

## **My Master 1661**

### Chapter 1661

He glanced around as he spoke, then extended a fist and said, "What you need to help our Dragon Chant Sect with is for ten individuals at the Early Indestructible Stage to break through to the Peak of the Indestructible Period!"

All around, including Immortal Shuanghua, everyone instantly turned their burning gazes towards Cao Zhen. It was evident that they would be selecting the talents at the Early Indestructible Stage from among them.

"Ten?" Cao Zhen was taken aback and shook his head repeatedly, saying, "Impossible. It's not that I don't want to help you, but the resources are insufficient...as you all know, my expertise is in alchemy.

However, the problem is that the ingredients required to refine such pills are truly too numerous. It's not just the Immortal Herbs you've been asked for, but many other ingredients as well."

The Sect Hierarchy of Dragon Chant Sect immediately spoke upon hearing this, "What other ingredients does Sect Leader Cao need? Our Dragon Chant Sect can provide them."

He also knew that the number of ingredients needed by Cao Zhen to refine such pills would certainly be astronomical, but the issue was that in doing so, they were essentially using Dragon Chant Sect's resources to enhance themselves.

He believed that even when those experts of the Indestructible Period awakened, they would agree to their actions.

After all, if they could create ten top-tier experts at the Peak of the Indestructible Period, the benefits to their Dragon Chant Sect would be immense indeed.

"Is that so? Then let me first tell you the ingredients needed, and you can see whether you can gather them."

Cao Zhen pondered slightly, then spoke the names of various ingredients aloud. He truly wasn't afraid that they could deduce the pill prescription from knowing the ingredients he used.

The ingredients required for such pills were truly too many, and it wasn't easy to deduce. Moreover, he wasn't foolish enough to reveal all the ingredients directly.

Part of the ingredients needed for pill refinement were still available in the Hundred Peaks Sect now. He could very well omit the cheaper and more common ingredients and then add some others.

For other alchemists, unless they have reached his level, even if they use the wrong amount, not to mention the wrong ingredient, the pill would fail.

Even if the people of Dragon Chant Sect experimented countless times or had top-notch alchemists deducing the prescription,

the problem is they wouldn't know the method of alchemy itself and the most crucial technique of special pill formation, so it's still useless.

As for helping the other party refine pills and enhancing so many people,

this indeed was beyond his expectations.

After all, what he initially thought was only to help Bi Yue advance slightly, which is why he specifically mentioned one person.

He didn't expect Dragon Chant Sect wanted to enhance so many experts.

However, assisting so many people in Dragon Chant Sect didn't seem to be a bad thing.

All around, even though people had guessed the required ingredients were extremely numerous, they couldn't help but feel daunted upon hearing Cao Zhen list them.

The number of ingredients was truly overwhelming.

Everyone turned their gaze towards Elder Hu.

Under their watchful eyes, Elder Hu nodded gently. Indeed, Dragon Chant Sect could provide these ingredients, but handing them over would almost empty some of their reserves.

After all, although Dragon Chant Sect was powerful, it was impossible to have an abundant stock of every kind of ingredient.

Among the ingredients Cao Zhen needed, some Immortal Herbs were relatively rare and seldom used in pills, and Dragon Chant Sect didn't have a large reserve of them.

After Elder Hu nodded, everyone turned their gazes towards the Sect Hierarch.

Would the Hierarch approve of using so many ingredients?

Facing the collective gaze, the Dragon Chant Sect Hierarch was about to speak when a commotion was heard from outside the Conference Hall.

Everyone turned towards the entrance, seeing two silhouettes — one large, one small — appearing in their sights.

A dragon?

Their eyes widened in surprise.

Bi Yue, astonishingly, walked in with a dragon.

For a moment, everyone was bewildered. This was clearly a dragon from the Holy Mountain — what was it doing in their meeting?

Why had Bi Yue brought a dragon here?

The Dragon Chant Sect Hierarch, filled with curiosity, looked at Immortal Bi Yue and asked, “Bi Yue, why have you invited the Divine Dragon of the Holy Mountain?”

Bi Yue smiled at Cao Zhen, “It was he who asked me to bring the dragon from the mountains.”

She said as she looked at Cao Zhen, “This is the strongest existence within the Dragon Clan now. It gave itself a name, Dragon Wangu.”

Just as Bi Yue finished her introduction, Dragon Wangu’s enormous form turned to Cao Zhen, looking displeased, “Human, quickly say what you want with me brought here by Bi Yue!”

The Dragon Clan didn’t like to leave the Holy Mountain. If not for Bi Yue finding him, she wouldn’t have come here.

Cao Zhen scratched his head wearily. Initially, he planned to directly trade with the Dragon Clan, offering them a divine skill.

Zhang Daoling’s lineage on Dragon and Tiger Mountain had once studied dragons, and Zhang Daoling even possessed a dragon divine skill, intending to exchange with it.

But now, with the Dragon Chant Sect proposing another deal, if it involved helping refine pills and empowering them, while also granting divine skills to the Dragon Clan, that would be a big loss for him.

But the problem was, he had already asked Bi Yue to bring the dragon here. It wouldn’t make sense to tell it to go back now, saying he was just curious to see a dragon. That would be playing with it, and he wouldn’t be able to engage in future trades with the dragons of the Holy Mountain.

Chapter 1662:

Now the little Dragon is still at Hundred Peaks Sect, what if this Dragon gets angry and insists on taking the little Dragon back?

His plan has just begun, he just found a wife for the little Dragon, he can't return it so quickly.

Or... should he just play it big this time?

Cao Zhen's heart moved, looking at Dragon Wangu, he said, "I have a Divine Skill here that's very suitable for your Dragon Clan, so I want to pass it on to you."

Dragon Wangu immediately let out a disdainful sneer, although he could speak human words, he couldn't shape-shift, he still looked like a Dragon, and his voice was evidently louder and rougher than human voices.

"Divine Skills? Can you humans even understand our Dragon Clan's Divine Skills? Our Saint Dragon Mountain is even older than Dragon Chant Sect..."

"Wait a moment..." Hearing Dragon Wangu's words, Bi Yue immediately shouted in displeasure, "Make yourself clear, your Saint Dragon Mountain is just one day older than our Dragon Chant Sect. Saying that it's older, people who don't know would think you've existed for tens of thousands of years longer than us!"

Dragon Wangu's attitude towards Bi Yue was noticeably better than towards Cao Zhen. He lowered his huge Dragon head, acting like a child defending himself, "Being one day older, even one day is still older. Anyway, our Saint Dragon Mountain has enough inheritance, humans... Of course, this time Bi Yue invited me, I must give Bi Yue face. You want to pass on a Cultivation Technique, right? Go ahead."

Cao Zhen was completely speechless, is this the attitude of someone accepting a Cultivation Technique inheritance? People who don't know would think I owe you something.

If it weren't for the fact that I just thought of a bigger plan, do you believe I would have kicked you out right now?

