

My Master 1481

Chapter 1481:

Cao Zhen rested for a moment, raised his hand, and pointed outside the door, saying, "Alright, you can go back and cultivate on your own. Now you can let your master in."

Being a man is really tough. After serving the disciple, you have to serve the master. If both come at the same time, wouldn't that be exhausting?

"Call my master?" Li Ke immediately looked over at Cao Zhen with a vigilant expression, "What do you want with my master?"

"What else could I want?" Cao Zhen said impatiently, looking at Li Ke, "Of course, it's the same thing as I did with you. What do you think I want to do? Propose to your master? No, what I'm saying is, have your master marry you off to me."

"You propose to my master? Are you not afraid of being beaten to death?" Li Ke instinctively retorted, but the words didn't come out right. A hundred years ago, her master could easily beat Cao Zhen in various fancy ways, but now, her master really wasn't a match for him anymore.

She even felt that it wouldn't be long before she could surpass her master.

Li Ke couldn't help but wonder why she talked so much nonsense with Cao Zhen.

"Anyway, when you see my master in a while, just teach the spell and say less about anything else. If the master asks about your partner... I'm not dealing with it, you handle it yourself."

As Li Ke spoke, her face turned a shade of red, and she quickly ran out of the room.

Cao Zhen was taken aback. Li Ke used to strategize with him on how to delay things, but this time, she said to let me handle it? Let me handle it? So, I don't need a bunch of flowers? No need to give materials either?

Outside the door, Tu Zhuque saw Li Ke entering with a face flushed with redness. Her eyes immediately fell on her disciple's wet hair and the slightly open collar exposing a white neck, giving her an increasingly peculiar expression.

Didn't hear any sounds just now?

Very soon, Li Ke's voice urged, "Master, hurry up and go in. Cao Zhen will definitely give you a surprise."

"A surprise?" Tu Zhuque looked at Li Ke, then glanced around. After a slight surprise, she quickly restored her authoritative mastery, scolding, "Look at how you're presenting yourself, fasten your collar. Luckily, there's no one around."

While speaking, she herself fastened her already tightly buttoned collar and stepped into the room.

As she pushed open the room door, she saw, at first glance, Cao Zhen sitting on the bed, slightly gasping, looking somewhat weak. She shook her head inwardly, surprisingly disappointed in Cao Zhen, considering he's already at the Earth Immortal Realm.

Cao Zhen raised his weary head, gazing at the ever-young, full-of-mature-charm Tu Zhuque due to cultivation, and he said in a low voice, "Chief Tu, you know what we need to do. Li Ke told you about it, right? Let's begin."

"Begin? Begin what?" Tu Zhuque subconsciously took a step back.

Cao Zhen was momentarily speechless. What do you mean by that? Why are you stepping back? What could I possibly do to you? It made me seem like I was going to do something inappropriate to you.

With a sense of helplessness, he said, "Didn't Li Ke tell you? I'm preparing to teach you some spells. Does Chief Tu mean to leave? You don't want the spells?"

"Spells?" Tu Zhuque immediately thought of the Mysterious Rank spells Cao Zhen had displayed before, rushed in front of Cao Zhen with eyes shining brightly, and said excitedly, "Are you going to teach me spells? What kind of spell? Mysterious Rank?"

Truly worthy of being a master-student duo, requesting top-tier spells right off the bat.

Cao Zhen, speechless, said, "There are no Mysterious Rank spells right now, but there's a Yellow Level Upper Grade spell I can teach Chief Tu. Do you want it?"

This particular spell, he could've directly taught it to Li Ke earlier. However, teaching Li Ke four spells in one go might have been too much for her, so he decided to teach this spell to Tu Zhuque instead.

"Yes, yes!" Tu Zhuque nodded repeatedly, realizing that the strongest spell at the Vermilion Bird Peak was only a Yellow Level Mid Grade spell, which she wasn't suitable for cultivating.

The strongest spell she mastered was merely Yellow Level Low Grade, and she didn't use it in previous battles because there was no need. It was a defensive spell.

The strongest offensive spell was merely of Mortal Rank.

She would definitely accept a Yellow Level Upper Grade spell from Cao Zhen.

Thrilled with excitement, Tu Zhuque's face turned slightly red, and with eager anticipation, she looked at Cao Zhen and asked, "Sect Leader, is this spell an offensive spell?"

She already had a defensive spell, having an offensive one would be perfect.

"You disciples truly live up to expectations, aiming for offensive spells. The one I'm going to teach you is indeed an offensive spell. Now, open your mouth... no, calm your mind."

Cao Zhen's face revealed a hint of embarrassment. He had gotten used to saying "open your mouth" from giving his disciples pills recently.

He was already a bit exhausted after teaching Li Ke three spells earlier. Although he rested for a bit, he couldn't hold up after teaching another spell to Tu Zhuque. He had to sit cross-legged and meditate for a rest.

Seeing that Cao Zhen stopped speaking, Tu Zhuque dared not leave and simply sat on the mat in the room.

Chapter 1482:

After roughly two hours, Cao Zhen finally recovered somewhat. He looked at Tu Zhuque and said, "Come on, let's continue."

"Again?" Tu Zhuque glanced at the bed beneath Cao Zhen and immediately rushed over excitedly.

"This time, what I'm teaching you is a spell of Yellow Level Mid Grade," Cao Zhen said, once again gathering his immortal power into a wisp of divine thought and pointed towards Tu Zhuque.

A faint golden wisp of divine thought shot out from his fingertip and entered Tu Zhuque's body.

The accumulation of the Hundred Peaks Sect really can't compare to the Great Teaching. The people of the Void Breaking Sect are full of confidence that they can wipe out the Hundred Peaks Sect, and they're not wrong.

The Vermilion Bird Peak ranked top ten in the Hundred Peaks Sect, yet there are no Yellow Grade spells there. One can only imagine about other peaks.

If he wants the Hundred Peaks Sect to still stand firm after joining forces with the Eastern Wasteland and Eastern Province, he must strengthen the Hundred Peaks Sect's power. He plans to successively teach each peak some spells.

After all, they're Lao Zhang's spells. Why not share them?

Vermilion Bird Peak is Li Ke's peak, and back when Four Treasures Peak had not risen, Tu Zhuque indeed helped them, whether in sharing experiences or letting Yi Sheng soak in their Vermilion Bird Blood Pool. Therefore, he chose to teach Vermilion Bird Peak divine skills first.

Finally finishing the teaching of divine skills, Cao Zhen let out a long sigh and waved his hand, saying, "Alright, that's two spells for now. Chief Tu can go back to cultivate."

"Is it over already?" Tu Zhuque's face clearly showed a desire for more, as he looked at Cao Zhen.

"Isn't this enough for you?" Cao Zhen weakly leaned against the bedside, looking at Tu Zhuque. For most peaks, he would temporarily teach only one spell, yet he had taught Tu Zhuque two spells. And Tu Zhuque still wanted more!

"No, I'm satisfied, I'm satisfied." Tu Zhuque hurriedly shook his head, a hesitant expression crossing her face, while she pondered before finally asking, "Sect Leader, are the spells you taught me meant only for me, or can I also pass them on to the disciples of Vermilion Bird Peak?"

