasures Peak disciples in an assault towards the people of the Void Breaking Sect!

Behind them, Tu Zhuque and others flew out one by one, gazing at Cao Zhen charging ahead, their hearts filled with emotion; though only thirty Earth Immortals were sent from a Great Teaching to invade their Hundred Peaks Sect, without the likes of Cao Zhen, they certainly couldn't resist them.

She could see the spells the opposing side cast were Upper Yellow Level, while her strongest spell was merely Common High Grade.

She didn't even know a single Yellow Level spell!

Not just her, none of them who first awakened in the Earth Immortal Realm held any Yellow Level spell, and everyone on the opposing side possessed a treasure and would definitely overpower them in a real fight.

Yet now, just with Cao Zhen leading the Four Treasures Peak disciples, they had suppressed the opposing side.

As everyone flew, Ling Xi held in hand a large flag of apricot-yellow; in the next moment, it unfolded, wrapping around an expert from the Earth Immortal Realm.

This flag was what she received after helping the Five Sounds Sect overcome their Heavenly Tribulation; she had first pick of the treasures and could have chosen a Common High Grade, yet she chose this Common Mid Grade flag instead, as she felt it suited her better.

As the flag unfurled, in an instant, wind and thunder surged, and within the flag emerged countless lotus flowers, momentarily giving rise to a thousand blooms, guarding in the void beside Ling Xi.

This flag wasn't an attacking treasure, but a defensive one.

With the lotus flowers protecting her, Ling Xi disregarded the attacks, and purple thunder once again manifested in her hand, as the Five-thunder Righteous Method struck!

Trapped within the flag, the Earth Immortal Realm cultivator manifested a spear, thrusting fiercely upward; in an instant, the void conjured dark spear shadows, each seemingly capable of piercing the sun and moon, brimming with endless sharpness, shooting towards Ling Xi.

Chapter 1477:

But Ling Xi had the lotus shield protecting her, completely ignoring the opponent's attack. In her hand, the purple lightning reappeared, and the Five-thunder Righteous Method fell once again!

In the next moment, spear shadows fell, capable of easily piercing the void, leaving cracks in their wake, yet as they struck the lotus below, they instantly dissipated. Beneath, the purple lightning had already struck down!

"Damn it!"

The trapped Earth Immortal Realm cultivator cursed, quickly dodging to the side. He had only one treasure, a low-grade mortal tool, while the opponent had a mid-grade mortal tool.

He tried to evade, but how could he be faster than lightning? In an instant, the lightning had struck him, causing his entire body to be blown back. The struck shoulder was blasted with a large hole, spraying bright red blood.

Beside Ling Xi, Yan Yourong chased swiftly, gazing at a female demon clad in a black robe. Behind her, a square cauldron-shaped seal appeared.

This seal was the one she acquired after helping the Five Sounds Sect through their tribulation, but she sensed it contained an invisible power.

Before, she couldn't utilize this seal, but after becoming an Earth Immortal, she immediately claimed it by blood, making it a treasure that only she could use.

Five Elements Immortal Seal!

The seal rapidly enlarged in the void, transforming in an instant into a giant mountain. Simultaneously, behind Yan Yourong, on the Immortal Mountain resembling a long blade, rivers surrounded the mountain. Along the mountain top, a long blade was inverted, the mountain was covered with massive trees, and flames burned at the mountain's waist, all emitting a dazzling light.

Under the urging of her mana, the Five Elements Power surged into the seal.

In an instant, the seal emitted a multicolored brilliance, resonating with Yan Yourong's Five Elements Power.

In the next moment, the seal fell, as if the entire sky was collapsing.

The area covered by the seal was vast, leaving the attacked female cultivator with nowhere to dodge. She could only concentrate her demonic qi into the black turtle shell in front of her.

The turtle shell flew out, hovering above her head, gathering brown light beams above it. A forceful Earth's Power surged up from below, entering the turtle shell.

At this moment, the turtle shell seemed to embody the entire earth.

