

My Master 1581

Chapter 1581:

"Should we go check the situation? After all, our Wansheng City has rules. If he causes trouble or acts violently outside the Rare Treasures Commerce Association, he's violating our city's regulations and should be punished accordingly."

The young City Lord heard the words but made no move to stand. Instead, he pointed to the teacup in front of him, signaling for the other to sit and join him while calmly saying, "He went inside the Rare Treasures Commerce Association to cause trouble for them. What does that have to do with us?"

On the contrary, the more they stir up chaos, the better for us. They..."

Before he could finish his words, a giant "W" suddenly illuminated the Void!

A gleam of joy instantly appeared on the young City Lord's face, he laughed wildly, "They crushed the Jade Pendant, this outcome is even better than I imagined, there couldn't be a better result."

The moment he finished speaking, he stood up, flying into the air, while shouting to the man with the bushy beard, "Hurry, gather all the Longevity Period experts in Wansheng City and head to the Rare Treasures Commerce Association."

Cao Zhen had already taken away a lot of herbs from the Immortal Grass Treasury, and being in the Longevity Period, he used immortal power. Though there were plenty of herbs in the Treasury, under his spell, each herb rose into the air and landed in the Qiankun Bag he brought along.

In the blink of an eye, the previously full Treasury had become empty.

He glanced at the entrance, his hands releasing an ominous immortal power, slamming down towards the Treasury.

The Treasury wasn't built with ordinary soil, but its sturdiness was mostly due to the Formation here.

Now, the Treasury's Formation has been destroyed at its Formation Eye, unable to exert its power.

With almost full force, Cao Zhen's attack shattered the entire Treasury, and dirt exploded all around. The flying rubble emitted a resonant sound as they flew far away, crashing into the walls of a distant house, instantly creating round holes!

Amidst the dust, Cao Zhen spread his silver wings, rising into the Void. From afar, the Earth Immortal Realm aura was rapidly approaching him, numbering over four hundred by a rough estimate.

They should be the Earth Immortal Realm experts from Wansheng City.

Cao Zhen did not leave immediately but turned to threaten the people at the Rare Treasures Commerce Association, "This is just a warning. Next time, if the Pinbao Business Association or any branch store is attacked, I'll destroy your branch stores!"

As soon as he finished speaking, his silver wings flapped rapidly, turning into a streamer appearing in the distance. Then a voice echoed, "Wansheng City is a place you can come and go as you please."

After the words, sounds of spells flying by could be heard from the Void.

But after just a brief moment, the sound disappeared, followed by figures flying from afar, landing in the Rare Treasures Commerce Association.

Among the people from the Rare Treasures Commerce Association, a slightly plump person looked at the incoming individuals, his gaze quickly falling on the purple-clothed middle-aged man, displeasently saying, "Young Mansion Master Wan, did your City Lord fall asleep that Wansheng City's rules have changed

?

Why did Cao Zhen come to our Rare Treasures Commerce Association to kill, and yet people from Wansheng City never showed up?"

"Did Cao Zhen come to kill?" The young City Lord Wan said looking at the fallen people on the ground, an exaggerated surprise appeared on his face as he exclaimed, "Were all these people killed by Cao Zhen? We only knew that Cao Zhen flew into the city, but we didn't know Cao Zhen came to kill.

So we did not stop him, after all, Wansheng City does not prohibit anyone from flying in.

We did not expect Cao Zhen to come here and kill. If we had known, we would surely have arrived early to capture and imprison him. But rest assured, the rules of Wansheng City will never change. Although Cao Zhen escaped this time, he will never be allowed back into Wansheng City. If he does intrude again, Wansheng City will immediately take action."

The Rare Treasures Chairman snorted heavily, his face showing a deep shade of blue. The young City Lord of Wansheng City must have done this intentionally; even when they chased Cao Zhen just now, they didn't really exert themselves, merely putting on a show.

Now he had no time to deal with the young City Lord of Wansheng City; his headache was how to handle this!

The performance of the Rare Treasures Commerce Association had declined under his management, but that was secondary; the main issue was that their Rare Treasures Commerce Association in Eastern Province had been invaded, a group of experts killed, and a whole Treasury of resources taken away.

How could he afford the loss of a whole Treasury's resources!

Moreover, how to repair the damaged reputation of their Rare Treasures Commerce Association?

If others learn that their headquarters was attacked, would they be tempted to target their Rare Treasures Pavilion in other cities?

When the Indestructible Period experts awaken, how should he explain?

He couldn't flee like Tao Zhenghe, could he?

His family is too deeply entangled with the Eastern Province branch of the Rare Treasures Commerce Association. If he fled, all his family members would die!

Moreover, even if he fled, where would he go?

Now, the only solution is to kill Cao Zhen before the Indestructible Period experts awaken, seize back those resources, and restore reputation.

But how to kill Cao Zhen with his current strength?

Currently, across the entire Eastern Province, perhaps only the Bleeding Tears Assassin of the Assassins possesses the ability to kill Cao Zhen.

Should he agree to the Assassins?

But the Assassins' asking price is too high.

Somewhere in Eastern Province, within a spacious underground palace, three individuals wearing robes, each masked, gathered together again.

Among them, the one in the blue robe spoke first again, "The Rare Treasures Commerce Association retaliated against the Pinbao Business Association just now. Cao Zhen immediately left the Fourth Dangerous Terrain, then slaughtered his way into the Eastern Province's branch of the Rare Treasures Commerce Association, committing massacres while seizing one of their Immortal Grass Treasures.

It's obvious Cao Zhen knows his Pinbao Business Association was retaliated upon by the Rare Treasures Commerce Association.

But how did he know since there's no way of communicating with the outside world from within the Dangerous Terrain?"

Chapter 1582:

Cao Zhen had just flown away from Wansheng City, and everything he did there had already been reported to the Assassins' Society.

Underground, the three temporary leaders of the Assassins' Society were quietly discussing Cao Zhen.

"Even in the Dangerous Terrain, our Assassins' Society can't immediately grasp the information we want. What kind of means does Cao Zhen have to know the outside news so quickly?"

According to our information, he had already entered the Dangerous Terrain, so it couldn't be someone from the Hundred Peaks Sect who entered the Terrain and conveyed the news to him.

Moreover, according to the investigation of the Wanxiao Sect, no one from the Hundred Peaks Sect has entered the Dangerous Terrain recently, so it couldn't be someone passing the message to him."

The person in the black robe spoke in a deep voice, "He doesn't have much to do with us, it's actually a good thing. Since he's around, someone will inevitably come to our Assassins' Society to hire us to assassinate him. We can also raise the price."

"Where is the Bleeding Tears Assassin?" suddenly, the purple-robed person spoke for the first time.

"Bleeding Tears Assassin? We don't know where he is, but his subordinate with our talisman and mask has been lingering outside the Fourth Dangerous Terrain. Presumably, he's in the Fourth Dangerous Terrain, and his subordinate, being too weak, hasn't entered it."

