

My Master 1931

Chapter 1931: Six Remaining Members

However, Old Zhang's method of producing the Samadhi True Fire does not require so many resources.

This method, discovered by Old Zhang through alchemy, starts with turning oneself into a Human Pill.

It can be said that trying to produce the Samadhi True Fire using Old Zhang's method does require a prerequisite: proficiency in the alchemy technique.

The reason why Cao Zhen taught Yi Sheng that special cultivation method back then was to prepare for the future when Yi Sheng would attempt to produce the Samadhi True Fire.

As for Li Ke, Li Ke isn't particularly skilled in alchemy.

As long as Yi Sheng breaks through and enters the Immortality Regainment Realm, Li Ke will naturally be able to produce the Samadhi True Fire.

The members of the Ten Thousand Immortals Sect listened to Cao Zhen's words, one by one their brows furrowing, as Bi Qing urged, "Since that's the case, why don't you quickly inform the Grand Preceptor, and find someone from a great teaching to come and assist immediately!"

Upon hearing Cao Zhen mention the possibility of healing their martial uncle's injuries, they actually began to truly worry about the Bai Feng Sect.

Though Cao Zhen said he could break through to the Immortality Regainment Realm, breaking through is not something that can be done instantly; it requires time. Furthermore, condensing the Samadhi True Fire also takes time, and making pills afterward requires even more time.

Yet, the Death River Sect only gave the Bai Feng Sect two days.

In two days, Cao Zhen absolutely cannot accomplish so many tasks.

Therefore, they hope Cao Zhen can quickly find a master from a great teaching to help hold off the Death River Sect, because their martial uncle cannot fight at the moment.

Even though masters in the True Immortal Realm can fly extremely fast, it still takes time. Two days is just too short, which is why they want Cao Zhen to act quickly.

However, Cao Zhen did not immediately leave to contact the Dragon Chant Sect. Instead, he looked at the remaining six members of the Ten Thousand Immortals Sect and said, "No need to hurry, I haven't stated my condition.

Actually, it's not difficult to do."

Cao Zhen pointed at the group and said, "It's for all of you to join our Bai Feng Sect and become our disciples."

"Impossible!"

The old woman didn't wait for the other five to speak, refusing first and foremost, "I'd rather die than defect and join another great teaching!"

"How can that be considered defecting?" Cao Zhen shook his head lightly and said, "Our Bai Feng Sect and your Dragon Chant Sect have already merged, and joining our Bai Feng Sect doesn't count as defecting.

Besides, you can keep your Ten Thousand Immortals name. You should already know that our Bai Feng Sect consists of one hundred peaks, each with its own legacy, existing independently. You can become the 101st peak of our Bai Feng Sect!"

As Cao Zhen spoke, seeing the old woman about to interject, he quickly raised his hand to stop her and said, "Let me finish.

If you don't join the Bai Feng Sect, you'll always be just the six of you. Of course, you also have the option to leave our Bai Feng Sect right now and establish a sect of your own.

But the question is, do you have the strength to withstand the Heavenly Tribulation and create a sect?"

Under ordinary circumstances, creating a sect is straightforward.

But for a member of a great teaching, creating a sect isn't that easy.

A person from a great teaching wanting to create a sect would face a Heavenly Tribulation.

If great teaching members could leave at will to establish their own sects, they'd simply defect and create a new sect when unable to pass the Sect Tribulation.

Cao Zhen believed that the Heavenly Dao had set this rule precisely to prevent such situations.

Although the Heavenly Tribulation faced when leaving a great teaching is much weaker than the Sect Tribulation, it's still not something just anyone can withstand!

Even if you could withstand the Heavenly Tribulation, with the current situation in the Eastern Wasteland and even the entire Eastern Province, which you've seen, great teachings from the Central Continent have been entering the Eastern Province looking for landing spots. Some are even trying to seize our Bai Feng Sect's mountain gate.

Where would you find a suitable location for a mountain gate if you establish a great teaching? Even if you find a place, how could its spiritual energy compare to our Bai Feng Sect?

After that, you'd need to recruit disciples. Although some great teachings from the Central Continent, having arrived in the Eastern Province, have brought some commoners from the Central Continent, many great teachings have neglected those commoners.

The current situation is such that the old great teachings and sects of the Eastern Province are scrambling to recruit disciples from the new arrivals from the Central Continent and their sects.

How many disciples could a newly established sect like yours recruit? How many would join you?"

Opposite them, the members of the Ten Thousand Immortals Sect listened to Cao Zhen and fell silent.

Cao Zhen continued, "But it's different if you join our Bai Feng Sect. As a great teaching, we can recruit more disciples, and you can directly recruit within the great teaching's quota.

Furthermore, the spiritual energy is even more abundant here, allowing your disciples to cultivate faster, and your own strength can also increase more quickly.

I can also guarantee that our Bai Feng Sect won't interfere with how you teach your disciples. Of course, after becoming the 101st peak of the Bai Feng Sect, you'll have to follow some rules, such as fully defending against any external invasion of the Bai Feng Sect.

To continue with the previous issue, your disciples can spar with those from other peaks within the Bai Feng Sect, considering all of Bai Feng Sect's disciples are from a great teaching.

Moreover, I can assure you that when you feel your strength is sufficient and ready to face the Heavenly Tribulation to establish a sect, our Bai Feng Sect won't stop you; we could even help you through the Heavenly Tribulation. Thus, you could establish a new Ten Thousand Fairy Sect at that time."

Currently, the Bai Feng Sect only has Ruo Yun as an existence in the Immortality Regainment Realm, and they cannot always rely on the Grand Preceptor. They need their own prowess.

If they can directly incorporate the six members of the Ten Thousand Immortals Sect, the Bai Feng Sect could instantly gain many experts.

As for these people really wanting to leave the Bai Feng Sect to establish a Ten Thousand Immortals Sect in the future?

Who knows how many years that would take? At least within ten thousand years, it's unlikely the six of the Ten Thousand Immortals Sect would achieve such power.

After ten thousand years, it's also uncertain whether they'd still want to leave the Bai Feng Sect to create a new Ten Thousand Immortals Sect.

Besides, wouldn't the Bai Feng Sect have experts in the True Immortal Realm after ten thousand years?

If they truly wish to leave, they can do so.

Chapter 1932:

Since the six members of the Ten Thousand Immortals Sect awakened, the Formation Spirit found them and informed them of the current situation.

The six of them had already been aware that the Formation Spirit always wanted to find a Great Teaching to merge with their Ten Thousand Immortals Sect. Upon learning about the Hundred Peaks Sect, the six were very satisfied.

No one wants to see their Great Teaching merged by others.

If it were a normal Great Teaching merging them and that Great Teaching had someone in the True Immortal Realm, they would have no chance of taking control, occupying others' Great Teaching.

But the Hundred Peaks Sect that intended to merge with them was different. In this Great Teaching, not to mention someone in the True Immortal Realm, there was but one in the Immortality Regainment Realm.

