

My Master 1651

Chapter 1651:

Moreover, no matter who you are, upon seeing those towering Immortal Mountains, you instantly recognize the visitor's identity.

"Cao Zhen! What are you up to?"

The Rare Treasures Chairman hurriedly arrived, looking at the crowd led by Cao Zhen, arrayed in a line blocking the entrance of their Rare Treasures Commerce Association, and in an instant, flew into a rage, his forehead veins bulging prominently.

"What am I up to? You ask what I'm up to, naturally, I'm here to teach your Rare Treasures Commerce Association a lesson." Cao Zhen looked at the grand formation outside the Rare Treasures Commerce Association and sneered, "What? You think putting up a turtle shell can stop me?"

"A lesson? Our Rare Treasures Commerce Association has not provoked you recently." The Rare Treasures Chairman truly did not understand why Cao Zhen, out of the blue, brought disciples to their Rare Treasures Commerce Association!

Cao Zhen coldly said, "You haven't provoked us? I remember saying last time that if my Pinbao Business Association gets attacked again, I will come to your Rare Treasures Commerce Association. Now, our Pinbao Business Association's two branches have been attacked, naturally, I have to come find trouble with you."

"Our Rare Treasures Commerce Association never attacked your Pinbao Business Association. As the largest commerce association in the Central Five Provinces, we have no need to do so! Also, you mentioned two branches being attacked, can you tell which two branches were attacked?"

Cao Zhen's expression turned cold, "Do we need to report the affairs of our Pinbao Business Association to your Rare Treasures Commerce Association? Anyway, I've said it, if my Pinbao is attacked, I come for your Rare Treasures Commerce Association!"

"Nonsense, you're clearly making baseless accusations!" The Rare Treasures Chairman instantly realized that Cao Zhen was just fabricating an excuse.

"Cao Zhen, don't think that just because you reached the so-called Longevity Period limit, you can act recklessly. Don't forget, the Indestructible Period masters will awaken in less than three years!

By provoking us now, aren't you afraid that our Rare Treasures Commerce Association's Indestructible Period masters would come for you?"

"Indestructible Period masters? The people from the Weeping Blood Demon Sect said the same. If it comes to that, it won't be your turn. Besides, if I leave now, won't you send Indestructible Period people to trouble our Hundred Peaks Sect later?"

Since offense has already been taken, it's better to take advantage now while they're strong and seize more resources!

As soon as Cao Zhen finished speaking, purple lightning appeared in his hand.

Though his current form is merely an avatar, it has also reached the Longevity Period limit, possessing some of the spells his original body has.

Even the breath of Age of Prosperity Qi resides within this avatar.

A purple lightning fell from the void, smashing heavily onto the golden barrier. The thunder's power was terrifying, even falling in broad daylight, it radiated dazzling light, and at this moment, it seemed the entire light of Wansheng City focused on this lightning.

Where the lightning passed, the void suddenly shattered.

The thunder about to strike the barrier, suddenly, countless silver light dots gathered on the barrier, attacking the descending thunder.

These light dots, like stars in the dark night, gathered together, akin to a galaxy washing over, gradually dissipating the thunder's power.

Behind the grand formation, a proud smile appeared on the Rare Treasures Chairman's face: "Cao Zhen, I admit you're strong, but no matter how strong you are, can you be stronger than the grand formation! The current Rare Treasures Commerce Association is not what it used to be!"

His response was Cao Zhen releasing the Five-thunder Righteous Method again!

The Rare Treasures Chairman saw that Cao Zhen did not respond, but kept attacking the grand formation, so he simply said nothing, just watched Cao Zhen outside coldly.

While they spoke, many Earth Immortal Realm had already entered the formation, supporting the grand formation.

After Cao Zhen's last raid, they recruited many Earth Immortal Realm masters; they have so many Earth Immortal Realm and countless Immortal Stones, with their combined forces, not even prolonged attacks from Cao Zhen could break this formation.

Moreover, even if Cao Zhen is very strong, he's still only one person, how much immortal power can he have?

The Rare Treasures Chairman looked around at the Earth Immortal Realm, and said solemnly: "Let Cao Zhen attack, it'd be best for his disciples to attack the formation too, once their immortal power is almost exhausted, we'll go and eliminate him!"

Around them, none of the Earth Immortal Realm responded.

Easier said than done, going to eliminate Cao Zhen.

What kind of existence is Cao Zhen!

They might rely on the formation to resist Cao Zhen, but even if Cao Zhen's immortal power is largely depleted, they wouldn't dare rush out.

Without the formation, Cao Zhen could probably annihilate them instantly.

Moreover, Cao Zhen is a reincarnated Great Ability, there's no way Cao Zhen would make such a basic mistake of exhausting his immortal power!

Cao Zhen attacked the grand formation blow after blow, continuously hitting the formation before him.

This formation was indeed at the limit of the Longevity Period, and his power has also reached this limit.

Even though both are at the limit of the Longevity Period, it's not to say he cannot truly break this formation.

After all, he is the attacker, and his continuous attacks focused on one point of the formation will gradually cause it to have problems.

Not to mention, he is not alone, he has brought along many disciples.

The formation's strength is at the limit of the Longevity Period, but with himself and his disciples attacking together, that power surpasses the Longevity Period limit.

Chapter 1652

Soon, the people of Four Treasures Peak behind him also took action, launching attacks on the Great Formation.

In an instant, purple thunderbolts fell from the void, smashing onto the Great Formation.

A series of horrifying loud noises erupted, reverberating throughout the entire Wansheng City.

Within Wansheng City, the Earth Immortals, out of curiosity, flew to a distance and looked towards the Rare Treasures Commerce Association.

“Cao Zhen and they, are they really attacking the Rare Treasures Commerce Association?”

“The Rare Treasures Commerce Association has a Great Formation, can they break through it?”

“Cao Zhen and his group are really assertive. This is the Rare Treasures Commerce Association, the top power spread across the Central Five Provinces, even the powerful Dragon Chant Sect and Yin Yang Sect have to give face to the Rare Treasures Commerce Association. Cao Zhen actually brought people to directly block the door of the Rare Treasures Commerce Association and attack it.”

“The Rare Treasures Commerce Association has a Great Formation, can Cao Zhen and his group break through it?”

As Ling Xi and Yan Yourong and others took action, within the Rare Treasures Commerce Association, a group of Earth Immortals also struck back at Cao Zhen and his people outside.

Their goal was not to attack Cao Zhen and his people but to block the spells they cast to protect the Great Formation.

For a time, spells clashed continuously in the void, causing the sky above to shake wildly.

Cao Zhen watched the Earth Immortals in the Rare Treasures Commerce Association casting spell after spell, mocking in his heart. Keep attacking.

Let’s see how long they can hold off. The spell we are casting is the Mysterious Rank Five-thunder Righteous Method, with terrifying power. If they want to block our attacks, they will inevitably need to consume more immortal power.

Moreover, on our side, both Xiang Ziyu and I have long-lasting immortal power, which can be said never to run out.

