

My Master 1511

Chapter 1511:

Not far away, an Earth Immortal Realm being sensed the incoming golden light. He wanted to dodge, but the speed of this golden light had already surpassed his. Seeing no way to evade, he swiftly raised both hands, and a black, ancient-looking book appeared before him, its pages instantly unfolding.

From within the book, a massive Demon Bull phantom emerged, its demonic qi dense and nearly tangible, as if a ferocious beast that had existed for over a hundred thousand years was awakening from slumber.

The next moment, the golden light descended, striking the Demon Bull phantom, producing a thunderous sound akin to the earth shattering. The phantom was instantly pierced through, and the golden light then struck the pages of the book.

The golden light pierced through the Demon Bull phantom, its power obviously diminished somewhat, yet the sound it made upon impact was like a drop of water falling into burning flames.

On the pages, a noticeable round hole appeared from the impact, and smoke began to rise from it, setting the entire page ablaze.

In the following moment, another golden light flew in from a different angle, slamming onto the pages, causing the massive black book to tremble, then rapidly shrink to the size of a regular book.

After the golden light repelled the book, it dissipated as well. However, there were simply too many golden lights within the Light Mirror Formation. Nearby, yet another golden light descended, and this light was even more terrifying than the previous one. Before he could react, a burning pain erupted from his chest.

Looking down, he saw that his chest had been completely pierced through, smoke billowing from the wound.

"Puh!"

He spat a mouthful of crimson blood and collapsed to the ground, his chest pierced through, along with the heart behind it!

Suddenly, another golden light poured down from the sky, landing on his body.

Under the consecutive bombardments, his body exploded abruptly!

Within the formation, golden lights continuously shot out from the twenty-one treasure mirrors.

Moreover, each treasure mirror did not fire just one golden light and then stop, but kept emitting golden light. With such continuous emission and refractions, the entire formation was filled completely with golden light.

"What formation is this?"

"Such terrifying golden light!"

"Don't let the golden light refract; the more it refracts, the more terrifying its power becomes!"

"Block the golden light!"

"How to block? There's just too much golden light!"

Everyone wanted to block the golden light, but they could only block one or two beams. They couldn't block all the golden light and couldn't use their bodies to block it directly,

"Quick, attack the mirrors!"

The mirrors within the golden light formation kept emitting golden light. The longer it lasted, the more golden light they emitted. They tried attacking the mirrors, yet the golden light also thwarted their attacks, making it momentarily impossible to break the mirrors.

"What's going on? How is this Light Mirror Formation even more terrifying than their Mountain Protection Array?"

"Quickly retreat."

"Those in the back, don't come in."

"There's no time. Attack the mirrors first!"

The ones inside could not retreat under the golden light barrage. There was so much golden light that it was impossible to rush out. They could only ask those behind to help.

However, those entering from the back, realizing the terror of the golden light, also didn't want to die here. Even Earth Immortal Realm beings were afraid of death!

"No retreat! Destroy the mirrors!"

Suddenly, a stern voice came from behind.

Soul Ghost Demon coldly looked at everyone ahead and said, "This is their only formation left. Once broken, we can annihilate the Hundred Peaks Sect!"

As his words fell, more Earth Immortal Realm beings from the Soul Breaking Demonic Sect charged into the light mirror.

One after another, spells fell, bombarding the mirrors.

The golden light clashed with spells in the air, continuously tearing apart this space, and the ground where the golden light formation stood was constantly shattering!

Despite the overwhelming numbers of golden lights, the Soul Breaking Demonic Sect and Weeping Blood Demon Sect had two hundred Earth Immortal Realm beings. With their collective effort, the mirrors shattered one by one.

Finally, the last golden light mirror broke as well!

However, the Soul Breaking Demonic Sect suffered losses of thirty Earth Immortal Realm beings, lying in pools of blood, and even more were injured by the golden light formation.

Love-Blood Devil, seeing each fallen Earth Immortal, furrowed his brows tightly. Previously, the Hundred Peaks Sect had no such formation; obviously, this formation was set by Cao Zhen.

The twenty-one mirrors took down thirty Earth Immortal Realm beings.

This was despite them having two hundred Earth Immortal Realm beings. If they had brought fewer, the loss would have been greater.

This light mirror, without at least a hundred Earth Immortals, couldn't be broken through at all!

Especially after the golden light refracted, its power continuously increased.

Just what kind of being was Cao Zhen in his past life?

The reborn Great Abilities in the Eastern Wasteland were not limited to Cao Zhen alone, yet the other two, Star Lord Hao Yue and the Axe Madman, clearly didn't have such means.

Cao Zhen was not only adept at Alchemy but had just entered the Earth Immortal Realm, already displaying Mysterious Rank spells, and now showing such expertise in formations.

Such a Great Ability, at the very least, was a True Immortal in his past life, and even among True Immortals, was likely an exceptionally terrifying existence!

Chapter 1512:

Suddenly, above the Hundred Peaks Sect, a beam of light soared into the sky.

Around Ling Xi's entire being, the Heaven and Earth Bagua Talisman, the Supreme Unparalleled Formation Plate, and the Immortal Mountain all emerged.

The next moment, the array plate unfolded, and what initially appeared to be merely the size of a human body suddenly filled an entire space.

At the same time, on her Unparalleled Formation Diagram and her Heaven and Earth Bagua Talisman, each position within the trigram suddenly shot out a beam of pure light, gathering together and falling onto her body.

In an instant, the three fully fused together, Ling Xi perfectly resonating with the formation diagram and talisman. Her entire aura radiated brilliantly, like a true Immortal descending from beyond the Nine Heavens to the human world.

Love-Blood Devil gazed at Ling Xi within the void, feeling an illusion in his heart that at this moment, Ling Xi was the ruler of the world covered by her formation diagram below!

"Indeed, both are Yellow Level Upper Grade treasures!"

"Controlling two Yellow Level Upper Grade treasures simultaneously!"

"Even though they are Yellow Level Upper Grade treasures, she captured five people into the formation diagram at once. Soul Ghost Demon should be able to withstand it, right!"

The formation diagram is indeed Yellow Level Upper Grade, but it also depends on the difference in strength between the one controlling the diagram and those trapped within.

Suppressing five people simultaneously would inevitably reduce the power of this formation diagram!

"The Hundred Peaks Sect has only these dozen people, let's charge directly in!"

The group of disciples from the two major Demonic Sects showed no fear despite Ling Xi's actions, continuing their charge forward.

However, the next moment, from behind the mountain gate of the Hundred Peaks Sect, terrifying auras erupted into the sky, followed by several immortal mountains rising and a group of Earth Immortal Realm experts ascending from underground!

"That is, Cao Zhen, and the other disciples from Four Treasures Peak!"

"What's going on? Weren't they supposed to have all left the Hundred Peaks Sect?"

"The intelligence was wrong!"

"We've been duped!"