All these days, they had been planning on how to turn the Hundred Peaks Sect into the Ten Thousand Immortals Sect, and soon the opportunity presented itself before them.

But they did not expect things to change so quickly.

Now, the other party instead wanted them to join the Hundred Peaks Sect.

After a while, the old woman slowly spoke, "Sect Leader Cao, we need some time to discuss. One incense stick of time, after that we'll give you an answer, how about it?"

"Very well." Cao Zhen nodded slightly and withdrew. He knew that such matters could never be casually decided.

Inside the Ten Thousand Immortals Conference Hall, after Cao Zhen left, the old woman immediately glanced at her five younger disciples, softly inquiring, "What do you all think?"

Upon hearing this, they did not immediately answer but instead turned to look at Yao Feng.

Yao Feng mused briefly, then began to speak, "Master uncle, this disciple believes that we should agree with them. As for the reason, it's just as he said, I also think that's our best choice.

Besides, he can help treat your injuries, Master uncle. Although we haven't heard of the pill he mentioned, I think since he wants us to join the Hundred Peaks Sect, he won't deceive us about the pill.

The only peculiar part is that it might take ten administrations for the pill to completely heal master uncle's injuries—which he likely does deliberately, intending to hold sway over us with that.

After all, that Grand Preceptor has only three Different Phenomena Fairy Palaces, and he's not part of the Hundred Peaks Sect, so he cannot always stay at the Hundred Peaks Sect; they'll be worried once master uncle's injuries are fully healed."

She paused here, glanced at the old woman, and only continued when she saw the old woman's expression unchanged, "I think it's impossible for him to refine a complete pill at once."

"Therefore, there's no need to discuss this issue with them." The old woman spoke, "You're right; this indeed is currently our only choice, yet we cannot agree too easily, necessary conditions must still be raised."

The old woman turned to address the outside, "Sect Leader Cao, we can agree to join your Hundred Peaks Sect."

Upon hearing this, Cao Zhen's face revealed a look of surprise; he had just stepped out of the Conference Hall, and the Ten Thousand Immortals Sect's people had reached a conclusion so quickly?

He turned back, opened the door of the Conference Hall, and walked back inside. Since the other side agreed, he naturally could return.

Inside the Conference Hall, the old woman looked at Cao Zhen and continued, "Of course, us joining your Hundred Peaks Sect comes with conditions.

When we were in slumber, we did bring some resources into our living tombs, but those resources are treasures for our own use.

As for our Ten Thousand Immortals Sect's treasures, they have been nearly wiped out by your Hundred Peaks Sect before. We need some resources to continue cultivation, especially Yao Feng."

The old woman raised a hand and pointed at Yao Feng, "She's about to break through into the True Immortal Realm, but she needs resources. Your Hundred Peaks Sect must provide her with enough resources for Yao Feng to break through into the True Immortal Realm."

After speaking, she seemed to feel that her tone was too stern, and further added, "In fact, us joining your Hundred Peaks Sect, Yao Feng's breakthrough, is equivalent to the Hundred Peaks Sect gaining another True Immortal, which is only beneficial."

Cao Zhen rubbed his temples with a somewhat pained expression. He naturally knew that Yao Feng entering the True Immortal Realm would be beneficial for the Hundred Peaks Sect.

But the problem is, the Hundred Peaks Sect is not that wealthy.

Besides, the Ten Thousand Immortals Sect people say Yao Feng is about to break through into the True Immortal Realm, how soon is this breakthrough? How many resources does Yao Feng need? What if the resources she needs are vast?

Although the Hundred Peaks Sect has passed a sect tribulation, accumulating a portion of resources, he could never put everything on Yao Feng.

Cao Zhen thought a moment and asked, "How many resources does she need now?"

"She needs to continue stabilizing her internal celestial energy and requires at least a hundred Breakthrough Pellets. As an Alchemy Master, if you can refine them, it will save a lot of money and resources."

If someone else is hired to concoct the pills, the cost would naturally be immense.

"I can certainly refine Breakthrough Pellets," Cao Zhen nodded slightly, looking at the old woman, "The hundred Breakthrough Pellets you mentioned are ordinary ones, right? If they're the Best Quality Breakthrough Pellets, how many would be required?"

The Breakthrough Pellet is used to stabilize the realm for those in the Immortality Regainment Realm, aiding breakthroughs into the True Immortal Realm. The value of materials for such pills is not low, so savings should be made wherever possible.

"What? Best Quality Breakthrough Pellets?" The old woman and the five members of the Ten Thousand Immortals Sect upon hearing this, suddenly opened their mouths wide, looking incredulously at Cao Zhen.

Chapter 1933:

"Are you talking about best quality pills? Can you guarantee that every Breakthrough Pellet you refine is a best quality pill?"

They naturally knew that there are many alchemy masters who can refine best quality pills, but those alchemy masters refining ordinary pills can make best quality pills without any problem.

However, Breakthrough Pellets are meant for those in the Immortality Regainment Realm, even the strongest alchemy master cannot guarantee that every such high-level pill will be of best quality.

Does Cao Zhen mean that he wants to refine an entire pill furnace of best quality Breakthrough Pellets?

Cao Zhen looked confidently at the few people and said, "The pills I, Cao Zhen, refine are always of best quality. Just tell me how many best quality Breakthrough Pellets you need."

"All the pills you refine are best quality pills?" Everyone was completely shocked.

Cao Zhen nodded and said, "Naturally, this kind of news you can inquire about in the Guardian Immortal Imperial Dynasty, in the Eastern Wasteland. I, Cao Zhen, only refine best quality pills. So, how many best quality Breakthrough Pellets do you need?"

The elderly woman, although surprised in her heart, saw Cao Zhen's confident demeanor and still replied, "If it's best quality Breakthrough Pellets, only fifteen, no, twelve will be enough."

"Very well, I can help you refine twelve Breakthrough Pellets." Just twelve Breakthrough Pellets, their value was much lower.

As he spoke, Cao Zhen suddenly had an idea for making money, or perhaps he could refine more best quality Breakthrough Pellets and exchange them for other resources.

Almost every breakthrough in the Immortality Regainment Realm requires Breakthrough Pellets, and the demand for such pills is quite high!

The elderly woman continued, "Besides that, Yao Feng cultivates wind type spells. It's best if you could refine ten Wind Breaking Pellets for her to use during her Dao enlightenment. I suppose you can refine Wind Breaking Pellets too. I'm talking about ten best quality Wind Breaking Pellets, if they are ordinary Wind Breaking Pellets..."

Cao Zhen interrupted the elderly woman before she could finish, "Of course I can refine Wind Breaking Pellets, and I can also make them best quality. However, if she uses Wind Breaking Pellets during enlightenment, there's no need for them. What she needs more is a formation map. I'll craft a formation map that will aid her Dao enlightenment."