Cao Zhen calmed his mind and gathered a strand of Divine Thought, which surged towards Dragon Wangu's gigantic head.

Dragon Wangu was completely in a state of not caring about his inheritance, just giving Bi Yue face, but as the golden Divine Thought slowly flowed in, his face no longer had a careless look.

Gradually, his pair of huge Dragon eyes suddenly widened, seemingly in shock.

Suddenly, the Divine Thought Cao Zhen was transmitting came to an abrupt stop.

Dragon Wangu was immersed in the wonders of the Divine Skills, and suddenly the Divine Thought ended, along with the rest of the contents, he immediately panicked and shouted loudly: "Where's the rest of it? Continue, why did you stop?"

Cao Zhen calmly said: "Weren't you the one who looked down on my Divine Skills?"

"No, impossible, it's not me!" Dragon Wangu instantly denied it three times, shouting, "Quickly, pass the rest of the Divine Skills to me."

"There's no problem with passing the rest of the Divine Skills to you, but the thing is, I want to trade with Dragon Chant Sect for teaching you the Divine Skills." Cao Zhen spread his hands open, pointing towards the crowd of Dragon Chant Sect's leaders, "Now, we haven't completed the trade yet, how can I transmit all the Divine Skills to you."

Across, Dragon Chant Sect leaders heard this, their hearts immediately sank, no wonder Cao Zhen made Bi Yue stay, he was waiting here for them.

Dragon Wangu obviously was very interested in the Divine Skills, now it's troublesome.

Upon hearing this, Dragon Wangu immediately turned his massive Dragon head towards Dragon Chant Sect Hierarchy and roared: "Hurry up, complete the trade with him quickly, let him pass the Divine Skills to me soon!"

Dragon Chant Sect Hierarch heard this, sighed helplessly, these Dragon Clan guys, their intelligence is really worrying, how can you be like this, doing it this way, how can I negotiate conditions with Cao Zhen?

Yet, however helpless, he still braced himself and spoke, "Sect Leader Cao, you're just teaching one Divine Skill and wanting so many Immortal Herbs, this is really inappropriate.

How about this, you pass this Divine Skill to Dragon Wangu and then help us Dragon Chant Sect to mold some top experts.

We'll give you those materials, how about it?"

"Are you crazy? You're negotiating two conditions with me." Cao Zhen's eyes widened immediately, looking at Dragon Chant Sect Hierarch as if he had just gotten drunk, shouting: "Do you know what kind of Divine Skills I am passing on to Dragon Wangu? You don't know, let Dragon Wangu tell you."

Dragon Wangu immediately urged upon hearing, "Molding some experts, cultivation has always relied on oneself, where is the reason to rely on others? Hurry up, give the stuff to others, I want the Divine Skills, those Divine Skills are too suitable for our Dragon Clan.

Don't talk to me about how precious the herbs are, could herbs be more precious than a Cultivation Technique! Even if precious herbs, I want to exchange them!

I'm telling you, if because of you, he doesn't pass on the Divine Skills to us, when the time comes, I will certainly report this to our Dragon Clan elders, let our elders have a good talk with your elders!"

Dragon Chant Sect Hierarch felt a headache, this Dragon Wangu was really causing trouble. After he said so, Cao Zhen would surely not agree to those two conditions even more, not even willing to help mold an expert.

Two conditions, for the first condition, Dragon Chant Sect would have to expend a large amount of resources, for the second condition, the Dragon Clan would receive a Cultivation Technique extremely suited to them, how could one choose, only the second condition.

He even thought, if he dared to choose to have Cao Zhen help mold experts and not want that Divine Skill, Dragon Wangu could lead those Dragon Clan on a direct revolt.

Sure enough, he still has no chance, after entering the Indestructible Period, immediately reaching the peak of the Indestructible Period.

Dragon Chant Sect Hierarch sighed again helplessly and said: "Since, Dragon Wangu has spoken, then we agree to your conditions, we will give those herbs to you, please have Sect Leader Cao pass the technique to Dragon Wangu."

Chapter 1663:

In fact, these dragon clans are all within their Dragon Chant Sect, and if Dragon Chant Sect encounters danger, these dragons will also take action.

Furthermore, in every sect tribulation previously, the dragon clan has helped greatly.

Without them, Dragon Chant Sect absolutely wouldn't have been able to survive two million-year sect tribulations.

Moreover, these dragons now don't like going out. Once they can take human form, they will also venture out, and explore with the Dragon Chant Sect.

It's entirely possible to consider them as the people of Dragon Chant Sect, so the dragons obtaining the cultivation techniques is equivalent to strengthening the power of the Dragon Chant Sect.

This is the only way he can console himself.

Cao Zhen didn't make Dragon Wangu wait too long, once again sending a wisp of divine thought into Dragon Wangu's forehead, imparting the completed divine skills to Dragon Wangu.

The moment Dragon Wangu received the divine skills, he immediately turned and flew outside.

"Cao Zhen, right? I've remembered your name now. From now on, you are a friend of our Holy Mountain. Next time you visit Holy Mountain, you can directly inform the guard at the gate, and we will send someone to escort you inside Holy Mountain.

Now, I must return to cultivate the cultivation techniques."

As the last word echoed, Dragon Wangu's figure had already disappeared from everyone's sight.

But Cao Zhen did not leave immediately. He turned to look at the Dragon Chant Sect Hierarch and said softly, "Judging by the Sect Hierarch's expression, you'd really like me to help cultivate some experts, right? Actually, I can help you cultivate some experts. Moreover, it won't even require you to provide any resources, as long as you give me the necessary resources for refining pills."

"What!"

In an instant, in the hall, the high-ranking members of the Dragon Chant Sect exclaimed in surprise, looking at Cao Zhen with amazement.

They were even afraid they heard wrong and asked again: "Sect Leader Cao, are you saying? You're willing to help us refine pills for free? The kind you intend to give to your disciples?"

Cao Zhen nodded and said, "That's right, it is indeed free to help you refine pills, but I also hope that Dragon Chant Sect can cooperate with our Hundred Peaks Sect once."

"Cooperate?"

"What kind of cooperation?"

Upon hearing this, everyone felt it made more sense, as Cao Zhen wouldn't help them without any reason.

"It's actually very simple; this cooperation is also beneficial for your Dragon Chant Sect." Cao Zhen glanced outside the hall.

The Dragon Chant Sect Hierarch understood, raised his hand towards the void at the door, and immediately, the hall's door closed. He even set up a sound isolation spell before he looked at Cao Zhen and said: "Sect Leader Cao, please go ahead."

Everyone around also looked curiously at Cao Zhen, unsure of what Cao Zhen wanted to discuss with them that required such confidentiality.

Under everyone's attentive gaze, Cao Zhen slowly spoke: "Everyone knows, once the Indestructible Period awakens, the Weeping Blood Demon Sect and Soul Breaking Demonic Sect are certain to send experts to attack our Hundred Peaks Sect. How many experts do you think those two great sects will send?"