The blue-robed person looked at the purple-robed person in surprise, seemingly not understanding why they would inquire about the Bleeding Tears Assassin. In her view, it was normal for the Bleeding Tears Assassin to enter the Fourth Dangerous Terrain.

After all, it's a new Immortal Land, and Earth Immortal Realms from all over the Eastern Province probably want to enter and seek their own opportunities.

The purple-robed person nodded lightly, but didn't say anything further.

After Cao Zhen left Wansheng City, he didn't pause at all, activated the silver light wings, and returned to the Fourth Dangerous Terrain at the fastest speed. He then found a secluded spot, channeled mana into the key, and in the next instant, returned to the small thousand worlds of the Ten Thousand Immortals Sect.

"So soon?"

Linghu Gudu looked at Cao Zhen, who appeared in front of him all unscathed, feeling that he hadn't been gone for long, and now he was back?

Cao Zhen's face turned black instantly, what's it to you if I'm quick or not!

Before he could give his youngest disciple a piece of his mind, the voice of the Formation Spirit sounded: "Have you collected all the herbs?"

"Collected." Cao Zhen nodded, sighing, "The Rare Treasures Commerce Association is truly affluent. Not only are the herbs sufficient for your needs, they're enough for ten more people too.

This time, our Hundred Peaks Sect really won't be short on herbs."

While talking, Cao Zhen took out ten pill furnaces, waved his hand, and all the pill furnaces were ignited. He then took out one herb after another and threw them into the pill furnaces.

Behind him, Immortal Ruo Yun was stunned watching Cao Zhen's actions and exclaimed, "What are you doing?"

Cao Zhen turned around with a puzzled look, answering Ruo Yun matter-of-factly, "I've set up the pill furnaces and ignited their flames. Naturally, I'm doing alchemy, what else could I be doing? Couldn't possibly be barbecuing."

"No, why are you using ten pill furnaces for alchemy?" Immortal Ruo Yun pointed at the ten pill furnaces before Cao Zhen, utterly confused. As a reincarnated great ability, she was adept at alchemy too, but she had never seen anyone use so many pill furnaces at once.

"You probably haven't heard about how I did alchemy at the Rare Treasures Commerce Association's alchemy event. Once you know, you won't be so surprised. It's just ten pill furnaces, what's the big deal? You are now part of the Four Treasures Peak, you'll have to get used to your master and fellow disciples' remarkable undertakings."

While talking, Cao Zhen continued throwing herbs into the pill furnaces.

Behind him, Linghu Gudu felt there was something off about this statement. Ruo Yun's senior brothers and sisters? It seemed like only one disciple of the Four Treasures Peak was outside that scope?

Cao Zhen ignored the two new disciples and focused entirely on refining pills.

Immortal Ruo Yun, the longer she watched Cao Zhen's alchemy, the more she questioned her own understanding. She felt like her previous life's alchemy knowledge was completely upended. Was there really such a way to practice alchemy?

Casually tossing herbs into the pill furnaces, maintaining alchemy while still chatting with them.

Unconsciously, half a year passed by.

In that half-year, the world was quite peaceful, with nothing major happening.

It seemed that the major sects placed most of their experts and efforts on the suddenly appearing Fourth Dangerous Terrain. Other Immortal Lands usually received names fitting their dangerous traits.

But this Fourth Dangerous Terrain was unanimously referred to as just that.

The Rare Treasures Commerce Association appeared apprehensive, worried that Cao Zhen might actually target their Rare Treasures Pavilion, as they had already witnessed Cao Zhen's prowess once.

No Rare Treasures Pavilion could withstand Cao Zhen!

So they didn't seek trouble with the Pinbao Business Association again.

Indeed, the news of Cao Zhen raiding the Rare Treasures Commerce Association, looting one of their treasure vaults, and escaping successfully spread throughout Eastern Province.

People realized the Rare Treasures Commerce Association seemed a lot weaker than they had imagined.

And everyone knew the Rare Treasures Commerce Association was wealthy; within that half a year, several factions eyed it, ambushing the Rare Treasures Pavilion, forcing the Commerce Association to dispatch more experts to secure the pavilions in important cities, and intensively recruiting skilled individuals.

Chapter 1583:

But not knowing the deterrent, those Earth Immortal Realm experts also didn't really want to join their Rare Treasures Commerce Association. Without any other option, they had to improve the treatment for those experts, and only then were they able to recruit some Earth Immortal Realm experts.

"The time should almost be up."

Cao Zhen calculated the time for the pill to form and started contacting his disciples through the China Cloud.

Soon, disciples of the Hundred Peaks Sect received messages from their master.

"What's going on? Why is Master suddenly being so secretive, telling us that under any circumstances we must return to the Hundred Peaks Sect within half a year. But what we are returning for, Master doesn't say either." In the dangerous terrain, Little Bei Yan grumbled as he walked.

Suddenly, without any warning, the ground in front of him exploded, followed by a figure darting out from the ground.

"Senior Brother, Senior Sister, look what I've got." The invincible one boastfully took out a silver treasure bead.

Bei Yan and Duo Duo instantly widened their eyes.

"Unknown Immortal Demon Bead?"

"Where did you get that from?"

The invincible one became even more triumphant: "Of course, I snatched it. I saw two groups fighting over this thing, so while they weren't looking, I ran over and stole this treasure."

The others were instantly speechless. Along the way, it was always the invincible one responsible for scouting the path. After all, the Fourth Dangerous Terrain was truly too dangerous.

But this guy, the invincible one, would often scout and then disappear, and when he came back, he would always bring some treasures.

And these treasures, without exception, were almost all snatched from others.

Previously, they encountered a group on the road, and without a word, the others started a fight after seeing them.

They struggled for quite a while to escape, only to find out later that they were attacked because the invincible one had stolen someone's treasure.

"Unknown Immortal Demon Bead, this is indeed a good thing." Bei Yan remarked, turning to the invincible one with curiosity, "Junior Brother, why don't you just use this treasure? Open it; maybe you'll get a Heaven Rank treasure."

"No, I won't open it! I'm not Third Senior Brother, I'm not the protagonist, I can't open such Heaven Rank treasures." The invincible one looked at Bei Yan with disdain. Do you think I'm a fool? What if I open the Immortal Demon Bead and it explodes, killing me?

I'm not opening it!

Bei Yan had a smile on his face: "Junior Brother, if you won't open it, why not give the bead to Senior Brother?"

"No way. If I don't open it myself, I can take it back to Four Treasures Peak and give it to Third Senior Brother to help me open it."

"Your Third Senior Brother... I don't even know how your Third Senior Brother is doing. By the way, Master also said to leave the passage and go to another passage to notify our people from the Hundred Peaks Sect and have them return within a year."