Just as the turtle shell emerged, the seal in the void fell.

Suddenly, a thunderous roar, as if a meteor fell from the heavens, resounded. The Five Elements Power fully inclined onto the turtle shell.

Instantly, a clear crack appeared on the seemingly indestructible turtle shell, as if struck by a divine blade, almost cleaving it in half.

The scorching flame then burned along the long crack, creating branched, clear splits.

In the next instant, the entire turtle shell crashed down, reducing to the size of a palm, while the seal continued to fall downwards.

The female cultivator below spat out a large mouthful of bright red blood, enduring the turmoil within her body. She gathered demonic qi and struck above her head with a palm.

In the void, a black giant hand blasted upward, striking heavily onto the seal. The falling speed of the seal suddenly halted. In the next moment, the female cultivator struck out another palm, impacting the seal, even causing it to be rebounded upward.

But before she could swing a third palm, a purple lightning in the sky had already struck down, heavily hitting her.

"Bang!"

With a muffled sound, she fell directly from the void.

Her treasure had been forcefully repelled before, injuring her internally. Now, struck by a mysterious rank's Five-thunder Righteous Method, her blood surged violently, with her internal organs forcibly shattered.

In the void, Yan Yourong shook her head in dissatisfaction. Her cultivation base was still somewhat lacking. If given more time to enhance her cultivation, the strike from the Five Elements Immortal Seal could not only repel the opponent's treasure but also crush the opponent directly.

Or if her Five-thunder Righteous Method were stronger, as terrifying as that of Master and Xiang Ziyu, a single Five-thunder Righteous Method would suffice to annihilate the opponent.

But now, she only gravely injured the opponent.

Behind the two, Zhu Peng and Duo Duo had already charged into the enemy crowd, one wielding a staff, the other a sword, and in just a moment, they had severely injured two Earth Immortal Realm cultivators.

"That treasure!"

"That's a Yellow Level Low Grade treasure!"

"The Hundred Peaks Sect actually gave them Yellow Level treasures directly!"

"Stay away from those two!"

An Earth Immortal was warning others. Above his head, a massive square cauldron suddenly fell, enclosing him inside. Instantly, raging flames surrounded him, the intense heat melting the Protective Body Divine Light around him. In just a breath, the fire ignited him, making him feel as if his very bones would melt!

"This treasure is even more terrifying; it's a Yellow Level Mid Grade treasure!"

"Heaven Prayers Sect, this must be a treasure of the Heaven Prayers Sect. That cursed Heaven Prayers Sect! They failed their sect tribulation and now want to harm others!"

In just the blink of an eye, he had turned to ashes!

The many disciples of Four Treasures Peak charged out. As soon as the two sides clashed, every Earth Immortal Realm member of Void Breaking Sect was either seriously injured or directly annihilated!

Chapter 1478:

They initially thought that their own cultivation base held an advantage, their treasures held an advantage, their spells held an advantage, and one of them could kill multiple enemies at the Earth Immortal Realm. But now it was, their opponent's cultivation base was not weaker than theirs, even stronger, their spells were stronger, their treasures were stronger.

Now it wasn't one of them dealing with multiple opponents, but their opponent who could annihilate multiple of them.

"Run!"

Each of the Earth Immortal Realm members of the Void Breaking Sect turned and fled to the distance.

Elder Lu flew faster than anyone else, heading first towards the way they came, but the next moment, a figure flashed before his eyes, and Cao Zhen, with wings on his back, was already blocking his path.

Silver Light Wings and Orange Light Wings!

On the way there, the younger members of the Void Breaking Sect had mentioned some things about Cao Zhen, and he also knew that Cao Zhen had obtained two treasures from the Sound Doctrine Church, the Silver Light Wings and the Orange Light Wings.

He also knew that the Silver Light Wings were a Yellow Level Mid Grade treasure, while the Orange Light Wings were a Yellow Level Upper Grade treasure, but he didn't care.

What use is a strong treasure if the one wielding it isn't strong?

