

My Master 1731

Chapter 1731: The Ruins of Survival

At least I think she is much stronger than Jiu Yin and Jiu Yang of the Yin Yang Sect. Doing this, aren't you just causing trouble for your senior brother?"

"How can this be causing trouble? I'm helping Senior Brother." Bei Yan said seriously to Qiao Jingyao, "You don't understand Third Senior Brother. He doesn't like women. He even once said that women only slow down his speed of drawing the sword."

So, what I'm doing is intentionally driving away those Immortals who want to approach Third Senior Brother, so he can focus on his cultivation."

As Bei Yan spoke, a look of perplexity appeared on his face, "But I'm really quite puzzled. It seems like Third Senior Brother rarely interacted with Fairy Qin Yao and the others, and many Immortals whom I don't know, I remember Third Senior Brother didn't have contact with. How come they all act as if they know him well and admire him fervently?"

He truly didn't understand.

And three months later, Xiang Ziyu finally figured out his spell, and then Xiang Ziyu set off into the Eastern Wilderness Sect.

But what he couldn't understand was that after entering the Eastern Wilderness Sect, why were there so many Immortals suddenly looking for him?

Moreover, these Immortals all thanked him for teaching them spells and hinted that they hadn't found Dao companions.

Most of these Immortals he had never seen, what spells could he have taught them!

Master!

It must be a good deed by Master!

He remembered very clearly that Master once left the Hundred Peaks Sect and specifically said, make sure not to let him go out!

Don't even appear in front of people from the Hundred Points Sect.

Also, his Master could even create clones!

It must be Master knowing he has too much talent, fearing he might surpass him, and so deliberately using his identity to attract so many women, to slow down his speed of drawing the sword!

Unfortunately, beauty tactics don't affect him.

Xiang Ziyu simply had the disciples of Four Treasures Peak spread the word that he was going into seclusion, refusing to see anyone.

Fairy Qin Yao met Bei Yan again, listened to the information Bei Yan shared, sighed helplessly, and turned around to leave. Xiang Ziyu senior brother had gone into seclusion, how could she disturb him?

She could only wait until Xiang Ziyu senior brother came out from his seclusion before asking for his help.

Cao Zhen also arrived at the Eastern Wilderness Sect, and he came with a lot of resources.

Star Lord Hao Yue, although using means to move the significant mountain ranges and buildings of fourteen sects to this place.

But now the Eastern Wilderness Sect is too large, and the formations used to be concentrated at the mountain gate.

Their formations are still too few.

To face the Sect Tribulation, they need to set up more Great Formations. The resources of their fourteen sects are not small, yet still insufficient.

They had no choice but to seek Cao Zhen again for resources from the Hundred Peaks Sect.

After Cao Zhen brought resources to the Eastern Wilderness Sect, he didn't continue his cultivation but started helping with the setup of formations.

Although now the Eastern Wilderness Sect is full of celestial energy, cultivating at this time is not just twice as effective, yet it doesn't matter much.

Anyway, relying on the disciples to ensure victory effortlessly.

Unbeknownst to them, two years have already passed.

The relic that Heaven left as a lifeline for the Eastern Wilderness Sect's Heavenly Tribulation finally appeared.

After a while, when everyone felt the relic was about to open, all Indestructible Period experts of the Eastern Wilderness Sect moved out, and even most Longevity Period experts flew towards the relic's direction en masse.

At the same time, all experts of the Hundred Peaks Sect also set out.

In front of the Eastern Wilderness Sect mountain gate, Cao Zhen looked at the grand assembly of Eastern Wilderness Sect people and said helplessly, "I understand your determination to overcome the Sect Tribulation, but the question is, why are you sending so many Longevity Period experts?"

Cao Zhen blocked the path of Star Lord Hao Yue, who was a reincarnated Great Ability. The Eastern Wilderness Sect was founded under Star Lord Hao Yue's suggestion, and he even provided fourteen

Treasure Beads. Anyway, the temporary Sect Leader of the Eastern Wilderness Sect was Star Lord Hao Yue.

"You are now also at the Peak of the Indestructible Period. You should know there's quite a gap between the Longevity Period and the Indestructible Period. Even if Indestructible Period experts encounter danger, they can possibly survive. Sending so many Longevity Period experts into the relics, what if they encounter danger?"

Sending so many Longevity Period experts, aren't you worried they might suffer too much damage?"

Cao Zhen gestured at the multitude of Longevity Period experts behind Star Lord Hao Yue and suggested, "I think it's better for them to stay.

As for this relic, I have too much experience with such relics. I don't even know how many relics I've entered, when the time comes, I'll help you find treasures in the relic.

Also, all our experts from Four Treasures Peak have also come, the final relic will definitely belong to us."

These people are all from the Guardian Immortal Imperial Dynasty, and when the Eastern Wilderness Sect becomes a Great Teaching, it will enhance his prosperity within, and the more people from the Eastern Wilderness Sect, and the stronger the experts, the stronger his prosperity will be.

He values not only the present but also the future.

Although these people are now in the Longevity Period, in the future they might advance to the Indestructible Period, becoming existences within the Immortal Path Domain.

And this relic, while others say is the lifeline that Heaven left to the Great Heavenly Tribulation Sect, he sees it as Heaven trying to free up storage space, a kind of cleaning activity.

If these people were to die in the relics, his prosperity would be affected and not as strong.

Chapter 1732:

How could he let these people freely enter the ruins!

Cao Zhen spoke, as if realizing something, and continued to add: "Rest assured, after I seize the treasures, I won't ask you for money or resources, nor will I sell these things to you. I'm just purely helping you, because I want to see our Guardian Immortal Imperial Dynasty produce a second Great Teaching."

The crowd around them listened to Cao Zhen's sincere words, each one deeply moved; this was the spirit of Sect Leader Cao!

No wonder Sect Leader Cao could reach such heights in his previous life. Cao Zhen saw another Great Teaching about to emerge and not only did he not interfere, he even offered to help.

Star Lord Hao Yue turned around upon hearing and glanced at everyone, whispering: "We need to discuss this matter."

Although he was the Sect Leader of the Eastern Wilderness Sect now, the situation of the Eastern Wilderness Sect was special. Furthermore, it had just been established, so he couldn't be authoritarian.

Very soon, the high-level members of the Eastern Wilderness Sect, which were essentially the leaders of the fourteen previous sects, gathered together and began discussing among themselves.

"Ladies and gentlemen, what do you think of Sect Leader Cao's proposal?"

"I agree. The ruins are indeed dangerous. It's fine for those in the Indestructible Period to enter, but for those in the Longevity Period, although they are also in the Earth Immortal Realm, once they get injured, their recovery speed is too slow. The risk for them entering the ruins is too great!"

"Let them stay. Our Eastern Wilderness Sect still needs to go through the Sect Tribulation. After the tribulation, we must continue to develop; it's not enough just to become a Great Teaching."

"Yes, in the future they'll be pillars of strength for our Eastern Wilderness Sect, or rather our Eastern Wilderness Teaching. We can't let them venture into danger."

"Sect Leader Cao is not wrong. Back then, whether it was the ruins of the Five Sounds Sect or the Heaven Prayers Sect, or even their Bai Feng Sect's own ruins, in the end, all the treasures were acquired by Sect Leader Cao."