Although the invincible one had the weakest combat power among the disciples of Four Treasures Peak, he was fast and proficient in various escape techniques. So even in danger, he could escape, which is why Cao Zhen asked him to inform the disciples of the Hundred Peaks Sect to prepare to return.

Adventuring in dangerous terrains, the duration of the adventure is really hard to say.

Spending one or two years in there is considered short.

Some people leave and are gone for ten or even a hundred years.

But fortunately, since this is a new dangerous terrain, after everyone enters to adventure, they generally return to consolidate their findings, map the explored areas, and create a new map.

In an extremely cold place, at this moment, Xiang Ziyu was entirely frozen into an ice sculpture, with Yin Yang Qi rapidly circulating within him to maintain his internal temperature.

"Master, I understand. I will definitely return within half a year. Please don't disturb my cultivation right now, I'm at a crucial moment..."

"Take care of yourself, and when you return to the Hundred Peaks Sect, I will send you on another trip." Cao Zhen didn't know how to advise this third disciple of his. This youngster was completely abnormal. After entering a more dangerous channel, he somehow ended up in a relic.

Entering relics should have been good, but after obtaining treasures from it, Xiang Ziyu saw this extremely cold place and then talked a lot about how the cold is Yin energy, and he could use it to enhance his Yang energy with some mixed-up theories. Then, he continuously sealed himself within ice layers to cultivate.

"What a pity, those people from Wansheng City went too quickly, and we didn't have time to raid the Rare Treasures Commerce Association's treasure vaults for more materials."

Cao Zhen sighed inwardly. Like when the Five Sounds Sect experienced their Sect Tribulation, they set up great formations everywhere to help combat the Heavenly Tribulation.

The Hundred Peaks Sect definitely doesn't have such resources.

Even though he established the Pinbao Business Association and earned some resources by selling pills, the association existed for too short a time and didn't have many resources.

Now, he can only borrow resources from others.

But who would lend so many resources to the Hundred Peaks Sect? The only way is to exchange with others.

And for the exchange, only a great teaching is appropriate.

Cao Zhen looked at the pill furnaces again, controlling the flame's temperature while adding some medicinal materials to several furnaces, and then through the China Cloud, he began to contact Immortal Bi Yue.

Chapter 1584:

The Great Teachings they were most familiar with, compared to the Hundred Peaks Sect, were the Dragon Chant Sect and Cloud Reaching Sect, with Dragon Chant Sect being wealthier.

Soon, a towering mountain range appeared in his sight, amidst which Immortal Bi Yue and several people dressed in Dragon Chant Sect attire were exploring.

Indeed, Bi Yue also came to this Fourth Dangerous Terrain.

After all, Bi Yue is someone who enjoys adventure, and with the emergence of a new Immortal Land, the Dragon Chant Sect could not possibly not send people.

"Bi Yue." Cao Zhen thought in his heart, and his voice had already sounded in Immortal Bi Yue's mind.

Bi Yue suddenly heard Cao Zhen's voice, and a look of joy immediately appeared on her face. Although she hadn't seen Cao Zhen in the previous period, Cao Zhen often used his special means to contact her.

Initially, when she first received Cao Zhen's special communication method, she was stunned. The distance between the Dragon Chant Sect and the Hundred Peaks Sect was not ordinary, yet Cao Zhen was still able to contact her directly and converse with her individually, a means she had never heard of before.

The only pity was that the conversation time was indeed too short.

Since Cao Zhen contacted her once back then, she requested Cao Zhen to contact her from time to time.

So when she suddenly heard Cao Zhen's voice, there was no surprise in her heart, and she calmly asked, "You have entered the dangerous terrain too, haven't you? Which dangerous terrain passage did you enter?"

Cao Zhen was slightly stunned for a moment, then said, "I also forgot which passage I entered, but we should not have entered the dangerous terrain through the same passage; otherwise, you should have already heard my news."

Bi Yue raised her eyebrows slightly, so did Cao Zhen do something earth-shattering again?

She was just about to inquire about Cao Zhen, and Cao Zhen's voice had already come again.

"Bi Yue, this time I am looking for you for serious matters," Cao Zhen asked with a serious face, "Does your Dragon Chant Sect lack spells?"

"Spells?" Bi Yue was momentarily stunned and then replied, "Our Dragon Chant Sect doesn't lack spells, why are you suddenly asking this question?"

"Not lacking?" Cao Zhen's heart thumped a bit but still opened up, "It's like this, I want to use spells to exchange some resources with your Dragon Chant Sect."

"Exchange spells for resources?" Hearing this, Bi Yue felt shocked in her heart and asked in full surprise, "What do you want to do? Why exchange spells for resources?"

Spells, after all, are the root of a Great Teaching, a Sect.

Cao Zhen hesitated for a moment but still spoke, "Because I obtained the Instant Millennium Pearl, I want to turn the Hundred Peaks Sect into a Great Teaching, so I need a lot of resources."

"Instant Millennium Pearl!" Immortal Bi Yue's eyes instantly widened, then she reacted, "So, you want to exchange spells for resources with our Dragon Chant Sect?"

Although our Dragon Chant Sect has enough spells, no Great Teaching would dislike having too many spells. However, specifically, what spells to exchange for resources, and how much resources can be exchanged, is not something I can decide alone.

How about this, I may leave, and you can now return to the Dragon Chant Sect."

"Now probably won't work, how about this, in half a year, you first come to the Hundred Peaks Sect, by then I can also send you a gift. Also, when you see people from our Hundred Peaks Sect, tell them that half a year later to return to the Hundred Peaks Sect, I have an announcement to make."

Soon, the time of conversation with Immortal Bi Yue had arrived, and Cao Zhen had to stop the communication.

As for the gift for Bi Yue, it was naturally a pill. The herbs he snatched from the Rare Treasures Commerce Association were sufficient, and he refined some pills.

Unknowingly, half a year had passed.

Cao Zhen had finally refined the pills, and at the moment the last pill flew into the jade bottle, the anxious voice of the Formation Spirit rang out: "You finally finished refining the pills? I have given you the Instant Millennium Pearl, and you shall absorb the Ten Thousand Immortals Sect, then fuse the Ten Thousand Immortals Sect with your Hundred Peaks Sect."

The Formation Spirit was truly anxious. As the voice fell, a transparent jade bead, which looked about the size of a thumb, flew to Cao Zhen's face. Meanwhile, the voice of the Formation Spirit rang again.

"You should inject your immortal power into the Treasure Bead, then activate the Treasure Bead, and you can absorb the entire Ten Thousand Immortals Sect; however, after absorbing the Ten Thousand Immortals Mountain, within seven days, you must integrate the Ten Thousand Immortals Sect with your Hundred Peaks Sect, or else the power of the Treasure Bead will dissipate."

"Seven days are enough."

Cao Zhen nodded, raised his hand to grasp, and absorbed the Instant Millennium Pearl, while facing the direction of the Ten Thousand Immortals Sect, his internal force rushed out and entered the Treasure Bead.

