

My Master 1951

Chapter 1951: Resources Exposed (Part 2)

The Extreme Formation Sect Leader said those words, but after leaving, they did not first fly to the Hundred Peaks Sect. Instead, they stopped to chat with people from two mountain gates they passed by, looking at the situation of these two Great Teachings from outside.

Under normal circumstances, each Great Teaching can completely conceal their mountain gates, making it difficult for outsiders to find.

But now, these Great Teachings have only just found this place. They haven't completely transformed their mountain gates, so naturally, one can directly see these mountain gates, and even the conditions inside them. Even without entering the mountain gates of these two Great Teachings, just standing outside, he could sense the spiritual energy within.

Indeed, as the Truth Seeking Sect Leader had said, the spiritual energy within these two mountain gates is even scarcer than that within the mountain gates of the Truth Seeking Sect and Azure Cloud Sect.

"Let's go, let's take a look at the Hundred Peaks Sect."

The group continued flying forward and soon flew into the Guardian Immortal Imperial Dynasty.

Guardian Immortal Imperial Dynasty, in front of the Hundred Peaks Sect mountain gate.

After receiving the Heaven and Earth Ring, the Grand Preceptor didn't even look at the rings, directly throwing them in Cao Zhen's direction.

He had previously promised Cao Zhen to help gather those medicinal materials for him, and was worried about not having a place to obtain them. When the Death River Sect proactively came to deliver them, he naturally took advantage ruthlessly.

The Death River Sect Leader looked at the Grand Preceptor's actions from afar, stunned. Is this Grand Preceptor really so straightforward? He directly handed the Heaven and Earth Rings to the Hundred Peaks Sect Leader. Doesn't he want those resources?

After Cao Zhen received the Heaven and Earth Rings, he quickly opened them, and a multitude of medicinal materials were revealed.

These medicinal materials are truly abundant!

The Hundred Peaks Sect, having endured a Sect Tribulation, has accumulated quite a few medicinal materials over the years, but cannot compare even to the quantity of medicinal materials within just one Heaven and Earth Ring.

Let alone the medicinal materials within two Heaven and Earth Rings.

Moreover, the quality of the medicinal materials inside the Heaven and Earth Ring is quite high; most are Immortal Herbs, and even high-grade Immortal Herbs.

He quickly opened another Heaven and Earth Ring, the medicinal materials within not lesser than those in the first, perhaps even higher in quality.

Truly worthy of being a Great Teaching from the Central Continent, truly wealthy beyond compare.

However...

Cao Zhen suspects greatly whether the Death River Sect Leader would obediently hand over all the medicinal materials to them.

Though he doesn't know how many medicinal materials a top-tier Great Teaching truly possesses, someone knows.

“Elder Xi Mu, come take a look at the medicinal materials within these two Heaven and Earth Rings.” Cao Zhen looked up at Immortal Lord Xi Mu in the void, though Xi Mu had not declared himself as an elder of the Hundred Peaks Sect, only saying he joined them. Yet with only one True Immortal Realm in the Hundred Peaks Sect, not appointing Xi Mu as an elder wouldn’t make sense.

Immortal Lord Xi Mu heard his call and immediately flew down from the void, taking the two Heaven and Earth Rings from Cao Zhen to inspect.

After a moment, Xi Mu’s face turned somber, and she turned back with a freezing gaze towards the Death River Sect Leader.

“Death River, is this truly all your sect’s medicinal materials? Do you assume our Hundred Peaks Sect is easy to deceive? These medicinal materials aren’t even as abundant as our Great Teaching’s during its peak! Your mere Central Continent Great Teaching got only this much? Who are you trying to fool! I suppose you truly wish to let your entire Death River Sect perish in the Death River today!”

Though unaware of the precise quantities of medicinal materials during the peak of the Ten Thousand Immortals Sect, she knows roughly that there’s far more than this!

And given the Death River Sect hails from the Central Continent, where resources are richer, their quantity of medicinal materials couldn’t possibly be so minimal.

She even suspects that the Death River Sect hid another Heaven and Earth Ring’s worth of resources!

The Death River Sect Leader stared at Immortal Lord Xi Mu, momentarily uncertain whether Xi Mu truly knew how many medicinal materials they possessed, or whether she was bluffing.

He tended towards the latter, as he had really inquired previously, the Hundred Peaks Sect was just a sect, and became a Great Teaching due to a unique moment by acquiring an Instant Millennium Pearl; thus, such a Great Teaching couldn’t possibly possess so many resources.

Xi Mu seemed to have guessed what he was thinking and chuckled coldly: “Perhaps you’re unaware, but I, previously did not belong to the Hundred Peaks Sect, but rather hailed from another Great Teaching.

Don't think we're oblivious to how many resources a normal Great Teaching should have."

The merger of the Hundred Peaks Sect with the Ten Thousand Immortals Sect isn't secretive, and Xi Mu has some fame in the Eastern Province. Before long, these members of Death River Sect will know her identity, so there's no need for concealment.

From another Great Teaching?

The Death River Sect Leader was briefly stunned; someone from a Great Teaching can't just freely join another Great Teaching?

Not to mention whether the Heavenly Dao allows it or not, leaving a Great Teaching to join another could incur Heavenly Dao's punishment.

Even if one could withstand that punishment, having someone this powerful, possessing seven Immortal Palaces, join another Great Teaching, would her previous Great Teaching agree?

Even between two Great Teachings with great rapport, the other would still not consent!

Besides, who would choose to join a Great Teaching lacking a True Immortal Realm for no reason!

Unless forced to join, and perhaps Immortal Lord Xi Mu's previous Great Teaching was on the verge of annihilation.

Indeed, the Hundred Peaks Sect utilized an Instant Millennium Pearl.

The Instant Millennium Pearl necessitates merging with or acquiring another Great Teaching. It's possible that the Hundred Peaks Sect merged with another, and thus Immortal Lord Xi Mu, from the acquired Great Teaching, had no choice but to join the Hundred Peaks Sect.

Chapter 1952:

This also explains why the Hundred Peaks Alliance, which in my investigations didn't even have Immortality Regainment Realm experts, suddenly has such a master in the True Immortal Realm.

His mind raced, and he glanced in the direction of the Grand Preceptor, noticing that the Grand Preceptor seemed to have signs of taking action.

He quickly spoke up, "Everyone, don't be anxious, we still have a Heaven and Earth Ring. I have no intention of deceiving you about it."

As he spoke, he turned around and said to the rear, "Bu Wu, bring the Heaven and Earth Ring."

Soon, a middle-aged man from the crowd of Immortality Regainment Realm flew over and handed a Heaven and Earth Ring to him.

He initially wanted to hold all the Heaven and Earth Rings containing the Great Teaching's resources himself, but unfortunately, the others from their Great Teaching disagreed. He had to come up with this way to distribute the resources.

The presence of their three True Immortal Realm individuals was too conspicuous, so he didn't concentrate all the resources on them, but rather distributed a portion to disciples in the Golden Core Stage, Earth Immortal Realm, and Immortality Regainment Realm.