With Sect Leader Cao entering, even if we can't get all the treasures, we should be able to acquire most of them."

"Our Indestructible Period disciples will still enter, and we'll let the other disciples stay. Speaking of which, Sect Leader Cao has indeed helped us greatly.

First, he helped us in pill refining, and now he is going to help us seize the treasures without asking for any reward, simply because we are also members of the Guardian Immortal Imperial Dynasty, so he wants to help us. Later on, Sect Leader Cao is even going to help us with the Sect Tribulation!"

"Yes, Sect Leader Cao has really helped us a lot. If Sect Leader Cao were not the leader of the Bai Feng Sect, I would truly want him to become our Honorary Elder."

"Hmm? It's not impossible, why not invite Sect Leader Cao to be our Honorary Elder?"

Someone just proposed, and immediately someone opposed it.

"Are you kidding? Sect Leader Cao, being the leader of the Bai Feng Sect, then comes to us only as an elder, what does that imply? Are you suggesting that our Eastern Wilderness Teaching is above the Bai Feng Sect?"

Moreover, Sect Leader Cao being the leader in Bai Feng Sect leads everyone, and here he would still have to be managed by someone?"

"Who said he needs to be managed? We could be flexible, couldn't we? Rather than inviting Sect Leader Cao as our Honorary Elder, we could make him our Honorary Supreme Elder, couldn't we?"

Then we'll specify that the Honorary Supreme Elder is not subject to anyone's jurisdiction."

"Oh? That's a possibility."

"Let's first go to the ruins, seize the treasures there, and after we've passed the Sect Tribulation and truly become a Great Teaching, we'll invite Sect Leader Cao. Even so, whether it's as Honorary Supreme Elder, Sect Leader Cao may not necessarily accept."

The Eastern Wilderness Sect's members soon had all the Longevity Period disciples stay, while the others flew towards the ruins.

Three days later, the ruins opened.

Previously, Cao Zhen had always been speculating what kind of ruins these would be; they were typically inclined towards forces going through tribulation.

Like the ruins of the Five Sounds Sect, they directly focus on musical rhythm, while the Bai Feng Sect's ruins were simply a hundred peaks.

As for the Eastern Wilderness Sect, it was formed by fourteen different Immortal Sects into a new sect, among which there were sects practicing the Scholar Path, Zen Cultivation, and the Cultivation of Immortal Sects, and more were like Bai Feng Sect, miscellaneous such as the Thousand Caves Door.

"Islands?"

Upon entering the ruins, Cao Zhen saw before him an immensely large island, and he flew into the void, looking afar, he could vaguely see another two islands beside this one. However, in the farther distance, he could not see further.

These kinds of ruins were part of a small thousand world, extremely vast; even with his current cultivation base, flying into the void, he couldn't see the boundary at a glance.

He quickly entered the first island, and immediately, waves of Buddhist chanting echoed.

"An island of Zen Cultivation?"

Although Cao Zhen didn't practice Zen himself, he had once connected with Xuan Zang, and he was very proficient in Zen Dao.

Soon, he obtained the treasure on the island—a golden wooden fish.

Immediately afterward, he flew towards the second island...

Island after island, Cao Zhen flew, discovering that this small thousand world conveniently had fourteen islands, each corresponding to one sect in the Eastern Wilderness Sect.

Some of these sects were those he was skilled at, such as Zen Dao, Sword Dao, Thousand Caves Door, etc., but some sects he wasn't quite adept in. Fortunately, he had disciples.

Xiang Ziyu and Linghu Gudu both claimed the treasures from two islands; the only difference was, Xiang Ziyu did it alone while Linghu Gudu, with help from his senior sister, seized the treasures from two sects.

Chapter 1733: Sect Cataclysm (Part 6)

The people from the Eastern Wilderness Sect, with the help of other disciples from the Four Treasures Peak, also seized treasures from four islands. Together with the treasures Cao Zhen captured from six islands, they collected a total of fourteen peaks' treasures.

Cao Zhen suddenly felt puzzled about the Heavenly Dao.

Earlier, the relics of the Five Sounds Sect and the Heaven Prayers Sect inclined towards those two great teachings, but there were no relics of the Eastern Wilderness Sect, just like their Hundred Peaks Sect, leaning so much towards them.

It felt as if the Heavenly Dao intentionally allowed them to acquire treasures within the relics.

Could it be because both the former Hundred Peaks Sect and the current Eastern Wilderness Sect are sects?

One by one, experts from other sects in the Eastern Wasteland or from grand sects of the Eastern Province looked regretfully at the vanishing relics, their faces filled with helplessness.

“Did we enter the relics, and not obtain a single treasure from within?”

“Did you notice that as long as Sect Leader Cao from the Hundred Peaks Sect enters a relic, the treasures are always taken by him or those around him?”

“I entered the relic and gained almost nothing.”

“Last time in the relic of the Hundred Peaks Sect, others had almost no harvest!”

“If I had known, I would rather go to the Fourth Dangerous Terrain.”

“Next time, if there’s a relic Cao Zhen goes to, I won’t go, no matter what!”

“Let’s go, to the Fourth Dangerous Terrain. We’ve come, we can’t just leave like this.”

The crowd from the Eastern Province sighed and headed towards the Fourth Dangerous Terrain.

Meanwhile, Cao Zhen and others quickly entered the Eastern Wilderness Sect.

Day by day passed.

In the blink of an eye, it was the nine hundred and ninety-ninth day in the Eastern Wilderness Sect city.

The disciples of the Hundred Peaks Sect, under the guidance of Li Ke and Liè Yàn, left the Eastern Wilderness Sect, flying towards the Hundred Peaks Sect.

In another day, the Sect Tribulation will descend.

By then, only ten experts from the Hundred Peaks Sect could remain here; they also had to leave.

This time, aiding the Eastern Wilderness Sect in overcoming the tribulation was Cao Zhen and his nine disciples.

As for others, they were returning to the Hundred Peaks Sect to guard it. Although the Hundred Peaks Sect currently had no mortal enemies, it still needed experts for protection.

There was only one thing he found odd, shouldn't the disciples of the Grand Preceptor come to help?

Could it be that among the Grand Preceptor's four disciples in the Earth Immortal Realm, none were in the Indestructible Period? Or perhaps the Grand Preceptor's disciples knew that the people from their Hundred Peaks Sect would help, so they didn't come?

Within the Guardian Immortal Imperial Dynasty, one by one, experts from various Demonic Sects and renowned grand teachings arrived, watching from afar the Eastern Wilderness Sect.

Inside the Eastern Wilderness Sect.

With the sunrise of the one hundredth day, the celestial energy within the sect instantly transformed into spiritual energy, and the golden light of the Instant Millennium Pearl surrounding the Eastern Wilderness Sect dissipated.

The next moment, the entire Eastern Wilderness Sect was plunged into darkness as tribulation clouds emerged from the Void, and terrifying pressure fell from above.

The Sect Tribulation has arrived!

Sect Tribulation appears at least once every hundred thousand years.

Such a long time span meant that even though cultivators have extremely long life spans, many might never experience a Sect Tribulation in their lifetime.

Yet Cao Zhen discovered that he had been in this world for just over a hundred years and had already experienced a Sect Tribulation three times!

