

My Master 1761

Chapter 1761:

Since you've provided us with this food, why not join us?

We have three Immortal Path Domains, and with us, you can be a bit safer."

As the words fell, the faces of the Double Whip Immortal and the Sword-Searching Immortal immediately showed a noticeable expression of astonishment. Their senior sister, why was she suddenly inviting someone from the Indestructible Period?

Although their senior sister was not considered a bad person, she definitely wasn't someone overly compassionate, and wouldn't invite someone just because they offered them some food.

"Senior sister..." The Double Whip Immortal secretly communicated to the Sword-Immortal, "Why do you want to invite him? Is there something special about this person?"

"The other party is probably also someone from an Immortal Path Domain." The Sword-Searching Immortal secretly explained, "It's very strange that he hides his strength.

Under normal circumstances, who would hide so much strength and pretend to be someone with a lower cultivation realm?

Moreover, the news about the Chaos Qi in the River of All Realms came too suddenly. It spread across the world in just one day, and I have a feeling that there may be some conspiracy behind this.

So, I wanted to invite him. Perhaps, he knows something, which is why he's hiding his strength and coming here."

As the Sword-Searching Immortal finished speaking, the cultivator who called himself Ye Liangchen had already spoken.

"Thank you for your kind offer, but I entered this dangerous place because I want to train and seek my own opportunities.

You know that we Loose Cultivators, unlike you who have the backing of a Great Teaching, to continuously break through, to improve ourselves, we have to constantly venture into dangerous places and gamble with our lives, improving ourselves by hovering between life and death.

So, I still want to be on my own."

As Cao Zhen spoke, his heart became even more vigilant. He didn't believe that these people were so kind-hearted, willing to help him just because they ate a bit of his meat.

These people might have ulterior motives, so the best way is to stay away from them and walk his own path.

The Sword-Searching Immortal nodded slightly, and in her heart, she became even more certain of her suspicions.

For a moment, it was difficult, but the room fell into silence, with only the sound of flames burning continually echoing.

Cao Zhen felt a wave of drowsiness hit him. They had been traveling all night, and it was already past midnight. If he were an ordinary mortal, he would indeed feel sleepy.

But now he's alone, and he doesn't dare to sleep!

He could only endure it.

As for the three opposite him, they could take turns watching the night and resting.

After about more than two times, the sky gradually cleared, and the surrounding air finally wasn't as cold.

"Everyone, I'm leaving now."

Cao Zhen resisted his drowsiness and forced himself to walk out of the room, heading alone into the distance.

During the years when he experienced mortal life, he also walked through the deserts. Now, although he still possesses Immortal Qi, and his physical strength is that of a normal mortal, he still fears the cold and heat like a mortal and feels tired, hungry, and thirsty.

All this makes him feel as if he's returned to the past, becoming that mortal once more.

He walked further, feeling increasingly drowsy, almost unable to keep his eyes open, but he dared not sleep in this desert. If he were to encounter the Chaye Clan or other cultivators, with ill intentions from others, one nap could mean he would never open his eyes again.

"No, I must leave this desert quickly."

Cao Zhen walked a little longer before flying into the air, quickly heading further away.

Yesterday, after arriving here, he could see many cultivators everywhere, but now, after flying for a while, he hadn't seen a second cultivator. Clearly, it was unknown how many cultivators had died at the hands of the Murderous Night Clan during the night.

Finally, after flying for about six hours, his view transitioned from a desert to lush trees, large trees one after another, along with towering mountains, and flowing rivers.

The River of All Realms!

He finally reached the River of All Realms.

Cao Zhen stifled his drowsiness and continued flying forward, quickly finding a secluded cave, swiftly entering it, setting up a warning formation at the entrance, and then collapsing into sleep.

He was really too tired; it had been a long time since he had slept. When he woke up and looked outside, he felt the sky was already faintly brightening.

"Did I sleep from daytime to the next day?"

Feeling hungry, he took out some firewood from the Qiankun Bag, lit it with mana, and pulled out a skewer of pre-strung meat, baking it directly.

"Am I really going to have three grilled meals a day?" Cao Zhen muttered to himself while turning the meat skewers in his hand.

Soon, the aroma of roasting meat wafted through the air.

The next moment, footsteps approached outside the cave, followed by a voice.

"Meat? Great."

As the voice fell, footsteps echoed through the cave.

Someone was here.

But he was sure he had set up a formation at the entrance. If anyone entered or if it was broken, he would have heard a sound. Why was there no sound?

Cao Zhen looked toward the cave entrance with an expression of surprise.

In the entrance appeared a burly man clad in black, holding a Giant Axe in his hand.

Chapter 1762: Unable to Use Immortal or Demonic Qi

Cao Zhen looked towards the opponent's chest, members of the Wentiancult.

The Wentiancult is considered a top-tier Great Teaching in the Eastern Province, not at all weaker than the Dragon Chant Sect and the Yin Yang Sect.

However, previously he had little contact with members of the Wentiancult, and they seldom operated near the Eastern Wasteland.

The opponent, upon seeing Cao Zhen, immediately displayed a gruesome killing intent on his face, as if looking at a delicious morsel, he sneered while walking towards Cao Zhen, "What a pity, you're not one of us in the Wentiancult, then you can only die."

With that said, he raised the Giant Axe and suddenly charged, as slow as could be.

Cao Zhen showed a hint of surprise on his face, why didn't this person unleash Demonic Qi? Even if he prefers using an axe over Spells, he should release Demonic Qi to cover his entire body.

Moreover, why hasn't anyone even released the Demonic Mountain?

Entering such a dangerous place, at the very least, one should be in the Earth Immortal Realm. This person couldn't possibly be without a Demonic Mountain. What's happening?

He was perplexed, watching the man getting closer, without thinking, he summoned the Immortal Mountain, towering at two hundred and seventy lengths behind him.

