

My Master 2011

Chapter 2011:

Cao Zhen suddenly realized he had said a bit too much, and even his persona was at risk of collapsing.

What is his persona?

It is someone without prejudice, wholeheartedly considering the world, a reincarnated Great Ability with a grand vision.

But now, he had actually caused these people, including even Immortal Lord Jue Zhen, who recognized him as a Pathfinder, to get injured and spit blood.

This is completely inconsistent with his persona.

It's mainly also the fault of these people; who would have thought, with just a few words from him, they could listen until they spat blood.

Also, as cultivators, look at the Grand Preceptor, after hearing his words, the Grand Preceptor resonated with Heaven and Earth and gained a level.

At that time, the Grand Preceptor was only at the Immortality Regainment Realm.

Cao Zhen sighed helplessly in his heart, it seemed he needed to fix things.

He purposely looked at everyone, shook his head, sighed, and said, "This is your greed, upon hearing my words, you went to seek that new path, but when seeking a new path, you should have known you were still far away, yet you forced yourself to seek this path, of course you would be retaliated.

However, this time, it won't cause you serious injuries, this minor lesson is good for you, in case of encountering greater fortune later, remember to act within your means.

From now on, forget what I said to you until you have the strength to touch those things; then, you will naturally understand.”

Everyone was completely convinced that Cao Zhen was a reincarnated Daluo Golden Immortal, and after hearing his words, they all bowed to him.

“Yes, we have been taught.”

They somewhat understood that Sect Leader Cao had said those things intentionally, just to teach them a lesson.

After speaking, Cao Zhen turned to look at the Sect Guardian Beast of the Beast Taming Sect and said, “I am only in the Immortality Regainment Realm now, and naturally far from cutting off the three corpses, and the path I take is different from cutting off the three corpses, which is about cutting off one’s own attachments, while I am on a different path aiming to increase the various obsessions on myself.

Forget it, if I keep talking, not to mention them, even you might go insane.”

Cao Zhen really didn’t know how to make it up anymore, so he casually found an excuse to stop talking.

Although just a few simple words, the Sect Guardian Beast’s heart was in turmoil, just what did this person say!

Increasing obsessions, and he compared it to cutting off the three corpses, could it be that he wants to walk a completely different fourth path to sainthood in this life?

What kind of person can walk such a path?

Only those who have already touched the path to sainthood, even those who have walked far on that path, would take a new path to sainthood.

This Hundred Peaks Sect Leader in front must be a particularly strong presence even among the Daluo Golden Immortals.

He nodded repeatedly and said, "Yes, I understand. Senior, previously I misunderstood you, and I ask for your forgiveness."

"No problem." Cao Zhen waved his hand graciously, but inwardly he was secretly worried, thinking, don't put me on such a high pedestal, if you do, how am I to ask the Beast Taming Sect for benefits, how am I supposed to ask for the Strange Beasts!

Originally, I planned to make a deal with the Beast Taming Sect, to help the Beast Taming Sect solve your problem, and then let the Beast Taming Sect pay some consultation fee or something.

But now, asking for a consultation fee doesn't seem appropriate anymore.

It's troublesome, really troublesome!

Forget it, let's take one step at a time, no matter what, let's solve the problem of this Sect Guardian Beast first.

He looked at the Sect Guardian Beast and said, "And as for your problem, forget it, I can't discern much here, let's go, first to the back mountain, let me see where you live."

Now that this Sect Guardian Beast was addressing him as a junior, it was certainly impossible for it to randomly attack him again. Naturally, he had nothing to fear anymore.

"Yes, please, Senior."

The Sect Guardian Beast promptly turned around and flew towards the direction of the back mountain.

The Beast Taming Sect Leader and the Supreme Elder exchanged glances and quickly followed; they did not expect the situation to develop to this point, as it was clear that the Daluo Golden Immortal's

presence was much more terrifying than they had anticipated; otherwise, the Sect Guardian Beast would not be so respectful.

As for following, they weren't worried about the Sect Guardian Beast going crazy and attacking the Hundred Peaks Sect Leader; the Sect Guardian Beast was already in such awe and couldn't possibly attack the Hundred Peaks Sect Leader. They were purely curious and wanted to see how the Hundred Peaks Sect Leader would treat the Sect Guardian Beast.

In the back, everyone saw that the Sect Leader and Supreme Elder had flown to the back mountain and hurriedly followed; they were also curious about how the Hundred Peaks Sect Leader, this reincarnated Great Ability of a Daluo Golden Immortal, would demonstrate his methods.

Jue Zhen naturally followed as well.

On the other hand, Star Lord Hao Yue and others did not follow; after all, it was the back mountain of the Beast Taming Sect, and they couldn't possibly allow them to go there. As for Immortal Lord Jue Zhen, he recognized Cao Zhen as his Pathfinder and could be considered half a Disciple of Cao Zhen's, so the Beast Taming Sect people naturally wouldn't stop her.

Soon, everyone entered the back mountain, and Cao Zhen looked around at the destroyed land and the half-collapsed mountain peak, clicking his tongue secretly, clearly, the Sect Guardian Beast had truly gone mad before.

Finally, his gaze fell on the Sect Guardian Beast, and he said in a low voice, "Alright, you can transform back."

Until now, he still didn't know what kind of Strange Beast the Beast Taming Sect's Sect Guardian Beast was.

Moreover, if he really wanted to treat the other party, he needed to know what type of Strange Beast it was to apply the right medicine.

Chapter 2012:

The Sect Guardian Beast heard the sound and instantly retreated a certain distance, and the next moment, he transformed into a gigantic ferocious ape Beast.

Its body was enormous, like a mountain, with a white head and red feet, and a face that resembled a human's.

Zhu Yan.

The Sect Guardian Beast of the Beast Taming Sect turned out to be a Zhu Yan.

Zhu Yan does not signify a particularly auspicious Saint Beast, but rather represents a disaster of military aggression.

Cao Zhen glanced at the Zhu Yan and then looked around, nodding directly, saying, "That's correct."

He spoke, turning around to blame the Beast Taming Sect Leader and Supreme Elder: "This matter, it's no wonder he's irritable and quick to anger; it's all your fault.

It is Zhu Yan, but look at this back mountain where you are now; is this the environment it likes?

You've even created a water flow... The water flow itself isn't a problem, but it's too narrow; seeing such a narrow stream naturally makes it feel uncomfortable. Enlarge this stream and also change the flow direction to east-west.

Of course, the stream is just a minor issue; the key problem is the mountain in front of us."

Cao Zhen pointed at the half-destroyed mountain and said, "Do you see this mountain? It's obvious that it has attacked this mountain multiple times because it instinctively finds it detestable.

Perhaps because this is your Beast Taming Sect, it suppresses its nature and doesn't destroy the mountain. But you, haven't you thought about leveling this mountain?"

Cao Zhen spoke, then turned to the Sect Guardian Beast and asked, "I see, this mountain has been half-destroyed; tell me, did destroying half of the mountain make you feel much better instantly?"