In the next moment, within the Treasure Bead, a burst of golden light suddenly erupted, as if the entire Treasure Bead had turned into golden light, pouring down from the skyline, enveloping the entire Ten Thousand Immortals Sect completely.

Cao Zhen felt this world tremble frantically, whether in the void or on the ground, everything was shaking fiercely.

Moreover, the Ten Thousand Immortals Sect was visibly shrinking rapidly, and shrinking even more.

Two hours later, the golden light had enveloped the entire Ten Thousand Immortals Sect, returning to the size of a thumb, and then it flew into Cao Zhen's hand.

Linghu Gudu glanced at Cao Zhen, then at the Instant Millennium Pearl in Cao Zhen's hand, expressing admiration on his face, "This Instant Millennium Pearl is truly miraculous. Such a large Great Teaching, yet it entered this Treasure Bead in such a manner.

Chapter 1585:

"Are we going back to the Hundred Peaks Sect now?"

The moment the last syllable dropped, the entire space began to shake violently. The void cracked segment by segment, the earth below continuously shattered, and the whole world started to collapse and sink.

"Well, whether we want to or not, we have to go back now. It seems the Ten Thousand Immortals Sect has been absorbed, and this micro-cosmos is about to collapse."

At this moment, many places in the Fourth Dangerous Terrain were affected, causing intense tremors.

With the appearance of the Fourth Dangerous Terrain, Earth Immortal Realm experts from the entire Eastern Province, Eastern Wasteland, and nearby Dongliang and Dongjiang rushed to the area, while others left continuously.

After all, it's a newly emerged dangerous area. The first group entered to test their luck, but there were truly dangerous places where they couldn't explore due to their small numbers.

Within the dangerous area, they couldn't communicate via the sect's chart or talisman; they could only leave the area to relay messages outside.

After leaving the micro-cosmos, Cao Zhen didn't delay. He quickly left the dangerous area with his two newly recruited disciples.

As soon as Fang Yi came out, he saw two familiar figures.

"Bei Yan? Why have you stayed here? Also, Bi Yue, you are here too."

Upon hearing his master's question, Bei Yan called out with a grievance, "Master, my junior brother and sister are too shameless! Didn't you say to let Wan Ren Di notify our Hundred Peaks Sect people to return first? But in the dangerous area, Wan Ren Di can't guarantee he can notify everyone."

So they decided to leave someone outside to inform our Hundred Peaks Sect people to return to the sect upon sighting them.

Then they left me here; they said Duo Duo is too beautiful, staying here might cause unnecessary trouble. If Zhu Peng stayed, it would be even more unreliable, so they went back."

He was truly aggrieved. Clearly, he wasn't the oldest or the youngest disciple, so why did such things always fall on him?

They left, fine, but Qiao Jingyao also went back, saying she wanted to take care of her disciples.

What on earth is this!

Moreover, while staying here, people often came to provoke him, even challenging him for various reasons.

It was obvious; they must have suffered at the hands of the Hundred Peaks Sect disciples in the Fourth Dangerous Terrain, especially due to that brat Wan Ren Di.

Though those people were unwilling to accept it, this place was too close to the Hundred Peaks Sect, and many saw that his master had returned to the Fourth Dangerous Terrain. They didn't dare to act as assassins directly, but they were displeased after being robbed, so they vented their anger on him.

If not for Immortal Bi Yue leaving the dangerous area and helping him stand guard here, he even doubted whether he would die in this place.

Cao Zhen nodded slightly: "I see. So, how many of our Hundred Peaks Sect disciples have returned now?"

"Master, most of the disciples have returned. I haven't seen any more of our Hundred Peaks Sect disciples exit for three days. Master, why are you calling us back, what's the matter?"

While Bei Yan was talking, he curiously glanced at Linghu Gudu by the side: "Linghu, you're here too? How come you ended up with master?"

Linghu Gudu didn't respond immediately to Bei Yan and instead glanced around. Besides them, there were some others waiting at the dangerous area's entrance.

Recalling their previous discussion, he deliberately sighed helplessly: "I had no choice."

He pointed at Immortal Ruo Yun beside him and said: "The two of us, and a guy named Dugu Qiubai, encountered people from the Weeping Blood Demon Sect in the dangerous area. Dugu Qiubai killed them, but many people saw it, thinking we killed the Weeping Blood Demon Sect people.

The Weeping Blood Demon Sect will certainly seek revenge. That guy Dugu Qiubai, with his strong power, entered a dangerous place; the two of us had no options, so we hid and then encountered your master."

After speaking, he paused and told Bei Yan, "Now, he is also our master because we've joined your Four Treasures Peak."

"What!"

Bei Yan was stunned. His master never mentioned accepting Linghu Gudu into the Four Treasures Peak. He then snapped back, looking at Linghu Gudu with disdain: "So, you didn't agree to join the Hundred

Peaks Sect when master invited you before. Now, you've provoked the Weeping Blood Demon Sect and had no choice but to join our Hundred Peaks Sect."

Many people around listened to Bei Yan's words, each with different expressions. Offending the Weeping Blood Demon Sect was indeed troublesome, and joining the Hundred Peaks Sect seemed reasonable since the sect also held grudges against the demon sect.

However, the Weeping Blood Demon Sect is a great teaching, while the Hundred Peaks Sect is only a small sect.

Currently, the Hundred Peaks Sect is powerful only because of masters like Cao Zhen within. Once the indestructible period masters awaken, the Hundred Peaks Sect won't be so powerful anymore.

Can Cao Zhen be stronger than those indestructible period entities?

By then, the entire Hundred Peaks Sect might be doomed, so joining the Hundred Peaks Sect isn't necessarily a wise decision.

Chapter 1586:

Immortal Bi Yue had no interest in Linghu Gudu; her gaze was always fixed on the woman beside him with a face full of heroic spirit. Cao Zhen had taken another female disciple, but he hadn't mentioned it to her.

Cao Zhen looked at Bei Yan and felt a bit of a headache. He surely needed to take Bei Yan back, let him cultivate in the Hundred Peaks Sect, and have him take pills.

But the problem is that not all the people from the Hundred Peaks Sect could return; someone needed to stay here and watch over this place.

Given the current situation, he could only look for someone to help.

He turned to look at Immortal Bi Yue.

Bi Yue's status in the Dragon Chant Sect was too important. Even if others in the Dragon Chant Sect did not know the identity of Saint Maiden Bi Yue, they knew what kind of existence her parents and teacher were. They would not allow Bi Yue to stay here alone.

When Bi Yue went out, there were always other disciples of the Dragon Chant Sect nearby. This time was no exception, so...

"Bi Yue, you know I need to take Bei Yan back for some matter. Could you have your Dragon Chant Sect people do me a favor? Let them guard this place for a while. If they see our disciples from the Hundred Peaks Sect, tell them to return to the Hundred Peaks Sect? Of course, it won't be too long. I will dispatch our disciples from the Hundred Peaks Sect to guard this place as quickly as possible."