At the time, he was certain Cao Zhen didn't have the Earth Immortal Realm and wasn't worried at all.

But now, Cao Zhen had entered the Earth Immortal Realm, and he had just entered the Longevity Period, Cao Zhen's immortal power was not inferior to his own at the Peak of the Longevity Period.

Coupled with these Yellow Level Mid Grade and Upper Grade treasures, that...

Suddenly, sounds began to emanate from his ears.

These sounds were like flute music, some like zither music, and some seemed like the sound of a lute, the sounds of various instruments. Though they were extremely pleasant, when they entered his ears, they were like the sound of death, each sound hitting his five internal organs as if struck by Heavenly Tribulation Thunder, the countless sounds exploding at once, and his internal organs were violently ruptured.

The next moment, the Purple Thunder shot from Cao Zhen's hand fell again, heavily hitting Elder Lu.

Instantly, a sound as if a mountain exploded rang out.

Elder Lu's whole person exploded!

And around them, the Earth Immortal Realm members of the Void Breaking Sect had no time to care about anyone else and all flew away rapidly towards the distance.

However, the Hundred Peaks Sect had more Earth Immortal Realm members than them, especially since Cao Zhen's speed was astonishingly fast. He finally understood why the Silver Light Wings' ability to accelerate alone could make them a Yellow Level Mid Grade treasure; the speed of the Silver Light Wings was truly astounding!

He also realized that within the Earth Immortal Realm, the gap between Earth Immortal and Earth Immortal seemed greater than the gap at the same cultivation stage of the Golden Core Stage, and with treasures, he finally understood why treasures were so valuable.

Under his full display, the Earth Immortal Realm members of the Void Breaking Sect would be instantly wiped out by the Orange Light Wings' attack.

It's just a pity that the Orange Light Wings couldn't be continuously displayed, needing a period of time before their musical rhythm attack could be used again.

Even so, with the Silver Light Wings, he could execute the Five-thunder Righteous Method and practically slaughter the group of Earth Immortal Realm members.

Let alone Xiang Ziyu and the numerous Earth Immortal Realm members of the Hundred Peaks Sect.

In no time, one after another, Earth Immortal Realm members of the Void Breaking Sect fell.

And those at the Golden Core Stage of the Void Breaking Sect were heavily injured or even dead just from being affected.

As for escaping?

Only two Earth Immortal Realm members of the Void Breaking Sect managed to flee, not to mention the others.

Cao Zhen chased after the two fleeing Earth Immortal Realm members, while a group of Hundred Peaks Sect's Earth Immortal Realm experts encircled the Golden Core Stage members of the Void Breaking Sect, raising their hands wisely and directly shouting, "We surrender, don't kill us."

"Yes, we surrender!"

The crowd was taken aback.

"Surrender?"

"What to do? Keep them or...?"

Yan Yourong drew the Grieving Anger Dragon Blade, swaying it lightly, and said, "Keeping them means we have to feed them, find a place to confine them, might as well just kill them directly. I'll dig one large pit and bury them all."

Instantly, a disciple of the Void Breaking Sect froze in fear, burying them in a pit...

They quickly shouted, "Don't bury us, we are still useful."

"My father hasn't woken up yet, when he wakes up..."

Upon hearing this, Yan Yourong frowned, and the Grieving Anger Dragon Blade was placed against the opponent's neck, a chilling killing intent surging out as she coldly said, "Oh? After your father wakes up, he'll come after us, the Hundred Peaks Sect, for revenge? Are you threatening us?"

Instantly, all the disciples of the Void Breaking Sect glared with hatred.

Someone couldn't help but angrily transmit, "Damn, at this point, you still want to threaten others!"

"Do you think after we fought twice, there's still any use for danger?"

"You want to die, don't drag us down!"

"Think before you speak! Stop provoking the people of the Hundred Peaks Sect!"

They were genuinely afraid, and even considering self-destruction, they lacked the courage and, facing so many Earth Immortal Realm members, couldn't even self-destruct!

