

## **My Master 1591**

Chapter 1591:

He suddenly let out a painful shout. Beside him, Little Beiyan, at some unknown time, had run up to him and kicked him.

Linghu Gudu immediately turned his head, looking at Little Beiyan with annoyance, and shouted, "Why did you kick me?"

Bei Yan, with a look of "it's for your own good," shouted, "Don't you feel unreal, like you're in a dream? I kicked you, and you felt pain, so now you know you're not dreaming, right? Junior brother, no need to thank senior brother."

"You... Did I ask for your help?" Linghu Gudu looked at Bei Yan, who was half a head shorter than him, and felt a sudden urge to spar with him properly.

Now he finally understood why the people from Four Treasures Peak were so strong.

With such a master and such pills, it's hard not to become strong!

To think he used to believe these guys were such geniuses, it turns out they were just using the pills given by the master.

He really hit the jackpot this time!

If he had known earlier, he wouldn't have refused when his master asked him to join the Hundred Peaks Sect.

Immortal Bi Yue was completely stunned. Could there really be such miraculous pills in the world? Even their Dragon Chant Sect had no such pills, nor any records of them!

Moreover, Cao Zhen refining so many pills was obviously to help the Hundred Peaks Sect enhance their strength to handle the upcoming Sect Tribulation.

Among them, the only one not an outsider to the Hundred Peaks Sect was herself.

After everyone had thoroughly digested the efficacy of the pills, Cao Zhen finally spoke, "Although I can provide you with pills to boost your cultivation base and reach the peak of the Longevity Period,

I cannot directly enhance your spells; you still have to cultivate your spells on your own. Especially you, Xiang Ziyu. I will impart to you some more spells, for you to cultivate well.

Besides, your swordsmanship, knife techniques, and combat skills also need to be cultivated on your own.

Furthermore, while you may have reached the peak of the Longevity Period, you have not yet reached its limits. This includes all five of you with Ling Xi; you can still continue cultivating.

This will all depend on your efforts. Next, after we merge that Great Teaching with our Hundred Peaks Sect, I have matters to discuss with Bi Yue at Dragon Chant Sect and with Xiang Ziyu; you too need to visit the Yin Yang Sect and the Cloud Reaching Sect. It would be best if you could invite a few masters from these two Great Teachings to help us with the Heavenly Tribulation."

For the Sect Tribulation, ten people can be invited to help with the tribulation; even though the invited may choose treasures, he still insists on inviting experts to help.

After all, with each more expert, the Hundred Peaks Sect gains a greater chance of successfully overcoming the tribulation; with each added strength, the losses of Hundred Peaks Sect can be reduced a bit.

He cannot trust inviting just anyone, so now the only people he could invite were from the other sects of the Guardian Immortal Imperial Dynasty as well as the Dragon Chant Sect, Yin Yang Sect, and Cloud Reaching Sect.

After all, both Dragon Chant Sect and Yin Yang Sect hold shares in the Pinbao Business Association.

And Xiang Ziyu is an honorary elder of the Cloud Reaching Sect.

As for the major sects in the Eastern Wasteland, their strength naturally cannot be compared with those of the great Immortal Sects.

Although Star Lord Hao Yue and Mad Axe are powerful reincarnations, they have just recently become Earth Immortals, and they too need time to gradually break through.

Their strength is still not on par with those experts from the Great Teachings, so he invited the experts from the Great Teachings to assist with the tribulation.

Cao Zhen paused slightly and looked at everyone, "As for the rest of you, your upcoming cultivation also depends on your own efforts. If there are any issues during cultivation, you may consult Ruo Yun.

Not only you, but if anyone else has any questions during their cultivation, they can also approach Ruo Yun for guidance."

Cao Zhen then looked at Immortal Ruo Yun and said, "You are now a member of the Hundred Peaks Sect. If anyone comes to seek your guidance, I hope you will instruct them well. Actually, teaching others is also a form of training for yourself."

This is the advantage of having a disciple who is a reincarnation of a powerful being. Even if he isn't around, he can leave teaching the experience of great immortal cultivation to the disciple.

Having once reached the True Immortal Realm, teaching a group of Earth Immortals would be more than sufficient.

"Yes, disciple has been enlightened." Ruo Yun immediately bowed to Cao Zhen.

Li Ke listened to Cao Zhen's arrangements, especially hearing him say he was going to Dragon Chant Sect with Immortal Bi Yue, and he sighed in his heart. Naturally, Cao Zhen's purpose in going to Dragon Chant Sect was to invite experts to help with the tribulation.

Soon everyone dispersed, either returning to their own peaks to cultivate or going elsewhere on Four Treasures Peak to train.

Immortal Bi Yue, however, followed Cao Zhen to the distance, whispering as they walked, "Are you sure you want to exchange spells for resources from our Dragon Chant Sect?"

In Dragon Chant Sect, although my status is special, I cannot say much about such major matters. After all, I am a member of Dragon Chant Sect.

In fact, considering the current strength of Hundred Peaks Sect, especially since your disciples can still improve, when the celestial energy descends, all members of your Hundred Peaks Sect can advance.

Also, don't forget, before the Sect Tribulation in every Great Teaching, there will be relics appearing. Even though your Hundred Peaks Sect became a Great Teaching because of the Instant Millennium Pearl, and needs to undergo a Sect Tribulation, that's no exception.

Chapter 1592:

If there are significant gains in the ruins, I believe that when the sect tribulation comes, we should be able to endure it."

"I know, the Hundred Peaks Sect should have confidence to endure the sect tribulation by then, but I still hope that our Hundred Peaks Sect's strength can improve a bit more."

Cao Zhen spoke, yet let out a long sigh.

"Sect tribulation is not so easily overcome.

At that time, we helped the Five Sounds Sect endure a sect tribulation, and the Five Sounds Sect accumulated bit by bit to become a great teaching, and they endured a hundred thousand-year tribulation.

Even so, the Five Sounds Sect suffered heavy losses, and when the Hundred Peaks Sect faces its sect tribulation, there will undoubtedly be losses too. It is unavoidable that there will be deaths."

Saying this, a conflicted expression appeared on his face as he said: "Do you know? Actually, at the very beginning, when I learned about the Instant Millennium Pearl, I also hesitated whether to use it.

Because I helped the Five Sounds Sect endure their sect tribulation, I realized how brutal it will be for a great teaching to overcome their tribulation.

I really don't want to see the disciples of the Hundred Peaks Sect perish.

But I also know that among everyone in the Hundred Peaks Sect, the dream of becoming a great teaching is that one day, the Hundred Peaks Sect can become a great teaching. Moreover, if the Eastern Wasteland didn't connect with the Eastern Province, then the Hundred Peaks Sect slowly becoming a great teaching wouldn't matter.

But we are connected with the Eastern Province, facing a more severe environment. Now, thinking it's a special period, our Hundred Peaks Sect can still rely on my deterrence to seem alright.

But what happens when the world completely recovers? When those in the True Immortal Realm awaken? At that time, will the Hundred Peaks Sect only rely on me alone?