His internal immortal power circulated, as he pointed towards the opponent.

Instantly, a streak of blue light shot out, resounding vividly in the cave.

The next moment, the light descended and struck the opponent's chest.

Immediately, the clothes on the opponent's chest tore, revealing a distinct scar.

"How can you use Spells!"

The Demonic Cultivator who had a fierce expression earlier now showed an astonished face, turning to flee outwards.

"Using Spells? I'm in the Earth Immortal Realm, isn't using Spells very normal? What's wrong with this Demonic Cultivator?"

Cao Zhen was also taken aback, could it be that now, others are unable to cast Spells?

Can't let this person escape!

He swiftly pursued.

In just a breath, he appeared in front of the opponent, a Sharp Sword manifesting in his hand, thrusting vigorously at the opponent.

The Longsword descended, and suddenly, a hundred of his figures appeared in the Void, all drawing their swords simultaneously.

Each sword strike contained endless potency, and each strike seemed to effortlessly tear apart this space, leaving a hundred cracks in the Void.

A hundred swords, each seemed to have a different Sword Intent, yet those hundred swords were seemingly just one sword.

The male cultivator opposite looked at this sword, unable to react, perhaps unable to see the sword clearly or seeing it but unable to defend in time, only watching helplessly as the sword pierced into his body, and terrifying Sword Intent along with frightening immortal power wildly surged within him.

In an instant, numerous meridians inside him were destroyed, and even his internal organs shattered because there was no Demonic Qi to protect them.

"Pfft!"

The Demonic Cultivator spat bright red blood and fell to the ground; despite his previous Physical Strength, he couldn't activate Demonic Qi and thus couldn't block the opponent's immortal power, resulting in even more terrifying damage from the Sword Qi.

He couldn't understand why, within the realm of the River of All Realms, no one could activate Demonic Qi or immortal power, yet this person could!

"Indeed cannot release Demonic Qi?"

Cao Zhen finally understood why the opponent's previous attacks were so slow, because they couldn't activate Demonic Qi at all.

But why couldn't the opponent activate Demonic Qi?

Cao Zhen grabbed the opponent, his figure flashed, returning to the cave, and he heavily threw the man on the ground, coldly saying, "Now, I'll give you a chance for a quick death. Speak, what's happening now, why are you so shocked to see me casting Spells."

The Demonic Cultivator looked at Cao Zhen in front of him, grinned, but said nothing.

"Not talking, huh? I do like people with stubborn mouths." Cao Zhen swung his sword directly, cutting the inner side of the opponent's thigh, sneering, "The next sword won't be so off-target."

The moment the opponent entered the cave, he intended to kill him. Even if he has to use some torture, he wouldn't feel any mental burden with such a person.

"No, I'll talk, I'll talk..." This Demonic Cultivator wasn't as tough as he imagined, immediately speaking, "Just before nightfall, now within the realm of the River of All Realms, somehow, it's changed, unable to cast immortal power and Demonic Qi."

Of course, our Physical Strength has remained unchanged. No one knows why this happened. Also, in this realm of the River of All Realms, there seems to be an invisible barrier, people within cannot leave, but those outside can enter."

As he spoke, he looked at Cao Zhen with eyes filled with confusion, clearly everyone couldn't cast immortal power and Demonic Qi, so why wasn't this person affected?

"Cannot cast immortal power and Demonic Qi?" Cao Zhen frowned, he just slept a day, and such a huge change occurred outside?

But why can he cast immortal power?

Could it be because of the Chaos Qi?

He suddenly thought of the Demonic Lord Qing Shi, why did he so confidently claim that nobody can obtain Chaos Qi, is it because the Chaos Qi here is unaffected?

A cultivator who can cast Demonic Qi or immortal power whereas another cannot, how can they fight?

It's entirely a one-sided slaughter.

Therefore, this is why the Demonic Lord Qing Shi had such confidence?

Cao Zhen glanced at the Demonic Cultivator before him, his internal immortal power exploded, heavily striking the opponent, directly annihilating him.

"Demonic Lord Qing Shi, see if She can cast immortal power or Demonic Qi,"

Cao Zhen glanced at the sky not yet fully bright, thoughts arose, he opened China Cloud, and began connecting to the Demonic Lord Qing Shi.

Soon, in his sight, a cave appeared, in the cave, a pile of firewood burned, through the firelight, he could see a shadow upon a soft fur blanket.

Despite being covered with a thick fur blanket, one could still discern the curvaceous silhouette.

"Sleeping? This..." Cao Zhen was speechless momentarily, did you come all the way here just to sleep?

Chapter 1763:

Cao Zhen stared at the back of the Demonic Lord Qing Shi for a long, long time without seeing him rise, and finally had to cease his observation out of helplessness.

"I wonder how Ling Xi and the others are doing."

A look of concern appeared in Cao Zhen's eyes as he began to connect with Ling Xi. The team of disciples he had previously arranged should have ensured their safety.

However, the situation is different now; at present, no one can use immortal energy or demonic qi. Although the disciples of Four Treasures Peak have all cultivated the Eight Nine Mysterious Art, making their physical bodies much stronger than those of cultivators in the same realm, problems still remain.

For example, Ling Xi has not really practiced swordsmanship or sword technique and cannot unleash immortal energy. Her best talisman and array plate are likely unusable.

As China Cloud quickly connected, the images of Ling Xi, Wàn Rén Dí, and Yan Yourong appeared in his view.

In this scene, the three of them were hiding in a cave, with Ling Xi guarding the entrance, while behind her, Wàn Rén Dí and Yan Yourong were each resting on one side of the cave.

"Ling Xi, what is your current situation? Is it true that you cannot use immortal energy and demonic qi?"

Suddenly, Ling Xi looked up, a hint of joy appeared on her face. This was her mentor's voice. She nodded quickly and said, "Yes, Master. I don't know why, but since nightfall, I, along with my junior sister and junior brother, cannot use immortal energy.