The Sect Guardian Beast heard the sound and nodded continuously: "Indeed, after destroying half of the mountain, I felt much, much better."

Not far away, the Beast Taming Sect Leader immediately glanced at the Supreme Elder, as half of the mountain was broken by the Sect Guardian Beast knocking the Supreme Elder away.

No wonder, the Sect Guardian Beast calmed down at the time; it turned out it wasn't because he vented his anger by attacking the Supreme Elder, but because the mountain was half-destroyed.

Cao Zhen continued: "Although these are minor issues, when accumulated, they can affect one's mood. If it were a normal Strange Beast, it wouldn't be greatly affected, but if you've lost someone you have a deep bond with and face solitude for years, you will naturally be deeply affected.

Also, the soil quality in these places isn't suitable; you don't like the soil here, and it needs to be adjusted. Then later..."

Cao Zhen glanced at the Sect Guardian Beast and said, "You are too calm now; I need to see you angry. When you get angry, I'll take another look and help you adjust."

"This..." The Sect Guardian Beast showed a hesitant expression, looking timidly, "Senior, with you here, no, I should say as long as you are in this Great Teaching, I dare not get angry... I... may not be able to fall into the agitated state as before."

As it spoke, Luo Xi's expression changed among the surrounding Chinese people, surprised that the Daluo Golden Immortal could be so terrifying?

The Sect Guardian Beast is equivalent to a half-step Golden Immortal, and while the Hundred Peaks Sect Leader in his previous life was a Daluo Golden Immortal, now he is just an Immortality Regainment Realm, yet the Sect Guardian Beast suppresses itself and does not dare to enter that agitated state.

“You... forget it, for now, this will do. Let me adjust you a bit, and soon I will leave the Eastern Wilderness Sect and go to other places. When I return, I’ll pass through your Eastern Wilderness Sect again and see you to thoroughly cure this.”

Under Cao Zhen’s direction, people quickly began adjusting the surrounding environment, but these were minor issues; more importantly, the soil needed adjusting, which was slightly more troublesome and required time.

Cao Zhen spent a day completing everything, and the rest required the Beast Taming Sect’s people to make timely adjustments.

Later, he taught the Beast Taming Sect people how to handle the waste from Strange Beasts.

The Beast Taming Sect Leader finally understood why the people of the Eastern Wilderness Sect respected the Hundred Peaks Sect Leader so much.

Like now, the Hundred Peaks Sect Leader helped them adjust their Sect Guardian Beast and solved a major problem for the Beast Taming Sect, without mentioning any conditions.

He sighed deeply in his heart, as he bowed to Cao Zhen, “Hundred Peaks Sect Leader, we really don’t know how to thank you for everything you’ve done. We in the Beast Taming Sect will surely remember this kindness, and wherever our Beast Taming Sect is needed in the future, we will go through fire and water without hesitation.”

“No need for that.” Cao Zhen waved his hand indifferently, feeling helpless inside, thinking, don’t just talk nicely, why don’t you give something practical?

You still won’t say, will you? Fine, I’ll say it myself.

After thinking a bit, Cao Zhen casually said, “By the way, I have a Little Silver Dragon on our Four Treasures Peak. But it feels a bit lonely; I wonder if you have any suitable Strange Beast for me to take back as a companion for the Little Silver Dragon.”

I'm not asking for favors; I'm just finding a companion for the pet I raise, so it won't feel so lonely.

When the surrounding people heard this, they couldn't help but sigh gently, truly worthy of the reincarnation of a Daluo Golden Immortal, raising Strange Beasts directly to raising Dragons.

Chapter 2013:

Dragons are extremely rare.

Apart from certain special Great Teachings, which forces can rear dragons!

However, their Beast Taming Sect also rears dragons, although not in great numbers, fewer than ten.

Of course, if Sect Leader Cao needs them, they can send a dragon his way.

After all, Sect Leader Cao has helped them so much, what's the harm in sending one over.

The Beast Taming Sect Leader heard this and quickly asked, "Hundred Peaks Sect Leader, do you know the cultivation realm of the dragon you're rearing now?"

"That little dragon is now equivalent to the Peak Earthly Immortal Realm, a bit of time away from the Immortality Regainment Realm."

He has also been refining various pills for the little dragon, after all, those resources were provided by Bi Yue, not costing the Hundred Peaks Sect any money. However, the little dragon can't break through to the Immortality Regainment Realm in the short term unless he can refine a special pill for it again.

But the resources needed for such a pill aren't ordinary, and the resources from Bi Yue aren't enough for refining it.

"Peak Earthly Immortal Realm?"

The Beast Taming Sect Leader furrowed his brow and said somewhat helplessly, “Hundred Peaks Sect Leader, truth be told, our Beast Taming Sect also has dragons, but five of those already have owners, which makes it difficult to separate them.

The remaining four are little dragons without owners. However, the strongest of those little dragons is only at the Golden Core Stage Peak, still some distance from the Peak Earthly Immortal Realm.”

“Golden Core Stage Peak, doesn’t matter.” Cao Zhen was secretly delighted. The Beast Taming Sect actually still has dragons; what’s there to hesitate about? If there are dragons, he will definitely choose a dragon.

Back then, he had made an agreement with the people of the Dragon Chant Sect, or rather with Bi Yue, that once Little Silver Dragon was treated, the little dragon would be returned.

But now, he’s already decided to renege on the promise.

He had painstakingly raised the little dragon this big, and the little dragon had always stayed on the Four Treasures Peak, forming bonds with him and the disciples of Four Treasures Peak. He didn’t want the little dragon to go back.

Not letting the little dragon return presents a problem. There is only one little dragon, and how would it reproduce? He’s going to default, and even if Bi Yue later asked her to select another little dragon from the Dragon Chant Sect, those dragons wouldn’t likely agree.

But now, the people from the Beast Taming Sect have directly solved this problem.

Or rather, they haven’t really solved the problem yet, there’s still the matter of the little dragon’s gender.

Cao Zhen realized the key to the issue and asked, “By the way, the dragon you mentioned that’s at the Golden Core Stage Peak, is it male or female?”

If it's male, that won't do. It must be a female little dragon for the Hundred Peaks Sect to produce more little dragons. Besides, Little Silver Dragon prefers female little dragons. If a little brother dragon were to come, wouldn't it be castrated by Little Silver Dragon on the same day?

According to Little Silver Dragon, Four Treasures Peak does not allow any male animals other than humans, or they will be castrated.

The Beast Taming Sect Leader was momentarily stunned at this. Do they need to differentiate males from females? His heart was slightly doubtful, but he still answered, "That one is a male dragon, all of our little dragons are male."

"All male?" Cao Zhen regretfully shook his head, "If they're male dragons, never mind."

The crowd looked at Cao Zhen's expression and suddenly realized, so the Hundred Peaks Sect Leader wants to find a companion for his little dragon, not a partner, but a mate.

Someone whispered, "Hundred Peaks Sect Leader, we don't have any female dragons in the Beast Taming Sect, but we do have plenty of other female strange beasts. Would that do?"