The disciple with the blade at his throat quickly changed his words, "No, that's not what I meant. I mean, my father is very strong, and our family has some resources. And I am the most talented disciple of my generation in our family. Keep me alive, and let me write a letter of rescue to my family. They will definitely use resources to ransom me."

Chapter 1479:

The surrounding crowd, hearing the voice, also reacted one by one and began to shout.

"Yes, yes, our family is also very strong. My grandfather is a strong person at the Immortality Regainment Realm, and our family can provide a lot of resources too."

"Although our family is not strong, my master is powerful, and I am the chief disciple of our branch..."

"Neither my sect nor my family is strong, but there is a senior brother who always wanted me to be his Dao companion. I can write a letter and ask my senior brother to send resources. He will definitely send them!"

For a moment, each Golden Core Stage cultivator talked about their worth.

"Valuable, it's good to have value." Hearing the voice, Beichen Ying quickly advised, "You Rong, my nephew, put down the knife quickly, don't harm them, they are all worth money!"

In the crowd, a Peak Master who had never liked the Five Evils of Hundred Peaks said coldly, "Money? You've heard about their backing forces. When the time comes, they might not actually send money."

"But we can't just kill them, right?"

"It's best to wait for the Sect Leader to come back and decide."

The crowd looked into the distance, and soon Cao Zhen, who was chasing the two escapees, returned flying.

"The two of them ran in different directions, and after I caught up and killed one, I couldn't find where the other flew to and couldn't pursue them." Cao Zhen sighed and looked at the gathered disciples of the Void Breaking Sect in front of him and asked, "What's happening here?"

"Master, they surrendered and said that their families or sects are rich, and they can write letters back to ask their backing forces to ransom them."

"Oh? Using money to buy life, what is there to hesitate about? Hurry and take them back... Oh right, our Hundred Peaks Sect also needs some rebuilding now. Since they are at the Golden Core Stage, they can contribute too. That peak needs people, take some back. Let them make talismans, draw inscriptions, do whatever they can.

Such good labor should not be wasted."

Behind, the crowd of Void Breaking Sect disciples widened their eyes upon hearing this. What? Are they going to be used as free labor?

They had already said they could write letters to have their families ransom them, but Cao Zhen still wouldn't let them go!

"What are you looking at! Being able to spare your lives is because you didn't harm our Hundred Peaks Sect people. If you had truly harmed our disciples, even if you had more money, you'd still die."

Cao Zhen turned to Ling Xi and said, "Ling Xi, take them back with Bei Yan and Duo Duo. You don't need to seal their cultivation base, just remember, when arranging work for them, it's best to gather them together, and have an Earth Immortal Realm oversee.

Forget it, our Earth Immortal ones also need to cultivate and have no time to watch them. Divide them into groups, ten per group, if anyone acts up, all ten will be executed. If one doesn't work well, all ten will have an arm cut off."

With this, there's no fear of these people causing trouble.

"Oh, don't forget to take all their Qiankun Bags, clean up the battlefield, take all their treasures, use what can be used, and melt down what can't."

These Earth Immortals from the Void Breaking Sect each have a treasure, considering they are like a treasure delivery team.

The only pity is that the Void Breaking Sect is a demonic sect, and the treasures they use are hard for the Hundred Peaks Sect to utilize, most might have to be melted down.

Saying this, Cao Zhen turned and headed towards the Hundred Peaks Sect, needing to quickly refine some treasures for Ling Xi; despite their great victory, it was the misjudgment of the Void Breaking Sect about the strength of the Four Treasures Peak.

He believed it was impossible for the Void Breaking Sect to have only this many Earth Immortal Realm individuals.

And this time, they have exposed their strength, and a Void Breaking Sect Earth Immortal escaped back, who is sure to report the situation upon return.

The Void Breaking Sect is unlikely to let this go, and they must be prepared for another attack from the Void Breaking Sect.

By then, it won't just be so many Earth Immortal Realm individuals from the Void Breaking Sect.