Everyone frowned immediately; Cao Zhen was talking about those two demonic sects for no apparent reason?

Though they found it strange, they still spoke up: "They will certainly send experts of the Indestructible Period."

"Their Indestructible Period experts are limited, they probably won't send too many."

"I estimate that from one great sect, they might send ten Indestructible Period experts, along with some Longevity Period experts. In total, twenty Indestructible Period experts should be enough to wipe out your Hundred Peaks Sect, right?"

"It might not be enough, since your Hundred Peaks Sect also has some in the Indestructible Period. Perhaps, one great sect might send fifteen, or even twenty Indestructible Period experts. But more than that would likely be impossible."

"No, I think one great sect would send at least thirty Indestructible Period experts. In that case, two great sects would send a total of sixty Indestructible Period experts, which surely could wipe out your Hundred Peaks Sect."

"Of course, if your Hundred Peaks Sect truly possesses the Sky Encompassing Ten Thousand Immortals Star Gathering Formation, that would be another matter. Sect Leader Cao, your Hundred Peaks Sect should have that formation, right?"

Cao Zhen did not answer the question directly, instead nodding: "According to your suggestions, they would send at most thirty Indestructible Period experts from one great sect.

And I believe, when the time comes, our Hundred Peaks Sect will certainly be able to withstand the attack of sixty Indestructible Period experts. In fact, this time, I won't reveal the full strength of Hundred Peaks Sect.

I will show only a portion of our strength, or let my disciples restrain themselves somewhat. After we annihilate their people, do you think the Weeping Blood Demon Sect and Soul Breaking Demonic Sect will respond? Will they send more people?"

"Certainly they will. As long as they believe they can annihilate you, they will send more experts to attack your Hundred Peaks Sect."

"That's right, you openly pursued their people outside the relic back then. If they don't completely annihilate your Hundred Peaks Sect, how will they save face? How will others view these two great sects?"

If so, would others also annihilate their people in other relics?"

Cao Zhen nodded and said, "So, when the time comes, these two great sects will certainly send more experts to attack our Hundred Peaks Sect, and the mobilization of such experts will severely harm those two great sects internally.

What do you think, if we then kill their people and go to attack Soul Breaking Demonic Sect, can the Soul Breaking Demonic Sect withstand it?"

Chapter 1664: Recruiting an Ally

At first, the Love-Blood Devil led the Weeping Blood Demon Sect, Sect of Ten Thousand Beasts, and Soul Breaking Demonic Sect, three Great Teachings, to attack the Void Breaking Sect while it was dealing with the Hundred Peaks Sect, eradicated the Void Breaking Sect, and then they, Hundred Peaks Sect, gained a lot of benefits.

So, why can't they, the Hundred Peaks Sect, use a similar method to deal with the Weeping Blood Demon Sect and the Soul Breaking Demonic Sect?

It has always been the Weeping Blood Demon Sect and the Soul Breaking Demonic Sect causing trouble for them, Hundred Peaks Sect can't keep staying on the defensive.

As Cao Zhen's words fell, everyone around gasped, Cao Zhen was incredibly bold, he actually wanted to destroy the Soul Breaking Demonic Sect!

After being surprised, Elder Hu shook his head and said, "This... Sect Leader Cao, regardless, the experts they send next time, your Hundred Peaks Sect may not be able to withstand."

"Can't withstand? If our Hundred Peaks Sect has enough experts at the Peak of the Indestructible Period, would we still be unable to withstand them? Besides, aren't you also with us?"

"Us?" Elder Hu was stunned for a moment, then shook his head and said, "It's impossible, although we are a Grand Righteous Sect and enemies with the Demonic Sect, the Soul Breaking Demonic Sect and Weeping Blood Demon Sect, these two Great Teachings haven't provoked us, and we have no reason to offend them."

All around, the other senior members of Dragon Chant Sect also shook their heads and said, "Yes, it doesn't make sense for us to help you without cause."

"In battles like this, deaths are inevitable. Our disciples from Dragon Chant Sect fight for Dragon Chant Sect, dying with honor.

But if we fight for your Hundred Peaks Sect, letting our Dragon Chant Sect disciples die outside, that doesn't make sense."

Cao Zhen lightly shook his head and retorted, “Who says deaths are certain? They calculate our Hundred Peaks Sect’s strength before sending people, moreover, if I allow you, Dragon Chant Sect, to have ten more top-tier experts at the Peak of the Indestructible Period, and then you send top-tier experts again, combined with our Hundred Peaks Sect’s experts, we can achieve zero deaths.

As for the offense to Soul Breaking Demonic Sect and Weeping Blood Demon Sect, what does it matter? Once we destroy them, does offense or non-offense matter?

On the contrary, you will become the great contributors of Dragon Chant Sect! The strength of Soul Breaking Demonic Sect is considerable, right? Their Great Teaching has plenty of resources. When the time comes, our two Great Teachings split their Soul Breaking Demonic Sect, gaining those resources, your Dragon Chant Sect’s seniors will surely reward you heavily!

Look, like this, you not only gain top-tier experts at the Peak of the Indestructible Period but also acquire so many resources, it’s unequivocally a profitable business.”

“But wanting to destroy the Soul Breaking Demonic Sect isn’t that simple.” Dragon Chant Sect Leader pondered aloud, “I know, Sect Leader Cao, you chose to destroy the Soul Breaking Demonic Sect instead of the Weeping Blood Demon Sect because the Soul Breaking Demonic Sect is weaker. But even though it’s relatively weaker, the Soul Breaking Demonic Sect is a medium-level Great Teaching. They’re not as weak as the Void Breaking Sect or Heaven Prayers Sect.

Even if they’ve lost many experts, combined with their Great Formation, our two Great Teachings need to deploy a large number of experts to destroy them. We would also suffer significant losses.

So, it’s best to pull in another Great Teaching, three Great Teachings join forces, to swiftly obliterate the Soul Breaking Demonic Sect!”

The Dragon Chant Sect Leader, while speaking, displayed an icy intent to kill, genuinely moved. He is the Sect Leader now; if he could destroy the Soul Breaking Demonic Sect and gain numerous resources, even when experts at the Indestructible Period have awakened, even if he’s not the Sect Leader then, the biggest credit would still be his!

Moreover, at that time, selecting ten individuals with good talent in the Early Indestructible Stage would surely include him.

As Sect Leader, his talent and cultivation base are top-tier during the Longevity Period within the Dragon Chant Sect.

That would save him at least centuries of cultivation time, importantly allowing him to reach the Indestructible Period and become Eastern Province's top battle force, accomplishing much more.

During this period, if he and his fellow disciples plan well, they could gain significant benefits.

Hence, he is exceedingly inclined to cooperate with Cao Zhen.

But he also knows that even if only their two Great Teachings take action, though they might destroy the Soul Breaking Demonic Sect, there would be losses, hence wanting to recruit another Great Teaching.