The sect's survival space in the Eastern Province is truly harsh, and we in the Hundred Peaks Sect do not want to survive by kneeling down; only by becoming a great teaching, changing the fate, can the Hundred Peaks Sect survive better.

So, I still chose to let the Hundred Peaks Sect become a great teaching, after all, now it still belongs to a special period, becoming a great teaching now also means a weaker sect tribulation."

Immortal Bi Yue listened to Cao Zhen's inner confession, and couldn't help but feel a sense of heartache. Cao Zhen was originally a reincarnated great ability, and in his previous life, he was an incredibly terrifying reincarnated great ability. With his skill, he could roam freely in the Eastern Province, and no one would seek trouble with him.

But Cao Zhen chose an exceedingly difficult path.

She watched him speak, furrowing his brows, and tenderly stretched out her hands to smooth them, softly comforting: "Actually, your choice wasn't wrong. If your Hundred Peaks Sect continues to develop, then sooner or later one day, when your Hundred Peaks Sect reaches a million years, it will still face a sect tribulation.

At that time, it may not be such a special period, and more people may die."

"I know, but I still want to minimize the losses for the Hundred Peaks Sect, so I want to exchange some resources with your Dragon Chant Sect. As for spells, spells need someone to cast them to be considered spells, how can spells be more important than human lives.

At that time, what dies are living lives, they are not existing without emotion, they have their lives, their families, their partners, their brothers.

So, I hope to save as many lives as possible!"

Immortal Bi Yue stretched out her fair hands, holding Cao Zhen's hand, saying: "I understand. When the time comes, I will find a way to have them provide more materials. I will try not to let them extort us mercilessly.

However, if there are too many materials, I'm afraid that just Yellow Grade spells will not satisfy our Dragon Chant Sect; they will definitely demand Mysterious Rank spells."

"Mysterious Rank spells..." Cao Zhen sighed in his heart. He naturally didn't want to easily give away Mysterious Rank spells, but for the Hundred Peaks Sect, he could only exchange them by then.

The reason he said three days later was to start the combination of the Hundred Peaks Sect and the Ten Thousand Immortals Sect. On one hand, it was to allow the Hundred Peaks Sect's people to digest the news, and also to hope that some of the Hundred Peaks Sect's disciples might still return.

After all, by then the Hundred Peaks Sect will be filled with immortal energy, and the cultivation effects will greatly improve.

And within these three days, the Hundred Peaks Sect truly had seven Earth Immortal Realm returnees, everyone knowing the dangers of risky areas, most ventured together.

However, he also asked Nie Jie about it. Currently, the Hundred Peaks Sect still has sixteen Earth Immortal Realm members who haven't returned.

He didn't know if it's because some Earth Immortal Realm members didn't receive the message or because they unfortunately encountered an accident, and he could only hope it was the former.

Now, the time is almost up, and delay is no longer feasible.

Cao Zhen glanced at the sky, his body soaring high, flying to the center above the Hundred Peaks Sect. The Instant Millennium Pearl in his hand appeared again, beginning to rapidly enlarge as his internal immortal power flowed into it.

Below, everyone in the Hundred Peaks Sect was intently watching their sect leader.

Once they merge with another great teaching, their Hundred Peaks Sect will experience ten days like ten thousand years, and in about two years' time, they can face the sect tribulation.

As the Instant Millennium Pearl continued to enlarge, the void above everyone's heads shook wildly, slowly, a great teaching's shadow emerged from the void, completely enveloping the entire Hundred Peaks Sect, including the vast lands surrounding it.

Chapter 1593:

This is a Great Teaching!

The range of a Great Teaching is far larger than a single Sect!

At a rough glance, the Hundred Peaks Sect is only about one-fiftieth the size of the Ten Thousand Immortals Sect!

Below, many disciples of the Hundred Peaks Sect are seeing a Great Teaching for the first time, even if this is just a Great Teaching after being destroyed. But looking at the towering giant mountains and the broken walls, they still feel a sense of awe.

At the same time, around the Ten Thousand Immortals Sect, the golden light of the Instant Millennium Pearl completely envelops this area.

Within the Guardian Immortal Imperial Dynasty, many cultivators look up in surprise, gazing in the direction of the Hundred Peaks Sect.

"What is that?"

"The entire Hundred Peaks Sect is shrouded in golden light, what are they doing?"

"Did the Hundred Peaks Sect obtain some treasure? The Fourth Dangerous Terrain has just been opened? Before this, the Hundred Peaks Sect even summoned all the experts back, is it related to this?"

"What could achieve such a thing?"

Some people have already risen out of curiosity, flying toward the direction of the Hundred Peaks Sect.

Above the void of the Hundred Peaks Sect, the phantom of the Formation Spirit soon appeared beside Cao Zhen, its entire being trembling uncontrollably as it looked down at the Hundred Peaks Sect.

Finally, their Ten Thousand Immortals Sect is about to merge with a Sect.

After the merger, it will be able to continue to survive, and the Ten Thousand Immortals Sect can even be preserved.

It suppressed its own excitement with effort, reminding Cao Zhen as it looked at him: "Now, the entire aura of the Instant Millennium Pearl has merged with you. With just a thought, you can set any mountain of ours here at the Ten Thousand Immortals Sect where you want."

Saying this, it wanted to remind Cao Zhen, it's best to follow what they had discussed before, not to devour the Ten Thousand Immortals Sect in taking over, or it would unleash a full strike, perishing together with the Hundred Peaks Sect.

But just before speaking, it held back.

It believed that Cao Zhen was a smart person and wouldn't do such a thing, so it changed its words: "Your Hundred Peaks Sect's gate is indeed too small, I suggest using our Ten Thousand Immortals Sect's gate instead."

Cao Zhen's brow furrowed immediately: "If the gate becomes the gate of your Ten Thousand Immortals Sect, would it still count as our Hundred Peaks Sect? The gate must bear our Hundred Peaks Sect's gate. At worst, let the Ten Thousand Immortals Sect's gate connect with the Hundred Peaks Sect's, but the center must be the Hundred Peaks Sect's gate."

The Formation Spirit replied helplessly: "It's not impossible like that, but it would require the formation of our Ten Thousand Immortals Sect to be completely rearranged and connected again. Originally, it was just a simple restoration, but with your approach, it's not merely a restoration, but a transformation. Does your Hundred Peaks Sect have such top-tier Array Masters for a transformation?"

"Perhaps you forget that I am a reincarnated Great Ability. Formation, I will personally transform it." Cao Zhen said a sentence, then with a thought, the gate of the Ten Thousand Immortals Sect in the void fell far down.

The range of the Ten Thousand Immortals Sect is far larger than the Hundred Peaks Sect. Naturally, the gate cannot simply be where it originally was after falling. Subsequently, with another thought, the gate of the Hundred Peaks Sect also rose up and landed in the center of the Ten Thousand Immortals Sect's gate.

The Instant Millennium Pearl is truly wondrous. With just a thought from Cao Zhen, the mountains of the Ten Thousand Immortals Sect in the void can descend into the range he desires.

At the same time, the mountains within the Hundred Peaks Sect also moved according to his thoughts.

The Ten Thousand Immortals Sect is around fifty times larger than the Hundred Peaks Sect, so naturally, he didn't just let the mountains of the Hundred Peaks Sect stay in their original positions unchanged.