Disciples from the two major Demonic Sects turned their gazes toward Love-Blood Devil.

Love-Blood Devil stared at the sudden appearance of over a hundred Earth Immortal Realm experts from the Hundred Peaks Sect, her heart shaken. During the Minor Era of Inversion of Heaven and Earth, she had arranged someone within the Hundred Peaks Sect. Later, she promised immense benefits to a disciple of the Hundred Peaks Sect, implanting two spies within.

This time, the information transmitted by the two spies was identical.

Thus, she was completely convinced.

But now, she was evidently deceived.

Could it be that the two spies were both discovered by the people of the Hundred Peaks Sect?

How did the Hundred Peaks Sect find these two spies?

Feeling the doubts from those around her, she knew it wasn't the time to ponder. Her expression hardened, she loudly proclaimed: "Even if they haven't left, so what? The great formation of the Hundred Peaks Sect has already been broken. We have more Earth Immortal Realm experts, stronger ones, incomparable to the Void Breaking Sect! Are you still afraid of the Hundred Peaks Sect? The Hundred Peaks Sect only has the disciples of Four Treasures Peak with Mysterious Rank spells, kill!"

She believed, as a reincarnated great ability, Cao Zhen would certainly not teach the Mysterious Rank spells to anyone outside the Four Treasures Peak disciples.

Those are Mysterious Rank spells, even the existence of the True Immortal Realm pays great attention to Mysterious Rank spells!

No matter how selfless Cao Zhen might be, he couldn't possibly disseminate such spells widely; wouldn't he fear traitors in his Hundred Peaks Sect spreading these Mysterious Rank spells outside?

Even if there are no traitors within the Hundred Peaks Sect, what happens when those of the Immortality Regainment Realm awaken?

In the cultivation world, there's a spell called the Soul Searching Great Technique.

The Soul Searching Great Technique can forcibly search the opponent's consciousness, even the spells they've cultivated can be extracted.

If he dared to teach those Mysterious Rank spells to all the Earth Immortal Realm members of the Hundred Peaks Sect, when the Immortality Regainment Realm experts awaken, they would certainly capture some weaker Earth Immortal Realm members and use the Soul Searching Great Technique to forcefully discover how the Mysterious Rank spells are cultivated.

Therefore, Cao Zhen would at most teach those Mysterious Rank spells only to his disciples, and not to outsiders.

Of course, when the Immortality Regainment Realm awakens, even his disciples might be captured for forced soul-searching.

After she finished speaking, she herself was the first to charge forward.

Yet the next moment, a purple thunderbolt fell from the void, containing extreme firm and positive power that even she dared not confront directly.

The blood demon technique she cultivated was most fearful of such extreme firm and positive thunderbolt techniques!

Behind Love-Blood Devil, a red cloak appeared, and with a flash, her figure swiftly retreated backward.

Yellow Level Mid Grade treasure!

Even though she was previously the Sect Leader of the Bleeding Tears Demon Sect, since it was only in the Eastern Wasteland, she didn't possess Yellow Level Mid Grade treasures.

This treasure was bestowed upon her as a reward by the sect hierarch Bloodless Demon after she contributed her strategy to lead the three major Demon Sects in annihilating the Void Breaking Sect.

The thunderbolt crashed heavily onto the earth below, instantly creating a huge round pit on the ground, and at the center of the pit, a spring of water surged into the sky.

The strength of this thunderbolt was so intense that it penetrated the ground and struck the underground spring.

Love-Blood Devil looked up and saw a figure wielding a long blade leaping forward.

Yan Yourong of Four Treasures Peak, but Yan Yourong's blade!

Her gaze instantly fell upon Yan Yourong's long blade, which exuded endless killing intent and the aura of wrath and sorrow, its fearsome presence and brilliance outshining even the cloak behind her!

Chapter 1513:

Yellow Level Upper Grade!

This is a Yellow Level Upper Grade treasure!

She is very familiar with the Hundred Peaks Sect and has conducted numerous investigations on the disciples of Four Treasures Peak. She knows that the long knife in Yan Yourong's hand is a very famous Divine Weapon of the Hundred Peaks Sect called the Grieving Anger Dragon Blade.

The long knife in Yan Yourong's hand, both in appearance and aura, is indeed the Grieving Anger Dragon Blade, but how could a Divine Weapon become a Yellow Level Upper Grade treasure!

Could it be another creation of Cao Zhen?

Who exactly is Cao Zhen, and how can he forge one Yellow Level Upper Grade treasure after another?

In her eyes, full of astonishment, Yan Yourong has already swung her blade. This strike is filled with an unstoppable momentum, as if it would split the entire sky apart.

On top of the long knife gathers the power of the Five Elements: gold, wood, water, fire, and earth.

At first glance, this strike seems far away, but the next moment, it has already appeared before her eyes.

Even though the Love-Blood Devil possesses a blood-red cloak, a Yellow Level Mid Grade treasure, this strike came too suddenly. She still couldn't avoid it.

Suddenly, in her left and right hands, a longsword appears respectively. One sharp sword as black as ink, with flame-like patterns on its blade, and the other sharp sword is entirely snow-white.

These two longswords, one exudes a scorching aura, seeming to burn the entire world to ashes, while the other is extremely icy, with cold breath that could freeze the entire world!

In the next moment, she crossed the two longswords in front of her body.

Immediately, the two longswords seemed to transform into two demonic beasts, with bodies like snakes, heads like fierce tigers, and hooves like Divine Dragons, spreading waves of bloody aura.

These two demonic beasts, one seemingly formed by flame, and the other by frost, carried an aura as if they would annihilate the world, crashing towards Yan Yourong.

In an instant, the two longswords have already collided with Yan Yourong's strike.

Suddenly, a thunderous explosion resounded like the void shattering. The place of collision between the blade and swords erupted in incomparably brilliant sparks, whose brightness overshadowed the glow of magical artifacts and spells clashing all around.

In the void, the Ice Fire Demonic Creatures rapidly dissipated at an observable speed.

As if they were cut down by a single stroke.

And the Five Elements Glow on Yan Yourong's long blade also disappeared.

But the Love-Blood Devil instinctively felt an overwhelming force rushing at her, uncontrollably pushing her body to retreat a certain distance. She looked at Yan Yourong opposite her, with horror reflected in her eyes. She had cut off her own cultivation before, and after the Minor Era of Inversion of Heaven and Earth ended, she quickly advanced into the Earth Immortal Realm, progressing much faster in her cultivation than others!

After all, compared to restarting cultivation, she was just restoring her previous cultivation base.

Moreover, she was already an extremely terrifying existence before.

Back in the Eastern Wasteland, the strongest was the Grand Preceptor, and she was the second!

Yet now, after clashing fiercely with Yan Yourong, she was actually repelled!

Even if the treasure Yan Yourong used was Yellow Level Upper Grade, and hers merely Yellow Level Low Grade, it shouldn't lead to her being repelled by Yan Yourong!

