

My Master 2021

Chapter 2021:

But that Heavenly Tribulation kept getting stronger!

Damn it!

Cao Zhen cursed silently in his heart, this Heavenly Tribulation definitely wanted to kill him. When the Heavenly Tribulation appeared, he hadn't relied on the Disciples and the people he connected with to easily win those cultivation bases. So, under normal circumstances, he should have faced the horizon with a 1200-zhang Immortal Mountain, not the current 1400 zhang!

But now, it was already so difficult to face the Heavenly Tribulation, let alone with only a 1200-zhang height!

This Heavenly Tribulation wasn't trying to kill him, what was it doing!

Come to think of it, he was careless this time.

Next time, before his realm improves significantly or before completing the Prosperous Age Picture Record, he must prepare in advance on how to deal with the Heavenly Tribulation!

For now, he could only continue to enhance his cultivation base!

Cao Zhen found the additional cultivation experience of the ones he connected with and instantly poured it in.

In an instant, the aura within his body surged fiercely, and behind him, the Immortal Mountain also surged upward!

In just a brief moment, the Immortal Mountain surged another hundred zhang in height.

Although it was only an additional hundred zhang in height, his pressure also significantly decreased, while the extra experience consumed at a very fast rate.

He was now in the Immortality Regainment Realm, and the consumption of extra experience was much faster than before.

“For the time being, let’s leave it at this and see the situation before making further decisions.”

Cao Zhen thought that he should save extra experience whenever possible.

In the Eastern Wasteland, after watching for a while, some people turned away and stopped watching Cao Zhen in the void; they thought they didn’t know how much longer Cao Zhen would undergo Heavenly Tribulation.

Instead of watching Cao Zhen’s Heavenly Tribulation from a distance, they preferred to focus on their own cultivation.

But not long after these people left, they heard a series of exclamations. They looked up, full of surprise, and were momentarily stunned.

“Cao Zhen’s Immortal Mountain has risen again?”

“Is it at 1500 zhang in height now?”

“His Immortal Mountain had already stopped ascending, hadn’t it? How could it start rising again?”

“1500 zhang! That’s terrifying!”

“What’s really scary is that his Immortal Mountain keeps growing, and might it continue to grow?”

Those who initially intended not to watch Cao Zhen's Heavenly Tribulation and those who had stopped watching returned one after another, continuing to gaze at the distant void.

Cao Zhen felt the Heavenly Tribulation descending from the void, and his heart stirred. He had just connected with Zi Tie.

With the help of a special cultivation technique, Zi Tie could absorb materials like Immortal Mines to enhance its physical strength.

However, Zi Tie was not an ordinary human but belonged to the Demon Clan, and he wondered if he could cultivate Zi Tie's technique!

Cao Zhen was stirred inside, while countering the Heavenly Tribulation, he also began to practice Zi Tie's cultivation technique, following Zi Tie's method. Quickly, he felt the aura within his body start to flow.

Immediately, joy surged in his heart!

He could indeed cultivate Zi Tie's technique.

As he practiced the cultivation technique, he pondered that typically, human cannot cultivate Demon Clan techniques, and the Demon Clan cannot cultivate human techniques.

So why could he cultivate Zi Tie's technique?

Could it be because Zi Tie was a Great Demon from the prehistoric era, different from the current Demon Clan?

After all, during the prehistoric era, there seemed to be some demons who went under Saints to cultivate.

That's it, previously, the data displayed by China Cloud showed Zi Tie's gender as male, not male or male member!

So although Zi Tie was of the Demon Clan, in some aspects it was also categorized under humans?

This must be the reason.

Cao Zhen stopped pondering and focused on his cultivation. Indeed, he had quite a few Immortal Mines on him.

If there weren't any Immortal Mines, directly absorbing those Treasures wouldn't be impossible!

After all, many Treasures were not suitable for Disciples of the Hundred Peaks Sect to use, and would eventually be dismantled, so it was better he directly consumed them!

However, the taste of these iron mines...

Was truly unpleasant!

Fortunately, he was surrounded in enough darkness, so others couldn't clearly see what was happening around him. Otherwise, if they saw him consuming iron, wouldn't his persona collapse instantly!

Thus, Cao Zhen frantically devoured iron stones, Immortal Mines, and even directly swallowed Divine Weapons.

After all, Zi Tie required no specific type of food, as long as it was ore, it was suitable. However, consuming ordinary ores resulted in lesser transformation, while consuming higher-level ores accelerated physical enhancement.

As all kinds of ores entered his body, he could distinctly feel the speed at which these ores were melting and decomposing, with their forces coursing into his limbs, torso, and head, into his skin, muscles, bones, and even internal organs, he could clearly feel the transformation of his physical body.

This was different from the Eight Nine Mysterious Art, which purely relied on the cultivation technique to strengthen individuals. In contrast, Zi Tie absorbed the power of iron ores, with the two lacking any fundamental conflict.

Thus, without realizing it, a day had already passed.

Cao Zhen, after his Immortal Mountain ascended to 1500 zhang, continually consuming Treasures and ores to strengthen his physical body, faced less pressure.

Yet, when the night of the second day arrived, the might of the Heavenly Tribulation increased once again, compelling him to use another portion of the extra experience to further enhance his cultivation base.

Chapter 2022:

Subsequently, his Immortal Mountain suddenly surged, reaching a height of sixteen hundred zhang!

Yet, he still remained at the Early Immortality Regainment Realm.

Meanwhile, within the Eastern Wasteland, the cultivators had all become numb!

“He’s still advancing!”

“Does this Sect Leader Cao of the Hundred Peaks Sect have any limits?”

“I finally understand why during the Qiankun small epoch, Cao Zhen was able to suppress so many great teachings under those special circumstances. Is he even human?”

“Although the Grand Preceptor of the Guardian Immortal Imperial Dynasty was terrifying enough, this Cao Zhen is not much different. Just look, who else in the Early Immortality Regainment Realm can be so terrifying!”

Within the Eastern Wilderness Sect, the Beast Taming Sect Leader gazed at the distant figure of Cao Zhen, constantly sighing, "Truly worthy of being Sect Leader Cao, worthy of being the reincarnation of a Daluo Golden Immortal. Just at the Immortality Regainment Realm, his Immortal Mountain has reached sixteen hundred zhang. I feel that this is far from his limit.

I even think that if he wanted, he could let his Immortal Mountain surge in height at any time. Haven't you noticed? Every time Sect Leader Cao increases the height of the Immortal Mountain, it's after sensing the surge in power of the heavenly tribulation?

I believe he is using this tribulation to temper himself. If not, he could have long raised the Immortal Mountain to an even higher height!"

The last time Cao Zhen underwent tribulation, it took him three days. This time, it also took three days. By the third day, he even had to raise the Immortal Mountain's height again, using extra experience to increase it to a height of eight hundred zhang just to withstand the tribulation.

With the dissipation of the final heavenly tribulation, the sky over the Eastern Wasteland returned to brightness.

"So, the leader of the Hundred Peaks Sect did withstand the tribulation!"

"Three days, in three days, his Immortal Mountain kept rising until it reached a height of eighteen hundred zhang!"

