

## **My Master 1721**

Chapter 1721:

Cao Zhen felt that he was quite proficient in the art of swordsmanship.

When he first came to this world, he had to rely on bluffing when discussing swordsmanship with others.

But now, if he were to discuss swordsmanship with someone, he believed that in the entire Guardian Immortal Imperial Dynasty, there were probably few who could surpass him.

Moreover, there was one thing he was most proud of: his swordsmanship and Sword Dao were almost entirely self-taught.

Although the swordsmanship belonged to the Heaven Illusion Sword Monarch, his disciple Duo Duo also practiced swordsmanship, and Immortal Ruo Yun was skilled in it as well.

He has achieved many victories in Sword Dao, but his Sword Dao has forged a path of his own, entirely different from his disciples'.

Yet he never expected that someone's Sword Dao would reach such a degree.

"This Martial Immortal, no wonder he could defeat the Grand Preceptor's disciple in the past with the guise of a mortal. This Sword Dao is more terrifying than anyone's I've ever seen.

It's a pity he went astray."

Cao Zhen, while instructing Yi Sheng in pill refining, observed the martial arts secret book of Yi Sheng through Star Lord Hao Yue's perspective.

No matter how strong the Martial Immortal was, he was still a mortal; all his martial arts guidance was recorded in books, and as long as one looked with their eyes, they could remember it all — whether

they could comprehend it or not didn't matter since everything was memorized, understanding could come later.

The other nine immortal sects of the Guardian Immortal Imperial Dynasty, along with the Sword Sect, agreed to jointly establish a new sect, and each immortal sect had begun their preliminary preparations.

However, they seemed worried about premature exposure leading to unexpected incidents, so only the upper echelons were preparing, while the disciples below were unaware of this.

Unknowingly, a year had passed.

Under Cao Zhen's guidance, Yi Sheng finally successfully refined the pill.

Cao Zhen, while notifying Star Lord Hao Yue and others to come to the Hundred Peaks Sect to obtain pills, also contacted his disciples outside, allowing them to return to the Hundred Peaks Sect.

In just three days, Star Lord Hao Yue and others had arrived at the Hundred Peaks Sect and taken the pills.

The six who took the pills were chosen for their exceptional talent, all at the early stages of the Indestructible Period.

However, among these six, apart from Star Lord Hao Yue, he did not know any of them.

Those he knew from the major immortal sects were those who participated in the Immortal Martial Arts Tournament; there were many with high talent among them, but their cultivation base was still too weak.

The end of the Minor Era of Inversion of Heaven and Earth hadn't been long ago, and now they were still lingering in the Longevity Period, some in the early stages, how could they use the pills?

Cao Zhen looked at Star Lord Hao Yue taking the pills, a smile appeared on his face; if others were not mentioned, Star Lord Hao Yue would break through to the Peak of the Indestructible Period soon, and he could win effortlessly again.

Although only six people consumed the pills, people from several immortal sects were dispatched.

As the six took the pills, torrents of vast and endless immortal aura surged out from their bodies, and subsequently, numerous immortal mountains appeared, soaring magnificently under everyone's gaze.

In just an instant, the six immortal mountains had all exceeded two hundred zhang.

"So fast!"

"Is it really this fast?"

Around them, experts from various immortal sects stared at their comrades, witnessing the rapidly soaring immortal mountains with wide-eyed shock.

They knew Cao Zhen could facilitate methods for rapid breakthroughs from the early stages to the Peak of the Indestructible Period, but they hadn't imagined the speed would be so swift!

In their thoughts, even at the fastest speed, it would take several days.

But now, it all happened in a flash!

"It stopped!"

"Two hundred twenty zhang height, that's impressive!"

"And the immortal mountain continues to rise, it's about two hundred thirty zhang now!"

Cao Zhen looked at the people before him, all chosen from various immortal sects with the highest talent indeed, with the lowest immortal mountain reaching two hundred twenty zhang, most rising over two hundred thirty zhang.

Though not as high as the disciples of Four Treasures Peak, like Zhu Peng and others, it was indeed rare.

Zhu Peng and his group had accumulated enough previously, at least in the Golden Core Stage, Zhu Peng and others were definitely stronger than these people in front.

So it was only normal that they didn't reach the two hundred forty zhang height like Zhu Peng and others.

Regarding Ling Xi and Yan Yourong, there was no comparison; they were Ancient Immortal Bodies, incomparable.

Meanwhile, Star Lord Hao Yue's immortal mountain continued to rise.

"Star Lord Hao Yue's immortal mountain is still elevating!"

"This, this is two hundred fifty zhang!"

"Terrifying, Star Lord Hao Yue's first attempt brought the immortal mountain to two hundred fifty zhang!"

"Thus, if Star Lord Hao Yue cultivates for a while longer, his immortal mountain might reach two hundred ninety zhang."

Amazed, everyone suddenly looked towards Cao Zhen, as the entire Eastern Province now knew Cao Zhen's immortal mountain had reached the height of two hundred ninety-five zhang!

Someone suddenly asked Cao Zhen: "Sect Leader Cao, when you consumed the pills, how tall did your immortal mountain reach?"

Around, everyone eagerly looked over.

It wouldn't be long before their Eastern Wilderness Sect would be established, by then Star Lord Hao Yue would be one of their own.

They were now eager to know, at what height Star Lord Hao Yue could achieve in the Indestructible Period, and Cao Zhen was the best reference.

Chapter 1722:

It seems that Star Lord Hao Yue is also a reincarnated great ability. Although he might not be able to compare to Cao Zhen when he just broke through, there shouldn't be too much difference.

Cao Zhen looked at everyone with a somewhat peculiar expression, "Why are you asking me about this? How am I supposed to answer you all?"

"If I tell the truth, I'm afraid it will be too much of a blow to you, especially to Star Lord Hao Yue."

"But if I don't tell the truth, when I broke through back then, everyone from our Hundred Peaks Sect witnessed it. I'm the Sect Master now, and lying would damage the Sect Master's authority."

Not far from Cao Zhen, Yi Sheng seemed to know what her master was troubled about. She thought for a moment and then took the initiative to answer for her master: "When my master broke through, the Immortal Mountain reached a height of 290 zhang."

"What?"

"How many zhang did you say?"

"Say it again!"

For a moment, everyone was completely stunned. They even doubted what they had heard until Yi Sheng's voice came again.

"I said, after my master took the pill, the Immortal Mountain reached a height of 290 zhang."

Everyone finally confirmed they hadn't misheard, it was indeed a height of 290 zhang.

"This... also taking the pill, Sect Leader Cao reached 290 zhang directly?"