She had to ask clearly. If it's the former, then she could only cultivate them herself. If it's the latter, these two spells could be part of Vermilion Bird Peak's legacy, passed down continuously.

Cao Zhen pointed outside, saying, "Of course it's meant for your Vermilion Bird Peak, but you shouldn't pass the spells outside our Hundred Peaks Sect."

Given to their Vermilion Bird Peak!

Tu Zhuque was overjoyed upon hearing this, she immediately retreated a step and bowed deeply to Cao Zhen, saying, "The Sect Leader's great kindness, Vermilion Bird Peak won't forget it."

Great righteousness!

The Sect Leader is indeed too righteous!

Yellow Level spells, he just shared them like that, and directly to their Vermilion Bird Peak!

Such spells, no matter the power, are surely considered untold secrets, definitely not leaked, but Cao Zhen just handed them over like that.

Is there anyone more selfless than this?

Or could it be Cao Zhen's spells are part of the bride token?

Before she slept, Cao Zhen already confirmed his Dao companion relationship with her family's Ke. It's been a hundred years, though one Immortal Bi Yue emerged in between time, daily interactions surely made Cao Zhen and Ke's relationship closer.

It's indeed time to hold their Dao companion ceremony.

Tu Zhuque glanced at Cao Zhen, waiting for him to speak, putting the matter of that Immortal Bi Yue aside first, letting Cao Zhen and Li Ke complete the Dao companion ceremony, becoming Dao companions.

Cao Zhen, despite not specializing in the fire system, can casually hand out such advanced spells to others, surely has more profound spells in his possession.

Cao Zhen is far more powerful than anyone expected.

Such a great person, who wouldn't be moved upon seeing?

Now there's an Immortal Bi Yue, and perhaps anytime, there might be one, Immortal Xiu Hua or Immortal Bi Yang.

First let Ke become a Dao companion with Cao Zhen, then whatever other whimsical immortals emerge, Ke can rightfully dismiss them.

Even if unable to dismiss, the position of the rightful wife is firmly established.

But Tu Zhuque kept waiting and waiting, seeing Cao Zhen never took the initiative to bring it up.

Finally, after quite a while, Cao Zhen spoke, but he asked, "Is there anything else, Chief Tu?"

"I..." Tu Zhuque was just considering whether to hint at Cao Zhen, then Cao Zhen's voice came through again, "I'm a bit tired; how about Chief Tu go back first? The Minor Era of Inversion of Heaven and Earth has just ended, I still have many things to do."

Seeing Cao Zhen already started to ask her to leave, Tu Zhuque could only let out a sigh and left the room.

Outside the room, Li Ke didn't leave immediately but waited outside, watching as her master came out looking entirely disappointed. Li Ke was very surprised and asked in confusion, "Master, after so much time, you're still not satisfied?"

After such a long time, Cao Zhen should have taught her master plenty of spells, so why did her master still have that expression?

"You silly disciple; I was doing it for you. Well, never mind, not talking about it. Let me ask you, how many spells did Cao Zhen, Sect Leader, just teach you?" Tu Zhuque looked at Li Ke with full expectation.

Li Ke extended three fingers and said, "Three spells, including the Five-thunder Righteous Method displayed by Four Treasures Peak disciples during battle, that's a Mysterious Rank spell."

"He taught you that Mysterious Rank spell?" Tu Zhuque's eyes widened in astonishment, "Mysterious Rank spell, that's a Mysterious Rank spell. Our Vermilion Bird Peak now also possesses Mysterious Rank spell. We... wait, he taught the spells individually to you, not to me, which means he doesn't want other people from Vermilion Bird Peak to cultivate these three spells."

Chapter 1483:

"It's not that he's intentionally preventing others from cultivating. Setting aside the Five-thunder Righteous Method, since it is indeed a Mysterious Rank spell and not suitable for widespread transmission. However, the other two spells are suitable for disciples to cultivate, though it's feared that the other disciples of Vermilion Bird Peak may not be able to successfully cultivate them."

As they spoke, the two flew in the direction of Vermilion Bird Peak.

Cao Zhen had already imparted the spells to them, so naturally, they needed to cultivate the spells as soon as possible.

The first technique that Li Ke decided to cultivate was not the Five-thunder Righteous Method, but Vermilion Bird Self-combustion.

Although she knew the divine skills of the Five-thunder Righteous Method, she wasn't particularly proficient. So she started with Vermilion Bird Self-combustion. After all, she was acquainted with the disciples of Four Treasures Peak. Once those disciples had deepened their cultivation of the Five-thunder Righteous Method, she planned to consult them for cultivation experiences, which would make her own cultivation easier and allow her to avoid many detours.

In Cao Zhen's words, this is called winning while lying down!

After resting for a whole night and fully restoring his energy to peak state, Cao Zhen sought out Ling Xi, asking her to bring the Heaven and Earth Bagua Formation talisman and that talisman obtained from the Heaven Prayers Sect Hierarch, and began researching how to fuse the two to reforge Ling Xi's treasure.

If before, he only had Old Zhang's artifact refining experience, even though Old Zhang's skills were already high, he was not primarily focused on artifact refining and his methods were rather conventional.

But now, being connected to Yun Zhongzi was different.

He was a transformation enthusiast, with Thunder Master being one of Yun Zhongzi's transformations.

Yun Zhongzi excelled in transformations.

"If it's about transformation, it naturally involves using the talismans of the second generation Sect Leader as the main framework. The large talisman can be cut into one hundred and eight smaller talismans.

Then still base them on the original one hundred and eight, focusing on the resonance with the Unparalleled Formation Diagram, so it's necessary to..."

Cao Zhen began to transform the talisman in earnest.

Gradually, as he became more familiar with the transformation, he could also divide his focus.

Three days later, Ru Wenlin appeared in front of Cao Zhen with the Five Evils of Hundred Peaks.

Back when he was poor, he made a fortune together with the Five Evils, and even he was referred to as the sixth evil of Hundred Peaks. These five truly treated him as a sixth brother.

Like when Ling Xi lacked one Heaven and Earth Bagua talisman, Wu Jinhuan unhesitatingly gave the talisman to him.

Even when he wasn't around, though Beichen Ying and Xiang Ziyu went out causing some trouble, they still intended to help their Four Treasures Peak.

Among the Five Evils, Ru Wenlin and Zhong Xinyi had already reached the Earth Immortal Realm, and the remaining three were at the Wind Fire Tribulation stage. After the Minor Era of Inversion of Heaven and Earth concluded, they were among the first to break through to the Earth Immortal Realm.

To impart spells, having imparted to Tu Zhuque, naturally, they must be taught as well.

"Big brother..."

As soon as Cao Zhen spoke, Ru Wenlin quickly waved his hand saying, "Don't, don't. Even though we'd like to call you our sixth, your status is different now. You are the Sect Leader of our Hundred Peaks Sect. If you call us big brother, second sister, what would others think upon hearing it?"

You know well our previous reputation, and even if we disregard reputation, if you address us like that, others will think we're close to you, which often results in preferential treatment for us.