Beside him, Immortal Shuanghua nodded in agreement and said, "The Sect Leader is right, if only our two Great Teachings, though capable of destroying them, what if another Great Teaching helps?

For example, the Weeping Blood Demon Sect surely understands the truth of mutual dependence, if they fully rescue the Soul Breaking Demonic Sect, our two Great Teachings may not be able to defeat the Soul Breaking Demonic Sect.

After all, although our Dragon Chant Sect is strong and has the Holy Mountain's Dragon Clan guarding us, it's impossible to send out all experts."

She too hopes to cooperate with the Hundred Peaks Sect. Although she's not the Sect Leader, the greatest credit won't fall to her, choosing ten individuals will certainly include one from her, that would be the greatest benefit.

Cao Zhen slightly nodded after a moment's thought and said, "You have a point, then which Great Teaching would be suitable to choose?"

"Naturally, the Yin Yang Sect." Dragon Chant Sect Leader didn't hesitate to suggest, "Firstly, Yin Yang Sect is strong enough to send plenty of experts. Secondly, since the Minor Era of Inversion of Heaven

and Earth, the Yin Yang Sect and our Dragon Chant Sect have cooperated a lot. Their relationship with your Hundred Peaks Sect is also good, choosing them is most appropriate."

Chapter 1665:

"Then the question is, after choosing the Yin Yang Sect, how should we distribute?"

The Dragon Chant Sect Hierarchy naturally replied, "Our Dragon Chant Sect will naturally take a larger share. At that time, we'll dispatch more cultivators. Although the Yin Yang Sect is strong, they still need to leave some people to defend their sect, while we, due to our connection with the Sacred Mountain Dragon Clan, can dispatch more people."

Before the Dragon Chant Sect Hierarchy could finish, Cao Zhen directly interjected, "But the problem is, the highest level of combat strength of your Dragon Chant Sect was created with my help, wasn't it? I didn't help the Yin Yang Sect to create experts."

Upon hearing this, Elder Hu immediately retorted, "If it weren't for our Dragon Chant Sect agreeing, the Yin Yang Sect certainly wouldn't agree either."

"I believe that if I agree to help the Dragon Chant Sect with pill crafting, the people of the Yin and Yang Realm would also agree."

Initially, Cao Zhen just wanted to form an alliance with the Dragon Chant Sect as a great teaching, but the Dragon Chant Sect insisted on including the Yin Yang Sect. Simply helping to craft pills for the Dragon Chant Sect was evidently inappropriate.

Moreover, this is obviously a matter that also requires the Yin Yang Sect for negotiations. He even directly had the Sect Hierarchy of the Dragon Chant Sect contact the Yin Yang Sect through the communication mirror to discuss the matter.

Ultimately, they agreed that Cao Zhen would craft seven pills each for both the Dragon Chant Sect and the Yin Yang Sect, and it would be up to the two great teachings to allocate those pills.

As for the resources from breaking through the Soul Breaking Demonic Sect and the treasures in the treasury, they would be divided equally.

Other matters, such as the treasures from the defeated experts of the Soul Breaking Demonic Sect, would go to whoever killed them. The treasures in the caves and the burial mounds would belong to whoever found them.

Additionally, both great teachings must send experts to support the Hundred Peaks Sect as soon as possible.

Simultaneously, each great teaching would dispatch two teams to the Hundred Peaks Sect. Once Cao Zhen crafted the pills, their people would take the treasures back to their great teachings.

The Dragon Chant Sect dispatched their people under the leadership of Immortal Bi Yue, while the Yin Yang Sect sent theirs led by Immortal Jiu Yang.

In truth, Cao Zhen didn't want to immediately attack and annihilate the Weeping Blood Demon Sect or the Soul Breaking Demonic Sect, as both had suffered significant losses.

However, since the Hundred Peaks Sect had just become a great teaching, it was time to consolidate its power. He believed it was more appropriate to wait for action until the Indestructible Period, as the Hundred Peaks Sect would suffer fewer losses.

The gap between the Longevity Period alone was considerable, and the gap between the same cultivation realm during the Indestructible Period was even greater!

Upon returning to the Hundred Peaks Sect, Cao Zhen immediately began crafting pills.

After all, he could not enhance his cultivation base at the moment, and as for spells and such, he was in a position to win without effort, so why not craft pills?

At the time, more people from the Hundred Peaks Sect were engaged in exploration, not venturing outside, but exploring within the Hundred Peaks Sect.

Two years ago, the sect was filled with celestial energy, which was naturally more suited for cultivation at the time.

Now that the Hundred Peaks Sect had become a great teaching and the celestial energy had dissipated, they had time to explore the unentered caves of the Ten Thousand Immortals Sect.

Although the Ten Thousand Immortals Sect was destroyed and their treasury plundered, many caves were left unentered, leaving numerous inheritances.

Like the Hundred Peaks Sect, the Ten Thousand Immortals Sect was also a mixed sect, and the Hundred Peaks Sect members found many of the Ten Thousand Immortals Sect's inheritances directly usable.

The entire Hundred Peaks Sect was now thriving with prosperity.

With the arrival of the members from the two great teachings, they frequently sparred or discussed the Dao with the members of the Hundred Peaks Sect, who gained much from these exchanges.

This time, Cao Zhen crafted more pills than before, and they were even more precious.

He spent a year and five months to finish crafting the pills.

Subsequently, Immortal Bi Yue and Immortal Jiu Yang each led their great teaching members away from the Hundred Peaks Sect. Although their strength was adequate, this time, the pills they carried were too precious, and neither the Dragon Chant Sect nor the Yin Yang Sect felt assured letting them carry the pills alone.

Time passed swiftly, and unknowingly, two and a half years had elapsed since the Hundred Peaks Sect became a great teaching.

Lately, the entire Eastern Province seemed to have settled into a period of calm, with no major incidents occurring. Only minor conflicts kept arising occasionally, such as branches of the Rare Treasures Commerce Association being attacked by unknown individuals, resulting in heavy losses.

Another example is where a demon head from a certain demonic sect was killed by a Bleeding Tears Assassin.

As the Bleeding Tears Assassins continued to eliminate more individuals, people noticed their habit of only killing those who committed ruthless acts.

For a time, many demon heads within the demonic sects, who were known for their misdeeds, didn't dare to leave their sects.

They were waiting for the awakening of Indestructible Period experts.

They didn't believe for a second that the Bleeding Tears Assassins would continue to be so rampant once these experts awoke!

It was merely a waiting game.

Soon, the day they awaited arrived.

Above the Hundred Peaks Sect, the once clear void suddenly turned pitch-black, and the entire world began to shake violently. While in the blackness, the sun, moon, and stars appeared, dispelling the darkness entirely. Simultaneously, at the edge of the sky, there came a tremendous sound like the void being completely shattered.

On the Four Treasures Peak, Cao Zhen distinctly felt that with the fall of the mighty sound, an invisible shackle that had been suppressing him vanished entirely.

Now, the power limit allowed by the Heavenly Dao was the Indestructible Period!