Although these disciples had weaker cultivation bases, by being in the middle of their ranks, they were quite inconspicuous. Moreover, as they came from a Great Teaching, normally, no one would attack them.

He held the Heaven and Earth Ring, not throwing it to the Grand Preceptor, but directly to the Hundred Peaks Sect Leader. At that moment, his heart was filled with regret, thinking if he had known this would happen, why would he attack the Hundred Peaks Sect; wouldn't it be better to attack the Eastern Wilderness Sect instead?

Although the Grand Preceptor might take action, how could the opponent, a mere True Immortal Realm, stand against the three of them? Maybe the Grand Preceptor wouldn't even make a move.

But now, they could only spend money to avert the disaster.

Moreover, he should not have concentrated those resources in such a manner. How good would it have been to distribute them a bit more?

But now, he could only secretly take out some top-grade Immortal Herbs and put them separately in a Qiankun Bag.

Mainly, those Immortal Herbs were useful to him.

Although he was the Sect Hierarchy of the Death River Sect, the resources of the sect belonged to the entire Great Teaching, and he couldn't freely dispose of them.

Usually, there was no opportunity, but this time, under the pretext of relocating the entire sect, it was a great chance, and he naturally wanted to take away some useful resources for himself.

Cao Zhen received the Heaven and Earth Ring and, as before, opened the ring.

Indeed, the medicinal materials in this Heaven and Earth Ring were no less than those in the previous two rings, implying that the Death River Sect had divided their medicinal materials equally among the three Heaven and Earth Rings. These medicinal materials...

Suddenly, Cao Zhen's eyes widened. He reached into the Heaven and Earth Ring and instantly grabbed a light blue fruit resembling a Fire Dragon Fruit.

Sky-connecting Azure Sky Fruit!

This is an extremely rare Seventh Grade Immortal Grass. Even among Seventh Grade Immortal Grass, it is very precious, and he needed this Immortal Herb to refine pills for Ling Xi and Xiang Ziyu.

Unexpectedly, he obtained such an Immortal Herb directly from the Death River Sect.

This Immortal Herb...

Cao Zhen sniffed lightly, and again showed a look of surprise on his face. On this Immortal Herb, there was a faint scent of Heavenly Illusion Grass.

Such a situation can only happen if this Sky-connecting Azure Sky Fruit has been long placed together with the Heavenly Illusion Grass, thereby acquiring its scent.

However, inside this Heaven and Earth Ring...

Cao Zhen's Divine Thought entered the Heaven and Earth Ring again.

Indeed, there was no Heavenly Illusion Grass inside this Heaven and Earth Ring.

He then looked at Immortal Lord Xi Mu and checked the other two Heaven and Earth Rings, finding that there was no Heavenly Illusion Grass in those two rings as well.

This means the Sect Hierarch of the Death River Sect is still trying to deceive us—they have another Heaven and Earth Ring!

Truly befitting a Great Teaching from the Central Continent—they are truly wealthy. Even after giving out so many medicinal materials, it's not everything!

Cao Zhen looked up at the Death River Sect Hierarch with a dissatisfied expression and coldly said, "Sect Hierarch of the Death River Sect, shouldn't you think carefully again if there are any Heaven and Earth Rings that you haven't taken out yet!"

"There are no more." Upon hearing this, the Sect Hierarch of the Death River Sect immediately shook his head. The medicinal materials in their treasury were all packed into three Heaven and Earth Rings, and he had indeed taken all three out.

“No more?” A chilling killing intent surged out from within Cao Zhen, as if he was about to take action, glaring at the Sect Hierarchy of the Death River Sect, “You have deceived us for the second time already. It seems you truly wish for all your Disciples of the Death River Sect to enter the Death River!”

The Sect Hierarchy of the Death River Sect felt the coldness from afar, a flash of anger passed through his eyes. Previously, when threatened by Immortal Lord Yi He, he had no temper, considering that they were formidable in the Late True Immortal Realm. Even when threatened by Grand Preceptor Zhen Xian, he endured; although the Grand Preceptor’s realm was lower than his, their combat strength was terrifying.

Although he believed that continuing to fight, he would ultimately win, defeating Grand Preceptor Zhen Xian might cost him a significant price.

Furthermore, if Grand Preceptor Zhen Xian were to breakthrough, even with fewer Immortal Palaces, he believed he wouldn’t be able to match him anymore.

Therefore, he could endure the threats from the Grand Preceptor.

But what was this Hundred Peaks Sect Leader worth? Merely a little Immortality Regainment Realm, if it were a different location, he wouldn’t even glance at him.

Such a person dared to threaten him!

However, he could not react, as the opponent was a Sect Leader of a Great Teaching, backed by two formidable True Immortal Realm experts.

Chapter 1953:

He could only suppress the rage in his heart and said sincerely, “Everyone, our Death River Sect’s treasure vault is divided into three Heaven and Earth Rings. All the senior members of our Death River Sect know this; we have not deceived you. Now, the three Heaven and Earth Rings have been handed over to you. If you do not believe, you can ask our other senior members.”

“Your senior members certainly listen to you, don’t tell me so much.” Cao Zhen sneered as he took out the Sky-connecting Azure Sky Fruit and said, “This Sky-connecting Azure Sky Fruit carries the aura of

Heavenly Illusion Grass. But the Heaven and Earth Rings you gave me had no Heavenly Illusion Grass in them!

The Sky-connecting Azure Sky Fruit carries the Heavenly Illusion Grass's aura only when placed together for over ten thousand years.

So, before your Death River Sect left the Central Continent, the Sky-connecting Azure Sky Fruit and Heavenly Illusion Grass were kept together in your treasure vault.

Now, the herbs you gave me have no Heavenly Illusion Grass. Do I need to say more?"

The Sect Hierarchy of Death River was completely dumbfounded. Indeed, among the herbs he took was Heavenly Illusion Grass. But the issue is, how did this person detect that!

What Sky-connecting Azure Sky Fruit has the aura of Heavenly Illusion Grass?

Why didn't I notice it, I am an existence of True Immortal Realm!

But what this Bai Feng Sect said is indeed correct.

This person, just who is he, that he can detect even this?

Xi Mu, next to Cao Zhen, looked at Cao Zhen with astonishment upon hearing this. She knew Cao Zhen was an Alchemy Master, and also that Cao Zhen is a reincarnated Great Ability, but to determine through one immortal herb what another immortal herb it was previously with, was a bit too bizarre!

If the two immortal herbs had just been separated, it would have been fine. But for Death River Sect to arrive here from the Central Continent, so many days have passed, the aura on the immortal herbs should have dissipated.

Moreover, these immortal herbs were all piled together; there should also be the aura of other immortal herbs on them. Yet Cao Zhen could still accurately determine it!

This...

She looked up at the Sect Hierarch of Death River again. Without even needing him to answer, just looking at his appearance, she knew Cao Zhen was right.

Xi Mu's eyes suddenly turned cold as she mockingly looked at the distant Sect Hierarch of Death River and said, "So, are you still trying to deceive us! You, a Sect Hierarch of a Great Teaching, are full of lies, don't you feel ashamed?"