"You can also create formation maps? And ones that aid in Dao enlightenment?" The elderly woman looked at Cao Zhen somewhat incredulously. Cao Zhen had claimed to be an alchemy master, so when

he said he could refine those pills, ensuring each one was of best quality, she was surprised but believed him.

But now, Cao Zhen claims he can also make formation maps?

Although indeed there are some rare talents in the world who can craft pills, make formation maps, and do artifact refining,

the problem is that they excel in only one, while merely capable in others.

However, the formation maps Cao Zhen mentioned, those meant for Dao enlightenment, are different.

Once, within their Ten Thousand Immortals Sect, there was a senior brother skilled in crafting formation maps, able to create ones that aided in Dao enlightenment.

But that senior brother also mentioned that such maps are extremely difficult to craft and require the most top-tier masters.

At that time, before the Ten Thousand Immortals Sect suffered its calamity, she even knew of a senior sister who sought that senior brother's help to craft a formation map to assist her disciple's enlightenment breakthrough into the Immortality Regainment Realm.

And that senior brother said he could make it but couldn't guarantee success. Eventually, he tried three times and succeeded once in crafting a map that could aid enlightenment and breakthrough into the Immortality Regainment Realm.

The senior brother also said that was his limit.

That senior brother was their Ten Thousand Immortals Sect's most skilled formation map master, and his limit was crafting maps for the Immortality Regainment Realm.

But now Cao Zhen claims he can craft maps that aid in entering the True Immortal Realm, how could she not be amazed!

"Is it strange that I can craft formation maps?" Cao Zhen looked at the few people, especially at the elderly woman's incredulous face, gently shook his head and said, "I've crafted many such formation maps before."

Within our Hundred Peaks Sect, for a dozen or so disciples, I've crafted formation maps before they entered the Immortal Path Domain.

Indeed, breakthroughs into True Immortal Realm maps are difficult, but not impossible to craft. Of course, I can refine the map, ensuring it works better than ten best quality Wind Breaking Pellets, but I cannot guarantee she will definitely break through into the True Immortal Realm. After all, whether or not she can break through still depends on her own insight."

"That's natural. If you refine a formation map and after Yao Feng uses it, it indeed works as you say, better than ten best quality Wind Breaking Pellets, then with Yao Feng's talent, she surely will break through." The elderly woman said, looking at Yao Feng, her gaze filled with pride and admiration. Yao Feng is not her disciple but her senior sister's disciple.

And her senior sister is one of the top three experts of their Ten Thousand Immortals Sect. But according to her senior sister, Yao Feng's talent surpasses even her own.

Cao Zhen looked at the few people and inquired, "That being said, do any of you have other conditions?"

"Regarding us, there are no more conditions, but there are a few things we need to confirm first."

Chapter 1934:

The old woman nodded slightly and then shook her head, continuing, "We wish to join your Hundred Peaks Sect and become the hundred and first peak, but as you can see, we only have six people. We must widely recruit disciples, so I hope you can agree to let us accept more disciples."

"The rules for recruiting disciples in the Hundred Peaks Sect are the same for every peak," Cao Zhen gently shook his head and said, "There will be a unified time for recruiting disciples. Considering your

Ten Thousand Immortals Sect joining our Hundred Peaks Sect as the hundred and first peak, due to its special nature, I can allow each peak to recruit disciples earlier once we defeat the Death River Sect.*freewebnovel.com*

However, when we recruit disciples, each peak will send out its own people to approach the disciples, asking the Taoist boys graduating from the Taoist Institution if they agree to join their peak.

All of this depends on the Taoist boys' own will. Even I cannot force a disciple to join a specific peak!"

Cao Zhen said, looking up at a few people and remarked, "Nevertheless, I think with your cultivation base, many disciples would agree to join your Ten Thousand Immortals Peak.

The old woman nodded slightly, letting the Taoist boys themselves choose a peak to join is not a problem.

Once they join the Hundred Peaks Sect, they will be the strongest group in the entire Hundred Peaks Sect. If they cannot get the disciples they fancy to join them, then they might as well forget about reviving the sect.

Cao Zhen glanced at a few people again, suddenly said, "However, you seem to only recruit female disciples."

The remaining six people of the Ten Thousand Immortals Sect are all female disciples, seemingly only a branch of female disciples.

In this case, the Vermilion Bird Peak will be greatly impacted, as it also only recruits female disciples.

Moreover, Ten Thousand Immortals Peak has beings from the Immortality Regainment Realm and True Immortal Realm. Probably most disciples would choose to join Ten Thousand Immortals Peak.

"We do not only recruit female disciples," the old woman shook her head and said, "We do not come from the same branch."

She had one more thing unsaid, which was that they possessed not only their branch's inheritances. As the only survivors of the Ten Thousand Immortals Sect, they had collected many inheritances from their sect.

In their grave of life, what was buried the most was not treasures and items but the inheritances of the Ten Thousand Immortals Sect.

Such information, she deemed unnecessary to share with Cao Zhen now, who knows if Cao Zhen would demand them hand over their inheritances to the Hundred Peaks Sect!

"Very well, when the time comes, you may recruit disciples. Additionally, our Hundred Peaks Sect supports each peak equally, providing resources based on the ranking of each peak.

But since your Ten Thousand Immortals Peak does not have a ranking due to its special status, I will offer you resources comparable to the top ten peaks.

Do you have any other questions?"

"No questions, we agreed to join the Hundred Peaks Sect." The old woman spoke, her expression turning solemn as she bowed towards Cao Zhen, "Xi Mu greets the Sect Leader."

Cao Zhen quickly returned the salute, "Immortal Lord Xi Mu."

As Immortal Lord Xi Mu spoke, the crowd also greeted Sect Leader Cao Zhen.

Once everyone had finished introducing themselves, Immortal Lord Xi Mu asked, "Sect Leader Cao, whether it's for me to recover my injuries or for Yao Feng to break through into the True Immortal Realm, it requires time, and this time will not be short. Although I cannot refine those pills and formation maps, I know they take an exceptionally long time.

The Death River Sect only gives us two days, clearly not enough time. You should quickly contact those Great Teachings."

Having joined the Hundred Peaks Sect, they naturally hoped the Hundred Peaks Sect could continue to survive.

"There is no need to seek out those Great Teachings, as contacting other Great Teachings might involve unknown costs. However, our Hundred Peaks Sect possesses a Sea and Mountain Transformations Bead, which allows me to refine the pills needed for your injury recovery within it."

Cao Zhen did not mention pills for Yao Feng, as their Hundred Peaks Sect could not gather enough.

"Sea and Mountain Transformations Bead? You actually have such a treasure bead. With it, you indeed have enough time to refine pills," Immortal Lord Xi Mu nodded slightly in agreement, "This way, there is no need to seek out other Great Teachings and give them those benefits."

Though they don't need to offer benefits to other Great Teachings, it likely requires giving some benefits to White Tiger.