So, Sect Leader, please refrain from addressing us that way as it's not beneficial for the Hundred Peaks Sect."

"Since no outsiders are present, there's no harm in such addressing." Cao Zhen looked at Ru Wenlin and asked, "Big brother, you're a scholar cultivator, correct? I have a spell for scholar cultivation here, which is Yellow Level Upper Grade, and I will impart it to you."

"Yellow Level Upper Grade!" Typically elegant and composed, Ru Wenlin couldn't maintain his composure. He didn't even have a Common High Grade spell, let alone a Yellow Level Upper Grade one.

In truth, among this batch of awakened Earth Immortals, he was considered quite strong, but because he lacked treasures and exceptionally strong spells, he was not as remarkable as Tu Zhuque and others.

If he had corresponding spells and treasures, he believed he wouldn't be much lesser than Tu Zhuque or Chen Qingluan.

Despite eagerly anticipating spells, looking at the treasure Cao Zhen was crafting before him, he couldn't help but say, "But you're still refining treasure, if it impacts the crafting process, it wouldn't be good. Perhaps we should wait for a while? Until you finish crafting the treasure."

"It's okay, it won't affect the treasure crafting for now." Cao Zhen gently shook his head, truly pressed for time. Previously, during his leisure in Eastern Province, he had offended not just one major sect like the Void Breaking Sect, with it being the weakest whereas the Heaven Prayers Sect was already annihilated.

Then there's still the Soul Breaking Sect and Weeping Blood Demon Sect.

Especially the Weeping Blood Demon Sect, its power absolutely not comparable to Void Breaking Sect.

Since the Void Breaking Sect dared to attack them, who knows when other major sects would come, he must quickly enhance the strength of Hundred Peaks Sect again.

Thus, after artifact refining, he also started imparting spells to others.

After imparting to Ru Wenlin, Zhong Xinyi, and others, he still had to impart to more people.

Although he was refinishing artifacts, he dared not tire himself out as he did the previous day, not to mention he couldn't always be imparting spells, but also needed to focus on crafting in-between.

After imparting each time, he needed to rest and forge for a period before imparting spells again.

Chapter 1484:

Although today, like yesterday, he taught five spells, today he spent an entire day to impart all the spells to five people.

After the Five Evils of Hundred Peaks left, Cao Zhen quickly found the people of Flying Immortal Peak. As the first peak of the Hundred Peaks Sect, their Peak Master was not just an existence of the Longevity Period; this time, he did not awaken, only the former Vice Peak Master awoke.

Nie Jie no longer served as the Peak Master of Flying Immortal Peak but devoted himself to being the Vice Sect Master, fully assisting Cao Zhen.

Although currently, the strongest group within the Hundred Peaks Sect belongs to the Four Treasures Peak lineage, aside from Four Treasures Peak, the strongest peak is still Flying Immortal Peak. Flying Immortal Peak has geniuses like Liè Yàn, and later joined by Shen Lid, who is also a genius not inferior to Liao Youdi.

For most peaks in the Hundred Peaks Sect, he only planned to impart one spell, but for Flying Immortal Peak, he taught two spells.

In the following days, Five Elements Peak, Azure Pheasant Peak...

Within the Hundred Peaks Sect, all peaks with Earth Immortal Realm came to Cao Zhen's place and were taught one or two spells.

About twenty days later, Chao Zi appeared in front of him.

Although Chao Zi is not some high-level Immortal Body, Cao Zhen has always been helping Chao Zi with cultivation, providing him with the most suitable cultivation technique.

And Chao Zi, with the appearance of a simpleton and wisdom beyond his appearance, although seeming rough, has reached the Great Perfection of Ten Different Phenomena of the Golden Elixir along the path of cultivation.

Although he did not reach the Golden Core Period Limit, he is also close to the level of the Great Perfection of Ten Different Phenomena of the Golden Elixir.

Chao Zi has been at the Great Perfection of Ten Different Phenomena of the Golden Elixir for quite some time, and after the Minor Era of Inversion of Heaven and Earth ended, took the pills given by Cao Zhen, and after cultivating for a period, finally broke through to the Earth Immortal Realm.

In fact, he wasn't supposed to break through to the Earth Immortal Realm so quickly, but because he was Cao Zhen's sworn brother, the pills Cao Zhen made for him were naturally different.

"Old Chao, let's not talk much. You should also be aware by now of my recent days teaching spells to others. Gather your thoughts, today I will teach you spells with all my might. The first spell is called the Five-thunder Righteous Method. When you start cultivating it, you can ask my disciples, like Xiang Ziyu... No, forget about asking that kid, you can ask any disciple other than Xiang Ziyu on how to cultivate the Five-thunder Righteous Method."

This is his sworn brother; he wouldn't pass on the Five-thunder Righteous Method to others, but he must pass it on to Chao Zi.

As for the Five-thunder Righteous Method, Xiang Ziyu's version is naturally the highest level, but he doesn't know how Xiang Ziyu cultivated it. Although China Cloud doesn't show Xiang Ziyu going for

modifications on the Five-thunder Righteous Method, who knows whether the kid deviated on some unusual paths during cultivation.

It's safer to let others guide Chao Zi.

As for himself, he's indeed too busy to continuously guide Chao Zi.

After crafting talismans and formation maps for Ling Xi, he also needs to refine treasures for others and overhaul the great formation of the Hundred Peaks Sect.

Cao Zhen spent half a day's effort passing on three spells to Chao Zi, among which besides the Five-thunder Righteous Method, also included spells imparted to Tu Zhuque.

After all, Old Nest is also a Fire Body, and by teaching this spell to Old Nest, he could also mingle more with the disciples of Vermilion Bird Peak.

Old Nest is at such an age; it's high time he worked on his singlehood problem.

If it doesn't work out, Tu Zhuque doesn't have a Dao companion either; should Old Nest win over Tu Zhuque?

No, in that case, wouldn't Old Nest gain a seniority over me out of thin air? That won't do! Better find a disciple, a disciple from Vermilion Bird Peak...

Chao Zi looked at Cao Zhen before him, and for a moment, he was also in a daze. He never imagined that his once academy classmate would actually be a reincarnated great ability, having grown to such heights now, even changing the status of the Hundred Peaks Sect within the cultivation world because of Cao Zhen.

And he also became sworn brothers with Cao Zhen.

After Cao Zhen imparted the three spells, Chao Zi did not leave immediately but looked at Cao Zhen and said, "Old Cao, you haven't forgotten Chen Shizhi, have you?"

"Of course." Cao Zhen nodded, remembering how, after the grand competition of Hundred Peaks ended, and after attending the banquet of Four Treasures Peak, Chen Shizhi had an epiphany, showcasing his talent in calligraphy and entering Immortal Pen Peak.

Now, the strongest person on Immortal Pen Peak is Chen Shizhi.

Chen Shizhi's talent in calligraphy is truly impressive. After entering the Dao through calligraphy, Cao Zhen also wanted to help him by providing him pills, yet he refused them all.

Cao Zhen couldn't do much but to occasionally write a letter for Chen Shizhi.