What cultivation technique has Cao Zhen taught his disciple!

Seeing Yan Yourong wield the blade again, blood-red auras gathered around her, with an immensely pervasive bloody scent emanating, rippling outward from her as the center.

For a moment, this area seemed to turn into a world of blood, as if everyone had plunged deep into an underground Blood River.

Her hands turned blood-red, with blood-red lights surging around her, seemingly like the flow of the Blood River.

In the next moment, the Blood River suddenly exploded, and at the same time, countless blood-colored demonic beasts flew out. At this moment, she appeared to have truly connected with the Boundless Bloody Hell, releasing the demonic beasts from within.

Each blood-colored demonic beast seemed suffocatingly numerous, almost covering the sky and blotting out the sun, as if completely obscuring the heavens.

Every demonic beast seemed to be terrifying creatures from Boundless Bloody Hell, each filled with savage, violent aura, seemingly each capable of easily crushing mountains.

The entire void shook madly at this moment!

Under the surge of thousands of demonic beasts, the earth shook and the void trembled.

On the ground, massive stones and large trees all exploded, raising endless clouds of dust.

Around Yan Yourong, the void even slightly cracked, revealing void cracks, with whispers of Chaos of Void occasionally shooting out from the cracks.

Vast demonic qi converged and poured towards Yan Yourong.

And the sheer number of demonic beasts was beyond counting. At a glance, it was enough to make one's scalp tingle.

Yellow Level Upper Grade Spell!

This is the strongest spell she can currently cast!

This was also her last great achievement, which the Sect Hierarchy conferred, after being approved by the temporary Elders of the Weeping Blood Demon Sect, the Blood Transformation into Evil Technique!

Yan Yourong's aura rose once more, her sword technique always being a single decisive stroke, a stroke of life and death, a stroke to settle victory or defeat, yet after entering the Earth Immortal Realm, she found her sword technique unable to achieve the level of a single decisive stroke anymore. She needed continued refinement of her sword technique, hence her current battles were markedly different from before!

Chapter 1514:

Looking at this strike, she revealed a cold smile. All those who had grudges against the Hundred Peaks Sect were from the Demonic Sect, so the spell her master taught her was specifically for dealing with members of the Demonic Sect, especially to counteract the blood energy.

The reason she actively sought out the Love-Blood Devil was precisely because of the spell her master taught her!

Behind her, the immortal energy surged like a mighty river, roaring and rushing.

Yan Yourong's entire being was filled with battle intent that shot up to the heavens. In her hand, the Grieving Anger Dragon Blade radiated a golden brilliance. The intense golden light instantly illuminated the entire world in splendid gold.

Amidst the golden light, it was filled with the power of the Five Elements: gold, wood, water, fire, and earth.

Although the Five Elements Power did not restrain the blood demon's aura, the spell her master imparted was extraordinarily profound, capable of altering the Five Elements Power to target the blood demon's aura.

Her master also mentioned that, in fact, the Five-thunder Righteous Method also stemmed from the Five Elements Power and could later transform into techniques such as Gold Thunder and Fire Thunder.

However, their current cultivation base was too weak to further cultivate the next step of the Five-thunder Righteous Method.

The golden light converged, forming a giant pentagram shape, each point seemingly containing one of the Five Elements Power, but once the pentagram started spinning, it appeared to contain none of the Five Elements Power, possessing instead the purest and most masculine Zhonghua Cloud Temple.

Under the rapid spinning of the pentagram, the entire world shuddered wildly at this moment!

A massive space vortex formed around the pentagram!

Beast-like blood-colored demonic beasts charged into the vortex, instantly pulverized to pieces.

Subsequently, this terrifying force surged forward, engulfing the entire Love-Blood Devil.

The Love-Blood Devil instantly felt five different forces, like five invisible giant hands trying to tear her body apart forcefully; her internal organs seemed to be shifted around by this power.

"Puh..."

The Love-Blood Devil opened her red lips, spitting a mouthful of bright red blood while her body flew backward.

She was injured by Yan Yourong!

And Yan Yourong was definitely not the strongest in the Hundred Peaks Sect. Besides Cao Zhen, both Ling Xi and Xiang Ziyu were definitely stronger than Yan Yourong.

So, at least four people in the Hundred Peaks Sect were stronger than her?

Her gaze unconsciously fell on the Formation Map unfolding to the side.

Within the Formation Map, after the five members of the Soul Breaking Demonic Sect were trapped, the eyes of four of them instantly fell upon the Soul Ghost Demon.

The Soul Ghost Demon, feeling the binding sensation all around, said with a heavy expression, "We have more Earth Immortal Realm practitioners than they do. The ones anxious are the opponents, who will definitely want to defeat us promptly. We should not make a move; we should wait for the opponents to act."

He could feel that he could only exert ninety percent of his power now.

Especially with that binding sensation, he felt restrained everywhere, which made him very uncomfortable, but he knew that the opponent's treasure was of the Yellow Level Upper Grade. Moreover, the two treasures of the opponents and Ling Xi were in harmony and merged into one entity. Under such circumstances, it was really challenging to break the opponent's treasure.

Even though they were five people, it wasn't easy to break the opponent's treasure.

The best way was to wait for the opponent to make a mistake when their power diminished after an attack, then break the Formation Map.

Just as he finished speaking, a wave of energy fluctuation came from the Formation Map as four more figures flew into the Formation Map.

Cao Zhen, along with Bei Yan, Yi Sheng, and Duo Duo, flew into the Formation Map. The moment they entered, three Same Array Talismans flew out from in front of Ling Xi and landed on Bei Yan, Yi Sheng, and Duo Duo.

Although her master wouldn't be suppressed by the Formation Map, her junior brother and junior sister would also be suppressed upon entering, so she needed to release the Same Array Talismans.

As she released the Same Array Talismans, she simultaneously gathered sixteen Talismans in front of her, which flew towards the five opponents.

Righteous Gathering Thunder Talisman!

Meanwhile, in the hands of Cao Zhen, Bei Yan, Duo Duo, and Yi Sheng, who had entered the Formation Map, bolts of thunder appeared simultaneously.

In the next moment, the sound of thunderclaps echoed, and adding Ling Xi to the count, five purple thunders, resembling the Heavenly Tribulation Thunder, struck towards the five below.

With the assistance of the Thunderbolt-Gathering Symbol, the thunder exhibited greater might, and for a while, the entire Array Plate was filled with purple thunder.

Alongside the five, Thunder Snakes danced wildly, and the five had no way to avoid it, only able to release spells to resist the onslaught of the five bolts of thunder. However, under the thunder's descent, their spells were instantly shredded.

The thunder, however, was a spell of the Mysterious Rank!

"Bang!"

Suddenly, a dull thud rang out, and among the five, one's body suddenly exploded, with bright red blood spurting into the sky, splattering onto the remaining four.