We are mainly relying on the attacks of Xiang Ziyu, Yi Sheng, and myself, who can outlast the three of us!

Inside the Rare Treasures Commerce Association, the Rare Treasures Chairman stared with a ferocious look in the direction of Cao Zhen. Consume?

No matter how strong Cao Zhen and his group are, there are only eleven of them. How many people do we have here? Let's see who can outlast whom.

In the void, spells continued to clash, and time ticked away second by second.

Slowly, inside the Rare Treasures Commerce Association, the speed at which the Earth Immortals cast spells began to slow down, and their immortal power was becoming seriously depleted.

But on the other side, Cao Zhen and his group's attacks did not slow down at all; they were becoming even more intense.

As Cao Zhen continued to bombard the other side heavily, he shouted loudly, "They're about to fail. Ling Xi, you all go all out."

Ling Xi and Yan Yourong and others had always been conservative in their attacks, not attacking frequently. At this moment, upon hearing their master's voice, they began to attack with all their might.

Instantly, one after another, purple thunderbolts continued to fall in the void, gathering in the void, as if countless heavenly tribulations had descended. The spells cast by the cultivators of the Rare Treasures Commerce Association were devoured by these thunderbolts.

Thunderbolt after thunderbolt heavily struck against silver light spots like a galaxy, dispersing them.

A thunderbolt struck the light barrier.

Immediately, the golden light barrier shook violently.

The next moment, an even thicker thunderbolt struck the same spot.

Immediately, a distinct crack appeared on the light barrier, followed by the third and fourth thunderbolts all crashing into this crack.

The cracks on the Great Formation further branched out like spider webs.

Behind the Great Formation, the Rare Treasures Chairman suddenly widened his eyes in terror, releasing spells while shouting loudly, "Attack with full force, defend with full force. We have so many people, can't we stop just eleven of them?"

All around, people desperately mobilized their remaining immortal power, yet their spellcasting frequency continued to slow down.

They also wanted to stop Cao Zhen and his group, but their immortal power was really running low.

"Crack..."

As thunderbolts continuously struck the light barrier, a crisp cracking sound was heard from the Great Formation's light barrier, with half of the entire light barrier showing cracks, making it seem like it could shatter at any moment!

No, we can't continue defending here.

Fear filled the eyes of the Rare Treasures Chairman. If the Great Formation breaks and Cao Zhen and his group rush into the Rare Treasures Commerce Association again, their first target will likely be me!

Formation!

There are still formations inside the Rare Treasures Commerce Association; they must rely on other formations!

The Rare Treasures Chairman suddenly retreated, shouting loudly while retreating, "Retreat, enter the treasury's Great Formation and use the treasury's Great Formation to resist them!"

Upon hearing this, the Earth Immortals who were struggling to defend immediately turned around and flew towards the treasury's Great Formation in the distance.

Meanwhile, inside the formation, each Earth Immortal cursed!

"Damn, they just left like that, leaving us to die!"

"Retreat, we're leaving the formation too!"

"Go, they all left, we can't hold it alone!"

When the Great Formation is broken, those inside the formation will suffer backlash. At that time, facing Cao Zhen and his group again will only lead to death!

We must retreat now.

In an instant, everyone inside the Great Formation also left the formation and flew towards the rear.

No one was left to defend the Great Formation, and it was instantly broken!

In the distance, the cultivators watching all inhaled sharply when they saw the Rare Treasures Commerce Association's broken Great Formation.

"It's terrifying that just eleven people managed to break the Great Formation!"

Chapter 1653:

"Is Cao Zhen's immortal power limitless?"

"I didn't expect that the Rare Treasures Commerce Association was already prepared, yet their Great Formation was still forcibly breached!"

"What will Cao Zhen do next?"

The people of the Rare Treasures Commerce Association were the first to fly towards the Great Formation of the treasury, but Cao Zhen was even faster. In the blink of an eye, he surpassed everyone and looked at those in the Earth Immortal Realm, suddenly shouting, "Many of you are not even part of the Rare Treasures Commerce Association. They've merely provided you resources to serve as offerings.

This is not your sect, not your home. Why risk your lives for the Rare Treasures Commerce Association? Now that their Great Formation has already been broken, if we can break one, we can break the second, the third...

Instead of waiting for the formation to be broken and die in vain, why not escape now?

We only have a vendetta with the Rare Treasures Commerce Association, not with you. It's not easy for you to cultivate to the Longevity Period, is dying like this worth it?"

This is the biggest difference between the Rare Treasures Commerce Association and the Great Teachings.

If they attacked those from the Great Teachings, people from the Great Teachings might fight to the death.

But the people the Rare Treasures Commerce Association finds are essentially mercenaries for money, how could they fight to the end?

As Cao Zhen's words fell, many around him became shaken.

Then, several voices rang in his mind.

"Sect Leader Cao, no, Sect Leader Cao, it's not that we want to fight for them, it's that the Rare Treasures Commerce Association holds things over us!"

"Sect Leader Cao, after joining the Rare Treasures Commerce Association, they compiled a roster documenting our identities.

If we run now, when more powerful members of the Rare Treasures awaken, they will surely come after us for retribution!"

"Sect Leader Cao, we can pretend to resist, you attack us with a slightly weaker spell, and we will pretend to be injured and will not stop you!"

"Sect Leader Cao, we..."

Listening to the cries, Cao Zhen sneered, "Are you still afraid of the Rare Treasures Commerce Association's revenge? They recorded your identities, did they? I will just burn that roster.

As for revenge, if everyone in their association is dead, who could possibly retaliate against you?"

As Cao Zhen's words fell, his figure suddenly flashed, instantly appearing in front of the Rare Treasures Chairman who was about to hide inside a Great Formation.

The Rare Treasures Chairman's eyes instantly widened, looking at the figure before him. He was so frightened that he was scared out of his wits, Cao Zhen, how could he be so fast, he...

The Rare Treasures Chairman wanted to dodge, but before he could take any action, the shadow of a sharp sword grew larger in his vision, followed by a surge of severe pain, and then his entire aura completely ceased.

"Since you initially sought the assassins to kill me, you should have been prepared for me to kill you!"

Cao Zhen killed the Rare Treasures Chairman with one sword stroke, looked around, and shouted again, "Their chairman is dead, do you still want to fight?"

As soon as he finished speaking, many people around hurriedly retreated to both sides, while secretly transmitting their voices into his mind.

"Sect Leader Cao, the roster must be in the Rare Treasures Chairman's Qiankun Bag!"

"Sect Leader Cao, I've seen it, the chairman put the roster in a Qiankun Bag, it's a black book..."

Upon hearing this, Cao Zhen did not act again but reached into the Rare Treasures Chairman's Qiankun Bag, and with an internal glance, he quickly pulled out a book with a black cover.

"This is the roster you were talking about, then, now this roster no longer exists!"

As Cao Zhen spoke, he squeezed hard, and the roster shattered with a bang.

In the next moment, each cultivator around suddenly turned and ran outward.

Just as Cao Zhen said, they are not part of the Rare Treasures Commerce Association, it's not their foundation here, they have no reason to risk their lives for it.