Even so, Chen Shizhi still became a Great Perfection of Different Phenomena Golden Core existence, not much weaker than Chao Zi.

"Old Cao, I know, after the Minor Era of Inversion of Heaven and Earth ended, you also gave some pills to Chen Shizhi. Initially, he didn't want to take them, but under my persuasion, he did take the pills, and now he has broken into the Earth Immortal Realm."

"I understand," Cao Zhen whispered, "Tomorrow, I'll have my disciple invite him over to teach him spells."

This time, Chen Shizhi no longer rejected Cao Zhen; he also knew the reason Cao Zhen was teaching them spells was for the betterment of the Hundred Peaks Sect. And after he cultivates the spells, he could remain in Immortal Pen Peak, serving as its heritage.

Chapter 1485:

Eastern Province, Void Breaking Sect.

Temporary Sect Hierarch Elder Li, looking at his junior brother who returned alone, asked with suspicion and uncertainty: "Cheng Huang, my junior brother, you previously sent me a sect report, saying only you

have escaped and everyone else was annihilated. You didn't clarify what happened in the sect report, what exactly did you encounter? Please explain to us in detail."

"We were too careless, we underestimated Cao Zhen, that guy Cao Zhen..." Cheng Huang recounted everything they encountered in detail.

Someone below immediately exclaimed in a low voice: "So, it's confirmed to be a Mysterious Rank spell? And it's not just Cao Zhen who possesses it, but nine people have that Mysterious Rank spell?"

"Yes, it is definitely a Mysterious Rank spell without a doubt. Of course, you can see that those disciples of Four Treasures Peak have limited time in cultivating that Mysterious Rank spell. Except for Cao Zhen and Xiang Ziyu, the others' thunder is noticeably weaker, but it is still a Mysterious Rank spell!

Especially the most terrifying is still Cao Zhen, Cao Zhen possesses the Orange Light Wings as well as the Silver Light Wings, his speed is fast, and his attack is extremely fierce. If it weren't for Cao Zhen, it wouldn't be that only I could escape back."

The people around immediately started discussing.

"I didn't expect that Cao Zhen would quickly break into the Earth Immortal Realm, and is still so strong within the Earth Immortal Realm!"

"That guy after all is a reincarnated Great Ability!"

"What do we do now?"

"What else can we do? We are a Great Teaching, we cannot continuously suffer setbacks at the hands of a small sect, how would the world view us? We must send more experts to obliterate Hundred Peaks Sect!"

"Then how many experts should we send? You've heard about Cao Zhen's strength, and this is right after the Minor Era of Inversion of Heaven and Earth ended, they've just entered the Earth Immortal

Realm. You know, just after entering the Earth Immortal Realm is the time when strength increases the fastest.

We've already failed once, if we go again during the second period, their strength can increase a portion again.

If we send too few people, either we can't take down Hundred Peaks Sect, or taking it down would be with heavy losses. But if we send too many people, what if someone attacks our Void Breaking Sect at this time?"

"But we can't just sit still!"

"Of course, we have to take action, the key is how to act, Hundred Peaks Sect has offended not only our Void Breaking Sect one Great Teaching, there are also Soul Breaking Sect and Blood Qi Devil Sect, I don't believe these two Great Teachings won't take action."

Elder Li sat on the high seat, with a cold and ferocious expression on his face: "Those two Great Teachings are not aware of Hundred Peaks Sect's current strength, if they attack Hundred Peaks Sect, they will certainly suffer losses.

Even, I feel Rare Treasures Commerce Association will take action.

After all, those pills, the effects are almost the same, only differing by one word, who would believe those pills weren't refined by Cao Zhen? I don't believe the people of Rare Treasures Commerce Association won't act! They also don't know the strength of Hundred Peaks Sect, the first time they go they will certainly suffer.

But Hundred Peaks Sect also can't have zero losses, what we need to do is, after those two Great Teachings or Rare Treasures Commerce Association attack Hundred Peaks Sect, seize the opportunity when Hundred Peaks Sect is in a weak period, swiftly launch an attack, and annihilate Hundred Peaks Sect in one fell swoop."

"Then the problem is, how many people should we send?"

"Yes, if avoiding losses of thirty Earth Immortal Realm experts is okay, now having lost so many Earth Immortal Realm experts, our Void Breaking Sect's Earth Immortal Realm, has lost many all at once. It's not easy to allocate."

"One hundred Earth Immortal Realm!" Elder Li raised a finger and said, "Didn't you say the other Earth Immortal Realms of Hundred Peaks Sect are not strong, only a few people from Four Treasures Peak are strong? No matter how strong they are, they've just entered the Earth Immortal Realm. Even if that Cao Zhen can fight ten Earth Immortal Realms alone, his disciples cannot!"

I don't believe one hundred Earth Immortal Realm, following the rear of those two Great Teachings and Rare Treasures Commerce Association, still can't wipe out Hundred Peaks Sect!"

Those around heard and nodded, one hundred Earth Immortal Realms, that should be enough, moreover, dispatching one hundred Earth Immortal Realm experts, even the remaining people are sufficient to eliminate Hundred Peaks Sect.

Quickly, everyone set off flying towards the direction of Hundred Peaks Sect.

Just after they left not long, messages returned to Void Breaking Sect.

"What, my son hasn't died, was captured by people of Hundred Peaks Sect? Hundred Peaks Sect people dare to demand money from our Void Breaking Sect for ransom?"

"My disciple also sent me a message, he was also captured by Hundred Peaks Sect, Hundred Peaks Sect people also want me to pay ransom!"

"Damn it, Hundred Peaks Sect people actually demand a Treasure for ransom from me!"

"Looking for death, a small remote sect actually dares to threaten our Void Breaking Sect!"

For a moment everyone was furious, but while angry, their hearts were somewhat worried, their disciples, children are inside Hundred Peaks Sect, now attacking Hundred Peaks Sect, if Hundred Peaks Sect people are overwhelmed and directly kill their children, disciples, what then?

Everyone gathered together and quietly discussed.

"What shall we do?"

"They have already set off, telling them to come back, they won't come back."

"The Sect Hierarch has already made a decision, how could it be easily retracted."

"What can we do?"

"The only way is to inform the Sect Hierarch, among those people, are Elder Feng's descendants, Elder Feng is a Peak Immortality Regainment Realm presence.

Elder Feng only has this one descendant left, if Elder Feng wakes up and knows his only descendant is killed because of this, our current temporary Sect Hierarch Elder Li might not withstand Elder Feng's fury."

"Not only Elder Feng, Hall Master Zhan Kong's grandson is also among them, that is also a junior Hall Master Zhan Kong values greatly!"

Everyone quickly found the temporary Sect Hierarch Elder Li and reported at this time.

Elder Li also panicked, had no choice but to send a sect report instructing everyone to return.

Everyone just freshly flew away for two days had to return to Void Breaking Sect, the opposite side held so many of their disciples, naturally they were cautious in action.

After discussions, everyone had only one way, first meet Hundred Peaks Sect's demands, hand over those resources to Hundred Peaks Sect.

Then, they would annihilate Hundred Peaks Sect and retrieve the resources.