Under his thoughts, the distance between the mountains of the Hundred Peaks Sect begins to extend, and around each peak, new mountains appear, those are the great mountains of the Ten Thousand Immortals Sect.

As a result, the area of each peak has been greatly expanded many times over.

The Ten Thousand Immortals Sect, like the Hundred Peaks Sect, is mixed, and although the Ten Thousand Immortals Sect was destroyed, some inheritance still remains in these mountains, allowing the people of each peak to explore them.

Additionally, rivers and lakes appeared within the entire Hundred Peaks Sect.

He even specially left a range at the rear mountain, moving the Spirit Mountain and Ten Thousand Immortals Mountain, the most important of the Ten Thousand Immortals Sect, to the rear mountain.

Outside the Hundred Peaks Sect, the Earth Immortal Realms from the ten great sects of the Guardian Immortal Imperial Dynasty had not yet flown into the Hundred Peaks, but were stopped in their tracks.

Before them, a golden light, like a light shield, completely concealed the area ahead, and the golden light brought them an endless sense of unassailable authority.

Among the several Earth Immortal Realms, one elder exclaimed in amazement: "The aura of this golden light feels somewhat like the aura of the Heavenly Dao!"

"I have the same feeling, and I have been to the Hundred Peaks Sect before, but to my memory, this area does not belong to the Hundred Peaks Sect."

"Indeed, the Hundred Peaks Sect was never this large."

"But now the golden light must be related to the Hundred Peaks Sect."

"You simply can't see what is changing within this golden light, only hearing loud booms as if mountains are shifting, earth moving."

Among them, one person suddenly recalled something and exclaimed: "I know now, the Instant Millennium Pearl! I once befriended an Earth Immortal from the Eastern Province who showed me a book where it mentioned using the Instant Millennium Pearl, and this is exactly the way! The range of the entire Hundred Peaks Sect is expanding, they have absorbed a major teaching!"

"What! The Instant Millennium Pearl? The Hundred Peaks Sect, are they trying to become a Great Teaching?"

"Absorbed a major teaching? Where in the Eastern Province is there a major teaching for the Hundred Peaks Sect to absorb?"

The movement of merging the Ten Thousand Immortals Sect and the Hundred Peaks Sect is truly huge, and now because of the Fourth Dangerous Terrain, many Earth Immortal Realms from the Eastern Province will fly to the Eastern Wasteland, with more and more people realizing the changes in the Hundred Peaks Sect.

In no time, the news of the Hundred Peaks Sect using the Instant Millennium Pearl to absorb a major teaching spread throughout the Eastern Province.

Chapter 1594:

Under the influence of the Instant Millennium Pearl, the Hundred Peaks Sect expanded fiftyfold, and the terrain underwent significant changes. Fortunately, the area around the Hundred Peaks Sect was originally mountainous, with no cities or villages, otherwise, it would be troublesome if a city were absorbed.

After a whole day and night, only then did the Hundred Peaks Sect complete its merger with the Ten Thousand Immortals Sect.

"Is this the Great Teaching?"

"Is this our new Hundred Peaks Sect?"

"It's so enormous!"

"Is that our Lightning Peak? And those two peaks next to it, even taller than our Lightning Peak, are they also ours?"

"Beside our Immortal Pen Peak, there's actually a huge lake..."

"Such pure energy—no, this isn't just spiritual energy, this is immortal energy. All the energies within our Hundred Peaks Sect have transformed into immortal energy!"

Amidst everyone's astonishment, Cao Zhen's voice resounded.

"From today onward, one day inside our Hundred Peaks Sect is equivalent to accumulating a thousand years. During this time, the energy within the Hundred Peaks Sect will be immortal energy, lasting until the day we undergo the Sect Tribulation. Such an opportunity may only come once. Everyone, disciples, now, cultivate with all your might."

Upon hearing this, though curious about whether the descended Great Teaching held some treasures or special features, they knew time was limited. They suppressed their curiosity and returned to their peaks to begin cultivating.

Cao Zhen looked towards the formation spirit of the Ten Thousand Immortals Sect and spoke: "Now, your Ten Thousand Immortals Sect is part of our Hundred Peaks Sect. Once our Hundred Peaks Sect has passed the Heavenly Tribulation, you too will be the formation spirit of the Hundred Peaks Sect.

However, everything is contingent on our Hundred Peaks Sect surviving the Sect Tribulation.

If we fail the tribulation, both you and those from the Ten Thousand Immortals Sect who have not perished will die with us."

Previously, when merging the Hundred Peaks Sect with the Ten Thousand Immortals Sect, he discovered some living graves in the latter.

Clearly, not everyone in the Ten Thousand Immortals Sect had perished completely.

The formation spirit, aware of Cao Zhen's assertions, asked, "What do you want me to do?"

Cao Zhen responded solemnly, "I hope you can assist the Hundred Peaks Sect within this limited time. Since our sects are both diverse, perhaps you could pass on the Ten Thousand Immortals Sect's inheritance, especially its spells and cultivation techniques, to our disciples."

The formation spirit was silent for a moment and then slowly nodded, "Alright, I will observe the cultivation paths of the various peaks of your Hundred Peaks Sect, and then guide them to obtain the corresponding inheritance.

However, many of our Ten Thousand Immortals Sect's inheritances have already been lost, and I cannot guarantee that each peak will receive a complete inheritance."

"Pass on as much as possible."

After communicating with the formation spirit, Cao Zhen descended.

Everyone else needed to cultivate, but he could not. He still had to go with Immortal Bi Yue to the Dragon Chant Sect.

Moreover, his disciple Xiang Ziyu, after some cultivation time, would also need to visit the Yin Yang Sect and Cloud Reaching Sect.

However, before leaving, he needed to study the great formation of the Ten Thousand Immortals Sect and the lingering formations to see how they might be transformed, while also checking what resources remained in the Ten Thousand Immortals Sect.

It would also allow Immortal Bi Yue some time to cultivate.

While relocating and transforming the Hundred Peaks Sect, he had already noted the location of the Ten Thousand Immortals Sect's treasury.

Cao Zhen quickly flew to the front of several ruined treasuries, the surroundings in disarray. He entered one treasury, and came out after a short while.

The treasury was completely empty.

He swiftly entered a second treasury, which was also empty.

The third, the fourth...

Each treasury, without exception, was entirely empty!

Cao Zhen was speechless and shouted loudly, "Formation spirit, come out! Didn't you fling everyone out back then? Why is it that your treasuries are all empty? Where are the contents?"

Soon, the formation spirit appeared and replied, "When I flung them out, the treasuries had been almost emptied."

Cao Zhen quickly caught the implication in the formation spirit's words, "Almost emptied, so not completely emptied. Where are the remaining resources?"

The formation spirit raised its hand and pointed to the distance, "Much was used for building living graves, and many are buried within them. Some were also relocated by me."

"Relocated to where?"

"The Ten Thousand Immortals Hall."

The so-called Ten Thousand Immortals Hall was the main assembly hall of the Ten Thousand Immortals Sect, now relocated to the back mountains.