Moreover, they have already attained certain benefits, why stay behind at this point?

Even if Cao Zhen doesn't kill them, since they are now withdrawing from battle, when the Rare Treasures Commerce Association's Indestructible Period experts awaken, they'll surely be held accountable.

Even if they're not called to account, staying at the Rare Treasures Commerce Association means they'll continue following their orders, how can it compare to the freedom outside?

Anyway, the roster is gone, and many are solitary individuals, with no ties or attachments, they could find a place to hide and carry on. Without the roster, how would the Rare Treasures Commerce Association find them?

People always follow others' leads. If one person runs, so does the second one. In just a blink, more than half of the Earth Immortal Realm from the Rare Treasures Commerce Association ran outside.

Cao Zhen did not care about these people either. Killing the Rare Treasures Chairman was because he had hired assassins to target him. Others had no personal grudges against him, so he truly didn't wish to kill them.

He let these people run because he didn't want trouble or delays. After all, their goal this time was the resources in the treasury.

With a large number from the Earth Immortal Realm leaving, those who had entered the Formation also fled one after the other.

In an instant, their view became flat and open.

"This time, it was even easier than anticipated."

Cao Zhen pointed at the treasuries before them, "Hurry, break open the treasuries and take the treasures inside."

Saying this, he began to take action, breaking open the first treasury. They came prepared this time and wouldn't face a situation like the last time, where they didn't have enough Qiankun Bags.

As Cao Zhen entered the treasury, Duo Duo looked to the side at Immortal Ruo Yun, and said in a low voice, "Ruo Yun Junior Sister, Master still has some compassion. Just taking from the treasury is not enough; the Rare Treasures Commerce Association still has sleeping experts.

Master thinks those people have no grudges against us, so he doesn't want to kill them, but we..."

"Let's help Master resolve this impending concern," Ruo Yun nodded, flying towards the rear mountain with Duo Duo. Zhu Peng followed closely.

In the distance, those watching finally realized Cao Zhen's true goal in coming this time.

"So, they came for the Rare Treasures Commerce Association's treasury!"

"Cao Zhen took once and it wasn't enough, now he's here for a second time?"

"Why do you think no one targeted the Rare Treasures Commerce Association directly before?"

"Even the main headquarters of the Rare Treasures Commerce Association was robbed, wonder how their branches will fare?"

Chapter 1654:

Cao Zhen never imagined that when attacking the living tomb within the Rare Treasures Commerce Association, it wasn't supposed to be his disciples, but Yan Yourong who should have done it. Why did Duo Duo and Ruo Yun take Zhu Peng there?

In the distance, a group of cultivators watched, their eyes green with envy as Cao Zhen and the others transported the Rare Treasures Commerce Association's treasury. Yet, they dared not make any move. To act now would mean snatching food from the Hundred Peaks Sect, and wouldn't that be courting death?

Very soon, the group finished clearing out the Rare Treasures Commerce Association's treasury. They regrouped with Duo Duo and flew towards the Hundred Peaks Sect, without encountering any hindrance along the way.

"This Wansheng City is really inadequate," Yan Yourong said while flying, unusually taking the initiative to complain, "We came here, robbed the Rare Treasures Commerce Association, and the people of Wansheng City, how could they not see us? They acted as if they saw nothing at all."

If this happened in our Guardian Immortal Imperial Dynasty, no matter how strong the person, the Guardian Immortal Imperial Dynasty would suppress them and make them follow the dynasty's rules."

Yi Sheng nodded slightly in agreement and said, "That's why the Grand Preceptor issued laws back then and ruled the country by law. That is truly the right policy for governing a country."

Cao Zhen looked back at Yi Sheng. He remembered that this disciple of his had always admired the Grand Preceptor. Back then, before he joined the Four Treasures Peak, Yi Sheng had expressed his admiration for the Grand Preceptor.

Duo Duo had never seen the Grand Preceptor, so she had no particular feeling towards him. She skipped over the topic and said in a low voice, "I discovered their living tombs aren't numerous. Moreover, the experts within the living tombs are all at the Earth Immortal Realm. There isn't a single person in the Immortality Regainment Realm.

The Rare Treasures Commerce Association can't possibly have no experts at the Immortality Regainment Realm. So, I suspect they have another headquarters."

"There must be," Yi Sheng picked up the conversation, "There are indeed many treasures in these vaults, but they don't match the status of the Rare Treasures Commerce Association as the number one commerce association in the world."

Cao Zhen felt that this time, the treasures obtained were indeed plentiful, with various resources in abundance. The only issue was the lack of particularly high-grade resources.

It so happened that he needed to refine pills that required several high-quality immortal herbs.

Even when he asked Yi Sheng to contact Tao Zhenghe to try to purchase through the commerce association, they simply couldn't acquire them.

"It seems there's only one way, to find someone for an exchange."

With no other choice, Cao Zhen set out again, heading towards the Dragon Chant Sect. This time, while on the road, he even secretly exchanged with his main body, letting the avatar continue to play the role of the Bleeding Tears Assassin, killing outside, while he headed to the Dragon Chant Sect. This time, he

could only hope the Dragon Chant Sect had the herbs he needed. If they didn't, he could only try the Yin Yang Sect to see if he could exchange for enough herbs.

He had just visited the Dragon Chant Sect not long ago, but this time, upon entering the Dragon Chant Sect, the temporary sect leader and others came to greet him warmly.

"Sect Leader Cao, why didn't you notify us in advance of your visit to our Dragon Chant Sect? We could have made preparations."

With a cheerful smile, the temporary sect leader led Cao Zhen to their Conference Hall. Cao Zhen was still that Cao Zhen, but his status was different.

Now, Cao Zhen was the Sect Leader of Hundred Peaks Sect, the leader of a great teaching.

When the leader of a great teaching visits, regardless of which great teaching he belongs to, he should be given enough respect, at least the basic courtesies should be observed.

Besides, he was merely a temporary sect leader, and in just over two years, he would no longer be the Dragon Chant Sect leader, unlike Cao Zhen.

The Hundred Peaks Sect used to be just a sect, but it was Cao Zhen who made it become the Hundred Peaks Sect, and Cao Zhen himself was a reincarnated sage.

Even if those Indestructible Period experts of the Hundred Peaks Sect were to awaken, chances are, Cao Zhen would still be the sect leader of the Hundred Peaks Sect.

In the entire Eastern Province, the leaders of those great teachings never travel without sufficient experts accompanying them.

Even though to be a temporary sect leader means being extraordinarily strong in their cultivation realm, no matter how strong you are, you still fear being outnumbered by others.

A temporary sect leader is still a sect leader, representing the entire great teaching. If the temporary leader were to be assassinated outside, it would not only be a disgrace but would also cause chaos and disrupt many arrangements.

After all, when their actual leader arranged for a temporary sect leader before going into slumber, many secrets were entrusted to the temporary leader.

So it's not saying that if a temporary leader dies, you can just casually find another expert to replace them.

Throughout the Eastern Province, there really isn't a case like Cao Zhen's, where a leader travels alone so casually.