Moreover, we encountered a few cultivators on the way, and they too were unable to use immortal energy and demonic qi."

Ling Xi spoke, and a look of surprise suddenly appeared on her face, as she said in astonishment, "Master, how did you know this? Have you also arrived at the River of All Realms?"

"That's right, I've also entered the River of All Realms," Cao Zhen continued to ask, "By the way, since you entered the River of All Realms, have you discovered anything special?"

Ling Xi shook her head and said, "Nothing special, but Junior Brother did find a large piece of seventh-grade immortal ore. Also, after we discovered we couldn't use immortal energy, we started feeling a bit tired.

Before entering the River of All Realms, in that desert, we felt cold, hot, and tired just like before we started immortal cultivation, but after entering the River of All Realms, those effects disappeared.

As a result, after we found out we couldn't use immortal energy, we started feeling tired again and also sleepy, so the three of us have been taking turns keeping watch."

Under normal circumstances, in the River of All Realms, one wouldn't feel as affected as in the desert, feeling tired, hungry, sleepy...

Previously, after entering the River of All Realms, feeling sleepy was because of just leaving the desert.

Furthermore, Ling Xi meant that they felt tired because they couldn't use immortal energy, but he could use immortal energy, and he still felt hungry. Plus, the Demonic Lord Qing Shi, she was always asleep, so even if one could use immortal energy or demonic qi, they would still feel affected.

Cao Zhen temporarily did not consider this issue. Although he could observe what the connected users were doing for a long time, the conversation time was limited. He hurriedly said, "The current situation is a bit special. Among the three of you, your junior brother is just a burden. Although your physical body is strong, you are not adept at close combat. The only one with combat capability among you is Yan Yourong.

For now, you need to keep a low profile and inform your junior brother not to wander around." Cao Zhen's voice was full of concern; his two disciples were so beautiful, especially Ling Xi. They were more likely to encounter danger and trouble than ordinary people.

"Master, I was wrong!" Ling Xi instantly knelt on the ground, self-reproaching, "It's my fault that I didn't practice swordsmanship well. If I had practiced swordsmanship, this wouldn't have happened."

"Get up, get up, the ground is so cold. Why are you kneeling if there's nothing wrong?" Cao Zhen quickly comforted her, "You can't be blamed for this; everyone has their own combat style. You have the Ancient Talisman Body, so naturally, you should focus on cultivating the Talisman Technique, but no one knew this situation would arise.

Keep a low profile for now. I will look for your other junior brothers and sisters to see where they are located.

Let you gather first; for now, keep a low profile. Besides, who knows how long this situation will last? It can't always be possible that immortal energy cannot be used here."

"What about you, Master?" Ling Xi asked with concern, "Won't you be in danger being alone? Why don't we meet up first?"

A comforting smile appeared on Cao Zhen's face; indeed, the senior disciple knew how to care and worry for others, first thinking about his safety.

"Don't worry; right now, in this River of All Realms, only one person can be my match. No matter how many others come, it's useless. Because I can use immortal energy."

"What? Master, you're not affected?" Ling Xi's face showed a look of surprise, followed by a smile appearing on her face. "It's great that you can use immortal energy. But wait, Master, you said there's someone who can match you?"

"That's right, and it's the point I specifically want to remind you all of." Cao Zhen spoke in a serious tone, "There is another woman here, a temporary Sect Hierarchy of the Wanxiao Sect in Eastern Province. If I am correct in my judgment, she has also cultivated the Chaos Qi, just like me.

Chapter 1764:

The reason I, as your master, have not been affected is because of the cultivation of Chaos Qi. So like her and me, none of us will be affected and can wield celestial energy.

In fact, all these changes could be her doing, in any case, if you encounter her, you must find a way to stay away.

By the way, you don't know that woman, do you? She is a very beautiful woman who always wears a smile and is filled with charm. Her every move captivates the hearts."

After Cao Zhen and Ling Xi described the appearance of the Demonic Lord Qing Shi, the time to communicate with their disciples was almost over, so he hurriedly asked, "By the way, where are you all now?"

"Master, we are in the Delusional Heart River."

As Ling Xi spoke, the connection was soon severed.

"I also need to remind the other disciples, especially Linghu Gudu and the others. That kid Linghu Gudu seeks fortune in danger, better not run into the Demonic Lord Qing Shi."

Cao Zhen once again used China Cloud to contact Yi Sheng.

Yi Sheng was together with Linghu Gudu.

The next moment, in his eyes appeared the image of Linghu Gudu and the others.

Linghu Gudu and the four others were also in a cave, there were enough mountains here, and naturally, caves were plenty.

At the entrance of the cave, Linghu Gudu stood guard alone, at the back were Bei Yan, Yi Sheng, and Qiao Jingyao.

Cao Zhen looked at Yi Sheng who had not yet awakened and quickly changed the China Cloud connection user to Linghu Gudu, directly opening up communication, "Linghu, the current situation is rather unusual."

As soon as he spoke, Linghu Gudu stood up at once, looking around and exclaimed, "Who! Is..."

Suddenly, he realized it was his master's voice, wasn't it?

Yes, the master had a special means to contact them directly, but since the master hadn't contacted him like this before, he didn't react at the moment.

With his exclamation, the slumbering Yi Sheng, Bei Yan, and Qiao Jingyao all woke up, looking around cautiously.

Bei Yan and Yi Sheng immediately asked aloud.

"What happened?"

"Junior Brother, why did you cry out just now?"

Linghu Gudu's face showed an awkward expression, "Master contacted me. It's my first time, a bit surprising, that's normal, right."

"Master?"

"What does Master need us for?"

Cao Zhen looked at the people who were woken up and then at Linghu Gudu, feeling speechless. I chose to contact you because they were all asleep and I didn't want to disturb them, but you cried out and woke everyone up.