"The gap is a bit too big, isn't it?"

"How can there be such a difference?"

The crowd looked at Yi Sheng who spoke, their hearts moved as they asked again: "Immortal Yi Sheng, we don't know, but after your breakthrough, what was the height of your Immortal Mountain?"

"Me?" Yi Sheng lightly shook her head and sighed: "We are somewhat lacking."

The crowd nodded slightly upon hearing this, just wanting to continue asking when Yi Sheng's voice came again.

"However, the Immortal Mountains of my senior brothers and senior sisters, as well as Junior Sister Ruo Yun, are as tall as Star Lord Hao Yue's."

Instantly, the surroundings fell into silence.

"Star Lord Hao Yue is just about the same as the disciples of Cao Zhen?"

Star Lord Hao Yue listened to Yi Sheng's words without much emotional fluctuation. Cao Zhen's disciples all possess the Ancient Immortal Body, which is naturally more powerful in the same cultivation realm.

However, once it reaches the Immortal Path Domain, everything changes.

In the Immortal Path Domain, it relies more on comprehension, and as a reincarnated great ability, he possesses the comprehension of his past life.

When the Immortal Path Domain arrives, it will be the beginning of the dominance of the reincarnated great abilities.

It's a pity about the mad axeman, back then, he also invited the mad axeman to join a new sect, but the mad axeman had no interest in these.

The mad axeman cannot directly take pills, who knows how long it will take for him to break into the peak of the Indestructible Period.

He looked at Cao Zhen and asked, "Sect Leader Cao, we need two days to stabilize our breakthrough realm. Is it possible to rest at the Hundred Peaks Sect for these two days? After two days, we will set out to annex a grand sect."

"Naturally, no problem." Cao Zhen nodded slightly and asked, "By the way, which grand sect are you planning to annex?"

Previously, everyone certainly had no choice but to annex the Void Breaking Sect. But now that their Hundred Peaks Sect, Dragon Chant Sect, and Yin Yang Sect have also destroyed the Soul Breaking Demonic Sect, Star Lord Hao Yue and his team have another option.

"The Soul Breaking Demonic Sect," Star Lord Hao Yue slowly explained, "We discussed before, although the Void Breaking Sect is more aligned with the grand righteous sects than the Soul Breaking Demonic Sect, they cannot be considered the purest demonic sect.

But a demonic sect is a demonic sect after all; so, it's better for us to annex the stronger Soul Breaking Demonic Sect. At least, their territory is larger than that of the Void Breaking Sect.

Additionally, Sect Leader Cao, when we go to annex the Soul Breaking Demonic Sect, some unexpected situations may arise.

I'm worried that some great sects' people, especially experts from demonic sects, might obstruct us. So, I wonder if Sect Leader Cao could bring a few experts to join us?"

The reason they waited for a year, until Cao Zhen finished refining the pill, was also out of concern that someone might block their ascent to a grand sect.

Now, having already taken the pill, their strength has increased significantly.

However, they are still worried it's not enough, hence they invited Cao Zhen to join them.

"Very well. I will take Duo Duo and Ling Xi with you."

Duo Duo and Ling Xi both possess the Ancient Immortal Body. Now, their Immortal Mountains have risen even higher, reaching over 270 zhang in height.

With them, plus himself, along with Star Lord Hao Yue and the others, this strength is already strong enough.

As for the other disciples with Ancient Immortal Body.

Xiang Ziyu is busy studying his immortal techniques and has no time.

Bei Yan is busy with his romance with Qiao Jingyao.

As for Yan Yourong, he needs to leave someone to guard the Hundred Peaks Sect. So ultimately, only Ling Xi and Duo Duo will be taken.

The group set out towards the Soul Breaking Demonic Sect.

At the same time, the Guardian Immortal Imperial Dynasty and various immortal sects began to take action.

In the Sun and Moon Sect, a crowd of disciples assembled completely.

"What on earth is happening?"

"Exactly? The Sect Leader urged all our Sun and Moon Sect's disciples to return to the sect a year in advance. Previously, the Sect Leader even dispatched two experts from the sect to the Fourth Dangerous Terrain to find the experts we had sent there and bring them back to the sect."

"Indeed, now the Sect Leader is even gathering all of us here, and we don't know what for!"

"To my knowledge, nothing major has been going on in our Sun and Moon Sect lately."

Chapter 1723: Formation of the Eastern Wasteland Sect (Part 3)

"Indeed, if there is a battle, it should be the Earth Immortal Realm that is summoned. But now, not to mention the Golden Core Stage and Core Formation Stage, all the disciples who have joined are gathered here."

One by one, the disciples of the Sun and Moon Sect, watching the growing crowd, were puzzled and speculating, asking each other questions.

"Sister Qin Yao, you are an expert in our Sun and Moon Sect, do you know what's happening?"

Several disciples, full of curiosity, looked towards Fairy Qin Yao.

Upon hearing this, Qin Yao's delicate face showed an unmistakable look of excitement, and she said in a low voice, "Soon you will know, in short, it is a good thing, a great thing!"

Indeed, she knew that their Sun and Moon Sect and many other sects within the Guardian Immortal Imperial Dynasty were going to unite to form a new sect.

She is, after all, a genius of the Sun and Moon Sect, and was even being nurtured as the next Sect Leader of the Sun and Moon Sect. It was impossible to hide such a matter from her.

In fact, the Sun and Moon Sect previously considered giving her the pill refined by Cao Zhen to take, but unfortunately, he is currently only in the Longevity Period, not even reaching its peak, and cannot take the pill at all.

Hearing this, the surrounding crowd became more curious, and several disciples with good relations with Qin Yao urged her even more.

"A good thing? What good thing?"

"Sister, don't keep us in suspense, tell us quickly."

This time, Qin Yao did not answer, but looked towards the void above.

In the void, the temporary Sect Leader of the Sun and Moon Sect had already flown above everyone, looking at the gathered disciples, channeling his immortal energy within, and spoke, "Quiet!"

The voice imbued with immortal power spread, and below, the disciples who were discussing all stopped, looking up at the Sect Leader in the void.

"Calling you all here this time is to announce a great event." After the sounds below disappeared, the Sect Leader of the Sun and Moon Sect spoke in a deep voice, "Previously, our Sun and Moon Sect, along with the Thousand Caves Door, Divine Dao Sect... within our Guardian Immortal Imperial Dynasty, a total of fourteen sects united together and made a decision.

Which is, our fourteen sects will join and form a new sect, the Eastern Wilderness Sect!"