During the battle, he also noticed that Tu Zhuque and others' strength was indeed inferior to the Void Breaking Sect's Earth Immortal Realm, so he must quickly enhance the strength of their Hundred Peaks Sect.

Also, Li Ke had only been taught some cultivation techniques but not spells before; he needs to teach Li Ke a spell and see if there are suitable spells to impart to the current Earth Immortal Realm of the Hundred Peaks Sect and distribute those treasures too.

Previously he only studied the treasures but did not give them to the Earth Immortal Realm members of the Hundred Peaks Sect, which resulted in some Earth Immortal Realm members lacking treasures during battles; these situations must be avoided.

Tu Zhuque watched Cao Zhen walk into the distance, seeing the disciples of the Hundred Peaks Sect obeying his orders and starting their work, feeling momentarily dazed.

She felt that not long ago, Cao Zhen was just a junior at the Core Formation Stage, even if she knew Cao Zhen was a reincarnated great ability, she still didn't think Cao Zhen could change the Hundred Peaks Sect in such a short time.

Who would have thought, in the blink of an eye, she only slept for a hundred years, and the current Cao Zhen was already above her.

At the same time, Cao Zhen had unparalleled prestige in the Hundred Peaks Sect.

Cao Zhen made decisions without anyone questioning him.

Around them, a group of Earth Immortal Realm practitioners who hadn't been awake for long watched as the Golden Core Stage disciples were taken into the Hundred Peaks Sect, feeling somewhat surreal.

These were disciples of a Great Teaching, and now they had become their Hundred Peaks Sect's captives!

Their Hundred Peaks Sect defeated a Great Teaching, and no one from the Hundred Peaks Sect died, only some were injured, and it wasn't even life-threatening!

This battle was a comprehensive victory for their Hundred Peaks Sect!

Soon, everyone returned to the Hundred Peaks Sect amidst the cheers of the disciples, and the Earth Immortal Realm experts prepared to return to their peaks to cultivate, stimulated by the events.

They initially thought that after they awoke, the Hundred Peaks Sect would rely on them, but in battle, they found they couldn't even compare to the Four Treasures Peak alone.

Tu Zhuque was also prepared to leave with Li Ke, but just as she stepped forward, Cao Zhen's voice came through.

"Li Ke, come to my room; oh, don't go back, Chief Tu, come to my room as well."

Tu Zhuque looked up at the gradually darkening sky, her expression exceedingly peculiar.

Chapter 1480:

The cultivation techniques and spells used in the Earth Immortal Realm are so vast and profound that they cannot be merely described with language and text, so most of the inheritance after the Earth Immortal Realm exists in the form of divine thought.

Cao Zhen could no longer, as he did before, orally pass on cultivation techniques to others in the identity of Long Aotian, which is why he specifically called Li Ke to his room.

Previously, he had directly imparted the cultivation techniques to Li Ke.

At the Four Treasures Peak, Cao Zhen entered the room first, then turned back to look at Tu Zhuque and said, "Chief Tu, please wait a moment, I'll deal with you after I'm done with Li Ke."

"Oh." Tu Zhuque responded blankly, realizing that it was not him and Li Ke entering together. Not so, it was so late, he could just find Ke if he wanted; why was he involving him?

After Li Ke closed the door, Cao Zhen spoke, "In recent days, Dragon senior imparted two spells to me. One of them, named Fire Phoenix Armor, is a Yellow Level Upper Grade spell. It transforms flames into armor to protect you.

The other spell is called Vermilion Bird Self-combustion. Once cast, the flame of the Vermilion Bird will attach to your body, temporarily boosting your power. It can be considered a secret technique.

However, this divine skill does not come with the consequential side effects of ordinary secret techniques.

In fact, when this divine skill is cast, the Vermilion Bird's flame is required. This is also a Lower Profound Grade divine skill. You possess the Lesser Vermilion Bird Fire, so you should be able to cultivate it; however, the Lesser Vermilion Bird Fire cannot compare with the real Vermilion Bird Fire. After cultivation, it is probably only equivalent to a Yellow Level Upper Grade spell."