Cao Zhen quickly flew into the Ten Thousand Immortals Hall.

Indeed, as the formation spirit stated, the hall was piled with materials; however, the quantity of these resources...

"Is that it? It's only slightly more than what we have in the Hundred Peaks Sect's treasury and of slightly higher quality. Do the Ten Thousand Immortals Sect have only this much left?"

This hardly seemed like the resources of a Great Teaching!

"There are more, as I mentioned, buried within the living graves are many resources," the formation spirit added quickly, sensing Cao Zhen's intention, "but you cannot break open the living graves, otherwise I will certainly perish with the Hundred Peaks Sect.

Moreover, when they entered earlier, they looted the treasury's resources almost entirely. However, the Ten Thousand Immortals Sect has countless inheritances from various masters, each with its cave mansion. Many of these cave mansions were left unscathed. However, with my current limited power, I cannot access them all to retrieve those resources."

Chapter 1595:

"They're all in various cave mansions?"

Cao Zhen heard the voice and transmitted, "Little Jiu, take a look, search through the Ten Thousand Immortals Sect's cave mansions and bring out all the resources, then... temporarily place them on Four Treasures Peak." He liked to call Wan Ren Di Little Jiu, mainly because of Little Eight, the old eighth; he felt Wan Ren Di had taken advantage of them.

He casually fabricated an excuse, and with Little Silver Dragon around, Wan Ren Di was Little Jiu.

Now, with an additional two disciples in the Hundred Peaks Sect, he still preferred to call Wan Ren Di Little Jiu.

Actually, right now, the Hundred Peaks Sect is brimming with spiritual energy, making it indeed the best time for cultivation. Wan Ren Di was no exception, only that the boy was cultivating escape techniques, which wouldn't be much help when the Sect Tribulation arrives.

He could only temporarily sacrifice Wan Ren Di and let him plunder treasures.

After all, for their Hundred Peaks Sect to overcome the Sect Tribulation, they must utilize every resource available.

Furthermore, Wan Ren Di practiced escape techniques, suitable for plundering treasures, and plundering treasures all over places himself, that was also a form of cultivation.

Cao Zhen instructed Wan Ren Di and then went to inspect the grand formation of the Ten Thousand Immortals Sect and the various formations left behind. The damage to these formations was indeed too severe.

Rebuilding these formations was an unimaginably colossal task.

Especially now that the Hundred Peaks Sect had expanded fifty times, the resources needed were enormous!

After inspecting the formations, Cao Zhen found Immortal Bi Yue and said, "Let's go, we'll make a quick trip to the Dragon Chant Sect, so you can return to the Hundred Peaks Sect and cultivate for a longer time."

Immortal Bi Yue did not move immediately but looked at the surrounding high mountains, full of shock, and asked Cao Zhen, "Earlier, you spoke with that Formation Spirit. What did you say the great sect you've merged with is?"

Cao Zhen, pulling Immortal Bi Yue along, headed out of the Hundred Peaks Sect, replying, "Ten Thousand Immortals Sect, what about it?"

"Indeed, it is the Ten Thousand Immortals Sect!" A complex expression appeared on Immortal Bi Yue's face, "Do you know what a great sect the Ten Thousand Immortals Sect is, and why they were annihilated back then?"

Cao Zhen nodded slightly, "Yes, because of their terrifying grand formation."

"Indeed, because of that formation, that formation terrified the great teachings across the Eastern Wasteland, even including our Dragon Chant Sect. It was truly terrifying.

I didn't expect that what you merged was the Ten Thousand Immortals Sect. Actually, it's good that you annexed the Ten Thousand Immortals Sect, but you haven't just annexed it; you've also preserved their grand formation.

At that time, I fear your Hundred Peaks Sect will become a thorn in the side of every great sect in the Eastern Wasteland. No one wants to see a second Ten Thousand Immortals Sect appear, or to put it another way, no great sect wishes to see that formation restored."

Immortal Bi Yue looked at Cao Zhen with deep concern, "If your Hundred Peaks Sect becomes a great teaching, and as long as you inherit the Ten Thousand Immortals Sect's grand formation, slowly you will grow and pass through tribulations again and again, gaining more and more resources, and eventually, you can restore that formation.

At that time, every great teaching will be on edge, no one wants to be attacked by the Sky Encompassing Ten Thousand Immortals Star Gathering Formation again, no one wants to become the second Sect of Heaven and Earth!

Moreover, no one wants to see your Hundred Peaks Sect grow, fearing that someday, the demonic sects will unite once again to obliterate your Hundred Peaks Sect."

Cao Zhen's brows furrowed deeply, "The current Sky Encompassing Ten Thousand Immortals Star Gathering Formation is incomplete; even if our Hundred Peaks Sect gains resources, they must be used for our disciples' cultivation, and there's too much resource required to supplement the formation!"

"But, they won't think so, they won't allow such a threat to exist. Perhaps they won't act in the short term, but when the Hundred Peaks Sect grows to a certain extent, or after you pass the first ten-thousand-year Sect Tribulation, the demonic sects will certainly act; they are afraid you will use the resources from the Heavenly Tribulation to repair the formation; they fear they will unite as they dealt with the Ten Thousand Immortals Sect and attack the Hundred Peaks Sect together again.

And the teachings of the immortal path, under the normal circumstances, when another immortal path teaching suffers an attack from the demonic sects, they will take action to prevent it. But since your Hundred Peaks Sect has merged with the Ten Thousand Immortals Sect, they themselves are worrying and plotting, probably few great teachings will help."

Immortal Bi Yue sighed in her heart, previously Cao Zhen hadn't mentioned which great teaching they intended to merge with.

"Actually, your best choice is to annex the Void Breaking Sect. In that case, perhaps the demonic sects will obstruct, but the immortal path teachings will certainly welcome the rise of another immortal path teaching, and they will take action to help the Hundred Peaks Sect annex the Void Breaking Sect."

"I also wanted to annex the Void Breaking Sect, but the Instant Millennium Pearl is with the Ten Thousand Immortals Sect; the condition to obtain it was to merge with the Ten Thousand Immortals Sect."

Cao Zhen sighed. When he agreed with the Formation Spirit to annex the Ten Thousand Immortals Sect, he had considered whether there would be any repercussions after annexing the Ten Thousand Immortals Sect.

But he still believed the benefits outweighed the risks.

After all, the Instant Millennium Pearl is extremely rare; he had never heard of any great teaching possessing the Instant Millennium Pearl.

Moreover, the Ten Thousand Immortals Sect was also a diverse school; after their Hundred Peaks Sect merged with the Ten Thousand Immortals Sect, they could also gain much of its heritage. Despite having many spells and cultivation techniques, he remained just one person.

So, after comprehensive consideration, he thought it best to merge with the Ten Thousand Immortals Sect.

Chapter 1596:

Moreover, even if he really returns and other Demonic Sects join forces to attack the Hundred Peaks Sect, he might still merge with the Ten Thousand Immortals Sect.

After all, that would directly turn the Hundred Peaks Sect into a Great Teaching!