Originally, it had been very quiet, with only the Sect Leader's voice resonating, but as his words fell, the area below erupted instantly, voices rising from the disciples one after another.

"What?"

"Us four sects, forming a new sect?"

"Why form a new sect?"

"After forming the new sect, does that mean our Sun and Moon Sect will no longer exist?"

"After forming a new sect, who will be the Sect Leader? Where will the new sect be located?"

The hearts of the crowd were filled with questions and confusion. They really didn't understand why a new sect had to be formed out of the blue.

The Sun and Moon Sect Leader had anticipated their reaction and once more channeled his immortal energy, the voice imbued with immortal power resounding again to drown out the voices of the crowd.

"I know, you are all curious. But this matter has been discussed by all of our higher-ups.

The reason for doing this is because Star Lord Hao Yue of the Thousand Caves Door has obtained an Instant Millennium Pearl. Some of you may know what the Instant Millennium Pearl is, while some disciples don't know what it is.

But you should all know that the Hundred Peaks Sect became a Great Teaching due to the Instant Millennium Pearl.

After our Great Teaching is founded, it only takes a thousand years to become a Great Teaching.

Now, only by becoming a Great Teaching can we continue to develop, otherwise, sooner or later, we'll be suppressed to a standstill or even wiped out by other Great Teachings."

Our Deputy Sect Master of the Sun and Moon Sect has already gone with Star Lord Hao Yue to annex another Great Teaching, and when they return, it will be the time to establish the new sect, the Eastern Wilderness Sect.

Before they return, there are two tasks we need to accomplish."

The Sect Leader of the Sun and Moon paused slightly before continuing, "Each of our branches needs to leave a few disciples to organize the resources of their respective branches.

The remaining disciples will all follow Elder Meng to the Eastern Wilderness Mountain, which is the location of our new mountain gate. Your task is to scour the Eastern Wilderness Mountain and ensure there are no outsiders present there!"

The new Great Teaching is being established in a new location, which raises a potential issue: what if there are outsiders lingering around Eastern Wilderness Mountain?

If it's just mortals, that's fine, but what if they're cultivators?

When the Sect Tribulation arrives, the Tribulation would assume these people are invited by the Eastern Wilderness Sect to help overcome the Sect Tribulation.

They plan to invite people from the Hundred Peaks Sect, and if that happens, the number would definitely exceed ten people, which would cause major problems.

Therefore, they must first clear the Eastern Wilderness Mountain of any outsiders to ensure no other cultivators are present within the mountain.

The disciples of the Sun and Moon Sect, for a moment, couldn't completely digest this news.

"We are founding a new sect?"

"That means there will no longer be a Sun and Moon Sect?"

"No way? This is a good thing! Once we pass the Sect Tribulation, we can become a Great Teaching, and we will be disciples of a Great Teaching!"

"The Sect Leader said we are uniting the forces of four Immortal Sects to establish a new sect. Surely we'll be able to overcome the Sect Tribulation with that power!"

"A Great Teaching! From now on, the Eastern Wilderness will no longer have only one Great Teaching, the Hundred Peaks Sect!"

Chapter 1724:

"But if we leave the Sun Moon Sect, what about the masters who are asleep in our mountain gate? We can't possibly move their living tombs; doing so would affect their future paths."

"The Sect Leader and others must have considered this issue; they should be prepared."

The crowd discussed while under the guidance of their respective elder teachers, and soon, only a small number of disciples stayed behind, while the majority rushed towards Eastern Wilderness Mountain.

Besides the Sun Moon Sect, Thousand Caves Door, Divine Dao Sect, Beginner-Dao Sect, Divine Occurrence Sect... thirteen other sects also flew towards Eastern Wilderness Mountain.

Eastern Wilderness Mountain, once known by another name, from now on, it would have only one name, Eastern Wilderness Mountain.

After the arrival of many sects outside the Eastern Wilderness Mountain, there was no chaos caused.

Fourteen Immortal Sects, hailing from different places, entered from different positions when they arrived at Eastern Wilderness Mountain.

Each Immortal Sect was responsible for a portion, and these sects would cross-check each other to ensure no outsider remained in Eastern Wilderness Mountain.

Meanwhile, the Sect Leaders and masters from various Immortal Sects soared high into the void, broadcasting their voices downward.

"Everyone, a new Immortal Sect is going to be established here. Fellow Dao Companions, please clear a spot."

"We request the Dao Companions here to leave. If this results in any losses, our major sects are willing to compensate."

The spiritual energy in Eastern Wilderness Mountain was abundant. Although no new mountain gate was established, a few Loose Cultivators were engaged in cultivation here.

Different from sects, Loose Cultivators are alone or in small groups. In such a vast mountain range, even the previous Zombie Soldiers and Corpse Generals found it hard to detect them.

With numerous voices echoing, one by one, Loose Cultivators flew out from within the mountains, gazing with confusion at the dense figures in the void, their eyes full of doubt!

"What's going on?"

"Sun Moon Sect? Divine Dao Sect? Divine Occurrence Sect? Within our Guardian Immortal Imperial Dynasty, aside from the Hundred Peaks Sect, which is already a Great Teaching, all nine of the other ten Immortal Sects have arrived!"

"It's not just them; there's also the Sword Sect and other Immortal Sects!"

"What's happening? It's normal for a single Immortal Sect to establish a new sect here, but do all these sects intend to establish new mountain gates?"

"There are fourteen different Immortal Sects, how could there be so many Immortal Sects?"

"Indeed, these four Immortal Sects have been around for so long, how could they just decide to change mountain gates?"

"Look at the situation; these sect's disciples aren't conflicting with each other, so they must have coordinated beforehand."

"Could it be that these four Immortal Sects want to form one new sect? If so, the new sect formation would be terrifying!"

"This... can't be; how could they agree to this?"

"No matter what it is, we can't stay here; we should leave."

"Let's go, but I've already built my Cave Mansion; they did say they would compensate if we suffer losses."

Each Loose Cultivator, witnessing the massive number of disciples sent by fourteen Immortal Sects, realized that although the mountain range was vast, they couldn't remain hidden with such thorough searches; they had no choice but to reveal themselves.

The people from the fourteen Immortal Sects did not trouble them, and some even mentioned that they had already built Cave Mansions and deployed Great Formations. These were not easy to dismantle and would result in significant resource loss. Therefore, they directly approached the masters of the sects, and true to their word, the sects compensated them for their losses.

Inside Eastern Wilderness Mountain, there were many caves.

In one of the caves, Mesmerizing Demon listened to the voices outside. Her beautiful and enchanting face showed a seductive charm as her willow brows furrowed slightly.