But as a result, one hundred Earth Immortal Realm was not enough!

Elder Li further decided to lead the team personally!

Chapter 1486:

The sect hierarch usually does not leave easily, and the people of the Void Breaking Sect, upon hearing that their hierarch wanted to personally go to the Hundred Peaks Sect, began to persuade him.

"Elder Li, you are now the hierarch of our Void Breaking Sect, you can't take such risks lightly."

"Hierarch, you still need to manage the great teaching."

"Yes, hierarch, let us lead the team instead."

A group of Earth Immortal realm experts from the Void Breaking Sect who had awakened began to speak, but Elder Li still shook his head and said, "I have made up my mind. If you are all worried, I can take some more people with me."

Among those captured disciples from the Void Breaking Sect, there were important descendants of several yet-to-awaken experts. At this time, if he went to rescue them, even if those experts didn't express gratitude after awakening, they wouldn't blame him too much, after all, he went to save people himself.

Currently, it's his decision in the Void Breaking Sect, and these people were sent out by him, only to be captured by the Hundred Peaks Sect.

If he does not go to rescue them, and others rescue them instead, then when those experts wake up later, can they not blame him?

Therefore, whatever he says, he must go and rescue them all.

"Send more people?"

"Hierarchy, how many more people should we send?"

"Although many of our awakened experts are considerable, we still need to leave enough people for defense. And those disciples who have gone through the Wind Fire Tribulation and completed pill fusion earlier, even if they have entered the Earth Immortal realm, they are still not comparable to us after entering the realm.

Besides, more disciples need a certain amount of time to enter the Earth Immortal realm."

"Alas, our Void Breaking Sect's development during the Minor Era of Inversion of Heaven and Earth was too poor, sending out too many people would weaken our defenses."

People from the Void Breaking Sect couldn't understand, even with those pills, those disciples at the Golden Core stage who hadn't slept, even if they took the pills, they would need to cultivate for a while, maybe half a year, maybe a year, or even longer, to enter the Earth Immortal realm.

They really couldn't understand why the Hundred Peaks Sect had so many disciples entering the Earth Immortal realm so quickly.

Or rather, the gap between their disciples who hadn't slept and the disciples of the Hundred Peaks Sect was quite large.

At least, after the Minor Era of Inversion of Heaven and Earth ended, their Void Breaking Sect did not have a single disciple at the Golden Core period limit, but the Hundred Peaks Sect was said to have nearly ten disciples at the Golden Core period limit, how could they compare?

The disciples of the Hundred Peaks Sect who broke through to enter the Golden Core stage were almost all previously disciples at the Golden Core period limit.

The interim hierarch of the Void Breaking Sect during the Minor Era of Inversion of Heaven and Earth, listening to the words of each elder, had a flash of displeasure on his face. What did they mean by saying

that the Void Breaking Sect's development during the Minor Era of Inversion of Heaven and Earth was too poor? Could that be blamed on him?

Moreover, it wasn't as if none of this group of people had broken through to the Earth Immortal realm, he had already broken through.

The people of the Hundred Peaks Sect had more breakthroughs, surely because Cao Zhen had concocted some special pills again.

Those four kinds of pills were probably all crafted by Cao Zhen, and Cao Zhen was able to sell these pills, wouldn't he save some for the Hundred Peaks Sect's disciples with even better pills?

Even if Cao Zhen didn't have other pills, the ones they bought, like the Wind Fire Element Promotion Pill and the Wind Fire Tribulation Promotion Pill, were almost all of high quality; without even thinking, the disciples of the Hundred Peaks Sect must have used the best quality pills, and the gap between them was indeed vast.

Moreover, there were still a batch of disciples in the Void Breaking Sect who hadn't bought any pills.

After the Minor Era of Inversion of Heaven and Earth ended, the demand for those pills was too high.

Almost everyone in the great teachings was seeking those two types of pills.

The Wind Fire Element Promotion Pill and Trimming Tribulation Avoidance Pill from Rare Treasures Commerce Association were directly sold out, and even though the Pinbao Business Association still had pills, transporting them was also an issue.

They said they still had pills, but it would take some time to transport them over.

In the end, it's not that they were too incompetent to cause a breakthrough into the Earth Immortal realm, but rather because they didn't have a top-notch alchemy master like Cao Zhen.

Moreover, were Elder Li and the others that strong? They had already reminded them that the Hundred Peaks Sect was very powerful, but they still confidently sent thirty Earth Immortal realm experts to attack the Hundred Peaks Sect, and what was the result?

So many people, only one escaped back.

"Hierarch, we need to leave enough people for defense. Although our Void Breaking Sect doesn't have very obvious enemies, I believe someone is surely watching us, and if we send too many away, if another great teaching comes to attack us, then we'd be in danger."

"Hierarch, how many people do you plan to take with you? If you take too few, we're not at ease either."

"Yes, so hierarch, you had best stay in the great teaching."

Elder Li sighed inwardly. If only he hadn't sent those thirty Earth Immortal realm experts earlier, it would be better; now, it really felt like he was stretched thin, but he had to go.

After thinking for a moment, he spoke, "I'll take twenty more Earth Immortal realm experts with me; with such a number, we can definitely destroy the Hundred Peaks Sect."

"A hundred and twenty Earth Immortal realm experts?"

"It indeed seems like it's not a problem, but Brother Li, after all, you are the hierarch now, we are worried."

Listening to the persuasion around him, Elder Li impatiently waved his hand and said, "Am I the hierarch or are you the hierarch? Or do you want to be the hierarch? I have already decided, I will personally take a hundred and twenty Earth Immortal realm experts to the Hundred Peaks Sect. By the way, doesn't the Hundred Peaks Sect want resources? Prepare the resources they want, we will first redeem our people, and then destroy the Hundred Peaks Sect."

Chapter 1487:

"Sect Hierarchy, other resources are negotiable, but they demand the Seven-color Lark... Our Void Breaking Sect currently only has one Seven-Colored Splendid Bird, and its parents are..."

"Give!" Elder Li gritted his teeth fiercely and said, "Fulfill all their demands, wipe out their Hundred Peaks Sect, and we can take everything back!"

Weeping Blood Demon Sect!

With the awakening of several previously slumbering Earth Immortal Realm beings, the temporary sect hierarchy of Weeping Blood Demon Sect has now been replaced.

At the upper seat, a man who appears exceptionally young, with a vibrant life aura, handsome looks, and an air of wickedness, sits on the high seat, looking down below at the temporary sect hierarchy during the Minor Era of Inversion of Heaven and Earth, speaking in a calm tone, "Feng Xue, you have greatly disappointed me. The prestige of our Weeping Blood Demon Sect has nearly been destroyed by you over these years."

Even though his tone is calm, Feng Xue Demon, who has now broken through into the Earth Immortal Realm, is so frightened that he immediately lies prostrate on the ground, trembling all over, repeatedly admitting his mistakes, "Disciple has erred, disciple is limited in ability, causing our Weeping Blood Demon Sect to suffer losses, disciple willingly accepts confinement in the Blood Prison for a hundred years."