Of course, the enemies of the Hundred Peaks Sect are not few, quite the contrary, there are many. The problem is Cao Zhen is too strong and possesses treasures like the Silvery Wings. If anyone wanted to assassinate Cao Zhen, sending too few would not be enough, and if they sent many, Cao Zhen could easily escape, and they wouldn't be able to catch him.

Cao Zhen clasped his hands towards the temporary sect leader of the Dragon Chant Sect and said, "We are so familiar with each other, there's no need to be this polite. This time, I've come to the Dragon Chant Sect to do some business with you."

"Oh? May I know what business Sect Leader Cao hopes to conduct with us?"

Around them, members of the Dragon Chant Sect heard this and became interested immediately. The last time Cao Zhen traded with them, he had imparted over a hundred spells, including Mysterious Rank spells. This time, was Cao Zhen planning to exchange spells for their resources again?

However, Cao Zhen shouldn't be lacking in resources.

Chapter 1655:

After all, not long ago, Cao Zhen had just led his disciples to the headquarters of the Rare Treasures Commerce Association in Wansheng City and cleaned it out completely.

Cao Zhen glanced around at the crowd, and the people seemed the same as when he was here last time; they should all be the high-ranking members of the Dragon Chant Sect. He didn't hesitate and directly said, "I came this time to exchange some resources with you. You should know that I got quite a lot of resources from the Rare Treasures Commerce Association."

"Sect Leader Cao, what you got wasn't just some resources," Immortal Shuanghua, who had helped at the Hundred Peaks Sect with the Heavenly Tribulation and was somewhat familiar with Cao Zhen, laughed upon hearing this. "That was the Rare Treasures Commerce Association's treasure vault being swept clean; honestly, we at Dragon Chant Sect are very envious."

"It's just that we don't have the capability. If we did, we would have wanted to loot the Rare Treasures Commerce Association a long time ago."

Beside him, a burly man immediately shouted, "Sect Leader Cao, this time you've done a great deed that makes people's hearts satisfied. I heard that after you looted the headquarters of the Rare Treasures Commerce Association, people realized that during this special period, the Rare Treasures Commerce Association is far less formidable than expected, leading to quite a few Rare Treasures Pavilions getting attacked too."

"They deserve it; they've made a lot of money from each Great Teaching in the Eastern Province, with prices growing increasingly outrageous."

"Ahem..." Cao Zhen quickly coughed twice and emphasized, "The reason we attacked the Rare Treasures Commerce Association was not to rob them of their resources, but primarily because they have been targeting our Pinbao Business Association; they started first, so I went to find them at the Rare Treasures Commerce Association."

"We are all associations, properly doing business, attacking and competing against each other commercially is one thing, but they had no regard for honor, so they can't blame me for taking action, right?"

Although everyone knew he was indeed there to loot the Rare Treasures Commerce Association, after all, he is now the Sect Master of the Hundred Peaks Sect, someone seen as a sect leader by others.

He must be slightly mindful of his reputation, isn't it?

Upon hearing this, everyone laughed; Cao Zhen's words, not even a child would believe them.

Immortal Shuanghua again asked, "Sect Leader Cao, you mentioned those treasures, are you thinking of selling them to us?"

"I'm thinking of giving them to you, but not selling, rather exchanging for other resources." Cao Zhen pondered for a moment and said, "Ladies and gentlemen, I need some Immortal Herbs, including Seventh Grade Immortal Grass, Hundred Leaf Snake Flower Mulberry, Seventh Grade Immortal Grass, Tangxin Hollow Bamboo, and Sixth Grade..."

Cao Zhen directly listed the various medicinal herbs he needed, and immediately, everyone furrowed their brows tightly, the smiles on their faces disappearing.

The Sect Hierarchy of Dragon Chant Sect lightly shook his head and said, "Sect Leader Cao, the Immortal Herbs you're asking for are at minimum Sixth Grade Immortal Herbs, and most are Seventh Grade Immortal Herbs. Ordinary people won't offer Seventh Grade Immortal Herbs for sale, and our Dragon Chant Sect is no exception.

No matter how many resources you offer, I can hardly exchange them with you directly."

"Oh?" On hearing the Sect Hierarchy's words, Cao Zhen felt pleased, thinking that the Sect Hierarchy hinted that Dragon Chant Sect had these Immortal Herbs?

He wasn't afraid of Dragon Chant Sect asking too much; he feared they couldn't gather enough Immortal Herbs.

"Sect Hierarchy, don't rush to refuse, after all, you haven't seen what I'm offering in exchange, right? Now the question is whether your Dragon Chant Sect has these Immortal Herbs?"

"Our Dragon Chant Sect..." The Sect Hierarchy was about to speak, but a thought sprang up inside him, and he said quietly, "The herbs of our Dragon Chant Sect are all in the treasure vault. Whether we have these resources precisely, we need to check carefully.

How about this, Sect Leader Cao, you stay here and sip tea for now. Moreover, you and Bi Yue have not met for a while, so you can catch up first, while we check whether we have the herbs."

Saying this, the Sect Hierarch turned and headed outside.

Behind him, numerous high-level members of the Dragon Chant Sect followed suit.

Bi Yue watched everyone's actions, her brows furrowing slightly, yet followed along too. Finding Immortal Herbs shouldn't require so many people.

Moreover, their Dragon Chant Sect has elders specifically responsible for recording treasures in the vault, whether these herbs exist, the elders would certainly know.

Clearly, the Sect Hierarch was not going to check herbs but wanted to negotiate on how to deal with Cao Zhen, or perhaps discuss how to take advantage of him.

The Sect Hierarch turned back to see Immortal Bi Yue closely following and sighed inwardly, quickly saying, "Bi Yue, we're going to check the herbs, you don't need to follow. It's a good chance for you two to catch up."

Hearing this, everyone around chimed in persuadingly.

"Yes, Bi Yue, you two haven't met for some time, have you?"

"Sister Bi Yue, within the two Great Teachings, meeting times between you and Sect Leader Cao are already short; thankfully, we're all leaving, giving you room without disturbance."

"Sister, we're leaving, leaving Sect Leader Cao here alone wouldn't be proper hospitality, right?"

Under normal circumstances, indeed Immortal Bi Yue isn't part of the Dragon Chant Sect's high-ranking members; she wouldn't have the qualification to follow on such matters.

The problem is, Bi Yue's status is too special; frankly speaking, whenever this peculiar period fully passes, within Dragon Chant Sect, she would be nothing.

But once all experts awaken, even in high-level meetings, if Bi Yue wants to attend, no one would stop her.

Chapter 1656:

So, they couldn't openly refuse Immortal Bi Yue, and could only find an excuse.

They are all senior members of the Dragon Chant Sect, how could they not know that if the Sect Hierarch wanted to verify the presence of those alchemy ingredients, he didn't need to check personally and could just inquire with the Elder managing the treasury?

Clearly, the Sect Hierarch had something to discuss with them, and he specifically wanted to keep Immortal Bi Yue behind, fearing that she might side with outsiders.