Not just the people from Bai Feng Sect, but now, the people of Death River Sect were also looking at their Sect Hierarch.

The Sect Hierarch of Death River felt the gaze of everyone, sighed in his heart; since the other party had already accurately stated the name of the immortal herb, denying it was definitely not an option.

However, even if he admitted it, he still had to find an excuse. Otherwise, if the people of Death River Sect suspected he had embezzled, it would be trouble.

"Those herbs actually... in my Qiankun Bag, and there are only two plants; actually it is..."

Before the Sect Hierarch of Death River could think of how to explain, Cao Zhen had already rudely interrupted, "We don't want to hear your explanation, hand over your Qiankun Bag!"

"What!" The Sect Hierarch of Death River immediately shook his head upon hearing it, "There are many of my own herbs in my Qiankun Bag."

"Your words are no longer credible; just hand over your Qiankun Bag." Cao Zhen would not believe the words of the Sect Hierarch of Death River.

The face of the Sect Hierarch of Death River became increasingly unsightly. His own herbs were naturally different from those of the Great Teaching. If he handed over the Great Teaching's herbs, at most their

Great Teaching would lack sufficient herbs in the future, and the disciples of the Great Teaching would suffer.

Of course, it would also have some impact on him since he could apply to take herbs from the Great Teaching's treasure vault for use.

But if he took out his own herbs, the loss would be significant.

What about his future cultivation or when he needs to use herbs?

But if he doesn't give...

As he was agonizing, suddenly, a series of cracking sky noises came from afar, along with a chorus of low exclamations from behind their Death River Sect's group.

"Flying boats, so many flying boats!"

"This is... the flying boats of the Extreme Formation Sect!"

"It's the Extreme Formation Sect's people!"

"Have the people from Extreme Formation Sect also come to the Eastern Province?"

"What are they trying to do? Why does it feel like they are also headed toward Bai Feng Sect?"

Above the mountain gate of Bai Feng Sect, the crowd also saw the many flying boats coming from a distance, along with the five True Immortal Realms flying at the forefront!

For a moment, everyone's expression turned serious; another five True Immortal Realms had arrived. Would it be like the Death River Sect, wanting to seize their Bai Feng Sect?

These five True Immortal Realms, among them is an existence with eight Immortal Palaces! That is even more than Immortal Lord Yi He's Immortal Palaces!

Additionally, the only female cultivator among the five, like Immortal Lord Yi He, also possesses seven Immortal Palaces.

Moreover, the other five people respectively possess three, four, and five Immortal Palaces!

This strength is much more terrifying than the Death River Sect. If they want to seize Bai Feng Sect, how could they resist!

The Sect Hierarchy of Extreme Formation flew from afar, gazing at each of the Death River Sect disciples gathered here and his brows instantly furrowed.

Could it be that someone beat him to it?

No, this situation seems less like a peaceful conversation and more like a confrontation between the two sides?

Suddenly, his gaze fell on two figures.

Chapter 1954:

The True Immortal Realm of the Death River Sect? Are they injured?

Had there been a battle between the two parties before?

The Extreme Formation Sect Leader's brows furrowed instantly. At such a time, despite being Great Teachings, they're still at odds!

Internal conflict?

Could it be that the Death River Sect wants to enter the Hundred Peaks Sect's mountain gate and share it, but the Hundred Peaks Sect disagrees?

But if they disagree, then they disagree. Why resort to battle?

Unless the Death River Sect insists on entering this mountain gate.

He quickly made a judgment in his heart. Seeing the tension between the two sides, he stopped in the void and did not continue to advance.

Cao Zhen's face had also become extremely grave. Having stayed in the Central Continent for more than five years, he had heard about the Extreme Formation Sect.

The Extreme Formation Sect is a Great Teaching that primarily focuses on formations. If they fight one-on-one, those in formation might not be very strong, but when in numbers, the Extreme Formation Sect people can form formations together, becoming stronger the more numerous they are.

And if they are given time to set up formations in advance, it would be even more terrifying.

Although he had heard that the Extreme Formation Sect has a very good reputation and has always been fighting against the six alien races.

But given the current situation, since the Extreme Formation Sect has abandoned the Central Continent and come to the Eastern Province, who knows what they might be thinking?

Moreover, back in the Central Continent, it was a temporary Sect Hierarch calling the shots in the Extreme Formation Sect, so who knows what the true Sect Hierarch of the Extreme Formation Sect is thinking!

If the Extreme Formation Sect truly wants to seize the Hundred Peaks Sect from them, they might have no choice but to flee!

Or, perhaps he could make an early assessment of the Extreme Formation Sect's intentions?

Cao Zhen's heart stirred, and he began to examine his Prosperous Age. This is the Guardian Immortal Imperial Dynasty. If the Extreme Formation Sect harbors hostility towards them, it should manifest.

Just like the Death River Sect, their existence has affected his Age of Prosperity Qi, which is no longer as strong as it was before.

If the Extreme Formation Sect intends to attack the Hundred Peaks Sect, then his Prosperous Age should be further affected.

The current situation is...

No impact!

Cao Zhen, after examining his Prosperous Age, felt relieved. In his Prosperous Age, the presence of the Extreme Formation Sect members could be seen.

He was now trying to find someone through his Prosperous Age Picture Record and Prosperous Age in the Eastern Wasteland, which might still be a bit difficult and wouldn't happen quickly.

But now, with so many from the Extreme Formation Sect gathered here, he could easily see their presence.

The Extreme Formation Sect bears no hostility towards the Hundred Peaks Sect, which makes things easier.

First, resolve the issue with the Death River Sect and then inquire about the Extreme Formation Sect's purpose.

Cao Zhen turned back again to face the Death River Sect Leader and said coldly, “Death River Sect Leader, you had previously agreed to give all the medicinal herbs from the Death River Sect’s treasure vaults to the Hundred Peaks Sect.

What? As a Sect Leader of a Great Teaching, do you intend to go back on your word? Now it’s not only us from the two Great Teachings, but also many Dao Companions from the Extreme Formation Sect here.

Aren’t you afraid of disgracing the Death River Sect? Or do you really want all of the Death River Sect’s people to meet their end in the netherworld?”

The Extreme Formation Sect Leader listened from a distance to that cold voice and looked at the people of the Death River Sect, suddenly understanding the current situation. Clearly, the Death River Sect is not a match for the Hundred Peaks Sect, as their two experts have been severely injured.

So the Death River Sect has been threatened by the Hundred Peaks Sect, who demands all their medicinal herbs!

This Hundred Peaks Sect is truly ruthless!

For a Great Teaching, medicinal herbs are incredibly valuable!

The Hundred Peaks Sect straightforwardly demands all the medicinal herbs from the Death River Sect’s treasure vaults; how could the Death River Sect possibly agree to that?

However, the Death River Sect Leader did not immediately produce the medicinal herbs from the Qiankun Bag. Instead, he looked towards the direction of the Extreme Formation Sect. He wanted to understand what the Extreme Formation Sect’s people intended.

And also, what about that Hundred Peaks Sect Leader.