All around, several Earth Immortals from the Dragon Chant Sect frowned immediately upon hearing this. What kind of request is this?

He wants us to guard this place?

We've heard that you are very strong, but no matter how strong you are, you are still a person of the Hundred Peaks Sect. We are from the Dragon Chant Sect, so why should we listen to you and help the Hundred Peaks Sect!

Most of them were Earth Immortals who had awakened after the reversal of the small epoch from the Thousand Caves. They had never met Cao Zhen before and were unfamiliar with him. Hearing his words now, one of the cultivators, with handsome features and an appearance of celestial grace, showed a look of displeasure and was just about to speak when Immortal Bi Yue's voice rang out.

"No problem, you all heard him, so lend a hand and guard this place. By the way, the disciples of the Hundred Peaks Sect may not necessarily be wearing their sect attire, so you can set up a wooden sign here stating 'Hundred Peaks Sect disciples, return to the Hundred Peaks Sect as soon as possible.'

After saying that, she looked at Cao Zhen and said, "Alright, can we leave now?"

For a moment, the faces of all the people became even darker. They were people of the Dragon Chant Sect, entities in the Longevity Period. To make them create a wooden sign with writing, standing guard here, did they still want any dignity?

The cultivator who had just been interrupted by Bi Yue couldn't hold back any longer and spoke, "Junior Sister Bi Yue, are you leaving here? Where are you going?"

Bi Yue turned back to glance at the other party and said matter-of-factly, "I will naturally return to the Hundred Peaks Sect with Cao Zhen."

Immediately, the surrounding cultivators of the Dragon Chant Sect showed increasingly strange expressions. You should be a member of the Dragon Chant Sect, how is it that you are going to the Hundred Peaks Sect, and it sounds like returning there?

You haven't even formed a Dao partnership with Cao Zhen yet!

Moreover, when your parents and your teacher awaken, they probably won't agree to you becoming Dao partners with Cao Zhen.

This...

Among them, an old man who looked quite advanced in age, his hair already silver, spoke up, "Nephew Immortal Bi Yue, you should know that we are actually here to ensure your safety.

After all, your identity is too special, and we also worry that someone might have ill intentions towards you. Now, if you're leaving, we really can't rest easy about your safety. We must follow you."

"Worry about my safety? Haven't you heard how powerful Cao Zhen is now? Being with him, what danger would there be? Enough, no need to say more. Cao Zhen and I are leaving to discuss important matters concerning our Dragon Chant Sect. Staying here is also working for our Dragon Chant Sect. Once I return, I'll report back to the Hierarch and credit you for your efforts."

Bi Yue's face turned cold as she sternly looked at them and said, "However, if you leave, it will ruin major affairs of our Dragon Chant Sect!"

After saying this, she gestured for Cao Zhen to fly away with her.

The people behind them watched as Immortal Bi Yue flew off, each one sighed helplessly. The Hundred Peaks Sect is such a small sect, what kind of discussions can they have with their Dragon Chant Sect!

"Alas, who knows when those elders will wake up; for now, we still can't control Bi Yue!"

"Indeed, Bi Yue is simply too willful."

"What do we do?"

"What do we do? What else can we do but look for a stone and carve words on it? Otherwise, could we really leave? Imagine the consequences of offending Bi Yue."

Helplessly, they could only continue staying here.

Though, they were also curious; the Fourth Dangerous Terrain had just opened, and this was the best opportunity to explore it.

Why weren't the people from the Hundred Peaks Sect entering the dangerous terrain, but instead were leaving it to return to the sect?

What on earth is the Hundred Peaks Sect up to?

Not to mention, the Fourth Dangerous Terrain has been open for a year. Even if it were to be a hundred years or a thousand years, it would still be an Immortal Land that has just opened.

In the void, Cao Zhen and the others were flying swiftly towards the Hundred Peaks Sect. As they flew, Bi Yue was curiously observing Immortal Ruo Yun.

She was clearly curious about who this person was, yet she refrained from asking.

And Cao Zhen showed no intention of introducing her.

Chapter 1587: After modification

Now everyone is already in the Earth Immortal Realm, and their flying speed is much faster than before.

However, in two days, they had already flown to the Hundred Peaks Sect.

Compared to the experts of other sects who have entered the Fourth Dangerous Terrain, the elders of the Hundred Peaks Sect have already returned one after another.

Everyone truly doesn't know what Cao Zhen is planning. Many people are even worried whether some force is attacking their Hundred Peaks Sect. During this time, there have been at least four Earth Immortal Realm guards stationed at the mountain gate of the Hundred Peaks Sect, and the formations of the Hundred Peaks Sect are all ready to be activated at any moment.

Suddenly, from the distant void, a sound of breaking through the air came. Disciples of the Hundred Peaks Sect looked up, and a familiar flying boat appeared in their sight.

"That flying boat, it's the Sect Leader's flying boat, the Sect Leader has returned!"

"It's the Sect Leader!"

Amidst the cheers, a cool voice rang out: "Do not be careless, flying boats can also be imitated."

Liao Youdi, however, looked warily at the flying boat.

Fortunately, in the next moment, the flying boat was retracted from the void, and then Cao Zhen's figure appeared in everyone's sight.

Cao Zhen glanced at the Hundred Peaks Sect's Mountain Protection Array, which seemed ready to activate at any moment and waved his hand at the people emerging from the mountain gate, saying, "There's no need to be so tense. I called you back not because someone is going to attack the Hundred Peaks Sect, but because I have a significant announcement to make."

After speaking, he looked up at the entire Hundred Peaks Sect, gathered mana into his vocal cords, and loudly announced, "All disciples of the Hundred Peaks Sect, gather at the Immortal Gathering Peak in two hours. I have a significant announcement."

The voice echoed throughout the Hundred Peaks Sect, clearly reaching the ears of every disciple.

"The Sect Leader has returned?"

"Isn't this the first time the Sect Leader has said there is a significant announcement?"

"What on earth could it be that requires all the disciples of the Hundred Peaks Sect to gather?"

"Yes, previously the Sect Leader asked all the Earth Immortal Realm cultivators in the Fourth Dangerous Terrain to return and those outside to return to the sect within a year. Now it's roughly a year's time, probably also for this significant event."

The disciples within the Hundred Peaks Sect were filled with questions. What exactly does the Sect Leader want to announce?

On the Vermilion Bird Peak, while giving instructions to the disciples to prepare to go to the Immortal Gathering Peak, Tu Zhuque looked at Li Ke and asked, "Ke, what exactly does Cao Zhen want to do? Why such a grand arrangement, gathering all the disciples?"

Li Ke gently shook her head and said, "The disciple doesn't know."

"Didn't he tell you anything? Ke, I'm not blaming you, but this time, what you did was not quite right. You should actually have gone with the people from the Four Treasures Peak."