Although Immortal Bi Yue belonged to the Dragon Chant Sect, her relationship with Cao Zhen was well known by everyone.

Previously, Cao Zhen was not at all worthy of Immortal Bi Yue's attention.

But now, with the Hundred Peaks Sect having become the Hundred Peaks Sect, and with Cao Zhen being the sect leader of a Great Teaching and a reincarnated Great Ability, he could definitely be a match for Immortal Bi Yue.

Perhaps, once Immortal Bi Yue's elder awakens, they might consent to their union, allowing them to become Dao companions?

There's a saying among mortals that a married daughter is like water spilled out.

Moreover, when people from the Hundred Peaks Sect previously went outside the ruins to hunt down members of the Soul Breaking Demonic Sect and the Weeping Blood Demon Sect, Bi Yue didn't hesitate to go directly.

If they truly brought Immortal Bi Yue into the discussion, it's possible whatever strategy they just discussed would immediately be secretly relayed to Cao Zhen by her, preventing them from being cautious.

Seeing that everyone was going to discuss matters behind her back, Immortal Bi Yue furrowed her brows tightly, showing a trace of displeasure on her face, and just as she was about to speak, from a distance, Cao Zhen's voice came over.

"Bi Yue, the Elders are right, and since we haven't met for a while, I also have things to discuss with you."

As Cao Zhen spoke, he waved at Immortal Bi Yue. He could tell that these people from the Dragon Chant Sect wanted to discuss matters without her presence, and he understood that Bi Yue had good intentions for him, so he wanted to follow up.

He didn't know what the others would do if Bi Yue insisted on staying, but he didn't want to make Immortal Bi Yue uncomfortable.

Seeing that Cao Zhen had spoken, Bi Yue could only turn away, walk towards him, and sighed, "They are blatantly trying to take advantage of you. Why don't you let me go?"

"Letting you go would make things difficult for you, wouldn't it? After all, you are still a member of the Dragon Chant Sect. This time, I came here to conduct a trade with your sect, and if they want you to step aside, then step aside.

Even if they try to take advantage, they cannot raise the price to the extent that I would have to sell the entire Hundred Peaks Sect to them, right? Moreover, over the years, your Dragon Chant Sect has indeed helped our Hundred Peaks Sect quite a bit.

Besides, I came prepared this time. Your Dragon Chant Sect has many Divine Dragons, and you must value them greatly, don't you?"

Bi Yue nodded slightly, "That's right, and perhaps even more than you think. To put it this way, currently, those powerful Divine Dragons are all asleep. Although the remaining Divine Dragons can speak human words, they are still too naïve, so they do not get involved in the affairs of our Dragon Chant Sect.

However, once the Divine Dragons equivalent to the Immortality Regainment Realm awaken, they will be involved in many decisions of our sect."

"That's good. Bi Yue, could you do me a favor and find a Divine Dragon, one who can speak for the Dragon Clan?"

"Alright." Immortal Bi Yue did not hesitate, promptly turning around and leaving.

The Sect Hierarchy of the Dragon Chant Sect led everyone out of the conference hall and did not stop, but continued flying to a secluded place before stopping. He set up a Sound Isolation Spell and then turned to ask the oldest-looking gentleman in the crowd, who had graying hair, "Elder Hu, do we have all the alchemy ingredients Cao Zhen mentioned in our Dragon Chant Sect?"

Elder Hu did not hesitate a bit and immediately nodded, "Yes, we have them all."

"In that case, it will be easy to handle." The Sect Hierarchy of the Dragon Chant Sect turned to the congregation, "Ladies and gentlemen, the Hundred Peaks Sect has just become a Great Teaching, and Cao Zhen immediately went to snatch the Rare Treasures Commerce Association, followed by coming to our Dragon Chant Sect asking specifically for these ingredients. What does this make you think of?"

Without waiting for the crowd to speak, Elder Hu was the first to speak, "Cao Zhen is in a hurry! He urgently needs various resources. This is likely in preparation for dealing with the upcoming awakening of the Indestructible Period."

"Exactly!" The Sect Hierarchy energetically clapped his hands and exclaimed, "To maximize the benefits of doing this business with Cao Zhen, we must first understand what he is planning.

Right now, all of Eastern Province knows that Cao Zhen has made mortal enemies with the Weeping Blood Demon Sect and the Soul Breaking Demonic Sect.

Cao Zhen, being a reincarnated Great Ability, is certainly no fool. How could he not know that once the Indestructible Period experts awaken, those experts from the two Demon Sects would immediately set out to attack the Hundred Peaks Sect.

So he must have some fallback measures to handle the attacks from these two Great Teachings. What do you think he might have?"

Among the crowd, a burly man speculated, "Perhaps it's the Sky Encompassing Ten Thousand Immortals Star Gathering Formation, after all, the Wanxiao Sect has already stated that the Great Teachings the Hundred Peaks Sect merged with or annexed included the Ten Thousand Immortals Sect, so they very likely have the Great Formation of the Ten Thousand Immortals Sect!"

As soon as his words fell, someone immediately retorted, "Have a Great Formation? Even if they have that Great Formation, how much power could it have left after so many years? Or even if they could activate it, do you think they would dare use it?"

Chapter 1657: The Secret Art of the Undisseminated Legacy

At present, the great teachings of the Eastern Province are extremely wary of their Ten Thousand Immortals Sect towards the Hundred Peaks Sect.

If the Hundred Peaks Sect were to use the Great Formation again, proving that the Great Formation is in their hands and they can use it, our Righteous Path's great teachings will not take action, but those Demonic Sects will definitely strike with full force to besiege and annihilate the Hundred Peaks Sect.

At that time, they would not only face the Weeping Blood Demon Sect and the Soul Breaking Demonic Sect, but all the Demonic Sects together."

"That's right, even if they have the Great Formation, they wouldn't dare to use it now. Cao Zhen's backup plan definitely can't be the Sky Encompassing Ten Thousand Immortals Star Gathering Formation."

Dragon Chant Sect Hierarch nodded slightly, whispering: "I think the same. In fact, it's not hard for us to guess Cao Zhen's backup plan. Previously, everyone thought that after the Minor Era of Inversion of Heaven and Earth ended, the Hundred Peaks Sect would surely be destroyed.

But who knew, the Hundred Peaks Sect suddenly had so many in the Earth Immortal Realm appear, and so many Yellow Grade spells.

Even more terrifying is that before their sect tribulation, more than a dozen people directly went from the beginning of the Longevity Period to the Peak of the Longevity Period, and what's more, their Immortal Mountains were so terrifying.

During the Longevity Period, he could make those at the beginning of the Longevity Period become the Peak of the Longevity Period. So tell me, when it comes to the Indestructible Period, why wouldn't Cao Zhen be able to make those at the beginning of the Indestructible Period directly become the Peak of the Longevity Period?

Although this seems absurd, Cao Zhen has already done it once, so it's very possible he could do it a second time.

Moreover, we all know that Cao Zhen is a top alchemy expert. He could make those at the beginning of the Longevity Period reach the Peak of the Longevity Period in a short time; it's very likely he used pills.