He truly didn't know how that guy became the Sect Leader of the Hundred Peaks Sect. Now that a third force has appeared, and their power can easily crush both the Death River Sect and the Hundred Peaks Sect, shouldn't the Hundred Peaks Sect be watching from the sidelines at such a moment?

Doesn't the Hundred Peaks Sect Leader fear that the Extreme Formation Sect might make a move on the Hundred Peaks Sect?

Does he not fear that the Death River Sect and the Extreme Formation Sect might join forces to utterly eliminate the Hundred Peaks Sect?

Cao Zhen saw that the Death River Sect Leader was still unmoved and spoke again, "Death River Sect Leader, you've already given most of the medicinal herbs to us. Will you let everyone in the Death River Sect fall into misery and suffering just because of a small portion of the herbs? Do you think it's worth it?"

The Extreme Formation Sect Leader heard this, and his eyes flashed with astonishment; the Death River Sect had already given most of their treasure vault's medicinal herbs to the Hundred Peaks Sect?

The Death River Sect had already conceded?

Although the Hundred Peaks Sect has a master of seven Immortal Palaces, the Death River Sect also has people with five Immortal Palaces.

The Death River Sect obviously has more people in the Immortality Regainment Realm; they shouldn't be so afraid of the Hundred Peaks Sect, so why did they really give the medicinal herbs to the Hundred Peaks Sect?

In the void, the Grand Preceptor didn't know why Cao Zhen ignored the approaching True Immortals and had no need to care about these True Immortal existences.

He only knew one thing: the other party still held back some medicinal herbs that hadn't been given.

Suddenly, a cold gleam appeared on the Grand Preceptor's face. The overwhelming killing intent surged into the sky, causing the space around him to tremble madly. The sharp sword in his hand was raised again, and his voice was as cold as icebergs clashing into each other, having not melted for ten thousand years, cold and piercing.

Chapter 1955:

"Death River, do you truly wish to descend to the River of Death?"

As the words fell, the three Different Phenomena Fairy Palaces behind him began to tremble.

The Death River Sect Hierarch's face immediately turned grave.

Suddenly, a secret transmission came to his ears from his junior brother.

"Senior Brother, just give it to them. In truth, I manage the drug resources of our Great Teaching, and I know you've taken some of the resources.

But I am your junior brother, and I haven't spoken out. However, if this drags on, the matter might be exposed. Moreover, I've had contact with experts from the Extreme Formation Sect, and from speaking with them, I can sense that Extreme Formation is a person of great integrity. If they learn why we are in conflict with the Hundred Peaks Sect, they likely won't support us.

Moreover, their goal is like ours, to invade the mountain gate of the Hundred Peaks Sect. But seeing our current state, do you think they might not act, and in the process, seize from us too?

After all, in our Death River Sect's True Immortal Realm, currently, it's only you, Senior Brother, who possesses combat strength."

Upon hearing this, the Death River Sect Hierarch's brow furrowed tightly, then he glanced towards the direction of the Extreme Formation Sect, clearly seeing that the people of Extreme Formation had no intention of acting.

Then he looked towards the Grand Preceptor and Immortal Lord Xi Mu, realizing that if the two of them attacked together, he would certainly die, with no chance to escape.

And judging from that Grand Preceptor's previous actions, he's indeed willing to act.

In such a situation, if he were someone from the Extreme Formation Sect, he wouldn't interfere either, but rather be happy to watch both sides fight.

In the end, he sighed helplessly, taking out a Qiankun Bag from his bosom and throwing it out, saying, "All the drug resources from our Great Teaching, along with my personal ones, are all in here."

After weighing it in his heart, he decided to temporarily hand over these resources, as otherwise, he might really die!

Now, he could only be thankful for his habit of storing treasures in separate Qiankun Bags; this one only contained drug resources, without other resources.

Otherwise, he feared all his resources would be blackmailed by the other side.

In the distance, an unexpected look appeared on the Extreme Formation Sect Hierarch's face; this person with only three Fairy Palaces dared to challenge the Death River Sect Hierarch, and the Death River Sect Hierarch actually cowered!

Moreover, the Death River Sect Hierarch actually handed over all the drug resources from their Great Teaching's treasury to the Hundred Peaks Sect.

Cao Zhen received the Qiankun Bag, and his consciousness immediately entered it, seeing numerous seventh and eighth-grade Immortal Herbs.

Corruption, absolute corruption!

With so many high-quality Immortal Herbs, how much of the Great Teaching's drug resources has this Death River Sect Hierarchy embezzled?

Cao Zhen even took out the resources to examine, discovering that indeed, many of them lacked the scent of other materials; only then did he securely store the Qiankun Bag, then fiercely looking at the Death River Sect Hierarchy, said, "Alright, now you, you can take your people and scam. Not just out of the Guardian Immortal Imperial Dynasty, but out of the entire Eastern Wasteland, otherwise, the next time, your experts won't just face severe injuries."

The members of the Death River Sect, hearing the conveyed words, were filled with endless humiliation, for they were threatened by a Great Teaching from the Eastern Wasteland, and they had no choice but to accept.

If their old Sect Hierarchy were still here, how could they have fallen into such a state!

If only they were still at the mountain gate, relying on the Great Formation of the gate, even if unable to defeat their opponent, they wouldn't fear these people!

But now, they could only retreat miserably!

They didn't even have the face to greet the people of the Extreme Formation Sect.

The members of the Extreme Formation Sect watched the departed Death River Sect individuals, as their gaze involuntarily fell upon the Hundred Peaks Sect, and the person who spoke, seeming to lead them. But the Hundred Peaks Sect clearly had two True Immortal Realm members!

Also, these members of the Hundred Peaks Sect are somewhat overbearing, aren't they, driving the Death River Sect out of the Eastern Wasteland?

With the departure of the Death River Sect individuals, the gaze of the Hundred Peaks Sect members also involuntarily fell upon the few people from the Extreme Formation Sect.

The Extreme Formation Sect Hierarchy, bringing four True Immortal Realm experts, flew a bit further forward before stopping, but instead of directly speaking, he cupped his hands toward the Hundred Peaks Sect and said, "Greetings, fellow Dao Companions."

He didn't say 'everyone,' but 'a few.'

He is a Sect Hierarchy of a Great Teaching, and a True Immortal Realm existence. Only those two True Immortal Realm beings or the leader of the Hundred Peaks Sect could converse with him here.

The people gathered around that person suggest he must be the Sect Hierarchy of the Hundred Peaks Sect.

As he spoke, he even took a moment to sense ahead; even from this distance from the Hundred Peaks Sect, he could feel the abundant Spiritual Energy.

For a moment, an expression of astonishment appeared on his face, as the Spiritual Energy of the Hundred Peaks Sect was incredibly abundant, incomparable to the Spiritual Energy of the three Immortal Sects he visited before.

To sense it from such a distance, the level of Spiritual Energy of the Hundred Peaks Sect might even surpass that of their Extreme Formation Sect!

In the void, Immortal Lord Xi Mu cupped her hands toward the five people and asked, "Greetings to the five fellow Dao Companions, may I inquire what brings you to our Hundred Peaks Sect?"