"Incredible! And that's just the Early Immortality Regainment Realm."

"Is that the Immortal Mountain height that should be possible in the Immortality Regainment Realm?"

"In our great teaching, no, back in the Central Continent, what was the highest Immortal Mountain height for the Early Immortality Regainment Realm? Was it anywhere near eighteen hundred zhang?"

"It shouldn't have been, right?"

“In any case, I haven’t seen any records of anyone in the Early Immortality Regainment Realm having an Immortal Mountain reach such heights!”

“Have you not noticed? The leader of the Hundred Peaks Sect resisted the heavenly tribulation for three continuous days, and in those three days, he never rested, yet his immortal energy was never depleted!”

The discussions about Cao Zhen spread among almost all the cultivators in the Eastern Wasteland.

On Four Treasures Peak, Cao Zhen gazed painfully at the distant sky. Over these three days, he had no idea how many treasures and immortal mines he had consumed. That Zi Tie should not be called Zi Tie but rather the Gold-Devouring Beast!

Of course, the results were visibly remarkable!

Previously, he was on par with Xiang Ziyu’s Eight Nine Mysterious Art in terms of physical strength, but now, in terms of physical strength alone, Xiang Ziyu was like a novice before him!

Enhancing physical strength was inevitable; advancing early was beneficial.

What pained him was his extra cultivation experience.

He had expended an excessive amount of extra cultivation experience this time, forcibly using it to raise his Immortal Mountain by three hundred zhang.

If it were in the Earth Immortal Realm, using extra cultivation experience to increase the Immortal Mountain by three hundred zhang might have been acceptable, but it’s different in the Immortality Regainment Realm.

Doing this a few more times and he’d go bankrupt.

What a pity, such a shame.

He had connected with Immortal Lord Jue Zhen a bit too late. Had he done so earlier, before Absolute-Formation broke through, he could have gained a considerable amount of extra experience. After all, it involved seven Immortal Palaces transforming into eight!

All around, as people witnessed Cao Zhen finish enduring the tribulation, they rushed towards him as if wishing to inquire about something.

But Cao Zhen waved his hand, saying, "I am somewhat exhausted; whatever it is, let's talk about it in a few days."

He truly was tired, and he hadn't even checked Qin Yuan!

If Zi Tie was so strong, then what about Qin Yuan?

Cao Zhen quickly returned to his cave mansion, opened Zhonghua, and found Qin Yuan's file.

User: Qin Yuan

Gender: Female

Identity: Demon Clan's Demon Saint!

Cao Zhen froze, yet another Demon Saint from the Demon Clan!

Had he disturbed a nest of the Demon Clan?

He continued to read.

Cultivation Base: Daluo Golden Immortal!

As expected, to become a Demon Saint, one should have reached the level of a Daluo Golden Immortal.

Specialty: Poison!

Cao Zhen scanned it again, specializing in poison?

Considering this, among the many people he'd connected with, there really wasn't anyone particularly good at poison, so this filled a small gap for him.

In this way, he truly was becoming a well-rounded warrior!

Feeling a sigh in his heart, Cao Zhen continued reading.

Alchemy Level: 60

Talisman Level: 30

Array Level: 35

These aspects of alchemy, talisman crafting, and formations were somewhat superior to Zi Tie, with alchemy being the highest—probably due to specializing in poison, hence knowledgeable in alchemy.

But none of these mattered; the key was below!

Poison: Level 98!

This level of proficiency in poison was indeed significant.

He continued looking through Qin Yuan's information. Honestly, Qin Yuan somewhat resembled a honeybee but much larger, about the size of a mandarin duck.

Moreover, Qin Yuan not only excelled in poison but was also immune to myriad poisons.

"Immune to myriad poisons? This could be considered additional armor. Actually, the Eight Nine Mysterious Art also possesses immunity to myriad poisons, but that's purely due to the art's mystery. In comparison, Qin Yuan's immunity comes from tempering her own body with various poisonous herbs and toxins. The two could overlap.

In this way, my defense is quite substantial. Now, the only slight trouble is finding some poison.

Among the medicinal herbs I collected from the Death River Sect last time, there were indeed many that were poisonous, but it still wasn't enough.

However, I genuinely haven't been acquainted with any poison-focused great teachings."

Muttering to himself, Cao Zhen suddenly thought of something and took out several cocoon-like objects.

These had been taken from the Life Ancient Tree at the Ten Thousand Poison Valley in the past, and he always suspected that inside these cocoons were poison insects, possibly belonging to the Insect Clan or Beast Clan among the six major alien races!

"I wonder what's inside? Can it be refined?"

Chapter 2023:

Cao Zhen connected two designated users, one of whom was his disciple, someone he had to connect sooner or later.

As for the other person, actually, even if he couldn't connect with the Grand Preceptor, there are many better choices than Immortal Lord Jue Zhen at the moment.

For example, he could connect with the sect hierarchs from those great teachings, their cultivation base is higher than Absolute-Formation.

Moreover, he has an even better choice, Zong Zhen.

When he first heard about Immortal Lord Jue Zhen, he also learned about the existence of Zong Zhen from Immortal Lord Jue Zhen.

To him, Zong Zhen sounds like it could be renamed to Big Serpent Formation.

However, it's clear that Zong Zhen is an extremely talented person.

Yet he still opted for Immortal Lord Jue Zhen.

This decision has nothing to do with appearances or physique, because Jue Zhen plans to establish a branch of Extreme Formation Sect in the Eastern Wasteland.

For the future, his era can be strengthened.

If he has the time, he will definitely guide Jue Zhen a bit.

Even if his talent or current cultivation base is not as good as those people, surpassing those sect hierarchs under his tutelage is only a matter of time.

Therefore, overall, connecting to Jue Zhen is still the most suitable.

Cao Zhen did not immediately seek out those insect pupae but opened the document on Immortal Lord Jue Zhen.

User: Immortal Lord Jue Zhen

Gender: Female

Cultivation Base: True Immortal Realm, Seven Immortal Palaces

Identity: Elder of Extreme Formation Sect

Cultivation Talent: Seven-star Array Body

Seven-star Array Body, this is also a high level immortal body. The Seven-star Array Body indeed has a formation map that's very fitting for Immortal Lord Jue Zhen.

In a few days, I can pass that formation map to Immortal Lord Jue Zhen. Given Jue Zhen's array body talent, she should be able to resonate with the formation map.

Cao Zhen continued reading.

Alchemy Level: Level 21.

Talisman Level: Level 40.

Array Level: Level 70...

Seventy-level array level!

Cao Zhen looked at Immortal Lord Jue Zhen's array level, lifted his hand to rub his forehead, this array level is indeed high enough.

But it's normal, the Demonic Lord Qing Shi that he connected before wasn't a major in arrays, yet her array level was over sixty.

However, there's a threshold between level sixty-nine and seventy, and between level seventy and seventy-one.

Jue Zhen's current array level is seventy. When her array level breaks through to seventy-one, it should coincidentally be when she consolidates another Immortal Palace.

And the person he connected with had the highest array level of only eighty.