Cao Zhen sighed inwardly. Half of the Sea and Mountain Transformations Bead is in White Tiger's possession. In fact, counting outside of the Ten Thousand Immortals Peak's crowd, the current Hundred Peaks Sect should have two beings from the Immortality Regainment Realm, one being Ruo Yun and the other White Tiger. Yet, White Tiger is not their Hundred Peaks Sect's Saint Beast. It remains in the Hundred Peaks Sect only because Xiang Ziyu never handed over the other half of the Sea and Mountain Transformations Bead.

Cao Zhen quickly bid farewell to Immortal Lord Xi Mu and others, flying towards the direction of Four Treasures Peak. However, he had only flown halfway when the communication talisman refined by Ling Xi sounded and the voice of the Senior Disciple was heard.

"Master, quickly come to the Conference Hall, the Grand Preceptor is looking for you!"

Cao Zhen arrived at the Conference Hall at the fastest speed. Then, he connected the Communication Mirror, and immediately, the image of the Grand Preceptor appeared in the Communication Mirror.

Even though the Grand Preceptor himself was not visible, merely through the Communication Mirror, he could sense the Grand Preceptor's distinction.

In his vision, the Grand Preceptor sat within a vast palace, seemingly merged with the surrounding air and the entire palace, giving a feeling as if the palace naturally existed due to the Grand Preceptor's presence.

Chapter 1935: Part 4

Cao Zhen cupped his hands toward the Grand Preceptor, saying, "Congratulations to the Grand Preceptor on your breakthrough into the True Immortal Realm, and with the Three Divine Aspects Immortal Palace, no less."

In the palace, the Grand Preceptor saw Cao Zhen and rose to his full height, letting out a long sigh, "The reason I could breakthrough owning three Different Phenomena Fairy Palaces in one go was thanks to you. The words you spoke back then were more enlightening than I anticipated at the time.

It was because of your words that I was able to condense the three Different Phenomena Fairy Palaces in one breath."

As he spoke, the Grand Preceptor extended a hand toward Cao Zhen in a gesture of respect, earnestly thanking him, "Moreover, I already know what has happened over these years.

This gesture is to thank you for all you've done for the Guardian Immortal Imperial Dynasty over the years."

He never imagined that so many changes would occur under the heavens, first with the Qi Tian Dynasty attempting to restore its reign, and then with their Eastern Wilderness suddenly connecting with the Eastern Province.

Now, the Eastern Province is even connected with the Central Continent.

These changes are truly too many and too great!

Without Cao Zhen, he could even imagine the current state of the Guardian Immortal Imperial Dynasty. It is feared that the Qi Tian Dynasty would have restored its reign.

Thus, he extended a gesture of respect toward Cao Zhen.

"There's no need for that; I am also part of the Guardian Immortal Imperial Dynasty, and still its State Preceptor. I ought to act." Cao Zhen did not lie; even without other reasons, he must help the Guardian Immortal Imperial Dynasty because of his Prosperous Age Skills.

"Alright, Grand Preceptor, we can talk at length later. For now, I have something of importance to discuss with you." Cao Zhen quickly brought up the urgent matter, "As you know, our Eastern Province has now connected with the Central Continent, and I suspect you've already heard about the situation in the Central Continent.

Currently, many great teachings from the Central Continent have come to our Eastern Province, intending to vacate the Central Continent, allowing the six alien races to contend with each other. They are intentionally conceding the battlefield.

As a result, they need to find suitable grounds here in our Eastern Province. There is a Death River Sect eyeing us.

They have given us two days. If, within two days, our Hundred Peaks Sect does not vacate the grounds, they will invade our Hundred Peaks Sect.

You also know, although I am a reincarnated Great Ability, the Heavenly Dao had always suppressed the powers between heaven and earth, preventing me from breaking through, so our Hundred Peaks Sect has no True Immortal Realm, while on their side, we have no idea how many True Immortal Realms they possess!"

"Courting death!" Upon hearing this, the Grand Preceptor's entire demeanor suddenly changed. Previously, he merged perfectly with the surroundings, and his presence was as gentle as a regular middle-aged man. Now, however, a sudden surge of murderous energy erupted from him, the frightful killing intent so intense that even through the Communication Mirror, Cao Zhen felt an icy chill.

The Communication Mirror quivered violently from the terrifying aura emitted by the Grand Preceptor, seemingly on the verge of shattering at any moment.

"How dare the cultivators of my Guardian Immortal Imperial Dynasty be subjected to such oppression! Moreover, while their retreat might concern the common people of the Central Continent, in the midst of a great enemy, they aren't considering uniting with other great teachings to resist the alien races, but instead, they plan to attack other great teachings! Hold on, I'm heading to the Hundred Peaks Sect right now!"

"Grand Preceptor, wait a moment." For the first time, Cao Zhen noticed this urgent side of the Grand Preceptor and quickly spoke, "Grand Preceptor, the thing is, I need to refine some Pills, but currently, our Hundred Peaks Sect lacks several herbs. I wonder if you have these herbs by any chance? I need..."

He intended to enter the Cang Hai Sang Tian to refine Pills anyway, so if he's going to refine pills, he might as well produce a batch of any that can be crafted.

The Grand Preceptor interrupted Cao Zhen before he could finish, "Those herbs you mentioned, I almost have none."

"Not even the Grand Preceptor has them? Then there's no way." Cao Zhen was not surprised by this. Although the Grand Preceptor was powerful previously, he was confined to the realm of the Eastern Wilderness. With its name containing 'wilderness', it was indeed much more barren compared to the Eastern Province, with fewer herbs, especially Immortal Herbs.

The Grand Preceptor quickly severed contact with Cao Zhen, presumably racing over at great speed.

In the main hall, the high-level members of the Hundred Peaks Sect looked at the disappearing figure within the Light Mirror, their faces involuntarily showing joy.

"The Grand Preceptor is taking action! This time, we should be able to turn danger into safety!"

"Indeed, we always knew the Grand Preceptor was strong, but we never imagined he would be this powerful. We are merely in the Earth Immortal Realm, yet the Grand Preceptor has already broken through to the Guardian Immortal Realm!"

"To think that one day our Hundred Peaks Sect would have the Grand Preceptor come to our aid!"

The senior members of the Hundred Peaks Sect, especially people like Qiu Yixue, who had been repressed by the Grand Preceptor for so long, although they harbored hatred and even fear toward him, also had immense trust in him. Instinctively, they believed there was nothing in the world that the Grand Preceptor couldn't handle.

Now, hearing that the Grand Preceptor is taking action, they instinctively believed that he would definitely be able to hold off the Death River Sect.

Listening to everyone's words, Cao Zhen shook his head slightly, saying, "Although the Grand Preceptor has reached the True Immortal Realm, he has only just entered, and moreover, he is just one person. We do not know how many True Immortal Realms the Death River Sect has; the Grand Preceptor's intervention may not necessarily be able to hold them back.