After leaving the Soul Breaking Demonic Sect, she first visited her master's living tomb to ensure there were no issues before departing, as she needed to continue her cultivation.

Previously in the Soul Breaking Demonic Sect, which was indeed a Great Teaching, the spiritual energy was naturally abundant, but with the destruction of Soul Breaking Demonic Sect, she had to seek another place.

She then heard by chance about such a place, without any sect stationed, yet with extremely abundant spiritual energy, and thus she came here to cultivate.

However, she had barely started her cultivation when unexpectedly, people arrived to drive them out.

"The sects from the Guardian Immortal Imperial Dynasty intend to establish a new sect here? What kind of power has such large-scale activities?"

She slowly rose and flew out of the cave, looking outside.

Her eyes slightly squinted seeing so many people; what sect has so many disciples, even the Hundred Peaks Sect doesn't have this many people!

This isn't one sect but multiple sects.

Furthermore, these mountain gates are obviously allied together; forming a new mountain gate together is interesting.

While she was pondering, a few figures flew over from afar.

In the direction the Sun Moon Sect was advancing, Qin Yao, leading a few disciples, was searching when a silhouette in a cave caught her attention.

"Someone's there."

Next to her, the other disciples saw the faint silhouette in the distance and immediately flew over.

As they quickly got a clearer view of the person in front of them, the expressions of several male disciples changed; what a beautiful woman!

Their Sun Moon Sect's Qin Yao, renowned as a Fairy in the Guardian Immortal Imperial Dynasty, wasn't someone they frequently interacted with, but they had seen her on multiple occasions.

Chapter 1725:

Even on their way here, they had flown alongside Fairy Qin Yao.

However, now when they saw this woman, an uncontrollable surge of stunning surprise still arose in their hearts.

Not that Fairy Qin Yao wasn't beautiful, it's just that the beauty of Fairy Qin Yao, her demeanor, tends to create a sense of distance, whereas the beauty of the woman before them was simple, a beauty that at first glance, instantly makes one's heart skip a beat.

"This Immortal, who might you be?" The disciples initially intended to directly drive her away, but upon seeing her appearance, their attitude changed drastically.

The Mesmerizing Demon revealed a look of astonishment in her eyes and, with a confused expression, pointed around, asking, "Could you Dao Companions tell me what happened? I was cultivating here before, and I suddenly heard a voice transmission."

A young disciple, seeing the puzzled look of the beautiful immortal before him, began to explain: "Here's the situation: the fourteen Immortal Sects of our Guardian Immortal Imperial Dynasty are joining forces to establish a new sect here in this city.

Moreover, we have an Instant Millennium Pearl in our possession, and a hundred days from now, we plan to undergo a Sect Tribulation. Therefore, we must ensure that only our people are here, and we have to ask everyone else to leave."

"Sect Tribulation!" The Mesmerizing Demon's eyes widened in shock. These people also had an Instant Millennium Pearl? No wonder so many sects have come together to form a new sect.

In the endless history of the Eastern Province, it wasn't only the former Ten Thousand Immortals Sect and the current Hundred Peaks Sect that obtained an Instant Millennium Pearl. But why haven't those sects, especially those with such power, used the pearl after obtaining it?

Because they dare not! Using it means undergoing a Sect Tribulation, a tribulation that spans a million years. A typical sect cannot withstand a million-year Sect Tribulation.

Even the Hundred Peaks Sect seized the opportunity to become a Great Teaching during this special period. Moreover, within the Hundred Peaks Sect stands Cao Zhen, and even her former Soul Breaking Demonic Sect and Weeping Blood Demon Sect couldn't do anything to the Hundred Peaks Sect.

Before the Hundred Peaks Sect became a Great Teaching, it already possessed the strength of one.

But none of the other sects, especially those of the Guardian Immortal Imperial Dynasty, could withstand a Sect Tribulation on their own.

The only way was to unite multiple sects.

Fourteen sects have a decent chance of withstanding a Sect Tribulation, especially with the Hundred Peaks Sect among them.

She had inquired earlier that the Hundred Peaks Sect was quite amicable with the other Immortal Sects of the Guardian Immortal Imperial Dynasty, and these sects establishing a new one here would have certainly consulted with the Hundred Peaks Sect, receiving its approval.

Thus, when the time came, the Hundred Peaks Sect was likely to send experts to help.

In this case, the possibility of this newly established sect successfully undergoing the tribulation was quite high.

While she was contemplating this, the unfamiliar cultivator before her spoke again: "Immortal, I apologize, we are thinking of our sect, and we must ask you to leave."

He also wanted to spend more time with such an incredibly beautiful Immortal in front of him, but he had no choice. The Sect Leader's order was to expel all outsiders, so he had to say, "Of course, if you have a Cave Mansion set up here with formations, we will compensate you, Immortal."

The Mesmerizing Demon gently shook her head and said, "Although I have been cultivating here, I did not leave a Cave Mansion nor set up any formations.

It is just a pity, as a Loose Cultivator, finding such a suitable place for cultivation is not easy."

Saying this, she paused slightly, showing a helpless expression on her face, "My master, who was in deep sleep, had his living grave dug up. Now, I am without support, perhaps I can only go to the Hundred Peaks Sect and see if I can join.

She had indeed considered joining the Hundred Peaks Sect before.

After all, relying solely on herself makes cultivation difficult, yet she hesitated about joining the Hundred Peaks Sect too.

Mainly because of Cao Zhen, whose means are terrifying, and she wasn't sure if Cao Zhen would see through her.

Therefore, she wanted to wait until her master woke up to discuss it with him.

Moreover, with Cao Zhen in the Hundred Peaks Sect, it was too challenging to seize control.

The Soul Breaking Demonic Sect had been wiped out, so it didn't matter which Great Teaching she joined, what was important was to pass on their lineage.

The best way was to join a Great Teaching, then spread her lineage and eventually seize control of that Great Teaching!

Their downfall lay in not mastering the control of a Great Teaching!

But also because of Cao Zhen, taking over the Hundred Peaks Sect was just too hard.

As for the other Great Teachings in the Eastern Province, even though their lineage had not appeared before the world for a long time, who knew if there were records about them within these Great Teachings?

If their lineage was noticed by those other Great Teachings while handing down their legacy, what then?

But now, an excellent opportunity had arrived; this was a newly established force created by fourteen different sects.

Thus, the management of this new power would certainly not be as strict as usual.

Moreover, this was a force from the Eastern Wasteland, so there would definitely be no records of their lineage.

Joining this force was her best choice.