In just an instant, one of them was already dead, yet the opponent's thunder had not ceased. In the void, terrifying and menacing Mysterious Rank thunders fell once more.

"Damn it!"

The Soul Ghost Demon cursed, frantically urging his demonic qi with a frantic look on his face; he was indeed panicked. In this Formation Map, he could only exert ninety percent of his normal power, and the opponent's five people, each releasing Mysterious Rank spells, among them the thunder and talismans. How were they supposed to respond!

Chapter 1515:

Where are his companions? Why haven't the companions outside taken action to help them?

Outside the Unparalleled Formation Diagram, the Earth Immortal Realm members from two Great Teachings faced Cao Zhen and the people of the Hundred Peaks Sect, their eyes widened.

What is this?

Yellow Level Mid Grade spells? Yellow Level Upper Grade spells? Most of the spells these Hundred Peaks Sect people are casting are Yellow Level Low Grade spells!

And these spells almost never repeat.

Is this really a small sect from the Eastern Wasteland?

Isn't this a top-tier Great Teaching?

Even a top-tier Great Teaching couldn't possibly produce so many different Yellow Grade spells!

Also, how does everyone from the Hundred Peaks Sect have treasures?

The intelligence reports from Wanxiao Sect didn't mention that these people all have treasures, nor did they say they have so many Yellow Grade spells!

Most of their Earth Immortal Realm members awoke from slumber, but the opponent's spells were stronger than theirs. Even if they had the advantage in numbers, they didn't have the advantage at the moment.

After a few breaths, suddenly a large formation appeared in the void, engulfing five people into the formation.

And from within the previous formation, five bodies fell down!

"Soul Ghost Demon!"

"Just in a few breaths, all five of them died!"

"There are Soul Ghost Demons in there, an existence of Longevity Period peak."

"Not good, the formation has trapped another five people!"

Disciples from both Demonic Sects, seeing the descending formation, were appalled in their hearts and began to retreat in all directions.

And again, after a few breaths, they felt it couldn't have been more than ten breaths, the formation once more contracted, and from within it, another five bodies fell down.

At the same time, Cao Zhen's voice rang out.

"Ling Xi, don't just trap too many people at once, trapping five people at a time is enough."

With the Unparalleled Formation Diagram in Ling Xi's hands, if it trapped one person, they could only exert eighty percent of their power; trapping three people reduced them to exerting about eighty-five percent of their power; five people to exerting eighty-eight or eighty-nine percent; and if it trapped ten people, they could only exert about ninety-two percent of their power.

When they entered the formation and wiped out ten people, it still took some effort.

But facing five individuals, with Ling Xi's Thunderbolt-Gathering Symbol for assistance, when they all exerted themselves to perform the Five-thunder Righteous Method from the Mysterious Rank, it didn't take much time to eliminate the opponent's five people.

He felt that trapping five people was the most efficient way.

As Cao Zhen's voice fell, the Unparalleled Formation Diagram spread, but it didn't catch the five closest Demonic Sect members into its fold. Instead, it flew towards the injured Love-Blood Devil struck by Yan Yourong.

Now, the leader of the Soul Breaking Demonic Sect, the Soul Ghost Demon, was dead, and if the Love-Blood Devil died too, the heads of the two Great Teachings would be gone, affecting their morale greatly, turning them into a chaotic rabble.

The Love-Blood Devil sensed the formation falling from above. Though she wasn't completely enveloped by the formation, she could feel the restraining sensation from it, feel her own power diminishing!

The next moment, her body shuddered violently, it suddenly expanded, and in the blink of an eye, inflated like a balloon.

Then, with a loud boom, it burst.

Her swollen body burst open, transformed into streams of crimson blood, which flowed outward.

In just an instant, the blood had flowed more than ten miles away, forming back into the shape of the Love-Blood Devil, though her originally rosy face now had a hint of pallor.

The Love-Blood Devil looked at the formation, at the disciples from the two Demonic Sects around, each not gaining any upper hand, then at the formation still trapping four Earth Immortal Realm individuals.

Suddenly, she turned to flee into the distance!

Defeated, they couldn't possibly win; even though they bought intelligence reports from Wanxiao Sect, those were reports from the last battle between the Hundred Peaks Sect and Void Breaking Sect.

She had considered that during this period, the Hundred Peaks Sect's power might grow, but she never imagined their power would increase so much, that their Earth Immortal Realm members would all have Yellow Grade spells!

Even in their Weeping Blood Demon Sect and Soul Breaking Demonic Sect, some disciples didn't have Yellow Grade spells.

She understood the Immortal Sects of the Guardian Immortal Imperial Dynasty well, she had fought against the Hundred Peaks Sect before, long before she was caught and imprisoned by the Grand Preceptor. She was sure the Hundred Peaks Sect didn't have so many Yellow Grade spells.

Evidently, these Yellow Grade spells must have been taught by Cao Zhen to the Hundred Peaks Sect.

What's even more terrifying is that these Yellow Grade spells are nearly all different and seem to match every member of the Hundred Peaks Sect.

Hence, Cao Zhen taught different spells based on the varying cultivation techniques of these Earth Immortals of the Hundred Peaks Sect!

The Hundred Peaks Sect, after all, is a diverse sect! Within the sect are disciples cultivating meditation, military law, calligraphy, it's like there's a variety of cultivation. For Cao Zhen to teach each person the most suitable spell, that's the scariest part!

This isn't something just any reincarnated great ability could achieve.

No matter how strong a reincarnated great ability is, they couldn't possess so many different spells!

Thus, there's only one possibility: Cao Zhen not only reincarnated; he also possesses a legacy from a top-tier Great Teaching from countless epochs ago!

In other words, with Cao Zhen's full support of Hundred Peaks, their assault now targets not just an ordinary sect, but a Great Teaching!

A top-tier Great Teaching from countless epochs past!

And now their Earth Immortal Realm isn't weaker than the enemy's, and with Ling Xi wielding the formation, controlling five people at once, and in just a moment's time, killing five individuals. At such speed, how could they withstand this!

They may have two hundred Earth Immortal Realm members, but previously, attacking the Hundred Peaks Sect's Light Mirror Formation, thirty people have already died.

Now again, five people die at a time, it won't take long before the Hundred Peaks Sect surpasses them in number of Earth Immortal Realm members.

Chapter 1516:

In front of the Hundred Peaks Sect's mountain gate, Earth Immortal realm experts from the Soul Breaking Demonic Sect and the Weeping Blood Demon Sect were desperately fleeing into the distance. One leader from the Soul Ghost Demon was directly killed on the spot, while the other Love-Blood Devil narrowly escaped by using a secret technique.

With one dead and the other escaped, what reason do they have to stay?

Especially when faced with these Earth Immortal experts from the Hundred Peaks Sect, not only do they possess yellow-grade spells, but the most terrifying is Ling Xi, who can casually trap five people and within just a few breaths, kill five Earth Immortal realm beings.