The Blood Prison is not the Boundless Bloody Hell, but rather the dungeon of their Weeping Blood Demon Sect.

It is the most brutal place they can now enter, even Earth Immortal Realm beings find it hard to bear the pain within. Before the Minor Era of Inversion of Heaven and Earth, their Weeping Blood Demon Sect had a Longevity Period Peak master who was punished to be confined in the Blood Prison for a thousand years because of mistakes.

Ultimately, that Longevity Period master did not hold out for a thousand years, becoming deranged after six hundred years of torment, completely going mad.

Soon afterward, he died within the Blood Prison.

He is genuinely afraid that the current Bloodless Cult Master will punish him with a thousand years in the Blood Prison.

When even Longevity Period Peak cannot endure a thousand years, much less him who has just entered the Longevity Period, hence he volunteered to be imprisoned for a hundred years.

Do not be fooled by how Bloodless Cult Master does not seem like a cold-hearted person, but having been in the Weeping Blood Sect for so many years, how could he not know what kind of person Bloodless is.

Actually, Bloodless and he are disciples of the same generation, among their generation of disciples, the cruelest is indeed Bloodless.

Even in the brutal Weeping Blood Demon Sect, Bloodless's ruthlessness causes this batch of elder brothers to fear him exceedingly.

"It appears you have not recognized where your fault lies." Bloodless shook his head slightly while looking down, "The death of Xue Miu Demon had nothing to do with you. However, the subsequent death of Blood-drinking Demon is indeed your responsibility. Your mistake lies in making decisions rashly without understanding the opponent's strength. As for going to the Blood Prison... Do you think a hundred years is sufficient?"

Upon hearing this, Feng Xue Demon was horrified, beads of sweat larger than beans appeared on his forehead, if a hundred years isn't enough, could it be a thousand years?

Bloodless did not look at Feng Xue Demon again but gazed around at the crowd and asked, "Regarding the current Hundred Peaks Sect, what are your opinions?"

For a while, no one dared to speak from below.

After a while, a female disciple from the same lineage as Bloodless softly spoke, "Sect Hierarchy, Hundred Peaks Sect has continuously killed two of our disciples at the Golden Core Period Limit, this enmity our Weeping Blood Demon Sect must avenge. It's just..."

She said this while looking towards Feng Xue with hatred, "Unfortunately, Feng Xue sought someone to duel with Cao Zhen to resolve grievances when he first joined! Now, it's troublesome for us to attack Hundred Peaks Sect without being talked about."

"And what if they talk?" A nearby man with a cold demeanor snorted, "Does our Weeping Blood Demon Sect fear what others say? Moreover, do we need a reason to attack others? Past grievances may be settled, but now we're annoyed with Hundred Peaks Sect and want to wipe them out, what's wrong with that?"

"Senior brother is right, we must definitely destroy Hundred Peaks Sect. Didn't they say Hundred Peaks Sect also excavated the living grave of the Heaven Prayers Sect Emyrean Elder? By wiping them out, those resources will naturally fall into our hands."

"Sect Hierarchy, I am willing to lead people to wipe out Hundred Peaks Sect."

"Sect Hierarchy, I am also willing to go."

Feng Xue Demon regretfully saw how each fellow disciple expressed their willingness to go to Hundred Peaks Sect, and also raised his head, "Sect Hierarchy, disciple is willing to atone with achievements and let the Sect Hierarchy deal with it after returning."

Among the voices expressing willingness to attack Hundred Peaks Sect, a woman's voice filled with magnetism suddenly sounded.

"Why attack Hundred Peaks Sect for resources? We have better options."

As her words fell, everyone turned their heads to look at the red-haired woman.

Some could not help but ask, "Love-Blood Devil, what do you mean?"

They did not know this woman before but later learned she hailed from Eastern Wasteland, the leader of their branch. After Eastern Wasteland connected with their Eastern Province, this woman led Weeping Blood Demon Sect members from the branch back to Weeping Blood Demon Sect.

Moreover, this woman's methods are exceedingly high, though, during the Minor Era of Inversion of Heaven and Earth, the sect leader of Weeping Blood Demon Sect had always been Feng Xue Demon, yet many affairs required her affirmation.

Among the awakened Earth Immortal Realms, some quietly mocked.

"Not attacking Hundred Peaks Sect? Are you also from Eastern Wasteland? Don't tell me you have old ties with people from Hundred Peaks Sect?"

Love-Blood Devil raised her head and glanced at her counterpart, Blood Cave Devil, Feng Xue Demon's senior brother, evidently, he sought to incriminate her because his junior brother had been heavily suppressed by her.

Chapter 1488:

It's a pity, his methods are too crude, and like his junior, he lacks wit.

Love-Blood Devil's lips curled up in a mocking smile, taunting, "Attack the Hundred Peaks Sect? How many Earth Immortal Realm cultivators are you planning to send?"

Blood Cave Devil sneered upon hearing this, "It's just a small sect from a remote area. We don't need many, thirty Earth Immortal Realm cultivators would be enough to annihilate the Hundred Peaks Sect."

"Thirty people," Love-Blood Devil sneered, "If that's the case, you'd better prepare your affairs. Void Breaking Sect thought as you did and sent thirty Earth Immortal Realm cultivators to attack the Hundred Peaks Sect. Do you know what the final result was? Only one Earth Immortal Realm returned alive.

Moreover, they also sent out two hundred Golden Core Stage cultivators, who either died or were captured."

As Love-Blood Devil spoke, he paused slightly, and looked at the Bloodless Demonic Path seated high above, "The sect hierarch had just reprimanded Devoted Blood Demon, saying his greatest mistake was not understanding the opponent's background before rashly confronting them, and attacking the Hundred Peaks Sect.

You're about to make the same mistake. By the way, you seem to be of the same lineage, so it's quite normal."

"Bastard!" A thick intent to kill suddenly emerged in Blood Cave Devil's eyes, glaring coldly at Love-Blood Devil, "Love-Blood Devil, you are provoking our lineage, you..."

Before he could finish his words, a soft sound echoed in his ear.

"Blood Cave..."

Though the sound was slight, it scared Blood Cave Devil into an abrupt silence.

Seated above, Bloodless Demon looked at Love-Blood Devil and asked, "You just said Void Breaking Sect sent thirty Earth Immortal Realm cultivators to attack the Hundred Peaks Sect? And only one returned alive?"

Love-Blood Devil promptly answered, "Yes, and none of the Hundred Peaks Sect members died."

Hearing this, disbelief showed on everyone's face around.

"Although Void Breaking Sect cannot compare to our Weeping Blood Demon Sect, they are a Great Teaching, their cultivation techniques are stronger, and their demonic qi must surely surpass the immortal power of the Hundred Peaks Sect's Earth Immortal. Their spells are stronger, how could they fail? Moreover, how many Earth Immortal Realm cultivators could Hundred Peaks Sect have?"

"Yes, killing over thirty Void Breaking Sect members with none of the Hundred Peaks Sect dying, how is this possible?"

"How do you know this situation?"