As for the attack, those Demonic Sects may not really wholeheartedly assault the Hundred Peaks Sect. After all, the Hundred Peaks Sect is different from the Ten Thousand Immortals Sect back then, which had not only the Sky Encompassing Ten Thousand Immortals Star Gathering Formation but also countless masters and was overwhelmingly powerful.

The Hundred Peaks Sect has not yet reached that level.

Outside the Hundred Peaks Sect, although everyone knows that the sect has now annexed a Great Teaching, no one dares to rashly advance and enter the golden light.

The golden light itself is a form of protection; intruding without thought would surely lead to an attack.

Suddenly, two figures flew out from the golden light, quickly disappearing from everyone's sight.

Everyone was filled with curiosity.

"Is that Sect Leader Cao Zhen and Immortal Bi Yue from the Dragon Chant Sect?"

"The Hundred Peaks Sect has annexed a Great Teaching, and the energy within is now celestial rather than spiritual. Given such a rare opportunity, shouldn't Cao Zhen stay within the Hundred Peaks Sect for cultivation? Why has he come out?"

"He is with Immortal Bi Yue; it seems they are heading to the Dragon Chant Sect."

"Exactly, although Cao Zhen of the Hundred Peaks Sect is strong, only he alone is formidable, perhaps counting some of his disciples. The Hundred Peaks Sect's strength alone may not suffice to survive a Sect Tribulation. Cao Zhen and Immortal Bi Yue leaving must mean they are heading to the Dragon Chant Sect for assistance."

"Seeking help? Why would the Dragon Chant Sect necessarily assist the Hundred Peaks Sect? Just because of Immortal Bi Yue?"

"Indeed, while the Dragon Chant Sect's people might indulge Immortal Bi Yue's whims, they certainly won't use their resources to help the Hundred Peaks Sect."

"The Hundred Peaks Sect is indeed strong, but facing a Sect Tribulation might still be challenging."

"Forget it, let's leave; there's nothing much to see. Actually, we rather hope that our Guardian Immortal Imperial Dynasty will have another Great Teaching! This way, we can better handle the invasions from those Demonic Sects and Great Teachings from the Eastern Wasteland."

"Let's hope the Hundred Peaks Sect can survive the Sect Tribulation when the time comes."

Cao Zhen and Immortal Bi Yue did not stop but flew directly to the Dragon Chant Sect.

This was the second time Cao Zhen had come to the Dragon Chant Sect; compared to the first time, this arrival attracted less attention.

Upon landing, Immortal Bi Yue immediately led Cao Zhen to the Conference Hall of the Dragon Chant Sect, and informed the disciples of the Dragon Chant Sect to invite their senior members to the Conference Hall.

Not long after, one senior member after another of the Dragon Chant Sect arrived in the Conference Hall.

"Nephew Bi Yue, you suddenly called us here, is there something important?" In the Conference Hall, every senior member of the Dragon Chant Sect was present.

Although Immortal Bi Yue currently holds no position within the Dragon Chant Sect,

everyone still gave her face by coming.

After all, Immortal Bi Yue's background is incredibly deep.

Don't be deceived by them being the current seniors of the Dragon Chant Sect; that is only because the Dragon Chant Sect still has a lot of masters who have not awakened.

Once those masters awaken, they will not count for much.

There's no need to wait for all masters to awaken; once the masters in the Indestructible Period awaken, they will immediately cease to be the seniors of the Dragon Chant Sect.

However, Immortal Bi Yue's status will never change, and when they encounter real issues, they'll definitely turn to her for help.

Therefore, most of the time, even if Immortal Bi Yue acts capriciously, they allow her to do so.

Immortal Bi Yue looked at the gathered crowd, then pointed at Cao Zhen and said, "I called everyone because of Cao Zhen."

"Cao Zhen?"

The crowd's expressions turned peculiar; although they were seeing Cao Zhen for the first time, his name had been heard by them many times, not only because of the special relationship between Immortal Bi Yue and Cao Zhen but also because of Cao Zhen's own strength.

However, for Bi Yue to suddenly bring Cao Zhen and call them here...

Among the crowd, a middle-aged beautiful woman recalled some earlier news, her heart stirred, and she asked, "Sister Bi Yue, is it because of the Hundred Peaks Sect merging with another Great Teaching?"

Even though the Dragon Chant Sect is very far from the Hundred Peaks Sect, a sect using the Instant Millennium Pearl to merge with a Great Teaching is a rare occurrence in the history of the Eastern Province.

After this event happened, news quickly spread throughout the Eastern Province, and they naturally heard about it.

Therefore, with Bi Yue and Cao Zhen present at this time, it must surely be related to this.

Otherwise, what else could it be? It couldn't be that Bi Yue is planning to hold a Dao Companion ceremony with Cao Zhen and wants them as witnesses, right?

That kind of matter is beyond their words, and they dare not act as witnesses!

Upon hearing this, Immortal Bi Yue slightly nodded and said, "Sister Shuanghua, you're right, it is indeed about the Hundred Peaks Sect annexing a Great Teaching.

You all know that our Dragon Chant Sect collaborates with the Hundred Peaks Sect. The Pinbao Business Association has a share in our Dragon Chant Sect, and although it was established for a short time, it has provided some resources for our Dragon Chant Sect over the years.

And as time goes on, the Pinbao Business Association will grow larger, bringing even more profits to our Dragon Chant Sect.

The stronger the Hundred Peaks Sect becomes, the better the Pinbao Business Association can develop, and the more benefits our Dragon Chant Sect can obtain. So, I hope we can help the Hundred Peaks Sect a bit."

Chapter 1597:

The crowd around heard the voice and immediately furrowed their brows. As expected, they're after Dragon Chant Sect's resources.

The Cao Zhen, truly shameless, back during the Minor Era of Inversion of Heaven and Earth, he used Bi Yue's identity to have Dragon Chant Sect shelter Hundred Peaks Sect multiple times.

Now that the Minor Era of Inversion of Heaven and Earth is over, he's gotten worse, directly coming to demand resources!

Immortal Bi Yue is inexperienced and spends most of her time in cultivation, perhaps Cao Zhen's words confused her, but does he think everyone in Dragon Chant Sect is foolish?

Still wants resources?

Simply wishful thinking!

In the group of high-level cultivators, a red-faced, burly cultivator heard and directly refused, saying: "Impossible!"

With those three words spoken, the hall instantly fell into silence.

The beautiful woman who had just spoken tightened her slender brows further, showing a helpless expression on her face; her senior brother is still too straightforward.

The Dragon Chant Sect is naturally impossible to give Cao Zhen resources.

But the problem is with so many people here, why hasn't anyone else spoken? Isn't it because they fear directly offending Immortal Bi Yue, all thinking about how to tactfully refuse. Senior brother, are you just going to be blunt? Isn't this directly offending Bi Yue!

She sighed inwardly, quickly stepped forward, trying to remedy: "Bi Yue, you also know, senior brother is more straightforward. Actually, senior brother isn't targeting you, it's just the rules of our Dragon Chant Sect. You know, even though we currently manage part of Dragon Chant Sect's resources, these resources aren't for us to handle at will.

When we use these resources, we also need to record them, so that when other senior brothers and uncles awaken later, they will check.