Those are Earth Immortal realm beings, not Golden Core stage individuals!

What if Ling Xi traps them next?

Even the Soul Ghost Demon is dead, let alone them.

That formation map is clearly a death map; everyone trapped in it will perish!

Everyone fled quickly, while the people of the Hundred Peaks Sect closely pursued.

In the void, Ling Xi, together with her master and disciples, exterminated the five people inside the great formation, and then, looking at the fleeing disciples of the two great teachings, the Unparalleled Formation Diagram descended again. This time, it trapped not just five people, but ten Earth Immortal beings!

In a distant corner, hidden figures watched the fleeing Earth Immortals of the two Demonic sects and scoffed disdainfully: "Great teachings? Is this it? The people from the two great teachings are actually beaten back. They didn't even force Cao Zhen to reveal his contingency plan! A bunch of waste, let's go!"

Speaking, he turned and ran toward the outside, and as he began to move, accompanying figures also flew out, heading into the distance.

The assassination organization they belonged to had guessed that the Soul Breaking Demonic Sect and the Weeping Blood Demon Sect would act when the Hundred Peaks Sect was recruiting disciples, so they dispatched assassins, intending to act when the two Demonic Sects attacked the Hundred Peaks Sect. But who would have thought the two great teachings would be wiped out so quickly.

They had no choice but to run away too.

The group that attempted to assassinate Cao Zhen did not escape after the Void Breaking Sect was exterminated, and as a result, was found by the Hundred Peaks Sect. Knowing the Hundred Peaks Sect must have strong detection methods, they simply joined the escape.

Moreover, they did not act, so this time, it can't be considered a failed assassination.

Even as Cao Zhen entered Ling Xi's Unparalleled Formation Plate, he still saw the far-off figures of Earth Immortals fleeing into the distance.

Assassination organization's people?

Indeed, the assassination organization's people wouldn't miss such an opportunity.

However, how did the assassination organization know the two Demonic sects were going to attack our Hundred Peaks Sect?

Did the Wanxiao Sect relay the information to them?

But how did the Wanxiao Sect know the details accurately? Do they have eyes within the two Demonic sects, or among the three traitors of the Hundred Peaks Sect, is one of them from the Wanxiao Sect?

"Boom..."

The sound of thunder echoed, bringing Cao Zhen back to reality.

Inside the great formation, Ling Xi, Bei Yan, Duo Duo, and Yi Sheng had already taken their actions.

The four released the Five-thunder Righteous Method, yet after its fall, there appeared to be some differences.

In other words, the Five-thunder Righteous Method of the others was different compared to Bei Yan's.

Within Bei Yan's Five-thunder Righteous Method, there was an additional trace of wind and fire energy, almost like the wind and fire qi of the Wind Fire Heavenly Tribulation.

Come to think of it, Bei Yan had been blasted by the Wind Fire Heavenly Tribulation for decades, and even a slight exertion would summon the Wind Fire Heavenly Tribulation. Cao Zhen even suspected that throughout the ages, no one had experienced more Wind Fire Heavenly Tribulations than Bei Yan.

Bei Yan did not even take any pills when crossing his Wind Fire Heavenly Tribulation.

Wind Fire Heavenly Tribulation? Can it be called a tribulation?

He ate fewer meals than he crossed Wind Fire Heavenly Tribulations!

Perhaps he could consider transmitting some wind and fire spells to Bei Yan; it wouldn't do to have Little Bei suffer so many Wind Fire Heavenly Tribulations in vain.

While thinking about this, Cao Zhen unleashed the Five-thunder Righteous Method downward.

Although they were only five people against ten, they firmly suppressed the other side. Before long, the ten Earth Immortal realm beings had successively fallen to the ground.

The two demonic sects retreated swiftly, yet the number of their Earth Immortal realm experts was indeed large. In the clash between the two sides, the Hundred Peaks Sect still had Earth Immortal realm members injured, and moreover, two Earth Immortal realm members died.

Cao Zhen looked at the two fallen Earth Immortal beings, sighed deeply, and after a long time, turned to the crowd, saying: "Clean up the battlefield, and additionally, Wanrendong, check if the other side really got away."

With that, he himself lifted these two Earth Immortal beings and flew back into the Hundred Peaks Sect, his whole demeanor looking deeply somber.

Beside him, Li Ke noticed the change in Cao Zhen's expression, moved to catch up, and whispered: "You think these two died because of you?"

Cao Zhen pointed towards the outside of the Hundred Peaks mountain gate, whispering: "Back then, in the Eastern Province, had I not gone to exterminate the Soul Breaking Sect and the Weeping Blood Demon Sect, it's uncertain about the Weeping Blood Demon Sect, but the Soul Breaking Demonic Sect might not have attacked the Hundred Peaks Sect.

If they hadn't attacked the Hundred Peaks Sect, there wouldn't be today's battle, and they wouldn't have died because of it."

"You're not wrong, if that were the case, the Soul Breaking Demonic Sect indeed might not have attacked our Hundred Peaks Sect." Li Ke nods in agreement, then her tone shifts, "But if you hadn't competed for those treasures, you wouldn't have been able to gather so many Musical Rhythm Towers, nor trick those two pieces of Immortal Fields.

Chapter 1517:

I'm afraid you won't be able to enter the Five Sounds Sect and help them with their Sect Tribulation. Also, if you didn't fight for them back then, those two treasures, Silver Light Wings and Orange Light Wings, wouldn't be yours.

Moreover, when you killed others back then, it also showed the dominance of the Hundred Peaks Sect. Because you gained fame in the Eastern Province, when those people from the Demon Sects of the Eastern Province attacked us in the Eastern Wasteland, upon learning you were the Sect Leader of the Hundred Peaks Sect, and realizing our strength, they retreated.

Had you shown constant restraint then, everyone would have thought the Hundred Peaks Sect was weak. Perhaps at that time, the Soul Breaking Demonic Sect wouldn't have come to cause trouble, but many others from the Demonic Sects would come to plague us."

Li Ke sighed deeply and said, "The path of Immortal Cultivation is originally cruel. As cultivators, we already live much longer than mortals. And in the Hundred Peaks Sect, there has never been anyone afraid of death.

If they had to choose again, they would still fight for the Hundred Peaks Sect without hesitation!"

Cao Zhen knew Li Ke was right, but he felt uneasy and inevitably low-spirited.

Until Nie Jie came looking for him.

"Sect Leader, the battlefield has been cleaned up. This time, we destroyed ninety-three Earth Immortal Realm enemies. In addition, we obtained a hundred and two treasures!"

Not all Earth Immortals possess treasures, but the Soul Breaking Demonic Sect and Weeping Blood Demon Sect had just plundered Void Breaking Sect and were at their richest. They equipped every Earth Immortal who came with treasures, and some had more than one.