It's not that he didn't want to impart stronger spells to Li Ke, but Li Ke was currently too weak, having just entered the Earth Immortal Realm. Even though, among those who had just entered the Earth Immortal Realm, Li Ke was very strong, Li Ke was not the Ancient Immortal Body nor did he possess the all-encompassing insight of Xiang Ziyu, so he could hardly successfully cultivate any normal Profound Grade spell.

Vermilion Bird Self-combustion is a special case where because Li Ke possesses the Lesser Vermilion Bird Fire, there is a chance to cultivate it. Otherwise, for hundreds of years, as a Bi Fang Immortal Physique, a top-notch Fire System Immortal Body, there would be no possibility of successful cultivation.

Besides, there is another Profound Grade spell that Li Ke can cultivate.

After listening to Cao Zhen's brief introduction to these two spells, Li Ke slightly frowned, filled with disbelief, "Dragon senior only passed on these two spells to me? Are you sure there are no other spells?"

Cao Zhen's eyebrow immediately lifted, full of dissatisfaction, "What do you mean? You find these two spells lacking? Should I tell Dragon senior not to impart them to you?"

This Li Ke is getting arrogant!

Not even looking at Yellow Level Upper Grade spells.

Their Vermilion Bird Peak probably didn't have Yellow Level Upper Grade spells, at least the spells Chief Tu cast, he had seen before, were just of Common High Grade.

Li Ke hurriedly said, "No, I want them! It's just... these two spells lack direct attack spells? Dragon senior should know my combat style and should pass on a direct attack spell to me."

Cao Zhen inwardly disdained, I know you like attacking, you are a typical believer in the theory that attack is the best defense, a person with such a mindset.

The problem is, I have attack spells here, but can you learn them?

At most, I'll teach one more spell.

He thought a bit and said, "You've seen me and my disciples cast the Five-thunder Righteous Method before, right?"

"Certainly." Li Ke slightly nodded, and purple lightning flickered in her palm. Previously, Cao Zhen had opened the Five-thunder Righteous Method, giving it to the masses of the Hundred Peaks Sect, so she also knew the Five-thunder Righteous Method.

But she has a Fire Body, which is not suited to casting Thunderbolt Techniques, so she hasn't cultivated it deeply.

Cao Zhen looked at Li Ke and said, "I can teach you the spells of the Five-thunder Righteous Method."

Among his disciples was Yi Sheng with a Fire Body, and it can be said that none of his disciples had a true Thunder Body, so they couldn't fully unleash the true power of the Five-thunder Righteous Method.

To put it bluntly, only Yan Yourong and Little Bei Yan were suitable for the Five-thunder Righteous Method.

Little Bei Yan still possessed some Thunderfire Power, and Yan Yourong had the Five Elements Body, which could transform into thunder.

Naturally, these two were only relatively suitable for the Five-thunder Righteous Method.

Li Ke's face immediately brightened with a radiant smile, "What are you waiting for, let's begin."

Cao Zhen watched Li Ke talking while loosening her clothes, eyes widened. What do you mean by "let's begin"? If you don't explain clearly, I won't hold back.

I...

Cao Zhen quickly gathered immortal power to impart these three spells to Li Ke.

Now, he too had just entered the Earth Immortal Realm. Even though he was already quite strong among those in the Earth Immortal Realm, after imparting three cultivation techniques continuously, he was sweating profusely, quite fatigued.

Nearby, Li Ke was also sweating heavily, her fair forehead covered with beads of sweat.

Receiving the transmission of divine thought, if it were a great ability from the Immortality Regainment Realm or the True Immortal Realm imparting to her, the other party would have better control over immortal power, and she might find it easier.

Cao Zhen had just entered the Earth Immortal Realm, his control over immortal power limited, so for Li Ke, accepting one spell would be alright, but accepting three spells was rather tiring, which was why she slightly loosened her clothing.