"That works too." Cao Zhen nodded slightly. As long as it's female, of course, it should also be a powerful and rare strange beast. He thought, for such a large sect as the Beast Taming Sect, they shouldn't bring out ordinary strange beasts.

The crowd heard this and immediately began making recommendations.

"We have a Yellow-headed Falcon here, a strange beast at the Peak Earthly Immortal Realm, and it possesses the Legendary Birdfish Bloodline."

"The Yellow-headed Falcon is indeed rare, but still not quite suitable for a dragon. I think Jiu Yin would be a better choice."

"Jiu Yin? No way, still..."

The crowd was discussing, when suddenly, from a distance, came a piercing screeching sound, sharp enough to give one the creeps.

Upon hearing this, Cao Zhen immediately looked toward the direction the sound came from, and the next moment, the shadow of a flying snake appeared in his sight.

This flying snake was ten feet long, its body was yellow-green, and it appeared more like a dragon than a snake. On its forehead, it had a pair of horns, and most notably, a pair of wings on its back.

Ceiling Snake!

Cao Zhen's eyes widened suddenly, this was a Ceiling Snake among the Divine Ceiling Snakes!

The Beast Taming Sect has such a divine beast.

This Ceiling Snake was evidently in an unusual state, flying rapidly and making sharp wailing sounds, with two Cultivators of the Immortality Regainment Realm in hot pursuit.

Suddenly, the Ceiling Snake saw the assembled cultivators ahead, and suddenly panicked, the True Immortals of the Beast Taming Sect gathered here.

Run quickly!

It turned to fly away, but the next moment, a giant hand's Xu Ying suddenly materialized in the void, and with a star-plucking and moon-seizing motion, grabbed its body instantly, pulling it back.

In just an instant, it was captured back onto the ground.

The Beast Taming Sect Leader, with a cold face, looked at the Ceiling Snake and said in a cold voice, "Ceiling Snake, you've come out again! Where are you trying to go!"

Chapter 2014:

"I... I was just having a casual look, yes, just a casual look." Ceiling Snake twisted its body, secretly cursing its bad luck. It had barely managed to slip away, and before it got far, it ran into the Beast Taming Sect Leader, which meant it would be locked up again.

The Beast Taming Sect Leader's brow furrowed immediately, and he sternly said, "You should be resting and healing, what are you doing out here? Go back now!"

"Beast Taming Sect Leader." Cao Zhen looked at the Ceiling Snake and suddenly asked, "In its current state, it doesn't have a master, does it?"

Hearing this, the Ceiling Snake turned to look at the unfamiliar human in front of it, eyes filled with a trace of confusion. This was just a guy from the Immortality Regainment Realm, and judging by the aura, he had just entered that realm, a far cry from itself.

Yet this human could speak to the Beast Taming Sect Leader with such equality, what was this guy's identity? By the looks of his clothing, he clearly wasn't from the Beast Taming Sect.

The Beast Taming Sect Leader nodded immediately when he heard this, "Indeed, it hasn't found a master yet."

"In that case, Beast Taming Sect Leader, why not give it to me?" Cao Zhen pointed at the Ceiling Snake with a cheerful expression. He could naturally tell that this was a female Ceiling Snake.

"This..." The Beast Taming Sect Leader showed a look of difficulty on his face. If it had been another strange beast, he would have agreed directly, but this was a Ceiling Snake!

They were fortunate to have caught such a Ceiling Snake.

But the problem is, not giving it to Sect Leader Cao?

Sect Leader Cao had helped them heal the Sect Guardian Beast and solved a major problem. He had just said he would go through fire and water for them, and now, when Sect Leader Cao wanted a strange beast, he would refuse immediately, what would that be?

Moreover, Sect Leader Cao was a reincarnated Daluo Golden Immortal.

Forget it.

The Beast Taming Sect Leader sighed inwardly and nodded, "Since Sect Leader Cao asked, we naturally have no reason to refuse. However, this Ceiling Snake has some health issues.

It still needs a period of recuperation. It ran out before because it didn't want to recover in the medicine pool."

As he spoke, he suddenly remembered something and looked at Cao Zhen, lightly shaking his head, "However, with Sect Leader Cao's skills, healing it shouldn't be a problem."

The Ceiling Snake was utterly bewildered. It was a magnificent Ceiling Snake, and it knew how much the Beast Taming Sect valued it. Yet, the Sect Leader was going to give it away just because of this person's words!

Who was this person, to command such respect!

Moreover, this person was merely an existence from the Immortality Regainment Realm.

"Let me have a look." Cao Zhen walked up to the Ceiling Snake, and his immortal energy surged into its body. After it circulated once, he said, "There's no major problem. It's just that when it was young, it lacked nutrition, leaving a minor condition. Some rest will cure it. However, this minor ailment doesn't require it to soak in a medicine pool; giving it some pills and herbs will suffice.

Oh, you might not be able to concoct those herbs. Well, you should have all the herbs in the Beast Taming Sect, so I'll make them here.

It's just as well, those herbs can benefit many strange beasts. If you have someone skilled in alchemy, they could learn a bit on the side."

He intended to continue his journey across the world, and couldn't return to the Hundred Peaks Sect immediately, so the Ceiling Snake would have to stay in the Beast Taming Sect until he returned to take it with him.

Given that, he naturally needed to cure the Ceiling Snake's minor ailment first.

As for teaching the Beast Taming Sect people, since he was taking a Ceiling Snake from them, he should express some gratitude, right?

"Yes, yes, Hundred Peaks Sect Leader, whatever herbs you require, just name them." The Beast Taming Sect Leader was overjoyed upon hearing this. He had long heard that the Hundred Peaks Sect Leader excelled in alchemy, and now, knowing that Cao Zhen was the reincarnation of a Daluo Golden Immortal, he was even more looking forward to Cao Zhen's alchemical skills.

At the same time, he sighed inwardly at Cao Zhen's openness. This was alchemy, and Sect Leader Cao was willing to teach it to people from his great sect without reservation.

Previously, he had hesitated and even considered not giving the Ceiling Snake to Sect Leader Cao; compared to Cao Zhen's breadth of character, he really fell far short.

Cao Zhen stayed in the Beast Taming Sect for another three months, mainly because the Ceiling Snake, being an existence of the Immortality Regainment Realm, required a long time to concoct the pills needed to treat its childhood injuries.

A span of three months was fast enough, as anyone else would likely need at least five months.

During these three months, many people from the Beast Taming Sect came to Cao Zhen to seek advice on beast taming issues.

Initially, only Immortal Lord Xuan Gui sought guidance on how to heal strange beasts, seeing that Cao Zhen was adept at doing so.

As for others, while they also wanted to inquire, they knew that Cao Zhen, being the reincarnation of a Daluo Golden Immortal, was not someone to disturb easily.

Regarding Immortal Lord Xuan Gui, she and Immortal Lord Jue Zhen were close friends. Immortal Lord Jue Zhen was considered half a disciple of Cao Zhen's, so she felt that with this relationship, asking questions was not inappropriate.