Besides the True Immortal Realm, the Death River Sect surely has quite a few experts in the Immortality Regainment Realm. These experts, we also can't stop.

Chapter 1936:

Therefore, I have already invited six experts from the Ten Thousand Immortals Sect, and they have agreed to join our Hundred Peaks Sect, becoming our Hundred and First Peak!

Among them, there is even an expert in the True Immortal Realm, but she is injured. If she forcibly makes a move, she will surely die.

Therefore, I need to concoct pills for her to heal her injuries. Even for me, it would take at least three years to refine such pills.

But the Death River Sect has only given us two days, so..."

Cao Zhen turned to Xiang Ziyu and said, "Zi Yu, we need your Cang Hai Sang Tian Pearl, and I plan to bring your five younger disciples inside. They are all at the peak of the Earth Immortal Realm, and given time, they will surely breakthrough into the Immortality Regainment Realm."

He needs to refine pills for Immortal Lord Xi Mu, which requires the Samadhi True Fire, and since he can't refine the Samadhi True Fire himself, he can only rely on Yi Sheng.

Therefore, Yi Sheng must be brought into the Cang Hai Sang Tian, and since Yi Sheng is going, they might as well bring more people along.

Unfortunately, Ling Xi and the others have the Ancient Immortal Body. He currently does not have enough resources to refine pills for them, so he cannot let them enter Cang Hai Sang Tian. He can only bring Yi Sheng and Ruo Yun along with five others into Cang Hai Sang Tian.

As for bringing more people, he's concerned that even letting Ling Xi and the others into Cang Hai Sang Tian might not get the White Tiger's approval. Bringing more people would make the chances of the White Tiger agreeing even smaller.

After all, the more people entering Cang Hai Sang Tian, the less time each person would have for cultivation.

Xiang Ziyu also knew that the situation was critical now, so he uncharacteristically took a serious tone and said solemnly, "Master, there's no issue with me taking out my Cang Hai Sang Tian Pearl, but on the White Tiger's side, I have yet to persuade it."

"I understand, let's try persuading it together. If it absolutely refuses, we might have to use force, and then compensate it later."

Cao Zhen said, and quickly flew back to Four Treasures Peak with his disciple.

The White Tiger has been residing in Four Treasures Peak for years, and although there's also a little Silver Dragon there, the White Tiger simply dismisses the little Silver Dragon. As it says, if it were a little Azure Dragon, it could play around together, but the little Silver Dragon is not worthy to play with one of the Four Saints like her.

And the little Silver Dragon, naturally displeased, sought trouble with the White Tiger multiple times, only to be beaten miserably each time.

Cao Zhen actually suspects that the Silver Dragon got beaten so badly because it tried to ride on the White Tiger, hence the bashing.

Besides the Silver Dragon, there's another person on Four Treasures Peak who also wanted to ride the White Tiger, but Xiang Ziyu genuinely wanted to ride it.

Xiang Ziyu is much more formidable than the little Silver Dragon. Before breaching into the Immortality Regainment Realm, the White Tiger couldn't completely suppress Xiang Ziyu, so he hasn't been just miserably beaten.

Perhaps because Xiang Ziyu's intent to ride is more legitimate, the White Tiger has always resided in Xiang Ziyu's Cave Mansion and not with the little Silver Dragon.

After the merger of the Ten Thousand Immortals Sect and the Hundred Peaks Sect, the number of peaks in Four Treasures Peak increased as well, and everyone's cultivation base began to elevate. Initially, everyone's Cave Mansion was on the main peak of Four Treasures Peak, but gradually, they realized cultivating on one main peak caused disruptions, so they each moved their Cave Mansion to nearby peaks.

Cao Zhen and Xiang Ziyu flew directly to the Unrivaled Peak where Xiang Ziyu resided, a name only someone as eccentric as him could come up with.

On the mountain, the White Tiger's horn on its forehead had grown longer than before, and a more noticeable change was the pair of wings that had started to grow on both sides of her body. However, the wings were not fully matured and appeared small compared to her body.

She looked at the two flying over, especially focusing on Cao Zhen, showing a hint of surprise on her tiger face. Although she resided on Unrivaled Peak, she knew what kind of situation the Hundred Peaks were facing now; Cao Zhen should be extremely busy, so why suddenly visit the Unrivaled Peak of Xiang Ziyu?

Unless...

She quickly thought of the treasure she had; it was the only thing that could stir Cao Zhen's interest.

Her expression suddenly changed, showing a ferocious look. Before Cao Zhen could speak, she declared, "Don't even think about my Cang Hai Sang Tian Pearl. Let me tell you, I'm now in the Immortality

Regainment Realm; if you dare harbor any thoughts about my treasure, I'll really bite you! Besides, with your current situation, even if you get the Cang Hai Sang Tian Pearl, it's no use. They are a legitimate Great Teaching with surely someone in the True Immortal Realm; you have only Ruo Yun in the True Immortal Realm. Even if you get the Cang Hai Sang Tian Pearl and let Ruo Yun use it, she cannot break through into the True Immortal Realm. Even if I give you the Cang Hai Sang Tian Pearl, it's useless. I think you should just hurry and escape."

"We don't intend to have Ruo Yun use the Cang Hai Sang Tian Pearl, besides the fact that in the Hundred Peaks Sect, apart from Ruo Yun, there are five others in the Immortality Regainment Realm, and there's another in the True Immortal Realm," Cao Zhen landed beside the White Tiger, directly ignoring its threat to bite them, as it had threatened to bite Xiang Ziyu countless times but never actually did, even with Zhu Peng who constantly troubled her, she hadn't bitten him, only the poor little Silver Dragon knew how many times it had been bitten by the White Tiger.

Chapter 1937: Six

The White Tiger heard the voice and immediately understood. She shook her head and said, "You're talking about those six people in the back mountain, right? I can sense the aura of those six in the back mountain, but the one among them in the True Immortal Realm is injured, and it's a severe injury. She can't fight.

Don't expect her to scare the people from the Death River Sect. In her state, anyone can tell at a glance that she's badly injured and won't care about her at all, so you still have to run."

Cao Zhen nodded and said, "It's precisely because she's injured that I came to find you. I want to refine a pill to heal her wounds. But refining a pill takes time, so I want to borrow your Cang Hai Sang Tian Pearl to go inside and refine a pill."

"Can you really heal her injuries?" The White Tiger looked at Cao Zhen with some surprise, then nodded again and said, "However, since you were able to help Xiang Ziyu, that idiot, break through to the peak of the Immortal Path Domain, it's not unreasonable that your alchemy skills could heal her injuries."

Saying this, she thought for a moment, then looked up at Cao Zhen and asked, "So, how much time do you need to refine that pill? At your alchemy level, ten years should be enough, right?"