Which is only ten levels higher than seventy.

So, what about Zong Zhen?

From Immortal Lord Jue Zhen's mouth, one could learn that Zong Zhen's array level is definitely much higher than Jue Zhen's.

Does that mean Zong Zhen's array level is very close to eighty?

Cao Zhen suddenly felt a sense of urgency.

All along, the people he connected with, whether it was calligraphy, painting, or talisman level, alchemy level, always completely overshadowed this world's people.

But now, he realized that there's someone who's very close to him in a certain aspect.

Is Zong Zhen the most proficient in arrays on this earth?

What if there's someone even more proficient in arrays than Zong Zhen?

“Next time, when I strengthen again, I need to connect with someone who has a high array level. I can go back and let my father or mother investigate who is proficient in arrays.

Or, if nothing works, I can only comprehensively research arrays myself.”

The person with the highest array level he connected with was Liu Zheng, at eighty-level, but there were also others like Golden Light Sage old Zhang, whose array levels aren't low.

And each of them excels in different formations, with different understandings of arrays.

If he integrates their array knowledge and organizes it thoroughly, then studies it himself, his array level is guaranteed to improve a lot.

But now, where does he find the time...

A clone?

His clone can do some things, but let the clone research arrays?

How could that be possible!

His clone can arrange formations, but researching arrays is out of the question!

After all, a clone is just a clone!

“Still, let's wait and see. At least, teaching Absolute-Formation is enough. As for Zong Zhen, he shouldn't target me, there are still six alien races now.”

Cao Zhen murmured to himself and opened the document on his junior disciple, Tang Xiaorui.

User: Tang Xiaorui

Gender: Female

Identity: Hundred Peaks Sect, Four Treasures Peak junior disciple.

Cultivation Base: Eighth Level of Golden Core Stage!

“Seems like I haven’t refined any pills for my junior disciple, falling short compared to others who’ve reached the Immortality Regainment Realm while she’s still at the Golden Core Stage, not even reaching Great Perfection of Golden Core Stage.

Actually, this cultivation speed isn’t slow; considering she’s been cultivating for less than a hundred years, but her senior brothers and sisters have been leveling up by pill consumption, comparatively, it’s much slower.

Once there’s time, let the clone refine some pills.”

The pills he had refined before do have some requirements on cultivation base, for instance, the pills refined for Immortal Lord Xi Mu were for treating True Immortal Realm injuries, his clone couldn’t possibly refine them, so he himself must do it.

However, let the clone refine pills for Tang Xiaorui, there’s no issue.

“Also, get Xiaorui to break through early on; this way, I can comfortably win with Five-thunder Righteous Method!”

Five-thunder Righteous Method has many variations, like Fire Thunder, Gold Thunder, but the problem is, he isn’t a Fire Body, Water Body, although he can wield those Fire Thunder, Water Thunder methods, using them rather than the most orthodox Five-thunder Righteous Method is just for show.

Chapter 2024:

And Tang Xiaorui possesses the Body of Immortal True Thunder; in the future, she will inevitably cultivate the orthodox Five-thunder Righteous Method.

Therefore, we have to rely on Tang Xiaorui to secure victory.

As for Xiang Ziyu?

That young man, upon discovering that others could perform various Fire Thunder and Water Thunder Orthodox Methods while he could only perform the Five-thunder Righteous Method — and furthermore, he did not have the Body of Thunderbolt, hence his Five-thunder Righteous Method was not as powerful as others' Fire Thunder or Gold Thunder Orthodox Methods — he decided not to focus on the Five-thunder Righteous Method but rather to study his Yin Yang Qi.

So, he can only wait for Tang Xiaorui.

After finishing reading Tang Xiaorui's document, Cao Zhen left his cave mansion and headed to the treasury of the Hundred Peaks Sect.

Indeed, in the Hundred Peaks Sect, his status is far higher than many Sect Hierarchs of the Great Teachings.

Those Great Teaching Sect Hierarchs cannot freely open the treasuries within their sects.

But in the Hundred Peaks Sect, Cao Zhen is free to open any treasury, and even when Immortal Lord Xi Mu and others joined the Hundred Peaks Sect later, no one complained.

After all, most of the resources in the Hundred Peaks Sect's treasury were acquired through the efforts of Cao Zhen and its members.

Moreover, without Cao Zhen, there would be no Hundred Peaks Sect. What does it matter to the Hundred Peaks Sect that Cao Zhen takes materials from the treasury?

Let alone taking just a small portion of materials; even if Cao Zhen were to empty the treasury, they would say nothing, for they know Cao Zhen will use those materials on the sect's disciples, as the Sect Leader is always working for the betterment of the Hundred Peaks Sect!

After taking medicinal herbs, Cao Zhen also took some materials needed to forge the Body Invulnerable to All Poisons.

However, these toxic materials were still lacking significantly, so he decided to visit Immortal Lord Jue Zhen, as he needed to impart the formation diagram to him.

"Jue Zhen, you have the Seven-star Array Body, right? I have a formation diagram that suits you. Now, as I impart the true formation diagram to you, concentrate your mind and do not resist."

Cao Zhen sat cross-legged and, while speaking, gathered a ball of golden light between his hands.

Although he is of the Immortality Regainment Realm, Immortal Lord Jue Zhen exists in the True Immortal Realm; with similar Divine Thought, Immortal Lord Jue Zhen can easily impart it to him, but for a lower cultivation base like his to transfer Divine Thought to Immortal Lord Jue Zhen, even if Immortal Lord Jue Zhen does not resist, it is extremely difficult due to the innate strength of Jue Zhen's soul.

Right now, it's like a child trying to push open a large door, even if the door is unlocked, it requires tremendous effort to slowly open it.

If Immortal Lord Jue Zhen even had a thought of resistance, he could easily suffer significant damage.

This time, it took him two full hours to completely inject the Divine Thought on forging the formation diagram into Immortal Lord Jue Zhen's body.

Immortal Lord Jue Zhen did not experience any discomfort; however, as the final Divine Thought entered his body, he appeared as if he had just emerged from water, with his clothes drenched in sweat.

Immortal Lord Jue Zhen examined the formation diagram imparted by Cao Zhen, seeming utterly stupefied.

She barely glanced at it and already sensed the profundity and mystique of the formation diagram!

Seven Stars Seven Changes Formation!

The formation diagram imparted by Sect Leader Cao this time is entirely different from the Unparalleled Formation Diagram. Seven Stars Seven Changes Formation encompasses seven stars and seven arrays, which can combine and involve forty-nine types of changes.

More importantly, she can feel how supremely suited this Great Formation is for her, so much so that it seems tailor-made for her.

Or perhaps this Great Formation was created for the Seven-star Array Body?

As she pondered, Cao Zhen's voice came across.

"Although this is a formation diagram, its complexity surpasses even many top-tier Great Formations.

I expect you'll need ample time to forge it, and the material requirements are substantial; your Extreme Formation Sect..."

Cao Zhen knows that the Extreme Formation Sect has not always supported Jue Zhen in forging formation diagrams, so even if the sect has adequate materials, they may not necessarily provide them to him.