He immediately took out several pills and said to the others behind him, "Alright, you are all at the peak of the Longevity Period. You can break through now, and once you do, take the pills immediately."

This time the group gathered around to take the pills was identical to those who took them the previous time.

Initially, he thought it was impossible to craft so many pills, given the limited resources.

However, because of the collaboration with the Dragon Chant Sect and the Yin Yang Sect, he was able to acquire more herbs from these two great teachings. Therefore, this time, he could help seventeen people in the Hundred Peaks Sect, including himself, advance from the Early Indestructible Stage to the peak of the Longevity Period.

Chapter 1666:

Hundred Peaks Sect's rear mountain, except for Cao Zhen and the disciples of Four Treasures Peak, as well as Chao Zi Zai, Liao Youdi, and others, Nie Jie and Tu Zhuque, Chen Qingluan, and the other high-levels of Hundred Peaks Sect and the Peak Masters have all gathered here, waiting for the experts of the Indestructible Period of Hundred Peaks Sect to awaken.

Suddenly, among the living tombs, one tomb abruptly exploded, followed by a figure breaking out from the ground.

"Elder Gu Chengyu has awakened!"

Soon, the second living tomb, the third, one after another, the tombs exploded consecutively, and figures flew out.

"Elder Ai Yunqi..."

"Peak Master Lv also woke up!"

"Elder Qiu also woke up."

This time, the number of experts waking up is significantly fewer than during the Longevity Period before.

Only ten people in total awakened.

After the last one, Qiu Wuxing awoke, no one else woke up.

Qiu Wuxing raised his head, glanced around, his gaze quickly falling on Tu Zhuque, Chen Qingluan, and others, nodding slightly, "Seeing you're all still here, I am relieved. It seems that during this time, you've all done quite well.

Now that we have awakened, you don't have to bear such great pressure anymore, next, we will protect Hundred Peaks Sect."

Saying this, he glanced at the people around, yet didn't see the figure he wanted to see, a trace of surprise appeared on his face, puzzled, "Where is Peak Master Cao? Why don't I see Peak Master Cao? During the Minor Era of Inversion of Heaven and Earth, he was our temporary Sect Leader of Hundred Peaks Sect, even now the temporary Sect Master is not him, he is still part of our sect's higher-ups, right? Why didn't he come? Moreover, where are his disciples?"

Actually, he mainly wanted to ask about Yan Yourong, as Yan Yourong had received the inheritance from Five Elements Peak, he also counted Yan Yourong as half a disciple of Five Elements Peak.

Although his interactions with Yan Yourong were fine, he could also feel that Yan Yourong is a person who values relationships deeply and respects teachers greatly, if Yan Yourong was in Hundred Peaks Sect, it would be impossible for her not to come upon his awakening.

Unless something unexpected happened to Yan Yourong?

Tu Zhuque shook his head upon hearing and called out, "Qiu Wuxing, you really have a lot to say. Cao Sect Master did not come because he has matters to attend to."

"Has matters, what matter can he have?" Qiu Wuxing asked instinctively, then sensing something amiss, exclaimed in surprise, "What did you call him? You say he is still our Hundred Peaks Sect's Sect Leader? Did you and Chen Qingluan not become the Sect Leader of Hundred Peaks Sect after awakening?"

"Qiu Wuxing, are you getting older and your ears aren't useful anymore?" Chen Qingluan looked at Qiu Wuxing with disdain and said contemptuously, "She said Sect Master, not Sect Leader!"

"Sect Master?" Qiu Wuxing was completely bewildered, around him, Ai Yunqi, Lv Chaoqiong, and others were also instantly dumbfounded.

"No, the term Sect Master cannot be used casually, it must be used for the one in charge of a Great Teaching. Our Hundred Peaks Sect is merely a sect." As Qiu Wuxing spoke, he inadvertently saw the distant unfamiliar rear mountain, and was stunned, pointing to the far-off, many unfamiliar peaks, asking, "What is the situation? Why are there so many peaks? I don't remember our Hundred Peaks Sect having so many peaks."

Exclaiming, he flew up to look, the next moment his eyes widened suddenly, full of disbelief looking at everything before him, exclaimed: "What is the situation? Is this our Hundred Peaks Sect? Where am I now? Here, how is it so vast?"

This is definitely not our Hundred Peaks Sect, nor are those mountain ranges our Hundred Peaks Sect's mountain ranges? What is the situation? Don't tell me, Hundred Peaks Sect has been annihilated."

With his exclamation, Lv Chaoqiong, Ai Yunqi, Gu Chengyu, and others also stood up, looked around, saw the distant unfamiliar peaks, as well as previously absent rivers, and even lakes, each of them was stunned.

In their hundred-year sleep, what has happened to Hundred Peaks Sect? Why is the environment before them so unfamiliar?

Lv Chaoqiong even loudly asked, "Could it be that Hundred Peaks Sect really doesn't exist anymore? You were annihilated, and the sect moved to another sect? But, here is so vast, it's impossible for a sect to be so big! Only the legendary Great Teaching could have such area, such many mountains!"

Tu Zhuque looked at everyone's anxious expressions, laughing heartily inside, deliberately nodded heavily, responding, "You're right, Hundred Peaks Sect indeed no longer exists."

She hadn't seen these old friends for too long, couldn't resist teasing this group of old guys.

The newly awakened ten persons heard this, their faces drastically changed instantly, each shouted in anger!

"What!"

"You all, you truly were annihilated!"

"Damn it, what did you do!"

"Where is Cao Zhen? Isn't he a reincarnated Great Ability? How could he let Hundred Peaks Sect be annihilated? How did Hundred Peaks Sect get annihilated? Who did it? In the Eastern Wasteland, is there any sect with such power?

Sun and Moon Demon Sect? Red Refinery Demonic Sect?"

Tu Zhuque looked at everyone's anxious looks, a funny expression appeared on her face, and the people around couldn't hold back any longer, laughing out loud one after another.

Qiu Wuxing looked at the mocking crowd, couldn't hold back, yelled in anger, "Laugh, Hundred Peaks Sect has been annihilated, and you still have the face to laugh!"

Chapter 1667: (Part 2)

Although Tu Zhuque's cultivation base was not as high as Qiu Wuxing's, he never held back against him, shouting loudly, "Qiu Wuxing, who said our Hundred Peaks Sect was destroyed!"

Qiu Wuxing's eyes suddenly widened, and he shouted angrily, "Who said that, wasn't it you who said it? Didn't you say our Hundred Peaks Sect no longer existed!"

"That's right, I said the Hundred Peaks Sect no longer existed, but I never said we were destroyed!" Tu Zhuque stopped teasing the crowd and looked at the ten people who had awakened, saying, "Because now, we're not called the Hundred Peaks Sect, we are called the Hundred Peaks Teaching! Do you know what the meaning of Hundred Peaks Teaching is?"

As she spoke, she exuded an unstoppable sense of pride and dignity!