After Cao Zhen nodded, Nie Jie continued, "Sect Leader, I have stored all the treasures in the treasury, but amongst them, there is one treasure that might be useful to you, so I kept it aside."

Nie Jie presented a mask to Cao Zhen and said, "This is a disguise mask, not only can it change your appearance, but it also has the power to alter or even conceal your Immortal Mountain."

He knew the Killer God's people were targeting their Sect Leader, so the Sect Leader couldn't easily leave the Hundred Peaks Sect. But with this mask, it would be different; Cao Zhen could leave openly without drawing attention.

Even though all the treasures should be collected after their victory, the Sect Leader has contributed so much to the Hundred Peaks Sect. Previously, the Hundred Peaks Sect had only a few treasures, but now every Earth Immortal in the sect has a treasure, all thanks to the Sect Leader or Four Treasures Peak. Additionally, he has taught them spells.

The Sect Leader has contributed so much, and giving a single treasure to him provoked no objections.

"Huh? Change appearance? Alter the aura and even the Immortal Mountain; isn't it just like the mask given by the Killer God?" Cao Zhen took the mask. The masks given to assassins by the Killer God are not

treasures. If every assassin in the Killer God's organization received a treasure, they would go broke. But the mask in his hand is a treasure. The biggest difference is, the mask from the Killer God only conceals appearance, while the human skin mask he holds can transform into any person's likeness.

Transform into someone else's likeness?

If someone else obtained this treasure, it might not have much use, but for him, he could easily win without fighting; at the very least, he could transform into any disciple under him... But not Ling Xi, he probably couldn't disguise himself as Ling Xi; he should be able to impersonate anyone else.

He could even impersonate Star Lord Hao Yue; he had connections with Star Lord Hao Yue before.

If all else fails, he could disguise himself as a stranger. He could just cultivate a spell that he hadn't used before; anyway, he knew enough spells.

Not enough spells?

Anyway, with so many disciples' cultivation experiences, he could just acquire them.

Acquiring a spell doesn't take much experience.

Cao Zhen suddenly thought about various uses for the mask, and with a serious expression, he asked, "Who knows about the existence of this mask?"

"Only myself, Chief Tu, Peak Master Chen, and a few others know."

"Good, don't spread the word. This mask, I have great use for it." Cao Zhen stored the mask carefully.

Nie Jie nodded heavily, then asked, "By the way, Sect Leader, the Ten Thousand Enemy said that the two major Demonic Sect people have left, shall we recruit disciples?"

"Send out ten teams to recruit disciples." Cao Zhen nodded slightly, "By the way, I need to go out for a while; while I'm away, ensure that either Ling Xi or Xiang Ziyu stays within the Hundred Peaks Sect."

His Prosperous Age Picture Record can now be depicted; he just hasn't traversed the entire Guardian Immortal Imperial Dynasty yet. Now with the mask, he can go out and explore the whole dynasty.

Nie Jie widened his eyes. He knew his Sect Leader liked to roam, but as soon as he handed the mask to the Sect Leader, the Sect Leader was ready to leave?

This...

Suddenly, he felt like giving the mask to the Sect Leader might not have been the best decision.

Cao Zhen quickly called upon Ten Thousand Enemy; he couldn't be sure whether there were other forces watching the Hundred Peaks Sect around them, so he had to let Ten Thousand Enemy use the Earth Escape Technique to take him away from here.

Chapter 1518:

After Cao Zhen and the group of Wanrendis left, he put on a mask and, with a thought, quickly transformed into another appearance. Then, he unleashed his immortal power and flew towards the distance.

In fact, when he initially left the Hundred Peaks Sect to experience the world in the Guardian Immortal Imperial Dynasty, he had already traveled to many places within the Dynasty, yet he never completed the journey through the entire Dynasty.

Moreover, though these years have passed, it might not seem long for cultivators, but for mortals, fifty, almost sixty years, is indeed a very long time.

This time, Cao Zhen did not enter every city and village within the Guardian Immortal Imperial Dynasty as he had before, posing as a mortal.

He flew with astonishing speed in the direction ahead, passing over one city after another, soaring over one great mountain after another.

While flying, an idea struck him and he connected with Xiang Ziyu through China Cloud.

"Zi Yu, nowadays, aren't you staying in the Hundred Peaks Sect?"

Xiang Ziyu was busy studying his treasure, contemplating how to modify it, when he suddenly heard his master's voice, and was taken aback, saying absentmindedly, "Right, I am researching my treasure and won't go out. What's up?"

"Good, then obediently stay on the Four Treasures Peak. It's best not to see anyone and to have your senior brothers and sisters say that you've left the Hundred Peaks Sect."

Xiang Ziyu was completely bewildered: "Master, what are you up to?"

"It's nothing. My identity is too sensitive, and going out might attract the suicidal attacks from You Sha Society members targeting your master. It's not that I'm afraid of them; it's mainly that I don't have time to handle their troubles.

So, I need to borrow your identity."

"Borrow my identity? Master, we have so many disciples on Four Treasures Peak. You can use Bei Yan, Little Zhu Peng, or Wanrendi's identity. Why choose mine? Master, I'm the protagonist. There's no harm in me going out, but if you pose as me, it's very dangerous."

Cao Zhen immediately got angry: "Use your junior disciples' identity? Do you think it's suitable for me to impersonate Little Zhu Peng?"

Xiang Ziyu thought about Little Zhu Peng's mannerisms and usual habits and shook his head: "Master, you can't pull it off."

"And Little Bei Yan, do you think your master at this height can impersonate Little Bei Yan?"

"No way." Xiang Ziyu shook his head without thinking. Although Little Bei Yan had grown taller, he was still short, "But Master, Wanrendi can work!"

"Your junior Wanrendi is always wandering around. How can I impersonate him? If people find two Wanrendis outside, it will immediately point to a problem. Besides, your junior's combat strength, if I were to clash with someone, should I fight or flee? Could you really let your master flee at first sight?"

Cao Zhen initially thought it possible to impersonate his disciples, but ultimately found that only impersonating Xiang Ziyu fit the situation.

"Alright, then. It will take me several years to return to the Hundred Peaks Sect. You and your senior siblings must take care of the Sect." With that, Cao Zhen ended the connection with Xiang Ziyu.

He realized a problem: the sects within the Guardian Immortal Imperial Dynasty also belonged to the Dynasty, so when he sketched, he could naturally include all these sects.

However, he wasn't clear on what other sects were like, so he needed to go in and see.

Using a strange face, people definitely won't let him casually enter to observe, so he had to use Xiang Ziyu's identity.

Soon, Cao Zhen flew to the Sun and Moon Sect.

Nie Jie once said that among the ten immortal sects in the Guardian Immortal Imperial Dynasty, the Sun and Moon Sect was relatively less affected by the Eastern Province. Most disciples recruited by the Sun and Moon Sect were able to join successfully.