"If Sect Hierarch points out my formation diagrams to us, our Extreme Formation Sect will certainly provide wholehearted support." Immortal Lord Jue Zhen expresses gratitude towards Cao Zhen, her perspective transformed after surpassing and forming the Eighth Immortal Palace.

Of course, primarily because of Cao Zhen.

Cao Zhen is a reincarnation of a Daluo Golden Immortal; such a master, who knows if he holds the way of formation diagrams to achieve the path of the Golden Immortal!

Earlier, her uncle, the Supreme Elder, and the Extreme Formation Sect Leader both mentioned if the Hundred Peaks Sect Leader could still impart the way of the formation diagram to her, they would support her unconditionally.

Even though their Extreme Formation Sect is a teaching centered on formations, likely no force has more materials for forging formations than their Extreme Formation Sect.

However, many materials within the formation diagram imparted by Sect Leader Cao are not required for forging formations, as formation diagram materials differ slightly from formation materials; she's uncertain whether their Extreme Formation Sect possesses those materials.

Cao Zhen nodded slightly and said, "Well, then that's good, but this formation diagram is indeed challenging to forge, and even if you manage to create it, it's not possible to immediately form another Immortal Palace."

"Disciple understands, but at least now disciple has found a new path." Immortal Lord Jue Zhen spoke, then knelt with both legs on the ground, respectfully bowing to Cao Zhen.

Chapter 2025: The Five Gold Immortal Alliance

She really doesn't know how she should thank Sect Leader Cao.

Although she regards the other as her Pathfinder, the Pathfinder is certainly not her master; the Pathfinder only needs to impart a new path to her, and nothing more, as the Pathfinder owed her nothing else and had no obligation to continue teaching her.

But Sect Leader Cao has now taught her a second Formation, and it's one that's perfectly suited to her.

"No need for that."

Cao Zhen waved his hand to signal Immortal Lord Jue Zhen to rise and asked: “By the way, do you know, whether there’s any Great Teaching infamous for using poison around our Eastern Wasteland?”

Earlier, he had walked around the Eastern Wasteland, but found there was no Great Teaching famous for using poison.

“A Great Teaching that uses poison?” Absolute-Formation was slightly startled upon hearing this. Just as she was about to speak, suddenly, in the next moment, the Void was ablaze with an incredibly dazzling light from the blazing sun, causing the entire Void to shake.

She raised her head in astonishment, looking towards the Void, while Cao Zhen also looked up with confusion; this was a Heavenly Phenomenon, is someone breaking through?

But in the next moment, in the direction of the Eastern Province in the Void, beams of light shot down to a certain spot, subsequently revealing a Rainbow Bridge upon which appeared a giant human figure.

Cao Zhen noticed that even though they were extremely far apart — the Eastern Province was remote while he was in the Eastern Wasteland — he could clearly see the other’s appearance.

This person had a dignified visage, surrounded by golden light, radiant and seemingly casting an illusion of shining together with the sun and moon. Behind him were three swords — one long, one short, one wide — floating in the Void, each enveloped in a glow of clouds.

The man seemed to be standing at Heaven’s edge, emitting an aura of inviolable majesty.

Cao Zhen merely cast a distant glance at this man, yet felt a terrifying pressure rise in his heart, as if compelling him to submit.

In the next moment, within him, the Age of Prosperity Qi suddenly surged, allowing him to regain his composure.

The man swept his gaze downward, as if a sovereign surveying his subjects.

Then, the man slowly spoke: "I am Sword Lord San Cai."

"Sword Lord San Cai!"

Hearing the name, Absolute-Formation's face suddenly revealed a shocked expression, and she exclaimed in a low voice: "Sect Hierarchy of Beginning Sword Sect, the pinnacle Great Teaching of the Central Continent! The existence of the Golden Immortal Realm!"

Those who could be called Immortal Lords, Sword Lords, Star Monarchs next to True Immortals, are also possibly the exceedingly rare existence of the Golden Immortal Realm whom ordinary Cultivators seldom see!

Sword Lord San Cai solemnly said: "Now, the world is in chaos; the plight we in the Immortal Cultivation world, or rather, we of the Human Clan face, is known to all of you.

At this critical juncture, we of the Human Clan must abandon all prejudice and past enmities, and unite to resist the enemy!

Thus, we five have deliberated and decided to form the East Province Cultivation Alliance! All Cultivators currently in the Eastern Province, or those entering the Eastern Province in the future, must adhere to the rules of the Cultivation Alliance!"

Cao Zhen sensitively noted Sword Lord San Cai's words; he said five people deliberated, and since the other party was of the Golden Immortal Realm, those able to deliberate with him were evidently also of the Golden Immortal Realm.

This means that the Eastern Province now has five Golden Immortal Realm beings!

Apart from the Eastern Province, there are three other continents — the Western, Southern, and Northern — and if each continent has five Golden Immortals, it implies there are twenty Golden Immortal beings of the Human Clan in total.

However, the number of Golden Immortals among those six Alien Races is unknown.

As for the Human Clan forming an alliance, he feels it was bound to happen sooner or later, otherwise, the various Human Clan Great Teachings fighting separately like scattered sand, how could they respond to the offensive of the six Alien Races.

However, why didn't those five Golden Immortals form the alliance earlier, but waited this many years before establishing it together is unknown.

Sword Lord San Cai spoke and then paused for a long time, seemingly deliberately giving everyone time to digest his words.

Once he perceived that the audience had listened enough, he then spoke: "The new alliance will be jointly presided over by the five of us Golden Immortal Realm.

Nonetheless, we five cannot always remain in the Eastern Province to preside; we must likewise go out to battle.

Therefore, based on the regions, we further divided twenty Vice Alliance Hierarchs, where the East Forest is managed by the Dragon Chant Sect Hierarch... East Wasteland, East Breeze, Eastern Border, etc., are managed by Master Tu Mi.

The stability of the areas belonging to these twenty Alliance Hierarchs, as well as the conscription of Cultivators.

All Cultivators, whether from the major Sects or Great Teachings, or Loose Cultivators, must obey orders. During conscription, no one is allowed to refuse, even Sect Hierarchs of the Great Teachings are no exception.

If anyone disobeys, all Cultivators under Heaven will eradicate them."

As the final words fell, Sword Lord San Cai's silhouette vanished from the Void, and the world returned to normal.

“Finally, they’ve formed an alliance, but they still played a hand at balance.” Immortal Lord Jue Zhen sighed deeply, turning to Sect Leader Cao to explain, “Sect Leader, among the twenty Vice Alliance Hierarchs just mentioned, ten are Sect Hierarchs of Grand Righteous Sects, and the remaining ten are Sect Hierarchs of Demonic Sects.”

Cao Zhen slightly nodded, noting the impressive balance — among the twenty Great Teaching Sect Hierarchs, four come from the Eastern Province Great Teachings; two are from Grand Righteous Sects, two are from Demonic Sects. The two Sect Hierarchs of the Grand Righteous Sects are precisely Dragon Chant Sect and Yin Yang Sect, which are the most favorable Great Teachings to their Bai Feng Sect.