While she was still inquiring, people from the Eastern Wilderness Sect came to Cao Zhen with all sorts of questions, and these questions ranged broadly, from asking the Sect Leader Cao about the Dao of Calligraphy, the Painting Way, the Path of Talisman, and even the Musical Rhythm.

Chapter 2015:

The thing that surprised her even more was that she discovered that there seemed to be nothing that Sect Leader Cao did not understand. Whether it was calligraphy, musical rhythm, or the painting way, he was proficient in all.

She was completely stunned. How many years had Sect Leader Cao lived in his past life to be able to understand so much?

Moreover, Sect Leader Cao dedicated himself to researching these Dao of Calligraphy, Painting Way, and Musical Rhythm. How much energy must he have expended!

If Sect Leader Cao spent all his energy on cultivation, would he achieve even higher accomplishments!

Even more terrifying was that while Sect Leader Cao instructed everyone, he did not delay his alchemy.

The people of the Beast Taming Sect found that not only did Cao Zhen not drive away those who came to seek advice, but he also guided everyone. They all came one after another to seek guidance from Cao Zhen.

Cao Zhen was delayed much longer than originally planned, only then leaving the Eastern Wilderness Sect and continuing his exploration.

After he broke through into the Earth Immortal Realm, he traversed the entire Guardian Immortal Imperial Dynasty, and now, upon seeing it again, he discovered that the changes in the Guardian Immortal Imperial Dynasty were truly immense.

The first point was that the population of the Guardian Immortal Imperial Dynasty had vastly increased, with some great teachings not only migrating themselves but also bringing along many ordinary people.

Fortunately, due to the presence of the Grand Preceptor, the Guardian Immortal Imperial Dynasty had been coordinating the settlement of these ordinary people from the Central Continent, thus avoiding chaos.

On the contrary, remote areas within the Guardian Immortal Imperial Dynasty had been developed due to the increase in labor, becoming increasingly prosperous.

After traversing the Guardian Immortal Imperial Dynasty, he then went to various other places in the Eastern Wasteland.

Compared to the Guardian Immortal Imperial Dynasty, the sects in the Eastern Wasteland, though not as worshipful or admiring of him, still gave him enough respect. Furthermore, by his side was Immortal Lord Jue Zhen.

In the Guardian Immortal Imperial Dynasty, many great teachings and sects from the Eastern Wasteland entered, and the Eastern Wasteland was no exception. However, compared to the Guardian Immortal Imperial Dynasty, the Eastern Wasteland was slightly more chaotic.

Most notably, the situation of ordinary people in the Eastern Wasteland was even more chaotic; he even saw large numbers of displaced people, and in some places, there were outbreaks of war.

Even though he traveled with Immortal Lord Jue Zhen and did not encounter any attacks along the way, even though he was now in the Immortality Regainment Realm, when he traversed every inch of land in the Eastern Wasteland and returned to the Hundred Peaks Sect, thirty years had passed.

Thirty years might not be considered long for a great teaching, but the changes in the Hundred Peaks Sect during those years were not insignificant.

Especially with the newly joined Ten Thousand Immortals Peak, which recruited many disciples. After all, Ten Thousand Immortals Peak had True Immortal Realm existences, and not just one, but two.

Immortal Yao Feng had broken through into the True Immortal Realm more than twenty years prior.

However, she only condensed one Immortal Palace.

Normally, when breaking through from the Immortality Regainment Realm into the True Immortal Realm, one condenses just one Immortal Palace. Cases like the Grand Preceptor condensing three Immortal Palaces at once are incredibly rare.

Additionally, Ten Thousand Immortals Peak had experts in the Immortality Regainment Realm, and their heritage was richer, naturally attracting many disciples to join.

Of course, not all disciples would join Ten Thousand Immortals Peak; some genius disciples preferred other peaks.

In fact, most genius disciples primarily chose to join Four Treasures Peak.

However, with Cao Zhen absent, Four Treasures Peak's other members were disinterested in recruiting disciples, and for years Four Treasures Peak had not recruited any new disciples, with Tang Xiaorui being the youngest.

Aside from Tang Xiaorui, all other disciples of Four Treasures Peak have broken through into the Immortality Regainment Realm.

After returning to Four Treasures Peak, Cao Zhen flew to the summit of Four Treasures Peak. Previously, when he painted the Prosperous Age Picture Record, it was done on the tallest mountain of the Guardian Immortal Imperial Dynasty. Now he chose Four Treasures Peak.

He had considered going to the tallest mountain in the Eastern Wasteland to paint, but when he painted the record in the Earth Immortal Realm, it attracted a heavenly phenomenon, even bringing down a heavenly tribulation.

This time, the scope of the Prosperous Age Picture Record was larger, and who knows what kind of heavenly phenomenon it might attract. If someone intended to harm him, relying only on Jue Zhen might not protect him fully, so he decided to return to the Hundred Peaks Sect, where painting the record would be safer.

He concentrated his spirit, just about to take out the Prosperous Age Picture Record when suddenly the sky above his head darkened.

In the next moment, a beam of light soared from the direction of the Capital City, followed by the appearance of a figure in the void.

“Grand Preceptor?”

Cao Zhen looked in astonishment towards the Capital City’s direction, and the next moment, atop the Grand Preceptor’s head, a mountain peak, an Immortal Palace slowly formed.

This Immortal Palace appeared as if it encompassed the entire Capital City, and within the Immortal Palace, there was an obvious phenomenon with a virtual shadow.

A phenomenon Immortal Palace!

Given the terrifying nature of the Grand Preceptor, condensing a fourth Immortal Palace, a phenomenon Immortal Palace, was not surprising.

The truly terrifying aspect lay in that the Grand Preceptor astonishingly broke through once again!

At this moment, the entire Guardian Immortal Imperial Dynasty, the entire Eastern Wasteland, and even parts of the Eastern Province were witnessing the Grand Preceptor’s presence in the void.

For a time, virtually all cultivators' eyes were fixed on the Grand Preceptor in the void.

"He broke through again!"

"The Guardian Immortal Imperial Dynasty's Grand Preceptor, less than fifty years since the last breakthrough, and so quickly breaks through again?"

"His cultivation speed is astonishingly fast!"

"The terrifying part isn't that the fourth Immortal Palace he condenses is a phenomenon Immortal Palace, but rather the speed at which he condenses Immortal Palaces!"

Chapter 2016:

"Unbelievable, to think there are such extraordinary people in Eastern Province!"

Within the Hundred Peaks Sect, Immortal Lord Xi Mu stood atop the Ten Thousand Immortals Peak, gazing at a distant figure, filled with admiration.

"Such talent, I fear, even the True Immortal Realm isn't his limit; perhaps he can achieve Golden Immortal!"

As her words just fell, in the void, behind the Grand Preceptor, another fifth Immortal Palace was condensed atop the Immortal Mountain!

For a moment, she was completely stunned.

Not only her, at this time, all the cultivators watching the Grand Preceptor from afar were equally dumbfounded.

"He's still condensing Immortal Palaces!"

“This time, he actually condensed two Immortal Palaces at once!”