Because the time to communicate was limited, he went straight to the point, asking Linghu Gudu, "Are you all unable to use your celestial energy as well?"

"Yeah, we can't use celestial energy either, did you already know, Master?" Linghu Gudu nodded instinctively.

"All of you can't use celestial energy, continuing on like a few of you together entails danger. Although all of you have cultivated the Eight Nine Mysterious Art, your physical bodies are more powerful, yet because you cannot use celestial energy, the gap between everyone is not so great.

If you encounter more enemies, it would also be troublesome. So, you'd better go and meet up with your senior sister and them."

Cao Zhen asked, "Do you know where you are at the moment?"

Linghu Gudu replied immediately upon hearing, "We know, we are at the Four Sha River."

"Four Sha River? Then do you know the Delusional Heart River?" Cao Zhen didn't check the map here before he came. They didn't have the map of the River of All Realms.

"I don't know." Linghu Gudu shook his head and said, "We only realized this place is called Four Sha River after arriving here. As for the other rivers, there are indeed too many rivers here, we truly don't know where the so-called Delusional Heart River is located."

"Don't know, then after dawn, go and scout a bit, your senior sister and them are at the Delusional Heart River, meet up with them first.

Additionally, there is a woman you must be careful of..."

Cao Zhen described the situation of the Demonic Lord Qing Shi to the four of them once, then cut off the connection with them.

"And then Duo Duo and them, now that there are more disciples, there's also more to worry about."

Cao Zhen used China Cloud again to check on Duo Duo's situation.

Soon, in his vision appeared the figures of Duo Duo and the others.

In the small cave, the sound of Zhu Peng's snores was constantly echoing. It seemed his snoring was too loud, and both Duo Duo and Liao Youdi were woken up, sitting slightly inside the entrance looking outside, neither spoke, and it's unknown what they were thinking.

Suddenly, Cao Zhen's voice rang in Duo Duo's mind.

"Duo Duo, it's your master, I have already contacted your senior sister and brother. The three of you also can't use your celestial energy, right."

Duo Duo's sitting body suddenly stood up, gently nodded, and responded in her heart, "Yes, Master, we indeed cannot wield celestial energy."

"Hmm, among the three of you, you and Zhu Peng are good at close combat, that's a relief. However, Zhu Peng's situation is special, you must watch over him.

Also, I feel that it's inappropriate for you all to continue moving individually, you'd better regroup.

Where are you now, on which river?"

Duo Duo immediately replied: "Master, we are at the Four Sha River."

Chapter 1765:

"Four Sha River? Your Fourth Senior Brother and their group are at Four Sha River, you should go find them first." Upon hearing this, Cao Zhen felt a rush of joy. This way, both sides could reunite, ensuring quite a bit more safety, and then they could go look for Ling Xi and the others.

Cao Zhen also informed Duo Duo about the presence of the Demonic Lord Qing Shi, then severed his connection with her.

"And there's Xiang Ziyu and Ruo Yun. Those two... never mind, Xiang Ziyu, that brat, his physical strength is as strong as mine, and besides, that kid is tough; even on his own, he should be fine.

As for Ruo Yun, she's a reincarnated great ability, so there's no need to worry about her."

Cao Zhen once again contacted Ling Xi and Bei Yan and others, informing them of everyone's locations so they could gather first, then he roasted a few skewers of meat in a cave. After eating, with the sky brightening, he stepped out towards the outside.

Having not walked far, soon, the rumbling noise echoed out, and from a nearby peak, large stones were falling down, crashing to the ground and kicking up clouds of dust.

"Someone's fighting?"

Cao Zhen hesitated slightly but quickly got up and ran towards the peak.

He could have flown directly, but wouldn't that have exposed him?

Nowadays, everyone can't use immortal and demonic qi, and naturally can't fly. If he wanted to disguise himself, flying wasn't an option.

Although unable to use immortal qi, he still quickly reached the mountain from where the battle sounds originated.

As he trudged up the mountain, the battle sounds grew louder as well.

Soon, the figures engaged in battle came into his view midway up the mountain.

"These people? Aren't they the three from the All-encompassing Sect? On the opposite side, that's people from the Demonic Sect of Heaven Inquiry. Quite a few from the Demonic Sect of Heaven Inquiry have entered the ruins. Hmm? Behind, what is that..."

Cao Zhen's gaze quickly went beyond the people, landing directly on a shining blue-green stone.

This stone had white patterns on it, which from a distance, looked like clouds. Around it, there were scattered greyish stones, and this glowing stone seemed to be more than half buried in the ground, with an unknown total amount.

This glow!

This is the Qingyun-stone-in-stone!

The Qingyun-stone-in-stone is extremely difficult to find because it is hidden within stones, hence its name.

More importantly, the Qingyun-stone-in-stone is a seventh-grade immortal ore!

Apparently, these two groups are in conflict over this seventh-grade immortal ore. The people from the All-encompassing Sect seem to have discovered the ore first, while these Demonic Sect of Heaven Inquiry people came to seize it.

After all, there are only three from the All-encompassing Sect, but the opponents are more than double their number. Although, nowadays, everyone cannot release immortal qi, and even their aura is hardly released, they can still roughly judge the opponent's cultivation base through physical strength.

These eight people from the Demonic Sect of Heaven Inquiry should all exist within the Immortal Path Domain, and the people from the All-encompassing Sect are clearly on the losing side.

Just as Cao Zhen was observing both sides, people from the All-encompassing Sect and the Demonic Sect of Heaven Inquiry simultaneously noticed the unexpected arrival.

"Hmm? Someone else?" A person from the Demonic Sect of Heaven Inquiry clad in a black robe holding a long staff showed a sinister and cold killing intent on his face. The next moment, he swung his long staff violently forward, forcing back the Sword Immortal in battle with him, then abruptly turned, charging straight at Cao Zhen.