The White Tiger pulled a face that seemed to express great sacrifice and said, "Here's the deal, you have Xiang Ziyu bring out the other half of the Cang Hai Sang Tian Pearl, and then we use it together. You go in for alchemy, and as soon as you finish refining the pill, you get out.

In this way, if Xiang Ziyu and I average it out, I would at most lose five years, maybe even less, which is acceptable."

"I can't just go in there alone." Cao Zhen explained, "To refine that pill, I must use Samadhi True Fire, and I need my disciple Yi Sheng to go in and assist me.

Before that, I also need to refine Samadhi True Fire for Yi Sheng. As you know, Samadhi True Fire, this legendary flame, is not so easy to cultivate. Yi Sheng would need a minimum of thirty to forty years of cultivation."

"You can also refine Samadhi True Fire?" The White Tiger's eyes widened suddenly, but her first concern was not about Cao Zhen bringing another person into the Cang Hai Sang Tian.

"I am a reincarnated Great Ability; what's so difficult about refining Samadhi True Fire?" Cao Zhen looked at the White Tiger, understanding that the chance to persuade her had come, and deliberately showed a proud expression on his face, saying, "Do you know what my previous cultivation realm was? I..."

"I know, Daluo Golden Immortal." The White Tiger didn't wait for Cao Zhen to finish and interrupted actively. She had heard many times from Cao Zhen's disciples, especially that one called Ruo Yun, that Cao Zhen was a reincarnated Great Ability Daluo Golden Immortal.

Back then, when she heard this news, she was surprised for a long time, after all, that was a Daluo Golden Immortal. It was also because of this reason she stayed at the Hundred Peaks Sect, so she just now took a step back, giving Cao Zhen face to let him enter the Cang Hai Sang Tian for alchemy, but who knew Cao Zhen actually wanted to bring another person into the Cang Hai Sang Tian, and train for thirty to forty years, plus Cao Zhen refining the pill inside, then her lost time would increase.

The White Tiger thought of this and immediately shook her head, "No way, you both going in, that would divide the time too much, I can't agree to this!"

"Don't be so quick to refuse." Cao Zhen began to entice, "I gather you also understand the strength of a Daluo Golden Immortal. One might say, your parents, they couldn't reach the level of a Daluo Golden Immortal. This time, you help me, and in the future, I'll naturally be able to help you."

"Help me? What can you help me with?" The White Tiger looked at Cao Zhen with disdain, "Don't try to fool me, first of all, cultivation techniques and spells, our family has a heritage of these, and besides, the cultivation techniques and spells you humans cultivate aren't suitable for us Sacred Beast White Tigers.

Then there's resources, you Hundred Peaks Sect are so poor, what resources can you give me?"

"Just because we Hundred Peaks Sect are poor now doesn't mean we'll be poor forever. In the future, we'll have more and more in the True Immortal Realm. At the very least, I can guarantee all my disciples will be able to break through to the True Immortal Realm. Even achieve Golden Immortal! Then they can naturally get more resources to help you."

"Enough with this talk." The White Tiger pouted, "Who knows how long that will take, waiting forever!"

"Not long." Cao Zhen pointed at Xiang Ziyu, "Do you know how long he has been cultivating until now? You should also be able to sense his life aura, as well as those of my disciples, besides Ruo Yun and Linghu Gudu, my disciples have been cultivating for just over two hundred years, if you include a Minor Era of Inversion of Heaven and Earth.

In such a short time, they've already reached the peak of the Earth Immortal Realm, and entering the Immortality Regainment Realm is just a matter of time. Do you think, under my guidance, it will take long for them to become True Immortals?"

"Fine, even if they can break through soon, no matter how fast they are, they're not faster than me, I am after all the Sacred Beast White Tiger." The White Tiger arrogantly extended a paw and pointed to herself.

"That may not be the case, with me here, they won't take unnecessary detours, and I can refine pills for them. Letting them break through faster." Cao Zhen said, not waiting for the White Tiger to refute, and then continued, "And the little dragon from our Hundred Peaks Sect, you should have seen it."

"That promiscuous dragon?" The White Tiger, upon hearing Cao Zhen mention Little Yin, immediately showed a fierce expression, and sharp claws appeared on her extended paw, "If it weren't for considering your and Xiang Ziyu's faces, I would've swatted him to death!"

Cao Zhen looked at the White Tiger's reaction and immediately confirmed one thing, Little Yin definitely tried to ride the White Tiger. That small dragon too, didn't it know to assess strength before trying to use force.

He could only change the topic and said, "Look at Little Yin now, full of vigor and strong, but before, he was extremely weak. If I hadn't adjusted his condition, whether he could live now would be a question. I'm not lying about this, you can inquire with the people from the Dragon Chant Sect, if you don't trust the Dragon Chant Sect, they do have many dragons, you can ask those dragons."

Chapter 1938:

During the previous period, the reason Bai Feng Sect was able to stand firm and could even be described as powerful was not due to the overall strength of Bai Feng Sect.

After all, they became a Great Teaching through the Instant Millennium Pearl, compared to a genuine great sect, Bai Feng Sect was still comprehensively backward.

Their strength lay in the power of Cao Zhen and the group of genius disciples led by Four Treasures Peak, the strongest among them being Xiang Ziyu and Ling Xi, after all, Ruo Yun only joined Four Treasures Peak later.

The other disciples of Four Treasures Peak also know there's quite a gap between them and their senior brothers and sisters, compared to those five Ancient Immortal Bodies.

They, Bai Feng Sect, relied more on their Master and the five Ancient Immortal Bodies, Ling Xi and Xiang Ziyu.

Now, for some unknown reason, Master hasn't broken through, and Ling Xi and Xiang Ziyu and the five of them, due to being Ancient Immortal Bodies, also cannot break through.

It is they who have broken through!

Linghu Gudu looked at Cao Zhen with an expression as if he were ready to bleed and sweat for Bai Feng Sect and said, "Master, in the past, it was you all who protected Bai Feng Sect, but now you're still at the

Earth Immortal Realm, whereas I've already reached the Immortality Regainment Realm. From now on, let us protect Bai Feng Sect!"

The words were flawless, but no matter how Cao Zhen listened, he felt that this young Linghu Gudu seemed to be showing off that he'd already broken through to the Immortality Regainment Realm.

He patted Linghu Gudu's shoulder with a gratified expression and said, "Alright, since you want to contribute to Bai Feng Sect, then I will let you. When the Death River Sect comes, you'll lead the charge."

Linghu Gudu's joyous expression from breaking through to the Immortality Regainment Realm instantly froze: "Master...that...they have a True Immortal presence, I...isn't there the Grand Preceptor..."

"You still know about the True Immortal presence, looking at you like this, one would think you are the number one in the world. Breaking through to the Immortality Regainment Realm, and you're already so inflated!"

Cao Zhen lightly reprimanded Linghu Gudu, then altered his tone and said, "It's just an Immortality Regainment Realm. Alright, since you all have broken through to the Immortality Regainment Realm, it's time for me to break through as well."