If we were to directly use resources to give to Hundred Peaks Sect, we wouldn't be able to explain ourselves then."

"Who said you had to give them?" Immortal Bi Yue looked at everyone with displeasure, saying, "Though I wish to become a Dao companion with Cao Zhen, now, I am still a disciple of Dragon Chant Sect. Naturally, I would think for Dragon Chant Sect. Cao Zhen wants to exchange for Dragon Chant Sect's resources."

"Exchange resources? Exchange with what?" Immortal Shuanghua looked at Cao Zhen with surprise, Cao Zhen is a reincarnated powerful expert, but their Dragon Chant Sect is a Great Teaching with over two million years of heritage. There's indeed not much they would be interested in.

Cao Zhen stepped forward, looked at the high-level cultivators of Dragon Chant Sect around, and slowly said: "I can use spells to exchange for Dragon Chant Sect's resources."

"Spells?"

The Dragon Chant Sect members shook their heads upon hearing this; they indeed are not short of spells.

Immortal Shuanghua lightly shook her head: "Bi Yue, you also know, we have many spells within Dragon Chant Sect."

She originally didn't want to speak up, but since she already opened her mouth, she could only brace herself to continue. If she did not speak, should she let her senior brother continue to speak?

Considering her senior brother's nature, who knows what unpleasant words he might say.

"Not lacking spells? Not even lacking Yellow Grade spells?" Cao Zhen had previously discussed Dragon Chant Sect issues with Bi Yue on the road; there are indeed Yellow Grade spells in Dragon Chant Sect, a fair number, but not to the extent of being lacking.

Although the cultivation techniques of Dragon Chant Sect members are very similar, their spells are also matched to their cultivation techniques.

However, the disciples engaged in cultivation vary in their strengths and talents.

Even two people, with the same talents, possessing a Heavenly Wind Immortal Body, may differ. One person might be impulsive, pursuing the utmost sharpness, revealing cutting edges.

While another might have a cautious personality, pursuing the all-encompassing aspect of wind.

Thus, these two naturally would not suit the same spells.

Hence, Dragon Chant Sect cannot ensure that everyone lacks spells.

They say their Dragon Chant Sect's spells are numerous, enough to use; they mean ensuring that talented disciples, or those who reach a certain degree, can cultivate relatively more suitable spells.

Just stating that disciples wishing to cultivate Yellow Grade spells can access Yellow Grade spells.

"Yellow Grade spells?" Immortal Shuanghua raised her brows slightly in surprise and asked, "Sect Leader Cao, willing to provide Yellow Grade spells? What specific Yellow Grade spells?"

Cao Zhen smiled calmly, exceedingly serene: "It depends on what spells you need."

Hearing his plain words, the crowd's hearts suddenly jolted; does this imply that whatever spells they need, Cao Zhen can provide?

They have heard that Hundred Peaks Sect members all learned Yellow Grade spells, presumably provided by Cao Zhen.

Now, Cao Zhen is offering spells once more.

This...

How many spells does he know!

Immortal Shuanghua thought of the spells Cao Zhen taught to Hundred Peaks Sect members and promptly asked: "You exchange spells, allowing Dragon Chant Sect to freely teach the spells you give us, correct?"

Cao Zhen nodded and responded: "Naturally."

Immortal Shuanghua continued inquiry: "Then the spells you teach us wouldn't be those you've already taught to Hundred Peaks Sect, right? If so, wouldn't Dragon Chant Sect and Hundred Peaks Sect share the same spells?"

Thus, it might cause some troubles. Appearing these years, the Bleeding Tears Assassin, Sect Leader Cao should be aware?"

Chapter 1598:

"Naturally, I know." Cao Zhen secretly laughed in his heart, thinking, the Bleeding Tears Assassin is standing right in front of you now, who could possibly know the Bleeding Tears Assassin better than me?

Immortal Shuanghua heard the voice and continued, "What if, after you teach us the spells, some time later, there emerges someone like the Bleeding Tears Assassin, killing people everywhere, using the spells you taught to our Dragon Chant Sect? Both our Dragon Chant Sect and your Hundred Peaks Sect will know these spells. How should we trace it then?"

"Oh, since that's the case, I won't teach you the spells I've already taught the disciples of Hundred Peaks Sect." Cao Zhen understood in his heart that after he mentioned the Yellow Grade spells, the other party was tempted, and they spoke like this only to drive the price down. Fine, I can simply teach you other spells.

Some of the spells he knew were really not very suitable for the disciples of Hundred Peaks Sect to cultivate, given although Hundred Peaks Sect is a miscellaneous sect, there are many paths of immortal cultivation in the world, and their Hundred Peaks Sect can't possibly encompass all paths of immortal cultivation.

Just like the Dragon Chant Sect, many of their spells are related to dragons, whereas at their Hundred Peaks Sect, apart from his Four Treasures Peak having captured a small dragon's aura, no peak shelters dragons.

Upon hearing this, Immortal Shuanghua's face flashed with astonishment again. She had indeed said that to negotiate a lower price, but she didn't expect Cao Zhen to mean he would teach them different spells.

Hundred Peaks Sect is now enveloped in celestial energy, it's the best opportunity for cultivation. Cao Zhen not cultivating in Hundred Peaks Sect, but instead running to Dragon Chant Sect, couldn't possibly be just to exchange a handful of spells for resources.

So, just how many spells does he want to exchange for resources?

After all, Immortal Shuanghua is not the current acting Sect Hierarch of Dragon Chant Sect. She looked up at the direction of the main seat, glanced at the skinny acting Sect Hierarch, and only upon receiving a nod did she turn back to ask Cao Zhen, "I wonder, Sect Leader Cao, how many immortal techniques do you intend to exchange for our resources?"

Cao Zhen did not directly answer, but looked at the charming mature woman in front of him and asked, "How many spells does your Dragon Chant Sect want?"

Immortal Shuanghua was momentarily speechless, what does it mean by how many we want?

Naturally, we hope for as many spells as possible, but the key is how many spells can you offer?

Clearly, we were asking how many spells you can provide, how did it become you asking us?

She had to speak again, "Naturally, we hope for more and more."

Cao Zhen nodded and said, "So, however many I have, you should also have that many? However, I reckon you might not be able to afford it. Otherwise, how about this, you tell me roughly how many resources you can provide. However many resources you have, I'll offer as many spells."

Immortal Shuanghua opened her mouth wide suddenly, dumbfounded as she looked at Cao Zhen, unsure of how to respond, thinking to herself, how many spells do you have that allows you to be so arrogant!

Do you know, although we are just temporary high-level members, we can control only a part of Dragon Chant Sect's resources, yet those resources are still an astronomical figure.

Even if you are a reincarnated great ability, you are still just one person, can you possibly exchange all the resources we can provide?

People all around also looked at Cao Zhen with disbelief.

Before everyone could recover, Cao Zhen continued, "Alright, my time is still limited, and I need to return to Hundred Peaks Sect to cultivate. Everyone, how about this, I directly show you how much resources I need, and you can see how many spells it would take to exchange for these resources?"