Moreover, the three tribulations occurred during three different periods.

The Minor Era of Inversion of Heaven and Earth period, the Longevity Period, and now the Indestructible Period!

With a resounding thunderous noise, lightning fell!

Although the Eastern Wilderness Sect was a newly established sect, every disciple within it fervently wished for their sect to become a great teaching!

The reason for the establishment of the Eastern Wilderness Sect was to become a grand sect!

Once the Sect Tribulation began, numerous great formations within the Eastern Wilderness Sect rose up.

A few years ago, Cao Zhen's Hundred Peaks Sect had just passed a Sect Tribulation, and compared to now, he found that the Eastern Wilderness Sect facing Sect Tribulation was even more effortless than the Hundred Peaks Sect once did.

After all, the Eastern Wilderness Sect was organized by fourteen of the top sects from the Guardian Immortal Imperial Dynasty.

First day, second day...

Day by day passed, and soon it was the final, tenth day.

One by one, vicious beasts emerged during the Sect Tribulation, but under everyone's attack, these violent beasts didn't cause much damage.

"The Eastern Wilderness Sect is about to successfully survive the tribulation!"

"After this, the Eastern Wasteland will have two grand sects!"

"Enough, let's go!"

One by one, experts from the Demonic Sect flew away into the distance.

Finally, as the sun rose on the eleventh day, the Sect Tribulation vanished from the Void, the tribulation clouds dispersed, and the sky cleared completely!

"The Sect Tribulation is over?"

"We held through, we won!"

"A great teaching, from now on, our Eastern Wilderness Sect has also become a great teaching, and we can refer to ourselves as the Eastern Wilderness Teaching!"

Within the Eastern Wilderness Teaching, cheers echoed from all over.

Among them, a few elders in the Indestructible Period wept with joy.

“Master, did you see? Our Sun and Moon Sect has become a grand sect. Even though we no longer call ourselves the Sun and Moon Sect, this Eastern Wilderness Teaching includes a part of our Sun and Moon Sect!”

“Ancestors of the Divine Occurrence Sect, we succeeded. I know your wish was always for our Divine Occurrence Sect to become a grand sect...”

“A great sect... Ancestors of the Divine Dao Sect, I don’t know if seeing us join with other sects to become a new grand sect from the spirit of heaven brings you joy or blame towards me?”

And Uncle Master, waking up and seeing us, I wonder if you would be resentful or how would you react?”

The people within the Eastern Wilderness Sect looked at the disappearing tribulation clouds with a mixture of feelings.

Suddenly, from within the Void, a ray of light imbued with holiness, nobility, and inviolability descended.

Power of Heavenly Dao!

Though the Eastern Wilderness Teaching sustained no great damage during the Sect Tribulation, facing such a tribulation, some losses were inevitable. As the golden light was shed, all the destroyed mountains and lands within the Eastern Wilderness Teaching were restored.

However, while mountains and lands can be restored, the disciples who had died would remain forever with closed eyes.

Suddenly, a more resplendent golden light showered down, landing upon the mountain peak where Cao Zhen and others were located.

The Heavenly Dao rewards arrived!

Cao Zhen didn't know why, but when the Hundred Peaks Sect survived its Sect Tribulation, all the rewards from the Heavenly Dao, apart from nine items distributed to others, the remaining resources were theirs at the Hundred Peaks Sect and at that time, he was not overly excited.

Now, just distributing part of the resources to others had made him excited.

Chapter 1734:

Even though the Hundred Peaks Sect and the Eastern Wilderness Sect have a special relationship, and even though the Hundred Peaks Sect helped the Eastern Wilderness Sect a lot, the rules remain the same when it comes to treasure allocation.

All divine thoughts must belong to the Eastern Wilderness Sect, and from the remaining treasures and resources, the members of the Eastern Wilderness Sect will pick thirty items before it's the turn of the Hundred Peaks Sect members to choose treasures.

Cao Zhen still remembers the time when he and others fought tooth and nail for a treasure. Now, when he sees a Yellow Grade treasure, he doesn't react much.

As for Immortal Herbs and Immortal Mines, the Eastern Wilderness Sect has Star Lord Hao Yue, who is a reincarnated great ability. How could he not know which Immortal Herbs and Immortal Mines are valuable?

The most valuable Immortal Herbs and Immortal Mines have long been taken by him.

Moreover, their Hundred Peaks Sect has contributed many Immortal Herbs and Immortal Mines. According to their initial agreement with the Eastern Wilderness Sect, he also has the right to prioritize choosing corresponding grade Immortal Herbs and Immortal Mines.

After casually selecting a mid-grade Yellow Level treasure, Cao Zhen began to pick Immortal Mines and Immortal Herbs.

Even though they are of the same grade, their value still varies. This time, the Hundred Peaks Sect could still make a small profit.

To the current Hundred Peaks Sect, it's a small gain, but to the former Hundred Peaks Sect, it was an enormous resource acquisition.

After the selection was completed, he set off to leave with the members of the Hundred Peaks Sect.

The Eastern Wilderness Sect surely has many things to do, and he found it unnecessary to stay and bother them.

Although this time, there were ten experts from the Hundred Peaks Sect who went to help the Eastern Wilderness Sect, no other forces took the initiative to trouble the Hundred Peaks Sect.

Upon returning to the sect, Cao Zhen took out a large amount of resources and began to craft formation maps.

Back then, he had crafted a similar formation map for Ai Yunqi. At that time, he only crafted one map and helped him and his own disciples make six of the most basic Supreme Unparalleled Formation Diagrams, which nearly depleted the resources of the Immortal Soldier Workshop.

And now, he planned to craft more maps with greater strength.

Ai Yunqi was then only at the Longevity Period, but now he and his disciples have reached the Indestructible Period.

"I can't just craft formation maps for my disciples; Little Yin Dragons must also be given a map to gain insight, and Li Ke, Liè Yàn, must continue making maps, too.

And Ru Wenlin, he has obtained the Righteous Qi.

After all, the stronger the disciples of the Hundred Peaks Sect are, the better. They all belong to the Hundred Peaks Sect; as they grow stronger, my prosperity can also grow stronger.

Bi Yue must have what Li Ke has.

I need to reforge the Supreme Unparalleled Formation Diagram for Ling Xi, Immortal Path Domain; it indeed possesses a domain.

The Supreme Unparalleled Formation Diagram itself somewhat resembles a domain, and carefully calculated, it's only after achieving the Immortal Path Domain that the power of the Supreme Unparalleled Formation Diagram can truly be released!"

His disciples are indeed very skilled in formations.

However, ever since his disciples entered the Earth Immortal Realm, they have been consuming pills and drastically improving, and they need time to settle and cultivate. Moreover, consuming pills has entirely activated their potential, but they haven't reached their limits yet, and they need to continue cultivating. Bei Yan is no exception, so he didn't ask Bei Yan to help but instead crafted the formation maps himself.

While crafting the formation maps, he also informed Bi Yue to come to the Hundred Peaks Sect to comprehend the maps once they are completed after the arrival of the Immortal Path Domain.

However, Bi Yue wasn't at the Dragon Chant Sect but had ventured into the Fourth Dangerous Terrain with the experts of the Dragon Chant Sect.