The Extreme Formation Sect Hierarchy had just opened his mouth to speak when beside him, Immortal Lord Jue Zhen asked first, "Earlier, what happened with the Death River Sect? May I ask, why did your Hundred Peaks drive them away?"

She felt that if the Hundred Peaks Sect wasn't welcoming to other Great Teachings, there would be no need to mention their purpose here.

Although this Great Teaching's Spiritual Energy was abundant, she didn't believe that all mountain gates in the Eastern Province had to have two Great Teachings; they could easily switch to some other mountain gate.

As for forcibly seizing the Hundred Peaks Sect's mountain gate?

Their Extreme Formation Sect is not like those Demonic Sects; they wouldn't engage in such acts.

Moreover, with the six alien races currently wreaking havoc in the Central Continent, even the Demonic Sect behaves differently now than in the past.

"Them?" Cao Zhen coldly laughed, saying, "They previously attempted to invade our Hundred Peaks Sect's mountain gate, and when we didn't agree, they tried to attack. Unfortunately, their strength wasn't sufficient, and they wanted to leave, but our Hundred Peaks Sect is not a place one can come and go as they please."

As for driving them away, people like them, if not driven away, would harm our Eastern Wasteland, wouldn't they?"

Chapter 1956:

"What? The people from the Death River Sect actually want to forcibly seize your Hundred Peaks Sect!" The appearance of the Extreme Formation Sect Hierarch could not be considered dignified. If it weren't for the eight Immortal Palaces floating behind him, those unfamiliar might even think he was a school teacher, or perhaps a master wholeheartedly devoted to researching some kind of Alchemy, or Formation, or The Path of Talisman.

Yet at this moment, he was radiating an immense rage.

"Our Human cultivation world is facing attacks from six major Alien Races. At such a critical moment of life and death, the people from the Death River Sect are still thinking of internal strife, wanting to seize others' mountain gates!

If all our human great teachings were like them, our only outcome would be extinction!"

Cao Zhen nodded slightly in agreement, looked at the other party, and asked, "Then why have you all come here?"

"We..." The face of the Extreme Formation Sect Hierarch suddenly showed a trace of unease. If it weren't for the people from the Death River Sect, he would have directly stated their purpose. But with the people from the Death River Sect here first, would the Hundred Peaks Sect think they were also coming to occupy the mountain gate of the Hundred Peaks Sect?

He pondered for a moment, then slowly said, "We have come from the Central Continent. We previously encountered the Azure Cloud Sect and the Truth Seeking Sect.

Those two great teachings are not far from your Hundred Peaks Sect, and now, the two great teachings share a single mountain gate."

Cao Zhen immediately showed an expression of surprise. He knew that the Truth Seeking Sect had come to the Eastern Wasteland and had found a mountain gate abandoned by the three Immortal Palaces of the Great Lai Dynasty as their mountain gate. However, they did not know that the Azure Cloud Sect had also arrived here, and that the Azure Cloud Sect and the Truth Seeking Sect shared a mountain gate!

Behind him, the people of the Hundred Peaks Sect were also greatly surprised. Now, there were already two great teachings sharing one mountain gate?

The Extreme Formation Sect Hierarch continued, "Those two Dao Companions told me that the mountain gates throughout the entire Eastern Province are limited, and only two great teachings can share one Immortal Gate now, so we searched all the way and found your Hundred Peaks Sect."

He paused slightly after saying this, then continued, "You also know that a great teaching without a suitable mountain gate cannot continue to develop, so we would like to discuss with your Hundred Peaks Sect about sharing a mountain gate with the Hundred Peaks Sect.

Of course, we can guarantee that we will not disturb your Hundred Peaks Sect. We also know that this is your Hundred Peaks land, and you only need to allocate a portion of the area. At the same time..."

Before he could finish speaking, Cao Zhen waved his hand and said, "No problem, I agree."

He had previously observed through the Prosperous Age Picture Record that the Extreme Formation Sect indeed bore them no malice.

Moreover, if the Extreme Formation Sect really intended to seize the mountain gate, they could have directly come in force, and the Hundred Peaks Sect would have been unable to resist.

As for agreeing.

Now, humans are indeed too passive. He also knows that those great teachings from the Central Continent, after coming to Eastern Province, many great teachings would lack suitable mountain gates, and without mountain gates, they cannot develop, and their strength would grow weaker.

He also wants the humans to grow stronger, so he agreed to the other party very straightforwardly.

After all, their Hundred Peaks Sect is indeed big enough, and their Hundred Peaks Sect does not have too many people, enough to accommodate another great teaching.

Moreover, there is one more thing he is considering, that is, if the Extreme Formation Sect enters their Hundred Peaks Sect, would the Hundred Peaks' prosperity increase!

And those great teachings entering the Guardian Immortal Imperial Dynasty, entering the Eastern Wasteland, if they consider the Eastern Wasteland as their root, would their prosperity also increase!

In fact, the Great Lai Dynasty had already been incorporated into the territory of the Guardian Immortal Imperial Dynasty, but he had previously drawn a picture of the Guardian Immortal Imperial Dynasty, and at that time, he did not include the Azure Cloud Sect and Truth Seeking Sect and other great teachings.

So he doesn't know if the arrival of these great teachings has increased his prosperity.

He can only think of a way to supplement when he draws the Prosperous Age Picture Record again. Once drawn, it cannot be changed.

He can only add it on the existing basis. However, fortunately, he only briefly mentioned those great teachings, and adding it should be easier now.

Around them, the Hundred Peaks Sect members, upon hearing Cao Zhen agree so readily, were all stupefied.

Why did the Sect Hierarch agree so readily?

It doesn't seem like the Sect Hierarch's style.

Is the Sect Hierarch not afraid that after the other party enters, they will slowly erode the Hundred Peaks Sect? Is the Sect Hierarch not afraid that the other party has malicious intentions?

Moreover, our Hundred Peaks Sect is so poor, why didn't the Sect Hierarch seize this good opportunity to ask for some benefits?

Others don't know, but the elders of the Hundred Peaks Sect surely understand the Sect Hierarch's style.

Back when the Sect Hierarch had not fully risen, and they were still the Hundred Peaks Sect at that time, the Sect Hierarch was once known as the sixth fiend of the Hundred Peaks.

The Sect Hierarch could even take the Divine Weapons of other peaks and sell them to others.

Now, the Sect Hierarch actually agreed without asking for benefits, this is too unusual.

The Extreme Formation Sect Hierarch was also stunned. He had just witnessed the Hundred Peaks Sect demand benefits from the Death River Sect before letting them leave.

How come with them, they agreed so readily?

Moreover, for such matters, there should also be some benefits sought.

The Extreme Formation Sect Hierarch was puzzled and actively opened his mouth and said, "Oh? This must be the Sect Leader of the Hundred Peaks Sect?"

Seeing the other party nod, he continued, "That the Hundred Peaks Sect Leader could agree, we are naturally pleased, but this Sect Leader is also a bit puzzled, how did the Hundred Peaks Sect Leader agree so readily?"