He didn't care about this person's background; there was clearly a block of seventh-grade immortal ore over there that any non-blind person could see.

Moreover, this was clearly not just a simple immortal ore, but more like a vein!

A vein, who knows how much seventh-grade immortal ore can be extracted from it!

Although they currently couldn't deal with the three from the All-encompassing Sect, they already held an absolute advantage, and the vein would ultimately belong to them.

If this person were allowed to leave and spread the news, who knows how many would come after them for the vein they had just secured.

Since this person saw this scene, they must die!

Among them, Double Sword Immortal, while blocking a blade and a spear coming at her, glimpsed the newcomer from the corner of her eyes, showing a hint of delight in her eyes.

Ye Liangchen?

They encountered him again.

This person's combat power should be exceptionally strong.

If they added him to their side, and counting themselves and the other three, they might not be unable to hold off the eight from the Demonic Sect of Heaven Inquiry. The Demonic Sect of Heaven Inquiry, after all, was currently suppressing them rather than achieving an overwhelming advantage.

Cao Zhen had just arrived at the mountain but had not yet grasped the situation there, when a figure was already rapidly charging towards him, unable to deploy immortal and demonic qi, the opponent couldn't fly, only rushing straight at him with the long staff dragging along.

The dark long staff scraped along the ground, sparking a string of sparks, and each of the opponent's steps left a clear footprint on the ground.

Within moments, the opponent was in front of him, the dark long staff swinging down directly at him.

Despite the formidable physical strength of the opponent, even without deploying demonic qi, the opponent's staff hit still resounded with a deep, muted explosion, and the strike seemed to shatter the surrounding air instantly.

Chapter 1766:

Cao Zhen watched the trajectory of the long staff falling, swiftly dodging to the side while a sharp sword appeared in his hand, and he thrust it fiercely towards his opponent.

As the sword descended, in an instant, sword shadows emerged in the void, each seemingly brimming with unparalleled power. The convergence of these sword shadows gave the illusion of countless lightning bolts crashing down.

What incredible speed!

The Demonic Cultivator from the Questioning Heaven Demonic Sect's eyes suddenly filled with shock. Everyone is currently unable to wield their immortal qi; how could this person, merely relying on the strength of his physical body, unleash such a terrifying sword strike?

He could even, just with his physical strength and fast sword movements, transform into so many sword shadows.

These sword shadows also gave the illusion that each one was a true sharp sword.

How could one dodge this?

The next moment, a sharp pain came from his chest. This sword was faster than he had imagined!

Cao Zhen stabbed his sword into the opponent's body, then suddenly exerted force with his entire arm, pulling the longsword out.

In an instant, bright red blood spurted from the opponent's chest like a blood arrow, shooting straight at his face.

Suddenly, Cao Zhen shifted his body once more while thrusting out the longsword again.

"Chi..."

The sound of the sharp sword piercing flesh echoed. This time, it did not strike the opponent's chest but directly pierced the opponent's neck, severing the thick veins with a single sword thrust.

The next moment, before the opponent could react, the third sword had already come down.

This sword was not a thrust but a direct slash aimed at the opponent's neck.

The presence of the Immortal Path Domain is believed to have physical strength greater than the Indestructible Period, and now he cannot harness immortal qi, only relying purely on the physical strength and edge of the longsword to attack the opponent.

Despite the two successive powerful sword strikes, the opponent's head was not severed.

However, with the strong impact of these two sword strikes, the opponent's body had already fallen straight to the ground.

Cao Zhen quickly stepped forward, and at that moment, his entire body's strength exploded, bringing down yet another sword strike.

Finally, the opponent's head crashed down, rolling down the slightly sloped peak.

All around, those battling from the All-encompassing Sect and the Questioning Heaven Demonic Sect were suddenly shocked. Was it already over?

The one who acted just now was the Demon Slaughterer, one of the strongest in the Immortal Path Domain of the Questioning Heaven Demonic Sect, and was especially skilled in close combat with a tremendously strong physical body.

Yet, the Demon Slaughterer was exterminated in an instant before this person, without even having any room to resist.

Who is this guy? How is he so terrifying?

The few remaining members of the Questioning Heaven Demonic Sect retreated one after another; his physical strength is truly terrifying. With such a terrifying physical presence, there are also people from the All-encompassing Sect here.

Is this person with the All-encompassing Sect?

Seeing that the opponent continued to advance after eliminating the Demon Slaughterer, the few of them were horrified and turned to flee down the mountain.

They, as eight people, could suppress the three from the All-encompassing Sect. Now, with one less person, they were no longer confident of suppressing them.

After all, the strongest part of the All-encompassing Sect was their physical bodies.

And now, with such a strong person added to the opponent's side, what were they still fighting for!

The few turned and fled, and behind them, the three members of the All-encompassing Sect did not pursue but instead stopped, watching the newcomer with caution.

The power exhibited by Ye Liangchen was truly terrifying; if the Demon Slaughterer could be exterminated so easily, what about them three?

Currently, unable to wield immortal and demonic qi, this situation should be most advantageous for their All-encompassing Sect.

In fact, they were happy to see this situation arise, as after all, they are the foremost great teaching in the Eastern Province for physical cultivation.

But who could have expected someone like this to suddenly appear?

Chapter 1767:

The two Sword Immortals accidentally discovered the Qingyun-stone-in-stone, and it seemed to be a vein, but before the three of them could mine the vein, they encountered a group of people from the Tianmo Sect.

The three of them were from the All-encompassing Sect, most skilled at body tempering. In a place where immortal energy couldn't be utilized, if the number of opponents was similar to theirs, she was confident that no one could be their match.

However, the Tianmo Sect had too many people.

All three of them fell into a passive state.

Unexpectedly, at this moment, Ye Liangchen, whom they had encountered twice before, appeared again. Particularly, Ye Liangchen's swordsmanship and physical strength were even more terrifying than she had anticipated!