Days passed rapidly, and the formation maps that Cao Zhen crafted gradually began to take shape.

In the blink of an eye, a year passed, and above the Four Treasures Peak, tribulation clouds began to gather.

"Tribulation clouds?"

"Tribulation clouds are appearing in the direction of the Four Treasures Peak. Did the Sect Master craft something new?"

"I wonder whether the Sect Master crafted a treasure or a pill."

Everyone looked up towards the direction of the Four Treasures Peak.

At the Four Treasures Peak, Cao Zhen had already gathered his disciples.

Besides the disciples of Four Treasures Peak, Li Ke, Liè Yàn, Ru Wenlin, Liao Youdi, and Shen Lid, experts from the Hundred Peaks Sect also flew over upon seeing the Sect Tribulation appear.

They knew the Sect Master was powerful, but since a Heavenly Tribulation appeared, they were uncertain of its strength, and since they were in a great teaching, they naturally came to assist.

In no time, thunderbolts descended from the void, and before Cao Zhen could act, rays of spell light rose up.

Scorching flames, piercing frost, sword Qi that seemed to cut through all...

In an instant, the Heavenly Tribulation in the void vanished completely.

Looking at those who acted, Cao Zhen showed a trace of relief in his eyes, not regretting the effort to help these guys enhance their strength.

See now, not only can his cultivation base win practically, but he could even relax without taking action himself.

The limit of the strength allowed by the Heavenly Dao is the Indestructible Period's limit, and the power of the falling Heavenly Tribulation hasn't even reached the Indestructible Period's limit.

With everyone's intervention, all vestiges of the Heavenly Tribulation disappeared quickly. As the tribulation clouds vanished, formation maps already crafted appeared in everyone's sight.

"Alright, since you are all here, take these formation maps. These are the maps I crafted for you based on your cultivation techniques and spells.

Chapter 1735:

"However, you don't need to look at it now. First, continue your cultivation and accumulation. After the Immortal Path Domain arrives, then look at these formation diagrams. By then, it can help you enter the Immortal Path Domain faster, and at the same time, allow you to understand your own domain more deeply within the Immortal Path Domain."

"What?"

"Enter the Immortal Path Domain faster, and even continue to comprehend within the Immortal Path Domain?"

Everyone around listened to Cao Zhen's words, each showing a look of amazement; the Immortal Path Domain and the Indestructible Period are different.

Transitioning from the Longevity Period to the Indestructible Period isn't difficult; generally, as long as the cultivation base is reached, one can break through.

Even if someone with average talent can't break through immediately, they can continue cultivating slowly, given the Longevity Period already provides a long lifespan; eventually, they will break through into the Indestructible Period.

However, after entering the Indestructible Period, attempting to break through to the Immortal Path Domain becomes difficult. Countless cultivators have been trapped in the Indestructible Period, ultimately depleting their lifespan and perishing.

The Immortal Path Domain, with the word 'domain' in its name, indicates that one must condense a domain based on the Golden Core previously formed, their Immortal Body, the cultivation technique, and their spells.

Previously, whether in the Golden Core Stage, the Longevity Period, or the Indestructible Period, condensation of the domain wasn't discussed.

Suddenly needing to condense a domain, even with a mentor's guidance, how can one condense it in such a short time?

Moreover, comprehension is also required!

They have now connected with the Eastern Province and have heard many reports and rumors about it.

It's said many talents in Eastern Province, after entering the Indestructible Period, still couldn't break through.

There was even someone considered invincible in the Golden Core Stage, and equally invincible in the Longevity and Indestructible Periods.

After entering the Indestructible Period, he still couldn't condense a domain and eventually died after exhausting his lifespan.

Prior to the Immortal Path Domain, having good cultivation talent naturally meant good talent, allowing one to easily break through to the peak of the Indestructible Period.

But from the Immortal Path Domain onwards, real talent is not just about cultivation talent; it's also dependent on aptitude.

Aptitude is something that's hard to articulate.

Some disciples might seem unremarkable at first, but then suddenly enlighten, soaring to great heights.

Such examples also exist in the Eastern Province.

Even in the Dragon Chant Sect, where they have close ties, there's someone like this.

That person in the Dragon Chant Sect always seemed ordinary, never considered a talent in any stage, and not even strong among peers in the same cultivation realm.

He even took fifteen thousand years to finally reach the peak of the Indestructible Period.

In no way does that appear to be a talent.

But after breaking through into the Immortal Path Domain, he soared high, and within a hundred years, he further broke through into the Immortality Regainment Realm.

Earlier, they had heard many rumors that their Sect Master could rely on pills to enable the disciples to enter the Immortal Path Domain.

However, the Immortal Path Domain is different; the Sect Master cannot refine pills to help the members of the Hundred Peaks Sect break through.

Indeed, their Sect Master did not refine pills, but instead, he refined formation diagrams.

Moreover, according to the Sect Master, using these formation diagrams ensures they can enter the Immortal Path Domain, and even within it, they can break through extremely quickly.

The Sect Master's methods are truly marvelous.

"We also have this?" Shen Lid looked at the Sect Master with some astonishment. The Sect Master had twice refined pills for them before: the first time was for crossing the Sect Tribulation, the second was for facing the revenge from the Weeping Blood Demon Sect and the Soul Breaking Demonic Sect, both times requiring a large number of experts.

But now, they neither need to cross the Sect Tribulation nor face any enemies; there's no reason for the Sect Master to refine formation diagrams for them.

Yet now, the Sect Master still gave them formation diagrams—they're not even from Four Treasures Peak.

If they were in the Sect Master's place, they believed they would never reach the Sect Master's level.

Although Four Treasures Peak has few disciples, the Sect Master could have recruited more disciples and given these resources to his own disciples, and no one would object.

Yet, the Sect Master did not do this; instead, he continued to help them.

After Cao Zhen distributed formation diagrams to everyone, he gave the newly refined Unparalleled Formation Diagram to Ling Xi before dispersing the crowd.

Actually, after the Minor Era of Inversion of Heaven and Earth concluded, the subsequent period was still special, but they weren't counted as part of the Minor Era of Inversion of Heaven and Earth because each was brief.

Six months later, anomalies reappeared throughout Eastern Province.

The Indestructible Period ended, and the Immortal Path Domain arrived.

At the back mountain of the Hundred Peaks Sect, Cao Zhen, along with a host of experts, gathered there.

Suddenly, one of the four burial mounds exploded open, revealing the figure of Flying Immortal Peak's Peak Master, Wang Yijian.

Flying Immortal Peak is the first peak of the Hundred Peaks Sect, and Peak Master Wang Yijian's cultivation base surpasses all other Peak Masters.

Among the peak masters of Hundred Peaks, only he has entered the Immortal Path Domain.

Wang Yijian flew out, looking at the familiar and unfamiliar faces around him, smiling at the crowd.

The fact that everyone is here means the Hundred Peaks Sect still exists, and that's enough.

Almost simultaneously, two burial mounds nearby exploded open, and two figures flew out, one young and one old, both exuding an overwhelming aura, even more intimidating than Wang Yijian.

Chapter 1736:

"Grand Elder."

"Sect Leader!"

Upon seeing the two figures, everyone saluted, saying, "Greetings, Sect Leader, Greetings, Grand Elder."