Chapter 2026: Recruitment (Part 4)

As for the Eastern Wasteland where the Hundred Peaks Sect is located, because the area of the Eastern Wasteland is really too small compared to the Eastern Province, the Eastern Wasteland is grouped together with places like the Eastern Border, and it is overseen by the Thistle Sect, which comes from the Central Continent’s Demonic Sect.

“In any case, it is ultimately a good thing that the cultivators of the Human Race can unite. However, we must also pay attention, that recruitment...”

Cao Zhen hadn’t finished speaking when suddenly, the figure of the ten-thousand-man enemy flew over, and the next moment, he appeared in front of Cao Zhen, quickly handing over a talisman, and said urgently, “Master, the Thistle Sect has just sent a talisman, please take a look at it.”

“They’ve come quite quickly, it should be some detailed regulations, it’s just that the Three-Talents Sword Lord didn’t have time to say so much earlier, so these Vice Alliance Hierarchs will explain.”

Such a fast speed indicates that the five Golden Immortals under the Three-Talents Sword Lord have already communicated in advance with the leaders of these Great Teachings.

It stands to reason; they couldn’t have decided on the Vice Alliance Hierarchs’ selections without consulting others, right?

He raised his eyes to look at the talisman.

The content on the talisman was not surprising; the overall meaning was clear, which was to establish some rules. In the current situation of the Human Race, everyone should refrain from attacking each other. Even minor conflicts should be avoided as much as possible.

However, major conflicts, large-scale battles, are absolutely not allowed.

If any faction takes the initiative to provoke others or engage in random killing of cultivators, they can immediately inform the Thistle Sect, and the Thistle Sect will step in to directly punish the factions that attack others.

In truth, this is to prevent internal consumption and ensure that everyone is united.

There's nothing much in that; the crux lies in the content below.

Recruitment!

He had previously heard the Three-Talents Sword Lord mention recruitment, and he thought it should wait for a period of time so that people could digest the news and prepare before recruiting people.

As it turns out, no sooner had the Three-Talents Sword Lord finished speaking, than the Master Tu Mi began recruiting.

At present, the six major alien races seem to be digesting the Central Continent and have not launched attacks on the Eastern, Western, Southern, or Northern Continents, but because the Human Race gave up the Central Continent, resources are extremely scarce. **freewebmovel.com**

And, as the major alien races entered the Human Clan's Great Thousand World, the Outer Heaven Battlefield has now appeared.

In the Outer Heaven Battlefield, there are endless resources. The six major alien races, while attacking the human side, are also seizing resources from the Outer Heaven Battlefield.

Without a sufficient amount of resources, the Human Race will only be increasingly suppressed, so now everyone is being sent into the Outer Heaven Battlefield to fight, to seize resources.

At the same time, it's also about slaughtering members of the six alien races.

In the Human Clan's Great Thousand World, the six alien races still maintain cooperation, but in the Outer Heaven Battlefield, the six alien races do not cooperate, and they are all madly competing for resources.

So considering these two points, the Human Race must enter the Outer Heaven Battlefield, and the passage to enter the Outer Heaven Battlefield is through various perilous terrains!

Cao Zhen continued to look downwards and saw the recruitment numbers for the Hundred Peaks Sect.

For the first time, they only recruited five experts at the Immortality Regainment Realm from the Hundred Peaks Sect, along with one True Immortal Realm and twenty Earth Immortal Realm members!

Finally, on the recruitment order, it's specifically stated that all cultivators above the Earth Immortal Realm, whether they are sect leaders of various major teachings or Grand Elders, as long as they are above the Earth Immortal Realm, must enter the Outer Heaven Battlefield at least once!

In other words, all the sect leaders of various major teachings are not exempted, and they all have to enter the Outer Heaven Battlefield.

Thus, he will also not be exempt; he must also enter the Outer Heaven Battlefield!

"This is the recruitment order for our Hundred Peaks Sect; your Extreme Formation Sect must also have received the recruitment order."

Cao Zhen turned to look at the ten-thousand-man enemy and instructed, "At the same time, all the upper echelons of the Hundred Peaks Sect, proceed to the Extreme Formation Sect, I want to discuss this matter together with the Extreme Formation Sect."

After saying this, Cao Zhen flew with the Immortal Lord Jue Zhen towards the direction of the Extreme Formation Sect.

Though the Extreme Formation Sect is within the Hundred Peaks Sect, the Extreme Formation Sect is undoubtedly another major sect, and they have built a small mountain gate inside.

At this time, the upper echelons of the Extreme Formation Sect should have received the sound transmission from Absolute-Formation and gathered outside the mountain gate.

Shortly after Cao Zhen arrived, the upper echelons of the Hundred Peaks Sect also arrived one after another.

Once Cao Zhen and the others arrived, he looked at the sect leader of the Extreme Formation Sect and asked, "How many people has your Extreme Formation Sect been recruited this time?"

The sect leader of the Extreme Formation Sect frowned and said, "Two in the True Immortal Realm, thirty in the Immortality Regainment Realm, and one hundred in the Earth Immortal Realm."

Cao Zhen nodded slightly, indeed, the more people in the Extreme Formation Sect, the more people are recruited.

He continued to inquire, "Then, how does the sect leader of the Extreme Formation Sect plan to proceed?"

"Although everyone must go to the Outer Heaven Battlefield once, there's a difference between going early and going late." The sect leader of the Extreme Formation Sect said deeply, "We are considered the first group to enter the Extreme Formation Sect; everyone knows nothing, and it's more dangerous, so I intend to send as many strong experts as possible.

Entering the Outer Heaven Battlefield, as long as you slay five opponents of the same cultivation realm, or survive inside for a hundred years, you can leave the Outer Heaven Battlefield.

Regardless of which criterion is met, time is required. Once they leave the Outer Heaven Battlefield, they will be more familiar with it, and when the next recruitment call comes, it will be naturally safer for our other disciples to enter."

Of course, we cannot send all our experts into the Outer Heaven Battlefield, and specifically, how many experts to dispatch, we still need to discuss thoroughly.

Chapter 2027: Selection for the Outer Battlefield (Part 5)

"I wonder, Sect Leader Cao, what do you think?"

"I share your thoughts, but this time, I should send the strongest disciple."

He wanted to send a stronger disciple, but when he brought the Hundred Peaks Sect disciples back and arranged to enter the True Immortal Realm in the Outer Heaven Battlefield, problems arose.

"Sect Leader, I believe I am more suitable to enter the Outer Heaven Battlefield than the Grand Elder." Hearing the discussion between the Sect Leader and Supreme Elder to let the Supreme Elder enter the Outer Heaven Battlefield, Yao Feng immediately stood up.

Currently, Hundred Peaks Sect has only two True Immortal Realms, one is her, and the other is the Supreme Elder.

"You want to go? Nonsense!" Immortal Lord Xi Mu shouted angrily upon hearing, "You, as a mere newcomer to the True Immortal Realm with just one Immortal Palace, want to head to a battlefield filled with the six great Alien Races? Are you seeking death?"