Love-Blood Devil seemed to look at everyone as if they were frogs at the bottom of a well, shaking his head mockingly, "Why is it impossible? Cao Zhen and others from the Hundred Peaks Sect have all broken through to the Earth Immortal Realm.

As for the spells you speak of, it was Hundred Peaks Sect, not Void Breaking Sect, that was stronger, because what Cao Zhen and others wielded were Mysterious Rank spells! You may have forgotten, we mentioned before that Cao Zhen is a reincarnated great ability.

Obviously, this shows that Void Breaking Sect is much weaker than many assumed; otherwise, they wouldn't have just one person escape back."

Bloodless Demon instantly understood Love-Blood Devil's thoughts, smiling as he looked at Love-Blood Devil with appreciation, "So, junior sister, what you mean is..."

"Join forces with Soul Breaking Sect, destroy Void Breaking Sect, and together with Soul Breaking Sect, divide Void Breaking Sect's resources." As Love-Blood Devil spoke, his face showed no particular expression, as if he was stating something very ordinary.

Hearing this, many around frowned, "Even though from that event we know Void Breaking Sect is very weak, they only lost thirty Earth Immortal Realm cultivators, it shouldn't have hurt them severely. They still have a large number of awakened Earth Immortal Realm experts."

"Yes, don't forget, Void Breaking Sect is a Great Teaching, they also have the Mountain Protection Array!"

"Even though the Minor Era of Inversion of Heaven and Earth has just ended, and their Mountain Protection Array cannot fully exert its power, dealing with their Mountain Protection Array is quite troublesome for us."

Listening to the surrounding comments, Love-Blood Devil scoffed disdainfully, "If the Mountain Protection Array cannot be activated, it's just a decoration. As for their other Earth Immortal Realm cultivators.

What if I tell you they've sent another one hundred and twenty Earth Immortal Realm cultivators to attack the Hundred Peaks Sect?"

"They've sent another one hundred and twenty Earth Immortal Realm cultivators?"

"What are they trying to do?"

One person frowned, "But even so, their Great Teaching would still have many Earth Immortal Realm cultivators left."

"Leaving Earth Immortal Realm cultivators, so what? If the Void Breaking Sect currently has no interim sect hierarch, do you think our Weeping Blood Demon Sect and Soul Breaking Demonic Sect together wouldn't be able to take down Void Breaking Sect? Their interim sect hierarch is also among those one hundred and twenty Earth Immortal Realm cultivators."

Upon hearing this, everyone was shocked.

"What? The Void Breaking Sect's interim sect hierarch personally led the team to attack Hundred Peaks Sect?"

"Have they gone mad?"

For a moment, many were intrigued.

"If that's the case, maybe there is a chance."

"Love-Blood Devil, how do you know so much? Can you vouch for the authenticity of your information?"

"Yes, such secretive matters, how would you know?"

The crowd quickly began to question the source of the information.

Love-Blood Devil simply smiled calmly, "Because inside Void Breaking Sect, there are my people. Now, do you think if we seize this opportunity to attack Void Breaking Sect, wouldn't we be able to take them down?"

At this moment, everyone felt that this Love-Blood Devil was truly audacious!

Chapter 1489:

The Minor Era of Inversion of Heaven and Earth had just ended, and she actually wanted to destroy a Great Teaching.

And her plan also seemed feasible.

Many people turned their heads to look at the Bloodless Demon on the main seat.

If they could wipe out the Void Breaking Sect, then the resources within it would be theirs! That is a Great Teaching!

Bloodless Demon slowly spoke under everyone's gaze: "Two Great Teachings are still too few. Although we can annihilate the Void Breaking Sect, we would have to send too many disciples, and our Weeping Blood Demon Sect's own defense would have problems.

Therefore, I will find another Great Teaching. With three Demonic Sects working together, before the Void Breaking Sect can react, it will be foolproof."

Rare Treasures Commerce Association.

The new chairman frowned as he looked at the subordinate reporting to him: "You mean, the Assassination Society refused?"

"Yes." Below, a slender young man whispered in report, "The people from the Assassination Society said that the Hundred Peaks Sect is a force of its own. They can take assignments to assassinate anyone, but

they will not take assignments to destroy a sect, as that would not be an assassination but a direct confrontation.

Their Assassination Society will not intervene in disputes between two forces."

Beside him, another high-ranking member of the Rare Treasures Commerce Association sneered upon hearing this: "Won't destroy a force? What a joke. Before the Minor Era of Inversion of Heaven and Earth, the Assassination Society had also sent people to destroy a sect. Now, they think the Hundred Peaks Sect is stronger than ordinary sects, which is why they refuse this kind of task."

The chairman shook his head slightly: "Now, although the Minor Era of Inversion of Heaven and Earth has ended, only those in the Longevity Period have awakened, marking a special time. Their strongest people from the Assassination Society are only at the peak of the Longevity Period, the difference is not that great.

If they can't destroy the Hundred Peaks Sect, how about Cao Zhen? Can they take on Cao Zhen?"

Though he had no direct evidence to prove that the so-called Pinbao Business Association was related to Cao Zhen, anyone could guess that the Wind Fire Tribulation Promotion Pill and the Trimming Lowering Tribulation Pill were refined by Cao Zhen.

Recollecting that back when Tao Zhenghe was still the chairman of the Rare Treasures Commerce Association, most of the time he was promoting these two pills, he was in fact promoting Cao Zhen.

Evidently, back then Tao Zhenghe was conspiring with Cao Zhen, creating the Pinbao Business Association.

Tao Zhenghe, he naturally wanted to kill too, but Tao Zhenghe was always in hiding, hard to find, while compared to Tao Zhenghe, Cao Zhen was more in the open.

Cao Zhen made their Rare Treasures Commerce Association suffer financial losses, how could he turn a blind eye to Cao Zhen?

However, although their Rare Treasures Commerce Association had many experts, they were their own, and one less whenever one was used.

This is the kind of thing one could spend money on, naturally one should spend money to do it.

Money?

The last thing their Rare Treasures Commerce Association lacked was money.

"In response, the people from the Assassination Society said they could kill Cao Zhen, but they asked for a very high price. Not only do they want ten thousand silver Immortal Stones, but also three treasures, not Mortal Rank treasures, but Yellow Grade treasures!"

As soon as the voice fell, someone nearby exclaimed.

"Have the people from the Assassination Society gone mad? Asking for Yellow Grade treasures!"

"Ten thousand silver Immortal Stones are no problem, but Yellow Grade treasures, do they understand the value of Yellow Grade treasures!"

"To kill someone who perhaps hasn't even entered the Earth Immortal Realm, even if entered, just barely, for Cao Zhen, using three Yellow Grade treasures?"

"Our Rare Treasures Commerce Association has money, but we aren't fools!"

Below, the person reporting whispered: "The Assassination Society said they had already inquired about Cao Zhen from the people of Wanxiao Sect, they said Cao Zhen had already broken through into the Earth Immortal Realm and is extremely powerful.

Cao Zhen possesses Mysterious Rank spells, as well as two Yellow Grade treasures. Cao Zhen is also a reincarnated Great Ability, hiding unknown means, which is why they quoted such a price!"

"What? Cao Zhen is so strong just after entering the Earth Immortal Realm?"