"Good, very good." The Grand Elder gazed at the numerous disciples before him, his face showing a look of comfort mingled with bewilderment. Why were there so many unfamiliar faces among these disciples?

Are they all from our Hundred Peaks Sect?

Since when did we get so many people in the Hundred Peaks Sect? Moreover, these people's auras, they all belong to the Earth Immortal Realm?

So many Earth Immortals?

When he fell asleep, even combining the ten major sects of the Guardian Immortal Imperial Dynasty, there probably weren't so many Earth Immortals!

And yet in just a hundred years, our Hundred Peaks Sect has gained so many Earth Immortals?

Moreover, among these Earth Immortals, the aura of some clearly isn't of the Longevity Period, but of the Indestructible Period, with quite a few even reaching the Peak of the Indestructible Period. Their auras are stronger than even Tu Zhuque and Qiu Wuxing!

What's more terrifying is that these people's life energies are exceedingly vibrant.

These people are not even three hundred years old, some even younger.

To reach the Peak of the Indestructible Period before turning three hundred?

What kind of talent is this? Previously, only one in our Hundred Peaks Sect possessed such talent, and that was our Sect Leader Bai Fengzi.

How did this happen? How did our Hundred Peaks Sect produce so many geniuses?

Bai Fengzi looked around at everyone, equally surprised.

Before she could inquire further, the last mound of the final burial suddenly exploded, revealing an elderly, slightly hunched figure in everyone's view.

"Greetings, Supreme Elder."

Including Bai Fengzi, everyone saluted the figure.

This presence was the oldest in our Hundred Peaks Sect and also the one with the strongest cultivation base.

Although our former Sect Leader was Bai Fengzi, before Cao Zhen's rise, our spiritual pillar was our Supreme Elder.

The Supreme Elder swept his gaze across the surroundings, where familiar figures immediately caught his eye.

"Very well, you are all here, that's good. Everyone being here is good."

Nodding slightly, suddenly his eyes went wide with incomprehension; these people's auras were too strong, all existing at the extremes of the Indestructible Period.

Among them, Cao Zhen, and several by his side, had auras even more terrifying than his impression of the Indestructible Period.

He knew Cao Zhen, and these were his disciples, whom he also knew.

But what about those others?

These others are also at the Peak of the Indestructible Period, and their auras are powerful, even more so than Tu Zhuque and Qiu Wuxing!

He turned to Qiu Wuxing and asked, "Qiu Peak Master, are these... disciples we've recruited during our later years?"

Since Qiu Wuxing awakened before them, if he sought to inquire, it naturally had to be Qiu Wuxing.

Qiu Wuxing immediately respectfully replied, "Reporting to the Supreme Elder, these are indeed disciples of our Hundred Peaks Sect, they..."

Just as Qiu Wuxing began to introduce these people, the Supreme Elder straightened his previously hunched figure, loudly interrupting, "What did you say? Say it again, we are what?"

"Reporting to the Supreme Elder, I said we are the Hundred Peaks Sect. The Hundred Peaks Sect has been in the past and now we have become a Great Teaching."

The Supreme Elder, Grand Elder, Bai Fengzi, and Wang Yijian, all froze instantly.

"A Great Teaching? How can that be?"

"How did we become a Great Teaching? Our Hundred Peaks Sect's history is far from becoming a Great Teaching."

The four couldn't comprehend, looking at Qiu Wuxing with disbelief.

Qiu Wuxing slightly stepped aside, allowing Cao Zhen to come forth, explaining, "Actually, after I awoke, our Hundred Peaks Sect had already become the Hundred Peaks Sect. As for how we became a Great Teaching, it was all because of Sect Master Cao, who acquired the Thousand Year Instant Orb..."

Qiu Wuxing stepped aside wanting Cao Zhen to explain, but as Cao Zhen remained silent, he could only continue explaining about the Former Millennium Instant Pearl and news of the Eastern Wasteland and Eastern Province connection.

As they listened to Qiu Wuxing, the four's eyes widened continuously.

"Did all this happen while we were asleep?"

"Unexpectedly, our Eastern Wasteland is now connected with the Eastern Province!"

"So, we truly are a Great Teaching now!"

"A Great Teaching, we have finally become a Great Teaching." Elder Zhang burst into tears, "Master, ancestors, can you see this? Our Hundred Peaks Sect has become a Great Teaching, your wish has come true!"

A Great Teaching, we are a Great Teaching!"

Saying this, he even raised his sleeve to wipe a tear from the corner of his eye, then looked towards Cao Zhen. The next moment, he suddenly knelt down.

"Though I did not witness it with my own eyes, I know without our predecessor, our Hundred Peaks Sect could never have become a Great Teaching so quickly."

He knows that Cao Zhen is a reincarnated great ability.

"Supreme Elder, you mustn't." Seeing the Supreme Elder kneel, Cao Zhen swiftly moved to appear in front of him, intending to help him up.

The Supreme Elder immediately felt a gentle force trying to lift him, his immortal energy surged forth, and instantly a stronger force pressed downward.

Chapter 1737: Passing the Mantle

His heart was filled with even more astonishment; Cao Zhen's power was too strong. He was the pinnacle of the Immortal Path Domain, while Cao Zhen was only in the Indestructible Period. It was quite a struggle to suppress Cao Zhen.

To what extent had Cao Zhen reached in the Indestructible Period?

Cao Zhen felt the power coming from his hands and reluctantly stepped back. The opponent was an Immortal Path Domain expert, while he was only in the Indestructible Period. The Supreme Elder didn't want to get up, and he could not rely solely on strength to pull up the Supreme Elder.

"Supreme Elder, you don't need to do this." Unable to pull him up with strength, he could only quickly step aside while advising, "And there's no need for you to call me senior; I've long abandoned my past life.

Now, I am just a disciple of the Hundred Peaks Sect, and you are my senior. I cannot bear you behaving this way towards me.

As for transforming the Hundred Peaks Sect into the Hundred Peaks Sect, I discussed it with the Sect Leader long ago. Being a disciple of the Hundred Peaks Sect, I naturally want to help because the Hundred Peaks Sect is my foundation.

Supreme Elder, please rise quickly."

Cao Zhen spoke while even making a gesture as if to kneel.

The Supreme Elder immediately waved his hand, and a shadow appeared behind him, as if a giant Mysterious Turtle completely covered the space where he and Cao Zhen were.

Cao Zhen suddenly felt his entire being entering another world, and even the aura within his body was subtly affected, to the point of being somewhat uncontrollable.

Then a gentle force came, not strong yet irresistible, causing his body to stand up uncontrollably.

Though he stood up, behind him, the disciples of the Four Treasures Peak and the disciples of the Hundred Peaks Sect, after seeing the Sect Master about to kneel, all knelt down one after another.

"All of you..."

The Supreme Elder shook his head helplessly, having no choice but to stand up. He could stop Cao Zhen from kneeling, but how could he stop everyone from kneeling?

If he had that ability, he wouldn't be just an Earth Immortal.

"Alright, everyone get up." The Supreme Elder waved his hand, but the crowd didn't immediately stand; instead, they looked at Sect Master Cao Zhen.

Once they saw the Sect Master nod, they all stood up.