“He first broke through condensing three Immortal Palaces, the second time he condenses two Immortal Palaces; in just two times, he has condensed five Immortal Palaces!”

“What kind of talent is this, suitable for what kind of figure!”

“There has never been such a terrifying prodigy in the history of Central Continent!”

“How can this Grand Preceptor be so terrifying!”

“Do you think there’s a chance the Grand Preceptor of the Guardian Immortal Imperial Dynasty could also be a reincarnated being?” On the back mountain of the Extreme Formation Sect, numerous True Immortal Realm existences gathered, watching the distant Grand Preceptor, suddenly Xu Ying spoke out his speculation.

Upon his words falling, the surrounding crowd fell silent for a moment, followed by a subtle nod from the Extreme Formation Sect Leader saying, “It’s not impossible; but as we know, the Guardian Immortal Imperial Dynasty already has four reincarnated beings, the Hundred Peaks Sect Leader, his disciple Venerable Ruo Yun, Eastern Wilderness Sect’s Hao Yue, and Feng Fu. Another reincarnated being wouldn’t be surprising.”

“If he is a reincarnated being, that’s fine.” Mistaken-Formation suddenly spoke, his voice solemn, “If he is not, then it’s truly terrifying!”

His words fell, the crowd was slightly stunned, but quickly reacted strongly.

“He is so impressive, he should be a reincarnated being!”

“Yes, if he is not a reincarnated being, and merely relying on this life’s cultivation, reaching this level, that’s truly beyond ordinary terror.

Two breakthroughs, every time condensing unique phenomena Immortal Palaces, each time condensing more than one Immortal Palace, and both breakthroughs in such a short time.

I even feel that this person will surely break through into the Golden Immortal Realm!”

Under those awestruck gazes, the Grand Preceptor’s figure finally slowly dissipated within the void, and at this point, everyone heavily sighed with relief.

Imagine if the Grand Preceptor once again condensed three unique phenomena Immortal Palaces like last time! They would truly question life.

“This Grand Preceptor, truly is the Grand Preceptor! His talent is terrifying.”

Cao Zhen staring at the vanished figure of the Grand Preceptor, was filled with amazement too, despite possessing China Cloud himself, he felt the Grand Preceptor’s cultivation breakthrough speed was faster than his!

“However, the stronger the Grand Preceptor gets, the better. I should be able to connect into people’s minds later, directly connecting to the Grand Preceptor...”

Thinking of this, Cao Cao couldn’t help but beam with a dazzling smile; connecting with the Grand Preceptor, just thinking about it is alluring.

With the disappearance of the Grand Preceptor’s shadow, the phenomena between heaven and earth also dispersed, Cao Zhen collected his thoughts, brought out the Prosperous Age Pen, and the Prosperous Age Picture Record, recalling everything he had seen over thirty years, focused, and began drawing on the Prosperous Age Picture Record.

He did not immediately draw on the blank areas but raised his brush first to modify his previous paintings as much as possible.

After all, the sects within the Guardian Immortal Imperial Dynasty have changed significantly, like the Hundred Peaks Sect now having the Ten Thousand Immortals Peak, plus the Extreme Formation Sect, he must include all these changes in his painting.

What's drawn cannot be erased, he could only modify, add as much as possible.

Fortunately, when he painted initially, he considered major sect changes and reserved space for later modifications, although he didn't expect changes to be so grand.

Luckily, his Painting Way skill is high enough; otherwise, he could not perfectly amend it.

Gradually, sects on the Prosperous Age Picture Record began to expand and become more magnificent.

And as grand sects from Central Continent appeared on the Prosperous Age Picture Record, Cao Zhen noticeably felt the power of the Prosperous Age Picture Record rapidly increased.

"Hmm? No, though the Prosperous Age Picture Record's power elevated quickly, considering these are grand sects, I ponder over how many grand sects have come to our Guardian Immortal Imperial Dynasty, to Eastern Wasteland.

Back when only our Hundred Peaks Sect was becoming a grand sect, the Prosperous Age Picture Record grew so much, with so many grand sects present, it should elevate even more."

Cao Zhen observed the sects with grand teachings he had painted, soon discovering the limited growth reason of the Prosperous Age Picture Record's power.

"These grand sects, their power provided to the Prosperous Age Picture Record, is far less than regular grand sects; they merely treat the Guardian Immortal Imperial Dynasty as a stopping place, not acknowledging it as their own grand sect, hence the limited power growth."

Despite temporarily staying within the Guardian Immortal Imperial Dynasty, these grand sects could elevate the power so much; imagine if they truly acknowledged the Guardian Immortal Imperial Dynasty

and Eastern Wasteland, intending to stay, how much power could be provided to the Prosperous Age Picture Record.

Cao Zhen mused, then gently shook his head; these thoughts were mere musings, it's impossible for him to make these grand sects fully embrace Eastern Wasteland, staying entirely.

Completing the Guardian Immortal Imperial Dynasty, he then resumed drawing around, quickly sketching mountains, rivers, deserts, swamps, plains, all earthly forms emerging vividly from the Prosperous Age Picture Record.

Gradually, the entire Eastern Wasteland surfaced on this record.

At the moment of finishing the final stroke, he felt an integration with the whole Eastern Wasteland; each inch of land, each person, regardless of offered power size, could provide him energy!

Meanwhile, the Era Prosperity Power within his body surged at an astonishing speed.

Previously, after completing the Guardian Immortal Imperial Dynasty on the Prosperous Age Picture Record, his cultivation base and surge speed had already been startling, yet this time his cultivation base surged even faster, enough to awe him.

Chapter 2017: The Soaring Immortal Mountain

The strength of Cao Zhen's Prosperous Age Picture Record depends on the prosperity and the extent of the prosperous age.

The larger the area covered by the prosperous age, naturally, it contains more population and various famous mountains and great rivers, there will be more cultivators, and his prosperous age will naturally be stronger,

Previously, his prosperous age had a tremendous breakthrough because the range of his prosperous age expanded from the Hundred Peaks Sect to the entire Zhenxian Dynasty.

This time, the change is similarly significant, from the entire Zhenxian Dynasty to the entire Eastern Wilderness.

Although the Zhenxian Dynasty is the most powerful dynasty in the Eastern Wilderness, the combined area and population, as well as the cultivators of the other dynasties in Eastern Wilderness, are much more than the Zhenxian Dynasty.

Especially now, a large number of cultivators from the Central Continent have come to the Eastern Province, and many of them have also entered the Eastern Wilderness.

After all, the range of the Eastern Province is limited, and naturally, without suitable mountain gates, they will look elsewhere.

Although these cultivators have not truly regarded the Eastern Wilderness as their roots, and many of them have their own calculations.

But no matter what, they are in the Eastern Wilderness, and they are all human cultivators. Most cultivators still adhere to the basic bottom line, which is that they are human.

So, more or less, they will all contribute to the increase of the Age of Prosperity Qi.

As a result, this time when Cao Zhen condenses the Prosperous Age Picture Record, the enhancement is significant.