Immortal Lord Yao Feng had never disobeyed the Supreme Elder's orders, but upon hearing his words, she unusually did not retreat immediately and argued, "Though I only have one Immortal Palace, I exist in the True Immortal Realm.

This time, both the Immortality Regainment Realm and Earth Immortal Realm entered. If they fear not death, why should I, a True Immortal Realm, fear it?"

"You are not as good as them!" Immortal Lord Xi Mu responded, pointing at Immortal Lord Yao Feng's head, "Think carefully about why recruiting includes True Immortal Realm and Earth Immortal Realm.

If I am not mistaken, the Outer Heaven Battlefield may have multiple battlefields categorized by main realms, such as battlefields dominated by the Earth Immortal Realm and those by the Immortality Regainment Realm. You would inevitably go to the battlefield predominantly for True Immortal Realm.

Wouldn't you be seeking death as a True Immortal Realm with only one Immortal Palace? We would never let the early Longevity Period Earth Immortal Realm and early Immortality Regainment Realm enter the Outer Heaven Battlefield."

"Cough cough..." Upon hearing, Cao Zhen immediately coughed twice to interrupt Immortal Lord Xi Mu, why are you dragging me into your argument?

He is still in the early Immortality Regainment Realm, and he intends to enter the Outer Heaven Battlefield as well.

Immortal Lord Yao Feng fell silent upon hearing, knowing the Supreme Elder's words were true, yet she spoke again, "Even so, it's more suitable for me to go. Uncle, you are the strongest presence in our Hundred Peaks Sect, and also the strongest in our Ten Thousand Immortals Peak. Many of Ten Thousand Immortals Peak's legacies are carried within you.

If something happens to you, what about those legacies? What about the Hundred Peaks Sect?"

Upon Immortal Lord Yao Feng's words, many within Hundred Peaks Sect secretly nodded, agreeing with Immortal Lord Yao Feng's concerns.

Immortal Lord Yao Feng's cultivation base is indeed too weak, just having entered the True Immortal Realm. Without the support of Immortal Lord Xi Mu, Hundred Peaks Sect would face substantial issues.

"What if I'm not here?" Immortal Lord Xi Mu dismissed Immortal Lord Yao Feng's concerns, pointing afar, "You heard Sword Lord's words earlier; there's an alliance among our Human Clan now, forbidding mutual slaughter among Great Teachings.

If anyone troubles Hundred Peaks Sect, they may go to Thistle Sect.

No need to say anything further; I know you want to speak about small frictions or discovering new ruins. Without me, will Hundred Peaks Sect have many troubles?

Even without me, Sect Leader Cao remains. Though the current Sect Leader has not restored his peak cultivation base, there is Immortal Lord Jue Zhen, who has accepted Sect Leader Cao as her Pathfinder.

Moreover, there's the Grand Preceptor from Guardian Immortal Imperial Dynasty; the Grand Preceptor would hardly neglect Hundred Peaks Sect, so you needn't worry about that.

As for those legacies, you have now entered the True Immortal Realm; I will impart to you all the legacies I know within this period, there's sufficient time."

Though Thistle Sect initiated the recruitment first, it doesn't imply they demanded everyone to set off immediately upon receiving it.

After all, everyone has arrangements to make and choices to consider, preparations needed; it all requires time.

Thistle Sect allotted a month for this, gathering after a month at the entrance of Fourth Dangerous Terrain.

Eastern Province contains four Dangerous Terrains; naturally, Eastern Wasteland, East Breeze, among others, are closer to the Fourth Dangerous Terrain.

For Hundred Peaks Sect, it's even nearer, so the time provision is rather ample.

"Do not argue with me further." Immortal Lord Xi Mu raised her hand to stop Immortal Lord Yao Feng from speaking further, "My cultivation surpasses yours significantly. Entering the Outer Heaven Battlefield now only leads to your demise; I may survive—even dying there is inconsequential, given my age. But you are different; you are young, and Ten Thousand Immortals Peak relies on you.

Therefore, I'll go this time. As for you, focus on cultivation and boost your cultivation base promptly.

For everyone must enter the Outer Heaven Battlefield—this time it's me, the next may be you. I certainly don't wish to return and find you dead there." *freewebnovel.com*

She understood the first batch to enter the Outer Heaven Battlefield faces utmost danger, which is why she asks Immortal Lord Yao Feng to stay.

"But, Uncle..."

Immortal Lord Yao Feng wished to speak further when the Supreme Elder's voice suddenly emerged from Hundred Peaks Sect's direction.

"I shouldn't interject in matters of your Ten Thousand Immortals Peak, yet I feel Immortal Lord Xi Mu's point is valid—you're younger and represent Ten Thousand Immortals Peak's future. Naturally, you should remain."

Chapter 2028: Selection of the Veterans

"And our Hundred Peaks Sect has always held such a tradition: when danger arises, let us old folks take the lead."

The former Supreme Elder of the Hundred Peaks Sect spoke and turned to look at Cao Zhen: "You are now the Hierarch of our Hundred Peaks Sect, but when it was just the Hundred Peaks Sect, you were already one of us, and you know our tradition."

"So please do not refuse me."

"Indeed, Hierarch, although we are now the Hundred Peaks Sect, our tradition hasn't changed. Although we haven't reached the Immortality Regainment Realm, in the Earth Immortal Realm, you should consider us old folks first." Qiu Wuxing also stepped out from the side upon hearing this.

In an instant, many of the elders in the Hundred Peaks Sect spoke out, volunteering to be the first batch to enter the Outer Heaven Battlefield.

"We old folks are as we are; let us take the lead this time."

"Though we're old, our strength in the Earth Immortal Realm is still decent."

"Our experience is also greater."

Cao Zhen listened to Tu Zhuque, Chen Qingluan, and others as they voiced their thoughts and sighed. He originally planned to select the strongest among those in the Earth Immortal Realm, but now it seems impossible, as these old folks are truly unpersuadable.

However, it's also not possible to send them all.

He pondered and nodded slightly, saying: "You can go, but not all of you. Shen Lid, Liao Youdi, and Liè Yàn must go, one of them."

With the disciples of Four Treasures Peak and Li Ke breaking through to the Immortality Regainment Realm, the strongest in the Earth Immortal Realm now are those three.

Having top-tier combat power is essential for peace of mind.

Liè Yàn, without waiting for Liao Youdi and Shen Lid, immediately spoke up: "I shall go; I am older and more experienced."

He knew that while his talent was good, it was still behind that of Shen Lid and Liao Youdi.

He had been following behind the two, partly because Cao Zhen had always provided him with pills, and partly due to those two times of Nirvana. However, the potential from those Nirvana experiences is nearly exhausted now.

So, while he still has value, he wants to contribute more to the Hundred Peaks Sect, even taking on dangerous tasks himself.

"Alright, then you will lead the team; I will think carefully about who else should go later.

Now, we need to discuss the selection from the Immortality Regainment Realm."

Compared to the Earth Immortal Realm, the Immortality Regainment Realm in the Hundred Peaks Sect is much fewer, aside from a few disciples from Four Treasures Peak, there are only Li Ke and Qiu Yixue.