Although Ye Liangchen was unscathed, just by watching his sword's speed and power, one could infer that Ye Liangchen's physical body was incredibly formidable.

She even had the feeling that even if the three of them combined forces, they would still be far from being Ye Liangchen's match.

She truly couldn't comprehend how one could temper the physical body to such an extent in the Immortal Path Domain.

Suddenly, she noticed Ye Liangchen's gaze looking in her direction, and she instantly displayed a solemn expression.

Beside them, there was still the Qingyun-stone-in-stone vein.

That was the Seventh Grade Immortal Ore.

The opponent could absolutely not refuse such an Immortal Ore.

Reluctant though she was, to part with the Seventh Grade Immortal Ore vein, she still proactively took a step back and said, "Taoist Ye, we are not interested in this Seventh Grade Immortal Ore, you can take it as you please."

"Oh?" Cao Zhen turned his head and looked at the three Sword Immortals, a smile appearing on his face, "No need to be so tense. Previously, when you saw me, I merely revealed the aura of the Indestructible Period, yet you didn't attack me.

Thus, I won't attack you either; you may leave as you please."

He was not intentionally trying to seize the Seventh Grade Immortal Ore vein; it was these three people from the All-encompassing Sect who voluntarily relinquished it.

So it couldn't be blamed on him.

"Then, we three will take our leave first." The Sword Immortal gave the vein another glance, still reluctantly turning towards the mountain, retreating.

That was the Seventh Grade Immortal Ore vein; she had cultivated for over five thousand years and had ventured out for adventures several times, but she had never encountered a greater fortune than this!

But what could be done?

The Demon Slaughterer almost resisted Xun Jian, their junior sister, and such Demon Slaughterer in Ye Liangchen's hands couldn't withstand several rounds. Even if the three of them joined forces, they wouldn't be Ye Liangchen's match.

Now, because Ye Liangchen did not take action against them on the road, he didn't harm them.

But she was convinced that if they acted now, the opponent would certainly strike them down.

She could only retreat.

However, Ye Liangchen, why had she never heard of this name?

The opponent's physical strength was so terrifying; even if the immortal energy was weak, even if the spells were weak, the sheer physical strength alone would make him a renowned master in the Immortal Path Domain. But not only herself, her junior brothers and sisters had also never heard of this person.

Could it be a pseudonym?

As Sword Immortal walked down the mountain, she pondered over this.

Behind her, Xun Jian and Double Whip Demon followed her lead. Seeing their senior sister retreat voluntarily, they could only follow behind.

They didn't want to give up a Seventh Grade Immortal Ore vein like this, but what choices did they have?

In the cultivation world, it's indeed survival of the fittest; if the opponent's fists are bigger, naturally they could seize their treasures.

If it were them, seeing weaker people obtaining treasures, they too would seize them.

Moreover, if Ye Liangchen hadn't appeared, the three of them would have been inevitably slaughtered by the Tianmo Sect. Ye Liangchen was essentially their savior.

Just as they took a few steps, suddenly, cries of agony and sounds of battle erupted from below.

"More people have arrived?"

The Sword Immortal quickly looked down the mountain, and in the next moment, her eyes widened, showing a look of horror.

"Not good, it's the Giant Ben Tribe!"

Cao Zhen heard the sound below and quickly turned to look.

Down the mountain, towering alien figures reminiscent of wild oxen appeared in his sight. These aliens walked upright like humans but were much taller, standing at over ten feet.

Unlike the Murderous Night Clan they'd seen before, clad in armor, these ones were completely unobstructed, with bulging muscles that seemed like solid rock, their robust bodies marked with peculiar patterns, resembling the formation's lines.

Each member of the Giant Ben Tribe wielded two long, horn-shaped scimitars.

At a glance, there were at least fifty members of the Giant Ben Tribe.

Cao Zhen instantly realized a problem. Humans couldn't use immortal energy or demonic qi, so what about these alien races?

Alien races didn't cultivate immortal energy or demonic qi.

So how could they contend with these alien races?

Wait, something wasn't right.

In his sight, the fleeing demonic cultivators from Tianmo Sect were already clashing with the Giant Ben Tribe.

Instantly, the two sides fought; the Giant Ben Tribe, indeed as it appeared, possessed immense power. In the same cultivation realm, their physical strength undoubtedly surpassed that of ordinary human cultivators, even seemingly stronger than the Murderous Night Clan met the previous night.

Chapter 1768:

However, these Giant Beastkin didn't display that kind of overwhelming power.

He also understood those aliens in perilous places; most of the time, within the same cultivation realm, humans are stronger than these aliens.

After all, humans can use treasures, have many techniques, and can cast spells, which aliens cannot do.

But this strength is also relative; among the alien race, there are exceptionally strong individuals, or rather geniuses among them, who can kill humans of the same cultivation realm.

Aliens don't just rely on their physical bodies to fight humans; they also cultivate, practicing some special qi.

If these aliens' qi is unaffected, they can definitely overwhelm humans who cannot activate their immortal and demonic qi.

So, these aliens are also affected, unable to run their qi.

The three Double Sword Immortals have not seen any other aliens from last night until now, observing the Giant Beastkin fighting with the cultivators of the All-encompassing Sect. Xun Jian Immortal lightly breathed out and whispered, "When the Giant Beastkin activates their aura, the qi patterns on their bodies change and emit light, but these Giant Beastkin's qi patterns remain unchanged. Apparently, they, like us, are affected and unable to run their qi."

"Even so, it's still a big problem." Double Whip Immortal looked at the Giant Beastkin below, his expression grim, "Without our immortal qi and the aliens' qi, humans are physically inferior to the aliens.

And here is the River of All Realms, the number of aliens is terrifying. Moreover, there are so many Giant Beastkin right now."