Dumbfounded, aren't you? Now we are a Great Teaching, while you were asleep, we turned the Hundred Peaks Sect into the Hundred Peaks Teaching!

"What?"

"Hundred Peaks Teaching?"

Qiu Wuxing and the others were completely stunned, momentarily unable to react.

"Wait a minute... Are you saying that our Hundred Peaks Sect has become a Great Teaching?" Qiu Wuxing stared blankly at Tu Zhuque and shouted, "Being a Great Teaching is not something to joke about.

A Great Teaching isn't just something you can call yourself, it must be acknowledged by the Heavenly Dao. If you aren't a Great Teaching and claim to be one, you'd be punished by the Heavenly Dao! You better not talk nonsense."

Chen Qingluan snorted coldly, proudly saying, "Nonsense? Is it necessary for us to talk nonsense? You can look around, our Hundred Peaks Teaching has grown so vast, the spiritual energy is so abundant, can an ordinary sect be so large? Can it have such spiritual energy?"

And now that you're in the sky, didn't you see the Ascension Peak? Didn't you see your Five Elements Peak?"

"Five Elements Peak?" Hearing this, Qiu Wuxing immediately looked into the distance. He couldn't recognize other peaks, but he'd lived on the Five Elements Peak his whole life and could naturally recognize it.

Soon, among the vast peaks, he saw the existence of the Five Elements Peak.

"This, this really is the Five Elements Peak... But where did all those towering peaks surrounding our Five Elements Peak come from? In the past, there weren't so many mountains near the Five Elements Peak."

Tu Zhuque gave Qiu Wuxing a condescending look, as if to say he was a yokel without experience, and said, "I've already told you, our Hundred Peaks Sect has become the Hundred Peaks Teaching, naturally those peaks were added when we became a Great Teaching."

Qiu Wuxing, adopting a look that screamed, 'I'm not stupid, don't fool me,' shouted, "Impossible, the Hundred Peaks Sect is only a few years old, we're far from becoming a Great Teaching, how could we possibly become one! We only slept for a hundred years, not a hundred thousand years."

"That's right, you slept for more than a hundred years, but who says our Hundred Peaks Sect couldn't become the Hundred Peaks Teaching in that time?" Tu Zhuque looked at Qiu Wuxing with disdain and said, "Do you know that in a treacherous land, there's a mystical artifact called the Instant Millennium Pearl?"

"Treacherous land? What treacherous land? Instant Millennium Pearl, I've never heard of this item." Qiu Wuxing turned his head to ask Tu Lvchaoqiong and Ai Yunqi, "Have you ever heard of such an artifact?"

Not just Lv Chaoqiong and Ai Yunqi, but the other seven people also shook their heads one after another; they really had never heard of any Instant Millennium Pearl.

Looking at the bewildered crowd, Tu Zhuque couldn't help but feel a sense of superiority, and laughed, "I forgot, you all don't know that now our Eastern Wasteland is already connected with the Eastern Province. So naturally, you don't know about the treacherous lands, or the Instant Millennium Pearl."

"What? Connected with the Eastern Province?"

"What exactly is happening?"

Qiu Wuxing and the ten others were really dumbfounded; the world had changed too quickly—how could they sleep for more than a hundred years, merely a few years more than Tu Zhuque, and wake up to find their sect had become a Great Teaching, and that the Eastern Wasteland was connected to the Eastern Province?

“Actually, it’s...” Tu Zhuque had just begun to explain what had happened over the years when suddenly, terrifying auras erupted in the distance.

If it was only a single aura, they wouldn’t have been concerned or paid attention, but the problem was, there were simply too many of these auras.

Feeling these overwhelming auras, everyone turned their heads to look into the distance.

In the distance, a series of Immortal Mountains rose from the ground, there were more than a dozen of them, each instantly surpassing a hundred meters in height and showing no signs of stopping, still crazily climbing higher.

“Surpassed a hundred meters in height?” Qiu Wuxing’s eyes widened suddenly, full of astonishment, “Only by reaching the Indestructible Period can an Immortal Mountain reach such heights; is this within our Hundred Peaks Sect... no, Hundred Peaks Teaching, has someone broken through the Peak of the Longevity Period?”

And so many people have broken through? When did our Hundred Peaks Teaching gain so many experts at the peak of the Longevity Period? In that direction, which peak is it?”

In the past, he could tell at a glance which peak’s location it was, but now, the Hundred Peaks Teaching had changed so much he really couldn’t determine which spot these Immortal Mountains were rising.

“It’s the Four Treasures Peak; didn’t we say the Sect Master is busy; they are about to break through into the Indestructible Period.” Tu Zhuque said as she glanced at the crowd, “Actually, Chen Qingluan and I can also break through.”

#### Chapter 1668: The Soaring Immortal Mountains

Before, they were at the late Longevity Period. After spending two years cultivating in the immortal energy-filled environment of the Hundred Peaks Sect, they had all reached the Peak of the Longevity Period. Now that the Heavenly Dao permits the power of the Indestructible Period, they can break through into it.

Yet, having been separated from Qiu Wuxing, Lv Chaoqiong, and others for so long, they genuinely missed these old friends. Moreover, with Cao Zhen and the others absent, some people were needed to keep the situation under control here, so they did not rush to break through.

Qiu Wuxing looked puzzled: "Four Treasures Peak? Cao Zhen and the others? But there are too many people! Cao Zhen has only a few disciples, right? I remember it being five. Besides, if Cao Zhen can break through, his disciples couldn't possibly break through as well?"

And the time span of the Longevity Period isn't long, right? How can they possibly reach the Peak of the Longevity Period in just a few short years, then immediately break through?"

Just as the voice fell, Luo Xi, on the side, and Gu Chengyu's exclamation came through.

"No, it's not just about breaking through to the Indestructible Period. Their immortal mountains have already exceeded two hundred zhang and are still rising!"

Everyone noticed something unusual, looking incredulously at the distant sacred mountains still climbing.

Among those towering mountains, two of them slowed noticeably in their rise after reaching the height of two hundred zhang, finally halting at two hundred and twenty zhang.

Even so, the crowd couldn't help but utter gasps of astonishment.

"Two hundred and twenty zhang... My immortal mountain is not as high!"

"Lü Guanzhu, your immortal mountain is about... two hundred and ten zhang, right? Qiu Wuxing, Qiu Peak Master's immortal mountain is slightly taller, yet seemingly not up to two hundred and twenty zhang!"

"Two hundred and twenty zhang, that's definitely something achievable only after reaching the Peak of the Indestructible Period!"

"What is happening? How could they break through into the Indestructible Period and immediately achieve its peak?"

"Those immortal mountains are still growing madly."

"Stopped, another mountain's growth has ceased, but these mountains are also about two hundred and forty zhang tall!"

"Six more immortal mountains are growing wildly... These mountains, two hundred and fifty zhang? This..."