And this time he's here to trade medicinal materials with us. The answer is obvious; he plans to help their Hundred Peaks Sect's experts directly become the Peak of the Indestructible Period after they awake, to resist the Weeping Blood Demon Sect and the Soul Breaking Demonic Sect."

After finishing the Hierarch's analysis, none of those around opposed, but they all nodded in agreement.

"I agree with the Hierarch."

"So, for the Hundred Peaks Sect to survive, they must trade with our medicinal materials!"

"In that case, we could definitely demand a substantial sum. Cao Zhen mentioned the treasures they obtained from the Rare Treasures Commerce Association. If we just exchange for those treasures, we could indeed get quite a few treasures, but wouldn't we be wasting this opportunity to rake in some serious profits?"

Elder Hu pondered for a moment and suggested: "Spells, I think we should continue exchanging for spells. Doesn't Cao Zhen have that Mysterious Rank Thunderbolt Technique? We can request that spell. Besides, Cao Zhen must have other Mysterious Rank spells; we can ask him for more of those."

"Spells are indeed an excellent choice, but we don't know if Cao Zhen can provide so many Mysterious Rank spells. Actually, we can also ask for something else."

By the way, didn't their Hundred Peaks Sect just finish transcending tribulation? The treasures bestowed by Heaven are not to be trifled with; we can ask for a portion of them as Heavenly gifts." A skinny man among the crowd turned to Immortal Shuanghua and said, "Sister Shuanghua, you went to the Hundred Peaks Sect to help during the tribulation. You should know what treasures the Heavenly Dao bestowed; we can ask for those treasures."

"Indeed, the Heavenly Dao did bestow quite a few treasures; among them are Immortal Fields..." Immortal Shuanghua just began to mention a type of Heavenly gift, when beside her, Elder Hu suddenly thought of something and shouted excitedly, "I know what we should ask for."

Didn't Cao Zhen mention a secret technique? It was that secret technique that allowed Cao Zhen and Xiang Ziyu to reach the level of Perfect Completion Golden Core with the Nine Abnormal Phenomenon Golden Pills. We can have Cao Zhen teach us this secret divine skill!"

As his words fell, some immediately shook their heads and said, "Since it's a secret technique, naturally Cao Zhen wouldn't teach us."

"How could that be?" Elder Hu retorted defiantly, "The Hierarch already mentioned earlier, Cao Zhen urgently needs those medicinal materials to cope with the awakening of the Indestructible Period experts."

If he cannot enhance the strength of the Hundred Peaks Sect disciples, their entire Hundred Peaks Sect would be wiped out.

Therefore, he is desperately in need of these medicinal materials.

After all, no matter how powerful or unique a divine skill is, it still requires someone to inherit it. Do you think Cao Zhen would choose to let the Hundred Peaks Sect be destroyed, or use that divine skill to exchange for medicinal materials?"

As his words ended, everyone around fell into contemplation, and they realized Elder Hu's words were indeed correct.

"If we can help our Dragon Chant Sect acquire such divine skills, we'd be doing a great service!"

"Exactly, the Hierarch could even potentially be directly rewarded with that divine skill!"

"To have a divine skill that can make the body with the Nine Abnormal Phenomenon Golden Pills reach the Golden Core Period Limit, this is indeed a tremendous contribution."

Immortal Shuanghua, watching everyone who seemed to have already acquired Cao Zhen's secret divine skill and fallen into excitement, sighed inwardly and interrupted reluctantly: "I also wish our Dragon Chant Sect could obtain such divine skills, but there's no such possibility.

You haven't seen the disciples of Four Treasures Peak transcend the tribulation, nor have you seen the terror of that divine skill. I can only say that just the body refining aspect of this divine skill alone is far stronger than you can imagine, not to mention Cao Zhen said this divine skill is all-encompassing and profound."

Chapter 1658

He will never impart the Divine Skills to us. If you don't believe it, you can ask Lao River, as well as Feng Huo and Feng Bing. They also went to help the Hundred Peaks Sect endure the Sect Tribulation and saw how powerful the bodies of the Four Treasures Peak disciples were."

The crowd around immediately turned their heads to look at the three.

"Shuanghua is right." Lao River, facing the crowd, recalled the scene when he saw the disciples of Four Treasures Peak resisting the Sect Tribulation on that day, especially Cao Zhen and Xiang Ziyu using their bodies to resist the tribulation, and sighed, "Those Divine Skills are indeed stronger than we imagined.

I'm afraid even in our Dragon Chant Sect, they would become secrets never to be shared, and only the most core disciples could cultivate such Divine Skills.

Cao Zhen would never pass on those Divine Skills."

Although Feng Huo and Feng Bing did not reply, their nodding actions undoubtedly affirmed the words of Shuanghua and Lao River.

The crowd, whose hearts were originally burning with passion, suddenly felt as if a bucket of cold water had been poured on them, extinguishing their fire in an instant.

After a long while, the Dragon Chant Sect Hierarch sighed and said: "Even if the possibility is small, we have to give it a try, what if we succeed? Let's go. Anyway, we now know what Cao Zhen is seeking. It's Cao Zhen who is seeking us. No matter what, this time we are at an advantage. Even if we can't trade for those Divine Skills, we must make Cao Zhen bleed a little.

Actually, it's not really making him bleed. Since he wants to find our Dragon Chant Sect's Bi Yue, he has to make a show somehow, doesn't he?"

The crowd laughed as they returned to the Conference Hall, but as they entered the hall, they were slightly taken aback — Bi Yue was not in the hall?

At this time, shouldn't she be accompanying Cao Zhen? Could it be that Bi Yue went off to eavesdrop on their conversation?

However, they had all set up a Sound Isolation Spell. Even if Bi Yue went to eavesdrop, she could not possibly hear what they were talking about.

The Dragon Chant Sect Hierarch pondered slightly and then said: "Sect Leader Cao, we just took a look, and indeed we have the medicinal materials you need. But as you know, these are all Immortal Herbs, and most are even Seventh Grade Immortal Herbs.

Sect Leader Cao, you yourself are a reincarnated Great Ability, you should know how difficult it is to obtain Seventh Grade Immortal Herbs.”

Since Cao Zhen is now a Sect Leader, he naturally had to personally discuss with Cao Zhen, rather than let Immortal Shuanghua and others handle it.

“This, I truly do not know how difficult it is to obtain Seventh Grade Immortal Herbs.” Cao Zhen started to bluff, “In my era, Seventh Grade Immortal Herbs were truly not considered rare. Not to mention every Great Teaching, even smaller sects had Seventh Grade or even Eighth Grade Immortal Herbs.”

The Dragon Chant Sect Hierarch was momentarily choked. How could this Cao Zhen not follow the usual routine? You... Fine, your era was earlier, so at that time, Seventh Grade Immortal Herbs were abundant. Okay, I accept it!

“Sect Leader Cao, after all, the opportunities now are different. You have been living in our era for a long time, Seventh Grade Immortal Herbs are really precious.”