As he spoke, he suddenly turned to Ye Liangchen and invited, "Taoist Ye, these Giant Beastkin are too many. Since the All-encompassing Sect people haven't died yet, why don't we join forces to break through together?"

With so many Giant Beastkin down the mountain, relying only on the strength of the three of them, it's hard to fight their way out. The only hope is to join forces with Ye Liangchen.

"No need, if you all want to charge out, just go ahead, no need to worry about me.

Cao Zhen glanced at the Giant Beastkin below the mountain, turned around, and ran to the Qingyun Stone-in-Stone, smashing down fiercely.

What a joke, there's a seventh-grade immortal mine vein that hasn't been taken yet, how could he just leave like that?

Anyway, the aliens were also affected and couldn't activate their qi; what was there to worry about?

Worst case, when all the All-encompassing Sect people died, and the three of the same sect ran out, and when there was only him on the mountain, he would cast spells to eliminate these aliens.

"What? Taoist Ye, you're not leaving?"

Double Whip Immortal looked in stunned disbelief at the figure running to the immortal mine, completely unable to understand, with the Giant Beastkin about to charge up, and you don't think about escaping, but instead focus on mining?

This mountain peak, the higher it goes, the narrower it becomes.

Now that no one can fly, when the Giant Beastkin charge up here, there's no way to escape.

Even if Ye Liangchen is strong, he's only one person; no matter how strong he is, he can't fight off so many Giant Beastkin.

At that time, there would be only one way out—death.

He's really going for money over life!

This guy, is he insane?

"Let's go!" Double Whip Immortal glanced at his senior and junior sisters, ready to charge out, as now they could only charge.

Taking advantage of the still relatively broad space below, if the three rushed together, there was a chance one or two might get out.

"Wait." Double Sword Immortal abruptly halted, speaking sternly, "We retreat."

"What? Retreat? Retreating only leads to death." Double Whip Immortal shouted anxiously at his senior sister, "Senior sister, hurry and charge; if we don't now, it will be too late."

He really couldn't understand why his always wise senior sister suddenly seemed confused.

"It's already too late, listen to senior sister, retreat." Double Sword Immortal spoke while pulling her junior brother and sister swiftly backwards, her eyes darting towards Ye Liangchen.

If the three charged, she would have the only opportunity to escape, while her junior brother and sister would likely die there.

But if they stayed?

Ye Liangchen, having clearly seen the situation below, chose to stay, so he must have means to deal with these Giant Beastkin.

So she gambled, betting Ye Liangchen could handle these Giant Beastkin.

Although she couldn't understand how Ye Liangchen would deal with so many Giant Beastkin, she had no choice but to gamble.

If she charged, her junior sister and junior brother would probably die, and even she didn't have much chance to escape.

Since that's the case, it's better to choose to stay.

Cao Zhen listened to the voices coming from behind, his mining actions slowing down instantly, feeling completely speechless; why were they staying? Staying to wait for death?

Why not charge out if they could?

If they stayed behind, what would he do later?

If they hadn't stayed, he could fight and fly away after using immortal qi.

But if they stayed, how could he use immortal qi? If they saw him using immortal qi and survived, wouldn't he be exposed?

Demonic Lord Qing Shi was actually the temporary sect hierarch of Wanxiao Sect, and Wanxiao Sect people specialized in gathering intelligence, surely setting up informants.

If he exposed his use of immortal qi, Demonic Lord Qing Shi would most likely receive the information, knowing that someone possessing Chaos Qi had entered here.

Chapter 1769:

Headache.

Cao Zhen continued to dig the vein in front of him. If he could use Immortal energy, this vein would be easy to mine. However, right now, without using Immortal energy, the mining was difficult.

Just as he had excavated about halfway through the vein, a series of low rumbling sounds came from behind him.

He had observed earlier that there were about fifty Giant Beastkin below. However, with such a number charging, it felt like a thousand cavalry charging forward, causing the ground to tremble continuously.

Cao Zhen quickly turned around, his Longsword appearing in his hand. He watched as the Giant Beastkin charged up the mountain, lifted his foot, and suddenly launched himself forward, transforming into a streak of light, shooting out instantly.

His feet rapidly scraped against the ground, leaving two distinct marks on it.

If he could avoid using Immortal energy, it would be better not to. For now, he could only employ Swordsmanship to fight these Giant Beastkin and assess the situation.

Though he didn't use Immortal energy, his speed remained astonishing, and in an instant, he appeared before one of the Giant Beastkin. The Giant Beastkin obviously didn't expect this human to suddenly appear before him, and a clear look of shock appeared in his huge eyes.

Before he could react, the Longsword had already stabbed out, straight into the area between his legs.

The main issue was that these Giant Beastkin were really tall. To hit other vital parts, he would have to jump to stab them. Without jumping, this was the only vital part he could readily reach.

"Puff..."

A sound resembling something shattering echoed.

Immediately, the Giant Beastkin let out a cry of extreme pain.

The vital area had been pierced, and he seemed to go mad instantly, swinging his curved blade fiercely towards the small human before him.

The curved blade sliced through the air, leaving two clear, white marks, carrying a force as if it could shatter a Great Stone, crashing down.

Suddenly, Cao Zhen swiftly turned his body, sidestepping quickly, and the Sharp Sword in his hand stabbed out once more.

Immediately, another sound similar to something breaking rang out.

After Cao Zhen had stabbed twice, his gaze suddenly sharpened, as another Giant Beastkin from the side realized what was happening and swung its curved blade down towards his head.

Cao Zhen quickly turned to one side while swinging his sword to stab.

In his haste, he didn't aim for the vital area between the legs, but the next moment, he felt his Sharp Sword strike something akin to iron, a metallic ring that can only come from metal clashing, and he could distinctly feel the force of recoil from his Sharp Sword.

The Longsword stabbed into the other Giant Beastkin's thigh, and immediately, the rock-hard thigh was torn open, with bright red blood flowing out. Through the bloody hole in the thigh, the white bones could be distinctly seen.