"To actually reach two hundred and fifty zhang during the Indestructible Period!" Qiu Wuxing couldn't help but exclaim: "Even the Peak Master of our Hundred Peaks Sect, praised as the most gifted in our Hundred Peaks Sect in nearly a hundred thousand years, her mountain was only two hundred and forty zhang during the Indestructible Period!"

Now, our Hundred Peaks Sect has six people exceeding her. Who are they?"

Nie Jie, who had been silent, finally opened his mouth, inferring, "It should be Ling Xi, Yan Yourong, Xiang Ziyu, Bei Yan, and Duo Duo from Four Treasures Peak. Also, our Sect Master Cao Zhen."

He paused slightly before explaining, "They all possess the Ancient Immortal Body, and that Duo Duo was a disciple taken in by Four Treasures Peak afterwards, also possessing the Ancient Immortal Body."

"No." Tu Zhuque said quietly, "Cao Zhen might not be among them. These six immortal mountains are about the same height, and Cao Zhen's mountain reached one hundred zhang at the Longevity Period, so his mountain should be higher."

Therefore, Cao Zhen might not be among them, and the other should be Ruo Yun, his disciple."

"Hmm?" Qiu Wuxing looked in mild astonishment at Tu Zhuque. Even if Tu Zhuque mentioned Ruo Yun, no matter how talented, she's still a disciple of Four Treasures Peak, a generation below Tu Zhuque. Why would Tu Zhuque address her as 'immortal'?"

Tu Zhuque seemed to understand Qiu Wuxing's confusion and proactively explained, "Immortal Ruo Yun is a reincarnated Great Ability. It is said that in her previous life, she was a pinnacle existence in the True Immortal Realm."

"What!" Qiu Wuxing was utterly taken aback and cried out loudly, "Did I hear incorrectly? A reincarnated Great Ability? Can reincarnated Great Abilities also become disciples of our Hundred Peaks Sect?"

What has the world come to?

Reincarnated Great Abilities can also join the sect he belongs to?

No, it should be called a Great Teaching now.

Suddenly, another immortal mountain surged up from the direction of Four Treasures Peak, and it kept climbing, reaching two hundred zhang in the blink of an eye without halting.

In the blink of an eye, the mountain reached two hundred and ninety zhang before stopping.

"This... A two hundred and ninety zhang immortal mountain?"

"Never heard of anyone in the Indestructible Period having an immortal mountain reach two hundred and ninety zhang!"

"Is that Cao Zhen? He just broke into the Indestructible Period today, even if he's a reincarnated Great Ability, he shouldn't be so terrifying!"

Qiu Wuxing and Lv Chaoqiong and the others completely couldn't comprehend it.

Meanwhile, Tu Zhuque and others gazed at the immortal mountain above Four Treasures Peak, all filled with awe. They knew Cao Zhen was formidable, and guessed that as a master his mountain should be

higher than those of his disciples, but they couldn't have imagined that Cao Zhen's mountain would be this high!

After a long while, Lv Chaoqiong finally sighed, "No wonder our Hundred Peaks Sect could become the Hundred Peaks Teaching. With someone as capable as Cao Zhen, even without that so-called Instant Millennium Pearl you mentioned, our Hundred Peaks Sect would surely become a Great Teaching.

Chapter 1669: The Four

"In this way, we can also be assured. With so many experts at the peak of the Indestructible Period, our Hundred Peaks Sect will surely stand firm and develop better."

"Leader Lv, you might be too optimistic." Nie Jie saw the smiles on the faces of the elders and couldn't help but interrupt, "The environment our Hundred Peaks Sect is in now is still somewhat dangerous.

We are now connected with the Eastern Province, where there are many Great Teachings, and among them, two Great Teachings hold a deadly grudge against our Hundred Peaks Sect.

Previously, they didn't dare to make a move against us because during the Longevity Period, the Sect Master and the disciples of Four Treasures Peak were too formidable.

Now that it is the Indestructible Period, the opponents will certainly not give us a chance to slowly enhance our power; they will surely launch attacks against us at the earliest opportunity.

I fear that it won't be long before people from the two Demonic Sects come to attack our Hundred Peaks Sect."

"What? We have a deadly grudge with two Great Teachings?"

Lv Chaoqiong and Qiu Wuxing were momentarily shocked upon hearing this.

"How did we offend the two Great Teachings?"

"It's nothing." Tu Zhuque said calmly, unlike the others who were panicking. "Our Sect Master merely led people from our Hundred Peaks Sect to hunt down members of those two Great Teachings outside a certain relic."

"What? We proactively went to kill members of two Great Teachings? This..." Qiu Wuxing was thoroughly anxious. "Those are two Great Teachings. Even though we have now become a Great Teaching ourselves, we've just barely reached that status. How can we handle confronting two Great Teachings simultaneously?"

Chen Qingluan sneered disdainfully: "Why can't we handle it? Previously, when we were just a sect, they came looking for trouble and were directly driven away. Now we are a Great Teaching.

Should they return, we can certainly continue to drive them away. Of course, we need to elevate our strength now. You all have already awakened, and the Sect Master and others have broken through. It's time for us to break through as well."

On Four Treasures Peak, Cao Zhen felt the surging immortal power in himself, a look of surprise in his eyes. He really didn't expect that after breaking through to the peak of the Longevity Period, Immortal Mountain could reach such a high level!

He could feel that he was almost at the limit of the Longevity Period.

His Immortal Mountain was so high due to various reasons. Firstly, of course, was the pill's efficacy. Additionally, the connections with people who have broken through also let him win just by association, massively enhancing immortal power.

Another major reason is the Prosperous Age Skills. He previously thought that with Hundred Peaks Sect becoming a Great Teaching, his prosperous age underwent changes, and all the enhancements were concentrated in another avatar.

But after he broke through to the Indestructible Period and operated the Prosperous Age Skills, he found out that the enhancement of his own prosperous age after the Hundred Peaks Sect became a Great Teaching was far beyond just that.

After all, the Hundred Peaks Sect instantly became a Great Teaching. A Great Teaching is vastly superior to a sect.

Now, running Prosperous Age Skills brings enhancements much greater than before.

Moreover, after becoming a Great Teaching, the overall power of the Hundred Peaks Sect has increased substantially, feeding a positive cycle in his prosperous age.

Under various factors, his Immortal Mountain directly broke through to a height of two hundred ninety zhang.

Currently, his disciples have just broken through. Those he's connected to can continue cultivating, further elevating him as they advance.

Xiang Ziyu can also continue cultivating the Eight Nine Mysterious Art.

He feels he doesn't need to exert much effort to quickly reach the limit of the Indestructible Period himself.

With the breakthrough to the Indestructible Period, he also noticed that the biggest changes were in his internal organs and soul.

The Longevity Period in the Earth Immortal Realm is about increasing lifespan.

The early stage of the Longevity Period can increase lifespan by ten thousand years, the mid stage by twenty thousand years.

The peak of the Longevity Period increases lifespan by forty thousand years, and he, at the limit, estimates his lifespan has increased by around fifty thousand years.