Previously, he really hadn't visited the Sun and Moon Sect; at that time, the temporary Sect Leader was Qin Yao. He also didn't know who currently held authority in the Sun and Moon Sect.

Since the connection between the Eastern Province and Eastern Wasteland, the significant change in the various immortal sects of the Eastern Wasteland was obvious at the mountain gates. Previously, only a few disciples were casually arranged to guard the mountain gates.

But since the Eastern Wasteland connected to the Eastern Province, every immortal sect had to dispatch many high-combat disciples to guard the mountain gates. In case of an attack, they could immediately activate the Mountain Protection Array.

Cao Zhen flew rapidly, and even before reaching the Sun and Moon Sect's gate, he sensed two Earth Immortal Realm presences from the gate.

Almost simultaneously, the other party noticed an Earth Immortal Realm approaching.

"Be cautious, all disciples remain alert. If the situation appears wrong, immediately activate the Mountain Protection Array!"

From the mountain gate, two Earth Immortal Realms looked warily at the incoming figure.

Cao Zhen also glanced over, seeing unfamiliar faces—these two Earth Immortal Realms did not recognize him.

At the mountain gate of the Sun and Moon Sect, among the two Earth Immortal Realms, one elderly man with slightly graying hair respectfully raised his hand in a greeting, "Dao Companion, what business brings you to our Sun and Moon Sect?"

"What business? No business, no business, nothing of great importance." Cao Zhen waved his hand repeatedly, "I'm just here for a casual look."

"Casual look?" The Earth Immortal Realm on the opposite side was instantly baffled. It was an immortal sect, after all; was there any logic in casual viewing? What kind of talk was that? Besides, we don't know who you are. You say you're here to look, but can we really let you look?

Just as the elder wanted to speak, a disciple at the Golden Core Stage beside him saw the visitor's appearance, and quickly reminded, "Elder Sun, this is Xiang Ziyu from the Hundred Peaks Sect."

Chapter 1519:

"Xiang Ziyu!"

"People from the Hundred Peaks Sect!"

The faces of the two Earth Immortal Realms immediately showed a complex expression when they heard the voice.

They naturally knew the Hundred Peaks Sect, but the Hundred Peaks Sect they knew was completely different from the one they were aware of after waking up.

The Hundred Peaks Sect he knew, to be honest, although the Hundred Peaks Sect and their Sun and Moon Sect were both one of the Ten Great Immortal Sects of the Guardian Immortal Imperial Dynasty, he thought the Hundred Peaks Sect was still slightly inferior to their Sun and Moon Sect.

He also knew that the Hundred Peaks Sect had later produced a reincarnated powerful being, but could a reincarnated powerful being truly take a sect as his root?

Moreover, even if it was a reincarnated powerful being, how much could it change?

But he never expected that, after he awoke, the whole world had changed and was completely different from what he knew.

The Eastern Wasteland had connected with the Eastern Province, to say the least, and now in the Guardian Immortal Imperial Dynasty, although people still mentioned the Ten Great Immortal Sects, the Hundred Peaks Sect had become the strongest among them!

It was acknowledged as the strongest Immortal Sect, far surpassing the other nine Immortal Sects, and in the eyes of some people in the Eastern Province, the remaining nine Immortal Sects together were inferior to the Hundred Peaks Sect.

All of this was because of Cao Zhen.

When he found out about what Cao Zhen and the Hundred Peaks Sect had done, he was astonished.

Killing people from the Eastern Province Grand Sect and even making them afraid to retaliate, Cao Zhen and the Hundred Peaks Sect must have gone mad!

Although Cao Zhen and the Hundred Peaks Sect were formidable during the Minor Era of Inversion of Heaven and Earth, what about after it ended? Once these Earth Immortal Realms awoke, wouldn't the Hundred Peaks Sect be afraid of their sect being annihilated?

However, what happened next made him doubt if his understanding of the Immortal Cultivation world was completely wrong.

The Hundred Peaks Sect actually withstood the attack of the Void Breaking Sect, not to mention that they even caused the Void Breaking Sect to be destroyed because of attacking the Hundred Peaks Sect. Recently, the other two major Demonic Sects in the Eastern Province joined forces to attack the Hundred Peaks Sect and surprisingly failed.

It is said that within the Hundred Peaks Sect, almost all Earth Immortal Realms possess Yellow Level spells, and these Yellow Level spells are all different!

The Sun and Moon Sect themselves have few Yellow Level spells, how could the Hundred Peaks Sect have so many? These Yellow Level spells must have been taught by Cao Zhen!

What kind of reincarnated great ability is Cao Zhen exactly, to possess so many Yellow Level spells!

Now, Cao Zhen's disciple has come to their Sun and Moon Sect.

Although it was their first time seeing Xiang Ziyu, they had heard that among Cao Zhen's disciples, the most talented was Xiang Ziyu!

Even though nowadays many say that the strongest among Cao Zhen's disciples is Ling Xi, he had also heard that Ling Xi's strength was due to possessing two Yellow Level upper-grade treasures crafted by Cao Zhen. Without those treasures, Ling Xi would not be a match for Xiang Ziyu.

He just wondered what Xiang Ziyu was doing at their Sun and Moon Sect?

Elder Sun was puzzled but still cupped his hands towards Xiang Ziyu and said, "So it's the Hundred Peaks Sect's Daoist Xiang. We are naturally welcoming of Daoist Xiang to our Sun and Moon Sect, it's just that..."

He paused slightly and then politely said, "Daoist Xiang should know that now the Minor Era of Inversion of Heaven and Earth has ended. The spells of the Earth Immortal Realm are more miraculous than divine skills, and they have more methods. We cannot simply judge Daoist Xiang by his appearance to confirm that he is indeed Daoist Xiang."

"Oh, so I need to prove that I am who I am." Cao Zhen didn't expect that in his past life he hadn't encountered the situation of proving himself, but in this life, he faced such a situation. Well, actually, he needed to prove that he was his own disciple.

This was just too simple.

Cao Zhen chuckled softly, and a purple thunder appeared in his hand, a terrifying aura, seemingly capable of destroying the entire world, surged from his hand.

At the Sun and Moon Sect's mountain gate, everyone felt the terrifying aura of the thunder in Xiang Ziyu's hand and immediately tensed up.

Then, in their view, Xiang Ziyu raised his hand and waved it towards the distance. Instantly, a purple thunder as thick as a tree that three people could encircle fell from the sky to the second floor. The thunder was terrifying, shattering the void wherever it passed and revealing a spatial rift.

The thunder fell to the ground, producing a sound as if countless mountain ranges were exploding simultaneously.

In front of them, the ground exploded violently, endless dirt shot into the sky, turning the entire world gray, and then clear springs burst into the air from the giant pit created by the impact, the underground springs being forced out!

"Mysterious Rank Spell!"

"This power, this must be a Mysterious Rank Spell!"

"It is the Four Treasures Peak's most renowned Thunderbolt Technique!"