After Cao Zhen stabbed with his sword, he saw the Giant Beastkin rushing towards him from all directions, quickly turned around, and retreated backward.

Although this area was small, there was still space to maneuver.

Behind, the Twin Sword Immortal stared at the Giant Beastkin with its thigh bleeding profusely after being wounded and drew a sharp breath. This sword strike was terrifying in its power!

The distinctive characteristic of the Giant Beastkin was their immense strength and incredibly sturdy bodies. Now, Ye Liangchen, without being able to use Immortal energy and even while evading,

nonchalantly unleashed a sword strike. This strike undoubtedly didn't fully utilize Mana, but even so, it pierced through the opponent's leg, exposing the bone. How much strength did this strike possess!

This Ye Liangchen seems even stronger than I imagined!

Surprised, She quickly withdrew her gaze, as a group of Giant Beastkin charged towards her and her two companions.

"Retreat!"

The three of them, the Twin Sword Immortal included, similarly moved back, as these Giant Beastkin possessed great strength and sturdy bodies, but they lacked agility, making retreat the best strategy.

As they retreated, the Giant Beastkin quickly surrounded them, coming in from all directions.

Cao Zhen also retreated, but even as he did, the Sharp Sword in his hand continued to stab out, each strike hitting a Giant Beastkin.

For a moment, streams of bright red blood continuously sprayed out.

The bodies of these Giant Beastkin were really large, and he could hit them easily with a casual sword swing.

Suddenly, to his side, a curved blade slashed down, and Cao Zhen shifted his steps, as if treading the Big Dipper, twisting his body in a very strange manner to dodge the descending blade.

On the other side, another Giant Beastkin also slashed down with a blade, blocking another angle.

If the human dodged, this blade would hit the human perfectly.

Yet the human before them evaded in an incredibly strange manner at an angle.

Immediately, their blades slashed down, but ended up colliding with one another, producing a crisp sound.

Both seemed to have used all their strength in their strikes, and upon collision, their bodies wobbled and swayed to the sides.

There's an opportunity!

Cao Zhen, who was about to leave, suddenly shifted his body again, advancing suddenly instead of retreating, and stabbed towards the two retreating Giant Beastkin.

Immediately, the Sharp Sword danced, creating visible sword marks in the Void. These Longsword apparitions vaguely formed into a Sword Array.

Chapter 1770:

Those were clearly just phantom swords, yet they seemed almost tangible.

Even without the deployment of immortal energy, when one sword fell, it still created a visible wave in the air, rippling outwards.

This sword strike even gave the illusion of being able to split mountains.

An alarming sword, it directly struck at the neck of a fallen Giant Beastkin.

In an instant, a massive bull's head suddenly flew up.

This sword strike was executed with full force!

From a distance, the Twin Sword Immortal retreated, her eyes directed at Cao Zhen's position, watching the soaring head, a storm surged within her heart.

To chop off the head of a Giant Beastkin with one sword in a situation where immortal energy couldn't be used! What kind of power is this!

Who is this person, and how can he possess such strength!

Not even their All-encompassing Sect's current strongest interim Sect Hierarch's body could reach this level!

This person is possibly the most terrifying physical entity in the entire Eastern Wasteland!

Cao Zhen thrust out with full power, yet his movement couldn't remain as nimble as before, and his body slightly paused.

Behind him, to the side, a Giant Beastkin's eyes were gleaming scarlet, its hand-held scimitar drew an arc through the Void, slashing heavily towards Cao Zhen's head.

Seeing that the blade was about to fall on him, suddenly, Cao Zhen's figure twisted mysteriously once more.

The scimitar almost grazed past him, slicing deeply into another Giant Beastkin behind him.

The Giant Beastkin's body was formidable, yet their power was equally terrifying. This fully-powered slash directly split the body of another Giant Beastkin!

Cao Zhen quickly retreated, looking at the Giants surrounding him. Instead of pulling away quickly as before, he chose to stay close to them.

Immortal Bi Yue's movement technique was indeed exquisite.

Back in the Golden Core Stage, Bi Yue was most renowned for her movement skill, and after inheriting it from Immortal Bi Yue, it seemed he effortlessly mastered it.

Moreover, that fellow Star Lord Hao Yue was skilled in movement techniques as well.

Both Star Lord Hao Yue's spells and movement techniques were related to Hao Yue and the stars, and Immortal Bi Yue's movement skill was also understood under the moonlight. Back then, he even named Immortal Bi Yue's movement technique 'Moon Infiniteness.'

There was some commonality in their movement techniques.

However, displaying Immortal Bi Yue's movement technique might be seen through by others, but if it's combined with Star Lord Hao Yue's, it's hard for others to notice.

Moreover, he could add Ruo Yun's movement technique to the mix.

Ruo Yun, a reincarnated Great Ability, was skilled in various swordsmanship, sword techniques, and spear techniques, so her movement skill was naturally not weak.

Besides, their movement skills were all performed using immortal energy. Now using their techniques without this energy made his moves different; even if others watched, they wouldn't see through it.

Perhaps he could utilize these Giant Beastkin to sharpen his movement skills.

Actually, he had always relied on powerful immortal energy and stronger spells to directly strike opponents. Even in close-range battles, his faster speed was enough to toy with others.

He hadn't really honed his movement skills.

This was indeed a weakness of his,

and these Giant Beastkin, with their large and somewhat clumsy bodies, were perfect practice targets, weren't they?

Having made up his mind, Cao Zhen attacked the Giant Beastkin closely with one sword after another. He didn't aim to inflict serious damage with his stabs but to provoke them into striking.

The space was limited, and the massive bodies of these Giant Beastkin made it easy for their blades to accidentally hit themselves or to clash with each other's scimitars.

For a moment, these Giant Beastkin didn't suffer much from his sword but instead kept falling under their own scimitars.