In the future, she could slowly nurture new disciples within this force, gradually pass on her lineage, and when her cultivation base was high enough, seize control of this Great Teaching!

Chapter 1726: Recruiting Talents (Part 6)

Other Great Teachings have been passed down for over a million years. They all possess some trump cards, making it difficult to seize control from them. But what hidden cards could a newly formed force by a Sect have?

The question now is, how to join this new force.

"Join the Hundred Peaks Sect?" Beside him, another male disciple heard this, and his heart stirred. Suddenly, he said, "This fellow Dao Companion, I can feel your aura; you have already reached the Earth Immortal Realm.

Joining the Hundred Peaks Sect poses no problem for you, but there are a hundred peaks in the Hundred Peaks Sect. To be honest, aside from the Hundred Peaks Sect Leader Cao Zhen's Four Treasures Peak, the strength of the other peaks of the Hundred Peaks Sect is quite ordinary.

Unless you can join the Four Treasures Peak, otherwise, joining the Hundred Peaks Sect really holds little significance."

As the man spoke, he stealthily sent a secret voice transmission to his companions: "Everyone, don't you think our opportunity has come? Hurry and invite this Immortal to join our Sun and Moon Sect.

Once the new Sect is established, although we'll say it's one Sect, in reality, we're four Sects competing against each other.

We should naturally increase our strength by any margin possible.

This Immortal is truly at the Earth Immortal Realm, and her life aura is extremely vigorous. I feel she is no older than three hundred years; to reach the Earth Immortal Realm at such a young age is undoubtedly a talent.

So why not recruit her into our Sun and Moon Sect?"

As soon as he finished speaking, the young male disciple who first spoke quickly followed up with an invitation: "This Immortal, how about joining our Sun and Moon Sect?"

Our Sun and Moon Sect is also one of the strongest among the ten Immortal Sects of the Guardian Immortal Imperial Dynasty. Moreover, the Hundred Peaks Sect Leader Cao and his strongest disciple, Xiang Ziyu, often practice a spell and divine skill, the Sun, Moon, and Stars Rotation, which originated from our Sun and Moon Sect!

In terms of foundations, our Sun and Moon Sect is indeed deeper than the Hundred Peaks Sect.

Besides, Immortal, encountering us here at the Sun and Moon Sect implies a destined connection. Why not join our Sun and Moon Sect?"

The few disciples beside him frowned and did not invite her immediately. Instead, they started transmitting their concerns to one another.

"Isn't it unwise to invite a stranger into our Sun and Moon Sect just like that?"

"Indeed, we don't even know her background."

"I think we should consult with our Elders and Sect Leader within the Sun and Moon Sect."

The disciple who had just extended the invitation frowned upon hearing this and retorted, "Unwise? What's unwise? What's wrong with inviting a talent when we see one? We can't just let her walk away now, can we? What if she turns around and joins the Hundred Peaks Sect or another Sect, like the Divine Dao Sect?"

Just as he finished speaking, he glanced toward the distance.

In the void, Immortal Bi Yue was flying over leisurely, casting a scrutinizing gaze at the woman in front of her.

Though she wasn't present earlier, the group's conversation, intentionally kept at a low volume, was still heard by her.

Inviting this woman to join the Sun and Moon Sect?

Indeed, the woman was at the Earth Immortal Realm. Furthermore, her life aura was extraordinarily vigorous, suggesting that she might be even younger than Bi Yue herself. To reach the Earth Immortal Realm at such an age is undeniably genius-level.

Yet precisely because of this, Bi Yue felt something was amiss. So young, how could she reach the Earth Immortal Realm without a master or heritage?

The Mesmerizing Demon's gaze naturally fell on the newly arrived woman, who suddenly smiled and said, "You're right. I've encountered your Sun and Moon Sect, and I have no Sect, so I'm indeed destined for the Sun and Moon Sect.

However, in your eyes, I should be someone of unknown origin. I'm not from the Guardian Immortal Imperial Dynasty, nor even from the Eastern Wasteland. Would your Sun and Moon Sect really accept me?"

"Why not?" Qin Yao suddenly laughed, "As you said, since you first encountered someone from our Sun and Moon Sect, it implies a destined link.

Moreover, you are a master of the Earth Immortal Realm; why should we refuse?"

She suddenly realized it didn't matter if this woman had other motives; they should bring her into the mountain gate nonetheless.

If this woman had no other motives, all the better.

But if she did, they could secretly observe her to discover her true intentions; an apparent enemy is always better than a hidden one.

More importantly, back when Brother Xiang Ziyu of the Hundred Peaks Sect confided in her, he revealed which individuals betrayed their Sun and Moon Sect.

The Hundred Peaks Sect likely has special means to ascertain whether someone is problematic.

Anyway, after they used the Instant Millennium Pearl, Brother Xiang Ziyu would also enter their newly formed Eastern Wilderness Sect for cultivation. At that time, she could ask Brother Xiang Ziyu to check if there was an issue with the newcomer.

The Mesmerizing Demon was taken aback by how readily the woman agreed. Did she really consent so easily?

Didn't she want to verify her own identity?

Didn't she wish to learn more about them?

Or does she have some special means, but given the current Indestructible Period, what means could she have?

Even if they truly had some precious methods concerning souls, her own lineage specialized in the Soul Path, so no matter how they investigated, they'd find nothing.

Chapter 1727:

Soon, the voice of that beautiful woman across from him sounded again: "By the way, how should I address you, Dao Companion?"

The Mesmerizing Demon smiled and said, "Di Lengyu."

This was her true name, a name known to no one outside of her lineage within the Soul Breaking Demonic Sect.

Although Qin Yao had agreed to let Di Lengyu join their Sun and Moon Sect, Qin Yao was not the Elder or Sect Leader of the Sun and Moon Sect, so she still brought Di Lengyu to their Sect Leader.

Upon seeing Qin Yao personally bringing someone, the Sect Leader of the Sun and Moon Sect did not ask much and directly agreed to let the other join the sect.

However, as Qin Yao turned to leave, he communicated secretly to her, "Although you brought this person, I must say, the other party has already cultivated to the Earth Immortal Realm. If..."

"Sect Leader, I know what you're worried about." Qin Yao replied secretly, "I will go to the Hundred Peaks Sect and ask Senior Brother Xiang Ziyu from Four Treasures Peak to come and take a look."

Previously, it was Senior Brother Xiang Ziyu who discovered the traitor from our Sun and Moon Sect. Senior Brother Xiang Ziyu said there is a special method to detect traitors."