Chapter 1957:

Earlier, the Hundred Peaks Sect Leader asked the Death River Sect for quite a few benefits before letting them leave?"

Cao Zhen listened to the Extreme Formation Sect Leader's words and looked at him with some surprise. He felt that this Extreme Formation Sect Leader was also an oddity. Others didn't ask for benefits, but who would actively suggest not taking benefits? Doesn't this give others the opportunity to ask for benefits?

"So, do you find it strange that I didn't ask for benefits from you?" Cao Zhen gently shook his head, but a righteous expression appeared on his face as he said, "If it were under different circumstances, I would naturally ask you for benefits.

But now, humans are in such a state; everyone should use their efforts to fight the enemy together. You left the Central Continent because your mountain gate was under attack, and before that, you even helped us in the Eastern Province defend against the attacks of the six alien races.

How could I seize this opportunity to demand benefits from you? If I did, could I still be considered human?

I'm not a great person, but at least I know I am human, and at this time, all humans should unite as one!"

The Extreme Formation Sect Leader was moved by the sincere words. Initially, seeing the other asking for treasures from the Death River Sect, he thought Cao Zhen was someone who selfishly pursued only his own interests. Now he realized how wrong he was!

The other said he wasn't a great person, but isn't this already greatness?

He nodded in agreement, "That's right, whether demonic cultivators or cultivators, mortal or cultivator, we are all human, and at this time, we should unite as one!"

"Mm." Cao Zhen suddenly remembered something and said, "Of course, if it's those from the 'Xiao Ri Zi', no matter how miserable they are, I will not help them or let them enter our Great Teaching."

The Extreme Formation Sect Leader showed visible confusion and asked, "Xiao Ri Zi? What is that?"

Cao Zhen thought for a moment and explained, "Xiao Ri Zi refers to a group of extremely shameless people, just as shameless as the Death River Sect!"

"As shameless as the Death River Sect? Then indeed, they cannot be helped. Even the people of the Death River Sect are thinking of seizing others' mountain gates at this time; they can no longer be considered human! Those Xiao Ri Zi you mentioned are the same!" The Extreme Formation Sect Leader nodded in agreement.

Beside him, Immortal Lord Jue Zhen saw his Sect Leader getting along with Cao Zhen more and more but didn't bring up entering the mountain gate, so he had to remind him, "Sect Leader, should we first settle into the Hundred Peaks Sect? With so many people in our Great Teaching, entering the Hundred Peaks Sect isn't as simple as just settling down."

"That's true." The Extreme Formation Sect Leader was also reminded and looked at Cao Zhen, asking, "Hundred Peaks Sect Leader, we..."

"Please come in."

As Cao Zhen's words fell, the mountain gate of the Hundred Peaks Sect opened. In fact, nowadays, whether the gate of the Hundred Peaks Sect was open or closed made little difference. The formations at the gate could barely stop those in the Earth Immortal Realm, and those in the Immortality Regainment Realm found it difficult, let alone those in the True Immortal Realm.

The Extreme Formation Sect Leader did not immediately fly into the Hundred Peaks Sect but looked at Cao Zhen and asked, "I wonder how much understanding the Hundred Peaks Sect Leader has of the Human World of your Guardian Immortal Imperial Dynasty?"

"Hmm?" Cao Zhen looked at the Extreme Formation Sect Leader with some surprise and asked, "I used to understand it quite well, but now not so much. Why does the Extreme Formation Sect Leader suddenly ask about the mundane people?"

"It's like this. We didn't come alone; we also brought many ordinary people with us. After all, if we all left, they could later be slaughtered by the six alien races. Being unable to bear this, we brought as many ordinary people as we could. They fly slowly and should still be behind.

Now that we are going to enter your mountain gate of the Hundred Peaks Sect, I would like them to stay nearby as well."

"There are also ordinary people." Cao Zhen gave Immortal Lord Jue Zhen a deep look. Earlier, he already felt that Immortal Lord Jue Zhen was a person of relative benevolence. It now appears that the Extreme Formation Sect is even more kind-hearted than he had anticipated.

Most cultivators would not care about the lives or deaths of ordinary people.

With such a disposition in its leader, after the Extreme Formation Sect enters the Hundred Peaks Sect, the two Great Teachings should be able to get along better.

Before he could speak, from afar, the Grand Preceptor, hearing their conversation, looked at the Extreme Formation Sect Leader with a noticeably softer gaze and flew over to speak, "I am the Grand Preceptor of the Guardian Immortal Imperial Dynasty. Leave the ordinary people you brought to me, and I will arrange them in appropriate places.

However, there is one point that I must clarify: while they are in our Guardian Immortal Imperial Dynasty, they will be our subjects, and we will not discriminate against or exclude them.

But, they must also obey the laws of our Guardian Immortal Imperial Dynasty, and if they break the laws, they will be punished just the same.”

The Grand Preceptor paused briefly, then looked at the Extreme Formation Sect Leader and the four True Immortals behind him and said, “This is not just for ordinary people; the cultivators in the Guardian Immortal Imperial Dynasty, too, must obey the laws of the Guardian Immortal Imperial Dynasty as long as they are within it.”

“All must obey the laws of your Guardian Immortal Imperial Dynasty?” Behind him, Immortal Lord Jue Zhen showed a doubtful expression.

“Junior Sister.” Upon hearing this, the Extreme Formation Sect Leader raised a hand to stop Immortal Lord Jue Zhen and said, “Alright, since we’ve come here, we will naturally obey the local laws.

Chapter 1958:

“As for the mortals, we’ll trouble the Grand Preceptor with them.”

Previously, he had always believed that the person in front of him was from the Hundred Peaks Sect, only to now realize that the other party was actually the Grand Preceptor of the Guardian Immortal Imperial Dynasty.

Having the Grand Preceptor of this dynasty personally allocate the mortals was naturally better.

After all, the number of those mortals was indeed too many; it was certainly not possible to place them all in one location, and they needed to be distributed and arranged.

At the same time, they had to be given farmland and be easy to manage. Arranging mortals was actually far more troublesome than arranging cultivators.

In no time, the Grand Preceptor took a portion of the Hundred Peaks Sect and True Immortal Realm people and flew away from this place to arrange those mortals.

After all, those mortals were all within the flying boats, and with only the Grand Preceptor alone, he could not possibly manage so many flying boats; it had to be left to the people of the Extreme Formation Sect to continue piloting the flying boats, while the people of the Hundred Peaks Sect were sent by Cao Zhen to assist.

Upon seeing the arrangement of the mortals, the Sect Hierarchy of the Extreme Formation Sect then followed Cao Zhen, flying together towards the Hundred Peaks Sect, glancing at the mountain gates of the Hundred Peaks Sect along the way, almost subconsciously shaking his head. The mountain gates were truly inferior, not to mention one for a great teaching, even as a sect's mountain gate it was not enough, especially that great formation, that great formation had...

Hmm? What kind of formation is this? What structure is this?

The Sect Hierarchy of the Extreme Formation Sect suddenly stopped and landed in front of the great formation of the Hundred Peaks Sect, gazing at the great formation below with gleaming eyes, appraising it as he muttered to himself: "This great formation is interesting. Although the formation is not particularly strong, the construction thought of the formation is unique. It could actually be like this; is this the formation style of your Eastern Province?"