The Dragon Chant Sect Hierarch collected his thoughts and continued to explain the preciousness of Seventh Grade Immortal Herbs: “Most of these Seventh Grade Immortal Herbs were collected by our predecessors in the Dragon Chant Sect, who ventured into countless ruins and dangerous places, risking their lives to collect them.

Moreover, outside, major commerce groups would not sell Seventh Grade Immortal Herbs, only at some top-tier auctions would Seventh Grade Immortal Herbs appear.”

He then looked at Cao Zhen and said: “Sect Leader Cao, if you are just using ordinary resources, like those below Third Grade Immortal Herbs, and items below that, to exchange for these Immortal Herbs, no matter how much you offer, we cannot exchange with you either.

Seventh Grade Immortal Herbs are incomparable to ordinary Immortal Herbs and Immortal Mines because Seventh Grade Immortal Herbs are truly too precious.”

Cao Zhen nodded slightly. He also understood the preciousness of Seventh Grade Immortal Herbs; otherwise, he wouldn't have come to Dragon Chant Sect to exchange for these Immortal Herbs.

“If that’s the case, then, I wonder what your Dragon Chant Sect wants in return?” He wanted to see what the group at Dragon Chant Sect had discussed for so long, what exactly they wanted.

“Sect Leader Cao, you previously mentioned transmitting a Divine Skill to Bi Yue, a secret not to be shared. If you can agree to teach this Divine Skill to our Dragon Chant Sect, we can hand over the Seventh Grade Immortal Herbs you need to you!”

As the Dragon Chant Sect Hierarch spoke, he felt his voice slightly trembling. That is a top-tier Divine Skill!

If he could obtain such Divine Skills, he would really achieve great merit. He couldn’t even imagine what kind of rewards he would receive when the true high-level members of the Dragon Chant Sect awakened.*freewebnovel.com*

“You still want my Divine Skills!” The faint smile on Cao Zhen’s face instantly vanished, and he almost shouted, “Are you intending to turn your back on our Hundred Peaks Sect and become enemies!”

These guys really dared to think that they could actually want his Eight Nine Mysterious Art!

Immortal Shuanghua watched Cao Zhen, who was almost about to turn hostile instantly, and shook her head helplessly. See, I told you Cao Zhen wouldn’t give that Divine Skill; the Sect Leader didn’t listen and still wanted to try.

They all said it’s a secret not to be shared; why don’t you believe it?

The Dragon Chant Sect Hierarch’s face also showed a surprised look; he really did not expect Cao Zhen to have such a large reaction. He truly believed Immortal Shuanghua’s words now and quickly waved his hand: “Sect Leader Cao, don’t get agitated, don’t get agitated. We can continue to discuss it.

Since that Divine Skill won’t work, then the Thunderbolt Technique that you and your disciples performed can work!”

Chapter 1659:

"You still want the Five-thunder Righteous Method!" Cao Zhen's eyes locked onto the Sect Hierarchy of the Dragon Chant Sect, a terrifying murderous intent emerged, and he said coldly, "Our Hundred Peaks Sect and your Dragon Chant Sect have always had a good relationship. Are you determined to become enemies with us?"

The Sect Hierarchy of the Dragon Chant Sect, who initially showed a bit of regret on his face, revealed dissatisfaction between his brows. He had shown regret and conceded because he touched the other's bottom line, but concession did not mean he feared Cao Zhen.

Cao Zhen is indeed a reincarnated cultivator with Great Ability, but the Hundred Peaks Sect behind him has only recently become a Great Teaching. Their Dragon Chant Sect has existed for over two million years as a top Great Teaching, far beyond what the Hundred Peaks Sect can compare to.

If Cao Zhen treats him like this, if he continues to concede, where is the prestige of the Dragon Chant Sect, where is their face!

"Sect Leader Cao, aren't you being a bit excessive?" The Sect Hierarchy of the Dragon Chant Sect said in a deep voice, "It was you who came to our Dragon Chant Sect, actively wanting to exchange for our Immortal Herbs. Now, you speak like this, saying that our Dragon Chant Sect is forcing your Hundred Peaks Sect to become enemies with us. What does this mean?"

It's just a Mysterious Rank Spell, shouldn't be that big of a deal."

All around, everyone looked displeased; they truly did not understand where Cao Zhen's great anger came from. They could understand the divine skills previously mentioned, as Cao Zhen had also said that it was his sect's untransmittable secret!

But that Thunderbolt Technique was just a Mysterious Rank Spell, not some Heavenly Rank Spell or Earth Level Spell!

"Just a Mysterious Rank Spell?" Cao Zhen sneered, "I'm not afraid to tell you, this Five-thunder Righteous Method is the strongest spell of my lineage before I reincarnated. Do you think I can perform such a Mysterious Rank Spell during the Longevity Period?"

Because it's the spell I am most proficient in, I'm so familiar with it that I can modify it to perform it during the Longevity Period.

The Five-thunder Righteous Method you see now is not the true Five-thunder Righteous Method! The current Five-thunder Righteous Method can only be said to be the foundation!

I have already told you before, I will not teach you the Five-thunder Righteous Method, and now you still want it; isn't this forcing me to become estranged from you!"

Everyone around was suddenly shocked; the Five-thunder Righteous Method they see now is only the foundation of the true Five-thunder Righteous Method, and even the foundation is already a Mysterious Rank Spell, so the true Five-thunder Righteous Method is...

Earth Level Spell?

The Earth Level Spell is an absolute untransmittable secret in any Great Teaching, being a sect defense spell!

Under such circumstances, Cao Zhen indeed cannot impart this Five-thunder Righteous Method to others.

They finally understood now why Cao Zhen can allow people in the Longevity Period to perform Mysterious Rank Spells; it turns out it is his most proficient spell.

The Sect Hierarchy of the Dragon Chant Sect sighed inwardly as he looked at everyone around him. He had discussed everything well outside, but now he found that after conversing with Cao Zhen, everything was not going according to his pre-calculated script.

There was no other way, he could only seek help from others to speak up.

Immortal Shuanghua sensed the Sect Hierarchy's gaze, thought for a moment, and said, "Sect Leader Cao, we didn't mean to do this intentionally. After all, you didn't say before that the Five-thunder Righteous Method is the strongest spell of your lineage. If you had said it, we wouldn't have made such a request."

Previously, their Sect Hierarch had taken a step back; they shouldn't continue to concede, so if there was any concession, it should be said by someone else, and since Immortal Bi Yue was not present, she was the person most familiar with Cao Zhen among them, so she could only say this to ease the tense atmosphere between the two sides.

As she spoke, she paused slightly, then continued, "Since the Five-thunder Righteous Method is not feasible, Sect Leader Cao, do you think there is any other spell suitable for our Dragon Chant Sect for exchange? Of course, it must be a Mysterious Rank Spell."

They had discussed before that if they were to acquire spells, the lowest level should be Mysterious Rank. The Yellow Grade spells they obtained before were already sufficient; they truly had no great demand.

Moreover, the Seventh Grade Immortal Grass is indeed very precious; the amount Cao Zhen wants isn't small, and they really couldn't bear to use them to exchange for Yellow Grade spells.