Immortal Shuanghua glanced at the acting Sect Hierarch again, who nodded before she turned to look at Cao Zhen and said, "That works too. I wonder how much resources Sect Leader Cao needs?"

Cao Zhen instead took out the materials he had long written down and directly threw them in front of everyone.

The people of Dragon Chant Sect had already guessed that Cao Zhen would need a large amount of materials, but when they saw the thick stack of papers, with densely packed words on each sheet, they were still frozen for a moment.

"So many materials are needed!"

"This much materials, how many Yellow Grade spells is that!"

The acting Sect Hierarch of Dragon Chant Sect waved a hand, and a light screen appeared around them, isolating the sound.

Cao Zhen had no idea what they were discussing, but a moment later, the light screen opened.

Immortal Shuanghua solemnly looked at Cao Zhen and said, "Sect Leader Cao, first we need to confirm one thing. After these spells are taught to us at Dragon Chant Sect, will they be taught to any other great teaching or the disciples of your Hundred Peaks Sect?"

"How could it be!" Cao Zhen immediately shook his head, "You naturally know, teaching these spells to a great teaching can increase their foundation and power by much.

The reason I am negotiating with your Dragon Chant Sect is also due to my relationship with Bi Yue. If it weren't for Bi Yue, I wouldn't use these spells in exchange for your Dragon Chant Sect's resources.

As for the disciples of our Hundred Peaks Sect, I won't casually impart them. Of course, for my own disciples at Four Treasures Peak, I might teach them one or two of these spells. However, I will instruct them that these spells must not be passed on. I believe it won't cause much of an impact."

Immortal Shuanghua nodded slightly. Cao Zhen only teaching them to his own disciples doesn't impact much, after all, there are only a few disciples at Four Treasures Peak.

"However... Sect Leader Cao, you are asking for so many resources, how many spells can you provide us? We indeed need Yellow Grade spells, but not that many Yellow Grade spells.

Chapter 1599:

After all, above the Yellow Grade spells, there are also Mystical Rank spells. Furthermore, Sect Leader Cao, the resources you want are very precious indeed.

So, merely Yellow Grade spells, no matter how many, won't be enough. We need Mystical Rank spells!"

Cao Zhen's expression remained unchanged. When he came, Immortal Bi Yue had already told him that the resources he wanted were too much, and the Dragon Chant Sect would definitely demand Mystical Rank spells.

Shuanghua looked at Cao Zhen's face, unsure of what he was thinking, and could only continue saying, "I heard that the disciples of Four Treasures Peak have mastered a Mystical Rank Thunderbolt Technique. We hope Sect Leader Cao can teach that technique to our Dragon Chant Sect."

That is a Mystical Rank spell that can be used during the Longevity Period.

The significance of such a technique is immense.

Although soon, the strong ones at the Indestructible Period could awaken, it is still very difficult to cast Mystical Rank spells even at the Indestructible Period!

Moreover, if their Dragon Chant Sect, in the future, births a genius disciple, after they enter the Longevity Period, they could also impart this as a secret technique to these genius disciples, giving them an additional trump card.

Cao Zhen didn't hesitate and directly refused, "I can teach you other spells, but the Thunderbolt Technique you mentioned, I won't impart to you."

The Five-thunder Righteous Method is not just a Mystical Rank spell.

Previously, it was fine to pass on the Divine Skill of the Five-thunder Righteous Method to the disciples of the Hundred Peaks Sect, but the spell of the Five-thunder Righteous Method must not be leaked.

If these people discover something through the modified Mystical Rank Five-thunder Righteous Method, it would be a huge loss.

Shuanghua shook his head and said, "We cannot perform other Mystical Rank spells. Sect Leader Cao, how can we be assured it's a Mystical Rank spell after you teach us?"

Their first target is that Mystical Rank Thunderbolt spell!

Cao Zhen immediately laughed, "As a dignified sect leader, a reincarnated Great Ability, could I possibly deceive you!"

However, Immortal Shuanghua still shook her head and said, "But Sect Leader Cao, you're not the real sect leader of the Hundred Peaks Sect, and when it comes to Mystical Rank spells, we have to be cautious."

Beside him, after Cao Zhen spoke, Immortal Bi Yue, who had been silent, frowned and suddenly spoke, "Don't worry, I can vouch!"

Immortal Shuanghua and some of the Dragon Chant Sect's high-level members around felt headaches; their biggest fear was Immortal Bi Yue speaking up.

Immortal Shuanghua no longer spoke but looked toward the temporary leader on the main seat.

The Dragon Chant Sect Hierarch sighed in his heart, murmuring, "Nephew Bi Yue, these resources are not insignificant in amount. Even you, I'm afraid, don't have that many resources, so how can you guarantee?"

"I..." Immortal Bi Yue just wanted to speak again, but on the side, Cao Zhen pulled Bi Yue back, looking at the crowd, saying, "The Mystical Rank Thunderbolt Technique you mentioned is called the Five-thunder Righteous Method. This technique, I can teach to Bi Yue. At that time, if the technique I impart to you is false, you can have Bi Yue impart the Five-thunder Righteous Method to you."

Your sect cannot possibly distrust Bi Yue, right."

The Dragon Chant Sect Hierarch responded hastily, "Of course, we certainly trust Nephew Bi Yue. However, the resources you demand for just a single Mystical Rank spell, it still isn't enough. We need at least two mid-grade Mystical Rank spells more."

"So, a lower-grade Mystical Rank spell and two mid-grade Mystical Rank spells?" Cao Zhen frowned, "That is asking too much. I can only teach you another mid-grade Mystical Rank spell."

"That can't be exchanged for so many resources."

"These are Mystical Rank spells, your side is being too greedy."

Cao Zhen and the Dragon Chant Sect Hierarch began to negotiate on how many Mystical Rank spells would be suitable.

In the end, after discussions among the Dragon Chant Sect members, they agreed that Cao Zhen would impart a total of two lower mystic-grade spells and one mid-grade mystic-grade spell!

"So, Sect Leader Cao, the problem remains, how would you ensure the spell you impart is a Mystical Rank spell? You would only impart one lower mystic-grade Five-thunder Righteous Method to Nephew Bi Yue, which is not enough."

"If the Five-thunder Righteous Method isn't enough, how about adding a Divine Skill?" Cao Zhen pulled Immortal Bi Yue close saying, "You all must know, my disciples and Immortal Zi Yu, all had their physical bodies reach the Golden Core Period Limit at the stage of the Nine Abnormal Phenomenon Golden Pills. Likewise, my other disciples, though not reaching the Golden Core Period Limit, were also very close to it."

Moreover, Bi Yue's body is similar; they reached such a degree because I imparted to them a supreme Divine Skill.

That skill is not solely for body refinement, the refinement is just the foundation. It encompasses all, it is the untold secret of my lineage!"

Cao Zhen looked at everyone, saying, "The value of this Divine Skill far surpasses any Mystical Rank spell! By then, if you find that the technique I imparted isn't a Mystical Rank spell, you can naturally have Bi Yue pass this Divine Skill to the higher-ups of your Dragon Chant Sect."

Everyone around instantly turned to look at Immortal Bi Yue.