As Tu Zhuque walked out, he was educating his disciple, "How many years have you been with Cao Zhen? How can you keep delaying? This time, even if he is the Sect Leader, I will make him explain to me when you will hold the Dao Companion Ceremony!"

Within the Hundred Peaks Sect, apart from a necessary portion of disciples guarding the mountain gate, everyone else was gathering towards the Immortal Gathering Peak, including the original four Earth Immortal Realm cultivators at the gate.

This time, Cao Zhen did not return to the Four Treasures Peak but flew directly to the Immortal Gathering Peak.

Soon, disciples from the Hundred Peaks Sect, including everyone from the Four Treasures Peak, flew to the Immortal Gathering Peak.

Cao Zhen glanced at the position of Ling Xi and several others, then turned to Immortal Bi Yue and several others and said, "You first go to the Four Treasures Peak area, we'll return to the Four Treasures Peak later."

Upon hearing his words, Immortal Bi Yue and Bei Yan flew to the area where the people of the Four Treasures Peak were located.

Although the Four Treasures Peak now has ten disciples, the Hundred Peaks Sect has developed rapidly in recent years, recruiting a large number of disciples, yet the Four Treasures Peak remains the peak with the fewest disciples within the Hundred Peaks Sect.

Ling Xi, Yan Yourong, and others were already familiar with Linghu Gudu. For a moment, they curiously asked, "Linghu Gudu, why did you come to our Hundred Peaks Sect?"

Before Linghu Gudu could speak, Bei Yan quickly chimed in, "Everyone, don't address Ling like that anymore. Now, we should call him Junior Brother Linghu."

"Junior Brother?" Everyone was momentarily stunned.

Linghu Gudu nodded and replied, "Yes, I am now the tenth disciple of the master."

"Wait, the tenth?" Xiang Ziyu, with an expression as if afraid of being bullied for his poor math skills, looked at Linghu Gudu and said, "Aren't you supposed to be the ninth disciple of the master? Even though because of Little Yin, the master likes to call the eighth disciple 'Little Ninth,' but in reality, 'Little Ninth' is the eighth disciple. You should be the ninth, right?"

"No, I am the tenth disciple." Linghu Gudu looked at Immortal Ruo Yun beside him and introduced her, "This is Ruo Yun; we joined the master together."

"Huh?" Yan Yourong looked at Immortal Ruo Yun beside her with a strange expression and asked again, "She is the ninth disciple, and you are the tenth disciple?"

All around, the disciples of the Four Treasures Peak suddenly realized that the master had long known Linghu Gudu. If the master were to accept a disciple, Linghu Gudu should be the ninth disciple, and this Ruo Yun should be the tenth, right?

Besides, the master didn't like to accept many disciples.

The acceptance of Linghu Gudu could be understood since they had known each other for a long time.

But why did the master accept this woman as well, and moreover, before Linghu Gudu?

Linghu Gudu seemed to know what everyone was confused about, and he proactively explained, "Everyone, Senior Sister Ruo Yun is a transmigrated great ability, so she is naturally the ninth disciple, coming before me."

"What? A transmigrated great ability?"

Everyone on the Four Treasures Peak was instantly stunned!

Their voices were not low, and many disciples of the Hundred Peaks Sect around them were also curiously watching in the direction of the Four Treasures Peak. At this moment, upon hearing Linghu Gudu's words, they seemed to have been cast with a binding enchantment. Some had their mouths agape, others had wide eyes, and all were dumbfounded staring at that woman with an imposing aura.

They didn't hear it wrong, did they? This one is actually a transmigrated great ability!

A transmigrated great ability has actually joined their Hundred Peaks Sect and has even taken their Sect Leader as a master!

Can a transmigrated great ability also take a master?

The people of the Four Treasures Peak remained dazed for quite a while before snapping back to reality. If she is a transmigrated great ability, then naturally she should be ranked before Linghu Gudu.

Wait a minute, Ruo Yun is the ninth disciple, doesn't that mean this transmigrated great ability will call them senior brothers and sisters?

So, the situation now is that my junior sister is a transmigrated great ability?

Chapter 1588:

Immortal Gathering Peak, at the highest point.

Cao Zhen looked at the disciples below and began to examine his own flourishing age. Now his prosperous time encompassed the entire Guardian Immortal Imperial Dynasty, and he couldn't guarantee that every person within the Guardian Immortal Imperial Dynasty was wholeheartedly devoted to it.

However, at the very least, he had to ensure that everyone within the Hundred Peaks Sect was devoted to the Hundred Peaks Sect.

Although he had previously investigated the situation of the Hundred Peaks Sect and uncovered treacherous insiders, this time, it concerned whether the Hundred Peaks Sect could become a Great Teaching, so he reassessed the situation.

Slowly, a smile appeared on his face. Within the Hundred Peaks Sect, there were no traitors, and even the two disciples he had just accepted, Immortal Ruo Yun and Linghu Gudu, showed no signs of problems.

After confirming there were no issues, he looked towards the crowd and said loudly, "The reason I have urgently gathered you this time is because it concerns the development of our entire Hundred Peaks Sect."

As he spoke, a transparent, glowing pearl appeared in his hand: "This object is called the Instant Millennium Pearl."

As soon as he finished speaking, the disciples at the Golden Core Stage and those below wore expressions of confusion.

"What is the Instant Millennium Pearl?"

"I've never heard of such an item. Why is the Sect Leader suddenly mentioning this treasure, and saying it will affect the development of our Hundred Peaks Sect?"

"What is this?"

However, those in the Earth Immortal Realm were greatly shocked.

"What? The legendary Instant Millennium Pearl?"

"The Sect Leader actually obtained the Instant Millennium Pearl?"

"Sect Leader, did you get this from the Fourth Dangerous Terrain?"

Moreover, the Peak Masters of the Earth Immortal Realm began explaining to their disciples what the Instant Millennium Pearl was.

"The Instant Millennium Pearl is something that can directly engulf a Great Teaching.

Once a Great Teaching is swallowed, every day within the sect feels like passing a thousand years, enhancing millennia of accumulation. At the same time, spiritual energy within the sect disappears, replaced by celestial energy!"

"In one million years, one can become a Great Teaching. In other words, any sect that swallows a Great Teaching through the Instant Millennium Pearl can become a Great Teaching in under three years!"

Instantly, each disciple of the Hundred Peaks Sect understood why the Sect Leader was so solemn in announcing this matter.

Great Teaching!

They had never thought they could witness their Hundred Peaks Sect becoming a Great Teaching in their lifetime.

After all, their Hundred Peaks Sect was still far from becoming a Great Teaching!

But now, the Sect Leader told them their Hundred Peaks Sect was to become a Great Teaching, transforming into the Hundred Peaks Sect!

"Sect Leader, you called us here to join you in using the Instant Millennium Pearl to engulf a Great Teaching?"