"Why do you insist on spells? The spells I gave you before were already enough; I don't have any more suitable spells for you. After all, I have to leave enough spells for our Hundred Peaks Sect.

Or how about this..."

Cao Zhen proposed, "You should know that I previously helped our Hundred Peaks Sect's disciples, and Bi Yue, to instantly ascend from the Early Longevity Period to the Peak of the Longevity Period.

Soon, experts of the Indestructible Period will awaken. After the Heavenly Dao allows breakthroughs to the Indestructible Period, I can help one of your early Indestructible Period experts directly ascend to the Peak of the Indestructible Period."

Everyone heard this, exchanged glances, and although they had speculated before that Cao Zhen could directly allow an early Indestructible Period cultivator to break through to the Peak of the Indestructible Period, hearing Cao Zhen say it personally still astonished them because such a method is indeed terrifying.

Breaking through the Indestructible Period is not that simple, even for those who are exceptionally talented, except for those special reincarnated cultivators with Great Ability, or those who self-sabotage their cultivation base and then cultivate to recovery.

Normal cultivators, even those so-called prodigies, aiming to cultivate from the early Indestructible Period to the Peak of the Indestructible Period.

From what they know, their Dragon Chant Sect's fastest was the master of Immortal Bi Yue, their Sect Hierarch's disciple.

That person took a hundred years!

This was already the fastest in their Dragon Chant Sect, in their two-million-year history!

Others, those top prodigies, took two hundred years, three hundred years to break through from the early Indestructible Period to the Peak of the Indestructible Period, which was already incredibly fast.

Even taking five hundred years, a thousand years to cultivate from the early Indestructible Period to the Peak of the Indestructible Period, they were considered geniuses!

They have seen many who took thousands of years to cultivate to the Peak of the Indestructible Period.

Therefore, Cao Zhen's method is truly terrifying.

However, this condition is still far from sufficient.

The Sect Hierarch of the Dragon Chant Sect shook his head and said, "Sect Leader Cao, your method is indeed brilliant, but a peak of the Indestructible Period does not make much of an impact on us Dragon Chant Sect. If we were to choose someone, it would certainly be a top prodigy of our Dragon Chant Sect; for top prodigies, three hundred years is enough to cultivate from the early Indestructible Period to the Peak of the Indestructible Period.

Just saving three hundred years, intending to exchange for so many Seventh Grade Immortal Herbs is too far off."

Chapter 1660:

In the Dragon Chant Sect's Conference Hall, Cao Zhen glanced calmly at everyone and queried, "Do you really think I'm merely having them go from the early Indestructible Stage to the Peak of the Indestructible Period so easily?"

The members of the Dragon Chant Sect immediately thought of the Hundred Peaks Sect, where the disciples who reached the Longevity Period peak, except for two of them, all had an Immortal Mountain reaching more than ninety zhang.

Thus, Cao Zhen's method isn't just about breakthroughs?

The Sect Hierarchy of Dragon Chant Sect inquired contemplatively, "Then, Sect Leader Cao, if someone were to, through your special method, break from early Longevity Period to its peak, to what extent could they reach?"

"That depends on their aptitude." Cao Zhen replied, pausing slightly before continuing, "However, generally, with my assistance, after reaching the Longevity Period peak, their Immortal Mountain can at least reach seventy zhang in height, and with further improvement, at least attain eighty zhang."

I speak of average aptitude individuals, but if their talent is better, ones like Bi Yue, and my disciples, their Immortal Mountain could exceed ninety-five zhang in height."

He wasn't lying, although individuals such as Qiao Jingyao, Linghu Gudu, and Liao Youdi, haven't reached ninety-five zhang yet after the breakthrough, but given time for cultivation, the height of their Immortal Mountain has improved, with Bi Yue's Immortal Mountain already exceeding ninety-five zhang.

Meanwhile, Zi Zai and Wanrend Di had Immortal Mountains reach eighty zhang initially, and now both are nearing ninety zhang in height.

Ninety-five zhang...

It can be said, in the Longevity Period, reaching ninety-five zhang is a significant hurdle.

Many people's Immortal Mountains stall at ninety-four zhang, unable to advance.

Through Cao Zhen's methods, breaking into the Longevity Period peak can further reach ninety-five zhang, which is indeed astounding!

As for the earlier claim of eighty zhang, that's typical of disciples with ordinary talent, clearly, they wouldn't extend such opportunities to average aptitude disciples.

"Then what about the Indestructible Period? What height can someone reach after breaking from early Indestructible Stage to its peak, using your method?" The Sect Hierarch finally showed interest.

What height?

Cao Zhen mused internally, I also wonder about the height, as I haven't reached the Indestructible Period myself, how would I know? If I knew, would I still be discussing Longevity Period statistics? I'd have spoken of the Indestructible Period figures first.

Sighing inwardly, he could only enigmatically say, "Your current era is too far from the epoch I existed in; the Heavenly Dao and Spiritual Energy have changed dramatically. I can only assure my pill is intact, but can't guarantee what specific height they could reach."

"I see..."

The Sect Hierarch pondered, observing the pill crafted by Cao Zhen, seeing its substantial enhancement during the Longevity Period.

Thinking that those geniuses, upon reaching the Indestructible Period peak through his pill, should become leading figures within the Indestructible Period.

If indeed gaining one more top-of-the-line Indestructible Period individual, it could be beneficial for the Dragon Chant Sect.

Moreover, if it's not just one, but two, five, or even ten?

In that case, Dragon Chant Sect could accomplish numerous objectives.

And certainly, the pill would be for early Indestructible Stage geniuses.

Indestructible Period geniuses have already reached late-stage or peak levels within the Indestructible Period.

But, they are different.

He, along with Shuanghua Immortal and other contemporaries, were geniuses of their era; otherwise, they wouldn't be interim leaders of Dragon Chant Sect.

And having attained the peak of Longevity Period, as soon as the Heavenly Dao allows Indestructible Period strength to emerge, they can immediately break through.

When selecting early Indestructible Stage geniuses, surely, they would directly choose themselves.

Thus, they could bypass the early-stage directly to the peak of the Indestructible Period! Even leveraging this special period to adventure, exploring treacherous lands...accomplishing many feats.

Being interim leaders of the Dragon Chant Sect means absolute loyalty to the sect; one could even say they are the most dedicated disciples, with nearly all having senior members holding high positions or being notable experts within Dragon Chant Sect.

However, loyalty doesn't imply absence of personal interest.

While considering the sect's benefits, they also factor in personal agendas, which doesn't affect much.

He still had a concern.

"Sect Leader Cao, I wonder, does this method have any side effects?"

This was his sole worry, as the method seemed defying natural order.

"Side effects?" Cao Zhen scoffed instantly, retorting, "My disciples, the geniuses of Hundred Peaks Sect, all enhance their cultivation base with pills, and even I use pills for advancement.

Do you think if there were side effects, I would still do so?"

The Sect Hierarch lightly nodded and whispered, "Then, Sect Leader Cao, I agree with using the method to empower our geniuses, but one person is far from sufficient."