"It seems that not only Four Treasures Peak's disciples know this spell. It's said that the Hundred Peaks Sect's Li Ke also knows that Thunderbolt Technique!"

"Li Ke is Sect Leader Cao's Dao Companion, so it's normal. In short, only the Four Treasures Peak and those close to Sect Leader Cao would know this Mysterious Rank Thunderbolt Technique."

"This must be Xiang Ziyu without a doubt."

On the Sun and Moon Sect's mountain gate, Elder Sun cupped his hands towards Cao Zhen and said, "Daoist Xiang, we do this for safety's sake. Since it is Daoist Xiang, please swiftly enter the mountain gate."

Currently, only people from the Hundred Peaks Sect can wield the Mysterious Rank Thunderbolt Technique, so this person must be Xiang Ziyu without a doubt.

They also knew that the stability of the Eastern Wasteland nowadays had a great connection with the Hundred Peaks Sect. He had heard that when the Eastern Wasteland had just connected with the Eastern Province, those Demonic Sects from the Eastern Province invaded the Eastern Wasteland with the intent to obliterate the mountain gates, but due to the presence of the Hundred Peaks Sect, those Eastern Province Demonic Sects were driven away.

Chapter 1520:

So, the Sun and Moon Sect should also be grateful to the Hundred Peaks Sect. Since Xiang Ziyu came to their Sun and Moon Sect, they naturally had to welcome him.

Elder Sun personally accompanied Cao Zhen into their Sun and Moon Sect, and even notified their temporary Sect Hierarchy, Qin Yao, and others.

In fact, after the awakening of the Earth Immortal Realm in the major sects, their temporary Sect Leaders were replaced by those who had awakened in the Earth Immortal Realm, and the Sun and Moon Sect was no exception. Qin Yao was no longer the temporary Sect Leader.

However, Qin Yao was still being cultivated as the future Sect Leader, and she had now also broken through to enter the Earth Immortal Realm, so she came along to welcome Xiang Ziyu.

"Everyone, there's no need to be so polite, really. I just came to take a look," Cao Zhen casually said, "My master feels that I spend almost all my time on cultivation and exploring various relics, and am not familiar enough with other major sects and the entire Guardian Immortal Imperial Dynasty.

So my master let me go out to gain experience, to walk the Guardian Immortal Imperial Dynasty and visit the other major sects, so I really just came to the Sun and Moon Sect to look around. There's no need for anyone to accompany me."

"Just to look around? Taoist Xiang, not here to exchange ideas and discuss the Dao?"

They knew that back then, Xiang Ziyu discussed the Dao everywhere, defeating many people, and more terrifyingly, his master Cao Zhen, who won against everyone in the Eastern Wasteland in Dao discussions.

Moreover, the strongest aspect of Cao Zhen's Dao discussions was that he often enabled others to achieve enlightenment.

Enlightenment was something that could not be sought deliberately.

Although losing in a Dao discussion was embarrassing, what did it matter if you could achieve enlightenment?

Although it was Xiang Ziyu who came, and not Cao Zhen, as Cao Zhen's disciple, perhaps Xiang Ziyu could make people achieve enlightenment during a Dao discussion?

"No, no, my master specifically told me only to look around, not to cause trouble, and even more not to discuss the Dao. Although I would like to discuss the Dao with you all, it's difficult to go against my master's orders."

Cao Zhen once again casually brushed off the suggestion, what a joke, discussing the Dao with them? How long would that take? He planned to visit all the Immortal Sects in the Guardian Immortal Imperial Dynasty. If he had to discuss the Dao with each one, when would he finish visiting all the Immortal Sects?

If that really happened, perhaps by then, the Grand Preceptor would have awakened.

Upon hearing Xiang Ziyu mention his master Cao Zhen, the people of the Sun and Moon Sect could only sigh in regret.

"In that case, we can't force Taoist Xiang. However, Taoist Xiang, since you want to look around, doing so alone might be inconvenient. How about this... Qin Yao, you're of a similar age to Taoist Xiang and you got to know each other during the Guardian Immortal Imperial Dynasty's Gathering of Immortal Combatants. You're familiar with each other, so you accompany Taoist Xiang to have a look. We'll head back first."

The temporary Sect Hierarchy of the Sun and Moon Sect waved with a smile, indicating to the others to leave quickly. Qin Yao was the most outstanding disciple of their Sun and Moon Sect, with high cultivation, great talent, and beauty, most critically, she had not yet found a Dao companion.

It was heard that among the people of the Four Treasures Peak, except for the Peak Master Cao Zhen, who found two Dao companions, other disciples seemingly only Bei Yan had a Dao companion, the other disciples had not, including Xiang Ziyu.

Although Xiang Ziyu was an Ancient Immortal Body, an Ancient Immortal Body in this era can hardly cultivate.

But the existence of Peak Master Cao broke this assumption.

Didn't Xiang Ziyu still cultivate to the Earth Immortal Realm?

At the same level of cultivation, the Ancient Immortal Body is considered an invincible existence.

Moreover, among the Ancient Immortal Bodies of the Four Treasures Peak, Xiang Ziyu was also the most outstanding.

If Qin Yao could form a Dao companionship with Xiang Ziyu, it would be a wonderful thing!

Since Xiang Ziyu came, they shouldn't miss this opportunity.

If Qin Yao and Xiang Ziyu became Dao companions, in the future, when Qin Yao really took over the Sun and Moon Sect, how could Xiang Ziyu not help his Dao companion?

Cao Zhen also knew that the Sun and Moon Sect surely had some forbidden areas or the like and would not feel comfortable letting him roam alone. Having someone accompany him to look around was normal.

Subsequently, with Qin Yao's company, he toured the entire Sun and Moon Sect.

With his current cultivation, it wouldn't take a day to see the entire Sun and Moon Sect, but this time, he intended to draw the Prosperous Age Picture Record, so he observed carefully, taking three days to finish.

At night.

In the room prepared for him by the Sun and Moon Sect, he took out the Prosperous Age Picture Record and the Prosperous Age Brush, calmed his mind, and began painting. Slowly, the Sun and Moon Sect emerged on the Prosperous Age Picture Record.

Indeed, it worked!

Seeing the Sun and Moon Sect gradually appear and sensing his Prosperous Age Picture Record's Age of Prosperity Qi enhance once more, Cao Zhen's face suddenly lit up with delight.

With this, once he finished painting the Guardian Immortal Imperial Dynasty, recording each Immortal Sect, how powerful would his Prosperous Age Picture Record become?

Moreover, the stronger these Immortal Sects, the better.

No, when he returned, he had to find an opportunity to make a rule prohibiting people from the Eastern Province from entering the Eastern Wasteland to recruit disciples as it would be like undermining his foundation?

Also, the Immortal Sects of the Eastern Wasteland, he needed to make them stronger.

Perhaps, he could teach them some spells?

Cao Zhen's heart moved, and he had an idea.