Qiu Yixue was already known as Bai Fengzi when she reached the Immortal Path Domain, her talent was excellent. Though her strength is greater, she's actually younger than Tu Zhuque and others.

After breakthroughs from the likes of Linghu Gudu, either due to the changes over time or due to pills provided by Cao Zhen, she too broke through into the Immortality Regainment Realm with her innate talent.

Aside from that, there are only four disciples left at Ten Thousand Immortals Peak.

Initially, Ten Thousand Immortals Peak had five in the Immortality Regainment Realm, but with Yao Feng's breakthrough, there are naturally four now.

Counting Cao Zhen himself, the Hundred Peaks Sect's Immortality Regainment Realm totals less than twenty individuals.

The Thistle Sect is recruiting five people at once, which is quite a number.

Immortal Xi Mu glanced at Cao Zhen and after a pause, spoke: "Our Ten Thousand Immortals Peak can send two disciples."

Among their disciples at Ten Thousand Immortals Peak, there are four in the Immortality Regainment Realm, with one in the late stage and one in the mid stage, so they should send some people.

She considered and felt two would be appropriate.

One is too few, but three would weaken them, as Ten Thousand Immortals Peak has many young disciples needing guidance.

Cao Zhen nodded slightly: "That's suitable."

Sending two from Ten Thousand Immortals Peak is indeed fitting, he looked around and said: "Thus, we can decide on those from the Immortality Regainment Realm, Xiang Ziyu and Ruo Yun, you both shall enter the Outer Heaven Battlefield."

Ruo Yun is a reincarnated Great Ability, already in the mid Immortality Regainment Realm, nearly in the late stage.

Xiang Ziyu, needing no introduction, is naturally fortunate, and even if he wasn't sent, Xiang Ziyu himself would definitely head into the Outer Heaven Battlefield.

The crowd listened to the Hierarch's words, showing no surprise, for if they were choosing, they too would select Ruo Yun and Xiang Ziyu to enter the battlefield. As for the third person, they all looked at the remaining disciples of Four Treasures Peak, curious whom Sect Leader Cao would send.

For the longest time, the three strongest at Four Treasures Peak have been Xiang Ziyu, Ling Xi, and Ruo Yun.

However, Linghu Gudu and others have cultivated in the domain of changes and already broken through to the mid Immortality Regainment Realm, stronger than Ling Xi and other disciples.

Yet, who exactly will be sent remains unknown.

Man Yi felt the focus of many eyes, fearing his master would name other senior brothers or sisters, he quickly cried out: "Master, let me go."

All around, no one expected Man Yi to volunteer, showing surprise. Among the disciples of Four Treasures Peak, aside from newly-entered Tang Xiaorui, the weakest is Man Yi.

Feeling the doubtful and disdainful gazes, Man Yi stood tall and said: "Master, while I may not battle as well as the others, when it comes to running, none are better than me. I can scout ahead for you all. As for danger, unless faced with supreme powers of the Immortality Regainment Realm or the True Immortal Realm, I believe no one can catch me."

He's also a disciple of Four Treasures Peak and has long considered this place home. Though he fears death, he knows this is his time to stand up.

Chapter 2029

Ten Thousand Enemy has always been a very contradictory existence. This kid, as he himself said, is afraid of death, yet he is extremely greedy for wealth. Like Xiang Ziyu, he loves to explore those dangerous and unknown places.

The difference is, Xiang Ziyu believes he is the protagonist, and that he will certainly have protagonist-like encounters in those places.

Ten Thousand Enemy is purely greedy for wealth.

However, this kid also harbors great ambitions in his heart, dreaming of becoming a great hero like in the stories, otherwise, he wouldn't have given himself the name Ten Thousand Enemy. But when it comes to cultivation, he focuses on escape techniques. As for combat spells?

What is combat?

Everyone eyed Ten Thousand Enemy as he volunteered to go to the Outer Heaven Battlefield, slightly surprised, yet they all nodded in agreement; Ten Thousand Enemy's words were indeed suitable.

"You don't need to go." Cao Zhen gently shook his head. Ten Thousand Enemy was indeed suitable, but whether it's Ruo Yun or Xiang Ziyu, they were definitely going to the Outer Battlefield, and when you add in himself and two from the Ten Thousand Immortals Peak, the five spots were already filled.

They certainly couldn't, when others were recruiting five people, send one more themselves.

"What? Master, you won't let me go?" Ten Thousand Enemy was stunned upon hearing, and hurriedly said, "Master, really I won't be in any danger if I go. Also, I'm good at scouting, I can gather information on the Outer Battlefield, so once I return, we'll have an even faster understanding of it."

This time, he genuinely wanted to contribute to the Hundred Peaks Sect. He's been under the protection of his senior brothers and sisters and the Great Teaching since he joined; he's never done anything for it. This time, he truly wanted to make a contribution, not just go to the Outer Battlefield to seek so-called treasures.

All around, upon hearing his voice, everyone nodded.

"Yes, Sect Hierarch, I think Ten Thousand Enemy is very suitable."

"Ten Thousand Enemy excels at escaping, and his cultivation base isn't very high, so others wouldn't pay special attention to him. Him entering the Outer Battlefield might even be safer than Xiang Ziyu and Ruo Yun."

"Indeed, he could also scout the Outer Battlefield's situation, which is crucial."

"Sect Hierarch, since Ten Thousand Enemy is volunteering, you should agree."

Following one person's words, everyone else began to voice out, even Ling Xi and Yan Yourong spoke up for Ten Thousand Enemy.

Cao Zhen glanced around and finally nodded lightly, saying, "Very well. Since you wish to go, and everyone is speaking on your behalf, I have no reason to refuse you."

With that, he looked towards the Immortal Lord Xi Mu's position and said in a low voice, "Since Ten Thousand Enemy is going, Elder Xi Mu, your Ten Thousand Immortals Peak only needs to send one person."

Immortal Lord Xi Mu was slightly stunned at the words, "Only send one person? Sect Hierarchy, weren't we going to send five Immortality Regainment Realm cultivators? Counting the two from our Ten Thousand Immortals Peak, that is exactly five. If we send just one, we'll be short a person."

Everyone around was puzzled, looking at Cao Zhen. They thought the Sect Hierarchy couldn't have made such a mistake, perhaps there was someone else in his mind who must go?

"No, it's exactly right." Cao Zhen stood up, pointing to himself and said, "Because I am going too, you mustn't forget, I am also in the Immortality Regainment Realm."

Upon hearing this, everyone's faces changed dramatically, and they began to persuade him swiftly.

"Sect Hierarchy, don't!"

"Sect Hierarchy, though you are in the Immortality Regainment Realm, you are just in the early stage!" *freewebnovel.com*

"Yes, Sect Hierarchy, you are the Sect Hierarchy of our Hundred Peaks Sect, and we still need you to lead us."

Cao Zhen waved dismissively, "It's fine, Hundred Peaks Sect still has Nie Jie. All along, Nie Jie has been handling various affairs of the Hundred Peaks Sect. Even if I'm not around, with Nie Jie here, the Hundred Peaks Sect won't be in chaos."