Cao Zhen finally turned to Bai Fengzi, cupped his hand, and said, "Sect Leader, now I shouldn't call you Sect Leader but Sect Hierarch. Since you have awakened, naturally, the position of Sect Hierarch of the Hundred Peaks Sect should be yours."

"No." Bai Fengzi gently shook his head, looking sincerely at Cao Zhen, saying, "The Hundred Peaks Sect has grown into a Great Teaching under your leadership, so naturally, you should be the Sect Hierarch, not me."

Cao Zhen quickly shook his head, "That's not right. I am only a temporary Sect Leader. Besides, I am currently just in the Indestructible Period. You are a strong individual in the Immortal Path Domain; naturally, you should be the Sect Hierarch."

Having served as the temporary Sect Leader and Sect Master for so long, even with Nie Jie aiding him, it was still worrisome.

He did not want to continue being the Sect Hierarch.

As soon as he finished speaking, Shen Lid in the crowd was suddenly moved and spoke up, "Sect Master, didn't you refine the Formation Map for us? After comprehending it, all of us can enter the Immortal Path Domain, so certainly, you can too."

He was a disciple of the Hundred Peaks Sect, but when he joined, Bai Fengzi and others were already in slumber.

In his mind, the leader of the Hundred Peaks Sect, the Sect Hierarch, could only be Cao Zhen!

He knew that the disciples of the Four Treasures Peak certainly thought the same, but perhaps due to their master's involvement, they couldn't directly say so, hence he spoke these words.

As soon as he finished speaking, Liao Youdi beside him also chimed in, "Yes, Sect Master, the reason you didn't break through today was because you were waiting for the Supreme Elder and others to wake up; otherwise, you would have already broken through."

Cao Zhen immediately glared at the two, thinking, do you two have nothing better to do than flap your mouths?

Can't you see I don't want to be Sect Hierarch?

Are you trying to block off all my retreats?

Wang Yijian, looking at these two unfamiliar disciples speaking up, couldn't help but show a displeased look, discontentedly saying, "Which peak's disciples are these? Since when is it up to you to decide who should be the Sect Hierarch?"

What did these people mean?

Was this an outright power grab?

He had also just heard that the Hundred Peaks Sect was what it was today due to Cao Zhen, and if Cao Zhen continued as Sect Hierarch, he could accept that.

However, deciding the Sect Hierarch was a matter for the high-level figures of the Hundred Peaks Sect, not a place for these young disciples to speak.

Chen Qingluan originally did not intend to speak, but suddenly Wang Yijian pointed the criticism at her disciple, causing dissatisfaction to appear on her face as she stepped forward and pointed at Liao Youdi, saying, "This is my disciple from the Azure Pheasant Peak, so what about it?"

"Azure Pheasant Peak?" Wang Yijian showed a look of surprise in his eyes; this was an Azure Pheasant Peak disciple, not one from the Four Treasures Peak?

Before he could react, Chen Qingluan pointed to Shen Lid, who first spoke, saying, "As for him, he is a disciple from your Flying Immortal Peak."

Wang Yijian was instantly bewildered; he was just displeased because he thought these two were disciples from the Four Treasures Peak, disciples full of Cao Zhen, but it turned out neither were from the Four Treasures Peak, and the one who spoke first was even a disciple from his own Flying Immortal Peak.

Chapter 1738:

The disciple of the Flying Immortal Peak, he...

Wang Yijian looked at the unfamiliar male disciple before him. Although the other party did not fully release his combat power, he did not intentionally hide his aura either. Wang Yijian could feel that this disciple's aura was extremely strong, definitely the aura of the Peak of the Indestructible Period!

Moreover, this disciple was so young, a genius, an absolute genius!

The more Wang Yijian looked at this disciple, the more delighted he felt. He even walked directly to the disciple's side and asked, "Are you a disciple of our Flying Immortal Peak? Who is your master?"

"Master." Nie Jie, standing nearby, finally had the chance to interject, saying, "Junior Brother Shen Lid, was taken as a disciple by the lead master. We believe we don't have the ability to teach the junior brother."

"Oh? Taken by the lead master?" Wang Yijian's smile grew even wider upon hearing this. "No problem. Now that this master has awakened, I can teach him well."

However, Nie Jie, although you have already broken through to the Longevity Period, you have been surpassed by many junior disciples, which means you have fallen behind."

Upon hearing this, Cao Zhen immediately expressed his apology, "Nie Jie has always been serving as Vice Sect Master and Vice Sect Hierarch, handling various sect affairs of our Hundred Peaks Sect, which delayed his cultivation."

"Oh? Is that so?" Wang Yijian nodded slightly. With this interruption, it was no longer appropriate to discuss whether Cao Zhen or Bai Fengzi should be the Sect Leader, although he looked at the Hundred Peaks Sect with a tint of embarrassment. After all, it was their disciple from Flying Immortal Peak who had spoken in support of Cao Zhen.

Bai Fengzi had already turned his attention to the Supreme Elder, saying, "Elder, you say..."

The Supreme Elder gently stroked his beard and slowly said, "Sect Leader Cao, you should continue in the position of Sect Leader. I can see that our disciples have great respect for you."

As for Qiu Yixue, she can serve as the Vice Sect Hierarch."

Qiu Yixue is Bai Fengzi's name. Every past Sect Leader of the Hundred Peaks Sect was referred to as Bai Fengzi. Now that Qiu Yixue was no longer the Sect Leader, and the Hundred Peaks Sect was no longer just a sect but a Great Teaching, naturally, the name Bai Fengzi was no longer used.

Upon hearing this, Nie Jie suddenly showed a joyful expression, finally, finally, someone was there to take on the role of Vice Sect Hierarch, and he was finally about to be liberated.

Just as his smile began to emerge, Qiu Yixue shook her head, saying, "Supreme Elder, I do not wish to be the Vice Sect Hierarch. Being an Elder is enough for me."

"It's not necessary." The Supreme Elder shook his head. "I know you have great talent; in fact, having you as the Sect Leader before was somewhat of a waste of your talent.

But didn't Sect Leader Cao just say it? When he was the Sect Leader before, the Vice Sect Hierarch handled the matters.

And there can be two Vice Sect Hierarchs, so you can focus on cultivation, and we will find another person for the Vice Sect Hierarch position."

Upon hearing the Supreme Elder's words, Nie Jie immediately had an ominous feeling in his heart.

Before he could figure out how to speak, the voice of the Supreme Elder had already sounded, "Nie Jie, since you've always been the Vice Sect Hierarch of the Hundred Peaks Sect, you should continue in this role."

"Supreme Elder, this is inappropriate," Nie Jie hurriedly said, "I am still young. As a temporary Vice Sect Hierarch, it's fine, but to be the Vice Sect Hierarch, I'm worried I won't do well. I..."

The Supreme Elder interrupted directly, "You've been the Vice Sect Hierarch for so many years; with your experience, how could you not do well? The future belongs to you young people, so it's decided.

Alright, everyone can disperse now. Continue as you were before; don't mind us old fellows waking up.

However, I'm not clear about the changes in our Hundred Peaks Sect over the years. Can you send a few young people to tell us about it?"

"Yes, Supreme Elder." Wang Yijian immediately turned his gaze to his disciple, Nie Jie, and said, "Nie Jie, you tell us about it."