"Oh? I see. That's good, that's good. Hmm, for this matter, you must personally invite Xiang Ziyu to help, remember to be sincere." Upon hearing Xiang Ziyu's name, the Sun and Moon Sect Leader's voice carried a hint of comfort and joy, and even a smile appeared on his face.

Xiang Ziyu has not yet sought a Dao companion until now.

Their Sun and Moon Sect's, Qin Yao also has no Dao companion.

Prior to this, he also heard that Xiang Ziyu came to their Sun and Moon Sect and even specifically taught spells to Qin Yao.

What does this indicate? It indicates that Xiang Ziyu has a particular regard for Qin Yao, at the very least he has a favorable impression.

Xiang Ziyu is a disciple of Cao Zhen, and people often say that Xiang Ziyu is the most talented among all of Cao Zhen's disciples.

He is convinced of this without any doubt.

In the Eastern Province, with so many experts and geniuses, but achieving the Golden Core Period Limit in both physical prowess and mana under the Nine Abnormal Phenomenon Golden Pills, only Cao Zhen and Xiang Ziyu have managed it.

Furthermore, among the disciples at Four Treasures Peak, Xiang Ziyu has always been the most powerful in combat.

The only one who can compare to Xiang Ziyu is Ling Xi, which is evidently because Cao Zhen favors his Senior Disciple and bestowed more treasures upon him, thus making Ling Xi so strong.

As for the other Immortal, Ruo Yun, being a reincarnated Great Ability, cannot be compared in the same context.

Thus, Xiang Ziyu is definitely Cao Zhen's most talented disciple.

He has always wanted Qin Yao and Xiang Ziyu to become Dao companions, but Qin Yao has not been receptive; previously, when he asked Qin Yao to go to the Hundred Peaks Sect and consult Xiang Ziyu, Qin Yao refused to go.

Now, there is finally a chance for Qin Yao to interact with Xiang Ziyu again.

"Qin Yao is good in every way, except she's clueless about matters of the heart. Should I lend her a helping hand?"

The Sun and Moon Sect Leader began to ponder.

Eastern Province.

Cao Zhen and Star Lord Hao Yue and others were very low-key, instead of flying directly to the Soul Breaking Demonic Sect, they used a Flying Boat to reach the sect.

Then, Star Lord Hao Yue took out the Instant Millennium Pearl.

As the Instant Millennium Pearl released its golden light, the world began to change in an instant, the sun and moon appeared, a heavenly phenomenon arose, and the entire world was engulfed in golden light, causing even the void thousands, tens of thousands of miles away to tremble.

Cao Zhen had used the Instant Millennium Pearl before, but that was in a small world within the Ten Thousand Immortals Sect; he knew that using the Instant Millennium Pearl caused a grand spectacle, but he didn't know just how grand it truly was.

Now it seemed that the whole Eastern Province could probably feel the commotion here.

In various great teachings across the Eastern Province, many cultivators looked towards the distance with strange expressions.

"What is that?"

"The spectacle is so grand!"

"Has a peerless relic appeared?"

"No, it can't be a peerless relic; peerless relics aren't like this."

"That direction seems to be towards the Soul Breaking Demonic Sect."

"Someone has used the Instant Millennium Pearl, intending to swallow the Soul Breaking Demonic Sect!"

"The Instant Millennium Pearl has appeared again?"

"There are still forces daring to use the Instant Millennium Pearl?"

"Let's go, see what kind of force it is!"

In an instant, from various great teachings, many experts flew towards the direction of the Soul Breaking Demonic Sect!

Chapter 1728:

Star Lord Hao Yue is annexing the Soul Breaking Demonic Sect, not merging it.

If it were merging a Great Teaching, like when Cao Zhen merged the Ten Thousand Immortals Sect, it would take a longer time to preserve the many Immortal Mountains and buildings.

But annexing a Great Teaching doesn't require keeping any of the original Great Teaching's Immortal Mountains, only absorbing its destiny and history!

Cao Zhen remembered that back then, he used the Instant Millennium Pearl to merge the Ten Thousand Immortals Sect, taking two hours, while now, Star Lord Hao Yue only took an hour.

Back then, he used the Instant Millennium Pearl, and the entire Ten Thousand Immortals Sect entered the Instant Millennium Pearl, whereas, right now, the Soul Breaking Demonic Sect hasn't entered Star Lord Hao Yue's Instant Millennium Pearl.

The Soul Breaking Demonic Sect is still before him, yet he clearly feels that the Soul Breaking Demonic Sect has become different.

Previously, the disciples of the Soul Breaking Demonic Sect were annihilated by them, but the Soul Breaking Demonic Sect remained.

Yet now, after Star Lord Hao Yue used the Instant Millennium Pearl to draw away the Soul Breaking Demonic Sect's destiny and history, the entire Soul Breaking Demonic Sect feels utterly lifeless.

The Great Teaching in front had just been broken through a year ago, yet it gives him a feeling as if it has been abandoned for endless ages, despite its buildings not being damaged, they appear as mere ruins.

Furthermore, previously the Soul Breaking Demonic Sect was destroyed, their mountain gate shattered, Spiritual Energy became sparse, but this was once a Great Teaching.

When they first arrived here, though the Spiritual Energy wasn't as abundant as that of Bai Feng Sect, it was still more plentiful than some sects.

But now, there is hardly any Spiritual Energy to feel around this vicinity!

Around them, other members of the Great Teachings look at the Instant Millennium Pearl returned to Star Lord Hao Yue's hand and let out a sigh of relief.

The reason they waited until some members consumed the pill refined by Cao Zhen to break through, and then invited Cao Zhen over, was precisely because they were worried about encountering trouble when annexing a Great Teaching here.

"Star Lord Hao Yue, should we return quickly?"

"Let's go, I imagine they've already cleared the Eastern Wilderness Mountain thoroughly."

Earlier, Star Lord Hao Yue used the Instant Millennium Pearl to annex the Soul Breaking Demonic Sect, making such a commotion, surely it would attract others' attention.

Therefore, it's best to leave promptly.

"Alright." Star Lord Hao Yue nodded swiftly, then released the Flying Boat, all of them piloted a Flying Boat, quickly flying towards the direction of the Eastern Wasteland.

Though they flew swiftly enough, it wasn't long before figures appeared ahead of their Flying Boat, blocking their path.

Inside the Flying Boat, Guardian Immortal Imperial Dynasty's experts from various Immortal Sects turned grave.

"Not good."

"We've hit a snag."

"These people are clearly from the Great Teachings."

"The Great Teachings of the Eastern Province are deeply rooted. Perhaps they already know someone has annexed the Soul Breaking Demonic Sect."