As his prosperous age becomes stronger, naturally, his own cultivation base will also strengthen accordingly.

From the Golden Core Stage to the Earth Immortal Realm, cultivators can condense immortal mountains, and from the Immortality Regainment Realm, breaking through to the True Immortal Realm, they can condense an Immortal Palace.

But from the Earth Immortal Realm to the Immortality Regainment Realm, the most significant change is the immortal mountain; all Earth Immortals, once breaking through into the Immortality Regainment Realm, will see the height of their immortal mountains soar.

After Cao Zhen's previous breakthrough, his immortal mountain had already reached a height of seven hundred zhang, but over the years, his disciples have been continuously cultivating, especially the five of them including Ling Xi, all of whom have also broken through into the Immortality Regainment Realm, so naturally, he has benefited quite a bit, only that he has not yet activated the cultivation techniques of his disciples, and the immortal mountain hasn't changed.

But even without using these unearned cultivation bases, as the Age of Prosperity Qi circulates within him, his own immortal energy becomes increasingly pure and rich.

Behind him, the immortal mountain emerges, and the entire immortal mountain rapidly climbs.

At the same time, the entire Four Treasures Peak begins to surge.

Within the Hundred Peaks Sect, everyone quickly notices the immortal mountain towering and climbing rapidly in the Four Treasures Peak.

"This is... the Hierarch's immortal mountain!"

"Is the Hierarch cultivating?"

"So fast, the Hierarch's immortal mountain is climbing so quickly, it's already a nine hundred zhang high mountain!"

"But the Hierarch once said, the path he walks now requires going out to see the outside world, and he has been away for thirty years, so it's only natural for changes in the immortal mountain!"

"It's very natural, but the problem is, the Hierarch's immortal mountain is climbing too fast."

In the Four Treasures Peak, each disciple steps out of their own cave mansion, looking at the master's immortal mountain continuously rising in the void.

Each of them gasps in amazement.

"Master, the immortal mountain has already reached a thousand zhang, how is it still climbing!"

"Master's aura, this is clearly just the aura of the early Immortality Regainment Realm, but master's immortal mountain has surpassed a thousand zhang! This is about to exceed my immortal mountain's height, and I'm at the mid Immortality Regainment Realm!"

Linghu Gudu looked at the master's immortal mountain in shock, remembering his days of cultivating for over a hundred years in the vicissitudes of the world, and in recent years, Cao Zhen has been helping others with alchemy and cultivating outside.

And those of them who were once taught in the vicissitudes of the world have slowly broken through into the mid Immortality Regainment Realm.

The heights of their immortal mountains are all about the same, among which his immortal mountain is the shortest.

There's no help for it; these disciples are all with high-level immortal bodies, and he entered later, especially since the Eight Nine Mysterious Art was much more advanced compared to others, he knew how powerful the Eight Nine Mysterious Art is, spending much time cultivating it, so naturally, his cultivation base lags a bit.

But even though his immortal mountain is the shortest among his peers, it has still reached a height of a thousand one hundred zhang.

The height of the immortal mountain in the Immortality Regainment Realm is no longer like the Earth Immortal Realm, where the difference is within a standard range; in the Immortality Regainment Realm, the heights of their immortal mountains vary greatly.

However, in the mid Immortality Regainment Realm, an immortal mountain reaching a thousand zhang is already very strong, not to mention that he just entered the mid Immortality Regainment Realm, and his immortal mountain can continue to grow.

But his master's situation is somewhat frightening.

"Master's immortal mountain is still climbing, finally stopped; it is now at a height of one thousand two hundred zhang!" Linghu Gudu looked in amazement at Ruo Yun Immortal nearby; among the disciples of the Four Treasures Peak, the only one with a taller immortal mountain than Cao Zhen was Ruo Yun.

But the problem is Ruo Yun has long since broken through to the mid Immortality Regainment Realm, but his master is only in the early Immortality Regainment Realm!

At the position of Ten Thousand Immortals Peak, everyone from Ten Thousand Immortals Peak looked at the towering immortal mountain in the void, each feeling deeply moved.

"His aura is clearly only at the early stage of the Immortal Teachings, but this immortal mountain is terrifying! I am also at the early Immortality Regainment Realm, but compared to him, it seems like I don't even count as being in the Immortality Regainment Realm!"

Chapter 2018:

"Don't talk about yourself, even my Immortal Mountain, at the mid Immortality Regainment Realm, is nowhere near as high as his Immortal Mountain!"

"This Guardian Immortal Imperial Dynasty is truly frightening. First, there was that Grand Preceptor, who made significant breakthroughs in just a few decades, forming two Different Phenomena Fairy Palaces at once. Then immediately, there's this Sect Leader Cao, who is so terrifying even at the Immortality Regainment Realm. Who knows how terrifying he will be when he reaches the True Immortal Realm!"

The True Immortal Realm is not something anyone can easily break through and enter.

Countless experts at the Immortality Regainment Realm have spent their entire lives unable to break through, eventually dying of old age, among them those who were once considered geniuses and even Heavenly Prides.

However, none of them believe that Cao Zhen would be unable to break into the True Immortal Realm.

“Enough, be mindful of how you speak in the future.” Immortal Lord Xi Mu frowned slightly, scolding the disciple who had just spoken. “What do you mean by this Sect Leader Cao? You are also a member of the Hundred Peaks Sect; he is your sect leader.”

“If I hear you say something like this again next time, it won’t just be a reprimand.”

As she said this, she looked down. On the Ten Thousand Immortals Peak, each disciple who had been cultivating stopped to look in the direction of Four Treasures Peak due to the changes above it.

Over the years, their Ten Thousand Immortals Peak had recruited over a hundred disciples. It wasn’t that they couldn’t recruit more; it’s just that teaching these disciples always required someone to do it.

Aside from Immortal Lord Xi Mu, the remaining disciples also needed to cultivate. They couldn’t have all the disciples solely under the guidance of Immortal Lord Xi Mu.

In fact, they’ve already regretted recruiting so many disciples.

Initially, when they could first recruit disciples, they saw hope for the revival of the Great Teaching. Each good seedling that appeared, they rushed to recruit.

In the first instance, they recruited more than sixty disciples before realizing the problem. They planned to recruit fewer disciples in the future, but every time a recruitment occurred, they would find exceptionally gifted disciples they could not refuse.

As a result, the Ten Thousand Immortals Peak now has over a hundred disciples.

Immortal Lord Xi Mu, looking at the disciples, softly said, “No matter what, the stronger the sect leader, the stronger our Ten Thousand Immortals Peak will become, allowing us to develop better.

“We already have so many disciples now, and in the future, they will gradually grow. By then, they will also be able to teach others, rapidly expanding our Ten Thousand Immortals Peak. Everything is developing in a good direction.”

At Four Treasures Peak, as Cao Zhen finished painting the Prosperous Age Picture Record, the voice of China Cloud echoed in his mind.

“Cultivation Realm raised by a major realm, administrator level increased, add two specified users, two random users. Please specify.”

So there’s an increase in users?