Just as he finished speaking, the Supreme Elder's scolding voice immediately sounded, "Wang Yijian, even though Nie Jie is your disciple, he is also the Vice Sect Hierarch of our Hundred Peaks Sect. Pay attention to your attitude and tone."

Wang Yijian: ...

Cao Zhen quickly returned to Four Treasures Peak and immediately took out the Formation Map he had crafted, channeling his immortal energy into it.

Instantly, he entered a profound and mysterious state.

He felt as if he was floating from the void, ascending above the Hundred Peaks Sect, over the Guardian Immortal Imperial Dynasty, and vaguely, he seemed to have returned to Earth.

At that moment, he felt as if he had understood many things.

Enlightenment!

He finally had an enlightenment!

Suddenly, Cao Zhen's thoughts became clear again. He felt as if he was still in the Guardian Immortal Imperial Dynasty, and more so, he sensed around him waves of power, including talismanic power, the power of Five Elements Energy, Sword Qi, Yin Yang Qi...

This was the power of the people he connected with.

Cao Zhen calmed his mind and, based on the cultivation theories of Zhang Daoling, True Person Yuding, and others, combined with his situation, began to condense the chaotic power within him, using chaotic power to drive the Age of Prosperity Qi.

Although his power and domain were somewhat chaotic due to his effortless victories, he possessed the Era Prosperity Power, which was part of his prosperous era.

Moreover, he also possessed Chaos Qi, which was the origin of all energy.

Otherwise, he wouldn't dare to make his Immortal Mountain so chaotic, filled with various powers.

Cao Zhen gathered his power, converging these streams of energy behind him. However, in the next moment, these energies suddenly dispersed.

"Failed?"

Cao Zhen frowned slightly; what was happening? Did he fail to condense strength just as he began?

The domain of the Immortal Path relates to the Golden Core condensed in oneself, related to one's Immortal Mountain, Immortal Body, cultivation techniques, and spells.

"I had an enlightenment, and I understand a lot. I thought I should be able to break through, but in the end, I failed to consolidate the domain.

Could it be because my Golden Core and Immortal Mountain are extremely chaotic, especially the Immortal Mountain, due to the disciples winning without effort?

So, should I let the disciples first enter the Immortal Path Domain, and then break through myself?"

Cao Zhen mused, glancing at his disciples.

A surge of talismanic energy gathered around Ling Xi, and in just a moment, these talismans converged behind her, forming a vast formation. The formation appeared exceptionally peculiar, and even he couldn't determine what formation it was, but he could sense ancient energy from it.

The formation projection formed by the talismans quickly spread, and in the blink of an eye, it covered the space where Ling Xi was.

Domain!

Ling Xi's domain had formed.

Cao Zhen looked toward another direction. Around Xiang Ziyu, his black and white humanoid phantoms were his projection, his domain.

Besides, Ruo Yun, Yan Yourong, Bei Yan...

Each disciple of Four Treasures Peak successively condensed their domain.

"Is this the domain?"

"I feel that within my domain, everything seems to be under my control."

"No, Senior Sister, when I entered your domain, I could feel it affecting me, but shouldn't my domain also be affecting you too?"

"Yes, when our domains overlap, they influence each other, but the domains do not disappear."

All experienced the formation of the domain for the first time, eagerly investigating the unique aspects of their domains.

"Right, Master, how is your domain?"

"Yes, Master, what about your domain? Show us your domain too."

"My domain... My domain is quite special; you will know it in time."

Cao Zhen looked at each of his disciples, his brows tightly furrowed. Even after the disciples broke through, he still felt that he was still unable to condense a domain successfully.

Could it be because the disciples just broke through?

Or because he connected with too many people, so he needs to wait for them all to break through, or perhaps it's related to the Prosperous Age Picture Record, and everyone in the Hundred Peaks Sect needs to break through first?

Chapter 1739:

Cao Zhen didn't know what situation he was currently in.

He was unable to condense his own domain, even after waiting several days for the disciples' Immortal Dao Domain to condense and temporarily stabilize, he still could not condense his own Immortal Dao Domain.

"How could this be? My Immortal Dao Domain can't condense? What's the reason? Even if my path is quite chaotic, it shouldn't be impossible to condense the Immortal Dao Domain.

Or should I operate the disciples' cultivation techniques?"

The Immortal Mountain behind Cao Zhen emerged, and he started to operate the disciples' cultivation technique. In an instant, the Immortal Mountain behind him began to grow wildly, and on the Immortal Mountain, the peaks represented by the disciples rapidly soared, even his tallest peak grew rapidly along with them.

Within the blink of an eye, the Immortal Mountain had exceeded a height of three hundred zhang, and continued to ascend without any reduction in speed.

In just a few breaths, the Immortal Mountain had surpassed a height of four hundred zhang; at this moment, the speed of ascent gradually slowed,

Yet the Immortal Mountain continued to grow slowly.

Finally, the Immortal Mountain stopped after reaching four hundred and thirty zhang.

Cao Zhen looked at the Immortal Mountain behind him and once again attempted to condense his own domain, yet after various auras appeared behind him, they shattered once more.

"What is this situation?"

Cao Zhen furrowed his brows tightly: "The formation map I refined has no problem. After observing and understanding the formation map I refined, my disciples all broke through, and I clearly feel that I've attained enlightenment. After enlightenment, I already understand what a domain is, not to mention I have the immortal cultivation experiences of Zhang Daoling, True Person Yuding, and Lu Ya. I couldn't possibly be stuck in the Immortal Dao Domain.

Moreover, the limit of the Indestructible Period, the Immortal Mountain could only reach three hundred feet. I had tested it before during the Indestructible Period, and after the Immortal Mountain reached three hundred feet, it was impossible to break through, and I had to split off a doppelganger to continue improving.

But now, my Immortal Mountain has already surpassed four hundred feet, so naturally, I have broken through into the Immortal Dao Domain.

But the problem is, where is my domain?

Why can't I condense a domain? Even though my Immortal Mountain has broken through, there is no domain, am I still in the Indestructible Period or in the Immortal Dao Domain?"

Cao Zhen rubbed his forehead with some headache, talking to himself: "Unable to condense a domain, is it because of my chaotic power, or is it due to my Prosperous Age Picture Record? Or maybe it's because I've coasted through too many, too disorderly things?"

If I can't condense a domain all the time, it'll be a trouble.

Without a domain, I can't remain in this state forever.

This state definitely isn't the true Immortal Dao Domain, so how can I break through into the Immortality Regainment Realm and True Immortal Realm in the future?

In the subsequent time, Cao Zhen didn't meet his disciples or anyone else but dedicated himself to research on his own domain.

At the same time, the disciples of Four Treasures Peak were also one by one studying their own domains.

Gradually, he felt like he was discovering the reason why he couldn't condense a domain.

"It should really be because I've coasted through too many things, there's power and aura from others on my Immortal Mountain.

Although these auras are different, I have Chaos Qi. Chaos Qi is the origin of all auras. Under normal circumstances, I should be able to fuse these auras together through Chaos Qi, but it seems I've coasted through too many things.

Now it's creating a situation where my Chaos Qi is weaker than these auras, so Chaos Qi can't fuse all these auras into one to form a domain."