"Can perform Mysterious Rank spells?"

"Combat power extremely high?"

After the Rare Treasures Chairman was surprised, he waved his hand and said: "Wanxiao Sect's intelligence cannot be wrong. If that's the case, agree to their terms."

If it could be solved with money, then it wasn't a problem.

If Cao Zhen could refine Wind Fire Tribulation Promotion Pill and Trimming Lowering Tribulation Pill, he could refine other pills too, and he also researched the Pinbao Business Association. The more he researched, the more amazed he was; he discovered that the development model of this Pinbao Business Association was too unique.

He had never heard of such a development model before.

If Cao Zhen could continuously supply various pills to the Pinbao Business Association, allowing it to grow, even if it couldn't threaten the status of the Rare Treasures Commerce Association, in the Eastern Province, it could still steal a lot of customers.

He understood Tao Zhenghe better and knew that Tao Zhenghe wasn't capable of devising so many business strategies; it had to be Cao Zhen's input, whether directly or from those around him.

Therefore, Cao Zhen must die!

After Cao Zhen imparted the spell to the members of the Hundred Peaks Sect, the Treasure and Formation Map he made for Ling Xi had finally reached the last key moment.

In the void in front of him, a giant Array Plate emerged.

The Unparalleled Formation Plate!

This is the Array Plate for all Earth Immortal Realms. To refine this Array Plate, Cao Zhen invested a significant amount of resources, and even though Xiang Ziyu and he collected much treasure in the Eastern Province, they still couldn't gather all the materials.

Chapter 1490:

The Hundred Peaks Sect had no choice but to activate their treasure vault and melt down many of the treasures they had obtained to gather enough materials for crafting the formation map.

Beside them, those in the Hundred Peaks Sect who specialized in artifact refining exclaimed in amazement as they watched the formation plate crafted by Cao Zhen.

"This radiance, this aura!"

"This formation map has already reached the Yellow Level Upper Grade!"

"The Sect Leader managed to directly craft a Yellow Level Upper Grade treasure!"

"So, if our Hundred Peaks Sect had enough resources, we could have a large number of Yellow Grade treasures too?"

"What are you thinking? Does the Sect Leader have nothing to do but craft treasures all the time?"

"If we could learn even a fraction of the Sect Leader's artifact refining skills, it would be enough."

The Hundred Peaks Sect was not without people who could craft Yellow Grade treasures, but those who could craft them had not awakened; they were their Supreme Elders.

Moreover, the Supreme Elders could only craft Yellow Level Low Grade treasures, and they had only crafted two Yellow Level Upper Grade treasures, both for their own use.

If they were to craft treasures for others, the Supreme Elders couldn't craft Yellow Grade treasures either.

Now, the Hundred Peaks Sect finally had someone who could craft Yellow Grade treasures, and that person was their Sect Leader.

Cao Zhen looked at the formation map floating in the void and then turned to his senior disciple, whispering, "Quickly go and establish a connection; in a moment, your other treasure will also be ready."

As he spoke, he felt slightly puzzled in his heart; this time, the Supreme Unparalleled Formation Diagram he crafted was for the Earth Immortal Realm.

Furthermore, the Supreme Unparalleled Formation Diagram was extremely formidable.

Under normal circumstances, the Heavenly Dao should have sent a Heavenly Tribulation, but why didn't it appear?

While he pondered, the voice of China Cloud also echoed in his mind.

'Artifact Refining Level Upgrade Breakthrough, Administrator Level Up by One, Random User Connection by One, Specified User Connection by One.'

The Supreme Unparalleled Formation Diagram was naturally a treasure; completing a Yellow Level Upper Grade treasure naturally enhanced his artifact refining level.

"Please specify the user..."

The urging voice of China Cloud came quickly.

Specify who? Who should be at the top?

Cao Zhen was a bit confused; his disciples were already designated, both Bi Yue and Li Ke were designated by themselves, who else could he specify?

Specify Chao Zi Zai?

The issue was that specifying Chao Zi Zai didn't seem useful. If he wanted to teach Chao Zi Zai, he could just do it directly.

He couldn't possibly specify Tu Zhuque, could he?

Oh, Little Dragon!

Cao Zhen immediately thought of Little Yin; in over two hundred years, he would have to return Little Dragon. Perhaps someone from the Dragon Chant Sect would come to check on Little Dragon, and what if they demanded it back upon seeing its recovery?

Specifying Little Dragon at least wouldn't be a loss.

Cao Zhen hastily spoke, "Specify the only dragon within our Hundred Peaks Sect, Little Yin."

Fearing there might be another disciple named Little Yin in the sect, he specifically mentioned the only dragon.

Soon, the voice of China Cloud resounded.

'Little Yin connection successful...'

User: Little Yin

Race: Dragon Clan

Gender: Male

Identity: Dragon Chant Sect, Disciple of Saint Dragon Mountain.

Cultivation Base: Earth Immortal Realm, Longevity Period.

Extra Experience Points: 1000 0

Alchemy Level: Level 0

Talisman Level: Level 0

Array Level: Level 0

Specialty: Breeding.

Breeding...

Cao Zhen grinned widely at Little Dragon's specialty; this was exactly the kind of specialty he desired.

He seemed to envision a scene in the Hundred Peaks Sect where everyone was riding dragons.

Soon, the voice of China Cloud came once more.

'Random user, Wang Jixin connection successful.'

Who is Wang Jixin?

Cao Zhen had no impression of this name whatsoever.

This time, it couldn't be just another random ordinary person, could it?

He quickly opened China Cloud to check.

User: Wang Jixin

Gender: Male

Cultivation Base: Mortal

Specialty: Chess Skills

Chess Skills: Level 99.

So, he's someone skilled at chess? But being skilled at chess doesn't seem very useful.

Oh well, not every connection can lead to those powerful immortals; his luck has already been great lately, connecting to True Person Yu Ding and Yun Zhongzi. Occasionally connecting to a mortal, too, is normal.

Soon, Cao Zhen returned to his senses and resumed crafting talismans in front of him.

Two days later, sixty-four talismans gathered in the void, each emanating a fearsome power.

He would naturally use the Heaven and Earth Bagua Talisman as the main body when crafting a treasure once more.

Firstly, Ling Xi was already familiar with using the Heaven and Earth Bagua Talisman.

Secondly, the Heaven and Earth Bagua Talisman could better integrate with the Unparalleled Formation Plate.

More importantly, the Heaven and Earth Bagua Talisman was the divine weapon of the second-generation Sect Leader of the Hundred Peaks Sect; they couldn't possibly melt down the divine weapon of the second-generation Sect Leader to turn it into another treasure.

In fact, crafting this treasure was relatively quick because both the Unparalleled Formation Plate and the Heaven and Earth Bagua Talisman had original templates; he was merely modifying them.

Yun Zhongzi's greatest skill was modification.

If it were crafting two entirely new treasures, it would have taken a lot more time.

"Yellow Level Upper Grade!"

"Another Yellow Level Upper Grade treasure!"

"The Sect Leader crafted two treasures, both of Yellow Level Upper Grade!"