Cao Zhen was slightly stunned. Previously, after completing the map of the Guardian Immortal Imperial Dynasty, the Heavenly Dao sent down a Heavenly Tribulation to attack him, and only after overcoming it did China Cloud notify him of the administrator level increase and user enhancement.

Now, he could specify users directly without undergoing a tribulation?

He didn’t have time to think much and quickly said, “Connect with the Grand Preceptor, the Grand Preceptor of the Guardian Immortal Imperial Dynasty!”

What more is there to consider, it must be the Grand Preceptor!

Look at what the Grand Preceptor has done. The first breakthrough to the True Immortal Realm directly formed three Different Phenomena Fairy Palaces, then on the first day of the True Immortal Realm, dared to chase down someone with five Immortal Palaces.

Now, in just a few decades, the Grand Preceptor broke through again, once more forming two Different Phenomena Fairy Palaces.

What kind of person is this?

As Xiang Ziyu would say, "My... my Grand Preceptor has the demeanor of a Great Emperor!"

Once connected with the Grand Preceptor, there's no need to cultivate further; victory comes effortlessly!

Cao Zhen couldn't help but fantasize about the swift success after connecting with the Grand Preceptor when China Cloud's voice interrupted his thoughts.

"Connection failed, unable to connect, please specify again."

"Connection failed? How is that possible!" Cao Zhen was dumbfounded. Was it because he didn't say the Grand Preceptor's name? But previously, when connecting with Demonic Lord Qing Shi, he hadn't said the name either, only mentioning the temporary sect leader of the Wanxiao Sect in the Eastern Province, and it had connected successfully.

Because of cultivation?

That's even more unlikely.

The Grand Preceptor is only at the mid True Immortal Realm, and I've connected with a Daluo Golden Immortal before. It can't be that I can't connect to a True Immortal Realm.

Could it be because the stronger people I've connected with, such as Old Zhang and Daoist Lu Ya, are not from this world, so the connection succeeded?

The Grand Preceptor is from this world and has a much higher cultivation base than me, so is that why the connection failed?

Amid Cao Zhen's confusion, he heard China Cloud's urging voice again and quickly said, "Connect with Immortal Lord Jue Zhen from the Extreme Formation Sect."

Immortal Lord Jue Zhen, a person possessing seven Immortal Palaces, let's see if he can be connected successfully.

Quickly, the voice from China Cloud came.

“Connection with Extreme Formation Sect's Immortal Lord Jue Zhen successful.”

Connected successfully?

Cao Zhen furrowed his brows. Immortal Lord Jue Zhen's cultivation realm is higher than the Grand Preceptor's, and Jue Zhen is also from this world. How is it that Jue Zhen successfully connected while the Grand Preceptor couldn't?

The problem is, China Cloud didn't provide any reason for the connection failure either!

Before he had time to ponder further, China Cloud urged again, “Please specify!”

With a major breakthrough in cultivation realm, he can add two specified users, and he had only specified one so far, leaving one more user slot.

Chapter 2019:

Cao Zhen quickly spoke, “I designate my disciple, Tang Xiaorui.”

Now, unable to designate the Grand Preceptor, he naturally had to designate his own disciple.

Soon, the voice of China Cloud came over.

“Hundred Peaks Sect disciple, Tang Xiaorui designated successfully. Now connecting to random users, random users Zi Tie, Qin Yuan designated.”

Zi Tie? Qin Yuan?

Cao Zhen was suddenly bewildered; what were these things?

Before he crossed over, he was familiar with some mythical figures, but there were still some he didn't know. However, he could connect with his parents and communicate with them.

Later, his mother often supplemented his knowledge with many mythical legends, most of those immortals in mythology he knew, unless it was a less known figure like Liu Zheng.

But what could Zi Tie and Qin Yuan be?

Qin Yuan might be a person's name.

And Zi Tie?

Can iron be "zi"? A great flower of "zi"?

He couldn't be bothered to overthink and didn't even have time to check his disciple Tang Xiaorui and the Absolute-Formation Immortal Lord's documents. Instead, he immediately opened China Cloud to see what kind of iron Zi Tie was.

As China Cloud opened, suddenly his sight was filled with two large, one small, and one medium document.

"The smallest document is surely Tang Xiaorui's, the medium one is the Absolute-Formation Immortal Lord's, and the remaining two similarly sized documents are Zi Tie and Qin Yuan's?

Such large documents, these two are not simple!"

Seeing these two documents, Cao Zhen was immediately delighted, thinking his luck had been quite good this time, randomly designating two unknown figures. But just by looking at the documents, he knew he had exceptionally good fortune.

These two documents, among all the people he had connected with, were quite large, although not as large as those of Old Zhang, Liu Zheng, or Lu Ya, they were just below them.

With surprise and delight in his heart, he quickly opened one of the documents.

User: Zi Tie.

Identity: Demon Clan Demon Saint.

Gender: Male!

Demon Clan's Demon Saint?

Cao Zhen nodded his head, no wonder, it was just of the Demon Clan. His mother hadn't supplemented his knowledge with these Demon Clan elements, so it was normal he didn't know this name.

He continued to read downwards.

Cultivation Base: Daluo Golden Immortal!

Daluo Golden Immortal?

Cao Zhen's eyes trembled again. This turned out to be a Daluo Golden Immortal! But thinking about it, it seemed reasonable; being a Demon Saint of the Demon Clan, reaching the level of a Daluo Golden Immortal seemed plausible.

Specialty: Artifact Refining!

Seeing this, Cao Zhen was once again dumbfounded.

Was there someone in the Demon Clan who specialized in artifact refining?

He continued to read.

Alchemy Level: 20

Talisman Level: 20

Array Level: 20

He finally understood why, although both were Daluo Golden Immortals, Zi Tie's document was noticeably smaller than those of Old Zhang and Lu Ya Daoist.

How could such a distinguished Daluo Golden Immortal have only a level 20 in alchemy and talisman?
Was he joking?

As for the specialty of artifact refining.

Refining Level: 90 (in conjunction with cultivation technique)

What does it mean?

It still needed to be in conjunction with a cultivation technique?

Cao Zhen continued to read and finally understood.

Zi Tie's fecal matter was sharp, consuming iron and water, with an unblemished stomach, etc...

This guy's food was various iron stones, and then he would use his own cultivation technique to modify himself by devouring these iron stones, making his body more resilient.

That is to say, he indeed could refine artifacts, but only to refine himself.

Therefore, in the future, he could also use those immortal mines, various divine weapons, even treasures, to strengthen his physical strength.

He already had the Eight Nine Mysterious Art, and with Zi Tie's self-forging technique, how many layers of armor could he stack on himself!

This Zi Tie was excellent, very powerful!

As for the back part about fecal sharpness, that had nothing to do with him, he was human, not the real Zi Tie!

Cao Zhen quickly looked at another document, but before he could open it, the surrounding void suddenly turned dark.

With it, this pitch-black area rapidly expanded, encompassing the entire Hundred Peaks Sect, then the Guardian Immortal Imperial Dynasty, the entire Eastern Wasteland, and even beyond it, the area closest to Eastern Province was also affected.