Suddenly hearing Cao Zhen mention him, Nie Jie quickly waved his hands, "But Sect Hierarchy, there are many things I cannot make decisions on, I am not the same as you!"

Everyone around started echoing the same sentiment.

"Yes, Sect Hierarchy, you should stay."

"Sect Hierarchy, we have other disciples in the Hundred Peaks Sect, there's no need for you to risk it."

"Sect Hierarchy, please reconsider!"

Cao Zhen helplessly shook his head, "You all saw the conscription order too, no one is exempt, everyone must go to the Outer Battlefield."

"But Sect Hierarchy, perhaps they won't recruit later on."

"Yes, besides Sect Hierarchy, you could go later, after Ten Thousand Enemy and others have scouted the Outer Battlefield's situation."

"Go later? As the Sect Hierarchy, should I let the disciples take risks and explore everything for me?" Cao Zhen scanned the surroundings with a solemn gaze, "Our Hundred Peaks Sect never had a rule for disciples to be cannon fodder, risking their lives to gather information for the Sect Hierarchy and the upper echelon."

As for myself, do not forget, I am a reincarnated Great Ability, I have more methods than they do, and their methods were taught by me."

As Cao Zhen spoke, he raised his hand and pointed to Ten Thousand Enemy, "Just like him, you all know Ten Thousand Enemy excels at escape techniques, but his escape techniques were taught by me. It's just that in daily life, I have no need to use those escape methods."

In terms of survival techniques, no one has more than I do. My entering the Outer Battlefield is actually the safest. Say no more, a month later, I will head to the Outer Battlefield, and I leave the Hundred Peaks Sect to Nie Jie."

Chapter 2030

Everyone knew that the disciples of Four Treasures Peak were all taught by Cao Zhen, and they were also aware of Cao Zhen's numerous methods. Yet, everything on the Outer Heaven Battlefield was ultimately unknown to them, and they were truly worried about the Sect Hierarchy venturing there.

"Sect Hierarchy, you mustn't do this!"

"Indeed, Sect Hierarch, you shouldn't act so independently just because you are the Sect Hierarch!"

"Sect Hierarch, I think it's better for everyone to discuss this first."

"Right, gathering everyone's opinion is the best way."

Cao Zhen looked at everyone with a bit of amusement. At this moment, they were calling him independent and arbitrary, yet he felt touched because he knew they were concerned for his safety and didn't want him to take risks. However, he believed there was really no danger for him at the Outer Heaven Battlefield.

His methods were indeed numerous. He could easily alter his aura, and in case of encountering danger, he could either impersonate others or hide. He could even impersonate members of the Demon Clan, Insect Clan, or Beast Clan!

After all, he had recently connected with the two Great Demons, Zi Tie and Qin Yuan. He could also practice their cultivation techniques, and when he used the Art of Transformation, turning into these two Great Demons, those from the Demon Clan or Beast Clan might regard him as one of their own.

Moreover, in general circumstances, he didn't think he would encounter danger.

Having connected with Zi Tie, his physique became even stronger, and in one month's time, he could further enhance it. Even though one month wouldn't make him immune to all poisons, it would increase his resistance to various toxins. At that time, when encountering poisonous insects and creatures, he would be their natural adversary.

However, he couldn't share these thoughts with everyone.

"You want fairness and impartiality? You didn't have any objections to the previous four, right? Fine, in the upcoming month, you can challenge me. Anyone in the Immortality Regainment Realm who can defeat me will have the last spot.

If no one does, then it will be I who goes."

After finishing, Cao Zhen stood up and walked outside.

Behind him, everyone frowned one by one. Defeat the Sect Hierarchy? They thought, within the current Hundred Peaks Sect, it's not that no one at the Immortality Regainment Realm could defeat the Sect Hierarchy, for instance, Ruo Yun Immortal.

But the problem was, Ruo Yun Immortal already had a spot.

Apart from Ruo Yun Immortal, the remaining disciples of Four Treasures Peak, like Ling Xi, were still in the Early Immortality Regainment Realm and naturally couldn't defeat the Sect Hierarchy. After all, they had witnessed the Sect Hierarchy's Immortal Mountain.

However, Linghu Gudu and the others had already entered the Mid Immortality Regainment Realm.

Someone soon asked, "Ling Hu, do you think you can defeat your master?"

"Defeat Master? How could that be possible!" Linghu Gudu immediately shook his head, "Master, though at the Early Immortality Regainment Realm, his Immortal Mountain is taller than mine.

Besides, who knows how many methods he has. Even if my Immortal Mountain were taller than Master's by hundreds of feet, unless it's over five hundred feet taller, there's no way to defeat Master."

He even felt that even if his Immortal Mountain were five hundred feet taller than his Master's, he might not be a match for his Master.

"At least five hundred feet taller than your Master's Immortal Mountain? There's no one like that in our Hundred Peaks Sect!"

"No, actually, there is."

Suddenly, someone's gaze fell upon a few people from Ten Thousand Immortals Peak and said, "Among the people from Ten Thousand Immortals Peak, there's an Immortal at the Late Immortality Regainment Realm."

"Are you talking about the Immortal Naihe?"

At present, the only one at the Late Immortality Regainment Realm at Ten Thousand Immortals Peak, the Immortal Naihe, lightly shook his head upon hearing this and said, "Everyone, I'm afraid I can't help. Sect Leader Cao just mentioned that our Ten Thousand Immortals Peak has a spot, and naturally, it should be mine. How can I challenge Sect Leader Cao?"

"Who said that spot is yours?" Linghu Gudu suddenly reacted and laughed, "Master only said that Ten Thousand Immortals Peak would get a spot. He didn't specify who at Ten Thousand Immortals Peak. This spot can go to another disciple, and when the time comes, we can trouble Immortal Naihe to challenge my master again."

Upon hearing this, everyone quickly realized.

"Indeed, the Sect Leader never specified that spot was yours, so Immortal Naihe, you can challenge the Sect Leader."

"Immortal Naihe, we still don't know the height of your Immortal Mountain!"

Ever since Immortal Naihe arrived at the Hundred Peaks Sect, she had never shown her full strength. Being at the Late Immortality Regainment Realm, and with others only at the Early and Mid Immortality Regainment Realm, the gap was substantial, and naturally, no one had sought her for a spar. Hence, no one knew how tall her Immortal Mountain was.

Immortal Naihe first glanced at Ruo Yun Immortal before she spoke, "My Immortal Mountain is two thousand feet." Indeed, some had sought her for a spar once. When Ruo Yun Immortal broke through to the Mid Immortality Regainment Realm, she challenged Naihe once, and in the end, Naihe lost!

She was at a loss for words in her defeat. From the start of the battle, she was suppressed by Ruo Yun Immortal and could only concede that Ruo Yun Immortal indeed lived up to being a reincarnated Great Ability.

At that time, Ruo Yun Immortal's Immortal Mountain wasn't even taller than hers, but now, Ruo Yun Immortal's Immortal Mountain had already surpassed hers.

"A two thousand feet Immortal Mountain, indeed taller than the Sect Leader's!"

"At the Late Immortality Regainment Realm, reaching two thousand feet, it's quite decent, but..."