Although the Indestructible Period also increases lifespan, the more significant changes occur in the soul and internal organs.

During the Longevity Period, one's soul is still fragile, and many musical rhythm attacks target the soul, causing death by direct assault on the soul.

The soul during the Indestructible Period, however, becomes much stronger, even allowing slow cultivation of the soul and spells for soul attacks.

Generally, it's unlikely to face a situation where the physical body remains intact but the soul is directly annihilated.

Besides this, it's about the internal organs.

The Indestructible Period is named so because once reaching it, one's internal organs become not only extremely resilient but also possess incredibly terrifying regenerative abilities.

Even if the heart is obliterated, given enough time, the heart at the Indestructible Period can slowly repair itself.

Thus, upon becoming the Indestructible Period in the Earth Immortal Realm, one becomes exceedingly hard to kill.

Of course, if the gap is too vast, like an early-stage Indestructible facing a later-stage one, or if both their Immortal Mountain heights differ by fifty to a hundred zhang, even the Indestructible Period would be easily destroyed.

In essence, the Longevity Period mainly boosts lifespan, while the Indestructible Period enhances combat prowess.

Chapter 1670

So although the Longevity Period and the Indestructible Period are both within the Earth Immortal Realm, the difference between them is immense. From what he previously understood, throughout the entire Eastern Province, it's rare to hear of anyone in the Longevity Period being able to contend with someone in the Indestructible Period, let alone kill them.

Even if you are a genius in the Longevity Period and your Immortal Mountain reaches over ninety zhang, while the person in the Indestructible Period has limited talent and their Immortal Mountain is shorter than yours at just over eighty zhang, you still wouldn't be their match!

Cao Zhen looked at the people who had all successfully broken through and said, "Alright, everyone has now reached the Peak of the Indestructible Period. The situation our Hundred Peaks Sect faces is clear to everyone.

The Weeping Blood Demon Sect and the Soul Breaking Demonic Sect will soon attack us. Naturally, their awakened Indestructible Period cultivators will also require time, first to understand the situation of their Great Teaching, and it will take time for them to arrive.

But this won't take too long; within ten days, they will definitely come to kill us. For the next two days, everyone should consolidate their realm.

After two days, we will go and see those Divine Thoughts."

Initially, after their Hundred Peaks Sect successfully passed the Sect Tribulation, the Heavenly Dao sent down many Divine Thoughts, but he did not immediately go to touch those Divine Thoughts.

Firstly, he had passed on many spells to the Hundred Peaks Sect, and those spells were still sufficient. Moreover, there was the Ten Thousand Immortals Sect, and everyone still needed to explore the remaining legacies of the Ten Thousand Immortals Sect, which could not be absorbed all at once.

Another reason was to wait for the next batch of awakened experts.

Touching the Divine Thoughts would form cultivation techniques or spells.

These cultivation techniques and spells are not something anyone can cultivate, and there will also be suitable people to cultivate them.

Although they have Xiang Ziyu, they cannot let Xiang Ziyu cultivate all the spells and cultivation techniques.

The most important thing is that many spells and cultivation techniques require reaching a certain cultivation realm to cultivate.

The spells and cultivation techniques of the Longevity Period are not very useful to them either.

Therefore, if they open the Divine Thoughts too early, it will have limited benefits compared to waiting until after reaching the Indestructible Period to open them all at once.

Eastern Province, Weeping Blood Demon Sect, Conference Hall.

Now, the head position in the Conference Hall has already changed hands, and Bloodless Demon was standing below a group of new high-level members, reporting on the events that have occurred in their Weeping Blood Demon Sect during this period!

“So, our Weeping Blood Demon Sect, a dignified Great Teaching, was actually driven out by a Sect that was not even a Great Teaching at the time, and we didn’t even enter the ruins!

An immense humiliation! Our Weeping Blood Demon Sect has never been so disgraced before!”

A middle-aged man with hair covering half his face looked angrily at Bloodless Demon, and his gaze emitted a cold killing intent that made it seem as if he might strike and kill Bloodless Demon at any moment.

“Bloodless, this time you have greatly disappointed us!” Beside him, a man with a lean face and no hint of demonic qi, instead exuding an air of elegance, looked at Bloodless Demon with disappointment and said, “The old Sect Hierarch initially appointed you as the temporary Sect Hierarch during the Longevity Period because he trusted you, yet you failed the old Sect Hierarch!

“You led our Weeping Blood Demon Sect to repeated defeats at the hands of a small Sect from the Eastern Wasteland. No matter if the opponent has a reincarnated Great Ability, or if a top-level Great Teaching is secretly aiding them, wrong is wrong!”

If not considering that you led our Weeping Blood Demon Sect to unite with the Sect of Ten Thousand Beasts and Soul Breaking Demonic Sect to destroy the Void Breaking Sect and obtain a large amount of resources, I would have long since struck you down with a palm!”

“Enough.” Beside him, an old woman in colorful clothes spoke softly in dissuasion, “You also mentioned that Bloodless and they destroyed the Void Breaking Sect and obtained a vast amount of resources. That was a Great Teaching with resources accumulated over countless years; even though he has faults, he also has merits.”

“Yes, this time Bloodless Demon’s merits can offset his faults.” Another elder beside them began to persuade as well. The one who just scolded Bloodless Demon was the Blood Book Demon, and Bloodless Demon addressed Blood Book Demon as Uncle-Master.

Blood Book Demon and Bloodless Demon are from the same lineage. Blood Book Demon appeared to be scolding Bloodless Demon, but he was actually helping to absolve him, or else why would he have proactively mentioned how Bloodless Demon destroyed the Void Breaking Sect and seized a large number of resources?

“Offset his faults with his merits? It’s not that simple.” Blood Book Demon still looked resentful and said to the temporary Sect Hierarchy seated in the main seat, “Sect Hierarchy, this matter cannot go unaddressed. I suggest having Bloodless Demon go back and face the wall in contemplation for ten thousand years.”

Ten thousand years is an extremely long time, even for an ordinary cultivator.

Of course, Bloodless Demon is at the peak of the Longevity Period, and ten thousand years would not be enough to cause his death. Moreover, facing the wall in contemplation poses no danger; by suggesting he face the wall for ten thousand years, he is actually protecting Bloodless Demon indirectly.

Furthermore, as Bloodless Demon’s own personal Uncle-Master, having proactively mentioned punishment means others can’t propose a harsher penalty.

The Sect Hierarchy on the main seat gently shook his head and said, "There's no need for him to face the wall for ten thousand years. Just as some of the other junior brothers said, Bloodless Demon has faults but also merits. His merits are significant enough to offset his faults.

However, since Blood Book Junior Brother insists on punishing Bloodless Demon, then let him go back and face the wall in contemplation for a hundred years."

A hundred years, for someone at the Peak of the Longevity Period, is barely worth considering. Facing the wall for a hundred years is merely a symbolic punishment.