"The Great Teaching engulfed by the Instant Millennium Pearl is a perished Great Teaching, but it cannot be one that has failed a Sect Tribulation, because after failing, the former Great Teaching no longer exists and has no retained history."

"So, we cannot engulf the Heaven Prayers Sect."

"The Void Breaking Sect was exterminated by the Weeping Blood Demon Sect, but it didn't fail a Sect Tribulation, meaning they still exist. We can engulf the Void Breaking Sect!"

The Hundred Peaks Sect disciples were not fearful of battle, yet they weren't war fanatics. But now, each disciple within the Hundred Peaks Sect was full of fighting spirit, shouting enthusiastically.

"Sect Leader, just give the order, and we will set out immediately!"

"Right, Sect Leader, no time to lose. Let's go now! I never thought I would live to see the day the Hundred Peaks Sect becomes a Great Teaching!"

"Sect Leader, you called us back for this— to engulf the Void Breaking Sect!"

Cao Zhen looked at the crowd, shook his head, and said, "The Great Teaching, I have already merged with, or rather, not swallowed, but merged with another Great Teaching!"

"What? The Sect Leader has already merged with a Great Teaching?"

"The only one we could have swallowed would be the Void Breaking Sect, right?"

"Strange, although the Void Breaking Sect was exterminated, if someone was merging with the Void Breaking Sect, there would have been news of it. Why haven't we heard anything?"

"I find it strange too, why we haven't heard anything."

Cao Zhen waved to the crowd, silencing their discussions, and said, "Not the Void Breaking Sect, but a Great Teaching within a special space. Also, as I mentioned, it's not about swallowing, but merging with another Great Teaching, and in the future, after we become a Great Teaching, our name will remain the Hundred Peaks Sect, with no changes.

We are only preserving part of the other's structures. Their intention is merely to survive, which doesn't affect our Hundred Peaks Sect in any way.

The urgency in calling you back this time is because, after merging with that Great Teaching, the spiritual energy within our Hundred Peaks Sect will transform into celestial energy, benefiting everyone as they cultivate.

I hope you can seize this opportunity.

Three days from now, I will formally merge with the Great Teaching. Well, I've said all I need to say. Regarding merging with the other Great Teaching, does anyone have any opinions? If there's any opposition to merging with the Great Teaching, you can speak up."

As soon as Cao Zhen's words fell, Beichen Ying's voice immediately sounded from below.

"Once we merge with the Great Teaching, our Hundred Peaks Sect won't take long to become a Great Teaching. It's an opportunity countless sects can only dream of, who would refuse it!"

"Indeed, such a chance must not be missed. Especially now, with the Minor Era of Inversion of Heaven and Earth just passed, the powers allowed by the Heavenly Dao are still limited, which will reduce the Sect Tribulation's might. This is the best opportunity for our Hundred Peaks Sect to become a Great Teaching!"

Chapter 1589:

"Yes, we absolutely cannot miss this opportunity! Even if it means death, I will make the Hundred Peaks Sect into a Great Teaching, become part of our Guardian Immortal Imperial Dynasty, and become the first Great Teaching in the history of the Eastern Wasteland!"

For a moment, the Peak Masters and disciples of the Hundred Peaks Sect all shouted in unison, and not a single person opposed becoming a Great Teaching.

Cao Zhen nodded slightly, and said in a deep voice, "Since this is the case, everyone return and make preparations. I will have Yi Sheng provide a large amount of resources for everyone's cultivation and also open the treasury of our Hundred Peaks Sect.

After the Great Teaching merges, everyone will cultivate with all their might."

After Cao Zhen and everyone else agreed, he got up and flew toward the Four Treasures Peak. While flying, he communicated with his sworn brother Chao Zi, as well as Li Ke, Lie Yan, Liao Youdi, and Shen Lid, saying: "Let's go to the Four Treasures Peak first."

The herbs he acquired from the Rare Treasures Commerce Association were abundant, and he had also refined some pills that could be consumed by disciples other than those of the Four Treasures Peak.

Chao Zi was his sworn brother, and naturally, he would save a portion for Chao Zi.

Li Ke's portion wouldn't be any less either.

Besides that, he aimed to enhance the strength of the Hundred Peaks Sect to the greatest extent possible.

This time, the pills were intended to directly improve cultivation realm.

Therefore, those who were awakened during the Longevity Period were not suitable for these pills.

The ones most suitable for these pills were those who had only been in the Longevity Period for a short time but had extraordinary combat power within the same cultivation realm.

Lie Yan was naturally needless to say; he was among the earliest batch of Ten Different Phenomena of Golden Elixir Great Perfection achievers in the Hundred Peaks Sect, and his achievements in the martial gathering competition of the Guardian Immortal Imperial Dynasty back then proved his natural talent and strength.

Liao Youdi, who joined the Hundred Peaks Sect along with Duo Duo and Zhu Peng, was also one of the most outstanding disciples in their batch. Liao Youdi's talent was considered top-notch throughout the entire Hundred Peaks Sect.

At the end of the Minor Era of Inversion of Heaven and Earth, she had reached a level very close to the Golden Core Period Limit, extremely close indeed.

And Shen Lid was someone whose talent was not inferior to Liao Youdi's.

Thus, he chose to let these disciples take the pill and break through together. Additionally, Qiao Jingyao, who often stayed at the Hundred Peaks Sect, would also be given the pills.

Qiao Jingyao had also almost reached the very edge of the Golden Core Period Limit.

Soon, everyone arrived at the Four Treasures Peak.

They had just landed when the sound of a dragon's roar rang out; as a massive silver silhouette came flying towards Cao Zhen.

Little Yin sensed Cao Zhen's aura and flew out.

But halfway through, Little Yin suddenly noticed something and swooped towards Immortal Bi Yue.

Immortal Bi Yue was suddenly faced with a figure over ten meters long rushing towards her, instinctively channeling immortal power to attack, but in the next moment, she relaxed her hands, and a gleam of joy flashed across her eyes.

"Little one, it's you."

Immortal Bi Yue looked at the silver dragon wrapping around her, reaching out to stroke its scale armor that reflected a blinding light in the sunlight, her eyes even slightly moist.

"Have you grown this big? This aura, you are already in the Earth Immortal Realm, fully healed. That's wonderful."

Cao Zhen watched the person and dragon, feeling a pang in his heart; he had miscalculated and forgotten about the little dragon. With that, Bi Yue would definitely take the little dragon away, right?

This was a huge loss!

No, he had to think of a way!

Cao Zhen's mind raced, while in front of him, Bi Yue looked over, moved, and said, "You healed the little dragon without telling me, wanting to give me a surprise, is that right?"

"Yes, yes." Cao Zhen nodded repeatedly. Surprise? I never intended to surprise you; I'm just afraid you'd take Little Silver away. No way, I can't admit to healing the little dragon.

"Well, although Little Yin has reached the Earth Immortal Realm, its body is still frail and not fully recovered."