As everyone worried, behind Cao Zhen, silver wings and orange wings surfaced, the next moment, he suddenly flew out from the Flying Boat.

In front of the Flying Boat, a few cultivators from the Great Teachings block its path, gazing peculiarly at this Flying Boat.

This Flying Boat flew over from the direction of the Soul Breaking Demonic Sect.

Only after they saw the golden light manifest did this Flying Boat come, and aside from the Soul Breaking Demonic Sect, there were no other sects or forces, nor any relics in that direction, hence it's likely related to the Soul Breaking Demonic Sect's annexation.

They blocked the other party just to investigate, rather than intending direct confrontation, merely to see which force used the Instant Millennium Pearl.

Yet, this Flying Boat's markings appear unfamiliar.

Suddenly, the Flying Boat opened, and a figure flew out; they didn't recognize this person, but the wings worn by the figure, and behind the imposing Immortal Mountain 295 zhang tall were extraordinarily conspicuous.

"Cao Zhen!"

"Sect Leader Cao from Bai Feng Sect."

The crowd couldn't help but exclaim. For a time, indeed since the Eastern Province connected with the Eastern Wasteland, the most famous person in the entire Eastern Province was Cao Zhen.

But they never anticipated encountering Cao Zhen in this place.

"Recognize me? That makes it simple." Cao Zhen asked, glancing at everyone, "You stopped me for what reason? Looking to spar?"

His Immortal Mountain was always 295 zhang tall, mainly because he dared not further cultivate to win, a slight amount of cultivation to win would cause his Immortal Mountain to reach 300 zhang, how could he continue the Eight Nine Mysterious Art in this manner?

Anyway now, he and Bai Feng Sect hold no enmity, there's no need to raise his strength to the peak.

All around, cultivator's faces instantly changed dramatically, shaking their heads in unison, "Sect Leader Cao, impossible!"

"Sect Leader Cao, please don't misunderstand, we just saw someone using the Instant Millennium Pearl and got curious, wanting to see exactly who used the Instant Millennium Pearl."

"Indeed, Sect Leader Cao, we definitely don't mean to oppose you or Bai Feng Sect behind you."

What a joke, Cao Zhen is an expert with an Immortal Mountain reaching 290 zhang, unless they detest their own lives, why would they cause trouble with Cao Zhen.

Consider the two Great Teachings that previously provoked Cao Zhen.

Chapter 1729:

A Soul Breaking Demonic Sect has been completely annihilated, and the Weeping Blood Demon Sect is now hiding within the Blood River, with no one venturing outside.

The Blood River not only prevents others from entering the Weeping Blood Demon Sect but also hinders those of the sect from leaving the Blood River.

Though the Weeping Blood Demon Sect is not annihilated, how is their current state different from extinction?

Trapped within the Blood River, unable to explore the relics appearing outside, unable to venture into dangerous terrains, and unable to recruit disciples.

The current Weeping Blood Demon Sect is merely waiting for inevitable extinction.

No one would dare provoke a calamity star like Cao Zhen.

"Oh, just curious. You don't need to look. We are the ones who annexed the Soul Breaking Demonic Sect. Now, may everyone please step aside?"

Cao Zhen had no intention of concealing this. Once they return, he'll use the Instant Millennium Pearl, and its glow can hardly be concealed.

"What?"

"You..."

The crowd was thoroughly shocked. How is it the Hundred Peaks Sect again?

They used the Instant Millennium Pearl once more?

The Hundred Peaks Sect, already a Great Teaching, to use the Instant Millennium Pearl again, are they trying to transcend some sect tribulation, directly enduring a hundred-thousand-year tribulation?

The duration of the Instant Millennium Pearl depends on the power using it, determining how long the sect tribulation will last.

If a ten-thousand-year tribulation is needed, then the Instant Millennium Pearl only lasts for ten days.

Though the crowd was surprised, they dared not continue blocking Cao Zhen, only retreating one by one.

Inside the flying boat, the group gazed at Cao Zhen's return, each filled with admiration, witnessing a top martial artist's intimidating presence; if Cao Zhen were not here, the opposition would surely not let them leave so easily, at least asking other questions.

Moreover, no one could guarantee that those present wouldn't act if they felt their strength was inadequate.

Several people gazed at the distant flying boat, each still astounded.

"Is the Hundred Peaks Sect planning another tribulation?"

"Where is the Hundred Peaks Sect getting so many Instant Millennium Pearls?"

"Instant Millennium Pearls only appear in dangerous terrains. That Fourth Dangerous Terrain emerges in the Eastern Wasteland, and the Hundred Peaks Sect being closest might indeed acquire the Instant Millennium Pearls."

"The luck of the Hundred Peaks Sect is truly extraordinary."

"Speaking of which, a year ago, Cao Zhen's Immortal Mountain reached two hundred and ninety-five zhang. After a year, it hasn't grown at all, which is weird."

"Indeed, for others, an Immortal Mountain not growing for a year is normal. But the issue is, it's Cao Zhen!"

"Perhaps after reaching two hundred and ninety-five zhang, growing further is extremely difficult, or the limit of the Indestructible Period isn't as everyone speculates at three hundred zhang, but rather two hundred and ninety-five zhang?"

"Let's not dwell on these questions; let's check on the Soul Breaking Demonic Sect."

Though they heard Cao Zhen say he annexed the Soul Breaking Demonic Sect, they still flew over to confirm that the sect was indeed annihilated.

Quickly, news of the Hundred Peaks Sect acquiring Instant Millennium Pearls spread in the Eastern Province.

Cao Zhen and others swiftly flew back to the Eastern Wasteland; Cao Zhen didn't accompany Star Lord Hao Yue and others, opting to return to the Hundred Peaks Sect. With the Eastern Wasteland Sect soon forming, he needed to prevent disciples from going there for cultivation.

Star Lord Hao Yue and others entered the fourteen Immortal Sects forming the Eastern Wasteland Sect. He presented a treasure bead at each sect, extracting buildings, cave mansions, and nearby rivers into the beads as if using the Instant Millennium Pearl for annexation.

Having traversed all fourteen Immortal Sects, Star Lord Hao Yue arrived at their newly named Eastern Wilderness Mountain.

Under everyone's watch, he unleashed the Instant Millennium Pearl and fourteen treasure beads; the entire Eastern Wilderness Mountain began to transform.

Mountains approached or separated, rivers widened, the terrain sank, and water poured in...

Simultaneously, golden light enveloped the entire region.

"The golden light has emerged." Cao Zhen turned to the group, saying, "Let's depart. All disciples wishing to cultivate at the Eastern Wilderness Sect, act in unison."