Cao Zhen sighed helplessly: "So, this is forcing me to cultivate? The problem is that I seem to cultivate but can't produce much Chaos Qi; most of the aura I cultivate turns into Age of Prosperity Qi.

Unless I find a place to gather Chaos Qi again, or find the Chaos Beads, but where do I find them?

Previously, whether it was robbing the Rare Treasures Commerce Association or exterminating the Soul Breaking Demonic Sect, or being in perilous ground, even the Heavenly Dao's rewards, none had Chaos Qi!

Perhaps, inquire with the Wanxiao Sect?

Isn't the Wanxiao Sect reputed to know everything under heaven?"

Cao Zhen's mind moved, controlling one of his doppelgangers to fly out, heading towards the Eastern Province.

One of his doppelgangers always operated under the identity of the Bleeding Tears Assassin, while another stayed outside, bringing back talismans and similar things for the killer association.

The second doppelganger can't act easily, but the first Bleeding Tears Assassin doppelganger can.

Currently, the Blood Tear Assassin doppelganger maintains the power at the extreme limit of the Longevity Period.

Although he has broken through, his doppelgangers could actually be stronger, but the issue is he hasn't even reached the limit of the Immortal Dao Domain yet.

In this circumstance, if he splits part of his power to condense a doppelganger, wouldn't his power be even weaker?

Since it's just about gathering information, the limit of the Longevity Period is already sufficient.

As for the Bleeding Tears Assassin not showing up for a long time, that's normal, everyone knows the Bleeding Tears Assassin is at the Longevity Period's limit.

Now that it's the Immortal Dao Domain, the Bleeding Tears Assassin is no longer the strongest force. He has killed so many people before and offended countless great sects. It's no wonder the Bleeding Tears Assassin is hiding now!

Chapter 1740: The Enchanting Demon Lord

"No, I can't just ask about the price directly. Even if the Wanxiao Sect truly has the information, obtaining such information would require a price that I might not be able to afford.

What if I can't pay the price? Unless..."

Cao Zhen felt a stirring in his heart and opened China Cloud to check his Array Level and Refining Level. He had been setting up formations continuously, first for the Great Formation of the Hundred Peaks Sect, and then assisting the Eastern Wilderness Sect with their formation, thus his Array Level had significantly improved.

"Well, my Array Level is indeed closer."

Cao Zhen immediately invested the extra cultivation experience of his disciples into upgrading his Array Level.

"Array Level breakthrough, a random user has been assigned, please specify the designated user."

"I appoint the interim sect hierarch of the Wanxiao Sect in the Eastern Province."

He had never appointed in this way before and wasn't sure if this method would succeed.

Soon, the voice of China Cloud came: "Wanxiao Sect, interim sect hierarch in the Eastern Province, Demonic Lord Qing Shi designation successful."

"Demonic Lord?"

Surprise immediately flickered across Cao Zhen's face.

Not everyone could be called a Demonic Lord; for instance, Star Lord Hao Yue carried the "Lord" title in his name because he was a True Immortal in his previous life.

Only those of the True Immortal Realm could be called Lords, like Star Lords, Immortal Lords, Demon Lords, etc.

But now, no one from the Immortality Regainment Realm has awakened, so how could there be someone from the True Immortal Realm?

Then there's only one possibility; the other party is a reincarnated Great Ability!

But the Eastern Province cannot have reincarnated Great Abilities. If she could be the interim sect hierarch of the Wanxiao Sect in the Eastern Province, she must be from the Eastern Province, so what's going on?

Cao Zhen felt puzzled and confused.

Soon, the voice of China Cloud echoed in his mind once more.

"Random user, Lu Yu designation completed."

"Lu Yu?" Cao Zhen shook his head filled with regret. Lu Yu, the Tea Saint, and what use is there in connecting with Lu Yu? Previously, he connected with the Wine Saint Du Kang, and now the Tea Saint.

The problem is, connecting with them is truly of no use.

But the Demonic Lord Qing Shi...

He opened the file of Demonic Lord Qing Shi full of curiosity.

User: Demonic Lord Qing Shi.

Gender: Female

Cultivation: Earth Immortal Realm, Peak of the Immortal Path Domain.

Identity: Wanxiao Sect, interim sect hierarch of the Eastern Province branch, reincarnated Great Ability.

Cao Zhen's eyes immediately focused; indeed, this woman is a reincarnated Great Ability, but it's unclear why she can appear in the Eastern Province.

He continued to look down.

Cultivation Talent: Sky Seducing Body.

Alchemy Level: Level 51.

Talisman Level: Level 62.

Array Level: Level 66...

Expertise in Spells: Chaos Sound, Soft Charm...

"Chaos Sound?"

Cao Zhen looked further down, his eyes widened; this woman also possesses Chaos Qi.

It took him quite some time to come back to his senses.

"This woman, I wonder if the Wanxiao Sect knows she's a reincarnated Great Ability. More importantly, she also possesses Chaos Qi.

If she is now the interim sect hierarch of the Wanxiao Sect, if she knows where Chaos Qi is, why doesn't she go search for it?

Could it be that the Wanxiao Sect doesn't know where Chaos Qi is, or even if she knows something about it, her special status prevents her from looking for it?"

Cao Zhen gently shook his head.

"Forget it; since I've connected with her already, I might as well take a look."

Just like the Killing Society and Rare Treasures Commerce Association, the Wanxiao Sect sets up various branches outside that are not actual branches but more like shops dedicated to selling information. Although they can't cover every city in the Eastern Province like the Rare Treasures Commerce Association, there are Wanxiao Sect shops in most of the province.

He wanted to inquire about Chaos Qi. Considering how precious and rare Chaos Qi is, if anyone in the Eastern Wasteland asks about it, the first reaction of the Wanxiao Sect people would be to suspect it might be Cao Zhen gathering information.

To prevent others from guessing that he possesses Chaos Qi, the best way is to go to the Eastern Wasteland, a bit further away, to gather information.

"Lion Tiger City, this should belong to the Sect of Ten Thousand Beasts. Coming here to gather information, no one would ever think it's me."

Cao Zhen glanced at the city wall in front of him; unlike many places with towering walls, the city wall here seemed merely decorative, barely over ten feet tall, even with some gaps. The city gate was weathered and mottled.

Just by looking at the city walls and gate, one couldn't tell this was a populous city, but in such a city, the Wanxiao Sect surely would have a branch.

Cao Zhen stepped into the city and headed straight for the Immortal Market.

In most cities of the Eastern Province, there would be an Immortal Market, specifically for doing business with cultivators, even in territories controlled by Demonic Cultivators.

After all, Demonic Cultivators also need to live; the more prosperous the city, the more people it can host, allowing them to collect more wealth and recruit more disciples.

Upon entering the Immortal Market Street, the most prominent sign that catches the eye is the Rare Treasures Pavilion.

This Rare Treasures Pavilion is the largest shop in the Immortal Market, but from the outside, it seems long abandoned, with doors covered in dust.

At this moment, a group of people stood gazing at the Rare Treasures Pavilion, discussing something continuously.

"This Rare Treasures Pavilion is indeed large and the most conspicuous and best-located shop on this street. But the problem is, this is the Rare Treasures Pavilion, and I'm really afraid to take it over."