It seems to be two great formations forcibly merged together. The styles of the two formations are so different, yet they can merge together? Who laid out this formation..."

The Sect Hierarchy of the Extreme Formation Sect looked at the formation in front of him with an enraptured expression.

Cao Zhen glanced at the Sect Hierarchy and then toward the fleet of flying boats blocking the mountain gate of the Hundred Peaks Sect, feeling utterly helpless. He couldn't help but remind: "Sect Hierarchy of the Extreme Formation Sect, shouldn't we go in first? Look, so many people are blocked at the back, and it would be troublesome if the security comes to chase them away later."

The Sect Hierarchy of the Extreme Formation Sect looked up at Cao Zhen in confusion: "What is security?"

“It’s... a term in our hometown; generally they maintain order in places like subways and airports. It’s hard to explain quickly, Sect Hierarch, shall we go in first? We can look at this formation later.”

Seeing the fleet of flying boats behind him, the Sect Hierarch of the Extreme Formation Sect finally nodded, descending from the mountain gate of the Hundred Peaks, followed by people from the Extreme Formation Sect entering the mountain gate one by one.

Previously, nearly all the people from the Extreme Formation Sect were inside the flying boats, so their precise number was not apparent. Now, as everyone flew down from the flying boats, Cao Zhen realized the people from the Extreme Formation Sect were indeed numerous, at least twice their number.

Furthermore, among the crowd, there was an elderly woman who was clearly being supported, looking quite esteemed.

The Immortal Lord Xi Mu glanced at the elderly woman and secretly transmitted a sound to Cao Zhen, reminding: “Sect Hierarch, they don’t just have five True Immortal Realm individuals, but six. Did you see that elderly woman being supported? That elderly woman is also a True Immortal Realm existence.”

Upon hearing this, Cao Zhen glanced in the direction of the elderly woman, not finding it surprising. As a great teaching, they naturally wouldn’t display all their strength, having no intention of engaging in conflict with other forces.

The elderly woman looked so aged, likely a Grand Elder or Supreme Elder-like figure.

Although previously the Sect Hierarch of the Extreme Formation Sect had said they only required the Hundred Peaks Sect to allocate part of the territory to them, the number of their people was too great, making it impossible to allocate just a small portion.

Beside the rear mountains of the original Ten Thousand Immortals Sect, Cao Zhen allocated a large area for the Extreme Formation Sect.

Soon, within the Hundred Peaks Sect, towering mountains rose from the ground.

The people of the Extreme Formation Sect had moved many of their peaks and even the cave mansions on the peaks.

Naturally, they could not possibly transport all of their peaks and cave mansions of the Extreme Formation Sect completely.

They still had to employ spells to gather soil into mountains.

After everything was finally arranged, one disciple after another from the Extreme Formation Sect entered the towering mountains.

The arrangement of these disciples was naturally managed by the Vice Sect Hierarchy, who was specifically responsible for the great teaching's affairs, considering that the Sect Hierarchy needed to cultivate and couldn't be affected by internal matters.

The Sect Hierarchy of the Extreme Formation Sect, together with four other True Immortal Realm individuals and the elderly woman, entered the conference hall that had been rearranged.

As the doors of the conference hall closed, an elderly and hoarse voice resonated.

"The Hundred Peaks Sect has great fortune!"

Everyone turned back, looking at the speaking elderly woman with surprise. Their Supreme Elder usually remained silent, mostly listening to them express their opinions unless the Supreme Elder truly could not overlook it, then they would speak.

Now, before anyone spoke, the Supreme Elder had directly started speaking, which was too peculiar.

"Supreme Elder, what do you mean?" Everyone's gazes landed instantly on the Supreme Elder.

The Supreme Elder slowly shuffled to her seat and sat down, speaking slowly: “Firstly, the spiritual energy in the Hundred Peaks is too abundant. This is the Eastern Province, and to my knowledge, this place is quite a barren land within the Eastern Province, known as the Eastern Wasteland.

Chapter 1959:

The spiritual energy of the Central Continent Sect is more abundant compared to the Eastern Province Grand Sect, and the spiritual energy of the Eastern Province Grand Sect is even more abundant than that of the Eastern Wasteland Sect.

However, the spiritual energy here is not any weaker than that of our Extreme Formation Sect. The Heavenly Dao would never allow a grand sect’s spiritual energy to be so abundant.”

“And then?” Immortal Lord Jue Zhen asked with concern, as she was the closest to the Supreme Elder among the group.

“Then? There is no ‘then’!”

“No ‘then’? Immortal Lord Jue Zhen was taken aback.

“Isn’t this alone enough?” Supreme Elder Zheng glared fiercely at Immortal Lord Jue Zhen, then leaned back against the chair without speaking further.

“Ahem...” Seeing that everyone fell silent, the Sect Hierarchy of Extreme Formation coughed and spoke, “Everyone, although the Hundred Peaks Sect hasn’t asked us for any benefits, I feel somewhat uneasy about this.

After all, we entered their grand sect, and with so many of us cultivating, their sect’s disciples will be affected when they absorb spiritual energy.

As for other impacts, they need not be mentioned more, so I think we should compensate them. Should we offer them some resources?”

“Give resources? Absolutely not!” Among the five, the rotund, middle-aged man with ruddy cheeks immediately shook his head upon hearing this, “Brother, you saw how resentful those people at the Hundred Peaks Sect were. When they ask others for resources, they take all the herbs from the treasury.

If we proactively approach them saying we’ll give them resources, how can they not make exorbitant demands? I even feel they intentionally say they need benefits, and then wait for us to feel embarrassed and proactively offer them benefits, so they can ask for something harsh again.

If we have already offered benefits, how could we refuse when others make a request? So the best approach is to give them nothing at all.”

“This is unsuitable.” Among the five, a cultivator with a folding fan gently opened the fan and spoke while fanning, “We should show some gesture at least, but we need not give them resources. Our Extreme Formation Sect excels in formations; we could help them set up a great formation.

First, the Mountain Protection Array must be properly arranged, as we don’t know how long we’ll be staying here.

This Hundred Peaks Sect cannot be hidden away, which is truly unsuitable. Moreover, no one knows when the six alien races will attack the Eastern Wasteland, or invade us here.

Nor do we know when we might encounter attacks from other forces, so it’s necessary for us to arrange the Mountain Protection Array. This should not raise any objection, should it?”

“Xuan Zhen’s reasoning is sound.” The plump cultivator nodded quickly, analyzing, “This results in a win-win situation; we are safer, and naturally, so is the Hundred Peaks Sect.

Moreover, when the day comes for us to leave and we dismantle the formation, it would be impossible to remove all the resources used for the formations; some will remain, which would then be left for the Hundred Peaks Sect. Thus, it counts as resources we’ve gifted them.”

Xuan Zhen nodded slightly and continued, “But only having the Mountain Protection Array isn’t sufficient; we should arrange more formations in the Hundred Peaks Sect. Especially the Spirit Gathering Array, as the spiritual energy of the Hundred Peaks Sect is somewhat dispersed, flowing all over.