They naturally had heard that when Cao Zhen and Xiang Ziyu were in the Nine Abnormal Phenomenon Golden Pills, their physique had reached the limit of the Golden Core Period. As for Immortal Bi Yue, after they woke up, after Immortal Bi Yue entered the Earth Immortal Realm, they even sparred with her, and discovered as well, that Immortal Bi Yue's body was exceptionally strong.

They even felt that Immortal Bi Yue, who had just entered the Longevity Period, had a physique that could compare with theirs, or even stronger!

They always believed it was because Immortal Bi Yue's elders or masters imparted to her some body-refining Divine Skill.

But now, Cao Zhen told them, this Divine Skill was imparted to Bi Yue by him.

Moreover, the previous body refinement was not even the entirety of the Divine Skill, the refinement was just a foundation, and it couldn't be compared to any Mystical Rank spell!

In addition, Cao Zhen even said, that was the untold secret of his lineage!

They might not know what level Cao Zhen attained in his previous life, but looking at Cao Zhen's disciples each reaching the Golden Core Period Limit during the Golden Core Stage, and seeing Cao Zhen's methods, even ancient Immortal Bodies could become Earth Immortal Realm.

Clearly, in the reincarnated powers, Cao Zhen was an incredibly formidable existence!

How strong could the untold secret of his lineage be!

Cao Zhen actually imparted such a Divine Skill to Immortal Bi Yue!

Chapter 1600:

The members of the Dragon Chant Sect have always been displeased with Cao Zhen.

Besides Cao Zhen taking away their brightest jewel from the Dragon Chant Sect, they also felt that Immortal Bi Yue had been assisting Cao Zhen all along.

But now, they realized that Cao Zhen had actually imparted an incredibly powerful Divine Skill to Immortal Bi Yue.

If it were another ordinary disciple who received such a Divine Skill, there might be those who would try every means to force him to relinquish the skill or use various methods to obtain it.

After all, it's a Divine Skill, not a mere spell. If I cultivate it, I have ways to conceal it.

However, as for Immortal Bi Yue, at least for now, no one in the Dragon Chant Sect can threaten her to hand over the Divine Skill.

Soon, Cao Zhen and the top leaders of the Dragon Chant Sect began discussions and finally traded three Mysterious Rank spells plus a hundred Yellow Level spells for a vast amount of resources!

Among them, there were forty Yellow Level Low Grade spells, and thirty Yellow Level Mid Grade and Yellow Level Upper Grade spells each.

With such an abundance of spells, Cao Zhen casually handed them out.

Thinking back to the spells Cao Zhen previously imparted to the members of the Hundred Peaks Sect, everyone suspected that, in his past life, Cao Zhen must have been a disciple, or even a high-ranking member of a Great Teaching, having obtained the full legacy of the entire Great Teaching!

After completing the trade, Cao Zhen finally revealed the other purpose of his visit.

"You are aware, our Hundred Peaks Sect has annexed a Great Teaching. In about two years, our Hundred Peaks Sect will need to undergo Sect Tribulation, so I have come to ask the experts of the Dragon Chant Sect to visit the Hundred Peaks Sect and assist in the tribulation."

"Oh? I wonder, Sect Leader Cao, how many are you looking to invite to your Hundred Peaks Sect to help with the tribulation?" The Sect Hierarchy of the Dragon Chant Sect asked with a joyful smile, his face brimming with pleasure.

He had just been debating with Cao Zhen over how many spells could be exchanged for resources, for the sect's interests, and despite the heated argument there wasn't any animosity.

In fact, he felt grateful to Cao Zhen.

No one easily imparts spells to others, especially when it involves Mysterious Rank spells.

He and Cao Zhen had completed such a significant deal, and when stronger individuals from the Indestructible Period, or even those from the following Longevity Period awaken, and the upper echelons of the Dragon Chant Sect fully awake, he is certain they will reward him greatly.

As for helping the Hundred Peaks Sect with the tribulation, that too is beneficial.

After all, assisting with the tribulation will surely earn benefits from the Hundred Peaks Sect, especially now with the Hundred Peaks Sect filled with spiritual energy, agreeing to help now allows them an early entry to the Hundred Peaks Sect for cultivation.

Cultivating immortality and acquiring treasures, who would refuse such an opportunity!

As for the Hundred Peaks Sect failing the tribulation?

He believed the likelihood of such failure is minimal.

After all, with Cao Zhen's capabilities right here, and Cao Zhen having acquired so many resources from their Dragon Chant Sect.

"How many people? Naturally, the more the better," Cao Zhen glanced around and said, "However, I hope those who assist in the tribulation are experts whose Immortal Mountain reaches ninety zhang."

If the Immortal Mountain doesn't reach ninety zhang, he thought they wouldn't have much effect on the tribulation assistance.

"Ninety zhang!" Many of the high-ranking members of the Dragon Chant Sect furrowed their brows.

"Sect Leader Cao's requirement seems a bit too high."

"Indeed, today, throughout the Eastern Wasteland, there are not many people whose Immortal Mountain reaches ninety zhang."

The Sect Hierarchy of the Dragon Chant Sect further asked, "Sect Leader Cao, might you consider relaxing the conditions slightly, perhaps to eighty zhang? In the Longevity Period, an Immortal Mountain reaching eighty zhang is already considered a top expert."

If Cao Zhen sets the condition to eighty zhang, their Dragon Chant Sect could immediately send ten experts.

"Eighty zhang, far from enough." Upon hearing this, Cao Zhen shook his head directly, looking at the members of the Dragon Chant Sect, "I understand that in the Longevity Period, reaching ninety zhang is indeed rare, but it is not impossible, right?"

You are the Dragon Chant Sect, I believe there should be quite a few experts whose Immortal Mountains reach ninety zhang in your sect."

Upon hearing this, the Sect Hierarchy of the Dragon Chant Sect sighed helplessly, "Our Dragon Chant Sect indeed has some experts whose Immortal Mountains reach ninety zhang, but we can't just send these experts away carelessly. After all, our Dragon Chant Sect also needs defense."

Internally, Cao Zhen retorted, your Dragon Chant Sect needs defense? You probably don't know I've been to your sect's Holy Mountain, with that bunch of Dragons, who in their right mind would come to your sect seeking trouble?

He straightforwardly inquired, "Then, how many experts can your Dragon Chant Sect send with Immortal Mountains reaching ninety zhang to help us with the Sect Tribulation?"

"I am just the sect hierarchy; I cannot decide for our experts," the Sect Hierarchy of the Dragon Chant Sect did not directly answer but looked at Cao Zhen and suggested, "How about Sect Leader Cao first shares the conditions of your Hundred Peaks Sect?"

"Our conditions are the same as the rules for helping with tribulations among the various great teachings in the Eastern Wasteland. As long as the tribulation succeeds, besides the spells and Divine Thoughts, we will select thirty treasures from amongst the rest, and each of you may freely choose one treasure from the remainder.

Moreover, if you agree to assist with the tribulation, you can proceed to the Hundred Peaks Sect starting now for cultivation."

Cao Zhen didn't add any further conditions. The Hundred Peaks Sect is now filled with spiritual energy; allowing them to begin cultivating there is akin to offering a down payment.