"Hm? Master, you are also going to break through?" Linghu Gudu showed a puzzled look; when his master was in the Instant Millennium Pearl before, there was no cultivation, either guiding them in cultivating the Five-thunder Righteous Method or helping his senior sister refine the Samadhi True Fire, and then doing alchemy; the master didn't cultivate at all, how could he say he was going to break through just like that?

All around them, Li Ke, Wild Man and others were surprised to hear this; having broken through to the Immortality Regainment Realm, they knew better how difficult it was for the Peak Earthly Immortal Realm to break into the Immortality Regainment Realm.

And their master hadn't cultivated, how was he going to break through?

"I am a reincarnated being of great ability, now cultivating anew, even if the path is different, breaking through is not a difficult task."

Previously he didn't break through because his disciples hadn't come out of the Instant Millennium Pearl, he naturally had to wait until they had left to break through effortlessly.

Previously, he couldn't break through into the Immortal Path Domain during the Indestructible Period because his Chaos Qi was insufficient, but thanks to the help of the Demonic Lord Qing Shi, who aided him at that time, he got that Chaos Qi, and didn't lack for Chaos Qi at all.

As for insights and the like, he could already feel that the Earth Immortal Realm breaking through to the Immortality Regainment Realm seemed not to lack any insights, but only needed accumulation, which was enough.

Perhaps this was related to the path he was walking, at least he did not require much insight. As for accumulation, relying on his disciples winning effortlessly was sufficient enough.

Cao Zhen quickly said goodbye to everyone and flew back to Four Treasures Peak, after which he began to operate the Prosperous Age Skills.

With the operation of the Prosperous Age Skills, in an instant, a landscape of what seemed like mountain ranges appeared behind him.

And the aura inside his body was constantly ascending, and in just a moment, this aura seemed to break through some intangible barrier.

The next moment, behind him, the Immortal Mountain started growing crazily.

In Bai Feng Sect, everyone soon discovered the Immortal Mountain appearing on Four Treasures Peak.

"That is the Sect Leader's Immortal Mountain."

"Is the Sect Leader breaking through?"

Xi Mu Immortal Lord and everyone on Ten Thousand Immortals Peak also looked over.

"The Immortal Mountain is starting to grow taller!"

"So fast, in just this short moment, the Immortal Mountain has reached a height of six hundred zhang!"

"The Immortal Mountain is still crazily rising."

"Six hundred and fifty zhang, and it hasn't stopped!"

"Seven hundred zhang, it has reached seven hundred zhang!"

"It finally stopped!"

"How terrifying, just breaking into the Immortality Regainment Realm, and the Immortal Mountain has reached a height of seven hundred zhang!"

"However, before, his Immortal Mountain had reached a height of five hundred zhang, breaking into the Immortality Regainment Realm, the Immortal Mountain's height increased by two hundred zhang can be understood!"

"You can't calculate it like this because the higher the Immortal Mountain, the harder it is to elevate. If an Earth Immortal Realm only three hundred zhang tall breaks into the Immortality Regainment Realm and the Immortal Mountain increases by more than two hundred zhang, there's nothing to it.

After all, the Immortality Regainment Realm's Immortal Mountain will definitely exceed five hundred zhang, but if an Earth Immortal Realm with an Immortal Mountain reaching four hundred zhang breaks through and the Immortal Mountain instantly increases to six hundred zhang, that is absolutely a genius level, Cao...Sect Leader like this...I have never seen before."

"Yes, after all, we have never seen an Earth Immortal Realm with an Immortal Mountain reaching five hundred zhang!"

Chapter 1939:

"Sect Hierarch has just broken through; later, as he continues his cultivation, his Immortal Mountain will grow taller and taller."

Several disciples of Ten Thousand Immortals Peak gazed at the towering Immortal Mountain on Four Treasures Peak, each one marveling endlessly.

Immortal Lord Xi Mu even glanced in the direction of the Grand Preceptor, thinking how fortunate this Guardian Immortal Imperial Dynasty was to have such heavenly pride-like figures.

No matter how many feet Cao Zhen's Immortal Mountain has risen, no matter how towering Cao Zhen's Immortal Mountain was before, breaking through into the Immortality Regainment Realm instantly took his Immortal Mountain to seven hundred feet; how astounding is this!

She possesses seven fairy palaces; to cultivate to her level cannot simply be described as a genius, she was an existence that could absolutely overshadow countless geniuses of the same era.

Even she, after breaking into the Immortality Regainment Realm, saw her Immortal Mountain reach only six hundred and fifty feet in height, and even so, she was praised for a long time.

Cao Zhen's seven hundred feet Immortal Mountain is indeed frightening enough.

Of course, compared to the Grand Preceptor, Cao Zhen is still lacking.

Cao Zhen can only be described as astonishing, but the Grand Preceptor's breakthrough directly condensed three Different Phenomena Fairy Palaces, which is truly terrifying!

On Four Treasures Peak, Linghu Gudu looked at the not-too-distant mountain peaks with towering Immortal Mountains, with eyes full of helplessness and despair.

"Isn't it? After painstakingly cultivating in the Sea and Mountains Pearl for over a hundred years, my Immortal Mountain is only slightly taller than Master's?"

On the main peak of Four Treasures Peak, Cao Zhen gradually restrained his aura, sighing inwardly. It's a pity that this time Ling Xi, Xiang Ziyu, and the other five didn't break through, nor did Bi Yue, otherwise, my passive victory would have been greater, perhaps making my Immortal Mountain exceed eight hundred feet.

Speaking of which, the breakthrough of my Immortal Mountain this time, apart from Linghu Gudu and their breakthroughs, Star Lord Hao Yue and Demonic Lord Qing Shi also contributed a lot; these two were reincarnated great abilities, and after Heavenly Dao no longer restricted them, they naturally broke through into the Immortality Regainment Realm, and their cultivation speed was even faster.

And then there's my Prosperous Age Picture Record.

Cao Zhen could feel that as he broke through into the Immortality Regainment Realm, his Prosperous Age Picture Record became more closely connected to the entire Eastern Wasteland.

Sure enough, after breaking into the Immortality Regainment Realm, the range I can cover is the whole Eastern Wasteland.

It's just a pity that I haven't mapped the entire Eastern Wasteland on the Prosperous Age Picture Record yet, so my Age of Prosperity Qi cannot advance further, nor have I connected any more people.

Although he has walked through the Eastern Wasteland many times, he has not wandered its every corner like he did before across the Guardian Immortal Imperial Dynasty.

Now, with the Death River Sect people that could strike a move against the Hundred Peaks Sect at any time, he has no time to traverse the world, so he can only wait.

He didn't wait too long.

Half a day later, within the Hundred Peaks Sect, the bell rang.

Cao Zhen and all the Earth Immortal Realm experts in the Hundred Peaks Sect flew towards the mountain gate; as for the other disciples, he had already arranged for them to hide in the back mountain.