The numerous cultivators had just witnessed the Grand Preceptor's breakthrough, and many were still in awe of the Grand Preceptor's terrifying power. Suddenly, the sky darkened again, and they had not even dispersed before raising their heads to look into the distance once more.

"Is there someone else about to break through?"

“No, this aura doesn’t seem like the heavenly phenomenon from breaking through to the True Immortal Realm!”

“Yes, this looks like a heavenly tribulation!”

“A heavenly tribulation? Such a large-scale heavenly tribulation? Has someone forged an against-the-heavens treasure? Or what?”

“No, look at the direction, it still seems to be from the Eastern Wasteland’s direction!”

“Not only the Eastern Wasteland, but it also seems to be within Guardian Immortal Imperial Dynasty’s territory!”

The crowd discussed, and in the distant void, a phantom figure appeared.

Some people far away, like those from Eastern Province, couldn’t see clearly, but within the entire Eastern Wasteland, all cultivators, even ordinary mortals, could see the figure’s appearance.

“This is... the Sect Hierarchy of Hundred Peaks Sect!”

“This is the State Preceptor of the Guardian Immortal Imperial Dynasty!”

“This is our Eastern Wasteland’s Guardian Immortal!”

During the years when the Grand Preceptor was in slumber, Cao Zhen always guarded the Guardian Immortal Imperial Dynasty and the Eastern Wasteland. It was precisely because of his presence that the Eastern Wasteland did not fall into chaos like neighboring East Breeze and Eastern Border.

In the human world, many places even erected idols in his honor.

Chapter 2020:

Now, although he rarely appears before mortals, they still recognize him at first sight.

In an instant, within the Eastern Wasteland Realm, one by one, the mortals knelt devoutly below, bowing in the direction of Cao Zhen.

And many cultivators also recognized Cao Zhen.

“Has he made a breakthrough?”

“No, he had already broken through to the Immortality Regainment Realm before!”

“It’s not because of breaking through to the Immortality Regainment Realm that this heavenly tribulation appeared! I feel like he has crafted something against the heavens, hence the heavenly tribulation!”

“He’s only in the Immortality Regainment Realm, what could he possibly craft to attract a heavenly tribulation?”

“Look at his Immortal Mountain, it’s as high as twelve hundred feet; he still seems to be only in the Early Immortality Regainment Realm!”

“It’s terrifying, an Early Immortality Regainment Realm, and the Immortal Mountain is already taller than many Mid Immortality Regainment Realm existences!”

“It’s scary, but wasn’t the Grand Preceptor of the Guardian Immortal Imperial Dynasty even more terrifying? Compared to the Grand Preceptor, this seems like nothing.”

“You’re right.”

Cao Zhen looked at the layers of tribulation clouds gathering above the void, feeling the terrifying oppression emanating from them, a look of helplessness appeared on his face, so, the heavenly tribulation was unavoidable, just delayed compared to the last time.

Sure enough, the heavenly tribulation, though late, always arrives!

In the void, the tribulation clouds gathered more and more, and with his current cultivation base, he couldn't even see far.

Suddenly, a line of poetry popped into his mind.

Dark clouds over the city, the city is about to collapse!

Now, these tribulation clouds, it doesn't seem like they want to collapse just the city, but gives him the illusion that it wants to collapse the entire Hundred Peaks Sect.

He even felt that these tribulation clouds were not just simply as substantial as they seemed, but like meteorites from the heavens!

Countless tribulation clouds, each emitting an immense and boundless terrifying might!

The countless hairs on his body even uncontrollably stood on end.

This tribulation cloud is too terrifying; does it intend to kill me?

From the terrifying pressure emitted by these tribulation clouds, he felt a threat to his life, as if he could be crushed to death by this pressure at any moment.

No, I must quickly elevate my cultivation base.

Greatly alarmed, Cao Zhen hurriedly activated the cultivation techniques his disciples practiced, those who should have lain low needed to do so quickly.

Now, any boost in strength matters.

Right within the void, sounds of explosions rang continuously, and the void was repeatedly torn apart, creating rippling waves of air like circles of ripples.

Suddenly, in the next moment, a purple lightning bolt suddenly descended from the void, shining with lightning as if it turned the dark sky into bright daylight.

Where the thunder passed, the surrounding space shattered successively, in that instant the void quaked, the earth shook and the mountains swayed!

Cao Zhen quickly cast spells, resisting the lightning falling from the void, while also activating his disciples' cultivation techniques.

Fortunately, these disciples' cultivation techniques were high-level enough; otherwise, he wouldn't be able to fight against the heavenly tribulation while executing these techniques.

As he continuously activated the disciples' cultivation techniques and reaped passive gains, the height of his Immortal Mountain began to rise again.

In an instant, within the Eastern Wasteland, the people were surprised to find that Cao Zhen's Immortal Mountain began to ascend once more.

"His Immortal Mountain is still rising!"

"Thirteen hundred feet, and it's still rising!"

"It's... It's already fourteen hundred feet high!"

"It stopped; his Immortal Mountain finally stopped growing!"

“It’s too terrifying; he’s only in the Early Immortality Regainment Realm, and his Immortal Mountain has reached a height of fourteen hundred feet! Many in the Late Immortality Regainment Realm only have their Immortal Mountains this high!”

“However, the heavenly tribulation is also too terrifying, I feel if it continues, Cao Zhen might not be able to withstand that heavenly tribulation!”

Not only the cultivators within the Eastern Wasteland but also the people of the Hundred Peaks Sect realized their sect leader might not be able to withstand the heavenly tribulation.

Suddenly, everyone panicked and was about to rush to help, but then, a voice came from the void.

“No one go.”

Immortal Lord Xi Mu appeared near Four Treasures Peak, not far from where Cao Zhen was enduring the heavenly tribulation. With a solemn expression, she looked at the falling heavenly tribulation and said, “I can feel that this heavenly tribulation is targeted solely at the sect leader. Any help from us will not aid and may even trouble him.”

If she hadn’t sensed that the tribulation was aimed at Cao Zhen alone and that outsiders couldn’t intervene, she would have already acted.

“Targeted at the master?”

The people at Four Treasures Peak frowned, but they didn’t completely trust Immortal Lord Xi Mu, as she joined the Hundred Peaks Sect later, and at the beginning, she was eyeing the position of sect leader of the Hundred Peaks Sect.

Who knows if she was deliberately deceiving everyone.

It wasn’t until Ruo Yun’s voice rang out that everyone truly believed.

“Indeed, I can also feel that this is a tribulation aimed at our master. He must face this heavenly tribulation himself, he can’t even rely on the surrounding formation!”

“Can’t even use the formation?”

“What about the master, then?”

“The heavenly tribulation seems even stronger!”

Cao Zhen’s aura had long ascended to its peak, but even at its peak, it could only maintain a peak state.

He had already reaped all the passive gains he could.

Although he could continuously replenish his strength using the Age of Prosperity Qi, his power couldn’t be enhanced any further in the short term.