With the Spirit Gathering Array set up, the spiritual energy will concentrate more in the Hundred Peaks Sect; it benefits both us and the Hundred Peaks Sect in this manner.

We shouldn't need to do more beyond these, I presume?"

With that, he looked towards the Sect Hierarchy of Extreme Formation and the Supreme Elder.

Before the Sect Hierarchy could speak, the Supreme Elder opened his eyes and spoke softly, "Let it be this way."

Saying that, she stepped out of the Conference Hall, pausing slightly at the doorway to say solemnly, "Extreme Formation, Absolute-Formation, you two have been at your current realm for far too long.

This old woman doesn't have much time left; in the future, the Extreme Formation Sect will completely rely on you."

Inside the Conference Hall, everyone's expression instantly turned heavy. The strongest person among them wasn't the current Sect Hierarchy, Extreme Formation, but their Supreme Elder.

However, the Supreme Elder is very old. Even though she exists in the True Immortal Realm, she cannot have eternal life.

The Supreme Elder isn't so aged that she cannot fight, that as soon as she fights, it brings about the Five Decays of Heaven and Man, or the Heavenly Tribulation. But they also know that the Supreme Elder is nearing her limit.

If the Supreme Elder is no longer there, the Extreme Formation Sect would lack a truly top-tier combat strength, a presence at the Peak True Immortal Realm!

The Sect Hierarchy of Extreme Formation and Immortal Lord Jue Zhen exchanged a glance and immediately assured, "Sect Leader, we understand. After our sect stabilizes completely, we will enter closed-door cultivation and achieve our breakthroughs as soon as possible."

“Closed-door cultivation?” The Supreme Elder heard this, shook her head, and sighed, “If closed-door cultivation could make you breakthrough, you would have done so long ago. Have you not undergone numerous closed-door training sessions, even life-or-death ones before?”

I have said many times, the path of cultivation isn’t solely about shutting oneself away and cultivating; only then can one achieve breakthroughs. You need to immerse yourselves in the world of men.

Chapter 1960:

When our Extreme Formation Sect stabilizes and our Great Formation is set up, you two can go into the red dust to train.

Of course, you can start with the Hundred Peaks Sect first, seize the opportunity to understand the Hundred Peaks Sect and learn about other Great Teachings, this is also a form of training, and then you can enter the red dust. As for when to go, you can decide for yourselves.”

After the Supreme Elder finished speaking, he looked at the other three people. His gaze fell first upon the one who had the weakest presence among the five True Immortal realm cultivators; he seemed extremely ordinary, like a mortal, and had not spoken. Showing a trace of admiration on his face, he said: “Wu Zhen, you are the disciple of the former Sect Hierarchy. Among the five of you, you are the most steady person, I am reassured by you.”

Then she glanced at the somewhat obese cultivator and immediately her expression cooled, “Mistaken-Formation, I used to have high hopes for you, but you... look at yourself now, your two junior brothers have already surpassed you. Forget it, I don’t want to talk about you anymore.”

Mistaken-Formation seemed used to his elder’s attitude towards him, and no change in expression was visible on his face.

The Supreme Elder’s gaze then fell on the last person, Xuan Zhen.

Before the Supreme Elder could speak, Xuan Zhen sincerely declared: “Elder, I know, I too will go into the red dust to train like my senior brother and sister. Once our Extreme Formation Sect is stabilized...”

“Shut up! You’ve already gone into the red dust too much, from now on, I will personally supervise your closed cultivation!”

The Supreme Elder finished speaking, even rubbing both sides of her head. Although five True Immortal realm cultivators were born in the next generation, none of them were without concerns for him.

Actually, what she just said was not what she truly thought.

He just praised Wu Zhen and it reassures her, but there is one thing he did not say; she feels that among the five, Wu Zhen has the lowest potential.

Wu Zhen is a bit too obedient and well-behaved, and because of this, he lacks the sharpness he should have.

The Sect Hierarchy of Extreme Formation is too benevolent. Although his cultivation base is the strongest, barring her, his talent seems only slightly better than Wu Zhen’s.

Then there is Xuan Zhen, the youngest and liveliest of the group, already a True Immortal, yet lacking poise and maturity.

Next is Absolute-Formation.

In her view, Absolute-Formation and the former Mistaken-Formation are, apart from that one defected character, the highest in talent among the next generation of disciples.

Absolute-Formation has no issues with personality and dedication to cultivation.

However, the problem is that Absolute-Formation should be named Mistaken-Formation.

The strongest aspect of our Extreme Formation Sect, naturally, is formations, and the strongest formations are those predetermined Great Formations set up using terrain.

But Absolute-Formation thinks otherwise, believing that stationary Great Formations cannot be moved, and has devoted herself to studying Formation Maps.

Formation Maps are powerful, but ultimately they are just ancillary methods; how can they be regarded as the ultimate method for research!

If Absolute-Formation had studied the real Great Formation early on and followed the Righteous Path, Absolute-Formation would have broken through and formed the Eight Immortal Palaces long ago!

She lets Absolute-Formation walk more in the red dust to try and change her mind.

As for the remaining Mistaken-Formation, perhaps the one truly mistaken is not Mistaken-Formation himself, but his senior brother.

When Mistaken-Formation joined the Extreme Formation Sect, it was his senior brother who guided his cultivation. Mistaken-Formation most respected his senior brother.

Mistaken-Formation's senior brother was the most dazzling among his peers. All disciples of the same generation, whether the current Sect Hierarchy of Extreme Formation or Absolute-Formation, were firmly overshadowed by him.

Everyone believed he would ultimately succeed the leadership of the Extreme Formation Sect.

Yet no one expected he would defect from the sect!

Afterwards, Mistaken-Formation, although deeply affected, seemed influenced positively, relentlessly cultivating, perhaps in hopes of defeating his senior brother one day.

Then, when Mistaken-Formation went on an adventure, half a year later, he was found severely injured and thrown outside the Extreme Formation Sect.

Once Mistaken-Formation's wounds healed, they learned that the one who severely injured Mistaken-Formation and tossed him back was his defected senior brother.

But when asked why the person severely injured Mistaken-Formation, Mistaken-Formation chose not to utter a word.

Even though Mistaken-Formation was severely injured that time, it was clear that, considering past affections, the defected man had held back, causing no internal injuries to Mistaken-Formation.

However, Mistaken-Formation's spirit was wounded, and from then on, he spiraled downward, and when the Minor Era of Inversion of Heaven and Earth came after a millennium.

If not for that day when his senior brother defected, Mistaken-Formation would not have ended up like today.

And she cannot understand why Mistaken-Formation's senior brother defected since, without defection, he was destined to succeed the leadership of the Extreme Formation Sect!

After the Supreme Elder left, the Sect Hierarchy of Extreme Formation soon followed, seeking the people of the Hundred Peaks Sect. Although arranging a Great Formation benefits them both, it is, after all, the mountain gate of the Hundred Peaks Sect, and they must seek the consent of the Hundred Peaks Sect's members.