It doesn't matter, I am an alchemist, and it was I who helped condition the little dragon's body; if I say it's not cured, it's not cured.

The little dragon heard Cao Zhen claiming it was weak and not fully recovered and was immediately unhappy, raising its head and shouting loudly, "I can speak now, don't think you can bully me like before. Who are you calling weak? My physique is perfectly fine!"

Cao Zhen's face immediately darkened. Are you daring to contradict me while I'm speaking? Are you getting bold?

"Not weak? Do you dare to say you're not weak with that short period of time? Where's Little Cai? Bring Little Cai out here, let's confront the facts!"

Little Cai is the Seven-Colored Splendid Bird from the Void Breaking Sect that was tricked initially.

While saying this, Cao Zhen also communicated to the little silver dragon, "Are you thinking of returning to the Dragon Chant Sect? Think carefully; when you return to the Dragon Chant Sect, it won't be like here at the Hundred Peaks Sect, where no one controls you.

Let me tell you, Little Cai is part of our Hundred Peaks Sect. If you return to the Dragon Chant Sect, I can't keep giving you Little Cai. Moreover, I initially planned to go out and catch some female strange beasts like the Phoenix or White Tiger for you. If you go to the Dragon Chant Sect, it's hard to say if anyone will catch you various female strange beasts there.

By the way, isn't your cultivation progressing slowly? I have recently refined some pills that can help you directly break through to the Longevity Period Peak, which I had intended to give you. However, now..."

Chapter 1590:

As soon as the Little Silver Dragon heard Cao Zhen's words, it flew away from beside Immortal Bi Yue and called out, "Actually, my body is indeed somewhat weak and still needs some nurturing."

Previously, it couldn't speak, but it wasn't foolish. It naturally understood that the reason Immortal Bi Yue handed it over to Cao Zhen and took it to the Hundred Peaks Sect was for Cao Zhen to help it restore its body.

Should its body recover, it was supposed to return to the Dragon Chant Sect.

However, Cao Zhen clearly did not want it to leave.

So, if it wanted to stay, it had to pretend that its body hadn't fully recovered yet.

"You haven't recovered?" Immortal Bi Yue eyed the Little Silver Dragon with a strange look; just like this, it seemed healthy no matter how she looked at it.

Cao Zhen quickly pulled Immortal Bi Yue aside and said, "It's not fully healed, of course, it's no major problem, but it needs to be nurtured little by little.

Let's first talk about serious matters. I am going to help you all enhance your power, and Little Silver, you too, will have your share."

As Cao Zhen spoke, he raised his hand and took out bottles of pills, tossing them to everyone.

"These pills are called the Heavenly Master Enhancement Pills. After taking them, you can enhance your cultivation base."

Heavenly Master?

Immortal Ruo Yun's eyes immediately showed a shocking look. What kind of existence dares to call themselves a Heavenly Master!

Could this be the inheritance of Master Cao Zhen's past life?

After giving these pills to everyone, Cao Zhen took out a separate bottle and tossed it to the Little Silver Dragon.

Humans and dragons are naturally different, and the pills refined for them are different as well.

Then, she took out five bottles of pills and tossed them towards Ling Xi, Yan Yourong, Xiang Ziyu, Bei Yan, and Duo Duo.

"These are the Deception Pills. Now that you have entered the Earth Immortal Realm, to further enhance your cultivation base with pills, you must first take the Deception Pills."

As for the Deception Pills, pills above the Earth Immortal Realm cannot be deceived by the Heavenly Dao, so one must use the Deception Pills!

Deception Pills?

Immortal Ruo Yun watched Ling Xi and the others, who had no hesitation and directly took the pills, feeling turbulent waves surging in her heart. When she was in the small world of the Ten Thousand

Immortals Sect, Ling Hu Gudu told her some things about the Hundred Peaks Sect, and he also knew that there were five Ancient Immortal Bodies in the Hundred Peaks Sect.

The Ancient Immortal Bodies, in the era she was from, couldn't cultivate and break through.

She couldn't understand how Cao Zhen could enable five Ancient Immortal Bodies to break through to the Earth Immortal Realm.

And now, she finally found the answer.

All five Ling Xi and the others were Ancient Immortal Bodies, and now, they were taking one more type of pill than others, the Deception Pill!

The Deception Pill, deceives the Heavenly Dao, and then you take the pills to enhance yourself?

To be able to deceive the Heavenly Dao, what an unbelievable method!

Truly worthy of being a Daluo Golden Immortal!

Ling Xi and the others had lost count of how many times they had taken the pills given by their master. After the Deception Pill, they immediately swallowed the Heavenly Master Enhancement Pills given by their master.

Seeing everyone else take the pills, Immortal Ruo Yun also followed suit.

As the pill entered her mouth, an immense and boundless power surged forth, instantly coursing through her meridians and stirring her internal organs...

The next moment, Cao Zhen's voice came over.

"Steady your mind and circulate your cultivation technique."

He said this to those consuming his pills for the first time.

At the moment Cao Zhen spoke, Immortal Ruo Yun had already started her cultivation technique, guiding the efficacy of the pill into the route of her cultivation technique.

Behind her, an Immortal Mountain emerged, and it grew upwards at an astonishing speed.

Not just her, but behind everyone else, Immortal Mountains arose, and each of the Immortal Mountains together soared into the sky.

"Fifty zhang... sixty zhang... seventy zhang..."

When the effects of the pills were fully absorbed, among them, Xiang Ziyu and Immortal Ruo Yun's Immortal Mountains both exceeded eighty zhang, nearing ninety zhang!

They had just taken the pills, breaking into the limits of the Longevity Period.

If they continued cultivating, their Immortal Mountains would undoubtedly grow again!

Xiang Ziyu looked up at Immortal Ruo Yun, whose Immortal Mountain was nearly as tall as his own, with a look of admiration on his face: "Not bad, indeed, this is the fate of a protagonist. As a protagonist, there will always be one or two people around me who can rival me in the early stages, driving me to grow further."

Immortal Ruo Yun was completely dazed. In her past life, she had also taken pills that could rapidly increase her cultivation, but those pills only gave limited enhancement. How could they compare to these pills which enhanced her so much?

From the Early Earth Immortal Realm, she directly broke through to the Peak Earth Immortal Realm!

In the world, are there really such pills?

If such means were to spread, all the great teachings in the world wouldn't be able to remain calm.

This is a direct enhancement of cultivation, and a great one at that.

This time, Cao Zhen had helped dozens of people enhance their cultivation. If he refined more pills, does it mean he could create as many experts as he wanted?

Of course, the resources consumed by such pills must be extremely terrifying.

But compared to the effect of the pills, what does more consumption of resources matter!

Ling Hu Gudu felt the power he now possessed, feeling a sense of being in a dreamlike unreality: "Did I just reach the peak of the Longevity Period? This can't be fake, right? This enhancement is too fast, this... ouch!"