Within the Guardian Immortal Imperial Dynasty, each mountain gate not previously invited was filled with astonishment, gazing towards the radiant golden direction.

Star Lord Hao Yue's previous invitations were only to the more formidable Immortal Sects within the Guardian Immortal Imperial Dynasty.

Since they were establishing a new sect, it wasn't feasible to invite every Immortal Sect from the dynasty; with too many mountain gates, managing the new sect would be more challenging.

Furthermore, if these sects varied too much, founding new mountain gates would inevitably lead to numerous issues, some too weak to survive long-term, possibly vanishing.

Hence, they initially only invited the strongest sects from the Guardian Immortal Imperial Dynasty. Seeing the sudden golden light, each sect was filled with surprise and confusion.

"What's happening?"

"Why did the golden light suddenly appear?"

"This golden light resembles the one from the Hundred Peaks Sect."

Chapter 1730:

"So, it means our Eastern Wasteland will have a sect and become a great teaching like the Hundred Peaks Sect?"

"Impossible, the Hundred Peaks Sect was able to become a great teaching because they are strong enough, other sects like the strongest Divine Dao Sect or the currently formidable Thousand Caves Door have no possibility of overcoming the sect tribulation."

"But now, there really is a golden light appearing, do they know they cannot overcome the sect tribulation and still use the Instant Millennium Pearl?"

And each Immortal Sect that initially refused now looks at the emerging golden light, each with different thoughts in their hearts.

"A great teaching, they should succeed, right. Well, having refused before, let's not overthink it."

"Indeed, forming a new sect sounds good, each sect can maintain its integrity, become a complete lineage, but the name after becoming a great teaching is a new name. When we are gone, how can we face our ancestors and forebears?"

"With them becoming a great teaching, along with the previous Hundred Peaks Sect, our Guardian Immortal Imperial Dynasty will have two great teachings. I suppose they can protect us."

These refusing Immortal Sects, even when seeing the new Eastern Wasteland Sect established, still did not regret it until a message arrived.

"What? People from the Hundred Peaks Sect are starting to enter the Eastern Wasteland Sect in large scale?"

"The people from the Hundred Peaks Sect want to enter the Eastern Wasteland Sect for cultivation, the current Eastern Wasteland Sect is full of spiritual energy.

Moreover, the Eastern Wasteland Sect is a newly established sect, which means the Eastern Wasteland Sect needs a million years to pass the sect tribulation, the spiritual energy within the sect can last for a thousand days!

People from the Hundred Peaks Sect practicing inside for a thousand days, how much improvement can they achieve?"

"The key is, the disciples inside the Hundred Peaks Sect have nearly all gone. They only left some experts to guard the Hundred Peaks Sect."

"If we had agreed to establish the Eastern Wasteland Sect together, then our disciples could also cultivate inside now."

"Sect Leader, perhaps we should try? Ask the people from the Eastern Wasteland Sect if we can send our people in to practice?"

"Try what. No matter how big the Eastern Wasteland Sect is, the people it can accommodate are limited. They have already let so many from the Hundred Peaks Sect in, how could they let others into the Eastern Wasteland Sect!

Besides, we originally refused their proposal to jointly form the Eastern Wasteland Sect, do you think they would agree to let us practice in the Eastern Wasteland Sect?"

In the Eastern Province, one after another great teaching finally received the news.

"So, it isn't that the Hundred Peaks Sect wants to use the Instant Millennium Pearl a second time, but another Immortal Sect from the Guardian Immortal Imperial Dynasty."

"These people from the Guardian Immortal Imperial Dynasty are indeed smart, one Immortal Sect cannot pass the sect tribulation, so they united more than a dozen Immortal Sects to form a new sect, then naturally they could pass the sect tribulation!"

"Achieving this is not easy. Previously, our sects in the Eastern Province also received the Instant Millennium Pearl, did they not think of this?"

But to unite more than a dozen Immortal Sects to jointly form a new Immortal Sect involves too many issues. That True Immortal Dynasty's Immortal Sect can accomplish this primarily because they have unity!"

"Our Eastern Province is connected to the borderlands, not just with one Eastern Wasteland, there are Eastern Barbarians, East Breeze, Eastern Borders, and other places, but ultimately, looking at all border lands, the best development and strongest is only the Eastern Wasteland!

In about a thousand days, the Eastern Wasteland is likely to have another great teaching, so there will be two great teachings in the Eastern Wasteland!"

Within the newly established Eastern Wasteland Sect, Qin Yao immediately went to find Xiang Ziyu when the people from the Hundred Peaks Sect arrived.

She had participated in the Grand Martial Competition of Immortals and knew many disciples of the Four Treasures Peak.

She quickly found Bei Yan.

"What? You are looking for my senior brother? My senior brother did not come here, he stayed in the Hundred Peaks Sect to study his spells."

"What? Senior brother Xiang Ziyu didn't come?" Qin Yao's face immediately showed a look of disappointment, their Eastern Wasteland Sect agreed for all people from the Hundred Peaks Sect to enter their Eastern Wasteland Sect.

Now, their Eastern Wasteland Sect is filled with spiritual energy, such a rare cultivation opportunity she instinctively thought Xiang Ziyu would come back, but unexpectedly, Xiang Ziyu even gave up such an opportunity.

Bei Yan looked at the disappointed Qin Yao, murmuring to himself, "It's really strange, how come as soon as we arrive at your Eastern Wasteland Sect, so many Immortals come looking for my senior brother? And all of them are talented Immortals from various sects."

Beside him, Qiao Jingyao heard this and her eyebrows furrowed immediately, looking at Bei Yan, "Enough, you say a few less words."

"Oh..." Bei Yan seemed to realize suddenly, showing a look of sudden enlightenment, quickly said, "I didn't say anything just now."

Qin Yao's exquisite face, with beautiful eyes suddenly widened, gracefully said, "Are there many Immortals coming to find senior brother Xiang Ziyu?"

"No, no." Bei Yan seemed to be hiding something, waving his hand repeatedly, "Right, I remembered, my junior brother is also asking me to guide him in spells, I need to go first, Fairy Qin Yao, if you still want to see, we can send someone... no wait, this is your Eastern Wasteland Sect territory, you are the host, suit yourself."

Bei Yan said, turning to leave with Qiao Jingyao as if escaping.

"Are you doing this on purpose?" Qiao Jingyao looked at Bei Yan with discontent, "I feel, Fairy Qin Yao seems to find senior brother Xiang Ziyu quite intriguing, we have known Fairy Qin Yao for long, I also think Fairy Qin Yao is quite good.