After all, he didn't know the power of the Death River Sect people, although he thought after they had Grand Preceptor and Immortal Lord Xi Mu, two True Immortal masters, the Death River Sect might not strike, but who knows if there would be unexpected situations?

What if the other side insists on attacking? Now as the Sect Hierarchy of the Hundred Peaks Sect, he must prepare for the worst!

Just upon flying to the mountain gate, he saw from afar, countless figures densely floating in the void, the sheer number giving a feeling of covering the sky and blocking the sun.

Clearly, this time the Death River Sect has gone all out, intending that if the Hundred Peaks Sect does not leave, they will directly breach the Hundred Peaks Sect.

His gaze inadvertently fell onto the foremost three people of the Death River Sect side.

These three individuals clearly stand more prominently than others, their flying height is also higher.

Each wore a long robe, bore long, already graying beards, each had an appearance of an immortal demeanor and sage-like bones, each also emitted terrifying mighty powers.

Obviously, these three are all beings of the True Immortal Realm.

Three True Immortals, compared to their side, they are one more True Immortal.

In the void, three elders of the Death River Sect, looking at the gathered crowd on the opposite mountain gate, couldn't help showing a trace of displeasure on their faces.

Among these three, the one on the far right, an elder in a black robe with a lean face, focused his gaze as his internal aura surged rapidly.

In an instant, three fairy palaces emerged behind him, one of which emanated a chilling murderous aura rising skyward, seemingly materializing.

Above the void, the clouds touching this terrifying aura were instantly dispersed.

Subsequently, the elder let out a heavy, cold hum.

Just a cold hum, yet it was akin to a death knell resonating in everyone's hearts, the sound waves radiating, astonishingly transforming into a storm-like powerful wind, pouring down like a deluge.

"This Immortal Lord has sent a message, giving you Hundred Peaks Sect two days, and yet you Hundred Peaks Sect dared to remain here. You challenge an Immortal Lord's dignity, do you realize the consequences of defying an Immortal Lord!"

As the last word fell, an immense, terrifying pressure surged from his body, like a towering mountain, rushing toward the direction of the Hundred Peaks Sect mountain gate.

Chapter 1940: [3]

Outside the mountain gate of the Hundred Peaks Sect, a lush green meadow spread out, filled with countless flying insects. However, under his oppressive aura, all the insects on the grass outside the gate died instantly.

As the oppressive force was about to envelop the entire Hundred Peaks Sect, a heavy, cold snort sounded from within the sect.

This cold snort, compared to the elder's voice, was even more resonant, filled with a domineering aura of 'none can stand in my way.'

The sound waves burst forth, forming visible ripples in the void, spreading outwards.

The elder's terrifying aura vanished instantly upon touching these ripples.

The Grand Preceptor soared from the mountain gate of the Hundred Peaks Sect. Behind him, the Immortal Mountain stood tall, and above it, the Three Different Phenomena Fairy Palaces shone like the brightest jewels in the world, drawing all eyes to them.

"True Immortal Realm!"

"It's him!"

The people of the Death River Sect immediately noticed the sudden appearance of the True Immortal Realm.

"Isn't this the one who broke through to the True Immortal Realm before?"

"How did he end up in the Hundred Peaks Sect?"

"What is going on?"

"Could it be that this person is from the Hundred Peaks Sect? Wasn't it said that the Hundred Peaks Sect was just a sect without even an Immortality Regainment Realm, let alone a True Immortal Realm?"

"This is..."

The people of the Death River Sect frowned deeply. They had seen someone break through within the Guardian Immortal Imperial Dynasty, and the momentum of that breakthrough was extraordinarily large, far surpassing normal True Immortal Realm breakouts, even gathering three Different Phenomena Fairy Palaces!

But they hadn't thought that this person was from the Guardian Immortal Imperial Dynasty. They had been very sure before that there was no True Immortal Realm in the entire Eastern Wasteland.

Especially such a genius figure, it could not be someone from the Eastern Wasteland.

This must be from some Great Teaching that entered the Eastern Wasteland before them and found an Immortal Sect, just like they did.

They had thought of sending someone to see which Immortal Sect had first entered the Guardian Immortal Imperial Dynasty. But in the end, they decided not to act yet.

After all, the barrier between the Eastern Province and the Central Continent had just disappeared, and the other party could not have been in the Guardian Immortal Imperial Dynasty for long, so their mountain gate must also have just been occupied.

Under such circumstances, the other party must have many matters to handle and would be extremely unstable.

As they did not yet have a mountain gate, rushing in could lead to misunderstandings.

After all, a day or two wouldn't make much difference. Once they took over the Hundred Peaks Sect and had a mountain gate within the Guardian Immortal Imperial Dynasty, they could approach the other party without causing misunderstandings.

With a mountain gate, they could establish themselves here and discuss alliances with the Great Teaching.

But they never expected that the person they had seen would appear in the Hundred Peaks Sect.

The thin elder glanced at the two behind him, and finally, he cupped his hands toward the True Immortal Realm existence in the void, politely saying, "I am Immortal Lord White Crane from the Death River Sect. How may I address you, Dao Companion?"

This person was also a True Immortal Realm existence, especially since upon breaking through to the True Immortal Realm, he immediately gathered three Different Phenomena Fairy Palaces.

While he also possessed an Immortal Palace, he only had one Different Phenomena Fairy Palace, which he had transformed through a later fortuitous encounter.

He could not compare with such an individual.

In the Central Continent, he had never heard of anyone who could gather three Different Phenomena Fairy Palaces immediately upon breaking through to the True Immortal Realm.

If possible, he desired to make friends with such a person.

After all, the other party was exceptionally talented.

Though geniuses could fall, once someone broke through to the True Immortal Realm, they were almost indestructible unless they courted death.

It was obvious to everyone how bright the future of such a person would be, which is why he spoke so politely.

Despite his courteous demeanor, the other's voice was extremely harsh.

"Town Immortal!"

The Grand Preceptor simply spat out two words, each syllable infused with killing intent!

Immortal Lord White Crane's brows immediately furrowed, a trace of dissatisfaction appearing on his face. He had given enough face, yet the other person showed none in return. What did that killing intent mean? Did this person plan to kill him?

Before Immortal Lord White Crane could speak, the elder in the brown robe standing between them suddenly said, "Town Immortal? What is your relationship with the Guardian Immortal Imperial Dynasty?"

He knew that this place was called the Guardian Immortal Imperial Dynasty, and since the other claimed to be the Town Immortal Lord, there had to be a connection.

The Grand Preceptor cast him a glance, replying coldly, "I am the Grand Preceptor of the Guardian Immortal Imperial Dynasty."

"Grand Preceptor?" The people of the Death River Sect were momentarily stunned, realizing that such a figure was the Grand Preceptor of the Guardian Immortal Imperial Dynasty, a mere mortal dynasty.
